A8. Competence of the internal audit function refers to the attainment and maintenance of knowledge and skills of the function as a whole at the level required to enable assigned tasks to be performed diligently and in accordance with applicable professional standards. Factors that may affect the external auditor's determination include the following:

- Whether the internal audit function is adequately and appropriately resourced relative to the size of the entity and the nature of its operations.
- Whether there are established policies for hiring, training and assigning internal auditors to internal audit engagements.
- Whether the internal auditors have adequate technical training and proficiency in auditing. Relevant criteria that may be considered by the external auditor in making the assessment may include, for example, the internal auditors' possession of a relevant professional designation and experience.
- Whether the internal auditors possess the required knowledge relating to the entity's financial reporting and the applicable financial reporting framework and whether the internal audit function possesses the necessary skills (for example, industry-specific knowledge) to perform work related to the entity's financial statements.
- Whether the internal auditors are members of relevant professional bodies that oblige them to comply with the relevant professional standards including continuing professional development requirements.

A9. Objectivity and competence may be viewed as a continuum. The more the internal audit function's organizational status and relevant policies and procedures adequately support the objectivity of the internal auditors and the higher the level of competence of the function, the more likely the external auditor may make use of the work of the function and in more areas. However, an organizational status and relevant policies and procedures that provide strong support for the objectivity of the internal auditors cannot compensate for the lack of sufficient competence of the internal audit function. Equally, a high level of competence of the internal audit function cannot compensate for an organizational status and policies and procedures that do not adequately support the objectivity of the internal auditors.

Application of a Systematic and Disciplined Approach (Ref: Para. 15(c))

A10. The application of a systematic and disciplined approach to planning, performing, supervising, reviewing and documenting its activities distinguishes the activities of the internal audit function from other monitoring control activities that may be performed within the entity.

A11. Factors that may affect the external auditor's determination of whether the internal audit function applies a systematic and disciplined approach include the following:

- The existence, adequacy and use of documented internal audit procedures or guidance covering such areas as risk assessments, work programs, documentation and reporting, the nature and extent of which is commensurate with the size and circumstances of an entity.
- Whether the internal audit function has appropriate quality control policies and procedures, for example, such as those policies and procedures in SQC 1¹⁶ that would be applicable to an internal audit function (such as those relating to leadership, human resources and engagement performance) or quality control requirements in standards set by the relevant professional bodies for internal auditors. Such bodies may also establish other appropriate requirements such as conducting periodic external quality assessments.

Circumstances When Work of the Internal Audit Function Cannot Be Used (Ref: Para. 16)

A12. The external auditor's evaluation of whether the internal audit function's organizational status and relevant policies and procedures adequately support the objectivity of the internal auditors, the level of competence of the internal audit function, and whether it applies a systematic and disciplined approach may indicate that the risks to the quality of the work of the function are too significant and therefore it is not appropriate to use any of the work of the function as audit evidence.

A13. Consideration of the factors in paragraphs A7, A8 and A11 of this SA individually and in aggregate is important because an individual factor is often not sufficient to conclude that the work of the internal audit function cannot be used for purposes of the audit. For example, the internal audit function's organizational status is particularly important in evaluating threats to the objectivity of the internal auditors. If the internal audit function reports to management, this would be considered a significant threat to the function's objectivity unless other factors such as those described in paragraph A7 of this SA collectively provide sufficient safeguards to reduce the threat to an acceptable level.

A14. In addition, a self-review threat¹⁷ is created when the external auditor accepts an engagement to provide internal audit services to an audit client, and the results of those services will be used in conducting the audit. This is because of the possibility that the engagement team will use the results of the internal audit service without properly evaluating those results or without exercising the same level of professional skepticism as would be exercised when the internal audit work is performed by individuals who are not members of the firm. Paragraph 290.173 of the Code of Ethics, issued by the Institute of Chartered Accountants of India therefore in the context of provision of internal audit service to financial statement audit clients, specifically provides that "a statutory auditor of an entity cannot be its internal auditor as it will not be possible for him to give an independent and objective opinion". The said Code of Ethics discusses the threats and the safeguards that can be applied to reduce the threats to an acceptable level in other circumstances.

¹⁶ Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

¹⁷ Attention of the members is also invited to paragraph 2.1 of the Guidance Note on Independence of Auditors, issued by the Institute of Chartered Accountants of India.

Determining the Nature and Extent of Work of the Internal Audit Function that Can Be Used

Factors Affecting the Determination of the Nature and Extent of the Work of the Internal Audit Function that Can Be Used (Ref: Para. 17–19)

A15. Once the external auditor has determined that the work of the internal audit function can be used for purposes of the audit, a first consideration is whether the planned nature and scope of the work of the internal audit function that has been performed, or is planned to be performed, is relevant to the overall audit strategy and audit plan that the external auditor has established in accordance with SA 300¹⁸.¹⁸

A16. Examples of work of the internal audit function that can be used by the external auditor include the following:

- Testing of the operating effectiveness of controls.
- Substantive procedures involving limited judgment.
- Observations of inventory counts.
- Tracing transactions through the information system relevant to financial reporting.
- Testing of compliance with regulatory requirements.
- In some circumstances, audits or reviews of the financial information of subsidiaries that are not significant components to the group (where this does not conflict with the requirements of SA 600)¹⁹.

A17. The external auditor's determination of the planned nature and extent of use of the work of the internal audit function will be influenced by the external auditor's evaluation of the extent to which the internal audit function's organizational status and relevant policies and procedures adequately support the objectivity of the internal auditors and the level of competence of the internal audit function in paragraph 18 of this SA. In addition, the amount of judgment needed in planning, performing and evaluating such work and the assessed risk of material misstatement at the assertion level are inputs to the external auditor's determination. Further, there are circumstances in which the external auditor cannot use the work of the internal audit function for purpose of the audit as described in paragraph 16 of this SA.

Judgments in planning and performing audit procedures and evaluating results (Ref: Para. 18(a), 30(a))

A18. The greater the judgment needed to be exercised in planning and performing the audit procedures and evaluating the audit evidence, the external auditor will need to perform more procedures directly in accordance with paragraph 18 of this SA, because using the work of the internal audit function alone will not provide the external auditor with sufficient appropriate audit evidence.

A19. Since the external auditor has sole responsibility for the audit opinion expressed, the external auditor needs to make the significant judgments in the audit engagement in accordance with paragraph 18. Significant judgments include the following:

- Assessing the risks of material misstatement;
- Evaluating the sufficiency of tests performed;
- Evaluating the appropriateness of management's use of the going concern assumption;

¹⁸ SA 300, Planning an Audit of Financial Statements.

¹⁹ SA 600, Using the Work of Another Auditor.

- Evaluating significant accounting estimates; and
- Evaluating the adequacy of disclosures in the financial statements, and other matters affecting the auditor's report.

Assessed risk of material misstatement (Ref: Para. 18(b))

A20. For a particular account balance, class of transaction or disclosure, the higher an assessed risk of material misstatement at the assertion level, the more judgment is often involved in planning and performing the audit procedures and evaluating the results thereof. In such circumstances, the external auditor will need to perform more procedures directly in accordance with paragraph 18 of this SA, and accordingly, make less use of the work of the internal audit function in obtaining sufficient appropriate audit evidence. Furthermore, as explained in SA 200²⁰, the higher the assessed risks of material misstatement, the more persuasive the audit evidence required by the external auditor will need to be, and, therefore, the external auditor will need to perform more of the work directly.

A21. As explained in SA 315²¹, significant risks require special audit consideration and therefore the external auditor's ability to use the work of the internal audit function in relation to significant risks will be restricted to procedures that involve limited judgment. In addition, where the risks of material misstatement is other than low, the use of the work of the internal audit function alone is unlikely to reduce audit risk to an acceptably low level and eliminate the need for the external auditor to perform some tests directly.

A22. Carrying out procedures in accordance with this SA may cause the external auditor to reevaluate the external auditor's assessment of the risks of material misstatement. Consequently, this may affect the external auditor's determination of whether to use the work of the internal audit function and whether further application of this SA is necessary.

Communication with Those Charged with Governance (Ref: Para. 20)

A23. In accordance with SA 260^{22, 22} the external auditor is required to communicate with those charged with governance an overview of the planned scope and timing of the audit. The planned use of the work of the internal audit function is an integral part of the external auditor's overall audit strategy and is therefore relevant to those charged with governance for their understanding of the proposed audit approach.

Using the Work of the Internal Audit Function

Discussion and Coordination with the Internal Audit Function (Ref: Para. 21)

A24. In discussing the planned use of their work with the internal audit function as a basis for coordinating the respective activities, it may be useful to address the following:

- The timing of such work.
- The nature of the work performed.
- The extent of audit coverage.
- Materiality for the financial statements as a whole (and, if applicable, materiality level or levels for particular classes of transactions, account balances or disclosures), and performance materiality.

²⁰ SA 200, paragraph A29.

²¹ SA 315, paragraph 4(e).

²² SA 260, paragraph 11.

I.438 Auditing Pronouncements

- Proposed methods of item selection and sample sizes.
- Documentation of the work performed.
- Review and reporting procedures.

A25. Coordination between the external auditor and the internal audit function is effective when, for example:

- Discussions take place at appropriate intervals throughout the period.
- The external auditor informs the internal audit function of significant matters that may affect the function.
- The external auditor is advised of and has access to relevant reports of the internal audit function and is informed of any significant matters that come to the attention of the function when such matters may affect the work of the external auditor so that the external auditor is able to consider the implications of such matters for the audit engagement.

A26. SA 200²³ discusses the importance of the auditor planning and performing the audit with professional skepticism, including being alert to information that brings into question the reliability of documents and responses to inquiries to be used as audit evidence. Accordingly, communication with the internal audit function throughout the engagement may provide opportunities for internal auditors to bring matters that may affect the work of the external auditor to the external auditor's attention.²⁴ The external auditor is then able to take such information into account in the external auditor's identification and assessment of risks of material misstatement. In addition, if such information may be indicative of a heightened risk of a material misstatement of the financial statements or may be regarding any actual, suspected or alleged fraud, the external auditor can take this into account in the external auditor's identification of risk of material misstatement due to fraud in accordance with SA 240²⁵.

Procedures to Determine the Adequacy of Work of the Internal Audit Function (Ref: Para. 23–24)

A27. The external auditor's audit procedures on the body of work of the internal audit function as a whole that the external auditor plans to use provide a basis for evaluating the overall quality of the function's work and the objectivity with which it has been performed.

A28. The procedures the external auditor may perform to evaluate the quality of the work performed and the conclusions reached by the internal audit function, in addition to reperformance in accordance with paragraph 24, include the following:

- Making inquiries of appropriate individuals within the internal audit function.
- Observing procedures performed by the internal audit function.
- Reviewing the internal audit function's work program and working papers.

²³ SA 200, paragraphs 15 and A18.

²⁴ Please see the conforming amendments to Revised SA 315, Identifying and Assessing the Risks of Material Misstatement through Understanding the Entity and Its Environment, arising pursuant to issuance of this SA 610 (Revised). These are given at the end of the document. (please see SA 315, paragraph A116 therein).

²⁵ SA 315, paragraph A11 (as given in the conforming amendments) in relation to SA 240, The Auditor's Responsibilities Relating to Fraud in an Audit of Financial Statements.

A29. The more judgment involved, the higher the assessed risk of material misstatement, the less the internal audit function's organizational status and relevant policies and procedures adequately support the objectivity of the internal auditors, or the lower the level of competence of the internal audit function, the more audit procedures are needed to be performed by the external auditor on the overall body of work of the function to support the decision to use the work of the function in obtaining sufficient appropriate audit evidence on which to base the audit opinion.

Reperformance (Ref: Para. 24)

A30. For purposes of this SA, reperformance involves the external auditor's independent execution of procedures to validate the conclusions reached by the internal audit function. This objective may be accomplished by examining items already examined by the internal audit function or, where it is not possible to do so, the same objective may also be accomplished by examining sufficient other similar items not actually examined by the internal audit function. Reperformance provides more persuasive evidence regarding the adequacy of the work of the internal audit function compared to other procedures the external auditor may perform in paragraph A28. While it is not necessary for the external auditor to do reperformance in each area of work of the internal audit function that is being used, some reperformance is required on the body of work of the internal audit function as a whole that the external auditor plans to use in accordance with paragraph 24. The external auditor is more likely to focus reperformance in those areas where more judgment was exercised by the internal audit function in planning, performing and evaluating the results of the audit procedures and in areas of higher risk of material misstatement.

Determining Whether, in Which Areas and to What Extent Internal Auditors Can Be Used to Provide Direct Assistance

Determining Whether Internal Auditors Can Be Used to Provide Direct Assistance for Purposes of the Audit (Ref: Para. 5, 26–28)

A31. In case where the external auditor is prohibited by law or regulation from using internal auditors to provide direct assistance, it is relevant for the principal auditors to consider whether the prohibition also extends to component auditors and, if so, to address this in the communication to the component auditors.

A32. As stated in paragraph A7 of this SA, objectivity refers to the ability to perform the proposed work without allowing bias, conflict of interest or undue influence of others to override professional judgments. In evaluating the existence and significance of threats to the objectivity of an internal auditor, the following factors may be relevant:

- The extent to which the internal audit function's organizational status and relevant policies and procedures support the objectivity of the internal auditors²⁶.
- Family and personal relationships with an individual working in, or responsible for, the aspect of the entity to which the work relates.
- Association with the division or department in the entity to which the work relates.
- Significant financial interests in the entity other than remuneration on terms consistent with those applicable to other employees at a similar level of seniority.

Material issued by relevant professional bodies for internal auditors may provide additional useful guidance.

²⁶ See paragraph A7.

A33. There may also be some circumstances in which the significance of the threats to the objectivity of an internal auditor is such that there are no safeguards that could reduce them to an acceptable level. For example, because the adequacy of safeguards is influenced by the significance of the work in the context of the audit, paragraph 30(a) and (b) prohibits the use of internal auditors to provide direct assistance in relation to performing procedures that involve making significant judgments in the audit or that relate to higher assessed risks of material misstatement where the judgment required in performing the relevant audit procedures or evaluating the audit evidence gathered is more than limited. This would also be the case where the work involved creates a self-review threat, which is why internal auditors are prohibited from performing procedures in the circumstances described in paragraph 30(c) and (d).

A34. In evaluating the level of competence of an internal auditor, many of the factors in paragraph A8 of this SA may also be relevant, applied in the context of individual internal auditors and the work to which they may be assigned.

Determining the Nature and Extent of Work that Can Be Assigned to Internal Auditors Providing Direct Assistance (Ref: Para. 29–31)

A35. Paragraphs A15–A22 of this SA provide relevant guidance in determining the nature and extent of work that may be assigned to internal auditors.

A36. In determining the nature of work that may be assigned to internal auditors, the external auditor is careful to limit such work to those areas that would be appropriate to be assigned. Examples of activities and tasks that would not be appropriate to use internal auditors to provide direct assistance include the following:

- Discussion of fraud risks. However, the external auditors may make inquiries of internal auditors about fraud risks in the organization in accordance with SA 315²⁷.
- Determination of unannounced audit procedures as addressed in SA 240.

A37. Similarly, since in accordance with SA 505²⁸ the external auditor is required to maintain control over external confirmation requests and evaluate the results of external confirmation procedures, it would not be appropriate to assign these responsibilities to internal auditors. However, internal auditors may assist in assembling information necessary for the external auditor to resolve exceptions in confirmation responses.

A38. The amount of judgment involved and the risk of material misstatement are also relevant in determining the work that may be assigned to internal auditors providing direct assistance. For example, in circumstances where the valuation of accounts receivable is assessed as an area of higher risk, the external auditor could assign the checking of the accuracy of the aging to an internal auditor providing direct assistance. However, because the evaluation of the adequacy of the provision based on the aging would involve more than limited judgment, it would not be appropriate to assign that latter procedure to an internal auditor providing direct assistance.

A39. Notwithstanding the direction, supervision and review by the external auditor, excessive use of internal auditors to provide direct assistance may affect perceptions regarding the independence of the external audit engagement.

²⁷ SA 315, paragraph 6(a).

²⁸ SA 505, External Confirmations, paragraphs 7 and 16.

Using Internal Auditors to Provide Direct Assistance (Ref: Para. 34)

A40. As individuals in the internal audit function are not independent of the entity as is required of the external auditor when expressing an opinion on financial statements, the external auditor's direction, supervision and review of the work performed by internal auditors providing direct assistance will generally be of a different nature and more extensive than if members of the engagement team perform the work.

A41. In directing the internal auditors, the external auditor may, for example, remind the internal auditors to bring accounting and auditing issues identified during the audit to the attention of the external auditor. In reviewing the work performed by the internal auditors, the external auditor's considerations include whether the evidence obtained is sufficient and appropriate in the circumstances, and that it supports the conclusions reached.

RELATED CONFORMING AMENDMENTS

Note: The following are conforming amendments to SQC 1 and other SAs as a result of SA 610 (Revised), *Using the Work of Internal Auditors*. The footnote numbers within these amendments do not align with the SAs that will be amended, and reference should be made to those SAs.

SQC 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements

Definitions

6. In this SQC, the following terms have the meanings attributed below:

(e) Engagement team – all personnel performing an engagement, including any experts contracted by the firm in connection with that engagement. The term “engagement team” excludes individuals within the client’s internal audit function who provide direct assistance on an audit engagement when the external auditor complies with the requirements of SA 610 (Revised)²⁹.

SA 220, Quality Control for an Audit of Financial Statements

Definitions

7. For purposes of the SAs, the following terms have the meanings attributed below:

(d) Engagement team – all personnel performing an engagement, including any experts contracted by the firm in connection with that engagement. The term “engagement team” excludes individuals within the client’s internal audit function who provide direct assistance on an audit engagement when the external auditor complies with the requirements of SA 610 (Revised)³⁰.

²⁹ SA 610 (Revised), *Using the Work of Internal Auditors*, establishes limits on the use of direct assistance. It also acknowledges that the external auditor may be prohibited by law or regulation from obtaining direct assistance from internal auditors. Therefore, the use of direct assistance is restricted to situations where it is permitted.

³⁰ SA 610 (Revised), *Using the Work of Internal Auditors*, establishes limits on the use of direct assistance. It also acknowledges that the external auditor may be prohibited by law or regulation from obtaining direct assistance from internal auditors. Therefore, the use of direct assistance is restricted to situations where it is permitted.

SA 260, Communication with Those Charged with Governance

A18. Other planning matters that it may be appropriate to discuss with those charged with governance include:

- Where the entity has an internal audit function, the extent to which the auditor will use the work of internal audit, and how the external and internal auditors can best work together in a constructive and complementary manner, and the nature and extent of any planned use of internal auditors to provide direct assistance³¹.
- SA 300, Planning an Audit of Financial Statements

Appendix

Characteristics of the Engagement

- The availability of the work of internal auditors and the extent of the auditor's potential reliance on such work, or internal auditors can be used to provide direct assistance.

SA 315, Identifying and Assessing the Risks of Material Misstatement Through Understanding the Entity and Its Environment

6. The risk assessment procedures shall include the following:

- (a) Inquiries of management, of appropriate individuals within the internal audit function (if the function exists), and of others within the entity who in the auditor's judgment may have information that is likely to assist in identifying risks of material misstatement due to fraud or error. (Ref: Para. A6-A13)

23. If the entity has an internal audit function³², the auditor shall obtain an understanding of ~~the following in order to determine whether the internal audit function is likely to be relevant to the audit:~~

- ~~(a) The nature of the internal audit function's responsibilities, and how the internal audit function fits in the entity's organisational structure status, and~~
- ~~(b) The activities performed, or to be performed, by the internal audit function. (Ref: Para. A101-109 - A103-116)~~

Inquiries of Management, the Internal Audit Function and Others Within the Entity (Ref: Para. 6(a))

A6. Much of the information obtained by the auditor's inquiries is obtained from management and those responsible for financial reporting. Information may also be obtained by the auditor through inquiries with the internal audit function, if the entity has such a function, and others within the entity.

~~A7. However,~~ The auditor may also obtain information, or a different perspective in identifying risks of material misstatement, through inquiries of others within the entity and other employees with different levels of authority. For example:

³¹ SA 610 (Revised), paragraphs 20 and 31.

³² SA 610 (Revised), "Using the Work of Internal Auditors", paragraph 7(a)14(a), defines the term "internal audit function" for purposes of the SAs.

□

□ ~~Inquiries directed toward internal audit personnel may provide information about internal audit procedures performed during the year relating to the design and effectiveness of the entity's internal control and whether management has satisfactorily responded to findings from those procedures.~~

□

□

□

Inquiries of the Internal Audit Function

A9. If an entity has an internal audit function, inquiries of the appropriate individuals within the function may provide information that is useful to the auditor in obtaining an understanding of the entity and its environment, and in identifying and assessing risks of material misstatement at the financial statement and assertion levels. In performing its work, the internal audit function is likely to have obtained insight into the entity's operations and business risks, and may have findings based on its work, such as identified control deficiencies or risks, that may provide valuable input into the auditor's understanding of the entity, the auditor's risk assessments or other aspects of the audit. The auditor's inquiries are therefore made whether or not the auditor expects to use the work of the internal audit function to modify the nature or timing, or reduce the extent, of audit procedures to be performed³³. Inquiries of particular relevance may be about matters the internal audit function has raised with those charged with governance and the outcomes of the function's own risk assessment process.

A10. If, based on responses to the auditor's inquiries, it appears that there are findings that may be relevant to the entity's financial reporting and the audit, the auditor may consider it appropriate to read related reports of the internal audit function. Examples of reports of the internal audit function that may be relevant include the function's strategy and planning documents and reports that have been prepared for management or those charged with governance describing the findings of the internal audit function's examinations.

A11. In addition, in accordance with SA 240³⁴, if the internal audit function provides information to the auditor regarding any actual, suspected or alleged fraud, the auditor takes this into account in the auditor's identification of risk of material misstatement due to fraud.

A12. Appropriate individuals within the internal audit function with whom inquiries are made are those who, in the auditor's judgment, have the appropriate knowledge, experience and authority, such as the chief internal audit executive or, depending on the circumstances, other personnel within the function. The auditor may also consider it appropriate to have periodic meetings with these individuals.

Considerations specific to public sector entities (Ref: Para 6(a))

A13. Auditors of public sector entities often have additional responsibilities with regard to internal control and compliance with applicable laws and regulations. Inquiries of appropriate individuals in the internal audit function can assist the auditors in identifying the risk of material noncompliance with applicable laws and regulations and the risk of deficiencies in internal control over financial reporting.

³³ The relevant requirements are contained in SA 610 (Revised).

³⁴ SA 240, paragraph 19.

I.444 Auditing Pronouncements

A79. The auditor may also consider how management has responded to the findings and recommendations of the internal audit function regarding identified deficiencies in internal control relevant to the audit, including whether and how such responses have been implemented, and whether they have been subsequently evaluated by the internal audit function.

The Entity's Internal Audit Functions-(Ref: Para 23)

A109404. ~~If the The entity's has an internal audit function, obtaining an understanding of that function contributes to the auditor's understanding of the entity and its environment, including internal control in particular the role that the function plays in the entity's monitoring of internal control over financial reporting. This understanding, together with the information obtained from the auditor's inquiries in paragraph 6(a) of this SA, may also provide information that is directly relevant to the auditor's identification and assessment of the risks of material misstatement. is likely to be relevant to the audit if the nature of the internal audit function's responsibilities and activities are related to the entity's financial reporting, and the auditor expects to use the work of the internal auditors to modify the nature or timing, or reduce the extent, of audit procedures to be performed. When the auditor determines that the internal audit function is likely to be relevant to the audit, SA 610 applies.~~

A110102. The objectives and scope of an internal audit function, and therefore the nature of its responsibilities and its status within the organisation, including the function's authority and accountability, vary widely and depend on the size and structure of the entity and the requirements of management and, where applicable, those charged with governance. The responsibilities of an internal audit function may include, for example, monitoring of internal control, risk management, and review of compliance with laws and regulations. On the other hand, the responsibilities of the internal audit function may be limited to the review of the economy, efficiency and effectiveness of operations, for example, and accordingly, may not relate to the entity's financial reporting. These matters may be set out in an internal audit charter or terms of reference.

A111. The responsibilities of an internal audit function may include performing procedures and evaluating the results to provide assurance to management and those charged with governance regarding the design and effectiveness of risk management, internal control and governance processes. If so, the internal audit function may play an important role in the entity's monitoring of internal control over financial reporting. However, the responsibilities of the internal audit function may be focussed on evaluating the economy, efficiency and effectiveness of operations and, if so, the work of the function may not directly relate to the entity's financial reporting.

A112. The auditor's inquiries of appropriate individuals within the internal audit function in accordance with paragraph 6(a) of this SA help the auditor obtain an understanding of the nature of the internal audit function's responsibilities. If the auditor determines that the function's responsibilities are related to the entity's financial reporting, the auditor may obtain further understanding of the activities performed, or to be performed, by the internal audit function by reviewing the internal audit function's audit plan for the period, if any, and discussing that plan with the appropriate individuals within the function.

A113103. If the nature of the internal audit function's responsibilities and assurance activities are related to the entity's financial reporting, the auditor may also be able to use the work of the internal audit function to modify the nature or timing, or reduce the extent, of audit procedures to be performed directly by the auditor in obtaining audit evidence. Auditors may be more likely to be able to use the work of an entity's internal audit function when it appears, for example, based on experience in previous audits or the auditor's risk assessment procedures, that the entity has an internal audit function that is adequately and appropriately resourced relative to the size of the entity and the nature of its operations, and has a

direct reporting relationship to those charged with governance.the external auditor's consideration of the activities performed, or to be performed by, the internal audit function may include review of the internal audit function's audit plan for the period, if any, and discussion of that plan with the internal auditors.

A114. If, based on the auditor's preliminary understanding of the internal audit function, the auditor expects to use the work of the internal audit function to modify the nature or timing, or reduce the extent, of audit procedures to be performed, SA 610 (Revised) applies.

A115. As is further discussed in SA 610 (Revised), the activities of an internal audit function are distinct from other monitoring controls that may be relevant to financial reporting, such as reviews of management accounting information that are designed to contribute to how the entity prevents or detects misstatements.

A116. Establishing communications with the appropriate individuals within an entity's internal audit function early in the engagement, and maintaining such communications throughout the engagement, can facilitate effective sharing of information. It creates an environment in which the auditor can be informed of significant matters that may come to the attention of the internal audit function when such matters may affect the work of the auditor. SA 200 discusses the importance of the auditor planning and performing the audit with professional skepticism, including being alert to information that brings into question the reliability of documents and responses to inquiries to be used as audit evidence. Accordingly, communication with the internal audit function throughout the engagement may provide opportunities for internal auditors to bring such information to the auditor's attention. The auditor is then able to take such information into account in the auditor's identification and assessment of risks of material misstatement.

SA 620*

Using the Work of an Auditor's Expert
*(Effective for all audits relating to
accounting periods beginning on or after April 1, 2010)*

Introduction

Scope of this SA

1. This Standard on Auditing (SA) deals with the auditor's responsibilities regarding the use of an individual or organisation's work in a field of expertise other than accounting or auditing, when that work is used to assist the auditor in obtaining sufficient appropriate audit evidence.
2. This SA does not deal with:
 - (a) Situations where the engagement team includes a member with expertise in specialised area of accounting or auditing, which is dealt with in SA 220¹; or
 - (b) The auditor's use of the work of an individual or organisation possessing expertise in a field other than accounting or auditing, whose work in that field is used by the entity to assist the entity in preparing the financial statements (a management's expert), which is dealt with in SA 500².

The Auditor's Responsibility for the Audit Opinion

3. The auditor has sole responsibility for the audit opinion expressed, and that responsibility is not reduced by the auditor's use of the work of an auditor's expert. Nonetheless, if the auditor using the work of an auditor's expert, having followed this SA, concludes that the work of that expert is adequate for the auditor's purposes, the auditor may accept that expert's findings or conclusions in the expert's field as appropriate audit evidence.

Effective Date

4. This SA is effective for audits of financial statements for periods beginning on or after April 1, 2010.

Objectives

5. The objectives of the auditor are:
 - (a) To determine whether to use the work of an auditor's expert; and
 - (b) If using the work of an auditor's expert, to determine whether that work is adequate for the auditor's purposes.

Definitions

6. For purposes of the SAs, the following terms have the meanings attributed below:
 - (a) Auditor's expert – An individual or organisation possessing expertise in a field other than accounting or auditing, whose work in that field is used by the auditor to assist the auditor in obtaining sufficient appropriate audit evidence. An auditor's expert may be either an auditor's internal expert (who is a

¹ SA 220, "Quality Control for an Audit of Financial Statements", paragraph A20.

² SA 500, "Audit Evidence", paragraphs A34-A48.

partner or staff, including temporary staff, of the auditor's firm or a network firm), or an auditor's external expert. (Ref: Para. A1-A3)

- (b) Expertise – Skills, knowledge and experience in a particular field.
- (c) Management's expert – An individual or organisation possessing expertise in a field other than accounting or auditing, whose work in that field is used by the entity to assist the entity in preparing the financial statements.

Requirements

Determining the Need for an Auditor's Expert

7. If expertise in a field other than accounting or auditing is necessary to obtain sufficient appropriate audit evidence, the auditor shall determine whether to use the work of an auditor's expert. (Ref: Para. A4-A9)

Nature, Timing and Extent of Audit Procedures

8. The nature, timing and extent of the auditor's procedures with respect to the requirements in paragraphs 9-13 of this SA will vary depending on the circumstances. In determining the nature, timing and extent of those procedures, the auditor shall consider matters including: (Ref: Para. A10)

- (a) The nature of the matter to which that expert's work relates;
- (b) The risks of material misstatement in the matter to which that expert's work relates;
- (c) The significance of that expert's work in the context of the audit;
- (d) The auditor's knowledge of and experience with previous work performed by that expert; and
- (e) Whether that expert is subject to the auditor's firm's quality control policies and procedures. (Ref: Para. A11-A13)

The Competence, Capabilities and Objectivity of the Auditor's Expert

9. The auditor shall evaluate whether the auditor's expert has the necessary competence, capabilities and objectivity for the auditor's purposes. In the case of an auditor's external expert, the evaluation of objectivity shall include inquiry regarding interests and relationships that may create a threat to that expert's objectivity. (Ref: Para. A14-A20)

Obtaining an Understanding of the Field of Expertise of the Auditor's Expert

10. The auditor shall obtain a sufficient understanding of the field of expertise of the auditor's expert to enable the auditor to: (Ref: Para. A21-A22)

- (a) Determine the nature, scope and objectives of that expert's work for the auditor's purposes; and
- (b) Evaluate the adequacy of that work for the auditor's purposes.

Agreement with the Auditor's Expert

11. The auditor shall agree, in writing when appropriate, on the following matters with the auditor's expert: (Ref: Para. A23-A26)

- (a) The nature, scope and objectives of that expert's work; (Ref: Para. A27)
- (b) The respective roles and responsibilities of the auditor and that expert; (Ref: Para. A28-A29)
- (c) The nature, timing and extent of communication between the auditor and that expert, including the form of any report to be provided by that expert; and (Ref: Para. A30)
- (d) The need for the auditor's expert to observe confidentiality requirements. (Ref: Para. A31)

I.448 Auditing Pronouncements

Evaluating the Adequacy of the Auditor's Expert's Work

12. The auditor shall evaluate the adequacy of the auditor's expert's work for the auditor's purposes, including: (Ref: Para. A32)

- (a) The relevance and reasonableness of that expert's findings or conclusions, and their consistency with other audit evidence; (Ref: Para. A33-A34)
- (b) If that expert's work involves use of significant assumptions and methods, the relevance and reasonableness of those assumptions and methods in the circumstances; and (Ref: Para. A35-A37)
- (c) If that expert's work involves the use of source data that is significant to that expert's work, the relevance, completeness, and accuracy of that source data. (Ref: Para. A38-A39)

13. If the auditor determines that the work of the auditor's expert is not adequate for the auditor's purposes, the auditor shall: (Ref: Para. A40)

- (a) Agree with that expert on the nature and extent of further work to be performed by that expert; or
- (b) Perform further audit procedures appropriate to the circumstances.

Reference to the Auditor's Expert in the Auditor's Report

14. The auditor shall not refer to the work of an auditor's expert in an auditor's report containing an unmodified opinion unless required by law or regulation to do so. If such reference is required by law or regulation, the auditor shall indicate in the auditor's report that the reference does not reduce the auditor's responsibility for the audit opinion. (Ref: Para. A41)

15. If the auditor makes reference to the work of an auditor's expert in the auditor's report because such reference is relevant to an understanding of a modification to the auditor's opinion, the auditor shall indicate in the auditor's report that such reference does not reduce the auditor's responsibility for that opinion. (Ref: Para. A42)

Application and Other Explanatory Material

Definitions

Auditor's Expert (Ref: Para. 6(a))

A1. Expertise in a field other than accounting or auditing may include expertise in relation to such matters as:

- The valuation of complex financial instruments, land and buildings, plant and machinery, jewelry, works of art, antiques, intangible assets, assets acquired and liabilities assumed in business combinations and assets that may have been impaired.
- The actuarial calculation of liabilities associated with insurance contracts or employee benefit plans.
- The estimation of oil and gas reserves.
- The valuation of environmental liabilities, and site clean-up costs.
- The interpretation of contracts, laws and regulations.
- The analysis of complex or unusual tax compliance issues.

A2. In many cases, distinguishing between expertise in accounting or auditing, and expertise in another field, will be straightforward, even where this involves a specialised area of accounting or auditing. For example, an individual with expertise in applying methods of accounting for deferred income tax can often be easily distinguished from an expert in taxation law. The former is not an expert for the purposes of this SA as this constitutes accounting expertise; the latter is an expert for the purposes of this SA as this constitutes

legal expertise. Similar distinctions may also be able to be made in other areas, for example, between expertise in methods of accounting for financial instruments, and expertise in complex modeling for the purpose of valuing financial instruments. In some cases, however, particularly those involving an emerging area of accounting or auditing expertise, distinguishing between specialised areas of accounting or auditing, and expertise in another field, will be a matter of professional judgment. Applicable professional rules and standards regarding education and competency requirements for accountants and auditors may assist the auditor in exercising that judgment.

A3. It is necessary to apply judgment when considering how the requirements of this SA are affected by the fact that an auditor's expert may be either an individual or an organisation. For example, when evaluating the competence, capabilities and objectivity of an auditor's expert, it may be that the expert is an organisation the auditor has previously used, but the auditor has no prior experience of the individual expert assigned by the organisation for the particular engagement; or it may be the reverse, that is, the auditor may be familiar with the work of an individual expert but not with the organisation that expert has joined. In either case, both the personal attributes of the individual and the managerial attributes of the organisation (such as systems of quality control the organisation implements) may be relevant to the auditor's evaluation.

Determining the Need for an Auditor's Expert (Ref: Para. 7)

A4. An auditor's expert may be needed to assist the auditor in one or more of the following:

- Obtaining an understanding of the entity and its environment, including its internal control.
- Identifying and assessing the risks of material misstatement.
- Determining and implementing overall responses to assessed risks at the financial statement level.
- Designing and performing further audit procedures to respond to assessed risks at the assertion level, comprising tests of controls or substantive procedures.
- Evaluating the sufficiency and appropriateness of audit evidence obtained in forming an opinion on the financial statements.

A5. The risks of material misstatement may increase when expertise in a field other than accounting is needed for management to prepare the financial statements, for example, because this may indicate some complexity, or because management may not possess knowledge of the field of expertise. If in preparing the financial statements management does not possess the necessary expertise, a management's expert may be used in addressing those risks. Relevant controls, including controls that relate to the work of a management's expert, if any, may also reduce the risks of material misstatement.

A6. If the preparation of the financial statements involves the use of expertise in a field other than accounting, the auditor, who is skilled in accounting and auditing, may not possess the necessary expertise to audit those financial statements. The engagement partner is required to be satisfied that the engagement team, and any auditor's experts who are not part of the engagement team, collectively have the appropriate competence and capabilities to perform the audit engagement³. Further, the auditor is required to ascertain the nature, timing and extent of resources necessary to perform the engagement⁴. The auditor's determination of whether to use the work of an auditor's expert, and if so when and to what extent, assists the auditor in meeting these requirements. As the audit progresses, or as circumstances change, the auditor may need to revise earlier decisions about using the work of an auditor's expert.

A7. An auditor who is not an expert in a relevant field other than accounting or auditing may nevertheless

³ SA 220, paragraph 14.

⁴ SA 300, "Planning an Audit of Financial Statements", paragraph 7(e).

I.450 Auditing Pronouncements

be able to obtain a sufficient understanding of that field to perform the audit without an auditor's expert. This understanding may be obtained through, for example:

- Experience in auditing entities that require such expertise in the preparation of their financial statements.
- Education or professional development in the particular field. This may include formal courses, or discussion with individuals possessing expertise in the relevant field for the purpose of enhancing the auditor's own capacity to deal with matters in that field. Such discussion differs from consultation with an auditor's expert regarding a specific set of circumstances encountered on the engagement where that expert is given all the relevant facts that will enable the expert to provide informed advice about the particular matter⁵.
- Discussion with auditors who have performed similar engagements.

A8. In other cases, however, the auditor may determine that it is necessary, or may choose, to use an auditor's expert to assist in obtaining sufficient appropriate audit evidence. Considerations when deciding whether to use an auditor's expert may include:

- Whether management has used a management's expert in preparing the financial statements (see paragraph A9).
- The nature and significance of the matter, including its complexity.
- The risks of material misstatement in the matter.
- The expected nature of procedures to respond to identified risks, including the auditor's knowledge of and experience with the work of experts in relation to such matters; and the availability of alternative sources of audit evidence.

A9. When management has used a management's expert in preparing the financial statements, the auditor's decision on whether to use an auditor's expert may also be influenced by such factors as:

- The nature, scope and objectives of the management's expert's work.
- Whether the management's expert is employed by the entity, or is a party engaged by it to provide relevant services.
- The extent to which management can exercise control or influence over the work of the management's expert.
- The management's expert's competence and capabilities.
- Whether the management's expert is subject to technical performance standards or other professional or industry requirements.
- Any controls within the entity over the management's expert's work.

SA 500⁶ includes requirements and guidance regarding the effect of the competence, capabilities and objectivity of management's experts on the reliability of audit evidence.

Nature, Timing and Extent of Audit Procedures (Ref: Para. 8)

A10. The nature, timing and extent of audit procedures with respect to the requirements in paragraphs 9-13 of this SA will vary depending on the circumstances. For example, the following factors may suggest the

⁵ SA 220, paragraph A21.

⁶ SA 500, paragraphs 8 and A34-A48.

need for different or more extensive procedures than would otherwise be the case:

- The work of the auditor's expert relates to a significant matter that involves subjective and complex judgments.
- The auditor has not previously used the work of the auditor's expert, and has no prior knowledge of that expert's competence, capabilities and objectivity.
- The auditor's expert is performing procedures that are integral to the audit, rather than being consulted to provide advice on an individual matter.
- The expert is an auditor's external expert and is not, therefore, subject to the firm's quality control policies and procedures.

The Auditor's Firm's Quality Control Policies and Procedures (Ref: Para. 8(e))

A11. An auditor's internal expert may be a partner or staff, including temporary staff, of the auditor's firm, and therefore subject to the quality control policies and procedures of that firm in accordance with SQC 1⁷. Alternatively, an auditor's internal expert may be a partner or staff, including temporary staff, of a network firm, which may share common quality control policies and procedures with the auditor's firm.

A12. An auditor's external expert is not a member of the engagement team and is not subject to quality control policies and procedures in accordance with SQC 1⁸. Some law(s) or regulation(s), however, may require that an auditor's external expert be treated as a member of the engagement team, and may therefore be subject to relevant ethical and other professional requirements, including those relating to independence, as determined by such law(s) or regulation(s)⁹.

A13. Engagement teams are entitled to rely on the firm's system of quality control, unless information provided by the firm or other parties suggests otherwise¹⁰. The extent of that reliance will vary with the circumstances, and may affect the nature, timing and extent of the auditor's procedures with respect to such matters as:

- Competence and capabilities, through recruitment and training programs.
- Objectivity. Auditor's internal experts are subject to relevant ethical requirements, including those pertaining to independence.
- The auditor's evaluation of the adequacy of the auditor's expert's work. For example, the firm's training programs may provide auditor's internal experts with an appropriate understanding of the interrelationship of their expertise with the audit process. Reliance on such training and other firm processes, such as protocols for scoping the work of auditor's internal experts, may affect the nature, timing and extent of the auditor's procedures to evaluate the adequacy of the auditor's expert's work.
- Adherence to regulatory and legal requirements, through monitoring processes.
- Agreement with the auditor's expert.

Such reliance does not reduce the auditor's responsibility to meet the requirements of this SA.

⁷ SQC 1, paragraph 6(e).

⁸ SQC 1, paragraph 6(e).

⁹ Relevant ethical requirements ordinarily comprise the Code of Ethics of the Institute of Chartered Accountants of India related to an audit of financial statements.

¹⁰ SA 220, paragraph 4.

I.452 Auditing Pronouncements

The Competence, Capabilities and Objectivity of the Auditor's Expert (Ref: Para. 9)

A14. The competence, capabilities and objectivity of an auditor's expert are factors that significantly affect whether the work of the auditor's expert will be adequate for the auditor's purposes. Competence relates to the nature and level of expertise of the auditor's expert. Capability relates to the ability of the auditor's expert to exercise that competence in the circumstances of the engagement. Factors that influence capability may include, for example, geographic location, and the availability of time and resources. Objectivity relates to the possible effects that bias, conflict of interest, or the influence of others may have on the professional or business judgment of the auditor's expert.

A15. Information regarding the competence, capabilities and objectivity of an auditor's expert may come from a variety of sources, such as:

- Personal experience with previous work of that expert.
- Discussions with that expert.
- Discussions with other auditors or others who are familiar with that expert's work.
- Knowledge of that expert's qualifications, membership of a professional body or industry association, license to practice, or other forms of external recognition.
- Published papers or books written by that expert.
- The auditor's firm's quality control policies and procedures (see paragraphs A11-A13)

A16. Matters relevant to evaluating the competence, capabilities and objectivity of the auditor's expert include whether that expert's work is subject to technical performance standards or other professional or industry requirements, for example, ethical standards and other membership requirements of a professional body or industry association, accreditation standards of a licensing body, or requirements imposed by law or regulation.

A17. Other matters that may be relevant include:

- The relevance of the auditor's expert's competence to the matter for which that expert's work will be used, including any areas of specialty within that expert's field. For example, a particular actuary may specialise in property and casualty insurance, but have limited expertise regarding pension calculations.
- The auditor's expert's competence with respect to relevant accounting and auditing requirements, for example, knowledge of assumptions and methods, including models where applicable, that are consistent with the applicable financial reporting framework.
- Whether unexpected events, changes in conditions, or the audit evidence obtained from the results of audit procedures indicate that it may be necessary to reconsider the initial evaluation of the competence, capabilities and objectivity of the auditor's expert as the audit progresses.

A18. A broad range of circumstances may threaten objectivity, for example, self-interest threats, advocacy threats, familiarity threats, self-review threats, and intimidation threats. Safeguards may eliminate or reduce such threats, and may be created by external structures (for example, the auditor's expert's profession, legislation or regulation), or by the auditor's expert's work environment (for example, quality control policies and procedures). There may also be safeguards specific to the audit engagement.

A19. The evaluation of the significance of threats to objectivity and of whether there is a need for safeguards may depend upon the role of the auditor's expert and the significance of the expert's work in the context of the audit. There may be some circumstances in which safeguards cannot reduce threats to an acceptable level, for example, if a proposed auditor's expert is an individual who has played a significant role in

preparing the information that is being audited, that is, if the auditor's expert is a management's expert.

A20. When evaluating the objectivity of an auditor's external expert, it may be relevant to:

- (a) Inquire of the entity about any known interests or relationships that the entity has with the auditor's external expert that may affect that expert's objectivity.
- (b) Discuss with that expert any applicable safeguards, including any professional requirements that apply to that expert; and evaluate whether the safeguards are adequate to reduce threats to an acceptable level. Interests and relationships that may be relevant to discuss with the auditor's expert include:
 - Financial interests.
 - Business and personal relationships.
 - Provision of other services by the expert, including by the organisation in the case of an external expert that is an organisation.
 - In some cases, it may also be appropriate for the auditor to obtain a written representation from the auditor's external expert about any interests or relationships with the entity of which that expert is aware.

Obtaining an Understanding of the Field of Expertise of the Auditor's Expert (Ref: Para. 10)

A21. The auditor may obtain an understanding of the auditor's expert's field of expertise through the means described in paragraph A7, or through discussion with that expert.

A22. Aspects of the auditor's expert's field relevant to the auditor's understanding may include:

- Whether that expert's field has areas of specialty within it that are relevant to the audit (see paragraph A17).
- Whether any professional or other standards, and regulatory or legal requirements apply.
- What assumptions and methods, including models where applicable, are used by the auditor's expert, and whether they are generally accepted within that expert's field and appropriate for financial reporting purposes.
- The nature of internal and external data or information the auditor's expert uses.

Agreement with the Auditor's Expert (Ref: Para. 11)

A23. The nature, scope and objectives of the auditor's expert's work may vary considerably with the circumstances, as may the respective roles and responsibilities of the auditor and the auditor's expert, and the nature, timing and extent of communication between the auditor and the auditor's expert. It is therefore required that these matters are agreed between the auditor and the auditor's expert regardless of whether the expert is an auditor's external expert or an auditor's internal expert.

A24. The matters noted in paragraph 8 may affect the level of detail and formality of the agreement between the auditor and the auditor's expert, including whether it is appropriate that the agreement be in writing. For example, the following factors may suggest the need for more a detailed agreement than would otherwise be the case, or for the agreement to be set out in writing:

- The auditor's expert will have access to sensitive or confidential entity information.
- The respective roles or responsibilities of the auditor and the auditor's expert are different from those normally expected.
- Multi-jurisdictional legal or regulatory requirements apply.

I.454 Auditing Pronouncements

- The matter to which the auditor's expert's work relates is highly complex.
- The auditor has not previously used work performed by that expert.
- The greater the extent of the auditor's expert's work, and its significance in the context of the audit.

A25. The agreement between the auditor and an auditor's external expert is often in the form of an engagement letter. The Appendix lists matters that the auditor may consider for inclusion in such an engagement letter, or in any other form of agreement with an auditor's external expert.

A26. When there is no written agreement between the auditor and the auditor's expert, evidence of the agreement may be included in, for example:

- Planning memoranda, or related working papers such as the audit program.
- The policies and procedures of the auditor's firm. In the case of an auditor's internal expert, the established policies and procedures to which that expert is subject may include particular policies and procedures in relation to that expert's work. The extent of documentation in the auditor's working papers depends on the nature of such policies and procedures. For example, no documentation may be required in the auditor's working papers if the auditor's firm has detailed protocols covering the circumstances in which the work of such an expert is used.

Nature, Scope and Objectives of Work (Ref: Para. 11(a))

A27. It may often be relevant when agreeing on the nature, scope and objectives of the auditor's expert's work to include discussion of any relevant technical performance standards or other professional or industry requirements that the expert will follow.

Respective Roles and Responsibilities (Ref: Para. 11(b))

A28. Agreement on the respective roles and responsibilities of the auditor and the auditor's expert may include:

- Whether the auditor or the auditor's expert will perform detailed testing of source data.
- Consent for the auditor to discuss the auditor's expert's findings or conclusions with the entity and others, and to include details of that expert's findings or conclusions in a modified auditor's report, if necessary (see paragraph A42).
- Any agreement to inform the auditor's expert of the auditor's conclusions concerning that expert's work.

Working Papers

A29. Agreement on the respective roles and responsibilities of the auditor and the auditor's expert may also include agreement about access to, and retention of, each other's working papers. When the auditor's expert is a member of the engagement team, that expert's working papers form part of the audit documentation. Subject to any agreement to the contrary, auditor's external experts' working papers are their own and do not form part of the audit documentation.

Communication (Ref: Para. 11(c))

A30. Effective two-way communication facilitates the proper integration of the nature, timing and extent of the auditor's expert's procedures with other work on the audit, and appropriate modification of the auditor's expert's objectives during the course of the audit. For example, when the work of the auditor's expert relates to the auditor's conclusions regarding a significant risk, both a formal written report at the conclusion of that expert's work, and oral reports as the work progresses, may be appropriate. Identification of specific partners or staff who will liaise with the auditor's expert, and procedures for communication between that expert and the entity, assists timely and effective communication, particularly on larger engagements.

Confidentiality (Ref: Para. 11(d))

A31. It is necessary for the confidentiality provisions of relevant ethical requirements that apply to the auditor also to apply to the auditor's expert. Additional requirements may be imposed by law or regulation. The entity may also have requested that specific confidentiality provisions be agreed with auditor's external experts.

Evaluating the Adequacy of the Auditor's Expert's Work (Ref: Para. 12)

A32. The auditor's evaluation of the auditor's expert's competence, capabilities and objectivity, the auditor's familiarity with the auditor's expert's field of expertise, and the nature of the work performed by the auditor's expert affect the nature, timing and extent of audit procedures to evaluate the adequacy of that expert's work for the auditor's purposes.

The Findings and Conclusions of the Auditor's Expert (Ref: Para. 12(a))

A33. Specific procedures to evaluate the adequacy of the auditor's expert's work for the auditor's purposes may include:

- Inquiries of the auditor's expert.
- Reviewing the auditor's expert's working papers and reports.
- Corroborative procedures, such as:
 - Observing the auditor's expert's work;
 - Examining published data, such as statistical reports from reputable, authoritative sources;
 - Confirming relevant matters with third parties;
 - Performing detailed analytical procedures; and
 - Re-performing calculations.
- Discussion with another expert with relevant expertise when, for example, the findings or conclusions of the auditor's expert are not consistent with other audit evidence.
- Discussing the auditor's expert's report with management.

A34. Relevant factors when evaluating the relevance and reasonableness of the findings or conclusions of the auditor's expert, whether in a report or other form, may include whether they are:

- Presented in a manner that is consistent with any standards of the auditor's expert's profession or industry;
- Clearly expressed, including reference to the objectives agreed with the auditor, the scope of the work performed and standards applied;
- Based on an appropriate period and take into account subsequent events, where relevant;
- Subject to any reservation, limitation or restriction on use, and if so, whether this has implications for the auditor; and
- Based on appropriate consideration of errors or deviations encountered by the auditor's expert.

Assumptions, Methods and Source Data

Assumptions and Methods (Ref: Para. 12(b))

A35. When the auditor's expert's work is to evaluate underlying assumptions and methods, including models where applicable, used by management in developing an accounting estimate, the auditor's procedures are likely to be primarily directed to evaluating whether the auditor's expert has adequately reviewed those assumptions and methods. When the auditor's expert's work is to develop an auditor's point estimate or an

I.456 Auditing Pronouncements

auditor's range for comparison with management's point estimate, the auditor's procedures may be primarily directed to evaluating the assumptions and methods, including models where appropriate, used by the auditor's expert.

A36. SA 540¹¹ discusses the assumptions and methods used by management in making accounting estimates, including the use in some cases of highly specialised, entity-developed models. Although that discussion is written in the context of the auditor obtaining sufficient appropriate audit evidence regarding management's assumptions and methods, it may also assist the auditor when evaluating an auditor's expert's assumptions and methods.

A37. When an auditor's expert's work involves the use of significant assumptions and methods, factors relevant to the auditor's evaluation of those assumptions and methods include whether they are:

- Generally accepted within the auditor's expert's field;
- Consistent with the requirements of the applicable financial reporting framework;
- Dependent on the use of specialised models; and
- Consistent with those of management, and if not, the reason for, and effects of, the differences.

Source Data Used by the Auditor's Expert (Ref: Para. 12(c))

A38. When an auditor's expert's work involves the use of source data that is significant to that expert's work, procedures such as the following may be used to test that data:

- Verifying the origin of the data, including obtaining an understanding of, and where applicable testing, the internal controls over the data and, where relevant, its transmission to the expert.
- Reviewing the data for completeness and internal consistency.

A39. In many cases, the auditor may test source data. However, in other cases, when the nature of the source data used by an auditor's expert is highly technical in relation to the expert's field, that expert may test the source data. If the auditor's expert has tested the source data, inquiry of that expert by the auditor, or supervision or review of that expert's tests may be an appropriate way for the auditor to evaluate that data's relevance, completeness, and accuracy.

Inadequate Work (Ref: Para. 13)

A40. If the auditor concludes that the work of the auditor's expert is not adequate for the auditor's purposes and the auditor cannot resolve the matter through the additional audit procedures required by paragraph 13, which may involve further work being performed by both the expert and the auditor, or include employing or engaging another expert, it may be necessary to express a modified opinion in the auditor's report in accordance with SA 705 because the auditor has not obtained sufficient appropriate audit evidence¹².

Reference to the Auditor's Expert in the Auditor's Report (Ref: Para. 14-15)

A41. In some cases, law or regulation may require a reference to the work of an auditor's expert, for example, for the purposes of transparency in the public sector.

A42. It may be appropriate in some circumstances to refer to the auditor's expert in an auditor's report containing a modified opinion, to explain the nature of the modification. In such circumstances, the auditor may need the permission of the auditor's expert before making such a reference.

¹¹ SA 540, "Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures", paragraphs 8, 13 and 15.

¹² SA 705, "Modifications to the Opinion in the Independent Auditor's Report", paragraph 6(b).

Modifications vis-a-vis ISA 620, “Using the Work of an Auditor’s Expert”

SA 620, “Using the Work of an Auditor’s Expert” does not contain any modifications vis-à-vis ISA 620.

Appendix

(Ref: Para. A25)

Considerations for Agreement between the Auditor and an Auditor’s External Expert

This Appendix lists matters that the auditor may consider for inclusion in any agreement with an auditor’s external expert. The following list is illustrative and is not exhaustive; it is intended only to be a guide that may be used in conjunction with the considerations outlined in this SA. Whether to include particular matters in the agreement depends on the circumstances of the engagement. The list may also be of assistance in considering the matters to be included in an agreement with an auditor’s internal expert.

Nature, Scope and Objectives of the Auditor’s External Expert’s Work

- The nature and scope of the procedures to be performed by the auditor’s external expert.
- The objectives of the auditor’s external expert’s work in the context of materiality and risk considerations concerning the matter to which the auditor’s external expert’s work relates, and, when relevant, the applicable financial reporting framework.
- Any relevant technical performance standards or other professional or industry requirements the auditor’s external expert will follow.
- The assumptions and methods, including models where applicable, the auditor’s external expert will use, and their authority.
- The effective date of, or when applicable the testing period for, the subject matter of the auditor’s external expert’s work, and requirements regarding subsequent events.

The Respective Roles and Responsibilities of the Auditor and the Auditor’s External Expert

- Relevant auditing and accounting standards, and relevant regulatory or legal requirements.
- The auditor’s external expert’s consent to the auditor’s intended use of that expert’s report, including any reference to it, or disclosure of it, to others, for example reference to it in a modified auditor’s report, if necessary, or disclosure of it to management or an audit committee.
- The nature and extent of the auditor’s review of the auditor’s external expert’s work.
- Whether the auditor or the auditor’s external expert will test source data.
- The auditor’s external expert’s access to the entity’s records, files, personnel and to experts engaged by the entity.
- Procedures for communication between the auditor’s external expert and the entity.
- The auditor’s and the auditor’s external expert’s access to each other’s working papers.
- Ownership and control of working papers during and after the engagement, including any file retention requirements.
- The auditor’s external expert’s responsibility to perform work with due skill and care.
- The auditor’s external expert’s competence and capability to perform the work.

I.458 Auditing Pronouncements

- The expectation that the auditor's external expert will use all knowledge that expert has that is relevant to the audit or, if not, will inform the auditor.
- Any restriction on the auditor's external expert's association with the auditor's report.
- Any agreement to inform the auditor's external expert of the auditor's conclusions concerning that expert's work.

Communications and Reporting

- Methods and frequency of communications, including:
 - How the auditor's external expert's findings or conclusions will be reported (written report, oral report, ongoing input to the engagement team, etc.).
 - Identification of specific persons within the engagement team who will liaise with the auditor's external expert.
- When the auditor's external expert will complete the work and report findings or conclusions to the auditor.
- The auditor's external expert's responsibility to communicate promptly any potential delay in completing the work, and any potential reservation or limitation on that expert's findings or conclusions.
- The auditor's external expert's responsibility to communicate promptly instances in which the entity restricts that expert's access to records, files, personnel or experts engaged by the entity.
- The auditor's external expert's responsibility to communicate to the auditor all information that expert believes may be relevant to the audit, including any changes in circumstances previously communicated.
- The auditor's external expert's responsibility to communicate circumstances that may create threats to that expert's objectivity, and any relevant safeguards that may eliminate or reduce such threats to an acceptable level.

Confidentiality

- The need for the auditor's expert to observe confidentiality requirements, including:
 - The confidentiality provisions of relevant ethical requirements that apply to the auditor.
 - Additional requirements that may be imposed by law or regulation, if any.
 - Specific confidentiality provisions requested by the entity, if any.

SA 700 (Revised)

Forming an Opinion and Reporting on Financial Statements

(Effective for all audits relating to accounting periods beginning on or after April 1, 2017)

Introduction

Scope of this SA

1. This Standard on Auditing (SA) deals with the auditor's responsibility to form an opinion on the financial statements. It also deals with the form and content of the auditor's report issued as a result of an audit of financial statements.
2. SA 701¹ deals with the auditor's responsibility to communicate key audit matters in the auditor's report. SA 705² (Revised) and SA 706³ (Revised) deal with how the form and content of the auditor's report are affected when the auditor expresses a modified opinion or includes an Emphasis of Matter paragraph or an Other Matter paragraph in the auditor's report. Other SAs also contain reporting requirements that are applicable when issuing an auditor's report.
3. This SA applies to an audit of a complete set of general purpose financial statements and is written in that context. SA 800⁴ deals with special considerations when financial statements are prepared in accordance with a special purpose framework. SA 805⁵ deals with special considerations relevant to an audit of a single financial statement or of a specific element, account or item of a financial statement. This SA also applies to audits for which SA 800 or SA 805 apply.
4. The requirements of this SA are aimed at addressing an appropriate balance between the need for consistency and comparability in auditor reporting globally and the need to increase the value of auditor reporting by making the information provided in the auditor's report more relevant to users. This SA promotes consistency in the auditor's report, but recognizes the need for flexibility to accommodate particular circumstances of individual jurisdictions. Consistency in the auditor's report, when the audit has been conducted in accordance with SAs, promotes credibility in the global marketplace by making more readily identifiable those audits that have been conducted in accordance with globally recognized standards. It also helps to promote the user's understanding and to identify unusual circumstances when they occur.

Effective Date

5. This SA is effective for audits of financial statements for periods beginning on or after April 1, 2017.

¹ SA 701, *Communicating Key Audit Matters in the Independent Auditor's Report*.

² SA 705 (Revised), *Modifications to the Opinion in the Independent Auditor's Report*.

³ SA 706 (Revised), *Emphasis of Matter Paragraphs and Other Matter Paragraphs in the Independent Auditor's Report*.

⁴ SA 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance with Special Purpose Frameworks*.

⁵ SA 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts or Items of a Financial Statement*.

Objectives

6. The objectives of the auditor are:
- (a) To form an opinion on the financial statements based on an evaluation of the conclusions drawn from the audit evidence obtained; and
 - (b) To express clearly that opinion through a written report.

Definitions

7. For purposes of the SAs, the following terms have the meanings attributed below:
- (a) General purpose financial statements – Financial statements prepared in accordance with a general purpose framework.
 - (b) General purpose framework – A financial reporting framework designed to meet the common financial information needs of a wide range of users. The financial reporting framework may be a fair presentation framework or a compliance framework.

The term “fair presentation framework” is used to refer to a financial reporting framework that requires compliance with the requirements of the framework and:

- (i) Acknowledges explicitly or implicitly that, to achieve fair presentation of the financial statements, it may be necessary for management to provide disclosures beyond those specifically required by the framework; or
- (ii) Acknowledges explicitly that it may be necessary for management to depart from a requirement of the framework to achieve fair presentation of the financial statements. Such departures are expected to be necessary only in extremely rare circumstances.

The term “compliance framework” is used to refer to a financial reporting framework that requires compliance with the requirements of the framework, but does not contain the acknowledgements in (i) or (ii) above.⁶

- (c) Unmodified opinion – The opinion expressed by the auditor when the auditor concludes that the financial statements are prepared, in all material respects, in accordance with the applicable financial reporting framework.⁷

8. Reference to “financial statements” in this SA means “a complete set of general purpose financial statements, including the related notes.” The related notes ordinarily comprise a summary of significant accounting policies and other explanatory information and any other information required to be included as part of the financial statements by the laws and regulations governing the entity. The requirements of the applicable financial reporting framework determine the form and content of the financial statements, and what constitutes a complete set of financial statements.

9. Reference to “Accounting Standards” in this SA includes :

- The Accounting Standards issued by the Institute of Chartered Accountants of India (ICAI)⁸; or
- The Standards of Accounting notified by the Central Government in pursuance of section 133 of the

⁶ SA 200, Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with Standards on Auditing, paragraph 13(a).

⁷ Paragraphs 25–26 deal with the phrases used to express this opinion in the case of a fair presentation framework and a compliance framework respectively.

⁸ For example, the Accounting Standards for Local Bodies issued by the Institute of Chartered Accountants of India.

Companies Act, 2013 and the Rules thereunder; or

- The International Financial Reporting Standards (IFRSs); or
- The International Public Sector Accounting Standards (IPSASs) issued by the International Public Sector Accounting Standards Board;

as may be applicable to the entity.

Requirements

Forming an Opinion on the Financial Statements

10. The auditor shall form an opinion on whether the financial statements are prepared, in all material respects, in accordance with the applicable financial reporting framework.^{9&10}

11. In order to form that opinion, the auditor shall conclude as to whether the auditor has obtained reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error. That conclusion shall take into account:

- (a) The auditor's conclusion, in accordance with SA 330, whether sufficient appropriate audit evidence has been obtained;¹¹
- (b) The auditor's conclusion, in accordance with SA 450, whether uncorrected misstatements are material, individually or in aggregate;¹² and
- (c) The evaluations required by paragraphs 12–15.

12. The auditor shall evaluate whether the financial statements are prepared, in all material respects, in accordance with the requirements of the applicable financial reporting framework. This evaluation shall include consideration of the qualitative aspects of the entity's accounting practices, including indicators of possible bias in management's judgments. (Ref: Para. A1–A3)

13. In particular, the auditor shall evaluate whether, in view of the requirements of the applicable financial reporting framework:

- (a) The financial statements adequately disclose the significant accounting policies selected and applied;
- (b) The accounting policies selected and applied are consistent with the applicable financial reporting framework and are appropriate;
- (c) The accounting estimates made by management are reasonable;
- (d) The information presented in the financial statements is relevant, reliable, comparable, and understandable;
- (e) The financial statements provide adequate disclosures to enable the intended users to understand the effect of material transactions and events on the information conveyed in the financial statements; and (Ref: Para. A4)
- (f) The terminology used in the financial statements, including the title of each financial statement, is appropriate.

⁹ SA 200, paragraph 11

¹⁰ Paragraphs 25–26 deal with the phrases used to express this opinion in the case of a fair presentation framework and a compliance framework respectively.

¹¹ SA 330, *The Auditor's Responses to Assessed Risks*, paragraph 26

¹² SA 450, *Evaluation of Misstatements Identified during the Audit*, paragraph 11

I.462 Auditing Pronouncements

14. When the financial statements are prepared in accordance with a fair presentation framework, the evaluation required by paragraphs 12–13 shall also include whether the financial statements achieve fair presentation. The auditor's evaluation as to whether the financial statements achieve fair presentation shall include consideration of:

- (a) The overall presentation, structure and content of the financial statements; and
- (b) Whether the financial statements, including the related notes, represent the underlying transactions and events in a manner that achieves fair presentation.

15. The auditor shall evaluate whether the financial statements adequately refer to or describe the applicable financial reporting framework. (Ref: Para. A5–A10)

Form of Opinion

16. The auditor shall express an unmodified opinion when the auditor concludes that the financial statements are prepared, in all material respects, in accordance with the applicable financial reporting framework.

17. If the auditor:

- (a) concludes that, based on the audit evidence obtained, the financial statements as a whole are not free from material misstatement; or
- (b) is unable to obtain sufficient appropriate audit evidence to conclude that the financial statements as a whole are free from material misstatement,

the auditor shall modify the opinion in the auditor's report in accordance with SA 705 (Revised).

18. If financial statements prepared in accordance with the requirements of a fair presentation framework do not achieve fair presentation, the auditor shall discuss the matter with management and, depending on the requirements of the applicable financial reporting framework and how the matter is resolved, shall determine whether it is necessary to modify the opinion in the auditor's report in accordance with SA 705 (Revised). (Ref: Para. A11)

19. When the financial statements are prepared in accordance with a compliance framework, the auditor is not required to evaluate whether the financial statements achieve fair presentation. However, if in extremely rare circumstances the auditor concludes that such financial statements are misleading, the auditor shall discuss the matter with management and, depending on how it is resolved, shall determine whether, and how, to communicate it in the auditor's report. (Ref: Para. A12)

Auditor's Report

20. The auditor's report shall be in writing. (Ref: Para. A13–A14)

Auditor's Report for Audits Conducted in Accordance with Standards on Auditing

Title

21. The auditor's report shall have a title that clearly indicates that it is the report of an independent auditor. (Ref: Para. A15)

Addressee

22. The auditor's report shall be addressed, as appropriate, based on the circumstances of the engagement. (Ref: Para. A16)

Auditor's Opinion

23. The first section of the auditor's report shall include the auditor's opinion, and shall have the heading "Opinion."

24. The Opinion section of the auditor's report shall also:
- (a) Identify the entity whose financial statements have been audited;
 - (b) State that the financial statements have been audited;
 - (c) Identify the title of each statement comprising the financial statements;
 - (d) Refer to the notes, including the summary of significant accounting policies; and
 - (e) Specify the date of, or period covered by, each financial statement comprising the financial statements. (Ref: Para. A17–A18)
25. When expressing an unmodified opinion on financial statements prepared in accordance with a fair presentation framework, the auditor's opinion shall, unless otherwise required by law or regulation, use one of the following phrases, which are regarded as being equivalent:
- (a) In our opinion, the accompanying financial statements present fairly, in all material respects, [...] in accordance with [the applicable financial reporting framework]; or
 - (b) In our opinion, the accompanying financial statements give a true and fair view of [...] in accordance with [the applicable financial reporting framework]. (Ref: Para. A19–A26)
26. When expressing an unmodified opinion on financial statements prepared in accordance with a compliance framework, the auditor's opinion shall be that the accompanying financial statements are prepared, in all material respects, in accordance with [the applicable financial reporting framework]. (Ref: Para. A21–A26)
27. If the reference to the applicable financial reporting framework in the auditor's opinion is not to Accounting Standards referred to in paragraph 9, the auditor's opinion shall identify the origin of such other framework.

Basis for Opinion

28. The auditor's report shall include a section, directly following the Opinion section, with the heading "Basis for Opinion", that: (Ref: Para. A27)
- (a) States that the audit was conducted in accordance with Standards on Auditing; (Ref: Para. A28)
 - (b) Refers to the section of the auditor's report that describes the auditor's responsibilities under the SAs;
 - (c) Includes a statement that the auditor is independent of the entity in accordance with the relevant ethical requirements relating to the audit, and has fulfilled the auditor's other ethical responsibilities in accordance with these requirements. The statement shall refer to the *Code of Ethics issued by ICAI* (Ref: Para. A29–A34)
 - (d) States whether the auditor believes that the audit evidence the auditor has obtained is sufficient and appropriate to provide a basis for the auditor's opinion.

Going Concern

29. Where applicable, the auditor shall report in accordance with SA 570 (Revised).¹³

Key Audit Matters

30. For audits of complete sets of general purpose financial statements of listed entities, the auditor shall communicate key audit matters in the auditor's report in accordance with SA 701.
31. When the auditor is otherwise required by law or regulation or decides to communicate key audit

¹³ SA 570 (Revised), *Going Concern*, paragraphs 21–23

I.464 Auditing Pronouncements

matters in the auditor's report, the auditor shall do so in accordance with SA 701. (Ref: Para. A35– A38)

Responsibilities for the Financial Statements

32. The auditor's report shall include a section with a heading "Responsibilities of Management for the Financial Statements." The auditor's report shall use the term that is appropriate in the context of the legal framework applicable to the entity and need not refer specifically to "management". In some entities, the appropriate reference may be to those charged with governance. (Ref: Para. A39)

33. This section of the auditor's report shall describe management's responsibility for: (Ref: Para. A40–A43)

- (a) Preparing the financial statements in accordance with the applicable financial reporting framework, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; and
- (b) Assessing the entity's ability to continue as a going concern¹⁴ and whether the use of the going concern basis of accounting is appropriate as well as disclosing, if applicable, matters relating to going concern. The explanation of management's responsibility for this assessment shall include a description of when the use of the going concern basis of accounting is appropriate. (Ref: Para. A43)

34. This section of the auditor's report shall also identify those responsible for the oversight of the financial reporting process, when those responsible for such oversight are different from those who fulfill the responsibilities described in paragraph 33 above. In this case, the heading of this section shall also refer to "Those Charged with Governance" or such term that is appropriate in the context of the legal framework applicable to entity. (Ref: Para. A44)

35. When the financial statements are prepared in accordance with a fair presentation framework, the description of responsibilities for the financial statements in the auditor's report shall refer to "the preparation and fair presentation of these financial statements" or "the preparation of financial statements that give a true and fair view," as appropriate in the circumstances.

Auditor's Responsibilities for the Audit of the Financial Statements

36. The auditor's report shall include a section with the heading "Auditor's Responsibilities for the Audit of the Financial Statements."

37. This section of the auditor's report shall: (Ref: Para. A45)

- (a) State that the objectives of the auditor are to:
 - (i) Obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and
 - (ii) Issue an auditor's report that includes the auditor's opinion. (Ref: Para. A46)
- (b) State that reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists; and
- (c) State that misstatements can arise from fraud or error, and either:
 - (i) Describe that they are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements; or¹⁵
 - (ii) Provide a definition or description of materiality in accordance with the applicable financial

¹⁴ SA 570 (Revised), paragraph 2

¹⁵ SA 320, Materiality in Planning and Performing an Audit, paragraph 2

reporting framework. (Ref: Para. A47)

38. The Auditor's Responsibilities for the Audit of the Financial Statements section of the auditor's report shall further: (Ref: Para. A45)

- (a) State that, as part of an audit in accordance with SAs, the auditor exercises professional judgment and maintains professional skepticism throughout the audit; and
- (b) Describe an audit by stating that the auditor's responsibilities are:
 - (i) To identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; to design and perform audit procedures responsive to those risks; and to obtain audit evidence that is sufficient and appropriate to provide a basis for the auditor's opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - (ii) To obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. In circumstances when the auditor also has a responsibility to express an opinion on the effectiveness of internal control in conjunction with the audit of the financial statements, the auditor shall omit the phrase that the auditor's consideration of internal control is not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
 - (iii) To evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - (iv) To conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If the auditor concludes that a material uncertainty exists, the auditor is required to draw attention in the auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify the opinion. The auditor's conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern.
 - (v) When the financial statements are prepared in accordance with a fair presentation framework, to evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- (c) When SA 600¹⁶ applies, further describe the auditor's responsibilities in a group audit engagement by stating:

The division of responsibility for the financial information of the entity by indicating the extent to which the financial information of components is audited by the other auditors have been included in the financial information of the entity, e.g., the number of divisions/branches/subsidiaries or other components audited by other auditors

39. The Auditor's Responsibilities for the Audit of the Financial Statements section of the auditor's report also shall: (Ref: Para. A45)

¹⁶ SA 600, Using the Work of Another Auditor.

I.466 Auditing Pronouncements

- (a) State that the auditor communicates with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that the auditor identifies during the audit;
- (b) State that the auditor provides those charged with governance with a statement that the auditor has complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on the auditor's independence, and where applicable, related safeguards; and
- (c) For audits of financial statements of all such entities for which key audit matters are communicated in accordance with SA 701, state that, from the matters communicated with those charged with governance, the auditor determines those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. In accordance with the requirements of SA 701, the auditor describes these matters in the auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, the auditor determines that a matter should not be communicated in the auditor's report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication. (Ref: Para. A48)

Location of the description of the auditor's responsibilities for the audit of the financial statements

40. The description of the auditor's responsibilities for the audit of the financial statements required by paragraphs 38–39 shall be included: (Ref: Para. A49)

- (a) Within the body of the auditor's report;
- (b) Within an appendix to the auditor's report, in which case the auditor's report shall include a reference to the location of the appendix; or (Ref: Para. A49–A50)
- (c) By a specific reference within the auditor's report to the location of such a description on a website of an appropriate authority, where law, regulation or the auditing standards expressly permit the auditor to do so. (Ref: Para. A49, A51–A52)

41. When the auditor refers to a description of the auditor's responsibilities on a website of an appropriate authority, the auditor shall determine that such description addresses, and is not inconsistent with, the requirements in paragraphs 38–39 of this SA. (Ref: Para. A51)

Other Reporting Responsibilities

42. If the auditor addresses other reporting responsibilities in the auditor's report on the financial statements that are in addition to the auditor's responsibilities under the SAs, these other reporting responsibilities shall be addressed in a separate section in the auditor's report with a heading titled "Report on Other Legal and Regulatory Requirements" or otherwise as appropriate to the content of the section, unless these other reporting responsibilities address the same topics as those presented under the reporting responsibilities required by the SAs in which case the other reporting responsibilities may be presented in the same section as the related report elements required by the SAs. (Ref: Para. A53–A55)

43. If other reporting responsibilities are presented in the same section as the related report elements required by the SAs, the auditor's report shall clearly differentiate the other reporting responsibilities from the reporting that is required by the SAs. (Ref: Para. A55)

44. If the auditor's report contains a separate section that addresses other reporting responsibilities, the requirements of paragraphs 20–39 of this SA shall be included under a section with a heading "Report on the Audit of the Financial Statements." The "Report on Other Legal and Regulatory Requirements" shall follow the "Report on the Audit of the Financial Statements." (Ref: Para. A55)

Signature of the Auditor

45. The auditor's report shall be signed. The report is signed by the auditor (i.e. the engagement partner) in his personal name. Where the firm is appointed as the auditor, the report is signed in the personal name of the auditor and in the name of the audit firm. The partner/proprietor signing the audit report also needs to mention the membership number assigned by the Institute of Chartered Accountants of India. They also include the registration number of the firm, wherever applicable, as allotted by ICAI, in the audit reports signed by them¹⁷. (Ref: Para. A56-A57)

Place of Signature

46. The auditor's report shall name specific location, which is ordinarily the city where the audit report is signed.

Date of the Auditor's Report

47. The auditor's report shall be dated no earlier than the date on which the auditor has obtained sufficient appropriate audit evidence on which to base the auditor's opinion on the financial statements, including evidence that: (Ref: Para. A58–A61)

- (a) All the statements that comprise the financial statements, including the related notes, have been prepared; and
- (b) Those with the recognized authority have asserted that they have taken responsibility for those financial statements.

Auditor's Report Prescribed by Law or Regulation

48. If the auditor is required by law or regulation applicable to the entity to use a specific layout, or wording of the auditor's report, the auditor's report shall refer to Standards on Auditing only if the auditor's report includes, at a minimum, each of the following elements: (Ref: Para. A62– A63)

- (a) A title.
- (b) An addressee, as required by the circumstances of the engagement.
- (c) An Opinion section containing an expression of opinion on the financial statements and a reference to the applicable financial reporting framework used to prepare the financial statements (see paragraph 27).
- (d) An identification of the entity's financial statements that have been audited.
- (e) A statement that the auditor is independent of the entity in accordance with the relevant ethical requirements relating to the audit, and has fulfilled the auditor's other ethical responsibilities in accordance with these requirements. The statement shall refer to the Code of Ethics issued by ICAI.
- (f) Where applicable, a section that addresses, and is not inconsistent with, the reporting requirements in paragraph 22 of SA 570 (Revised).

¹⁷ The Council of the ICAI, at its 292nd meeting held in January 2010, decided to require the members of the ICAI to include, in addition to the other requirements relating to signature on the audit report, as prescribed under the relevant Standard on Auditing, the registration number of the firm as allotted by ICAI, in the audit reports signed by them, and ensure that the resolution passed by the company regarding appointment of the statutory auditor of the company under section 224 of the Companies Act, 1956, also contain the registration number of the firm of the auditor(s) with the ICAI. These requirements came into effect from April 1, 2010. Subsequently, the Council of the ICAI, at its 296th meeting held in June 2010, decided to extend the requirement to mention the firm registration number to all reports issued pursuant to any attestation engagement, including certificates, issued by the members as proprietor of/ partner in the said firm. The requirement applies where such firm registration number has been allotted by the ICAI. The Council further decided to make this requirement effective for all attestation reports/ certificates issued on or after 1st October, 2010.

I.468 Auditing Pronouncements

- (g) Where applicable, a Basis for Qualified (or Adverse) Opinion section that addresses, and is not inconsistent with, the reporting requirements in paragraph 23 of SA 570 (Revised).
- (h) Where applicable, a section that includes the information required by SA 701, or additional information about the audit that is prescribed by law or regulation and that addresses, and is not inconsistent with, the reporting requirements in that SA.¹⁸ (Ref: Para. A63–A64)
- (i) A description of management's responsibilities for the preparation of the financial statements and an identification of those responsible for the oversight of the financial reporting process that addresses, and is not inconsistent with, the requirements in paragraphs 32–35.
- (j) A reference to Standards on Auditing and the law or regulation, and a description of the auditor's responsibilities for an audit of the financial statements that addresses, and is not inconsistent with, the requirements in paragraphs 36–39. (Ref: Para. A49–A50)
- (k) The auditor's signature.
- (l) The Place of signature
- (m) The date of the auditor's report.

Auditor's Report for Audits Conducted in Accordance with Both Standards on Auditing Issued by ICAI and International Standards on Auditing or Auditing Standards of Any Other Jurisdiction

49. An auditor may be required to conduct an audit in accordance with, in addition to the Standards on Auditing issued by ICAI, the International Standards on Auditing or auditing standards of any other jurisdiction. If this is the case, the auditor's report may refer to Standards on Auditing in addition to the International Standards on Auditing or auditing standards of such other jurisdiction, but the auditor shall do so only if: (Ref: Para. A68–A69)

- (a) There is no conflict between the requirements in the ISAs or such auditing standards of other jurisdiction and those in SAs that would lead the auditor (i) to form a different opinion, or (ii) not to include an Emphasis of Matter paragraph or Other Matter paragraph that, in the particular circumstances, is required by SAs; and
- (b) The auditor's report includes, at a minimum, each of the elements set out in paragraphs 48(a)–(m) above when the auditor uses the layout or wording specified by the Standards on Auditing. However, reference to "law or regulation" in paragraph 48(j) shall be read as reference to the Standards on Auditing. The auditor's report shall thereby identify such Standards on Auditing.

50. When the auditor's report refers to both the ISAs or the auditing standards of a specific jurisdiction and the Standards on Auditing issued by ICAI, the auditor's report shall clearly identify the same including the jurisdiction of origin of the other auditing standards.

Supplementary Information Presented with the Financial Statements(Ref: Para. A70–A76)

51. If supplementary information that is not required by the applicable financial reporting framework is presented with the audited financial statements, the auditor shall evaluate whether, in the auditor's professional judgment, supplementary information is nevertheless an integral part of the financial statements due to its nature or how it is presented. When it is an integral part of the financial statements, the supplementary information shall be covered by the auditor's opinion.

52. If supplementary information that is not required by the applicable financial reporting framework is not considered an integral part of the audited financial statements, the auditor shall evaluate whether such supplementary information is presented in a way that sufficiently and clearly differentiates it from the audited

¹⁸ SA 701, paragraphs 11–16

financial statements. If this is not the case, then the auditor shall ask management to change how the unaudited supplementary information is presented. If management refuses to do so, the auditor shall identify the unaudited supplementary information and explain in the auditor's report that such supplementary information has not been audited.

Application and Other Explanatory Material

Qualitative Aspects of the Entity's Accounting Practices (Ref: Para. 12)

A1. Management makes a number of judgments about the amounts and disclosures in the financial statements.

A2. SA 260 (Revised) contains a discussion of the qualitative aspects of accounting practices¹⁹. In considering the qualitative aspects of the entity's accounting practices, the auditor may become aware of possible bias in management's judgments. The auditor may conclude that the cumulative effect of a lack of neutrality, together with the effect of uncorrected misstatements, causes the financial statements as a whole to be materially misstated. Indicators of a lack of neutrality that may affect the auditor's evaluation of whether the financial statements as a whole are materially misstated include the following:

- The selective correction of misstatements brought to management's attention during the audit (e.g., correcting misstatements with the effect of increasing reported earnings, but not correcting misstatements that have the effect of decreasing reported earnings).
- Possible management bias in the making of accounting estimates.

A3. SA 540 addresses possible management bias in making accounting estimates.²⁰ Indicators of possible management bias do not constitute misstatements for purposes of drawing conclusions on the reasonableness of individual accounting estimates. They may, however, affect the auditor's evaluation of whether the financial statements as a whole are free from material misstatement.

Disclosures of the Effect of Material Transactions and Events on the Information Conveyed in the Financial Statements (Ref: Para. 13(e))

A4. It is common for financial statements prepared in accordance with a general purpose framework to present an entity's financial position, financial performance and cash flows. In such circumstances, the auditor evaluates whether the financial statements provide adequate disclosures to enable the intended users to understand the effect of material transactions and events on the entity's financial position, financial performance and cash flows.

Description of the Applicable Financial Reporting Framework (Ref: Para. 15)

A5. As explained in SA 200, the preparation of the financial statements by management and, where appropriate, those charged with governance requires the inclusion of an adequate description of the applicable financial reporting framework in the financial statements.²¹ That description advises users of the financial statements of the framework on which the financial statements are based.

A6. A description that the financial statements are prepared in accordance with a particular applicable financial reporting framework is appropriate only if the financial statements comply with all the requirements of that framework that are effective during the period covered by the financial statements.

¹⁹ SA 260 (Revised), *Communication with Those Charged with Governance*, Appendix 2

²⁰ SA 540, *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*, paragraph 21

²¹ SA 200, paragraphs A2–A3

I.470 Auditing Pronouncements

A7. A description of the applicable financial reporting framework that contains imprecise qualifying or limiting language (e.g., “the financial statements are in substantial compliance with Accounting Standards”) is not an adequate description of that framework as it may mislead users of the financial statements.

Reference to More than One Financial Reporting Framework

A8. In some cases, the financial statements may represent that they are prepared in accordance with two financial reporting frameworks (e.g., Accounting Standards referred to in section 133 of the Companies Act, 2013 and the IFRSs). This may be because management is required, or has chosen, to prepare the financial statements in accordance with both frameworks, in which case both are applicable financial reporting frameworks. Such description is appropriate only if the financial statements comply with each of the frameworks individually. To be regarded as being prepared in accordance with both frameworks, the financial statements need to comply with both frameworks simultaneously and without any need for reconciling statements. In practice, simultaneous compliance is unlikely unless the other framework (e.g., IFRSs) has been adopted as the framework applicable to that entity, or has eliminated all barriers to compliance with it.

A9. Financial statements that are prepared in accordance with one financial reporting framework and that contain a note or supplementary statement reconciling the results to those that would be shown under another framework are not prepared in accordance with that other framework. This is because the financial statements do not include all the information in the manner required by that other framework.

A10. The financial statements may, however, be prepared in accordance with one applicable financial reporting framework and, in addition, describe in the notes to the financial statements the extent to which the financial statements comply with another framework (e.g., financial statements prepared in accordance with the Accounting Standards that also describe the extent to which they comply with IFRSs). Such description may constitute supplementary financial information as discussed in paragraph 52 and is covered by the auditor’s opinion if it cannot be clearly differentiated from the financial statements.

Form of Opinion (Ref: Para. 18–19)

A11. There may be cases where the financial statements, although prepared in accordance with the requirements of a fair presentation framework, do not achieve fair presentation. Where this is the case, it may be possible for management to include additional disclosures in the financial statements beyond those specifically required by the framework or, in extremely rare circumstances, to depart from a requirement in the framework in order to achieve fair presentation of the financial statements.

A12. It will be extremely rare for the auditor to consider financial statements that are prepared in accordance with a compliance framework to be misleading if, in accordance with SA 210, the auditor determined that the framework is acceptable.²²

Auditor’s Report (Ref: Para. 20)

A13. A written report encompasses reports issued in hard copy and those using an electronic medium.

A14. The Appendix to this SA contains illustrations of auditor’s reports on financial statements, incorporating the elements set out in paragraphs 20–47. With the exception of the Opinion and Basis for Opinion sections, this SA does not establish requirements for ordering the elements of the auditor’s report. However, this SA requires the use of specific headings, which are intended to assist in making auditor’s reports that refer to audits that have been conducted in accordance with SAs more recognizable, particularly in situations where the elements of the auditor’s report are presented in an order that differs from the illustrative auditor’s reports in the Appendix to this SA.

Auditor’s Report for Audits Conducted in Accordance with Standards on Auditing

²² SA 210, *Agreeing the Terms of Audit Engagements*, paragraph 6(a)

Title (Ref: Para. 21)

A15. A title indicating the report is the report of an independent auditor, for example, "Independent Auditor's Report," distinguishes the independent auditor's report from reports issued by others.

Addressee (Ref: Para. 22)

A16. Law, regulation or the terms of the engagement may specify to whom the auditor's report is to be addressed in that particular jurisdiction. The auditor's report is normally addressed to those for whom the report is prepared, often either to the shareholders or to those charged with governance of the entity whose financial statements are being audited.

Auditor's Opinion (Ref. Para. 24–26)

Reference to the financial statements that have been audited

A17. The auditor's report states, for example, that the auditor has audited the financial statements of the entity, which comprise [state the title of each financial statement comprising the complete set of financial statements required by the applicable financial reporting framework, specifying the date or period covered by each financial statement] and notes to the financial statements, including a summary of significant accounting policies.

A18. When the auditor is aware that the audited financial statements will be included in a document that contains other information, such as an annual report, the auditor may consider, if the form of presentation allows, identifying the page numbers on which the audited financial statements are presented. This helps users to identify the financial statements to which the auditor's report relates.

"Present fairly, in all material respects" or "give a true and fair view"

A19. The phrases "present fairly, in all material respects," and "give a true and fair view" are regarded as being equivalent. Whether the phrase "present fairly, in all material respects," or the phrase "give a true and fair view" is used in any particular jurisdiction is determined by the law or regulation governing the audit of financial statements in that jurisdiction, or by generally accepted practice in that jurisdiction. Where law or regulation requires the use of different wording, this does not affect the requirement in paragraph 14 of this SA for the auditor to evaluate the fair presentation of financial statements prepared in accordance with a fair presentation framework.

A20. When the auditor expresses an unmodified opinion, it is not appropriate to use phrases such as "with the foregoing explanation" or "subject to" in relation to the opinion, as these suggest a conditional opinion or a weakening or modification of opinion.

Description of the financial statements and the matters they present

A21. The auditor's opinion covers the complete set of financial statements as defined by the applicable financial reporting framework. For example, in the case of many general purpose frameworks, the financial statements may include: Balance sheet, Profit and Loss Accounts, a statement of changes in equity, a statement of cash flows, and related notes, which ordinarily comprise a summary of significant accounting policies and other explanatory information. In some entities, additional information may also be considered to be an integral part of the financial statements.

A22. In the case of financial statements prepared in accordance with a fair presentation framework, the auditor's opinion states that the financial statements present fairly, in all material respects, or give a true and fair view of, the matters that the financial statements are designed to present. For example, in the case of companies under the Companies Act, 2013, the financial statements for financial year 2014-15, prepared in accordance with the Companies (Accounting Standards) Rules, 2006, these matters are present *true and fair view of the state of the company's affairs as at the end of its financial year and profit or loss or cash flow for*

I.472 Auditing Pronouncements

the year. Consequently, the [...] in paragraph 25 and elsewhere in this SA is intended to be replaced by the words in italics in the preceding sentence when the applicable financial reporting framework is Ind AS/ Accounting Standard or, in the case of other applicable financial reporting frameworks, be replaced with words that describe the matters that the financial statements are designed to present.

Description of the applicable financial reporting framework and how it may affect the auditor's opinion

A23. The identification of the applicable financial reporting framework in the auditor's opinion is intended to advise users of the auditor's report of the context in which the auditor's opinion is expressed; it is not intended to limit the evaluation required in paragraph 14. The applicable financial reporting framework is identified in such terms as:

"...In accordance with the Accounting Standards prescribed under section 133 of the Companies Act, 2013"
or

"...In accordance with the Accounting Standards issued by the Institute of Chartered Accountants of India"

"... in accordance with International Financial Reporting Standards"

A24. When the applicable financial reporting framework encompasses financial reporting standards and legal or regulatory requirements, the framework is identified in such terms as "...in accordance with the Accounting Standards prescribed under section 133 of the Companies Act, 2013". SA 210 deals with circumstances where there are conflicts between the financial reporting standards and the legislative or regulatory requirements.²³

A25. As indicated in paragraph A8, the financial statements may be prepared in accordance with two financial reporting frameworks, which are therefore both applicable financial reporting frameworks. Accordingly, each framework is considered separately when forming the auditor's opinion on the financial statements, and the auditor's opinion in accordance with paragraphs 25–27 refers to both frameworks as follows:

- (a) If the financial statements comply with each of the frameworks individually, two opinions are expressed: that is, that the financial statements are prepared in accordance with one of the applicable financial reporting frameworks (e.g., in case of a company incorporated in India, the Accounting Standards issued pursuant to section 133 of the Companies Act, 2013) and an opinion that the financial statements are prepared in accordance with the other applicable financial reporting framework (e.g., IFRSs). These opinions may be expressed separately or in a single sentence (e.g., the financial statements are presented fairly, in all material respects [...], in accordance with accounting principles generally accepted in India and with IFRSs).
- (b) If the financial statements comply with one of the frameworks but fail to comply with the other framework, an unmodified opinion can be given that the financial statements are prepared in accordance with the one framework (e.g., in case of a company incorporated in India, the Accounting Standards issued pursuant to section 133 of the Companies Act, 2013) but a modified opinion given with regard to the other framework (e.g., IFRSs) in accordance with SA 705 (Revised).

A26. As indicated in paragraph A10, the financial statements may represent compliance with the applicable financial reporting framework and, in addition, disclose the extent of compliance with another financial reporting framework. Such supplementary information is covered by the auditor's opinion if it cannot be clearly differentiated from the financial statements (see paragraphs 51–52 and related application material in paragraphs A70–A76). Accordingly,

- (a) If the disclosure as to the compliance with the other framework is misleading, a modified opinion is

²³ SA 210, paragraph 18

expressed in accordance with SA 705 (Revised).

- (b) If the disclosure is not misleading, but the auditor judges it to be of such importance that it is fundamental to the users' understanding of the financial statements, an Emphasis of Matter paragraph is added in accordance with SA 706 (Revised), drawing attention to the disclosure.

Basis for Opinion (Ref: Para. 28)

A27. The Basis for Opinion section provides important context about the auditor's opinion. Accordingly, this SA requires the Basis for Opinion section to directly follow the Opinion section in the auditor's report.

A28. The reference to the standards used conveys to the users of the auditor's report that the audit has been conducted in accordance with established standards.

Relevant ethical requirements

A29. The identification of the applicable relevant ethical requirements increases transparency about those requirements relating to the particular audit engagement. SA 200 explains that relevant ethical requirements ordinarily comprise of Code of Ethics issued by the Institute of Chartered Accountants of India²⁴. When the relevant ethical requirements include those of the Code of Ethics, the statement may also make reference to the Code of Ethics. If the Code of Ethics related to an audit of financial statements constitutes all of the ethical requirements relevant to the audit, the statement need not identify a jurisdiction of origin.

A30. Relevant ethical requirements may exist in several different sources, such as the ethical code(s) and additional rules and requirements within law and regulation. When the independence and other relevant ethical requirements are contained in a limited number of sources, the auditor may choose to name the relevant source(s) (e.g., the name of the code, rule or regulation applicable in the jurisdiction), or may refer to a term that is commonly understood and that appropriately summarizes those sources (e.g., independence requirements for audits of private entities in Jurisdiction X).

A31. Law or regulation, applicable auditing standards or the terms of an audit engagement may require the auditor to provide in the auditor's report more specific information about the sources of the relevant ethical requirements, including those pertaining to independence that applied to the audit of the financial statements.

A32. In determining the appropriate amount of information to include in the auditor's report when there are multiple sources of relevant ethical requirements relating to the audit of the financial statements, an important consideration is balancing transparency against the risk of obscuring other useful information in the auditor's report.

Considerations specific to group audits

A33. In group audits when there are multiple sources of relevant ethical requirements, including those pertaining to independence, the reference in the auditor's report to the relevant ethical requirements refers to those that are applicable to the principal auditor.

A34. The SAs do not establish specific independence or ethical requirements for auditors, including component auditors, and thus do not extend, or otherwise override, the independence requirements of the ICAI Code of Ethics to which the principal auditor is subject, nor do the SAs require that the component auditor in all cases to be subject to the same specific independence requirements that are applicable to the principal auditor.

Key Audit Matters (Ref: Para. 30)

A35. Law or regulation may require communication of key audit matters for audits of entities other than

²⁴ SA 200, paragraph A14

I.474 Auditing Pronouncements

listed entities, for example, entities characterized in such law or regulation as public interest entities.

A36. The auditor may also decide to communicate key audit matters for other entities, including those that may be of significant public interest, for example because they have a large number and wide range of stakeholders and considering the nature and size of the business. Examples of such entities may include financial institutions (such as banks, insurance companies, and pension funds), and other entities such as charities.

A37. SA 210 requires the auditor to agree the terms of the audit engagement with management and those charged with governance, as appropriate, and explains that the roles of management and those charged with governance in agreeing the terms of the audit engagement for the entity depend on the governance arrangements of the entity and relevant law or regulation²⁵. SA 210 also requires the audit engagement letter or other suitable form of written agreement to include reference to the expected form and content of any reports to be issued by the auditor.²⁶ When the auditor is not otherwise required to communicate key audit matters, SA 210²⁷ explains that it may be helpful for the auditor to make reference in the terms of the audit engagement to the possibility of communicating key audit matters in the auditor's report and, in certain jurisdictions, it may be necessary for the auditor to include a reference to such possibility in order to retain the ability to do so.

Considerations specific to public sector entities

A38. Public sector entities, even where not listed, may be significant due to size, complexity or public interest aspects. In such cases, an auditor of a public sector entity may be required by law or regulation or may otherwise decide to communicate key audit matters in the auditor's report.

Responsibilities for the Financial Statements (Ref: Para. 32–33)

A39. SA 200 explains the premise, relating to the responsibilities of management and, where appropriate, those charged with governance, on which an audit in accordance with SAs is conducted.²⁸ Management and, where appropriate, those charged with governance accept responsibility for the preparation of the financial statements in accordance with the applicable financial reporting framework, including, where relevant, their fair presentation. Management also accepts responsibility for such internal control as it determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error. The description of management's responsibilities in the auditor's report includes reference to both responsibilities as it helps to explain to users the premise on which an audit is conducted. SA 260 (Revised) uses the term those charged with governance to describe the person(s) or organization(s) with responsibility for overseeing the entity, and provides a discussion about the diversity of governance structures across jurisdictions and by entity.

A40. There may be circumstances when it is appropriate for the auditor to add to the descriptions of the responsibilities of management and those charged with governance in paragraphs 33–34 to reflect additional responsibilities that are relevant to the preparation of the financial statements in the context of the particular jurisdiction or the nature of the entity.

A41. SA 210 requires the auditor to agree management's responsibilities in an engagement letter or other

²⁵ SA 210, paragraphs 9 and A 20

²⁶ SA 210, paragraph 10

²⁷ SA 210, paragraph A23a

²⁸ SA 200, paragraph 13(j)

suitable form of written agreement.²⁹ SA 210 provides some flexibility in doing so, by explaining that, if law or regulation prescribes the responsibilities of management and, where appropriate, those charged with governance in relation to financial reporting, the auditor may determine that the law or regulation includes responsibilities that, in the auditor's judgment, are equivalent in effect to those set out in SA 210. For such responsibilities that are equivalent, the auditor may use the wording of the law or regulation to describe them in the engagement letter or other suitable form of written agreement. In such cases, this wording may also be used in the auditor's report to describe the responsibilities as required by paragraph 33(a) of this SA. In other circumstances, including where the auditor decides not to use the wording of law or regulation as incorporated in the engagement letter, the wording in paragraph 33(a) of this SA is used. In addition to including the description of management's responsibilities in the auditor's report as required by paragraph 33, the auditor may refer to a more detailed description of these responsibilities by including a reference to where such information may be obtained (e.g., in the annual report of the entity or a website of an appropriate authority).

A42. In some entities, law or regulation prescribing management's responsibilities may specifically refer to a responsibility for the adequacy of accounting books and records, or accounting system. As books, records and systems are an integral part of internal control (as defined in SA 315³⁰), the descriptions in SA 210 and in paragraph 33 do not make specific reference to them.

A43. The Appendix to this SA provides illustrations of how the requirement in paragraph 33(b) would be applied when Accounting Standards is the applicable financial reporting framework. If an applicable financial reporting framework other than Accounting Standards is used, the illustrative statements featured in the Appendix to this SA may need to be adapted to reflect the application of the other financial reporting framework in the circumstances.

Oversight of the financial reporting process (Ref: Para. 34)

A44. When some, but not all, of the individuals involved in the oversight of the financial reporting process are also involved in preparing the financial statements, the description as required by paragraph 34 of this SA may need to be modified to appropriately reflect the particular circumstances of the entity. When individuals responsible for the oversight of the financial reporting process are the same as those responsible for the preparation of the financial statements, no reference to oversight responsibilities is required.

Auditor's Responsibilities for the Audit of the Financial Statements (Ref: Para. 36–39)

A45. The description of the auditor's responsibilities as required by paragraphs 36–39 of this SA may be tailored to reflect the specific nature of the entity, for example, when the auditor's report addresses consolidated financial statements. Illustration 2 in the Appendix to this SA includes an example of how this may be done.

Objectives of the auditor (Ref: Para. 37(a))

A46. The auditor's report explains that the objectives of the auditor are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes the auditor's opinion. These are in contrast to management's responsibilities for the preparation for the financial statements.

Description of materiality (Ref: Para. 37(c))

A47. The Appendix to this SA provides illustrations of how the requirement in paragraph 37(c), to provide a

²⁹ SA 210, paragraph 6(b)(i)–(ii)

³⁰ SA 315, Identifying and Assessing the Risks of Material Misstatement through Understanding the Entity and Its Environment, paragraph 4(c)

I.476 Auditing Pronouncements

description of materiality, would be applied when Accounting Standards is the applicable financial reporting framework. If an applicable financial reporting framework other than Accounting Standards is used, the illustrative statements presented in the Appendix to this SA may need to be adapted to reflect the application of the other financial reporting framework in the circumstances.

Auditor's responsibilities relating to SA 701 (Ref: Para. 39(c))

A48. The auditor may also consider it useful to provide additional information in the description of the auditor's responsibilities beyond what is required by paragraph 39(c). For example, the auditor may make reference to the requirement in paragraph 9 of SA 701 to determine the matters that required significant auditor attention in performing the audit, taking into account areas of higher assessed risk of material misstatement or significant risks identified in accordance with SA 315 ; significant auditor judgments relating to areas in the financial statements that involved significant management judgment, including accounting estimates that have been identified as having high estimation uncertainty; and the effects on the audit of significant events or transactions that occurred during the period.

Location of the description of the auditor's responsibilities for the audit of the financial statements (Ref: Para. 40, 48(j))

A49. Including the information required by paragraphs 38–39 of this SA in an appendix to the auditor's report or, when law, regulation or national auditing standards expressly permit, referring to a website of an appropriate authority containing such information may be a useful way of streamlining the content of the auditor's report. However, because the description of the auditor's responsibilities contains information that is necessary to inform users' expectations of an audit conducted in accordance with SAs, a reference is required to be included in the auditor's report indicating where such information can be accessed.

Location in an appendix (Ref: Para. 40(b), 48(j))

A50. Paragraph 40 permits the auditor to include the statements required by paragraphs 38–39 describing the auditor's responsibilities for the audit of the financial statements in an appendix to the auditor's report, provided that appropriate reference is made within the body of the auditor's report to the location of the appendix. The following is an illustration of how such a reference to an appendix could be made in the auditor's report:

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is included in appendix X of this auditor's report. This description, which is located at [*indicate page number or other specific reference to the location of the description*], forms part of our auditor's report.

Reference to a website of an appropriate authority (Ref: Para. 40(c), 41)

A51. Paragraph 40 explains that the auditor may refer to a description of the auditor's responsibilities located on a website of an appropriate authority, only if expressly permitted by law, regulation or the applicable auditing standards. The information on the website that is incorporated in the auditor's report by way of a specific reference to the website location where such information can be found may describe the auditor's work, or the audit in accordance with SAs more broadly, but it cannot be inconsistent with the

description required in paragraphs 38–39 of this SA. This means that the wording of the description of the auditor’s responsibilities on the website may be more detailed, or may address other matters relating to an audit of financial statements, provided that such wording reflects and does not contradict the matters addressed in paragraphs 38–39.

A52. An appropriate authority could be a national auditing standard setter, regulator, or an audit oversight body. Such organizations are well-placed to ensure the accuracy, completeness and continued availability of the standardized information. It would not be appropriate for the auditor to maintain such a website. The following is an illustration of how such a reference to a website could be made in the auditor’s report:

Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located at [Organization’s] website at: [website address]. This description forms part of our auditor’s report.

Other Reporting Responsibilities (Ref: Para. 42–44)

A53. In case of some entities, the auditor may have additional responsibilities to report on other matters that are supplementary to the auditor’s responsibilities under the SAs. For example, the auditor may be asked to report certain matters if they come to the auditor’s attention during the course of the audit of the financial statements. Alternatively, the auditor may be asked to perform and report on additional specified procedures, or to express an opinion on specific matters, such as the adequacy of accounting books and records, internal control over financial reporting or other information. Standards on Auditing and/or other relevant pronouncements of the ICAI often provide guidance on the auditor’s responsibilities with respect to specific additional reporting responsibilities.

A54. In some cases, the relevant law or regulation may require or permit the auditor to report on these other responsibilities as part of their auditor’s report on the financial statements. In other cases, the auditor may be required or permitted to report on them in a separate report.

A55. Paragraphs 42–44 of this SA permit combined presentation of other reporting responsibilities and the auditor’s responsibilities under the SAs only when they address the same topics and the wording of the auditor’s report clearly differentiates the other reporting responsibilities from those under the SAs. Such clear differentiation may make it necessary for the auditor’s report to refer to the source of the other reporting responsibilities and to state that such responsibilities are beyond those required under the SAs. Otherwise, other reporting responsibilities are required to be addressed in a separate section in the auditor’s report with a heading “Report on Other Legal and Regulatory Requirements,” or otherwise as appropriate to the content of the section. In such cases, paragraph 44 requires the auditor to include reporting responsibilities under the SAs under a heading titled “Report on the Audit of the Financial Statements.”

Signature of the Auditor (Ref: Para 45)

A56. SQC 1³¹ requires that the firm establish policies and procedures to provide reasonable assurance that engagements are performed in accordance with professional standards and applicable legal and regulatory

³¹ SQC 1, *Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements*, paragraph 3

I.478 Auditing Pronouncements

requirements. Notwithstanding these SQC 1 requirements, naming the engagement partner in the auditor's report is intended to provide further transparency to the users of the auditor's report of a complete set of general purpose financial statements of an entity.

A57. In some cases, law or regulation may allow for the use of electronic signatures in the auditor's report.

Date of the Auditor's Report (Ref: Para. 47)

A58. The date of the auditor's report informs the user of the auditor's report that the auditor has considered the effect of events and transactions of which the auditor became aware and that occurred up to that date. The auditor's responsibility for events and transactions after the date of the auditor's report is addressed in SA 560.³²

A59. Since the auditor's opinion is provided on the financial statements and the financial statements are the responsibility of management, the auditor is not in a position to conclude that sufficient appropriate audit evidence has been obtained until evidence is obtained that all the statements that comprise the financial statements, including the related notes, have been prepared and management has accepted responsibility for them.

A60. In the case of some entities, the applicable law or regulation identifies the individuals or bodies (e.g., the directors) that are responsible for concluding that all the statements that comprise the financial statements, including the related notes, have been prepared, and specifies the necessary approval process. In such cases, evidence is obtained of that approval before dating the report on the financial statements. In case of some entities, however, the approval process may not be prescribed in the applicable law or regulation. In such cases, the procedures the entity follows in preparing and finalizing its financial statements in view of its management and governance structures are considered in order to identify the individuals or body with the authority to conclude that all the statements that comprise the financial statements, including the related notes, have been prepared. In some cases, law or regulation identifies the point in the financial statement reporting process at which the audit is expected to be complete.

A61. In the case of some entities, the Final approval of the financial statements by shareholders is required before the financial statements are issued publicly. Final approval by shareholders is not necessary for the auditor to conclude that sufficient appropriate audit evidence has been obtained. The date of approval of the financial statements for purposes of SAs is the earlier date on which those with the recognized authority determine that all the statements that comprise the financial statements, including the related notes, have been prepared and that those with the recognized authority have asserted that they have taken responsibility for them.

Auditor's Report Prescribed by Law or Regulation (Ref: Para 48)

A62. SA 200 explains that the auditor may be required to comply with legal or regulatory requirements in addition to SAs.³³ When the differences between the legal or regulatory requirements and SAs relate only to the layout and wording of the auditor's report, the requirements in paragraph 48(a)–(m) set out the minimum elements to be included in the auditor's report to enable a reference to the Standards on Auditing. In those circumstances, the requirements in paragraphs 21–47 that are not included in paragraph 48(a)–(n) do not need to be applied including, for example, the required ordering of the Opinion and Basis for Opinion sections.

A63. Where specific requirements in a particular law or regulation do not conflict with SAs, the layout and wording required by paragraphs 21–47 of this SA assist users of the auditor's report in more readily recognizing the auditor's report as a report of an audit conducted in accordance with SAs.

Information Required by SA 701 (Ref: Para. 48(h))

³² SA 560, *Subsequent Events*, paragraphs 10–17

³³ SA 200, paragraph A55

A64. Law or regulation may require the auditor to provide additional information about the audit that was performed, which may include information that is consistent with the objectives of SA 701, or may prescribe the nature and extent of communication about such matters.

A65. The SAs do not override law or regulation that governs an audit of financial statements. When SA 701 is applicable, reference can only be made to SAs in the auditor's report if, in applying the law or regulation, the section required by paragraph 48(h) of this SA is not inconsistent with the reporting requirements in SA 701. In such circumstances, the auditor may need to tailor certain aspects of the communication of key audit matters in the auditor's report required by SA 701, for example by:

- Modifying the heading "Key Audit Matters", if law or regulation prescribes a specific heading;
- Explaining why the information required by law or regulation is being provided in the auditor's report, for example by making a reference to the relevant law or regulation and describing how that information relates to the key audit matters;
- Where law or regulation prescribes the nature and extent of the description, supplementing the prescribed information to achieve an overall description of each key audit matter that is consistent with the requirement in paragraph 13 of SA 701.

A66. SA 210 deals with circumstances where law or regulation applicable to the entity prescribes the layout or wording of the auditor's report in terms that are significantly different from the requirements of SAs, which in particular includes the auditor's opinion. In these circumstances, SA 210 requires the auditor to evaluate:

- (a) Whether users might misunderstand the assurance obtained from the audit of the financial statements and, if so,
- (b) Whether additional explanation in the auditor's report can mitigate possible misunderstanding.

If the auditor concludes that additional explanation in the auditor's report cannot mitigate possible misunderstanding, SA 210 requires the auditor not to accept the audit engagement, unless required by law or regulation to do so. In accordance with SA 210, an audit conducted in accordance with such law or regulation does not comply with SAs. Accordingly, the auditor does not include any reference in the auditor's report to the audit having been conducted in accordance with Standards on Auditing.³⁴

Considerations specific to public sector entities

A67. Auditors of public sector entities may also have the ability pursuant to law or regulation to report publicly on certain matters, either in the auditor's report or in a supplementary report, which may include information that is consistent with the objectives of SA 701. In such circumstances, the auditor may need to tailor certain aspects of the communication of key audit matters in the auditor's report required by SA 701 or include a reference in the auditor's report to a description of the matter in the supplementary report.

Auditor's Report for Audits Conducted in Accordance with Both Standards on Auditing issued by ICAI and International Standards on Auditing/ Auditing Standards of Another Jurisdiction (Ref: Para. 49)

A68. The auditor may refer in the auditor's report to the audit having been conducted in accordance with both the Standards on Auditing issued by ICAI as well as the International Standards on Auditing/auditing standards of another jurisdiction when, in addition to complying with the ISAs/ auditing standards of such other jurisdiction, the auditor complies with each of the SAs relevant to the audit.

A69. A reference to both Standards on Auditing issued by ICAI and the International Standards on Auditing/auditing standards of another jurisdiction is not appropriate if there is a conflict between the requirements in SAs and those ISAs/ auditing standards of such other jurisdiction that would lead the auditor

³⁴ SA 210, paragraph 21

I.480 Auditing Pronouncements

to form a different opinion or not to include an Emphasis of Matter or Other Matter paragraph that, in the particular circumstances, is required by SAs. In such a case, the auditor's report refers only to the auditing standards (either Standards on Auditing issued by ICAI or ISAs/the auditing standards of such other jurisdiction) in accordance with which the auditor's report has been prepared.

Supplementary Information Presented with the Financial Statements (Ref: Para. 51-52)

A70. In some circumstances, the entity may be required by law, regulation or standards, or may voluntarily choose, to present together with the financial statements supplementary information that is not required by the applicable financial reporting framework. For example, supplementary information might be presented to enhance a user's understanding of the applicable financial reporting framework or to provide further explanation of specific financial statement items. Such information is normally presented in either supplementary schedules or as additional notes.

A71. Paragraph 51 of this SA explains that the auditor's opinion covers supplementary information that is an integral part of the financial statements because of its nature or how it is presented. This evaluation is a matter of professional judgment. To illustrate:

- When the notes to the financial statements include an explanation or the reconciliation of the extent to which the financial statements comply with another financial reporting framework, the auditor may consider this to be supplementary information that cannot be clearly differentiated from the financial statements. The auditor's opinion would also cover notes or supplementary schedules that are cross-referenced from the financial statements.
- When an additional profit and loss account that discloses specific items of expenditure is disclosed as a separate schedule included as an Appendix to the financial statements, the auditor may consider this to be supplementary information that can be clearly differentiated from the financial statements.

A72. Supplementary information that is covered by the auditor's opinion does not need to be specifically referred to in the auditor's report when the reference to the notes in the description of the statements that comprise the financial statements in the auditor's report is sufficient.

A73. Law or regulation may not require that the supplementary information be audited, and management may decide to ask the auditor not to include the supplementary information within the scope of the audit of the financial statements.

A74. The auditor's evaluation whether unaudited supplementary information is presented in a manner that could be construed as being covered by the auditor's opinion includes, for example, where that information is presented in relation to the financial statements and any audited supplementary information, and whether it is clearly labeled as "unaudited."

A75. Management could change the presentation of unaudited supplementary information that could be construed as being covered by the auditor's opinion, for example, by:

- Removing any cross-references from the financial statements to unaudited supplementary schedules or unaudited notes so that the demarcation between the audited and unaudited information is sufficiently clear.
- Placing the unaudited supplementary information outside of the financial statements or, if that is not possible in the circumstances, at a minimum placing the unaudited notes together at the end of the required notes to the financial statements and clearly labeling them as unaudited. Unaudited notes that are intermingled with the audited notes can be misinterpreted as being audited.

A76. The fact that supplementary information is unaudited does not relieve the auditor of the responsibilities described in Proposed SA 720 (Revised).³⁵

³⁵ Proposed SA 720 (Revised), *The Auditor's Responsibilities Relating to Other Information*

Illustration 1 – Auditor's Report on Financial Statements of a Listed Entity Prepared in Accordance with a Fair Presentation Framework

For purposes of this illustrative auditor's report, the following circumstances are assumed:

- Audit of a complete set of financial statements of a listed company (registered under the Companies Act, 2013) using a fair presentation framework. The audit is not a group audit (i.e., SA 600 does not apply).
- The financial statements are prepared by management of the entity in accordance with the accounting Standards prescribed under section 133 of the Companies Act, 2013.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in SA 210.
- The auditor has concluded an unmodified (i.e., "clean") opinion is appropriate based on the audit evidence obtained.
- The relevant ethical requirements that apply to the audit comprise the Code of Ethics issued by ICAI together with the other relevant ethical requirements relating to the audit and the auditor refers to both.
- Based on the audit evidence obtained, the auditor has concluded that a material uncertainty does not exist related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern in accordance with SA 570 (Revised).
- Key audit matters have been communicated in accordance with SA 701.
- Those responsible for oversight of the financial statements differ from those responsible for the preparation of the financial statements.
- In addition to the audit of the financial statements, the auditor has other reporting responsibilities required under the Companies Act, 2013.

INDEPENDENT AUDITOR'S REPORT

To the Members of ABC Company Limited

Report on the Audit of the Standalone Financial Statements¹

Opinion

We have audited the standalone financial statements of ABC Company Limited ("the Company"), which comprise the balance sheet as at 31st March 20XX, and the statement of Profit and Loss, (*statement of changes in equity*)² and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information [in which are included the Returns for the year ended on that date audited by the branch auditors of the Company's branches located at (location of branches)]³.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 20XX, and profit/loss, (*changes in equity*)⁴ and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the *Code of Ethics* issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

[Description of each key audit matter in accordance with SA 701.]

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, (*changes in equity*)⁵ and cash flows of the

¹ The sub-title "Report on the Audit of the Standalone Financial Statements" is unnecessary in circumstances when the second sub-title "Report on Other Legal and Regulatory Requirements" is not applicable.

² Where applicable.

³ Where applicable.

⁴ Where applicable

⁵ Where applicable.

Company in accordance with⁶ the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Paragraph 40(b) of this SA explains that the shaded material below can be located in an Appendix to the auditor's report. Paragraph 40(c) explains that when law, regulation or applicable auditing standards expressly permit, reference can be made to a website of an appropriate authority that contains the description of the auditor's responsibilities, rather than including this material in the auditor's report, provided that the description on the website addresses, and is not inconsistent with, the description of the auditor's responsibilities below.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

⁶ Where management's responsibility is to prepare financial statements that give a true and fair view, this may read: "Management is responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Reporting Standards, and for such ..."

I.484 Auditing Pronouncements

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

We did not audit the financial statements/ information of (number) branches included in the stand alone financial statements of the Company whose financial statements/financial information reflect total assets of Rs. as at 31st March 20XX and the total revenue of Rs. for the year ended on that date, as considered in the standalone financial statements/information of these branches have been audited by the branch auditors whose reports have been furnished to us, and our opinion in so far as it relates to the amounts and disclosures included in respect of branches, is based solely on the report of such branch auditors.

Our opinion is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books [*and proper returns adequate for the purposes of our audit have been received from the branches not visited by us.*⁷]
- (c) [*The reports on the accounts of the branch offices of the Company audited under Section 143(8) of the Act by branch auditors have been sent to us and have been properly dealt with by us in preparing this report*⁸.]
- (d) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account [*and with the returns received from the branches not visited by us*⁹].
- (e) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (f) On the basis of the written representations received from the directors as on 31st March, 20XX taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 20XX from being appointed as a director in terms of Section 164 (2) of the Act.
- (g) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note XX to the financial statements; [*or the Company does not have any pending litigations which would impact its financial position*¹⁰]
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer Note XX to the financial statements; [*or the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.*¹¹]
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company {*or, following are the instances of delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund*

⁷ Where applicable.

Illustration 2 – Auditor's Report on Consolidated Financial Statements of a Listed Company (incorporated under the Companies Act, 2013) Prepared in Accordance with a Fair Presentation Framework

For purposes of this illustrative auditor's report, the following circumstances are assumed:

- Audit of a complete set of consolidated financial statements of a listed Company (incorporated under the Companies Act, 2013) using a fair presentation framework. The audit is a group audit of an entity with subsidiaries (i.e., SA 600 applies).
- The consolidated financial statements are prepared by management of the entity in accordance with the Accounting Standards prescribed under section 133 of the Companies Act, 2013 (a general purpose framework).
- The terms of the audit engagement reflect the description of management's responsibility for the consolidated financial statements in SA 210.
- The auditor has concluded an unmodified (i.e., "clean") opinion is appropriate based on the audit evidence obtained.
- The Code of Ethics issued by ICAI comprises all of the relevant ethical requirements that apply to the principal auditor in relation to this audit.
- Based on the audit evidence obtained, the principal auditor has concluded that a material uncertainty does not exist related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern in accordance with SA 570 (Revised).
- Key audit matters have been communicated in accordance with SA 701.
- Those responsible for oversight of the consolidated financial statements differ from those responsible for the preparation of the consolidated financial statements.
- In addition to the audit of the consolidated financial statements, the principal auditor has other reporting responsibilities required under the Companies Act, 2013.

INDEPENDENT AUDITOR'S REPORT

To the Members of ABC Company Limited

Report on the Audit of the Consolidated Financial Statements¹⁴

Opinion

We have audited the accompanying consolidated financial statements of ABC Company Limited (hereinafter referred to as the 'Holding Company') and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), its associates and jointly controlled entities, which comprise the consolidated Balance Sheet as at March 31, 20XX, and the consolidated statement of Profit and Loss, (*the consolidated statement of changes in equity*)¹⁵ and the consolidated cash flows Statement for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of their consolidated state of affairs of the Company as at March 31, 20XX, of consolidated profit/loss, (*consolidated changes in equity*)¹⁶ and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the *Code of Ethics issued by ICAI*, and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Companies Act, 2013. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

[Description of each key audit matter in accordance with SA 701.]

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Group including its Associates and Jointly controlled entities in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for maintenance of adequate accounting records in

¹⁴ The sub-title "Report on the Audit of the Consolidated Financial Statements" is unnecessary in circumstances when the second sub-title "Report on Other Legal and Regulatory Requirements" is not applicable.

¹⁵ Where applicable.

¹⁶ Where applicable.

I.488 Auditing Pronouncements

accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for assessing the ability of the Group and of its associates and jointly controlled entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates and jointly controlled entities are responsible for overseeing the financial reporting process of the Group and of its associates and jointly controlled entities.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Paragraph 40(b) of this SA explains that the shaded material below can be located in an Appendix to the auditor's report. Paragraph 40(c) explains that when law, regulation or the applicable auditing standards expressly permit, reference can be made to a website of an appropriate authority that contains the description of the auditor's responsibilities, rather than including this material in the auditor's report, provided that the description on the website addresses, and is not inconsistent with, the description of the auditor's responsibilities below.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates and jointly controlled entities to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and jointly controlled entities to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates and jointly controlled entities to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

- (a) We did not audit the financial statements / financial information of _____ subsidiaries, and _____ jointly controlled entities, whose financial statements / financial information reflect total assets of Rs. _____ as at 31st March, 20XX, total revenues of Rs. _____ and net cash flows amounting to Rs. _____ for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit/loss of Rs. _____ for the year ended 31st March, 20XX, as considered in the consolidated financial statements, in respect of _____ associates, whose financial statements / financial information have not been audited by us. These financial statements / financial information have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, jointly controlled entities and associates, and our report in terms of sub-sections (3) and (11) of Section 143 of

the Act, in so far as it relates to the aforesaid subsidiaries, jointly controlled entities and associates, is based solely on the reports of the other auditors.

- (b) We did not audit the financial statements / financial information of _____ subsidiaries and _____ jointly controlled entities, whose financial statements / financial information reflect total assets of Rs. _____ as at 31st March, 20XX, total revenues of Rs. _____ and net cash flows amounting to Rs. _____ for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit/loss of Rs. _____ for the year ended 31st March, 20XX, as considered in the consolidated financial statements, in respect of _____ associates, whose financial statements / financial information have not been audited by us. These financial statements / financial information are unaudited and have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, jointly controlled entities and associates, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act in so far as it relates to the aforesaid subsidiaries, jointly controlled entities and associates, is based solely on such unaudited financial statements / financial information. In our opinion and according to the information and explanations given to us by the Management, these financial statements / financial information are not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements / financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, we report, to the extent applicable, that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss, and the Consolidated Cash Flow Statement dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act.
- (e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 20XX taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies, associate companies and jointly controlled companies incorporated in India, none of the directors of the Group companies, its associate companies and jointly controlled companies incorporated in India is disqualified as on 31st March, 20XX from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate report in Annexure.

(g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group, its associates and jointly controlled entities– Refer Note XX to the consolidated financial statements.

Or

There were no pending litigations which would impact the consolidated financial position of the Group, its associates and jointly controlled entities.¹⁷

ii. Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer (a) Note XX to the consolidated financial statements in respect of such items as it relates to the Group, its associates and jointly controlled entities and (b) the Group's share of net profit/loss in respect of its associates.

Or

The Group, its associates and jointly controlled entities did not have any material foreseeable losses on long-term contracts including derivative contracts.¹⁸

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company and its subsidiary companies, associate companies and jointly controlled companies incorporated in India.

Or

Following are the instances of delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company, and its subsidiary companies, associate companies and jointly controlled companies incorporated in India¹⁹.

Or

Illustration 3 – Auditor's Report on Financial Statements of an Unlisted Company Prepared in Accordance with a Fair Presentation Framework

For purposes of this illustrative auditor's report, the following circumstances are assumed:

- Audit of a complete set of financial statements of an unlisted company (registered under the Companies Act, 2013) using a fair presentation framework. The audit is not a group audit (i.e., SA 600 does not apply).
- The financial statements are prepared by management of the entity in accordance with the accounting Standards prescribed under section 133 of the Companies Act, 2013.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in SA 210.
- The auditor has concluded an unmodified (i.e., "clean") opinion is appropriate based on the audit evidence obtained.
- The relevant ethical requirements that apply to the audit comprise the Code of Ethics issued by ICAI together with the other relevant ethical requirements relating to the audit and the auditor refers to both.
- Based on the audit evidence obtained, the auditor has concluded that a material uncertainty does not exist related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern in accordance with SA 570 (Revised).
- The auditor is not required, and has otherwise not decided, to communicate key audit matters in accordance with SA 701.
- Those responsible for oversight of the financial statements differ from those responsible for the preparation of the financial statements.
- In addition to the audit of the financial statements, the auditor has other reporting responsibilities required under the Companies Act, 2013.

INDEPENDENT AUDITOR'S REPORT

To the Members of ABC Company Limited

Report on the Audit of the Standalone Financial Statements²²

Opinion

We have audited the standalone financial statements of ABC Company Limited ("the Company"), which comprise the balance sheet as at 31st March 20XX, and the statement of Profit and Loss, (*statement of changes in equity*)²³ and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information [in which are included the Returns for the year ended on that date audited by the branch auditors of the Company's branches located at (location of branches)]²⁴.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of

²² The sub-title "Report on the Audit of the Standalone Financial Statements" is unnecessary in circumstances when the second sub-title "Report on Other Legal and Regulatory Requirements" is not applicable.

²³ Where applicable.

²⁴ Where applicable.

affairs of the Company as at March 31, 20XX, and profit/loss, (*changes in equity*)²⁵ and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the *Code of Ethics* issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibility of Management for Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, (*changes in equity*)²⁶ and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Paragraph 40(b) of this SA explains that the shaded material below can be located in an Appendix to the auditor's report. Paragraph 40(c) explains that when law, regulation or the applicable auditing standards expressly permit, reference can be made to a website of an appropriate authority that contains the description of the auditor's responsibilities, rather than including this material in the auditor's report, provided

²⁵ Where applicable

²⁶ Where applicable.

I.494 Auditing Pronouncements

that the description on the website addresses, and is not inconsistent with, the description of the auditor's responsibilities below.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

We did not audit the financial statements/ information of (number) branches included in the standalone financial statements of the company whose financial statements/financial information reflect total assets of Rs.as at 31st March 20XX and the total revenue of Rs.for the year ended on that date, as considered in the standalone financial statements/information of these branches have been audited by the branch auditors whose reports have been furnished to us, and our opinion in so far as it relates to the amounts and disclosures included in respect of branches, is based solely on the report of such branch auditors.

Our opinion is not modified in respect of these matters.

Report on Other Legal and Regulatory Requirements

As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

As required by Section 143(3) of the Act, we report that:

We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

- (a) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books [*and proper returns adequate for the purposes of our audit have been received from the branches not visited by us.*²⁷]
- (b) [*The reports on the accounts of the branch offices of the Company audited under Section 143(8) of the Act by branch auditors have been sent to us and have been properly dealt with by us in preparing this report*²⁸.]
- (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account [*and with the returns received from the branches not visited by us*²⁹].
- (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the directors as on 31st March, 20XX taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 20XX from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note XX to the financial statements; [*or the Company does not have any pending litigations which would impact its financial position*³⁰]
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer Note XX to the financial statements; [*or the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.*³¹]
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company {or, following are the instances of delay in

INDEPENDENT AUDITOR'S REPORT

To the Partners of ABC & Associates [or Other Appropriate Addressee]

Opinion

We have audited the financial statements of ABC & Associates (the entity), which comprise the balance sheet at March 31st 20XX, and the profit and loss account, *(and statement of cash flows)*³⁵ for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the entity as at March 31, 20XX, and of its financial performance *(and its cash flows)*³⁶ for the year then ended in accordance with the Accounting Standards issued by the Institute of Chartered Accountants of India (ICAI).

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) issued by ICAI. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the entity in accordance with the ethical requirements that are relevant to our audit of the financial statements in [jurisdiction], and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements³⁷

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the aforesaid Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the entity's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial

Illustration 5 – Auditor's Report on Financial Statements of Non Corporate Entity Prepared in Accordance with a General Purpose Compliance Framework

For purposes of this illustrative auditor's report, the following circumstances are assumed:

- Audit of a complete set of financial statements of an entity, other than a listed company under the Companies Act 2013, required by law or regulation. The audit is not a group audit (i.e., SA 600 does not apply).
- The financial statements are prepared by management of the entity in accordance with the Financial Reporting Framework (XYZ Laws) of Jurisdiction X (that is, a financial reporting framework, encompassing law or regulation, designed to meet the common financial information needs of a wide range of users, but which is not a fair presentation framework).
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in SA 210.
- The auditor has concluded an unmodified (i.e., "clean") opinion is appropriate based on the audit evidence obtained.
- The relevant ethical requirements that apply to the audit are those of the jurisdiction.
- Based on the audit evidence obtained, the auditor has concluded that a material uncertainty does not exist related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern in accordance with SA 570 (Revised).
- The auditor is not required, and has otherwise not decided, to communicate key audit matters in accordance with SA 701.
- Those responsible for oversight of the financial statements differ from those responsible for the preparation of the financial statements.
- The auditor has no other reporting responsibilities required under local law.

³⁸ Partner or Proprietor, as the case may be

INDEPENDENT AUDITOR'S REPORT

[Appropriate Addressee]

Opinion

We have audited the financial statements of ABC & Associates (the entity), which comprise the balance sheet as at March 31, 20X1, and the Profit and Loss Account (*and the cash flow statement*)³⁹ for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements of the entity are prepared, in all material respects, in accordance with XYZ Laws.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing (SAs). Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the entity in accordance with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements⁴⁰

Management is responsible for the preparation of the financial statements in accordance with XYZ Law and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the entity or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the entity's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Paragraph 40(b) of this SA explains that the shaded material below can be located in an Appendix to the auditor's report. Paragraph 40(c) explains that when law, regulation or national auditing standards expressly permit, reference can be made to a website of an appropriate authority that contains the description of the auditor's responsibilities, rather than including this material in the auditor's report, provided that the description on the website addresses, and is not inconsistent with, the description of the auditor's responsibilities below.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional

³⁹ Where applicable.

⁴⁰ Or other terms that are appropriate in the context of the legal framework of the particular entity.

I.500 Auditing Pronouncements

skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.⁴¹

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the entity to cease to continue as a going concern.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

SA 701

**Communicating Key Audit Matters in the
Independent Auditor's Report**
*(Effective for all audits relating to
accounting periods beginning on or after April 1, 2017)*

Introduction

Scope of this SA

1. This Standard on Auditing (SA) deals with the auditor's responsibility to communicate key audit matters in the auditor's report. It is intended to address both the auditor's judgment as to what to communicate in the auditor's report and the form and content of such communication.
2. The purpose of communicating key audit matters is to enhance the communicative value of the auditor's report by providing greater transparency about the audit that was performed. Communicating key audit matters provides additional information to intended users of the financial statements ("intended users") to assist them in understanding those matters that, in the auditor's professional judgment, were of most significance in the audit of the financial statements of the current period. Communicating key audit matters may also assist intended users in understanding the entity and areas of significant management judgment in the audited financial statements. (Ref: Para. A1–A4)
3. The communication of key audit matters in the auditor's report may also provide intended users a basis to further engage with management and those charged with governance about certain matters relating to the entity, the audited financial statements, or the audit that was performed.
4. Communicating key audit matters in the auditor's report is in the context of the auditor having formed an opinion on the financial statements as a whole. Communicating key audit matters in the auditor's report is not:
 - (a) A substitute for disclosures in the financial statements that the applicable financial reporting framework requires management to make, or that are otherwise necessary to achieve fair presentation;
 - (b) A substitute for the auditor expressing a modified opinion when required by the circumstances of a specific audit engagement in accordance with SA 705 (Revised);¹
 - (c) A substitute for reporting in accordance with SA 570 (Revised)² when a material uncertainty exists relating to events or conditions that may cast significant doubt on an entity's ability to continue as a going concern; or
 - (d) A separate opinion on individual matters. (Ref: Para. A5–A8)
5. This SA applies to audits of complete sets of general purpose financial statements of listed entities and circumstances when the auditor otherwise decides to communicate key audit matters in the auditor's report. This SA also applies when the auditor is required by law or regulation to communicate key audit matters in

¹ SA 705 (Revised), *Modifications to the Opinion in the Independent Auditor's Report*.

² SA 570 (Revised), *Going Concern*, paragraphs 22–23.

I.502 Auditing Pronouncements

the auditor's report.³ However, SA 705 (Revised) prohibits the auditor from communicating key audit matters when the auditor disclaims an opinion on the financial statements, unless such reporting is required by law or regulation.⁴

Effective Date

6. This SA is effective for audits of financial statements for periods beginning on or after April 1, 2017.

Objectives

7. The objectives of the auditor are to determine key audit matters and, having formed an opinion on the financial statements, communicate those matters by describing them in the auditor's report.

Definition

8. For purposes of the SAs, the following term has the meaning attributed below:

Key audit matters— Those matters that, in the auditor's professional judgment, were of most significance in the audit of the financial statements of the current period. Key audit matters are selected from matters communicated with those charged with governance.

Requirements

Determining Key Audit Matters

9. The auditor shall determine, from the matters communicated with those charged with governance, those matters that required significant auditor attention in performing the audit. In making this determination, the auditor shall take into account the following: (Ref: Para. A9–A18)

- (a) Areas of higher assessed risk of material misstatement, or significant risks identified in accordance with SA 315.⁵ (Ref: Para. A19–A22)
- (b) Significant auditor judgments relating to areas in the financial statements that involved significant management judgment, including accounting estimates that have been identified as having high estimation uncertainty. (Ref: Para. A23–A24)
- (c) The effect on the audit of significant events or transactions that occurred during the period. (Ref: Para. A25–A26)

10. The auditor shall determine which of the matters determined in accordance with paragraph 9 were of most significance in the audit of the financial statements of the current period and therefore are the key audit matters. (Ref: Para. A9–A11, A27–A30)

Communicating Key Audit Matters

11. The auditor shall describe each key audit matter, using an appropriate subheading, in a separate section of the auditor's report under the heading "Key Audit Matters," unless the circumstances in paragraphs 14 or 15 apply. The introductory language in this section of the auditor's report shall state that:

- (a) Key audit matters are those matters that, in the auditor's professional judgment, were of most significance in the audit of the financial statements [of the current period]; and
- (b) These matters were addressed in the context of the audit of the financial statements as a whole, and in forming the auditor's opinion thereon, and the auditor does not provide a separate opinion on these matters. (Ref: Para. A31–A33)

³ SA 700 (Revised), *Forming an Opinion and Reporting on Financial Statements*, paragraphs 30–31.

⁴ SA 705 (Revised), paragraph 29.

⁵ SA 315, *Identifying and Assessing the Risks of Material Misstatement through Understanding the Entity and Its Environment*.

Key Audit Matters Not a Substitute for Expressing a Modified Opinion

12. The auditor shall not communicate a matter in the Key Audit Matters section of the auditor's report when the auditor would be required to modify the opinion in accordance with SA 705 (Revised) as a result of the matter. (Ref: Para. A5)

Descriptions of Individual Key Audit Matters

13. The description of each key audit matter in the Key Audit Matters section of the auditor's report shall include a reference to the related disclosure(s), if any, in the financial statements and shall address: (Ref: Para. A34–A41)

- (a) Why the matter was considered to be one of most significance in the audit and therefore determined to be a key audit matter; and (Ref: Para. A42–A45)
- (b) How the matter was addressed in the audit. (Ref: Para. A46–A51)

Circumstances in Which a Matter Determined to Be a Key Audit Matter Is Not Communicated in the Auditor's Report

14. The auditor shall describe each key audit matter in the auditor's report unless: (Ref: Para. A53– A56)

- (a) Law or regulation precludes public disclosure about the matter; or (Ref: Para. A52)
- (b) In extremely rare circumstances, the auditor determines that the matter should not be communicated in the auditor's report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication. This shall not apply if the entity has publicly disclosed information about the matter.

Interaction between Descriptions of Key Audit Matters and Other Elements Required to Be Included in the Auditor's Report

15. A matter giving rise to a modified opinion in accordance with SA 705 (Revised), or a material uncertainty related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern in accordance with SA 570 (Revised), are by their nature key audit matters. However, in such circumstances, these matters shall not be described in the Key Audit Matters section of the auditor's report and the requirements in paragraphs 13–14 do not apply. Rather, the auditor shall:

- (a) Report on these matter(s) in accordance with the applicable SA(s); and
- (b) Include a reference to the Basis for Qualified (Adverse) Opinion or the Material Uncertainty Related to Going Concern section(s) in the Key Audit Matters section. (Ref: Para. A6–A7)

Form and Content of the Key Audit Matters Section in Other Circumstances

16. If the auditor determines, depending on the facts and circumstances of the entity and the audit, that there are no key audit matters to communicate or that the only key audit matters communicated are those matters addressed by paragraph 15, the auditor shall include a statement to this effect in a separate section of the auditor's report under the heading "Key Audit Matters." (Ref: Para. A57– A59)

Communication with Those Charged with Governance

17. The auditor shall communicate with those charged with governance:

- (a) Those matters the auditor has determined to be the key audit matters; or
- (b) If applicable, depending on the facts and circumstances of the entity and the audit, the auditor's determination that there are no key audit matters to communicate in the auditor's report. (Ref: Para. A60–A63)

I.504 Auditing Pronouncements

Documentation

18. The auditor shall include in the audit documentation:⁶ (Ref: Para. A64)
- (a) The matters that required significant auditor attention as determined in accordance with paragraph 9, and the rationale for the auditor's determination as to whether or not each of these matters is a key audit matter in accordance with paragraph 10;
 - (b) Where applicable, the rationale for the auditor's determination that there are no key audit matters to communicate in the auditor's report or that the only key audit matters to communicate are those matters addressed by paragraph 15; and
 - (c) Where applicable, the rationale for the auditor's determination not to communicate in the auditor's report a matter determined to be a key audit matter.

Application and Other Explanatory Material

Scope of this SA (Ref: Para. 2)

A1. Significance can be described as the relative importance of a matter, taken in context. The significance of a matter is judged by the auditor in the context in which it is being considered. Significance can be considered in the context of quantitative and qualitative factors, such as relative magnitude, the nature and effect on the subject matter and the expressed interests of intended users or recipients. This involves an objective analysis of the facts and circumstances, including the nature and extent of communication with those charged with governance.

A2. Users of financial statements have expressed an interest in those matters about which the auditor had the most robust dialogue with those charged with governance as part of the two-way communication required by SA 260 (Revised)⁷ and have called for additional transparency about those communications. For example, users have expressed particular interest in understanding significant judgments made by the auditor in forming the opinion on the financial statements as a whole, because they are often related to the areas of significant management judgment in preparing the financial statements.

A3. Requiring auditors to communicate key audit matters in the auditor's report may also enhance communications between the auditor and those charged with governance about those matters, and may increase attention by management and those charged with governance to the disclosures in the financial statements to which reference is made in the auditor's report.

A4. SA 320⁸ explains that it is reasonable for the auditor to assume that users of the financial statements:

- (a) Have a reasonable knowledge of business and economic activities and accounting and a willingness to study the information in the financial statements with reasonable diligence;
- (b) Understand that the financial statements are prepared, presented and audited to levels of materiality;
- (c) Recognize the uncertainties inherent in the measurement of amounts based on the use of estimates, judgment and the consideration of future events; and
- (d) Make reasonable economic decisions on the basis of the information in the financial statements.

Because the auditor's report accompanies the audited financial statements, the users of the auditor's report are considered to be the same as the intended users of the financial statements.

Relationship between Key Audit Matters, the Auditor's Opinion and Other Elements of the Auditor's Report

⁶ SA 230, *Audit Documentation*, paragraphs 8–11 and A6.

⁷ SA 260 (Revised), *Communication with Those Charged with Governance*.

⁸ SA 320, *Materiality in Planning and Performing the Audit*, paragraph 4.

(Ref: Para. 4, 12, 15)

A5. SA 700 (Revised) establishes requirements and provides guidance on forming an opinion on the financial statements.⁹ Communicating key audit matters is not a substitute for disclosures in the financial statements that the applicable financial reporting framework requires management to make, or that are otherwise necessary to achieve fair presentation. SA 705 (Revised) addresses circumstances in which the auditor concludes that there is a material misstatement relating to the appropriateness or adequacy of disclosures in the financial statements.¹⁰

A6. When the auditor expresses a qualified or adverse opinion in accordance with SA 705 (Revised), presenting the description of a matter giving rise to a modified opinion in the Basis for Qualified (Adverse) Opinion section helps to promote intended users' understanding and to identify such circumstances when they occur. Separating the communication of this matter from other key audit matters described in the Key Audit Matters section, therefore, gives it the appropriate prominence in the auditor's report (see paragraph 15). The Appendix in SA 705 (Revised) includes illustrative examples of how the introductory language in the Key Audit Matters section is affected when the auditor expresses a qualified or adverse opinion and other key audit matters are communicated in the auditor's report. Paragraph A58 of this SA illustrates how the Key Audit Matters section is presented when the auditor has determined that there are no other key audit matters to be communicated in the auditor's report beyond matters addressed in the Basis for Qualified (Adverse) Opinion section or Material Uncertainty Related to Going Concern section of the auditor's report.

A7. When the auditor expresses a qualified or adverse opinion, communicating other key audit matters would still be relevant to enhancing intended users' understanding of the audit, and therefore the requirements to determine key audit matters apply. However, as an adverse opinion is expressed in circumstances when the auditor has concluded that misstatements, individually or in the aggregate, are both material and pervasive to the financial statements:¹¹

- Depending on the significance of the matter(s) giving rise to an adverse opinion, the auditor may determine that no other matters are key audit matters. In such circumstances, the requirement in paragraph 15 applies (see paragraph A58).
- If one or more matters other than the matter(s) giving rise to an adverse opinion are determined to be key audit matters, it is particularly important that the descriptions of such other key audit matters do not imply that the financial statements as a whole are more credible in relation to those matters than would be appropriate in the circumstances, in view of the adverse opinion (see paragraph A47).

A8. SA 706 (Revised)¹² establishes mechanisms for auditors of financial statements of all entities to include additional communication in the auditor's report through the use of Emphasis of Matter paragraphs and Other Matter paragraphs when the auditor considers it necessary to do so. In such cases, these paragraphs are presented separately from the Key Audit Matters section in the auditor's report. When a matter has been determined to be a key audit matter, the use of such paragraphs is not a substitute for the description of the individual key audit matter in accordance with paragraph 13¹³. SA 706 (Revised) provides further guidance on the relationship between key audit matters and Emphasis of Matter paragraphs in accordance with that SA.¹⁴

⁹ SA 700(Revised), paragraphs 10–15 and A1–A10.

¹⁰ See paragraph A7 of SA 705 (Revised).

¹¹ SA 705(Revised), paragraph 8.

¹² SA 706 (Revised), *Emphasis of Matter Paragraphs and Other Matter Paragraphs in the Independent Auditor's Report*.

¹³ See paragraphs 8(b) and 10(b) of SA 706 (Revised).

¹⁴ SA 706 (Revised), paragraphs A1–A3.

I.506 Auditing Pronouncements

Determining Key Audit Matters (Ref: Para. 9–10)

A9. The auditor's decision-making process in determining key audit matters is designed to select a smaller number of matters from the matters communicated with those charged with governance, based on the auditor's judgment about which matters were of most significance in the audit of the financial statements of the current period.

A10. The auditor's determination of key audit matters is limited to those matters of most significance in the audit of the financial statements of the current period, even when comparative financial statements are presented (i.e., even when the auditor's opinion refers to each period for which financial statements are presented).¹⁵

A11. Notwithstanding that the auditor's determination of key audit matters is for the audit of the financial statements of the current period and this SA does not require the auditor to update key audit matters included in the prior period's auditor's report, it may nevertheless be useful for the auditor to consider whether a matter that was a key audit matter in the audit of the financial statements of the prior period continues to be a key audit matter in the audit of the financial statements of the current period.

Matters that Required Significant Auditor Attention (Ref: Para. 9)

A12. The concept of significant auditor attention recognizes that an audit is risk-based and focuses on identifying and assessing the risks of material misstatement of the financial statements, designing and performing audit procedures responsive to those risks, and obtaining audit evidence that is sufficient and appropriate to provide a basis for the auditor's opinion. For a particular account balance, class of transactions or disclosure, the higher an assessed risk of material misstatement at the assertion level, the more judgment is often involved in planning and performing the audit procedures and evaluating the results thereof. In designing further audit procedures, the auditor is required to obtain more persuasive audit evidence the higher the auditor's assessment of risk.¹⁶ When obtaining more persuasive audit evidence because of a higher assessment of risk, the auditor may increase the quantity of the evidence, or obtain evidence that is more relevant or reliable, for example, by placing more emphasis on obtaining third party evidence or by obtaining corroborating evidence from a number of independent sources.¹⁷

A13. Accordingly, matters that pose challenges to the auditor in obtaining sufficient appropriate audit evidence or pose challenges to the auditor in forming an opinion on the financial statements may be particularly relevant in the auditor's determination of key audit matters.

A14. Areas of significant auditor attention often relate to areas of complexity and significant management judgment in the financial statements, and therefore often involve difficult or complex auditor judgments. In turn, this often affects the auditor's overall audit strategy, the allocation of resources and extent of audit effort in relation to such matters. These effects may include, for example, the extent of involvement of senior personnel on the audit engagement or the involvement of an auditor's expert or individuals with expertise in a specialized area of accounting or auditing, whether engaged or employed by the firm to address these areas.

A15. Various SAs require specific communications with those charged with governance and others that may relate to areas of significant auditor attention. For example:

- SA 260 (Revised) requires the auditor to communicate significant difficulties, if any, encountered during the audit with those charged with governance.¹⁸ The SAs acknowledge potential difficulties in relation

¹⁵ See SA 710, *Comparative Information—Corresponding Figures and Comparative Financial Statements*.

¹⁶ SA 330, *The Auditor's Responses to Assessed Risks*, paragraph 7(b).

¹⁷ SA 330, paragraph A19.

¹⁸ SA 260 (Revised), paragraphs 16(b) and A21.

to, for example:

- Related party transactions¹⁹, in particular limitations on the auditor's ability to obtain audit evidence that all other aspects of a related party transaction (other than price) are equivalent to those of a similar arm's length transaction.
- Limitations on the group audit, for example, where the group engagement team's access to information may have been restricted.²⁰
- SA 220 establishes requirements for the engagement partner in relation to undertaking appropriate consultation on difficult or contentious matters.²¹ For example, the auditor may have consulted with others within the firm or outside the firm on a significant technical matter, which may be an indicator that it is a key audit matter. The engagement partner is also required to discuss, among other things, significant matters arising during the audit engagement with the engagement quality control reviewer.²²

Considerations in Determining Those Matters that Required Significant Auditor Attention (Ref: Para. 9)

A16. The auditor may develop a preliminary view at the planning stage about matters that are likely to be areas of significant auditor attention in the audit and therefore may be key audit matters. The auditor may communicate this with those charged with governance when discussing the planned scope and timing of the audit in accordance with SA 260 (Revised). However, the auditor's determination of key audit matters is based on the results of the audit or evidence obtained throughout the audit.

A17. Paragraph 9 includes specific required considerations in the auditor's determination of those matters that required significant auditor attention. These considerations focus on the nature of matters communicated with those charged with governance that are often linked to matters disclosed in the financial statements, and are intended to reflect areas of the audit of the financial statements that may be of particular interest to intended users. The fact that these considerations are required is not intended to imply that matters related to them are always key audit matters; rather, matters related to such specific considerations are key audit matters only if they are determined to be of most significance in the audit in accordance with paragraph 10. As the considerations may be interrelated (e.g., matters relating to the circumstances described in paragraphs 9(b)-(c) may also be identified as significant risks), the applicability of more than one of the considerations to a particular matter communicated with those charged with governance may increase the likelihood of the auditor identifying that matter as a key audit matter.

A18. In addition to matters that relate to the specific required considerations in paragraph 9, there may be other matters communicated with those charged with governance that required significant auditor attention and that therefore may be determined to be key audit matters in accordance with paragraph 10. Such matters may include, for example, matters relevant to the audit that was performed that may not be required to be disclosed in the financial statements. For example, the implementation of a new IT system (or significant changes to an existing IT system) during the period may be an area of significant auditor attention, in particular if such a change had a significant effect on the auditor's overall audit strategy or related to a significant risk (e.g., changes to a system affecting revenue recognition).

Areas of Higher Assessed Risk of Material Misstatement, or Significant Risks Identified in Accordance with SA 315 (Ref: Para. 9(a))

A19. SA 260 (Revised) requires the auditor to communicate with those charged with governance about the

¹⁹ SA 550, *Related Parties*, paragraph A42.

²⁰ SA 600, *Using the work of Another Auditor*.

²¹ SA 220, *Quality Control for an Audit of Financial Statements*, paragraph 18.

²² SA 220, paragraph 19.

I.508 Auditing Pronouncements

significant risks identified by the auditor.²³ Paragraph A13 of SA 260 (Revised) explains that the auditor may also communicate with those charged with governance about how the auditor plans to address areas of higher assessed risks of material misstatement.

A20. SA 315 defines a significant risk as an identified and assessed risk of material misstatement that, in the auditor's judgment, requires special audit consideration. Areas of significant management judgment and significant unusual transactions may often be identified as significant risks. Significant risks are therefore often areas that require significant auditor attention.

A21. However, this may not be the case for all significant risks. For example, SA 240 presumes that there are risks of fraud in revenue recognition and requires the auditor to treat those assessed risks of material misstatement due to fraud as significant risks.²⁴ In addition, SA 240 indicates that, due to the unpredictable way in which management override of controls could occur, it is a risk of material misstatement due to fraud and thus a significant risk.²⁵ Depending on their nature, these risks may not require significant auditor attention, and therefore would not be considered in the auditor's determination of key audit matters in accordance with paragraph 10.

A22. SA 315 explains that the auditor's assessment of the risks of material misstatement at the assertion level may change during the course of the audit as additional audit evidence is obtained.²⁶ Revision to the auditor's risk assessment and reevaluation of the planned audit procedures with respect to a particular area of the financial statements (i.e., a significant change in the audit approach, for example, if the auditor's risk assessment was based on an expectation that certain controls were operating effectively and the auditor has obtained audit evidence that they were not operating effectively throughout the audit period, particularly in an area with higher assessed risk of material misstatement) may result in an area being determined as one requiring significant auditor attention.

Significant Auditor Judgments Relating to Areas in the Financial Statements that Involved Significant Management Judgment, Including Accounting Estimates that Have Been Identified as Having High Estimation Uncertainty (Ref: Para. 9(b))

A23. SA 260 (Revised) requires the auditor to communicate with those charged with governance the auditor's views about significant qualitative aspects of the entity's accounting practices, including accounting policies, accounting estimates and financial statement disclosures.²⁷ In many cases, this relates to critical accounting estimates and related disclosures, which are likely to be areas of significant auditor attention, and also may be identified as significant risks.

A24. However, users of the financial statements have highlighted their interest in accounting estimates that have been identified as having high estimation uncertainty in accordance with SA 540²⁸ that may have not been determined to be significant risks. Among other things, such estimates are highly dependent on management judgment and are often the most complex areas of the financial statements, and may require the involvement of both a management's expert and an auditor's expert. Users have also highlighted that accounting policies that have a significant effect on the financial statements (and significant changes to those policies) are relevant to their understanding of the financial statements, especially in circumstances where an

²⁴ SA 240, *The Auditor's Responsibilities Relating to Fraud in an Audit of Financial Statements*, paragraphs 26–27.

²⁵ SA 240, paragraph 31.

²⁶ SA 315, *Identifying and Assessing the Risks of Material Misstatement through understanding the Entity and its environment*, paragraph 31.

²⁷ SA 260 (Revised), paragraph 16(a).

²⁸ See paragraphs 10–11 of SA 540, *Auditing Accounting Estimates, Including Fair Value Accounting Estimates, and Related Disclosures*.

entity's practices are not consistent with others in its industry.

The Effect on the Audit of Significant Events or Transactions that Occurred during the Period (Ref: Para. 9(c))

A25. Events or transactions that had a significant effect on the financial statements or the audit may be areas of significant auditor attention and may be identified as significant risks. For example, the auditor may have had extensive discussions with management and those charged with governance at various stages throughout the audit about the effect on the financial statements of significant transactions with related parties or significant transactions that are outside the normal course of business for the entity or that otherwise appear to be unusual.²⁹ Management may have made difficult or complex judgments in relation to recognition, measurement, presentation or disclosure of such transactions, which may have had a significant effect on the auditor's overall strategy.

A26. Significant economic, accounting, regulatory, industry, or other developments that affected management's assumptions or judgments may also affect the auditor's overall approach to the audit and result in a matter requiring significant auditor attention.

Matters of Most Significance (Ref: Para. 10)

A27. Matters that required significant auditor attention also may have resulted in significant interaction with those charged with governance. The nature and extent of communication about such matters with those charged with governance often provides an indication of which matters are of most significance in the audit. For example, the auditor may have had more in-depth, frequent or robust interactions with those charged with governance on more difficult and complex matters, such as the application of significant accounting policies that were the subject of significant auditor or management judgment.

A28. The concept of matters of most significance is applicable in the context of the entity and the audit that was performed. As such, the auditor's determination and communication of key audit matters is intended to identify matters specific to the audit and to involve making a judgment about their importance relative to other matters in the audit.

A29. Other considerations that may be relevant to determining the relative significance of a matter communicated with those charged with governance and whether such a matter is a key audit matter include:

- The importance of the matter to intended users' understanding of the financial statements as a whole, in particular, its materiality to the financial statements.
- The nature of the underlying accounting policy relating to the matter or the complexity or subjectivity involved in management's selection of an appropriate policy compared to other entities within its industry.
- The nature and materiality, quantitatively or qualitatively, of corrected and accumulated uncorrected misstatements due to fraud or error related to the matter, if any.
- The nature and extent of audit effort needed to address the matter, including:
 - The extent of specialized skill or knowledge needed to apply audit procedures to address the matter or evaluate the results of those procedures, if any.
 - The nature of consultations outside the engagement team regarding the matter.
- The nature and severity of difficulties in applying audit procedures, evaluating the results of those procedures, and obtaining relevant and reliable evidence on which to base the auditor's opinion, in particular as the auditor's judgments become more subjective.

²⁹ See paragraphs 16(a), 16(c) and A22, and Appendix 2 of SA 260 (Revised).

I.510 Auditing Pronouncements

- The severity of any control deficiencies identified relevant to the matter.
- Whether the matter involved a number of separate, but related, auditing considerations. For example, long-term contracts may involve significant auditor attention with respect to revenue recognition, litigation or other contingencies, and may have an effect on other accounting estimates.

A30. Determining which, and how many, of those matters that required significant auditor attention were of most significance in the audit of the financial statements of the current period is a matter of professional judgment. The number of key audit matters to be included in the auditor's report may be affected by the size and complexity of the entity, the nature of its business and environment, and the facts and circumstances of the audit engagement. In general, the greater the number of matters initially determined to be key audit matters, the more the auditor may need to reconsider whether each of these matters meets the definition of a key audit matter. Lengthy lists of key audit matters may be contrary to the notion of such matters being those of most significance in the audit.

Communicating Key Audit Matters

Separate Key Audit Matters Section in the Auditor's Report (Ref: Para. 11)

A31. Placing the separate Key Audit Matters section in close proximity to the auditor's opinion may give prominence to such information and acknowledge the perceived value of engagement-specific information to intended users.

A32. The order of presentation of individual matters within the Key Audit Matters section is a matter of professional judgment. For example, such information may be organized in order of relative importance, based on the auditor's judgment, or may correspond to the manner in which matters are disclosed in the financial statements. The requirement in paragraph 11 to include subheadings is intended to further differentiate the matters.

A33. When comparative financial information is presented, the introductory language of the Key Audit Matters section is tailored to draw attention to the fact that the key audit matters described relate to only the audit of the financial statements of the current period, and may include reference to the specific period covered by those financial statements (e.g., "for the year ended March 31, 20X1").

Descriptions of Individual Key Audit Matters (Ref: Para. 13)

A34. The adequacy of the description of a key audit matter is a matter of professional judgment. The description of a key audit matter is intended to provide a succinct and balanced explanation to enable intended users to understand why the matter was one of most significance in the audit and how the matter was addressed in the audit. Limiting the use of highly technical auditing terms also helps to enable intended users who do not have a reasonable knowledge of auditing to understand the basis for the auditor's focus on particular matters during the audit. The nature and extent of information provided by the auditor is intended to be balanced in the context of the responsibilities of the respective parties (i.e., for the auditor to provide useful information in a concise and understandable form, while not inappropriately being the provider of original information about the entity).

A35. Original information is any information about the entity that has not otherwise been made publicly available by the entity (e.g., has not been included in the financial statements or other information available at the date of the auditor's report, or addressed in other oral or written communications by management or those charged with governance, such as a preliminary announcement of financial information or investor briefings). Such information is the responsibility of the entity's management and those charged with governance.

A36. It is appropriate for the auditor to seek to avoid the description of a key audit matter inappropriately providing original information about the entity. The description of a key audit matter is not usually of itself

original information about the entity, as it describes the matter in the context of the audit. However, the auditor may consider it necessary to include additional information to explain why the matter was considered to be one of most significance in the audit and therefore determined to be a key audit matter, and how the matter was addressed in the audit, provided that disclosure of such information is not precluded by law or regulation. When such information is determined to be necessary by the auditor, the auditor may encourage management or those charged with governance to disclose additional information, rather than the auditor providing original information in the auditor's report.

A37. Management or those charged with governance may decide to include new or enhanced disclosures in the financial statements or elsewhere in the annual report relating to a key audit matter in light of the fact that the matter will be communicated in the auditor's report. Such new or enhanced disclosures, for example, may be included to provide more robust information about the sensitivity of key assumptions used in accounting estimates or the entity's rationale for a particular accounting practice or policy when acceptable alternatives exist under the applicable financial reporting framework.

A38. Although the auditor's opinion on the financial statements does not extend to the other information addressed by SA 720³⁰ the auditor may consider this information, as well as other publicly available communications by the entity or other credible sources, in formulating the description of a key audit matter.

A39. Audit documentation prepared during the audit can also be useful to the auditor in formulating the description of a key audit matter. For example, written communications, or the auditor's documentation of oral communications, with those charged with governance and other audit documentation provides a useful basis for the auditor's communication in the auditor's report. This is because audit documentation in accordance with SA 230 is intended to address the significant matters arising during the audit, the conclusions reached thereon, and significant professional judgments made in reaching those conclusions, and serves as a record of the nature, timing and extent of the audit procedures performed, the results of those procedures, and the audit evidence obtained. Such documentation may assist the auditor in developing a description of key audit matters that explains the significance of the matter and also in applying the requirement in paragraph 18.

Reference to Where the Matter Is Disclosed in the Financial Statements (Ref: Para. 13)

A40. Paragraphs 13(a)-(b) requires the description of each key audit matter to address why the auditor considered the matter to be one of most significance in the audit and how the matter was addressed in the audit. Accordingly, the description of key audit matters is not a mere reiteration of what is disclosed in the financial statements. However, a reference to any related disclosures enables intended users to further understand how management has addressed the matter in preparing the financial statements.

A41. In addition to referring to related disclosure(s), the auditor may draw attention to key aspects of them. The extent of disclosure by management about specific aspects or factors in relation to how a particular matter is affecting the financial statements of the current period may help the auditor in pinpointing particular aspects of how the matter was addressed in the audit such that intended users can understand why the matter is a key audit matter. For example:

- When an entity includes robust disclosure about accounting estimates, the auditor may draw attention to the disclosure of key assumptions, the disclosure of the range of possible outcomes, and other qualitative and quantitative disclosures relating to key sources of estimation uncertainty or critical accounting estimates, as part of addressing why the matter was one of most significance in the audit and how the matter was addressed in the audit.

³⁰ SA 720, *The Auditor's Responsibilities Relating to Other Information in Documents Containing Audited Financial Statements*.

I.512 Auditing Pronouncements

- When the auditor concludes in accordance with SA 570 (Revised) that no material uncertainty exists relating to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern, the auditor may nevertheless determine that one or more matters relating to this conclusion arising from the auditor's work effort under SA 570 (Revised) are key audit matters. In such circumstances, the auditor's description of such key audit matters in the auditor's report could include aspects of the identified events or conditions disclosed in the financial statements, such as substantial operating losses, available borrowing facilities and possible debt refinancing, or non-compliance with loan agreements, and related mitigating factors.³¹

Why the Auditor Considered the Matter to Be One of Most Significance in the Audit (Ref: Para. 13(a))

A42. The description of a key audit matter in the auditor's report is intended to provide insight as to why the matter was determined to be a key audit matter. Accordingly, the requirements in paragraphs 9–10 and the application material in paragraphs A12–A29 related to determining key audit matters may also be helpful for the auditor in considering how such matters are to be communicated in the auditor's report. For example, explaining the factors that led the auditor to conclude that a particular matter required significant auditor attention and was of most significance in the audit is likely to be of interest to intended users.

A43. The relevance of the information for intended users is a consideration for the auditor in determining what to include in the description of a key audit matter. This may include whether the description would enable a better understanding of the audit and the auditor's judgments.

A44. Relating a matter directly to the specific circumstances of the entity may also help to minimize the potential that such descriptions become overly standardized and less useful over time. For example, certain matters may be determined as key audit matters in a particular industry across a number of entities due to the circumstances of the industry or the underlying complexity in financial reporting. In describing why the auditor considered the matter to be one of most significance, it may be useful for the auditor to highlight aspects specific to the entity (e.g., circumstances that affected the underlying judgments made in the financial statements of the current period) in order to make the description more relevant for intended users. This also may be important in describing a key audit matter that recurs over periods.

A45. The description may also make reference to the principal considerations that led the auditor, in the circumstances of the audit, to determine the matter to be one of most significance, for example:

- Economic conditions that affected the auditor's ability to obtain audit evidence, for example illiquid markets for certain financial instruments.
- New or emerging accounting policies, for example entity-specific or industry-specific matters on which the engagement team consulted within the firm.
- Changes in the entity's strategy or business model that had a material effect on the financial statements.

How the Matter Was Addressed in the Audit (Ref: Para. 13(b))

A46. The amount of detail to be provided in the auditor's report to describe how a key audit matter was addressed in the audit is a matter of professional judgment. In accordance with paragraph 13(b), the auditor may describe:

- Aspects of the auditor's response or approach that were most relevant to the matter or specific to the assessed risk of material misstatement;
- A brief overview of procedures performed;

³¹ See paragraph A3 of SA 570(Revised), Going Concern.

- An indication of the outcome of the auditor's procedures; or
 - Key observations with respect to the matter,
- or some combination of these elements.

Law or regulation or national auditing standards may prescribe a specific form or content for the description of a key audit matter, or may specify the inclusion of one or more of these elements.

A47. In order for intended users to understand the significance of a key audit matter in the context of the audit of the financial statements as a whole, as well as the relationship between key audit matters and other elements of the auditor's report, including the auditor's opinion, care may be necessary so that language used in the description of a key audit matter:

- Does not imply that the matter has not been appropriately resolved by the auditor in forming the opinion on the financial statements.
- Relates the matter directly to the specific circumstances of the entity, while avoiding generic or standardized language.
- Takes into account how the matter is addressed in the related disclosure(s) in the financial statements, if any.
- Does not contain or imply discrete opinions on separate elements of the financial statements.

A48. Describing aspects of the auditor's response or approach to a matter, in particular when the audit approach required significant tailoring to the facts and circumstances of the entity, may assist intended users in understanding unusual circumstances and significant auditor judgment required to address the risk of material misstatement. In addition, the audit approach in a particular period may have been influenced by entity-specific circumstances, economic conditions, or industry developments. It may also be useful for the auditor to make reference to the nature and extent of communications with those charged with governance about the matter.

A49. For example, in describing the auditor's approach to an accounting estimate that has been identified as having high estimation uncertainty, such as the valuation of complex financial instruments, the auditor may wish to highlight that the auditor employed or engaged an auditor's expert. Such a reference to the use of an auditor's expert does not reduce the auditor's responsibility for the opinion on the financial statements and is therefore not inconsistent with paragraphs 14–15 of SA 620.³²

A50. There may be challenges in describing the auditor's procedures, particularly in complex, judgmental areas of the audit. In particular, it may be difficult to summarize the procedures performed in a succinct way that adequately communicates the nature and extent of the auditor's response to the assessed risk of material misstatement, and the significant auditor judgments involved. Nonetheless, the auditor may consider it necessary to describe certain procedures performed to communicate how the matter was addressed in the audit. Such description may typically be at a high level, rather than include a detailed description of procedures.

A51. As noted in paragraph A46, the auditor may also provide an indication of the outcome of the auditor's response in the description of the key audit matter in the auditor's report. However, if this is done, care is needed to avoid the auditor giving the impression that the description is conveying a separate opinion on an individual key audit matter or that in any way may call into question the auditor's opinion on the financial statements as a whole.

Circumstances in Which a Matter Determined to Be a Key Audit Matter is Not Communicated in the Auditor's

³² SA 620, *Using the Work of an Auditor's Expert*.

I.514 Auditing Pronouncements

Report (Ref: Para. 14)

A52. Law or regulation may preclude public disclosure by either management or the auditor about a specific matter determined to be a key audit matter. For example, law or regulation may specifically prohibit any public communication that might prejudice an investigation by an appropriate authority into an actual, or suspected, illegal act (e.g., matters that are or appear to be related to money laundering).

A53. As indicated by paragraph 14(b), it will be extremely rare for a matter determined to be a key audit matter not to be communicated in the auditor's report. This is because there is presumed to be a public interest benefit in providing greater transparency about the audit for intended users. Accordingly, the judgment not to communicate a key audit matter is appropriate only in cases when the adverse consequences to the entity or the public as a result of such communication are viewed as so significant that they would reasonably be expected to outweigh the public interest benefits of communicating about the matter.

A54. The determination not to communicate a key audit matter takes into account the facts and circumstances related to the matter. Communication with management and those charged with governance helps the auditor understand management's views about the significance of the adverse consequences that may arise as a result of communicating about a matter. In particular, communication with management and those charged with governance helps to inform the auditor's judgment in determining whether to communicate the matter by:

- Assisting the auditor in understanding why the matter has not been publicly disclosed by the entity (e.g., if law, regulation or certain financial reporting frameworks permit delayed disclosure or non-disclosure of the matter) and management's views as to the adverse consequences, if any, of disclosure. Management may draw attention to certain aspects in law or regulation or other authoritative sources that may be relevant to the consideration of adverse consequences (e.g., such aspects may include harm to the entity's commercial negotiations or competitive position). However, management's views about the adverse consequences alone do not alleviate the need for the auditor to determine whether the adverse consequences would reasonably be expected to outweigh the public interest benefits of communication in accordance with paragraph 14(b).
- Highlighting whether there have been any communications with applicable regulatory, enforcement or supervisory authorities in relation to the matter, in particular whether such discussions would appear to support management's assertion as to why public disclosure about the matter is not appropriate.
- Enabling the auditor, where appropriate, to encourage management and those charged with governance to make public disclosure of relevant information about the matter. In particular, this may be possible if the concerns of management and those charged with governance about communicating are limited to specific aspects relating to the matter, such that certain information about the matter may be less sensitive and could be communicated.

The auditor also may consider it necessary to obtain a written representation from management as to why public disclosure about the matter is not appropriate, including management's view about the significance of the adverse consequences that may arise as a result of such communication.

A55. It may also be necessary for the auditor to consider the implications of communicating about a matter determined to be a key audit matter in light of relevant ethical requirements. In addition, the auditor may be required by law or regulation to communicate with applicable regulatory, enforcement or supervisory authorities in relation to the matter, regardless of whether the matter is communicated in the auditor's report. Such communication may also be useful to inform the auditor's consideration of the adverse consequences that may arise from communicating about the matter.

A56. The issues considered by the auditor regarding a decision to not communicate a matter are complex and involve significant auditor judgment. Accordingly, the auditor may consider it appropriate to obtain legal advice.

Form and Content of the Key Audit Matters Section in Other Circumstances (Ref: Para. 16)

A57. The requirement in paragraph 16 applies in three circumstances:

- (i) The auditor determines in accordance with paragraph 10 that there are no key audit matters (see paragraph A59).
- (ii) The auditor determines in accordance with paragraph 14 that a key audit matter will not be communicated in the auditor's report and no other matters have been determined to be key audit matters.
- (iii) The only matters determined to be key audit matters are those communicated in accordance with paragraph 15.

A58. The following illustrates the presentation in the auditor's report if the auditor has determined there are no key audit matters to communicate:

Key Audit Matters

[Except for the matter described in the *Basis for Qualified (Adverse) Opinion* section or *Material Uncertainty Related to Going Concern* section,] We have determined that there are no [other] key audit matters to communicate in our report.

A59. The determination of key audit matters involves making a judgment about the relative importance of matters that required significant auditor attention. Therefore, it may be rare that the auditor of a complete set of general purpose financial statements of a listed entity would not determine at least one key audit matter from the matters communicated with those charged with governance to be communicated in the auditor's report. However, in certain limited circumstances (e.g., for a listed entity that has very limited operations), the auditor may determine that there are no key audit matters in accordance with paragraph 10 because there are no matters that required significant auditor attention.

Communication with Those Charged with Governance (Ref: Para. 17)

A60. SA 260 (Revised) requires the auditor to communicate with those charged with governance on a timely basis.³³ The appropriate timing for communications about key audit matters will vary with the circumstances of the engagement. However, the auditor may communicate preliminary views about key audit matters when discussing the planned scope and timing of the audit, and may further discuss such matters when communicating about audit findings. Doing so may help to alleviate the practical challenges of attempting to have a robust two-way dialogue about key audit matters at the time the financial statements are being finalized for issuance.

A61. Communication with those charged with governance enables them to be made aware of the key audit matters that the auditor intends to communicate in the auditor's report, and provides them with an opportunity to obtain further clarification where necessary. The auditor may consider it useful to provide those charged with governance with a draft of the auditor's report to facilitate this discussion. Communication with those charged with governance recognizes their important role in overseeing the financial reporting process, and provides the opportunity for those charged with governance to understand the basis for the auditor's decisions in relation to key audit matters and how these matters will be described in the auditor's report. It also enables those charged with governance to consider whether new or enhanced disclosures may be

³³ SA 260 (Revised), paragraph 21.

I.516 Auditing Pronouncements

useful in light of the fact that these matters will be communicated in the auditor's report.

A62. The communication with those charged with governance required by paragraph 17(a) also addresses the extremely rare circumstances in which a matter determined to be a key audit matter is not communicated in the auditor's report (see paragraphs 14 and A54).

A63. The requirement in paragraph 17(b) to communicate with those charged with governance when the auditor has determined there are no key audit matters to communicate in the auditor's report may provide an opportunity for the auditor to have further discussion with others who are familiar with the audit and the significant matters that may have arisen (including the engagement quality control reviewer, where one has been appointed). These discussions may cause the auditor to re-evaluate the auditor's determination that there are no key audit matters.

Documentation (Ref: Para. 18)

A64. Paragraph 8 of SA 230 requires the auditor to prepare audit documentation that is sufficient to enable an experienced auditor, having no previous connection with the audit, to understand, among other things, significant professional judgments. In the context of key audit matters, these professional judgments include the determination, from the matters communicated with those charged with governance, of the matters that required significant auditor attention, as well as whether or not each of those matters is a key audit matter. The auditor's judgments in this regard are likely to be supported by the documentation of the auditor's communications with those charged with governance and the audit documentation relating to each individual matter (see paragraph A39), as well as certain other audit documentation of the significant matters arising during the audit (e.g., a completion memorandum). However, this SA does not require the auditor to document why other matters communicated with those charged with governance were not matters that required significant auditor attention.

SA 705

Modifications to the Opinion in the Independent Auditor's Report
(Effective for all audits relating to accounting periods beginning on or after April 1, 2017)

Introduction

Scope of this SA

1. This Standard on Auditing (SA) deals with the auditor's responsibility to issue an appropriate report in circumstances when, in forming an opinion in accordance with SA 700 (Revised),¹ the auditor concludes that a modification to the auditor's opinion on the financial statements is necessary. This SA also deals with how the form and content of the auditor's report is affected when the auditor expresses a modified opinion. In all cases, the reporting requirements in SA 700 (Revised) apply, and are not repeated in this SA unless they are explicitly addressed or amended by the requirements of this SA.

Types of Modified Opinions

2. This SA establishes three types of modified opinions, namely, a qualified opinion, an adverse opinion, and a disclaimer of opinion. The decision regarding which type of modified opinion is appropriate depends upon:

- (a) The nature of the matter giving rise to the modification, that is, whether the financial statements are materially misstated or, in the case of an inability to obtain sufficient appropriate audit evidence, may be materially misstated; and
- (b) The auditor's judgment about the pervasiveness of the effects or possible effects of the matter on the financial statements. (Ref: Para. A1)

Effective Date

3. This SA is effective for audits of financial statements for periods beginning on or after April 1, 2017.

Objective

4. The objective of the auditor is to express clearly an appropriately modified opinion on the financial statements that is necessary when:

- (a) The auditor concludes, based on the audit evidence obtained, that the financial statements as a whole are not free from material misstatement; or
- (b) The auditor is unable to obtain sufficient appropriate audit evidence to conclude that the financial statements as a whole are free from material misstatement.

Definitions

5. For purposes of the SAs, the following terms have the meanings attributed below:

- (a) Pervasive – A term used, in the context of misstatements, to describe the effects on the financial statements of misstatements or the possible effects on the financial statements of misstatements, if

¹ SA 700 (Revised), *Forming an Opinion and Reporting on Financial Statements*

I.518 Auditing Pronouncements

any, that are undetected due to an inability to obtain sufficient appropriate audit evidence. Pervasive effects on the financial statements are those that, in the auditor's judgment:

- (i) Are not confined to specific elements, accounts or items of the financial statements;
 - (ii) If so confined, represent or could represent a substantial proportion of the financial statements;
or
 - (iii) In relation to disclosures, are fundamental to users' understanding of the financial statements.
- (b) Modified opinion – A qualified opinion, an adverse opinion or a disclaimer of opinion on the financial statements.

Requirements

Circumstances When a Modification to the Auditor's Opinion is Required

6. The auditor shall modify the opinion in the auditor's report when:
- (a) The auditor concludes that, based on the audit evidence obtained, the financial statements as a whole are not free from material misstatement; or (Ref: Para. A2–A7)
 - (b) The auditor is unable to obtain sufficient appropriate audit evidence to conclude that the financial statements as a whole are free from material misstatement. (Ref: Para. A8– A12)

Determining the Type of Modification to the Auditor's Opinion

Qualified Opinion

7. The auditor shall express a qualified opinion when:
- (a) The auditor, having obtained sufficient appropriate audit evidence, concludes that misstatements, individually or in the aggregate, are material, but not pervasive, to the financial statements; or
 - (b) The auditor is unable to obtain sufficient appropriate audit evidence on which to base the opinion, but the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be material but not pervasive.

Adverse Opinion

8. The auditor shall express an adverse opinion when the auditor, having obtained sufficient appropriate audit evidence, concludes that misstatements, individually or in the aggregate, are both material and pervasive to the financial statements.

Disclaimer of Opinion

9. The auditor shall disclaim an opinion when the auditor is unable to obtain sufficient appropriate audit evidence on which to base the opinion, and the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be both material and pervasive.

10. The auditor shall disclaim an opinion when, in extremely rare circumstances involving multiple uncertainties, the auditor concludes that, notwithstanding having obtained sufficient appropriate audit evidence regarding each of the individual uncertainties, it is not possible to form an opinion on the financial statements due to the potential interaction of the uncertainties and their possible cumulative effect on the financial statements.

Consequence of an Inability to Obtain Sufficient Appropriate Audit Evidence Due to a Management-Imposed Limitation after the Auditor Has Accepted the Engagement

11. If, after accepting the engagement, the auditor becomes aware that management has imposed a limitation on the scope of the audit that the auditor considers likely to result in the need to express a qualified opinion or to disclaim an opinion on the financial statements, the auditor shall request that management

remove the limitation.

12. If management refuses to remove the limitation referred to in paragraph 11 of this SA, the auditor shall communicate the matter to those charged with governance, unless all of those charged with governance are involved in managing the entity,² and determine whether it is possible to perform alternative procedures to obtain sufficient appropriate audit evidence.

13. If the auditor is unable to obtain sufficient appropriate audit evidence, the auditor shall determine the implications as follows:

- (a) If the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be material but not pervasive, the auditor shall qualify the opinion; or
- (b) If the auditor concludes that the possible effects on the financial statements of undetected misstatements, if any, could be both material and pervasive so that a qualification of the opinion would be inadequate to communicate the gravity of the situation, the auditor shall:
 - (i) Withdraw from the audit, where practicable and possible under applicable law or regulation; or (Ref: Para. A13)
 - (ii) If withdrawal from the audit before issuing the auditor's report is not practicable or possible, disclaim an opinion on the financial statements. (Ref. Para. A14)

14. If the auditor withdraws as contemplated by paragraph 13(b)(i), before withdrawing, the auditor shall communicate to those charged with governance any matters regarding misstatements identified during the audit that would have given rise to a modification of the opinion. (Ref: Para. A15)

Other Considerations Relating to an Adverse Opinion or Disclaimer of Opinion

15. When the auditor considers it necessary to express an adverse opinion or disclaim an opinion on the financial statements as a whole, the auditor's report shall not also include an unmodified opinion with respect to the same financial reporting framework on a single financial statement or one or more specific elements, accounts or items of a financial statement. To include such an unmodified opinion in the same report³ in these circumstances would contradict the auditor's adverse opinion or disclaimer of opinion on the financial statements as a whole. (Ref: Para. A16)

Form and Content of the Auditor's Report When the Opinion is Modified

Auditor's Opinion

16. When the auditor modifies the audit opinion, the auditor shall use the heading "Qualified Opinion," "Adverse Opinion," or "Disclaimer of Opinion," as appropriate, for the Opinion section. (Ref: Para. A17–A19)

Qualified Opinion

17. When the auditor expresses a qualified opinion due to a material misstatement in the financial statements, the auditor shall state that, in the auditor's opinion, except for the effects of the matter(s) described in the Basis for Qualified Opinion section:

- (a) When reporting in accordance with a fair presentation framework, the accompanying financial statements present fairly, in all material respects (or give a true and fair view of) [...] in accordance with [the applicable financial reporting framework]; or

² SA 260 (Revised), *Communication with Those Charged with Governance*, paragraph 13

³ SA 805, *Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts or Items of a Financial Statement*, deals with circumstances where the auditor is engaged to express a separate opinion on one or more specific elements, accounts or items of a financial statement.

I.520 Auditing Pronouncements

- (b) When reporting in accordance with a compliance framework, the accompanying financial statements have been prepared, in all material respects, in accordance with [the applicable financial reporting framework].

When the modification arises from an inability to obtain sufficient appropriate audit evidence, the auditor shall use the corresponding phrase “except for the possible effects of the matter(s) ...” for the modified opinion. (Ref: Para. A20)

Adverse Opinion

18. When the auditor expresses an adverse opinion, the auditor shall state that, in the auditor’s opinion, because of the significance of the matter(s) described in the Basis for Adverse Opinion section:

- (a) When reporting in accordance with a fair presentation framework, the accompanying financial statements do not present fairly (or give a true and fair view of) [...] in accordance with [the applicable financial reporting framework]; or
- (b) When reporting in accordance with a compliance framework, the accompanying financial statements have not been prepared, in all material respects, in accordance with [the applicable financial reporting framework].

Disclaimer of Opinion

19. When the auditor disclaims an opinion due to an inability to obtain sufficient appropriate audit evidence, the auditor shall:

- (a) State that the auditor does not express an opinion on the accompanying financial statements;
- (b) State that, because of the significance of the matter(s) described in the Basis for Disclaimer of Opinion section, the auditor has not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements; and
- (c) Amend the statement required by paragraph 24(b) of SA 700 (Revised), which indicates that the financial statements have been audited, to state that the auditor was engaged to audit the financial statements.

Basis for Opinion

20. When the auditor modifies the opinion on the financial statements, the auditor shall, in addition to the specific elements required by SA 700 (Revised): (Ref: Para. A21)

- (a) Amend the heading “Basis for Opinion” required by paragraph 28 of SA 700 (Revised) to “Basis for Qualified Opinion,” “Basis for Adverse Opinion,” or “Basis for Disclaimer of Opinion,” as appropriate; and
- (b) Within this section, include a description of the matter giving rise to the modification.

21. If there is a material misstatement of the financial statements that relates to specific amounts in the financial statements (including quantitative disclosures in the notes to the financial statements), the auditor shall include in the Basis for Opinion section a description and quantification of the financial effects of the misstatement, unless impracticable. If it is not practicable to quantify the financial effects, the auditor shall so state in this section. (Ref: Para. A22)

22. If there is a material misstatement of the financial statements that relates to narrative disclosures, the auditor shall include in the Basis for Opinion section an explanation of how the disclosures are misstated.

23. If there is a material misstatement of the financial statements that relates to the non-disclosure of information required to be disclosed, the auditor shall:

- (a) Discuss the non-disclosure with those charged with governance;

- (b) Describe in the Basis for Opinion section the nature of the omitted information; and
 - (c) Unless prohibited by law or regulation, include the omitted disclosures, provided it is practicable to do so and the auditor has obtained sufficient appropriate audit evidence about the omitted information. (Ref: Para. A23)
24. If the modification results from an inability to obtain sufficient appropriate audit evidence, the auditor shall include in the Basis for Opinion section the reasons for that inability.
25. When the auditor expresses a qualified or adverse opinion, the auditor shall amend the statement about whether the audit evidence obtained is sufficient and appropriate to provide a basis for the auditor's opinion required by paragraph 28(d) of SA 700 (Revised) to include the word "qualified" or "adverse", as appropriate.
26. When the auditor disclaims an opinion on the financial statements, the auditor's report shall not include the elements required by paragraphs 28(b) and 28(d) of SA 700 (Revised). Those elements are:
- (a) A reference to the section of the auditor's report where the auditor's responsibilities are described; and
 - (b) A statement about whether the audit evidence obtained is sufficient and appropriate to provide a basis for the auditor's opinion.
27. Even if the auditor has expressed an adverse opinion or disclaimed an opinion on the financial statements, the auditor shall describe in the Basis for Opinion section the reasons for any other matters of which the auditor is aware that would have required a modification to the opinion, and the effects thereof. (Ref: Para. A24)

Description of Auditor's Responsibilities for the Audit of the Financial Statements When the Auditor Disclaims an Opinion on the Financial Statements

28. When the auditor disclaims an opinion on the financial statements due to an inability to obtain sufficient appropriate audit evidence, the auditor shall amend the description of the auditor's responsibilities required by paragraphs 38–40 of SA 700 (Revised) to include only the following: (Ref: Para. A25)
- (a) A statement that the auditor's responsibility is to conduct an audit of the entity's financial statements in accordance with Standards on Auditing and to issue an auditor's report;
 - (b) A statement that, however, because of the matter(s) described in the Basis for Disclaimer of Opinion section, the auditor was not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements; and
 - (c) The statement about auditor independence and other ethical responsibilities required by paragraph 28(c) of SA 700 (Revised).

Considerations When the Auditor Disclaims an Opinion on the Financial Statements

- Unless required by law or regulation, when the auditor disclaims an opinion on the financial statements, the auditor's report shall not include a Key Audit Matters section in accordance with SA 701.⁴ (Ref: Para. A26)

Communication with Those Charged with Governance

- When the auditor expects to modify the opinion in the auditor's report, the auditor shall communicate with those charged with governance the circumstances that led to the expected modification and the wording of the modification. (Ref: Para. A27)

⁴ SA 701, *Communicating Key Audit Matters in the Independent Auditor's Report*, paragraphs 11–13

Application and Other Explanatory Material

Types of Modified Opinions (Ref: Para. 2)

A1. The table below illustrates how the auditor's judgment about the nature of the matter giving rise to the modification, and the pervasiveness of its effects or possible effects on the financial statements, affects the type of opinion to be expressed.

Nature of Matter Giving Rise to the Modification	Auditor's Judgment about the Pervasiveness of the Effects or Possible Effects on the Financial Statements	
	Material but Not Pervasive	Material and Pervasive
Financial statements Are materially misstated	Qualified opinion	Adverse opinion
Inability to obtain sufficient appropriate audit evidence	Qualified opinion	Disclaimer of opinion

Circumstances When a Modification to the Auditor's Opinion is Required

Nature of Material Misstatements (Ref: Para. 6(a))

A2. SA 700 (Revised) requires the auditor, in order to form an opinion on the financial statements, to conclude as to whether reasonable assurance has been obtained about whether the financial statements as a whole are free from material misstatement.⁵ This conclusion takes into account the auditor's evaluation of uncorrected misstatements, if any, on the financial statements in accordance with SA 450.⁶

A3. SA 450 defines a misstatement as a difference between the amount, classification, presentation, or disclosure of a reported financial statement item and the amount, classification, presentation, or disclosure that is required for the item to be in accordance with the applicable financial reporting framework. Accordingly, a material misstatement of the financial statements may arise in relation to:

- (a) The appropriateness of the selected accounting policies;
- (b) The application of the selected accounting policies; or
- (c) The appropriateness or adequacy of disclosures in the financial statements.

Appropriateness of the Selected Accounting Policies

A4. In relation to the appropriateness of the accounting policies management has selected, material misstatements of the financial statements may arise when:

- (a) The selected accounting policies are not consistent with the applicable financial reporting framework; or
- (b) The financial statements, including the related notes, do not represent the underlying transactions and

⁵ SA 700 (Revised), paragraph 11

⁶ SA 450, *Evaluation of Misstatements Identified during the Audit*, paragraph 11

events in a manner that achieves fair presentation.

A5. Financial reporting frameworks often contain requirements for the accounting for, and disclosure of, changes in accounting policies. Where the entity has changed its selection of significant accounting policies, a material misstatement of the financial statements may arise when the entity has not complied with these requirements.

Application of the Selected Accounting Policies

A6. In relation to the application of the selected accounting policies, material misstatements of the financial statements may arise:

- (a) When management has not applied the selected accounting policies consistently with the financial reporting framework, including when management has not applied the selected accounting policies consistently between periods or to similar transactions and events (consistency in application); or
- (b) Due to the method of application of the selected accounting policies (such as an unintentional error in application).

Appropriateness or Adequacy of Disclosures in the Financial Statements

A7. In relation to the appropriateness or adequacy of disclosures in the financial statements, material misstatements of the financial statements may arise when:

- (a) The financial statements do not include all of the disclosures required by the applicable financial reporting framework;
- (b) The disclosures in the financial statements are not presented in accordance with the applicable financial reporting framework; or
- (c) The financial statements do not provide the disclosures necessary to achieve fair presentation.

Nature of an Inability to Obtain Sufficient Appropriate Audit Evidence (Ref: Para. 6(b))

A8. The auditor's inability to obtain sufficient appropriate audit evidence (also referred to as a limitation on the scope of the audit) may arise from:

- (a) Circumstances beyond the control of the entity;
- (b) Circumstances relating to the nature or timing of the auditor's work; or
- (c) Limitations imposed by management.

A9. An inability to perform a specific procedure does not constitute a limitation on the scope of the audit if the auditor is able to obtain sufficient appropriate audit evidence by performing alternative procedures. If this is not possible, the requirements of paragraphs 7(b) and 9–10 apply as appropriate. Limitations imposed by management may have other implications for the audit, such as for the auditor's assessment of fraud risks and consideration of engagement continuance.

A10. Examples of circumstances beyond the control of the entity include when:

- The entity's accounting records have been destroyed.
- The accounting records of a significant component have been seized indefinitely by governmental authorities.

A11. Examples of circumstances relating to the nature or timing of the auditor's work include when:

- The entity is required to use the equity method of accounting for an associated entity, and the auditor is unable to obtain sufficient appropriate audit evidence about the latter's financial information to evaluate whether the equity method has been appropriately applied.

I.524 Auditing Pronouncements

- The timing of the auditor's appointment is such that the auditor is unable to observe the counting of the physical inventories.
- The auditor determines that performing substantive procedures alone is not sufficient, but the entity's controls are not effective.

A12. Examples of an inability to obtain sufficient appropriate audit evidence arising from a limitation on the scope of the audit imposed by management include when:

- Management prevents the auditor from observing the counting of the physical inventory.
- Management prevents the auditor from requesting external confirmation of specific account balances.

Determining the Type of Modification to the Auditor's Opinion

Consequence of an Inability to Obtain Sufficient Appropriate Audit Evidence Due to a Management-Imposed Limitation after the Auditor Has Accepted the Engagement (Ref: Para. 13(b)(i)–14)

A13. The practicality of withdrawing from the audit may depend on the stage of completion of the engagement at the time that management imposes the scope limitation. If the auditor has substantially completed the audit, the auditor may decide to complete the audit to the extent possible, disclaim an opinion and explain the scope limitation within the Basis for Disclaimer of Opinion section prior to withdrawing.

A14. In certain circumstances, withdrawal from the audit may not be possible if the auditor is required by law or regulation to continue the audit engagement. This may be the case for an auditor that is appointed to audit the financial statements of public sector entities. It may also be the case in entities where the auditor is appointed to audit the financial statements covering a specific period, or appointed for a specific period and is prohibited from withdrawing before the completion of the audit of those financial statements or before the end of that period, respectively. The auditor may also consider it necessary to include an Other Matter paragraph in the auditor's report.⁷

A15. When the auditor concludes that withdrawal from the audit is necessary because of a scope limitation, there may be a professional, legal or regulatory requirement for the auditor to communicate matters relating to the withdrawal from the engagement to regulators or the entity's owners.

Other Considerations Relating to an Adverse Opinion or Disclaimer of Opinion (Ref: Para. 15)

A16. The following are examples of reporting circumstances that would not contradict the auditor's adverse opinion or disclaimer of opinion:

- The expression of an unmodified opinion on financial statements prepared under a given financial reporting framework and, within the same report, the expression of an adverse opinion on the same financial statements under a different financial reporting framework.⁸
- The expression of a disclaimer of opinion regarding the results of operations, and cash flows, where relevant, and an unmodified opinion regarding the financial position (see SA 510⁹). In this case, the auditor has not expressed a disclaimer of opinion on the financial statements as a whole.

Form and Content of the Auditor's Report When the Opinion Is Modified

Illustrative Auditor's Reports (Ref: Para. 16)

A17. Illustrations 1 and 2 in the Appendix contain auditor's reports with qualified and adverse opinions, respectively, as the financial statements are materially misstated.

⁷ SA 706 (Revised), *Emphasis of Matter Paragraphs and Other Matter Paragraphs in the Independent Auditor's Report*, paragraph A10

⁸ See paragraph A25 of SA 700 (Revised) for a description of this circumstance.

⁹ SA 510, *Initial Audit Engagements – Opening Balances*, paragraph 10 and A5

A18. Illustration 3 in the Appendix contains an auditor's report with a qualified opinion as the auditor is unable to obtain sufficient appropriate audit evidence. Illustration 4 contains a disclaimer of opinion due to an inability to obtain sufficient appropriate audit evidence about a single element of the financial statements. Illustration 5 contains a disclaimer of opinion due to an inability to obtain sufficient appropriate audit evidence about multiple elements of the financial statements. In each of the latter two cases, the possible effects on the financial statements of the inability are both material and pervasive. The Appendices to other SAs that include reporting requirements, including SA 570 (Revised),¹⁰ also include illustrations of auditor's reports with modified opinions.

Auditor's Opinion (Ref: Para. 16)

A19. Amending this heading makes it clear to the user that the auditor's opinion is modified and indicates the type of modification.

Qualified Opinion (Ref: Para. 17)

A20. When the auditor expresses a qualified opinion, it would not be appropriate to use phrases such as "with the foregoing explanation" or "subject to" in the Opinion section as these are not sufficiently clear or forceful.

Basis for Opinion (Ref: Para. 20, 21, 23, 27)

A21. Consistency in the auditor's report helps to promote users' understanding and to identify unusual circumstances when they occur. Accordingly, although uniformity in the wording of a modified opinion and in the description of the reasons for the modification may not be possible, consistency in both the form and content of the auditor's report is desirable.

A22. An example of the financial effects of material misstatements that the auditor may describe within the Basis for Opinion section in the auditor's report is the quantification of the effects on income tax, income before taxes, net income and equity if inventory is overstated.

A23. Disclosing the omitted information within the Basis for Opinion section would not be practicable if:

- (a) The disclosures have not been prepared by management or the disclosures are otherwise not readily available to the auditor; or
- (b) In the auditor's judgment, the disclosures would be unduly voluminous in relation to the auditor's report.

A24. An adverse opinion or a disclaimer of opinion relating to a specific matter described within the Basis for Opinion section does not justify the omission of a description of other identified matters that would have otherwise required a modification of the auditor's opinion. In such cases, the disclosure of such other matters of which the auditor is aware may be relevant to users of the financial statements.

Description of Auditor's Responsibilities for the Audit of the Financial Statements When the Auditor Disclaims an Opinion on the Financial Statements (Ref: Para. 28)

A25. When the auditor disclaims an opinion on the financial statements, the following statements are better positioned within the Auditor's Responsibilities for the Audit of the Financial Statements section of the auditor's report, as illustrated in Illustrations 4–5 of the Appendix to this SA:

- The statement required by paragraph 28(a) of SA 700 (Revised), amended to state that the auditor's responsibility is to conduct an audit of the entity's financial statements in accordance with SAs; and
- The statement required by paragraph 28(c) of SA 700 (Revised) about independence and other ethical responsibilities.

¹⁰ SA 570 (Revised), *Going Concern*

I.526 Auditing Pronouncements

Considerations When the Auditor Disclaims an Opinion on the Financial Statements (Ref: Para. 29)

A26. Providing the reasons for the auditor's inability to obtain sufficient appropriate audit evidence within the Basis for Disclaimer of Opinion section of the auditor's report provides useful information to users in understanding why the auditor has disclaimed an opinion on the financial statements and may further guard against inappropriate reliance on them. However, communication of any key audit matters other than the matter(s) giving rise to the disclaimer of opinion may suggest that the financial statements as a whole are more credible in relation to those matters than would be appropriate in the circumstances, and would be inconsistent with the disclaimer of opinion on the financial statements as a whole. Accordingly, paragraph 29 of this SA prohibits a Key Audit Matters section from being included in the auditor's report when the auditor disclaims an opinion on the financial statements, unless the auditor is otherwise required by law or regulation to communicate key audit matters.

Communication with Those Charged with Governance (Ref: Para. 30)

A27. Communicating with those charged with governance the circumstances that lead to an expected modification to the auditor's opinion and the wording of the modification enables:

- The auditor to give notice to those charged with governance of the intended modification(s) and the reasons (or circumstances) for the modification(s);
- The auditor to seek the concurrence of those charged with governance regarding the facts of the matter(s) giving rise to the expected modification(s), or to confirm matters of disagreement with management as such; and
- Those charged with governance to have an opportunity, where appropriate, to provide the auditor with further information and explanations in respect of the matter(s) giving rise to the expected modification(s).

Appendix

(Ref: Para. A17–A18, A25)

Illustrations of Auditor's Reports with Modifications to the Opinion

- Illustration 1: An auditor's report containing a qualified opinion due to a material misstatement of the financial statements.
- Illustration 2: An auditor's report containing an adverse opinion due to a material misstatement of the consolidated financial statements.
- Illustration 3: An auditor's report containing a qualified opinion due to the auditor's inability to obtain sufficient appropriate audit evidence regarding a foreign associate.
- Illustration 4: An auditor's report containing a disclaimer of opinion due to the auditor's inability to obtain sufficient appropriate audit evidence about a single element of the consolidated financial statements.
- Illustration 5: An auditor's report containing a disclaimer of opinion due to the auditor's inability to obtain sufficient appropriate audit evidence about multiple elements of the financial statements.

Illustration 1 – Qualified Opinion due to a Material Misstatement of the Financial Statements

For purposes of this illustrative auditor's report, the following circumstances are assumed:

- *Audit of a complete set of financial statements of a listed company (registered under the Companies Act, 2013) using a fair presentation framework.*
- *The financial statements are prepared by management of the entity in accordance with the Accounting*

Standards prescribed under section 133 of the Companies Act, 2013 (a general purpose framework).

- *The terms of the audit engagement reflect the description of management's responsibility for the financial statements in SA 210.¹¹*
- *Inventories are misstated. The misstatement is deemed to be material but not pervasive to the financial statements (i.e., a qualified opinion is appropriate).*
- *The relevant ethical requirements that apply to the audit are the ICAI's Code of Ethics and the provisions of the Companies Act, 2013.*
- *Based on the audit evidence obtained, the auditor has concluded that a material uncertainty does not exist related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern in accordance with SA 570 (Revised).*
- *Key audit matters have been communicated in accordance with SA 701.*
- *Those responsible for oversight of the financial statements differ from those responsible for the preparation of the financial statements.*
- *In addition to the audit of the financial statements, the auditor has other reporting responsibilities required under the Companies Act, 2013.*

INDEPENDENT AUDITOR'S REPORT

To the Members of ABC Company Limited

Report on the Audit of the Standalone Financial Statements¹²

Qualified Opinion

We have audited the standalone financial statements of ABC Company Limited ("the Company"), which comprise the balance sheet as at March 31, 20XX, and the statement of Profit and Loss, (*statement of changes in equity*)¹³ and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (in which are included the Returns for the year ended on that date audited by the branch auditors of the Company's branches located at (*location of branches*))¹⁴.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter described in the *Basis for Qualified Opinion* section of our report, the aforesaid financial statements give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31st, 20XX and profit/loss, (*changes in equity*) and its cash flows for the year ended on that date.

Basis for Qualified Opinion

The Company's inventories are carried in the Balance Sheet at Rs. XXX. Management has not stated the inventories at the lower of cost and net realizable value but has stated them solely at cost, which constitutes a departure from the Accounting Standards prescribed under section 133 of the Companies Act, 2013. The Company's records indicate that, had management stated the inventories at the lower of cost and net realizable value, an amount of Rs. xxx would have been required to write the inventories down to their net realizable value. Accordingly, cost of sales would have been increased by Rs. xxx, and income tax, net income and shareholders' funds would have been reduced by Rs. xxx, Rs. xxx and Rs. xxx, respectively.

¹¹ SA 210, *Agreeing the Terms of Audit Engagements*

¹² The sub-title "Report on the Audit of the Standalone Financial Statements" is unnecessary in circumstances when the second sub-title "Report on Other Legal and Regulatory Requirements" is not applicable.

¹³ As may be applicable.

¹⁴ As may be applicable.

I.528 Auditing Pronouncements

We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the *Basis for Qualified Opinion* section we have determined the matters described below to be the key audit matters to be communicated in our report.

[Description of each key audit matter in accordance with SA 701.]

Responsibilities of Management and Those Charged with Governance for the Financial Statements

[Reporting in accordance with SA 700 (Revised) – see Illustration 1 in SA 700 (Revised).]

Auditor's Responsibilities for the Audit of the Financial Statements

[Reporting in accordance with SA 700 (Revised) – see Illustration 1 in SA 700 (Revised).]

Other Matter¹⁵

We did not audit the financial statements/information of _____(number) branches included in the standalone financial statements of the Company whose financial statements / financial information reflect total assets of Rs._____ as at 31st March, 20XX and total revenues of Rs._____ for the year ended on that date, as considered in the standalone financial statements. The financial statements/information of these branches have been audited by the branch auditors whose reports have been furnished to us, and our opinion in so far as it relates to the amounts and disclosures included in respect of these branches, is based solely on the report of such branch auditors.

Our opinion is not modified in respect of this matter.

Illustration 2 – Adverse Opinion due to a Material Misstatement of the Consolidated Financial Statements

For purposes of this illustrative auditor's report, the following circumstances are assumed:

- Audit of a complete set of consolidated financial statements of a listed company (incorporated under the Companies Act, 2013) using a fair presentation framework. The audit is a group audit of an entity with subsidiaries (i.e., SA 600 applies).
- The consolidated financial statements are prepared by management of the entity in accordance with the Accounting Standards prescribed under section 133 of the Companies Act, 2013 (a general purpose framework).
- The terms of the audit engagement reflect the description of management's responsibility for the consolidated financial statements in SA 210.
- The consolidated financial statements are materially misstated due to the non-consolidation of a subsidiary. The material misstatement is deemed to be pervasive to the consolidated financial statements. The effects of the misstatement on the consolidated financial statements have not been determined because it was not practicable to do so (i.e., an adverse opinion is appropriate).
- The relevant ethical requirements that apply to the audit are the ICAI's Code of Ethics and the provisions of the Companies Act, 2013.
- Based on the audit evidence obtained, the auditor has concluded that a material uncertainty does not exist related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern in accordance with SA 570 (Revised).
- SA 701 applies; however, the auditor has determined that there are no key audit matters other than the matter described in the Basis for Adverse Opinion section.
- Those responsible for oversight of the consolidated financial statements differ from those responsible for the preparation of the consolidated financial statements.
- In addition to the audit of the consolidated financial statements, the auditor has other reporting responsibilities required under the Companies Act, 2013.

INDEPENDENT AUDITOR'S REPORT

To the Members of ABC Company Limited

Report on the Audit of the Consolidated Financial Statements¹⁷**Adverse Opinion**

We have audited the accompanying consolidated financial statements of ABC Company Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), its associates and jointly controlled entities, which comprise the consolidated balance sheet as at March 31, 2XXX, the consolidated statement of profit and Loss, (consolidated statement of changes in equity)¹⁸ and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies (hereinafter referred to as the "consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, because

¹⁷ The sub-title "Report on the Audit of the Consolidated Financial Statements" is unnecessary in circumstances when the second sub-title "Report on Other Legal and Regulatory Requirements" is not applicable.

¹⁸ Where applicable.

I.530 Auditing Pronouncements

of the significance of the matter discussed in the *Basis for Adverse Opinion* section of our report, the accompanying consolidated financial statements do not give a true and fair view in conformity with the accounting principles generally accepted in India, of their consolidated state of affairs of the Group, its associates and jointly controlled entities, as at March 31, 20XX, of its consolidated profit/loss, (*consolidated position of changes in equity*)¹⁹ and the consolidated cash flows for the year then ended.

Basis for Adverse Opinion

As explained in Note X, the Group has not consolidated subsidiary XYZ Company that the Group acquired during 20XX because it has not yet been able to determine the fair values of certain of the subsidiary's material assets and liabilities at the acquisition date. This investment is therefore accounted for on a cost basis. Under the accounting principles generally accepted in India, the Group should have consolidated this subsidiary and accounted for the acquisition based on provisional amounts. Had XYZ Company been consolidated, many elements in the accompanying consolidated financial statements would have been materially affected. The effects on the consolidated financial statements of the failure to consolidate have not been determined.

We conducted our audit in accordance with Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group, its associates and jointly controlled entities, in accordance with the Code of Ethics and provisions of the Companies Act, 2013 that are relevant to our audit of the consolidated financial statements in India under the Companies Act, 2013, and we have fulfilled our other ethical responsibilities in accordance with the Code of Ethics and the requirements under the Companies act, 2013. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our adverse opinion.

Key Audit Matters

Except for the matter described in the *Basis for Adverse Opinion* section, we have determined that there are no other key audit matters to communicate in our report.

Illustration 3 – Qualified Opinion due to the Auditor's Inability to Obtain Sufficient Audit Evidence Regarding a Foreign Associate

For purposes of this illustrative auditor's report, the following circumstances are assumed:

- Audit of a complete set of consolidated financial statements of a listed Company (incorporated under the Companies Act, 2013) using a fair presentation framework. The audit is a group audit of an entity with subsidiaries, associates and jointly controlled entities (i.e., SA 600 applies).
- The consolidated financial statements are prepared by management of the entity in accordance with the Accounting Standards prescribed under section 133 of the Companies Act, 2013.
- The terms of the audit engagement reflect the description of management's responsibility for the consolidated financial statements in SA 210.
- The auditor was unable to obtain sufficient appropriate audit evidence regarding an investment in a foreign associate. The possible effects of the inability to obtain sufficient appropriate audit evidence are deemed to be material but not pervasive to the consolidated financial statements (i.e., a qualified opinion is appropriate).
- The relevant ethical requirements that apply to the audit are the ICAI's Code of Ethics and the relevant provisions of the Companies Act, 2013.
- Based on the audit evidence obtained, the auditor has concluded that a material uncertainty does not exist related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern in accordance with SA 570 (Revised).
- Key audit matters have been communicated in accordance with SA 701.
- Those responsible for oversight of the consolidated financial statements differ from those responsible for the preparation of the consolidated financial statements.
- In addition to the audit of the consolidated financial statements, the auditor has other reporting responsibilities required under the Companies Act, 2013.

INDEPENDENT AUDITOR'S REPORT

To the Members of ABC Company Limited

Report on the Audit of the Consolidated Financial Statements²²**Qualified Opinion**

We have audited the accompanying consolidated financial statements of ABC Company Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), its associates and jointly controlled entities, which comprise the consolidated balance sheet as at March 31, 20XX, and the consolidated statement of Profit and Loss, (*consolidated statement of changes in equity*)²³ and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, except for the possible effects of the matter described in the *Basis for Qualified Opinion* section of our report, the aforesaid consolidated financial statements give a true and fair view in conformity with the accounting

²² The sub-title "Report on the Audit of the Consolidated Financial Statements" is unnecessary in circumstances when the second sub-title "Report on Other Legal and Regulatory Requirements" is not applicable.

²³ Where applicable.

I.532 Auditing Pronouncements

principles generally accepted in India, of their consolidated state of affairs as at March 31, 2XXX, consolidated profit/loss, (*consolidated changes in equity*)²⁴, consolidated cash flows for the year then ended.

Basis for Qualified Opinion

The Group's investment in XYZ Company, a foreign associate acquired during the year and accounted for by the equity method, is carried at Rs. xxx on the consolidated balance sheet as at March 31, 20XX, and ABC's share of XYZ's net income of xxx is included in ABC's income for the year then ended. We were unable to obtain sufficient appropriate audit evidence about the carrying amount of ABC's investment in XYZ as at March 31, 2XXX and ABC's share of XYZ's net income for the year because we were denied access to the financial information, management, and the auditors of XYZ. Consequently, we were unable to determine whether any adjustments to these amounts were necessary.

We conducted our audit in accordance with Standards on Auditing (SAs) prescribed under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group and its associates and joint ventures in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Companies Act, 2013, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the *Basis for Qualified Opinion* section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Illustration 4 – Disclaimer of Opinion due to the Auditor's Inability to Obtain Sufficient Appropriate Audit Evidence about a Single Element of the Consolidated Financial Statements

For purposes of this illustrative auditor's report, the following circumstances are assumed:

- *Audit of a complete set of consolidated financial statements of an unlisted Company incorporated under the Companies Act, 2013 using a fair presentation framework. The audit is a group audit of an entity with subsidiaries (i.e., SA 600 applies).*
- *The consolidated financial statements are prepared by management of the entity in accordance with the Accounting Standards prescribed under section 133 of the Companies Act, 2013(a general purpose framework).*
- *The terms of the audit engagement reflect the description of management's responsibility for the consolidated financial statements in SA 210.*
- *The auditor was unable to obtain sufficient appropriate audit evidence about a single element of the consolidated financial statements. That is, the auditor was also unable to obtain audit evidence about the financial information of a joint venture investment that represents over 90% of the entity's net assets. The possible effects of this inability to obtain sufficient appropriate audit evidence are deemed to be both material and pervasive to the consolidated financial statements (i.e., a disclaimer of opinion is appropriate).*
- *The relevant ethical requirements that apply to the audit are the ICAI's Code of Ethics and provisions of the Companies Act, 2013.*
- *Those responsible for oversight of the consolidated financial statements differ from those responsible for the preparation of the consolidated financial statements.*
- *A more limited description of the auditor's responsibilities section is required.*
- *In addition to the audit of the consolidated financial statements, the auditor has other reporting responsibilities required under the Companies Act, 2013*

²⁶ Partner or Proprietor, as the case may be

INDEPENDENT AUDITOR'S REPORT

To the Members of ABC Company Limited

Report on the Audit of the Consolidated Financial Statements²⁷

Disclaimer of Opinion

We were engaged to audit the accompanying consolidated financial statements of ABC Company Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), which comprise the consolidated balance sheet as at March 31, 20XX, the consolidated statement of Profit and Loss, (*consolidated statement of changes in equity*)²⁸ and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies (hereinafter referred to as the "Consolidated Financial Statements").

We do not express an opinion on the accompanying consolidated financial statements of the Group. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these consolidated financial statements.

Basis for Disclaimer of Opinion

The Group's investment in its joint venture XYZ Company is carried at Rs. xxx on the Group's consolidated balance sheet, which represents over 90% of the Group's net assets as at March 31, 20XX. We were not allowed access to the management and the auditors of XYZ Company, including XYZ Company's auditors' audit documentation. As a result, we were unable to determine whether any adjustments were necessary in respect of the Group's proportional share of XYZ Company's assets that it controls jointly, its proportional share of XYZ Company's liabilities for which it is jointly responsible, its proportional share of XYZ's income and expenses for the year, (*and the elements making up the consolidated statement of changes in equity*)²⁹ and the consolidated cash flow statement.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements³⁰

[Reporting in accordance with SA 700 (Revised) – see Illustration 2 in SA 700 (Revised).]

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our responsibility is to conduct an audit of the Group's consolidated financial statements in accordance with Standards on Auditing and to issue an auditor's report. However, because of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these consolidated financial statements.

We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the financial statements and we have fulfilled our other ethical responsibilities in accordance with these requirements.

²⁷ The sub-title "Report on the Audit of the Consolidated Financial Statements" is unnecessary in circumstances when the second sub-title "Report on Other Legal and Regulatory Requirements" is not applicable.

²⁸ Where applicable.

²⁹ Where applicable.

Illustration 5 – Disclaimer of Opinion due to the Auditor's Inability to Obtain Sufficient Appropriate Audit Evidence about Multiple Elements of the Financial Statements

For purposes of this illustrative auditor's report, the following circumstances are assumed:

- *Audit of a complete set of financial statements of an entity other than a company incorporated under the Companies Act, 2013, using a fair presentation framework. The audit is not a group audit (i.e., SA 600, does not apply).*
- *The financial statements are prepared by management of the entity in accordance with the Accounting Standards issued by the Institute of Chartered Accountants of India (a general purpose framework).*
- *The terms of the audit engagement reflect the description of management's responsibility for the financial statements in SA 210.*
- *The auditor was unable to obtain sufficient appropriate audit evidence about multiple elements of the financial statements, that is, the auditor was also unable to obtain audit evidence about the entity's inventories and accounts receivable. The possible effects of this inability to obtain sufficient appropriate audit evidence are deemed to be both material and pervasive to the financial statements.*
- *The relevant ethical requirements that apply to the audit are ICAI's Code of Ethics and applicable law/regulation*
- *Those responsible for oversight of the financial statements differ from those responsible for the preparation of the financial statements.*
- *A more limited description of the auditor's responsibilities section is required.*
- *In addition to the audit of the financial statements, the auditor has other reporting responsibilities required under relevant law/ regulation.*

³¹ Partner or Proprietor, as the case may be

INDEPENDENT AUDITOR'S REPORT

To the Partners of ABC & Associates

Report on the Audit of the Financial Statements³²

Disclaimer of Opinion

We were engaged to audit the financial statements of ABC & Associates ("the entity"), which comprise the balance sheet as at March 31, 20XX, the statement of Profit and Loss, *(the statement of changes in equity)*³³ and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

We do not express an opinion on the accompanying financial statements of the entity. Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

Basis for Disclaimer of Opinion

We were not appointed as auditors of the Company until after March 31, 20X1 and thus did not observe the counting of physical inventories at the beginning and end of the year. We were unable to satisfy ourselves by alternative means concerning the inventory quantities held at March 31, 20X0 and 20X1, which are stated in the Balance Sheets at Rs xxx and Rs xxx, respectively. In addition, the introduction of a new computerized accounts receivable system in September 20X1 resulted in numerous errors in accounts receivable. As of the date of our report, management was still in the process of rectifying the system deficiencies and correcting the errors. We were unable to confirm or verify by alternative means accounts receivable included in the Balance Sheet at a total amount of Rs xxx as at March 31, 20X1. As a result of these matters, we were unable to determine whether any adjustments might have been found necessary in respect of recorded or unrecorded inventories and accounts receivable, and the elements making up the statement of Profit and Loss *(and statement of cash flows)*³⁴.

Responsibilities of Management and Those Charged with Governance for the Financial Statements³⁵

[Reporting in accordance with SA 700 (Revised) – see Illustration 1 in SA 700 (Revised).]

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the entity's financial statements in accordance with Standards on Auditing and to issue an auditor's report. However, because of the matters described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are independent of the entity in accordance with the ethical requirements in accordance with the requirements of the Code of Ethics issued by ICAI and the ethical requirements as prescribed under the laws and regulations applicable to the entity.

³² The sub-title "Report on the Audit of the Financial Statements" is unnecessary in circumstances when the second sub-title "Report on Other Legal and Regulatory Requirements" is not applicable.

Emphasis of Matter Paragraphs and Other Matter Paragraphs in the Independent Auditor's Report
(Effective for all audits relating to accounting periods beginning on or after April 1, 2017)

Introduction

Scope of this SA

1. This Standard on Auditing (SA) deals with additional communication in the auditor's report when the auditor considers it necessary to:
 - (a) Draw users' attention to a matter or matters presented or disclosed in the financial statements that are of such importance that they are fundamental to users' understanding of the financial statements; or
 - (b) Draw users' attention to any matter or matters other than those presented or disclosed in the financial statements that are relevant to users' understanding of the audit, the auditor's responsibilities or the auditor's report.
2. SA 701¹ establishes requirements and provides guidance when the auditor determines key audit matters and communicates them in the auditor's report. When the auditor includes a Key Audit Matters section in the auditor's report, this SA addresses the relationship between key audit matters and any additional communication in the auditor's report in accordance with this SA. (Ref: Para. A1–A3)
3. SA 570 (Revised)² establishes requirements and provides guidance about communication in the auditor's report relating to going concern.
4. Appendices 1 and 2 identify SAs that contain specific requirements for the auditor to include Emphasis of Matter paragraphs or Other Matter paragraphs in the auditor's report. In those circumstances, the requirements in this SA regarding the form of such paragraphs apply. (Ref: Para. A4)

Effective Date

5. This SA is effective for audits of financial statements for periods beginning on or after April 1, 2017.

Objective

7. The objective of the auditor, having formed an opinion on the financial statements, is to draw users' attention, when in the auditor's judgment it is necessary to do so, by way of clear additional communication in the auditor's report, to:
 - (a) A matter, although appropriately presented or disclosed in the financial statements, that is of such importance that it is fundamental to users' understanding of the financial statements; or
 - (b) As appropriate, any other matter that is relevant to users' understanding of the audit, the auditor's responsibilities or the auditor's report.

¹ SA 701, *Communicating Key Audit Matters in the Independent Auditor's Report*

² SA 570 (Revised), *Going Concern*

Definitions

7. For purposes of the SAs, the following terms have the meanings attributed below:
- (a) **Emphasis of Matter paragraph** – A paragraph included in the auditor’s report that refers to a matter appropriately presented or disclosed in the financial statements that, in the auditor’s judgment, is of such importance that it is fundamental to users’ understanding of the financial statements.
 - (b) **Other Matter paragraph** – A paragraph included in the auditor’s report that refers to a matter other than those presented or disclosed in the financial statements that, in the auditor’s judgment, is relevant to users’ understanding of the audit, the auditor’s responsibilities or the auditor’s report.

Requirements

Emphasis of Matter Paragraphs in the Auditor’s Report

8. If the auditor considers it necessary to draw users’ attention to a matter presented or disclosed in the financial statements that, in the auditor’s judgment, is of such importance that it is fundamental to users’ understanding of the financial statements, the auditor shall include an Emphasis of Matter paragraph in the auditor’s report provided: (Ref: Para. A5–A6)

- (a) The auditor would not be required to modify the opinion in accordance with SA 705 (Revised)³ as a result of the matter; and
- (b) When SA 701 applies, the matter has not been determined to be a key audit matter to be communicated in the auditor’s report. (Ref: Para. A1–A3)

9. When the auditor includes an Emphasis of Matter paragraph in the auditor’s report, the auditor shall:

- (a) Include the paragraph within a separate section of the auditor’s report with an appropriate heading that includes the term “Emphasis of Matter”;
- (b) Include in the paragraph a clear reference to the matter being emphasized and to where relevant disclosures that fully describe the matter can be found in the financial statements. The paragraph shall refer only to information presented or disclosed in the financial statements; and
- (c) Indicate that the auditor’s opinion is not modified in respect of the matter emphasized. (Ref: Para. A7–A8, A16–A17)

Other Matter Paragraphs in the Auditor’s Report

10. If the auditor considers it necessary to communicate a matter other than those that are presented or disclosed in the financial statements that, in the auditor’s judgment, is relevant to users’ understanding of the audit, the auditor’s responsibilities or the auditor’s report, the auditor shall include an Other Matter paragraph in the auditor’s report, provided:

- (a) This is not prohibited by law or regulation; and
- (b) When SA 701 applies, the matter has not been determined to be a key audit matter to be communicated in the auditor’s report. (Ref: Para. A9–A14)

11. When the auditor includes an Other Matter paragraph in the auditor’s report, the auditor shall include the paragraph within a separate section with the heading “Other Matter,” or other appropriate heading. (Ref: Para. A15–A17)

Communication with Those Charged with Governance

12. If the auditor expects to include an Emphasis of Matter or an Other Matter paragraph in the auditor’s

³ SA 705 (Revised), *Modifications to the Opinion in the Independent Auditor’s Report*

report, the auditor shall communicate with those charged with governance regarding this expectation and the wording of this paragraph. (Ref: Para. A18)

Application and Other Explanatory Material

The Relationship between Emphasis of Matter Paragraphs and Key Audit Matters in the Auditor's Report (Ref: Para. 2, 8(b))

A1. Key audit matters are defined in SA 701 as those matters that, in the auditor's professional judgment, were of most significance in the audit of the financial statements of the current period. Key audit matters are selected from matters communicated with those charged with governance, which include significant findings from the audit of the financial statements of the current period.⁴ Communicating key audit matters provides additional information to intended users of the financial statements to assist them in understanding those matters that, in the auditor's professional judgment, were of most significance in the audit and may also assist them in understanding the entity and areas of significant management judgment in the audited financial statements. When SA 701 applies, the use of Emphasis of Matter paragraphs is not a substitute for a description of individual key audit matters.

A2. Matters that are determined to be key audit matters in accordance with SA 701 may also be, in the auditor's judgment, fundamental to users' understanding of the financial statements. In such cases, in communicating the matter as a key audit matter in accordance with SA 701, the auditor may wish to highlight or draw further attention to its relative importance. The auditor may do so by presenting the matter more prominently than other matters in the Key Audit Matters section (e.g., as the first matter) or by including additional information in the description of the key audit matter to indicate the importance of the matter to users' understanding of the financial statements.

A3. There may be a matter that is not determined to be a key audit matter in accordance with SA 701 (i.e., because it did not require significant auditor attention), but which, in the auditor's judgment, is fundamental to users' understanding of the financial statements (e.g., a subsequent event). If the auditor considers it necessary to draw users' attention to such a matter, the matter is included in an Emphasis of Matter paragraph in the auditor's report in accordance with this SA.

Circumstances in Which an Emphasis of Matter Paragraph May Be Necessary (Ref: Para. 4, 8)

A4. Appendix 1 identifies SAs that contain specific requirements for the auditor to include Emphasis of Matter paragraphs in the auditor's report in certain circumstances. These circumstances include:

- When a financial reporting framework prescribed by law or regulation would be unacceptable but for the fact that it is prescribed by law or regulation.
- To alert users that the financial statements are prepared in accordance with a special purpose framework.
- When facts become known to the auditor after the date of the auditor's report and the auditor provides a new or amended auditor's report (i.e., subsequent events).⁵

A5. Examples of circumstances where the auditor may consider it necessary to include an Emphasis of Matter paragraph are:

- An uncertainty relating to the future outcome of exceptional litigation or regulatory action.

⁴ SA 260 (Revised), *Communication with Those Charged with Governance*, paragraph 16.

⁵ SA 560, *Subsequent Events*, paragraphs 12(b) and 16

- A significant subsequent event that occurs between the date of the financial statements and the date of the auditor's report.⁶
- Early application (where permitted) of a new accounting standard that has a material effect on the financial statements.
- A major catastrophe that has had, or continues to have, a significant effect on the entity's financial position.

A6. However, a widespread use of Emphasis of Matter paragraphs may diminish the effectiveness of the auditor's communication about such matters.

Including an Emphasis of Matter Paragraph in the Auditor's Report (Ref: Para. 9)

A7. The inclusion of an Emphasis of Matter paragraph in the auditor's report does not affect the auditor's opinion. An Emphasis of Matter paragraph is not a substitute for:

- (a) A modified opinion in accordance with SA 705 (Revised) when required by the circumstances of a specific audit engagement;
- (b) Disclosures in the financial statements that the applicable financial reporting framework requires management to make, or that are otherwise necessary to achieve fair presentation; or
- (c) Reporting in accordance with SA 570 (Revised)⁷ when a material uncertainty exists relating to events or conditions that may cast significant doubt on an entity's ability to continue as a going concern.

A8. Paragraphs A16–A17 provide further guidance on the placement of Emphasis of Matter paragraphs in particular circumstances.

Other Matter Paragraphs in the Auditor's Report (Ref: Para. 10–11)

Circumstances in Which an Other Matter Paragraph May Be Necessary

Relevant to Users' Understanding of the Audit

A9. SA 260 (Revised) requires the auditor to communicate with those charged with governance about the planned scope and timing of the audit, which includes communication about the significant risks identified by the auditor.⁸ Although matters relating to significant risks may be determined to be key audit matters, other planning and scoping matters (e.g., the planned scope of the audit, or the application of materiality in the context of the audit) are unlikely to be key audit matters because of how key audit matters are defined in SA 701. However, law or regulation may require the auditor to communicate about planning and scoping matters in the auditor's report, or the auditor may consider it necessary to communicate about such matters in an Other Matter paragraph.

A10. In the rare circumstance where the auditor is unable to withdraw from an engagement even though the possible effect of an inability to obtain sufficient appropriate audit evidence due to a limitation on the scope of the audit imposed by management is pervasive,⁹ the auditor may consider it necessary to include an Other Matter paragraph in the auditor's report to explain why it is not possible for the auditor to withdraw from the engagement.

Relevant to Users' Understanding of the Auditor's Responsibilities or the Auditor's Report

⁶ SA 560, paragraph 6

⁷ SA 570 (Revised), paragraphs 22–23

⁸ SA 260 (Revised), paragraph 15

⁹ See paragraph 13(b)(ii) of SA 705 (Revised) for a discussion of this circumstance.

I.542 Auditing Pronouncements

A11. Law, regulation or generally accepted practice may require or permit the auditor to elaborate on matters that provide further explanation of the auditor's responsibilities in the audit of the financial statements or of the auditor's report thereon. When the Other Matter section includes more than one matter that, in the auditor's judgment, is relevant to users' understanding of the audit, the auditor's responsibilities or the auditor's report, it may be helpful to use different sub-headings for each matter.

A12. An Other Matter paragraph does not deal with circumstances where the auditor has other reporting responsibilities that are in addition to the auditor's responsibility under the SAs (see Other Reporting Responsibilities section in SA 700 (Revised)¹⁰), or where the auditor has been asked to perform and report on additional specified procedures, or to express an opinion on specific matters.

Reporting on more than one set of financial statements

A13. An entity may prepare one set of financial statements in accordance with a general purpose framework (e.g., the national framework) and another set of financial statements in accordance with another general purpose framework (e.g., International Financial Reporting Standards), and engage the auditor to report on both sets of financial statements. If the auditor has determined that the frameworks are acceptable in the respective circumstances, the auditor may include an Other Matter paragraph in the auditor's report, referring to the fact that another set of financial statements has been prepared by the same entity in accordance with another general purpose framework and that the auditor has issued a report on those financial statements.

Restriction on distribution or use of the auditor's report

A14. Financial statements prepared for a specific purpose may be prepared in accordance with a general purpose framework because the intended users have determined that such general purpose financial statements meet their financial information needs. Since the auditor's report is intended for specific users, the auditor may consider it necessary in the circumstances to include an Other Matter paragraph, stating that the auditor's report is intended solely for the intended users, and should not be distributed to or used by other parties.

Including an Other Matter Paragraph in the Auditor's Report

A15. The content of an Other Matter paragraph reflects clearly that such other matter is not required to be presented and disclosed in the financial statements. An Other Matter paragraph does not include information that the auditor is prohibited from providing by law, regulation or other professional standards, for example, ethical standards relating to confidentiality of information. An Other Matter paragraph also does not include information that is required to be provided by management.

Placement of Emphasis of Matter Paragraphs and Other Matter Paragraphs in the Auditor's Report
(Ref: Para. 9, 11)

A16. The placement of an Emphasis of Matter paragraph or Other Matter paragraph in the auditor's report depends on the nature of the information to be communicated, and the auditor's judgment as to the relative significance of such information to intended users compared to other elements required to be reported in accordance with SA 700 (Revised). For example:

Emphasis of Matter Paragraphs

- When the Emphasis of Matter paragraph relates to the applicable financial reporting framework, including circumstances where the auditor determines that the financial reporting framework prescribed

¹⁰ SA 700 (Revised), *Forming an Opinion and Reporting on Financial Statements*, paragraphs 42–44.

by law or regulation would otherwise be unacceptable,¹¹ the auditor may consider it necessary to place the paragraph immediately following the Basis of Opinion section to provide appropriate context to the auditor's opinion.

- When a Key Audit Matters section is presented in the auditor's report, an Emphasis of Matter paragraph may be presented either directly before or after the Key Audit Matters section, based on the auditor's judgment as to the relative significance of the information included in the Emphasis of Matter paragraph. The auditor may also add further context to the heading "Emphasis of Matter", such as "Emphasis of Matter – Subsequent Event", to differentiate the Emphasis of Matter paragraph from the individual matters described in the Key Audit Matters section.

Other Matter Paragraphs

- When a Key Audit Matters section is presented in the auditor's report and an Other Matter paragraph is also considered necessary, the auditor may add further context to the heading "Other Matter", such as "Other Matter – Scope of the Audit", to differentiate the Other Matter paragraph from the individual matters described in the Key Audit Matters section.
- When an Other Matter paragraph is included to draw users' attention to a matter relating to Other Reporting Responsibilities addressed in the auditor's report, the paragraph may be included in the Report on Other Legal and Regulatory Requirements section.
- When relevant to all the auditor's responsibilities or users' understanding of the auditor's report, the Other Matter paragraph may be included as a separate section following the Report on the Audit of the Financial Statements and the Report on Other Legal and Regulatory Requirements.

A17. Appendix 3 is an illustration of the interaction between the Key Audit Matters section, an Emphasis of Matter paragraph and an Other Matter paragraph when all are presented in the auditor's report. The illustrative report in Appendix 4 includes an Emphasis of Matter paragraph in an auditor's report for an entity other than a listed entity that contains a qualified opinion and for which key audit matters have not been communicated.

Communication with Those Charged with Governance (Ref. Para. 12)

A18. The communication required by paragraph 12 enables those charged with governance to be made aware of the nature of any specific matters that the auditor intends to highlight in the auditor's report, and provides them with an opportunity to obtain further clarification from the auditor where necessary. Where the inclusion of an Other Matter paragraph on a particular matter in the auditor's report recurs on each successive engagement, the auditor may determine that it is unnecessary to repeat the communication on each engagement, unless otherwise required to do so by law or regulation.

Appendix 1

(Ref: Para. 4, A4)

List of SAs Containing Requirements for Emphasis of Matter Paragraphs

This appendix identifies paragraphs in other SAs that require the auditor to include an Emphasis of Matter paragraph in the auditor's report in certain circumstances. The list is not a substitute for considering the requirements and related application and other explanatory material in SAs.

- SA 210, *Agreeing the Terms of Audit Engagements* – paragraph 19(b)

¹¹ For example, as required by SA 210, *Agreeing the Terms of Audit Engagements*, paragraph 19 and SA 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance with Special Purpose Frameworks*, paragraph 14

I.544 Auditing Pronouncements

- SA 560, *Subsequent Events* – paragraphs 12(b) and 16
- SA 800, *Special Considerations—Audits of Financial Statements Prepared in Accordance with Special Purpose Frameworks* – paragraph 14

Appendix 2

(Ref: Para. 4)

List of SAs Containing Requirements for Other Matter Paragraphs

This appendix identifies paragraphs in other SAs that require the auditor to include an Other Matter paragraph in the auditor's report in certain circumstances. The list is not a substitute for considering the requirements and related application and other explanatory material in SAs.

- SA 560, *Subsequent Events* – paragraphs 12(b) and 16
- SA 710, *Comparative Information—Corresponding Figures and Comparative Financial Statements* – paragraphs 13–14, 16–17 and 19
- SA 720, *The Auditor's Responsibilities Relating to Other Information in Documents Containing Audited Financial Statements* – paragraph 10(a)

Appendix 3

(Ref: Para. A17)

Illustration of an Auditor's Report that Includes a Key Audit Matters Section, an Emphasis of Matter Paragraph, and an Other Matter Paragraph

For purposes of this illustrative auditor's report, the following circumstances are assumed:

- *Audit of a complete set of financial statements of a listed company (registered under the companies Act, 2013) using a fair presentation framework.*
- *The financial statements are prepared by management of the entity in accordance with the Accounting Standards prescribed under section 133 of the Companies Act, 2013 (a general purpose framework).*
- *The terms of the audit engagement reflect the description of management's responsibility for the financial statements in SA 210.*
- *The auditor has concluded an unmodified (i.e., "clean") opinion is appropriate based on the audit evidence obtained.*
- *The relevant ethical requirements that apply to the audit are those of the ICAI's Code of Ethics and the provisions of the Companies Act, 2013.*
- *Based on the audit evidence obtained, the auditor has concluded that a material uncertainty does not exist related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern in accordance with SA 570 (Revised).*
- *Between the date of the financial statements and the date of the auditor's report, there was a fire in the entity's production facilities, which was disclosed by the entity as a subsequent event. In the auditor's judgment, the matter is of such importance that it is fundamental to users' understanding of the financial statements. The matter did not require significant auditor attention in the audit of the financial statements in the current period.*
- *Key audit matters have been communicated in accordance with SA 701.*
- *Corresponding figures are presented, and the prior period's financial statements were audited by a predecessor auditor. The auditor is not prohibited by law or regulation from referring to the predecessor*

auditor's report on the corresponding figures and has decided to do so.

- *Those responsible for oversight of the financial statements differ from those responsible for the preparation of the financial statements.*
- *In addition to the audit of the financial statements, the auditor has other reporting responsibilities required under the Companies Act, 2013.*

INDEPENDENT AUDITOR'S REPORT

To the Members of ABC Company Limited

Report on the Audit of the Standalone Financial Statements¹²

Opinion

We have audited the standalone financial statements of ABC Company Limited ("the Company"), which comprise the balance sheet as at March 31, 20X1, and the statement of Profit & Loss, (statement of changes in equity) and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (in which are included the Returns for the year ended on that date audited by the branch auditors of the Company's branches located at *(location of branches)*)¹³.

In our opinion, and to the best of our information and according to the explanations given to us the aforesaid financial statements, *give a true and fair view*, in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31st, 2XXX and profit/loss, *(changes in equity)* and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with Standards on Auditing (SAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements as per the *ICAI's Code of Ethics and the provisions of the Companies Act, 2013*, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter¹⁴

We draw attention to Note X of the financial statements, which describes the effects of a fire in the Company's production facilities. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

[Description of each key audit matter in accordance with SA 701.]

¹² 1 The sub-title "Report on the Audit of the Standalone Financial Statements" is unnecessary in circumstances when the second sub-title "Report on Other Legal and Regulatory Requirements" is not applicable.

¹³ As may be applicable

¹⁴ As noted in paragraph A16, an Emphasis of Matter paragraph may be presented either directly before or after the Key Audit Matters section based on the auditor's judgment as to the relative significance of the information included in the Emphasis of Matter paragraph.

I.546 Auditing Pronouncements

Other Matter

The financial statements of ABC Company for the year ended March 31, 20X0, were audited by another auditor who expressed an unmodified opinion on those statements on March 31, 20X1.

Illustration of an Auditor's Report Containing a Qualified Opinion Due to a Departure from the Applicable Financial Reporting Framework and that Includes an Emphasis of Matter Paragraph

For purposes of this illustrative auditor's report, the following circumstances are assumed:

- *Audit of a complete set of financial statements of an company other than a listed company (registered under the Companies Act, 2013) using a fair presentation framework..*
- *The financial statements are prepared by management of the entity in accordance with the Accounting Standards prescribed under section 133 of the Companies Act, 2013 (a general purpose framework).*
- *The terms of the audit engagement reflect the description of management's responsibility for the financial statements in SA 210.*
- *A departure from the applicable financial reporting framework resulted in a qualified opinion.*
- *The relevant ethical requirements that apply to the audit are the ICAI's Code of Ethics and the provisions of the Companies Act, 2013.*
- *Based on the audit evidence obtained, the auditor has concluded that a material uncertainty does not exist related to events or conditions that may cast significant doubt on the entity's ability to continue as a going concern in accordance with SA 570 (Revised).*

¹⁵ Partner or Proprietor, as the case may be

- *Between the date of the financial statements and the date of the auditor's report, there was a fire in the entity's production facilities, which was disclosed by the entity as a subsequent event. In the auditor's judgment, the matter is of such importance that it is fundamental to users' understanding of the financial statements. The matter did not require significant auditor attention in the audit of the financial statements in the current period.*
- *The auditor is not required, and has otherwise not decided, to communicate key audit matters in accordance with SA 701.*
- *Those responsible for oversight of the financial statements differ from those responsible for the preparation of the financial statements.*
- *In addition to the audit of the financial statements, the auditor has other reporting responsibilities required under the Companies Act, 2013.*

INDEPENDENT AUDITOR'S REPORT

To the Members of ABC Company Limited

Report on the Audit of the Standalone Financial Statements¹⁶

Qualified Opinion

We have audited the standalone financial statements of ABC Limited ("the Company"), which comprise the balance sheet as at March 31, 20X1, and the statement of Profit and Loss, (statement of changes in equity) and the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (in which are included the Returns for the year ended on that date audited by the branch auditors of the Company's branches located at (location of branches))².

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter described in the *Basis for Qualified Opinion* section of our report, the aforesaid financial statements present fairly, in all material respects, or *give a true and fair view* in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31st, 20XX and profit/loss, (*changes in equity*) and its cash flows for the year ended on that date.

Basis for Qualified Opinion

The Company's short-term marketable securities are carried in the statement of financial position at xxx. Management has not marked these securities to market but has instead stated them at cost, which constitutes a departure from the Accounting Standards prescribed in section 133 of the Companies Act, 2013. The Company's records indicate that had management marked the marketable securities to market, the Company would have recognized an unrealized loss of Rs.xxx in the statement of comprehensive income for the year. The carrying amount of the securities in the statement of financial position would have been reduced by the same amount at March 31, 20X1, and income tax, net income and shareholders' equity would have been reduced by Rs.xxx, Rs.xxx and Rs.xxx, respectively.

We conducted our audit in accordance with Standards on Auditing (SAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of

¹⁶ The sub-title "Report on the Audit of the Standalone Financial Statements" is unnecessary in circumstances when the second sub-title "Report on Other Legal and Regulatory Requirements" is not applicable.

I.548 Auditing Pronouncements

Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Emphasis of Matter – Effects of a Fire

We draw attention to Note X of the financial statements, which describes the effects of a fire in the Company's production facilities. Our opinion is not modified in respect of this matter.

SA 710*

**Comparative Information—Corresponding Figures
and Comparative Financial Statements**
*(Effective for all audits relating to
accounting periods beginning on or after April 1, 2011)*

Introduction

Scope of this SA

1. This Standard on Auditing (SA) deals with the auditor's responsibilities regarding comparative information in an audit of financial statements. When the financial statements of the prior period have been audited by a predecessor auditor or were not audited, the requirements and guidance in SA 510¹ regarding opening balances also apply.

The Nature of Comparative Information

2. The nature of the comparative information that is presented in an entity's financial statements depends on the requirements of the applicable financial reporting framework. There are two different broad approaches to the auditor's reporting responsibilities in respect of such comparative information: corresponding figures² and comparative financial statements. The approach to be adopted is often specified by law or regulation but may also be specified in the terms of engagement.

3. The essential audit reporting differences between the approaches are:

- (a) For corresponding figures, the auditor's opinion on the financial statements refers to the current period only; whereas
- (b) For comparative financial statements, the auditor's opinion refers to each period for which financial statements are presented.

This SA addresses separately the auditor's reporting requirements for each approach.

Effective Date

4. This SA is effective for audits of financial statements for periods beginning on or after April 1, 2011.

Objectives

5. The objectives of the auditor are:

- (a) To obtain sufficient appropriate audit evidence about whether the comparative information included in the financial statements has been presented, in all material respects, in accordance with the requirements for comparative information in the applicable financial reporting framework; and
- (b) To report in accordance with the auditor's reporting responsibilities.

* Published in the April, 2010 issue of the Journal.

¹ SA 510, "Initial Audit Engagements—Opening Balances".

² Typically, financial reporting frameworks in India use the corresponding figures approach for general purpose financial statements.

Definitions

6. For purposes of the SAs, the following terms have the meanings attributed below:
- (a) Comparative information – The amounts and disclosures included in the financial statements in respect of one or more prior periods in accordance with the applicable financial reporting framework.
 - (b) Corresponding figures – Comparative information where amounts and other disclosures for the prior period are included as an integral part of the current period financial statements, and are intended to be read only in relation to the amounts and other disclosures relating to the current period (referred to as “current period figures”). The level of detail presented in the corresponding amounts and disclosures is dictated primarily by its relevance to the current period figures.
 - (c) Comparative financial statements – Comparative information where amounts and other disclosures for the prior period are included for comparison with the financial statements of the current period but, if audited, are referred to in the auditor’s opinion. The level of information included in those comparative financial statements is comparable with that of the financial statements of the current period.

For purposes of this SA, references to “prior period” should be read as “prior periods” when the comparative information includes amounts and disclosures for more than one period.

Requirements

Audit Procedures

7. The auditor shall determine whether the financial statements include the comparative information required by the applicable financial reporting framework and whether such information is appropriately classified. For this purpose, the auditor shall evaluate whether:
- (a) The comparative information agrees with the amounts and other disclosures presented in the prior period; and
 - (b) The accounting policies reflected in the comparative information are consistent with those applied in the current period or, if there have been changes in accounting policies, whether those changes have been properly accounted for and adequately presented and disclosed.
8. If the auditor becomes aware of a possible material misstatement in the comparative information while performing the current period audit, the auditor shall perform such additional audit procedures as are necessary in the circumstances to obtain sufficient appropriate audit evidence to determine whether a material misstatement exists. If the auditor had audited the prior period’s financial statements, the auditor shall also follow the relevant requirements of SA 560³.
9. As required by SA 580⁴, the auditor shall request written representations for all periods referred to in the auditor’s opinion. The auditor shall also obtain a specific written representation regarding any prior period item that is separately disclosed in the current year’s statement of profit and loss. (Ref: Para. A1)

Audit Reporting

Corresponding Figures

10. When corresponding figures are presented, the auditor’s opinion shall not refer to the corresponding figures except in the circumstances described in paragraphs 11, 12, and 14. (Ref: Para. A2)
11. If the auditor’s report on the prior period, as previously issued, included a qualified opinion, a disclaimer of opinion, or an adverse opinion and the matter which gave rise to the modification is unresolved, the auditor

³ SA 560, “Subsequent Events”, paragraphs 14-17.

⁴ SA 580, “Written Representations”, paragraph 14.

shall modify the auditor's opinion on the current period's financial statements. In the Basis for Modification paragraph in the auditor's report, the auditor shall either:

- (a) Refer to both the current period's figures and the corresponding figures in the description of the matter giving rise to the modification when the effects or possible effects of the matter on the current period's figures are material; or
- (b) In other cases, explain that the audit opinion has been modified because of the effects or possible effects of the unresolved matter on the comparability of the current period's figures and the corresponding figures. (Ref: Para. A3-A5)

12. If the auditor obtains audit evidence that a material misstatement exists in the prior period financial statements on which an unmodified opinion has been previously issued, the auditor shall verify whether the misstatement has been dealt with as required under the applicable financial reporting framework and, if that is not the case, the auditor shall express a qualified opinion or an adverse opinion in the auditor's report on the current period financial statements, modified with respect to the corresponding figures included therein. (Ref: Para. A6)

Prior Period Financial Statements Audited by a Predecessor Auditor

13. If the financial statements of the prior period were audited by a predecessor auditor and the auditor is permitted by law or regulation to refer to the predecessor auditor's report on the corresponding figures and decides to do so, the auditor shall state in an Other Matter paragraph in the auditor's report:

- (a) That the financial statements of the prior period were audited by the predecessor auditor;
- (b) The type of opinion expressed by the predecessor auditor and, if the opinion was modified, the reasons therefore; and
- (c) The date of that report. (Ref: Para. A7)

Prior Period Financial Statements Not Audited

14. If the prior period financial statements were not audited, the auditor shall state in an Other Matter paragraph in the auditor's report that the corresponding figures are unaudited. Such a statement does not, however, relieve the auditor of the requirement to obtain sufficient appropriate audit evidence that the opening balances do not contain misstatements that materially affect the current period's financial statements⁵. (Ref: Para. A7a)

Comparative Financial Statements

15. When comparative financial statements are presented, the auditor's opinion shall refer to each period for which financial statements are presented and on which an audit opinion is expressed. (Ref: Para. A8-A9)

16. When reporting on prior period financial statements in connection with the current period's audit, if the auditor's opinion on such prior period financial statements differs from the opinion the auditor previously expressed, the auditor shall disclose the substantive reasons for the different opinion in an Other Matter paragraph in accordance with SA 706⁶. (Ref: Para. A10)

Prior Period Financial Statements Audited by a Predecessor Auditor

17. If the financial statements of the prior period were audited by a predecessor auditor, in addition to expressing an opinion on the current period's financial statements, the auditor shall state in an Other Matter paragraph:

⁵ SA 510, paragraph 6.

⁶ SA 706, "Emphasis of Matter Paragraphs and Other Matter Paragraphs in the Independent Auditor's Report", paragraph 8.

I.552 Auditing Pronouncements

- (a) That the financial statements of the prior period were audited by a predecessor auditor;
- (b) The type of opinion expressed by the predecessor auditor and, if the opinion was modified, the reasons therefor; and
- (c) The date of that report,

unless the predecessor auditor's report on the prior period's financial statements is revised with the financial statements.

18. If the auditor concludes that a material misstatement exists that affects the prior period financial statements on which the predecessor auditor had previously reported without modification, the auditor shall communicate the misstatement with the appropriate level of management and those charged with governance and request that the predecessor auditor be informed. If the prior period financial statements are amended, and the predecessor auditor agrees to issue a new auditor's report on the amended financial statements of the prior period, the auditor shall report only on the current period. (Ref: Para. A11)

Prior Period Financial Statements Not Audited

19. If the prior period financial statements were not audited, the auditor shall state in an Other Matter paragraph that the comparative financial statements are unaudited. Such a statement does not, however, relieve the auditor of the requirement to obtain sufficient appropriate audit evidence that the opening balances do not contain misstatements that materially affect the current period's financial statements⁷.

Application and Other Explanatory Material

Audit Procedures

Written Representations (Ref: Para. 9)

A1. In the case of comparative financial statements, the written representations are requested for all periods referred to in the auditor's opinion because management needs to re-affirm that the written representations it previously made with respect to the prior period remain appropriate. In the case of corresponding figures, the written representations are requested for the financial statements of the current period only because the auditor's opinion is on those financial statements, which include the corresponding figures. However, the auditor requests a specific written representation regarding any prior period item that is separately disclosed in the current year's statement of profit and loss.

Audit Reporting

Corresponding Figures

No Reference in Auditor's Opinion (Ref: Para.10)

A2. The auditor's opinion does not refer to the corresponding figures because the auditor's opinion is on the current period financial statements as a whole, including the corresponding figures.

Modification in Auditor's Report on the Prior Period Unresolved (Ref: Para. 11)

A3. When the auditor's report on the prior period, as previously issued, included a qualified opinion, a disclaimer of opinion, or an adverse opinion and the matter which gave rise to the modified opinion is resolved and properly accounted for or disclosed in the financial statements in accordance with the applicable financial reporting framework, the auditor's opinion on the current period need not refer to the previous modification.

A4. When the auditor's opinion on the prior period, as previously expressed, was modified, the unresolved matter that gave rise to the modification may not be relevant to the current period figures. Nevertheless, a

⁷ SA 510, paragraph 6.

qualified opinion, a disclaimer of opinion, or an adverse opinion (as applicable) may be required on the current period's financial statements because of the effects or possible effects of the unresolved matter on the comparability of the current and corresponding figures.

A5. Illustrative examples of the auditor's report if the auditor's report on the prior period included a modified opinion and the matter giving rise to the modification is unresolved are contained in Examples A and B of the Appendix.

Misstatement in Prior Period Financial Statements (Ref: Para. 12)

A6. When the prior period financial statements that are misstated have not been amended and an auditor's report thereon has not been issued in accordance with the requirements of SA 560, "Subsequent Events", but the corresponding figures have been properly dealt with as required under the applicable financial reporting framework and the appropriate disclosures have been made in the current period financial statements, the auditor's report may include an Emphasis of Matter paragraph describing the circumstances and referring to, where relevant, disclosures that fully describe the matter that can be found in the financial statements (see SA 706).

Prior Period Financial Statements Audited by a Predecessor Auditor (Ref: Para. 13)

A7. An illustrative example of the auditor's report if the prior period financial statements were audited by a predecessor auditor and the auditor is permitted by law or regulation to refer to the predecessor auditor's report on the corresponding figures is contained in Example C of the Appendix.

Prior Period Financial Statements Not Audited (Ref: Para.14)

A7a. Where prior period financial statements were not audited, the auditor should request the management to disclose this fact on the face of the current period financial statements with respect to the corresponding figures.

Comparative Financial Statements

Reference in Auditor's Opinion (Ref: Para. 15)

A8. Because the auditor's report on comparative financial statements applies to the financial statements for each of the periods presented, the auditor may express a qualified opinion or an adverse opinion, disclaim an opinion, or include an Emphasis of Matter paragraph with respect to one or more periods, while expressing a different auditor's opinion on the financial statements of the other period.

A9. An illustrative example of the auditor's report if the auditor is required to report on both the current and the prior period financial statements in connection with the current year's audit and the prior period included a modified opinion and the matter giving rise to the modification is unresolved, is contained in Example D of the Appendix.

Opinion on Prior Period Financial Statements Different from Previous Opinion (Ref: Para. 16)

A10. When reporting on the prior period financial statements in connection with the current period's audit, the opinion expressed on the prior period financial statements may be different from the opinion previously expressed if the auditor becomes aware of circumstances or events that materially affect the financial statements of a prior period during the course of the audit of the current period. In some circumstances, the auditor may have additional reporting responsibilities designed to prevent future reliance on the auditor's previously issued report on the prior period financial statements.

Prior Period Financial Statements Audited by a Predecessor Auditor (Ref: Para. 18)

A11. The predecessor auditor may be unable or unwilling to revise the auditor's report on the prior period financial statements. An Other Matter paragraph of the auditor's report may indicate that the predecessor auditor reported on the financial statements of the prior period before amendment. In addition, if the auditor is

I.554 Auditing Pronouncements

engaged to audit and obtains sufficient appropriate audit evidence to be satisfied as to the appropriateness of the amendment, the auditor's report may also include the following paragraph:

As part of our audit of the 20X2 financial statements, we also audited the adjustments described in Note X that were applied to amend the 20X1 financial statements. In our opinion, such adjustments are appropriate and have been properly applied. We were not engaged to audit, review, or apply any procedures to the 20X1 financial statements of the company other than with respect to the adjustments and, accordingly, we do not express an opinion or any other form of assurance on the 20X1 financial statements taken as a whole.

Material Modifications *vis-a-vis* ISA 710, "Comparative Information—Corresponding Figures and Comparative Financial Statements"

Deletions

1. Paragraphs 9 and 12 of ISA 710 deal with the restatement of the prior period financial statements. Since in India, Accounting Standard (AS) 5, "Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies" requires that prior period items should be separately disclosed in the Statement of Profit and Loss in a manner that their impact on the current profit or loss can be perceived, the restatement of the prior period financial statements does not exist in the Indian scenario. Hence, to align with the requirements of AS 5, the requirement of restatement of prior period items has been replaced with the requirement to disclose the prior period items in the current year's Statement of Profit & Loss. Corresponding changes have also been made at the relevant places of the Standard.

2. Paragraph 17 of ISA 710 deals with the situation wherein the predecessor auditor reissue his audit report. Since in India, the nomenclature, "Reissue" is not used for the re-issuance of the audit report by an auditor, the same has been replaced with the word, "Revised". Corresponding changes have also been made at the relevant places of the Standard.

Appendix

Example Auditors' Reports

Example A - Corresponding Figures (Ref: Para. A5)

Report illustrative of the circumstances described in paragraph 11(a), as follows:

- The auditor's report on the prior period, as previously issued, included a qualified opinion.
- The matter giving rise to the modification is unresolved.
- The effects or possible effects of the matter on the current period's figures are material and require a modification to the auditor's opinion regarding the current period figures.

INDEPENDENT AUDITOR'S REPORT

To the Members of ABC Company Limited

Report on the Financial Statements⁸

We have audited the accompanying financial statements of ABC Company Limited ("the Company"), which comprise the balance sheet as at March 31, 20X1, and the statement of profit and loss, and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

⁸ The sub-title "Report on the Financial Statements" is unnecessary in circumstances when the second sub-title "Report on Other Legal and Regulatory Requirements" is not applicable.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and presentation of these financial statements that give a true and fair view of the state of affairs, results of operations and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India (ICAI). Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control⁹. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Basis for Qualified Opinion

As discussed in Note X to the financial statements, no depreciation has been provided in the financial statements which constitutes a departure from the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This is the result of a decision taken by management at the start of the preceding financial year and caused us to qualify our audit opinion on the financial statements relating to that year. Based on the straight-line method of depreciation and annual rates of 5% for the building and 20% for the equipment, the loss for the year should be increased by ₹ XXX in 20X1 and ₹ XXX in 20X0, property, plant and equipment should be reduced by accumulated depreciation of ₹ XXX in 20X1 and ₹ XXX in 20X0, and the accumulated loss should be increased by ₹ XXX in 20X1 and Rs.XXX in 20X0.

Qualified Opinion

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion paragraph, the financial statements give a true and fair view of the state of affairs of the Company as of March 31, 20X1, and of its results of operations and its cash flows for the year then ended in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act").

⁹ The underlined text has been added pursuant to decision of Council of ICAI taken at its 329th adjourned meeting held in January 2014. The complete text of the Announcement in this regard has been published in Paragraph 'C', "Announcements/Clarifications" of Section 1, "Announcements of the Council regarding Status of Various Documents issued by the Institute of Chartered Accountants of India", included in Volume I.A of the Handbook.

Report illustrative of the circumstances described in paragraph 11(b), as follows:

- The auditor's report on the prior period, as previously issued, included a qualified opinion.
- The matter giving rise to the modification is unresolved.
- The effects or possible effects of the matter on the current period's figures are immaterial but require a modification to the auditor's opinion because of the effects or possible effects of the unresolved matter on the comparability of the current period's figures and the corresponding figures.

INDEPENDENT AUDITOR'S REPORT

To the Members of ABC Company Limited

Report on the Financial Statements ¹¹

We have audited the accompanying financial statements of ABC Company Limited ("the Company"), which comprise the balance sheet as at March 31, 20X1, and the statement of profit and loss, and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and presentation of these financial statements that give a true and fair view of the state of affairs, results of operations and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our

¹⁰ Partner or Proprietor, as the case may be.

¹¹ The sub-title "Report on the Financial Statements" is unnecessary in circumstances when the second sub-title "Report on Other Legal and Regulatory Requirements" is not applicable.

audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India (ICAI). Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and presentation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control¹². An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Basis for Qualified Opinion

Because we were appointed auditors of the Company during 20X0, we were not able to observe the counting of the physical inventories at the beginning of that period or satisfy ourselves concerning those inventory quantities by alternative means. Since opening inventories affect the determination of the results of operations, we were unable to determine whether adjustments to the results of operations and opening retained earnings might be necessary for 20X0. Our audit opinion on the financial statements for the year ended 31 March, 20X0 was modified accordingly. Our opinion on the current period's financial statements is also modified because of the possible effect of this matter on the comparability of the current period's figures and the corresponding figures.

Qualified Opinion

In our opinion, except for the possible effects on the corresponding figures of the matter described in the Basis for Qualified Opinion paragraph, the financial statements give a true and fair view of the state of affairs of the Company as of March 31, 20X1, and of its results of operations and its cash flows for the year then ended in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act").

INDEPENDENT AUDITOR'S REPORT

To the Members of ABC Company Limited

Report on the Financial Statements¹⁴

We have audited the accompanying financial statements of ABC Company Ltd. ("the Company"), which comprise the balance sheet as at March 31, 20X1, and the statement of profit and loss, and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and presentation of these financial statements that give a true and fair view of the state of affairs, results of operations and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India (ICAI). Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and presentation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control¹⁵. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

¹⁴ The sub-title "Report on the Financial Statements" is unnecessary in circumstances when the second sub-title "Report on Other Legal and Regulatory Requirements" is not applicable.

¹⁵ The underlined text has been added pursuant to decision of Council of ICAI taken at its 329th adjourned meeting held in January 2014. The complete text of the Announcement in this regard has been published in Paragraph 'C', "Announcements/Clarifications" of Section 1, "Announcements of the Council regarding Status of Various Documents issued by the Institute of Chartered Accountants of India", included in Volume I.A of the Handbook.

Opinion

In our opinion, the financial statements give a true and fair view of the state of affairs of the Company as of March 31, 20X1, and of its results of operations and its cash flows for the year then ended in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 (“the Act”).

Other Matters

The financial statements of the Company for the year ended March 31, 20X1, were audited by another auditor who expressed an unmodified opinion on those statements on June 30, 20X1.

Example D - Comparative Financial Statements (Ref: Para. A9)

Report illustrative of the circumstances described in paragraph 15, as follows:

- Auditor is required to report on both the current period financial statements and the prior period financial statements in connection with the current year’s audit.
- The financial reporting framework used in preparing the financial statements is other than accounting principals generally accepted in India. However, the audit is performed in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India.
- The auditor’s report on the prior period, as previously issued, included a qualified opinion.
- The matter giving rise to the modification is unresolved.
- The effects or possible effects of the matter on the current period’s figures are material to both the current period financial statements and prior period financial statements and require a modification to the auditor’s opinion.

INDEPENDENT AUDITOR’S REPORT

To the Members of ABC Company Limited

Report on the Financial Statements¹⁷

We have audited the accompanying financial statements of ABC Company Ltd. (“the Company”), which

¹⁶ Partner or Proprietor, as the case may be.

¹⁷ The sub-title “Report on the Financial Statements” is unnecessary in circumstances when the second sub-title “Report on Other Legal and Regulatory Requirements” is not applicable.

I.560 Auditing Pronouncements

comprise the balance sheets as at March 31, 20X1 and 20X0, and the statements of profit & loss, and cash flow statements for the years then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and presentation of these financial statements that give a true and fair view of the state of affairs, results of operations and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India (ICAI). Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and presentation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control¹⁸. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained in our audits is sufficient and appropriate to provide a basis for our qualified audit opinion.

Basis for Qualified Opinion

As discussed in Note X to the financial statements, no depreciation has been provided in the financial statements which constitutes a departure from the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). Based on the straight-line method of depreciation and annual rates of 5% for the building and 20% for the equipment, the loss for the year should be increased by Rs.XXX in 20X1 and Rs.XXX in 20X0, property, plant and equipment should be reduced by accumulated depreciation of Rs.XXX in 20X1 and Rs.XXX in 20X0, and the accumulated loss should be increased by Rs.XXX in 20X1 and Rs.XXX in 20X0.

Qualified Opinion

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion paragraph, the financial statements give a true and fair view of the state of affairs of the Company as of March 31, 20X1 and 20X0 and of its results of operations and its cash flows for the years then ended in

¹⁸ The underlined text has been added pursuant to decision of Council of ICAI taken at its 329th adjourned meeting held in January 2014. SA 720*

**The Auditor's Responsibility in Relation to Other
Information in Documents Containing Audited
Financial Statements**
*(Effective for audits of financial statements
for periods beginning on or after April 1, 2010)*

Introduction

Scope of this SA

1. This Standard on Auditing (SA) deals with the auditor's responsibility in relation to other information in documents containing audited financial statements and the auditor's report thereon. In the absence of any separate requirement in the particular circumstances of the engagement, the auditor's opinion does not cover other information and the auditor has no specific responsibility for determining whether or not other information is properly stated. However, the auditor reads the other information because the credibility of the audited financial statements may be undermined by material inconsistencies between the audited financial statements and other information. (Ref: Para. A1)
2. In this SA "documents containing audited financial statements" refers to annual reports (or similar documents), that are issued to owners (or similar stakeholders), containing audited financial statements and the auditor's report thereon. This SA may also be applied, adapted as necessary in the circumstances, to other documents containing audited financial statements. (Ref: Para. A2-A4)

Effective Date

3. This SA is effective for audits of financial statements for periods beginning on or after April 1, 2010.

Objective

4. The objective of the auditor is to respond appropriately when documents containing audited financial statements and the auditor's report thereon include other information that could undermine the credibility of those financial statements and the auditor's report.

Definitions

5. For purposes of the SAs the following terms have the meanings attributed below:
 - (a) Other information – Financial and non-financial information (other than the financial statements and the auditor's report thereon) which is included, either by law, regulation or custom, in a document containing audited financial statements and the auditor's report thereon.
 - (b) Inconsistency – Other information that contradicts information contained in the audited financial statements. A material inconsistency may raise doubt about the audit conclusions drawn from audit evidence previously obtained and, possibly, about the basis for the auditor's opinion on the financial statements.
 - (c) Misstatement of fact – Other information that is unrelated to matters appearing in the audited financial

* Published in April, 2009 issue of the Journal.

statements that is incorrectly stated or presented. A material misstatement of fact may undermine the credibility of the document containing audited financial statements.

Requirements

Reading Other Information

6. The auditor shall read the other information to identify material inconsistencies, if any, with the audited financial statements.

7. The auditor shall make appropriate arrangements with management or those charged with governance to obtain the other information prior to the date of the auditor's report. If it is not possible to obtain all the other information prior to the date of the auditor's report, the auditor shall read such other information as soon as practicable. (Ref: Para. A5)

Material Inconsistencies

8. If, on reading the other information, the auditor identifies a material inconsistency, the auditor shall determine whether the audited financial statements or the other information needs to be revised.

Material Inconsistencies Identified in Other Information Obtained Prior to the Date of the Auditor's Report

9. When revision of the audited financial statements is necessary and management refuses to make the revision, the auditor shall modify the opinion in accordance with SA 705.¹

10. When revision of the other information is necessary and management refuses to make the revision, the auditor shall communicate this matter to those charged with governance; and

(a) Include in the auditor's report an Other Matter(s) paragraph describing the material inconsistency in accordance with SA 706²; or

(b) Where withdrawal is legally permitted, withdraw from the engagement. (Ref: Para. A6- A7)

Material Inconsistencies Identified in Other Information Obtained Subsequent to the Date of the Auditor's Report

11. When revision of the audited financial statements is necessary, the auditor shall follow the relevant requirements in SA 560.³

12. When revision of the other information is necessary and management agrees to make the revision, the auditor shall carry out the procedures necessary under the circumstances. (Ref: Para. A8)

13. When revision of the other information is necessary, but management refuses to make the revision, the auditor shall notify those charged with governance of the auditor's concern regarding the other information and take any further appropriate action. (Ref: Para. A9)

Material Misstatements of Fact

14. If, on reading the other information for the purpose of identifying material inconsistencies, the auditor becomes aware of an apparent material misstatement of fact, the auditor shall discuss the matter with management. (Ref: Para. A10)

15. When, following such discussions, the auditor still considers that there is an apparent material

¹ SA 705, "Modifications to the opinion in the Independent Auditor's Report".

² SA 706, "Emphasis of Matter paragraphs and Other Matter Paragraphs in the Independent Auditor's Report", paragraph 8.

³ SA 560, "Subsequent Events", paragraphs 10-17.

I.564 Auditing Pronouncements

misstatement of fact, the auditor shall request management to consult with a qualified third party, such as the entity's legal counsel, and the auditor shall consider the advice received.

16. When the auditor concludes that there is a material misstatement of fact in the other information which management refuses to correct, the auditor shall notify those charged with governance of the auditor's concern regarding the other information and take any further appropriate action. (Ref: Para. A11)

Application and Other Explanatory Material

Scope of this SA (Ref: Para. 1-2)

A1. The auditor may have additional responsibilities, through statutory or other regulatory requirements, in relation to other information that are beyond the scope of this SA. For example, certain statutory and regulatory requirements may require the auditor to apply specific procedures to certain of the other information such as required supplementary data or to express an opinion on the reliability of performance indicators described in the other information. When there are such obligations, the auditor's additional responsibilities are determined by the nature of the engagement and by law, regulation and professional standards. If such other information is omitted or contains deficiencies, the auditor may be required by law or regulation to refer to the matter in the auditor's report.

A2. Other information may comprise, for example:

- A report by management or those charged with governance on operations.
- Financial summaries or highlights.
- Planned capital expenditures.
- Financial ratios.
- Selected quarterly data.

A3. For purposes of the SAs, other information does not encompass, for example:

- A press release or a transmittal memorandum, such as a covering letter, accompanying the document containing audited financial statements and the auditor's report thereon.
- Information contained in analyst briefings.
- Information contained on the entity's web site.

Considerations Specific to Smaller Entities (Ref: Para. 2)

A4. Unless required by law or regulation, smaller entities are less likely to issue documents containing audited financial statements. However, an example of such a document would be where a legal requirement exists for an accompanying report by those charged with governance.

Reading Other Information (Ref: Para. 7)

A5. Obtaining the other information prior to the date of the auditor's report enables the auditor to resolve possible material inconsistencies and apparent material misstatements of fact with management on a timely basis. An agreement with management as to when the other information will be available may be helpful.

Material Inconsistencies

Material Inconsistencies Identified in Other Information Obtained Prior to the Date of the Auditor's Report (Ref: Para. 10)

A6. When management refuses to revise the other information, the auditor may base any decision on what further action to take on advice from the auditor's legal counsel.

A7. In case of certain entities such as, Central/State governments and related government entities (for

example, agencies, boards, commissions), withdrawal from the engagement may not be an option. In such cases the auditor may issue a report to the appropriate statutory body giving details of the inconsistency.

Material Inconsistencies Identified in Other Information Obtained Subsequent to the Date of the Auditor's Report (Ref: Para. 12-13)

A8. When management agrees to revise the other information, the auditor's procedures may include reviewing the steps taken by management to ensure that individuals in receipt of the previously issued financial statements, the auditor's report thereon, and the other information are informed of the revision.

A9. When management refuses to make the revision of such other information that the auditor concludes is necessary, appropriate further actions by the auditor may include obtaining advice from the auditor's legal counsel.

Material Misstatements of Fact (Ref: Para. 14-16)

A10. When discussing an apparent material misstatement of fact with management, the auditor may not be able to evaluate the validity of some disclosures included within the other information and management's responses to the auditor's inquiries, and may conclude that valid differences of judgment or opinion exist.

A11. When the auditor concludes that there is a material misstatement of fact that management refuses to correct, appropriate further actions by the auditor may include obtaining advice from the auditor's legal counsel.

Material Modifications vis a vis ISA 720, "The Auditor's Responsibility in Relation to Other Information in Documents Containing Audited Financial Statements"

Deletions

1. Paragraph 10 of ISA 720 dealt with the circumstances where the revision of the financial statements is necessary and management refuses to make the revision. In these circumstances, the auditor shall communicate this matter to those charged with governance and include in the auditor's report an Other Matter(s) paragraph describing the material inconsistency in accordance with ISA 706; or withhold the auditor's report; or where withdrawal is legally permitted, withdraw from the engagement. Since in India, the practice of withholding the auditor's report is not in vogue, an option of withholding the auditor's report by the auditor has been deleted. Similarly in paragraph A7 of the Application Section, an option of withholding the auditor's report by the auditor has been deleted.

2. Paragraph A2 of ISA 720 provides the examples of the other information including 'employment data' and 'names of officers and directors'. Reference to these two specific examples has been deleted so that the auditor can focus on more relevant aspects of other information.

3. Paragraph A4 of ISA 720 provides an example of the other information that may be included in a document containing the audited financial statements of a smaller entity are a detailed income statement and a management report..Since, in India, the terminology of "detailed income statement" and a "management report" do not exist; these have been deleted completely from the SA.

4. Paragraph A7 of ISA 720 provides that in case of public sector entities, withdrawal from the engagement or withholding the auditor's report may not be the options. In such cases the auditor may issue a report to the appropriate statutory body giving details of the inconsistency. Since as mentioned in the "Preface to the Standards on Quality Control, Auditing, Review, Other Assurance and Related Services", the Standards issued by the Auditing and Assurance Standards Board, apply equally to all entities, irrespective of their form, nature and size, a specific reference to applicability of the Standard to public sector entities has been deleted.

Further, it is also possible that withdrawal from the engagement may not be an option even in case of non public sector entities pursuant to a requirement under the statute or regulation under which they operate. Paragraph A7 has, accordingly, been made more generic in its application.

SA 800*

**Special Considerations—Audits of Financial
Statements Prepared in Accordance with Special
Purpose Frameworks**
*(Effective for all audits relating to
accounting periods beginning on or after April 1, 2011)*

Introduction

Scope of this SA

1. The Standards on Auditing (SAs) in the 100-700 series apply to an audit of financial statements. This SA deals with special considerations in the application of those SAs to an audit of financial statements prepared in accordance with a special purpose framework.
2. This SA is written in the context of a complete set of financial statements prepared in accordance with a special purpose framework. SA 805¹, deals with special considerations relevant to an audit of a single financial statement or of a specific element, account or item of a financial statement.
3. This SA does not override the requirements of the other SAs; nor does it purport to deal with all special considerations that may be relevant in the circumstances of the engagement.

Effective Date

4. This SA is effective for audits of financial statements for periods beginning on or after April 1, 2011.

Objective

5. The objective of the auditor, when applying SAs in an audit of financial statements prepared in accordance with a special purpose framework, is to address appropriately the special considerations that are relevant to:
 - (a) The acceptance of the engagement;
 - (b) The planning and performance of that engagement; and
 - (c) Forming an opinion and reporting on the financial statements.

Definitions

6. For purposes of the SAs, the following terms have the meanings attributed below:
 - (a) Special purpose financial statements – Financial statements prepared in accordance with a special purpose framework. (Ref: Para. A4)
 - (b) Special purpose framework – A financial reporting framework designed to meet the financial information needs of specific users. The financial reporting framework may be a fair presentation

* Published in April, 2010 issue of the Journal.

¹ SA 805, "Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts or Items of a Financial Statement".

framework or a compliance framework². (Ref: Para. A1-A4)

7. The related notes ordinarily comprise a summary of significant accounting policies and other explanatory information. The requirements of the applicable financial reporting framework determine the form and content of the financial statements, and what constitutes a complete set of financial statements.

Requirements

Considerations When Accepting the Engagement

Acceptability of the Financial Reporting Framework

8. SA 210 requires the auditor to determine the acceptability of the financial reporting framework applied in the preparation of the financial statements³. In an audit of special purpose financial statements, the auditor shall obtain an understanding of: (Ref: Para. A5-A8)

- (a) The purpose for which the financial statements are prepared;
- (b) The intended users; and
- (c) The steps taken by management to determine that the applicable financial reporting framework is acceptable in the circumstances.

Considerations When Planning and Performing the Audit

9. SA 200 requires the auditor to comply with all SAs relevant to the audit⁴. In planning and performing an audit of special purpose financial statements, the auditor shall determine whether application of the SAs requires special consideration in the circumstances of the engagement. (Ref: Para. A9-A12)

10. SA 315 requires the auditor to obtain an understanding of the entity's selection and application of accounting policies⁵. In the case of financial statements prepared in accordance with the provisions of a contract, the auditor shall obtain an understanding of any significant interpretations of the contract that management made in the preparation of those financial statements. An interpretation is significant when adoption of another reasonable interpretation would have produced a material difference in the information presented in the financial statements.

Forming an Opinion and Reporting Considerations

11. When forming an opinion and reporting on special purpose financial statements, the auditor shall apply the requirements in SA 700 (Revised)⁶. (Ref: Para. A13)

Description of the Applicable Financial Reporting Framework

12. SA 700 (Revised) requires the auditor to evaluate whether the financial statements adequately refer to or describe the applicable financial reporting framework⁷. In the case of financial statements prepared in accordance with the provisions of a contract, the auditor shall evaluate whether the financial statements adequately describe any significant interpretations of the contract on which the financial statements are based.

13. SA 700 (Revised) deals with the form and content of the auditor's report. In the case of an auditor's

² SA 200, "Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with Standards on Auditing", paragraph 13(a).

³ SA 210, "Agreeing the Terms of Audit Engagements", paragraph 6 (a).

⁴ SA 200, paragraph 18.

⁵ SA 315, "Identifying and Assessing the Risks of Material Misstatement Through Understanding the Entity and Its Environment", paragraph 11(c).

⁶ SA 700 (Revised), "Forming an Opinion and Reporting on Financial Statements".

⁷ SA 700 (Revised), paragraph 15.

report on special purpose financial statements:

- (a) The auditor's report shall also describe the purpose for which the financial statements are prepared and, if necessary, the intended users, or refer to a note in the special purpose financial statements that contains that information; and
- (b) If management has a choice of financial reporting frameworks in the preparation of such financial statements, the explanation of management's responsibility for the financial statements shall also make reference to its responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances.

Alerting Readers that the Financial Statements Are Prepared in Accordance with a Special Purpose Framework

14. The auditor's report on special purpose financial statements shall include an Emphasis of Matter paragraph alerting users of the auditor's report that the financial statements are prepared in accordance with a special purpose framework and that, as a result, the financial statements may not be suitable for another purpose. The auditor shall include this paragraph under an appropriate heading. (Ref: Para. A14-A15)

Application and Other Explanatory Material

Special Purpose Frameworks⁸ (Ref: Para. 6)

A1. Examples of special purpose frameworks are:

- The cash receipts and disbursements basis of accounting for cash flow information that an entity may be requested to prepare for creditors;
- The financial reporting provisions established by a regulator to meet the requirements of that regulator; or
- The financial reporting provisions of a contract, such as a bond indenture, a loan agreement, or a project grant.

A2. There may be circumstances where a special purpose framework is based on a financial reporting framework established by an authorised or recognised standards setting organization or by law or regulation, but does not comply with all the requirements of that framework. An example is a contract that requires financial statements to be prepared in accordance with most, but not all, of the Financial Reporting Standards of Jurisdiction X. When this is acceptable in the circumstances of the engagement, it is inappropriate for the description of the applicable financial reporting framework in the special purpose financial statements to imply full compliance with the financial reporting framework established by the authorised or recognized standards setting organization or by law or regulation. In the above example of the contract, the description of the applicable financial reporting framework may refer to the financial reporting provisions of the contract, rather than make any reference to the Financial Reporting Standards of Jurisdiction X.

A3. In the circumstances described in paragraph A2, the special purpose framework may not be a fair presentation framework even if the financial reporting framework on which it is based is a fair presentation framework. This is because the special purpose framework may not comply with all the requirements of the financial reporting framework established by the authorized or recognized standards setting organization

⁸ In India, financial statements prepared for filing with income tax authorities are considered to be general purpose financial statements. Attention of the readers are also invited to the announcement published in "The Chartered Accountant", August 1994 (page 224) which states that: "It is hereby clarified that the mandatory accounting standards also apply in respect of financial statements audited under section 44AB of the Income Tax Act, 1961. Accordingly, members should examine compliance with the mandatory accounting standards when conducting such audit".

or by law or regulation that are necessary to achieve fair presentation of the financial statements.

A4. Financial statements prepared in accordance with a special purpose framework may be the only financial statements an entity prepares. In such circumstances, those financial statements may be used by users other than those for whom the financial reporting framework is designed. Despite the broad distribution of the financial statements in those circumstances, the financial statements are still considered to be special purpose financial statements for purposes of the SAs. The requirements in paragraphs 13-14 are designed to avoid misunderstandings about the purpose for which the financial statements are prepared.

Considerations When Accepting the Engagement

Acceptability of the Financial Reporting Framework (Ref: Para. 8)

A5. In the case of special purpose financial statements, the financial information needs of the intended users are a key factor in determining the acceptability of the financial reporting framework applied in the preparation of the financial statements.

A6. The applicable financial reporting framework may encompass the financial reporting standards established by an organization that is authorized or recognized to promulgate standards for special purpose financial statements. In that case, those standards will be presumed acceptable for that purpose if the organization follows an established and transparent process involving deliberation and consideration of the views of relevant stakeholders. Some law(s) or regulation(s) may prescribe the financial reporting framework to be used by management in the preparation of special purpose financial statements for a certain type of entity. For example, a regulator may establish financial reporting provisions to meet the requirements of that regulator. In the absence of indications to the contrary, such a financial reporting framework is presumed acceptable for special purpose financial statements prepared by such entity.

A7. Where the financial reporting standards referred to in paragraph A6 are supplemented by legislative or regulatory requirements, SA 210 requires the auditor to determine whether any conflicts between the financial reporting standards and the additional requirements exist, and prescribes actions to be taken by the auditor if such conflicts exist⁹.

A8. The applicable financial reporting framework may encompass the financial reporting provisions of a contract, or sources other than those described in paragraphs A6 and A7. In that case, the acceptability of the financial reporting framework in the circumstances of the engagement is determined by considering whether the framework exhibits attributes normally exhibited by acceptable financial reporting frameworks as described in Appendix 2 of SA 210. In the case of a special purpose framework, the relative importance to a particular engagement of each of the attributes normally exhibited by acceptable financial reporting frameworks is a matter of professional judgment. For example, for purposes of establishing the value of net assets of an entity at the date of its sale, the vendor and the purchaser may have agreed that very prudent estimates of allowances for uncollectible accounts receivable are appropriate for their needs, even though such financial information is not neutral when compared with financial information prepared in accordance with a general purpose framework.

Considerations When Planning and Performing the Audit (Ref: Para. 9)

A9. SA 200 requires the auditor to comply with (a) relevant ethical requirements, including those pertaining to independence, relating to financial statement audit engagements, and (b) all SAs relevant to the audit. It also requires the auditor to comply with each requirement of an SA unless, in the circumstances of the audit, the entire SA is not relevant or the requirement is not relevant because it is conditional and the

⁹ SA 210, paragraph 18.

I.570 Auditing Pronouncements

condition does not exist. In exceptional circumstances, the auditor may judge it necessary to depart from a relevant requirement in an SA by performing alternative audit procedures to achieve the aim of that requirement¹⁰.

A10. Application of some of the requirements of the SAs in an audit of special purpose financial statements may require special consideration by the auditor. For example, in SA 320, judgments about matters that are material to users of the financial statements are based on a consideration of the common financial information needs of users as a group¹¹. In the case of an audit of special purpose financial statements, however, those judgments are based on a consideration of the financial information needs of the intended users.

A11. In the case of special purpose financial statements, such as those prepared in accordance with the requirements of a contract, management may agree with the intended users on a threshold below which misstatements identified during the audit will not be corrected or otherwise adjusted. The existence of such a threshold does not relieve the auditor from the requirement to determine materiality in accordance with SA 320 for purposes of planning and performing the audit of the special purpose financial statements.

A12. Communication with those charged with governance in accordance with SAs is based on the relationship between those charged with governance and the financial statements subject to audit, in particular, whether those charged with governance are responsible for overseeing the preparation of those financial statements. In the case of special purpose financial statements, those charged with governance may not have such a responsibility; for example, when the financial information is prepared solely for management's use. In such cases, the requirements of SA 260¹² may not be relevant to the audit of the special purpose financial statements, except when the auditor is also responsible for the audit of the entity's general purpose financial statements or, for example, has agreed with those charged with governance of the entity to communicate to them relevant matters identified during the audit of the special purpose financial statements.

Forming an Opinion and Reporting Considerations (Ref: Para. 11)

A13. The Appendix to this SA contains illustrations of auditors' reports on special purpose financial statements.

Alerting Readers that the Financial Statements Are Prepared in Accordance with a Special Purpose Framework (Ref: Para. 14)

A14. The special purpose financial statements may be used for purposes other than those for which they were intended. For example, a regulator may require certain entities to place the special purpose financial statements on public record. To avoid misunderstandings, the auditor alerts users of the auditor's report that the financial statements are prepared in accordance with a special purpose framework and, therefore, may not be suitable for another purpose.

Restriction on Distribution or Use (Ref: Para. 14)

A15. In addition to the alert required by paragraph 14, the auditor may consider it appropriate to indicate that the auditor's report is intended solely for the specific users. Depending on the law or regulation of the particular jurisdiction, this may be achieved by restricting the distribution or use of the auditor's report. In these circumstances, the paragraph referred to in paragraph 14 may be expanded to include these other matters, and the heading modified accordingly.

¹⁰ SA 200, paragraphs 14, 18 and 22-23.

¹¹ SA 320, "Materiality in Planning and Performing an Audit", paragraph 2.

¹² SA 260, "Communication with Those Charged with Governance".

Modifications vis-a-vis ISA 800, “Special Considerations—Audits of Financial Statements Prepared in Accordance with Special Purpose Frameworks”**Deletion**

Paragraph A1 of ISA 800 deals with the examples of special purpose frameworks, which also includes a tax basis of accounting for a set of financial statements that accompany an entity’s tax return. Since in India, financial statements prepared for filing with income tax authorities are considered to be general purpose financial statements and as per the announcement issued under the authority of the Council of the Institute of Chartered Accountants of India (ICAI) in August, 1994, the mandatory accounting standards should also be applied in respect of financial statements audited under section 44AB of the Income Tax Act, 1961, an example, “A tax basis of accounting for a set of financial statements that accompany an entity’s tax return” has been deleted.

Appendix

(Ref: Para. A13)

Illustrations of Auditors’ Reports on Special Purpose Financial Statements

Illustration 1: An auditor’s report on a complete set of financial statements prepared in accordance with the financial reporting provisions of a contract (for purposes of this illustration, a compliance framework).

Illustration 2: An auditor’s report on a complete set of financial statements prepared in accordance with the financial reporting provisions established by a regulator (for purposes of this illustration, a fair presentation framework).

Illustration 1:

Circumstances include the following:

- **The financial statements have been prepared by management of the entity in accordance with the financial reporting provisions of a contract (i.e., a special purpose framework) to comply with the provisions of that contract. Management does not have a choice of financial reporting frameworks.**
- **The applicable financial reporting framework is a compliance framework.**
- **The terms of the audit engagement reflect the description of management’s responsibility for the financial statements in SA 210.**
- **Distribution and use of the auditor’s report are restricted.**

INDEPENDENT AUDITOR’S REPORT

[Appropriate Addressee]

We have audited the accompanying financial statements of ABC Company Ltd., which comprise the balance sheet as at March 31, 20X1, and the statement of profit and loss, and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information. The financial statements have been prepared by management of ABC Company Ltd. based on the financial reporting provisions of section/ clause Z of the contract dated July 1, 20X0 between ABC Company Ltd. and DEF Company Ltd. (“the contract”).

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements in accordance with the financial reporting provisions of section/ clause Z of the contract; this includes the design, implementation and maintenance of internal control relevant to the preparation of financial statements that are free from

I.572 Auditing Pronouncements

material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India (ICAI). Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control¹³. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements of ABC Company Ltd. for the year ended March 31, 20X1 are prepared, in all material respects, in accordance with the financial reporting provisions of section/ clause Z of the contract.

Basis of Accounting and Restriction on Distribution and Use

Without modifying our opinion, we draw attention to Note X to the financial statements, which describes the basis of accounting. The financial statements are prepared to assist ABC Company Ltd. to comply with the financial reporting provisions of the contract referred to above. As a result, the financial statements may not be suitable for another purpose. Our report is intended solely for ABC Company Ltd. and DEF Company Ltd. and should not be distributed to or used by parties other than ABC Company Ltd. or DEF Company Ltd.

Circumstances include the following:

- The financial statements have been prepared by management of the entity in accordance with the financial reporting provisions established by a regulator (i.e., a special purpose framework) to meet the requirements of that regulator. Management does not have a choice of financial reporting frameworks.
- The applicable financial reporting framework is a fair presentation framework.
- The terms of the audit engagement reflect the description of management's responsibility for the financial statements in SA 210.
- Distribution or use of the auditor's report is not restricted.
- The Other Matter paragraph refers to the fact that the auditor has also issued an auditor's report on financial statements prepared by ABC Company Ltd. for the same period in accordance with a general purpose framework.

INDEPENDENT AUDITOR'S REPORT

[Appropriate Addressee]

We have audited the accompanying financial statements of ABC Company Ltd., which comprise the balance sheet as at March 31, 20X1, and the statement of profit and loss, and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information. The financial statements have been prepared by management based on the financial reporting provisions of Section Y of Regulation Z.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the state of affairs, results of operations and cash flows of the Company in accordance with the financial reporting provisions of Section Y of Regulation Z; this includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Standards on Auditing issued by the Institute of Chartered Accountants of India (ICAI). Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control¹⁵. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall

I.574 Auditing Pronouncements

presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give a true and fair view of the state of affairs of ABC Company Ltd. as at March 31, 20X1, and of its results of operations and its cash flows for the year then ended in accordance with the financial reporting provisions of Section Y of Regulation Z.

Basis of Accounting

Without modifying our opinion, we draw attention to Note X to the financial statements, which describes the basis of accounting. The financial statements are prepared to assist ABC Company Ltd. to meet the requirements of Regulator DEF. As a result, the financial statements may not be suitable for another purpose.

Other Matter

ABC Company Ltd. has prepared a separate set of financial statements for the year ended March 31, 20X1 in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act") on which we issued a separate auditor's report to the shareholders of ABC Company Ltd. dated June 30, 20X1.

SA 805*

**Special Considerations—Audits of Single
Financial Statements and Specific Elements,
Accounts or Items of a Financial Statement**
*(Effective for all audits relating to
accounting periods beginning on or after April 1, 2011)*

Introduction

Scope of this SA

1. The Standards on Auditing (SAs) in the 100-700 series apply to an audit of financial statements and are to be adapted as necessary in the circumstances when applied to audits of other historical financial information. This SA deals with special considerations in the application of those SAs to an audit of a single financial statement or of a specific element, account or item of a financial statement. The single financial statement or the specific element, account or item of a financial statement may be prepared in accordance with a general or special purpose framework. If prepared in accordance with a special purpose framework, SA 800¹ also applies to the audit. (Ref: Para. A1-A4)
2. This SA does not apply to the report of a component auditor, issued as a result of work performed on the financial information of a component at the request of a group engagement team for purposes of an audit of group financial statements (see Proposed Revised SA 600²).
3. This SA does not override the requirements of the other SAs; nor does it purport to deal with all special considerations that may be relevant in the circumstances of the engagement.

Effective Date

4. This SA is effective for audits of single financial statements or of specific elements, accounts or items for periods beginning on or after April 1, 2011. In the case of audits of single financial statements or of specific elements, accounts or items of a financial statement prepared as at a specific date, this SA is effective for audits of such information prepared as at a date on or after April 1, 2011.

Objective

5. The objective of the auditor, when applying SAs in an audit of a single financial statement or of a specific element, account or item of a financial statement, is to address appropriately the special considerations that are relevant to:
 - (a) The acceptance of the engagement;
 - (b) The planning and performance of that engagement; and

* Published in the April, 2010 issue of the Journal.

¹ SA 800, "Special Considerations—Audits of Financial Statements Prepared in Accordance with Special Purpose Frameworks".

² Currently, SA 600, 'Using the Work of Another Auditor' is in force. The standard is being revised in light of the corresponding international standard.

I.576 Auditing Pronouncements

- (c) Forming an opinion and reporting on the single financial statement or on the specific element, account or item of a financial statement.

Definitions

6. For purposes of this SA, reference to:

- (a) "Element of a financial statement" or "element" means an "element, account or item of a financial statement";
- (b) "Financial Reporting Standards" means the Accounting Standards issued by the Institute of Chartered Accountants of India (ICAI) or Accounting Standards, notified by the Central Government by publishing the same as the Companies (Accounting Standards) Rules, 2006, or the Accounting Standards for Local Bodies issued by the Institute of Chartered Accountants of India, as may be applicable; and
- (c) A single financial statement (for example, a cash flow statement) or to a specific element of a financial statement (for example, cash and bank balances) includes the related notes. The related notes ordinarily comprise a summary of significant accounting policies and other explanatory information relevant to the financial statement or to the element.

Requirements

Considerations When Accepting the Engagement

Application of SAs

7. SA 200 requires the auditor to comply with all SAs relevant to the audit³. In the case of an audit of a single financial statement or of a specific element of a financial statement, this requirement applies irrespective of whether the auditor is also engaged to audit the entity's complete set of financial statements. If the auditor is not also engaged to audit the entity's complete set of financial statements, the auditor shall determine whether the audit of a single financial statement or of a specific element of those financial statements in accordance with SAs is practicable. (Ref: Para. A5-A6)

Acceptability of the Financial Reporting Framework

8. SA 210 requires the auditor to determine the acceptability of the financial reporting framework applied in the preparation of the financial statements⁴. In the case of an audit of a single financial statement or of a specific element of a financial statement, this shall include whether application of the financial reporting framework will result in a presentation that provides adequate disclosures to enable the intended users to understand the information conveyed in the financial statement or the element, and the effect of material transactions and events on the information conveyed in the financial statement or the element. (Ref: Para. A7)

Form of Opinion

9. SA 210 requires that the agreed terms of the audit engagement include the expected form of any reports to be issued by the auditor⁵. In the case of an audit of a single financial statement or of a specific element of a financial statement, the auditor shall consider whether the expected form of opinion is appropriate in the circumstances. (Ref: Para. A8-A9)

³ SA 200, "Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with Standards on Auditing", paragraph 18.

⁴ SA 210, "Agreeing the Terms of Audit Engagements", paragraph 6(a).

⁵ SA 210, paragraph 10(e).

Considerations When Planning and Performing the Audit

10. SA 200 states that SAs are written in the context of an audit of financial statements; they are to be adapted as necessary in the circumstances when applied to audits of other historical financial information.^{6 7} In planning and performing the audit of a single financial statement or of a specific element of a financial statement, the auditor shall adapt all SAs relevant to the audit as necessary in the circumstances of the engagement. (Ref: Para. A10-A14)

Forming an Opinion and Reporting Considerations

11. When forming an opinion and reporting on a single financial statement or on a specific element of a financial statement, the auditor shall apply the requirements in SA 700 (Revised)⁸, adapted as necessary in the circumstances of the engagement. (Ref: Para. A15-A16)

Reporting on the Entity's Complete Set of Financial Statements and on a Single Financial Statement or on a Specific Element of Those Financial Statements

12. If the auditor undertakes an engagement to report on a single financial statement or on a specific element of a financial statement in conjunction with an engagement to audit the entity's complete set of financial statements, the auditor shall express a separate opinion for each engagement.

13. An audited single financial statement or an audited specific element of a financial statement may be published together with the entity's audited complete set of financial statements. If the auditor concludes that the presentation of the single financial statement or of the specific element of a financial statement does not differentiate it sufficiently from the complete set of financial statements, the auditor shall ask management to rectify the situation. Subject to paragraphs 15 and 16, the auditor shall also differentiate the opinion on the single financial statement or on the specific element of a financial statement from the opinion on the complete set of financial statements. The auditor shall not issue the auditor's report containing the opinion on the single financial statement or on the specific element of a financial statement until satisfied with the differentiation.

Modified Opinion, Emphasis of Matter Paragraph or Other Matter Paragraph in the Auditor's Report on the Entity's Complete Set of Financial Statements

14. If the opinion in the auditor's report on an entity's complete set of financial statements is modified, or that report includes an Emphasis of Matter paragraph or an Other Matter paragraph, the auditor shall determine the effect that this may have on the auditor's report on a single financial statement or on a specific element of those financial statements. When deemed appropriate, the auditor shall modify the opinion on the single financial statement or on the specific element of a financial statement, or include an Emphasis of Matter paragraph or an Other Matter paragraph in the auditor's report, accordingly. (Ref: Para. A17)

15. If the auditor concludes that it is necessary to express an adverse opinion or disclaim an opinion on the entity's complete set of financial statements as a whole, SA 705 does not permit the auditor to include in the same auditor's report an unmodified opinion on a single financial statement that forms part of those financial statements or on a specific element that forms part of those financial statements⁹. This is because such an unmodified opinion would contradict the adverse opinion or disclaimer of opinion on the entity's complete set of financial statements as a whole. (Ref: Para. A18)

16. If the auditor concludes that it is necessary to express an adverse opinion or disclaim an opinion on the

⁶ SA 200, paragraph 2.

⁷ SA 200, paragraph 13(f), explains that the term "financial statements" ordinarily refers to a complete set of financial statements as determined by the requirements of the applicable financial reporting framework.

⁸ SA 700 (Revised), "Forming an Opinion and Reporting on Financial Statements".

⁹ SA 705, "Modifications to the Opinion in the Independent Auditor's Report", paragraph 15.

I.578 Auditing Pronouncements

entity's complete set of financial statements as a whole but, in the context of a separate audit of a specific element that is included in those financial statements, the auditor nevertheless considers it appropriate to express an unmodified opinion on that element, the auditor shall only do so if:

- (a) The auditor is not prohibited by law or regulation from doing so;
- (b) That opinion is expressed in an auditor's report that is not published together with the auditor's report containing the adverse opinion or disclaimer of opinion; and
- (c) The specific element does not constitute a major portion of the entity's complete set of financial statements.

17. The auditor shall not express an unmodified opinion on a single financial statement of a complete set of financial statements if the auditor has expressed an adverse opinion or disclaimed an opinion on the complete set of financial statements as a whole. This is the case even if the auditor's report on the single financial statement is not published together with the auditor's report containing the adverse opinion or disclaimer of opinion. This is because a single financial statement is deemed to constitute a major portion of those financial statements.

Application and Other Explanatory Material

Scope of this SA (Ref. Para. 1)

A1. SA 200 defines the term "historical financial information" as information expressed in financial terms in relation to a particular entity, derived primarily from that entity's accounting system, about economic events occurring in past time periods or about economic conditions or circumstances at points in time in the past¹⁰.

A2. SA 200 defines the term "financial statements" as a structured representation of historical financial information, including related notes, intended to communicate an entity's economic resources or obligations at a point in time or the changes therein for a period of time in accordance with a financial reporting framework. The term ordinarily refers to a complete set of financial statements as determined by the requirements of the applicable financial reporting framework¹¹.

A3. SAs are written in the context of an audit of financial statements¹²; they are to be adapted as necessary in the circumstances when applied to an audit of other historical financial information, such as a single financial statement or a specific element of a financial statement. This SA assists in this regard. (Appendix 1 lists examples of such other historical financial information.)

A4. A reasonable assurance engagement other than an audit of historical financial information is performed in accordance with Proposed Standard on Assurance Engagements (SAE) 3000¹³.

Considerations When Accepting the Engagement

Application of SAs (Ref. Para. 7)

A5. SA 200 requires the auditor to comply with (a) relevant ethical requirements, including those pertaining to independence, relating to financial statement audit engagements, and (b) all SAs relevant to the audit. It also requires the auditor to comply with each requirement of an SA unless, in the circumstances of the audit, the entire SA is not relevant or the requirement is not relevant because it is conditional and the condition does not exist. In exceptional circumstances, the auditor may judge it necessary to depart from a relevant

¹⁰ SA 200, paragraph 13(g).

¹¹ SA 200, paragraph 13(f).

¹² SA 200, paragraph 2.

¹³ The Exposure Draft of SAE 3000, "Assurance Engagements Other than Audits or Reviews of Historical Financial Information" has been published in the March, 2010 issue of the Journal.

requirement in an SA by performing alternative audit procedures to achieve the aim of that requirement¹⁴.

A6. Compliance with the requirements of SAs relevant to the audit of a single financial statement or of a specific element of a financial statement may not be practicable when the auditor is not also engaged to audit the entity's complete set of financial statements. In such cases, the auditor often does not have the same understanding of the entity and its environment, including its internal control, as an auditor who also audits the entity's complete set of financial statements. The auditor also does not have the audit evidence about the general quality of the accounting records or other accounting information that would be acquired in an audit of the entity's complete set of financial statements. Accordingly, the auditor may need further evidence to corroborate audit evidence acquired from the accounting records. In the case of an audit of a specific element of a financial statement, certain SAs require audit work that may be disproportionate to the element being audited. For example, although the requirements of SA 570¹⁵ are likely to be relevant in the circumstances of an audit of a schedule of accounts receivable, complying with those requirements may not be practicable because of the audit effort required. If the auditor concludes that an audit of a single financial statement or of a specific element of a financial statement in accordance with SAs may not be practicable, the auditor may discuss with management whether another type of engagement might be more practicable.

Acceptability of the Financial Reporting Framework (Ref: Para. 8)

A7. A single financial statement or a specific element of a financial statement may be prepared in accordance with an applicable financial reporting framework that is based on a financial reporting framework established by an authorised or recognised standards setting organisation for the preparation of a complete set of financial statements (e.g., Financial Reporting Standards). If this is the case, determination of the acceptability of the applicable framework may involve considering whether that framework includes all the requirements of the framework on which it is based that are relevant to the presentation of a single financial statement or of a specific element of a financial statement that provides adequate disclosures.

Form of Opinion (Ref: Para. 9)

A8. The form of opinion to be expressed by the auditor depends on the applicable financial reporting framework and any applicable laws or regulations¹⁶. In accordance with SA 700 (Revised)¹⁷:

- (a) When expressing an unmodified opinion on a complete set of financial statements prepared in accordance with a fair presentation framework, the auditor's opinion, unless otherwise required by law or regulation, uses one of the following phrases: (i) the financial statements present fairly, in all material respects, in accordance with [the applicable financial reporting framework]; or (ii) the financial statements give a true and fair view in accordance with [the applicable financial reporting framework]; and
- (b) When expressing an unmodified opinion on a complete set of financial statements prepared in accordance with a compliance framework, the auditor's opinion states that the financial statements are prepared, in all material respects, in accordance with [the applicable financial reporting framework].

A9. In the case of a single financial statement or of a specific element of a financial statement, the applicable financial reporting framework may not explicitly address the presentation of the financial statement or of the element. This may be the case when the applicable financial reporting framework is based on a financial reporting framework established by an authorised or recognised standards setting organization for the preparation of a complete set of financial statements (e.g., Financial Reporting Standards). The auditor

¹⁴ SA 200, paragraphs 14, 18 and 22-23.

¹⁵ SA 570, "Going Concern".

¹⁶ SA 200, paragraph 8.

¹⁷ SA 700 (Revised), paragraphs 35-36.

I.580 Auditing Pronouncements

therefore considers whether the expected form of opinion is appropriate in the light of the applicable financial reporting framework. Factors that may affect the auditor's consideration as to whether to use the phrases "presents fairly, in all material respects", or "gives a true and fair view" in the auditor's opinion include:

- Whether the applicable financial reporting framework is explicitly or implicitly restricted to the preparation of a complete set of financial statements.
- Whether the single financial statement or the specific element of a financial statement will:
 - ◆ Comply fully with each of those requirements of the framework relevant to the particular financial statement or the particular element, and the presentation of the financial statement or the element include the related notes.
 - ◆ If necessary to achieve fair presentation, provide disclosures beyond those specifically required by the framework or, in exceptional circumstances, depart from a requirement of the framework.

The auditor's decision as to the expected form of opinion is a matter of professional judgment. It may be affected by whether use of the phrases "presents fairly, in all material respects", or "gives a true and fair view" in the auditor's opinion on a single financial statement or on a specific element of a financial statement prepared in accordance with a fair presentation framework is generally accepted in the particular jurisdiction.

Considerations When Planning and Performing the Audit (Ref: Para. 10)

A10. The relevance of each of the SAs requires careful consideration. Even when only a specific element of a financial statement is the subject of the audit, SAs such as SA 240¹⁸, SA 550¹⁹ and SA 570 are, in principle, relevant. This is because the element could be misstated as a result of fraud, the effect of related party transactions, or the incorrect application of the going concern assumption under the applicable financial reporting framework.

A11. Furthermore, SAs are written in the context of an audit of financial statements; they are to be adapted as necessary in the circumstances when applied to the audit of a single financial statement or of a specific element of a financial statement²⁰. For example, written representations from management about the complete set of financial statements would be replaced by written representations about the presentation of the financial statement or the element in accordance with the applicable financial reporting framework.

A12. When auditing a single financial statement or a specific element of a financial statement in conjunction with the audit of the entity's complete set of financial statements, the auditor may be able to use audit evidence obtained as part of the audit of the entity's complete set of financial statements in the audit of the financial statement or the element. SAs, however, require the auditor to plan and perform the audit of the financial statement or element to obtain sufficient appropriate audit evidence on which to base the opinion on the financial statement or on the element.

A13. The individual financial statements that comprise a complete set of financial statements, and many of the elements of those financial statements, including their related notes, are interrelated. Accordingly, when auditing a single financial statement or a specific element of a financial statement, the auditor may not be able to consider the financial statement or the element in isolation. Consequently, the auditor may need to perform procedures in relation to the interrelated items to meet the objective of the audit.

A14. Furthermore, the materiality determined for a single financial statement or for a specific element of a financial statement may be lower than the materiality determined for the entity's complete set of financial statements; this will affect the nature, timing and extent of the audit procedures and the evaluation of

¹⁸ SA 240, 'The Auditor's Responsibilities Relating to Fraud in an Audit of Financial Statements'.

¹⁹ SA 550, "Related Parties".

²⁰ SA 200, paragraph 2.

uncorrected misstatements.

Forming an Opinion and Reporting Considerations (Ref: Para. 11, 14)

A15. SA 700 (Revised) requires the auditor, in forming an opinion, to evaluate whether the financial statements provide adequate disclosures to enable the intended users to understand the effect of material transactions and events on the information conveyed in the financial statements²¹. In the case of a single financial statement or of a specific element of a financial statement, it is important that the financial statement or the element, including the related notes, in view of the requirements of the applicable financial reporting framework, provides adequate disclosures to enable the intended users to understand the information conveyed in the financial statement or the element, and the effect of material transactions and events on the information conveyed in the financial statement or the element.

A16. Appendix 2 of this SA contains illustrations of auditors' reports on a single financial statement and on a specific element of a financial statement.

Modified Opinion, Emphasis of Matter Paragraph or Other Matter Paragraph in the Auditor's Report on the Entity's Complete Set of Financial Statements (Ref: Para. 14-15)

A17. Even when the modified opinion on the entity's complete set of financial statements, Emphasis of Matter paragraph or Other Matter paragraph does not relate to the audited financial statement or the audited element, the auditor may still deem it appropriate to refer to the modification in an Other Matter paragraph in an auditor's report on the financial statement or on the element because the auditor judges it to be relevant to the users' understanding of the audited financial statement or the audited element or the related auditor's report (see SA 706)²².

A18. In the auditor's report on an entity's complete set of financial statements, the expression of a disclaimer of opinion regarding the results of operations and cash flows, where relevant, and an unmodified opinion regarding the state of affairs is permitted since the disclaimer of opinion is being issued in respect of the results of operations and cash flows only and not in respect of the financial statements as a whole²³.

Modifications *vis-a-vis* ISA 805, "Special Considerations—Audits of Single Financial Statements and Specific Elements, Accounts or Items of a Financial Statement"

Addition

Paragraph 6(b) of ISA 805 defines the meaning of the International Financial Reporting Standards (IFRS). Since in India, financial reporting standards, used for the preparation and presentation of financial statements, can be 'Accounting Standards issued by the Institute of Chartered Accountants of India or Accounting Standards, notified by the Central Government by publishing the same as Companies (Accounting Standards) Rules, 2006' or 'Accounting Standards for Local Bodies issued by the Institute of Chartered Accountants of India (ICAI)', the paragraph 6(b) has, accordingly, been changed. Corresponding changes have also been made at the relevant places of the Standard.

²¹ SA 700 (Revised), paragraph 13(e).

²² SA 706, "Emphasis of Matter Paragraphs and Other Matter Paragraphs in the Independent Auditor's Report", paragraph 6.

²³ SA 510, "Initial Audit Engagements—Opening Balances", paragraph A5, and SA 705, paragraph A16.

Appendix 1

(Ref: Para. A3)

Examples of Specific Elements, Accounts or Items of a Financial Statement

- Accounts receivable, allowance for doubtful accounts receivable, inventory, the liability for accrued benefits of a private pension plan, the recorded value of identified intangible assets, or the liability for “incurred but not reported” claims in an insurance portfolio, including related notes.
- A schedule of externally managed assets and income of a private pension plan, including related notes.
- A schedule of net tangible assets, including related notes.
- A schedule of disbursements in relation to a lease property, including explanatory notes.
- A schedule of profit participation or employee bonuses, including explanatory notes.

(Ref: Para. A16)

Illustrations of Auditors’ Reports on a Single Financial Statement and on a Specific Element of a Financial Statement

- Illustration 1: An auditor’s report on a single financial statement prepared in accordance with a general purpose framework (for purposes of this illustration, a fair presentation framework).
- Illustration 2: An auditor’s report on a single financial statement prepared in accordance with a special purpose framework (for purposes of this illustration, a fair presentation framework).
- Illustration 3: An auditor’s report on a specific element, account or item of a financial statement prepared in accordance with a special purpose framework (for purposes of this illustration, a compliance framework).

Illustration 1:

Circumstances include the following:

- **Audit of a balance sheet (i.e., a single financial statement).**
- **The balance sheet has been prepared by management of the entity in accordance with the requirements of the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 (“the Act”) relevant to preparing a balance sheet.**
- **The applicable financial reporting framework is a fair presentation framework designed to meet the common financial information needs of a wide range of users.**
- **The terms of the audit engagement reflect the description of management’s responsibility for the financial statements in SA 210.**
- **The auditor has determined that it is appropriate to use the phrase “presents a true and fair view”, in the auditor’s opinion.**

INDEPENDENT AUDITOR’S REPORT

[Appropriate Addressee]

We have audited the accompanying balance sheet of ABC Company Ltd. as at March 31, 20X1 and a summary of significant accounting policies and other explanatory information (together “the financial statement”).

Management's²⁴ Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of this financial statement in accordance with the requirements of the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"), relevant to preparing such a financial statement. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statement based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India (ICAI). Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control²⁵. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates, if any, made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statement presents a true and fair view of the state of affairs of ABC Company Ltd. as at March 31, 20X1 in accordance with those requirements of the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"), relevant to preparing such a financial statement.

Illustration 2:

Circumstances include the following:

- **Audit of a statement of cash receipts and disbursements (i.e., a single financial statement).**
- **The financial statement has been prepared by management of the entity in accordance with the cash receipts and disbursements basis of accounting to respond to a request for cash flow information received from a creditor. Management has a choice of financial reporting frameworks.**
- **The applicable financial reporting framework is a fair presentation framework designed to meet the financial information needs of specific users²⁷.**
- **The auditor has determined that it is appropriate to use the phrase “true and fair view” in the auditor’s opinion.**
- **Distribution or use of the auditor’s report is not restricted.**

INDEPENDENT AUDITOR’S REPORT

[Appropriate Addressee]

We have audited the accompanying statement of cash receipts and disbursements of ABC Company Ltd. for the year ended March 31, 20X1 and a summary of significant accounting policies and other explanatory information (together “the financial statement”). The financial statement has been prepared by management using the cash receipts and disbursements basis of accounting described in Note X.

Management’s²⁸ Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of this financial statement in accordance with the cash receipts and disbursements basis of accounting described in Note X; this includes determining that the cash receipts and disbursements basis of accounting is an acceptable basis for the preparation of the financial statement in the circumstances, and the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on the financial statement based on our audit. We conducted our audit in accordance with Standards on Auditing issued by the Institute of Chartered Accountants of India (ICAI). Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statement. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the financial statement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control²⁹. An audit also includes evaluating the appropriateness of accounting policies used and the

²⁸ Or other term that is appropriate in the context of the legal framework in the particular jurisdiction.

²⁹ The underlined text has been added pursuant to decision of Council of ICAI taken at its 329th adjourned meeting held in January 2014. The complete text of the Announcement in this regard has been published in Paragraph ‘C’, “Announcements/Clarifications” of Section 1, “Announcements of the Council regarding Status of Various Documents issued by the Institute of Chartered Accountants of India”, included in Volume I.A of the Handbook.

reasonableness of accounting estimates, if any, made by management, as well as evaluating the overall presentation of the financial statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statement presents a true and fair view of the cash receipts and disbursements of ABC Company Ltd. for the year ended March 31, 20X1 in accordance with the cash receipts and disbursements basis of accounting described in Note X.

Basis of Accounting

Without modifying our opinion, we draw attention to Note X to the financial statement, which describes the basis of accounting. The financial statement is prepared to provide information to XYZ Creditor. As a result, the statement may not be suitable for another purpose.

Circumstances include the following:

- **Audit of the liability for “incurred but not reported” claims in an insurance portfolio (i.e., element, account or item of a financial statement).**
- **The financial information has been prepared by management of the entity in accordance with the financial reporting provisions established by a regulator to meet the requirements of that regulator. Management does not have a choice of financial reporting frameworks.**
- **The applicable financial reporting framework is a compliance framework designed to meet the financial information needs of specific users³¹.**
- **The terms of the audit engagement reflect the description of management’s responsibility for the financial statements in SA 210.**
- **Distribution of the auditor’s report is restricted.**

INDEPENDENT AUDITOR'S REPORT

[Appropriate Addressee]

We have audited the accompanying schedule of the liability for “incurred but not reported” claims of ABC Insurance Company as of March 31, 20X1 (“the schedule”). The schedule has been prepared by management based on [describe the financial reporting provisions established by the regulator].

³⁰ Partner or Proprietor, as the case may be.

³¹ SA 800 contains requirements and guidance on the form and content of financial statements prepared in accordance with a special purpose framework.

Management's³² Responsibility for the Schedule

Management is responsible for the preparation of the schedule in accordance with [describe the financial reporting provisions established by the regulator]; this includes the design, implementation and maintenance of internal control relevant to the preparation of the schedule that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the schedule based on our audit. We conducted our audit in accordance with Standards on Auditing issued by the Institute of Chartered Accountants of India (ICAI). Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the schedule is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the schedule in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control³³. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the schedule.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial information in the schedule of the liability for "incurred but not reported" claims of ABC Insurance Company as of March 31, 20X1 is prepared, in all material respects, in accordance with [describe the financial reporting provisions established by the regulator].

Basis of Accounting and Restriction on Distribution

Without modifying our opinion, we draw attention to Note X to the schedule, which describes the basis of accounting. The schedule is prepared to assist ABC Insurance Company to meet the requirements of Regulator DEF. As a result, the schedule may not be suitable for another purpose. Our report is intended solely for ABC Insurance Company and Regulator DEF and should not be distributed to parties other than ABC Insurance Company or Regulator DEF.

SA 810*

**Engagements to Report on Summary Financial
Statements**
*(Effective for all audits relating to
accounting periods beginning on or after April 1, 2011)*

Introduction

Scope of this SA

1. This Standard on Auditing (SA) deals with the auditor's responsibilities when undertaking an engagement to report on summary financial statements derived from financial statements audited in accordance with SAs by that same auditor.

Effective Date

2. This SA is effective for engagements for periods beginning on or after April 1, 2011.

Objectives

3. The objectives of the auditor are to:

- (a) Determine whether it is appropriate to accept the engagement to report on summary financial statements;
- (b) Form an opinion on the summary financial statements based on an evaluation of the conclusions drawn from the evidence obtained; and
- (c) Express clearly that opinion through a written report that also describes the basis for that opinion.

Definitions

4. For purposes of this SA, the following terms have the meanings attributed below:

- (a) Applied criteria – The criteria applied by management in the preparation of the summary financial statements.
- (b) Audited financial statements – Financial statements¹ audited by the auditor in accordance with SAs, and from which the summary financial statements are derived.
- (c) Summary financial statements – Historical financial information that is derived from financial statements but that contains less detail than the financial statements, while still providing a structured representation consistent with that provided by the financial statements of the entity's economic resources or obligations at a point in time or the changes therein for a period of time². Different jurisdictions may use different terminology to describe such historical financial information.

* Published in April, 2010 issue of the Journal. Pursuant to issuance of SA 810, the 'Guidance Note on Audit of Abridged Financial Statements' issued in 1990 has been withdrawn.

¹ SA 200, "Overall Objectives of the Independent Auditor and the Conduct of an Audit in Accordance with Standards on Auditing", paragraph 13(f).

² SA 200, paragraph 13(f).

Requirements

Engagement Acceptance

5. The auditor shall, ordinarily, accept an engagement to report on summary financial statements in accordance with this SA only when the auditor has been engaged to conduct an audit in accordance with SAs of the financial statements from which the summary financial statements are derived³. (Ref: Para. A1)
6. Before accepting an engagement to report on summary financial statements, the auditor shall: (Ref: Para. A2)
- (a) Determine whether the applied criteria are acceptable; (Ref: Para. A3-A7)
 - (b) Obtain the agreement of management that it acknowledges and understands its responsibility:
 - i. For the preparation of the summary financial statements in accordance with the applied criteria;
 - ii. To make the audited financial statements available to the intended users of the summary financial statements without undue difficulty (or, if law or regulation provides that the audited financial statements need not be made available to the intended users of the summary financial statements and establishes the criteria for the preparation of the summary financial statements, to describe that law or regulation in the summary financial statements); and
 - iii. To include the auditor's report on the summary financial statements in any document that contains the summary financial statements and that indicates that the auditor has reported on them.
 - (c) Agree with management the form of opinion to be expressed on the summary financial statements (see paragraphs 9-11).
7. If the auditor concludes that the applied criteria are unacceptable or is unable to obtain the agreement of management set out in paragraph 6(b), the auditor shall not accept the engagement to report on the summary financial statements, unless required by law or regulation to do so. An engagement conducted in accordance with such law or regulation does not comply with this SA. Accordingly, the auditor's report on the summary financial statements shall not indicate that the engagement was conducted in accordance with this SA. The auditor shall include appropriate reference to this fact in the terms of the engagement. The auditor shall also determine the effect that this may have on the engagement to audit the financial statements from which the summary financial statements are derived.

Nature of Procedures

8. The auditor shall perform the following procedures, and any other procedures that the auditor may consider necessary, as the basis for the auditor's opinion on the summary financial statements:
- (a) Evaluate whether the summary financial statements adequately disclose their summarised nature and identify the audited financial statements.
 - (b) When summary financial statements are not accompanied by the audited financial statements, evaluate whether they describe clearly:

³ In some cases however the auditor may be required by a law or a regulation governing the entity to report on summary financial statements even for such accounting periods for which the former was not engaged to conduct the audit in accordance with SAs of the financial statements pertaining to such accounting periods. For example, in case of the report of the auditor of the company to be included in a prospectus under Clauses 1, 2, 3 of Part IIB of Schedule II to the Companies Act, 1956, such auditor might not necessarily have been the auditor of all or some of the financial statements of the company in respect of the accounting periods relating to which financial information has been reported upon by him/ her in the aforementioned report.

- (i) From whom or where the audited financial statements are available; or
 - (ii) The law or regulation that specifies that the audited financial statements need not be made available to the intended users of the summary financial statements and establishes the criteria for the preparation of the summary financial statements.
- (c) Evaluate whether the summary financial statements adequately disclose the applied criteria.
 - (d) Compare the summary financial statements with the related information in the audited financial statements to determine whether the summary financial statements agree with or can be re-calculated from the related information in the audited financial statements.
 - (e) Evaluate whether the summary financial statements are prepared in accordance with the applied criteria.
 - (f) Evaluate, in view of the purpose of the summary financial statements, whether the summary financial statements contain the information necessary, and are at an appropriate level of aggregation, so as not to be misleading in the circumstances.
 - (g) Evaluate whether the audited financial statements are available to the intended users of the summary financial statements without undue difficulty, unless law or regulation provides that they need not be made available and establishes the criteria for the preparation of the summary financial statements. (Ref: Para. A8)

Form of Opinion

9. When the auditor has concluded that an unmodified opinion on the summary financial statements is appropriate, the auditor's opinion shall, unless otherwise required by law or regulation, use one of the following phrases: (Ref: Para. A9)

- (a) The summary financial statements are consistent, in all material respects, with the audited financial statements, in accordance with [the applied criteria]; or
- (b) The summary financial statements are a fair summary of the audited financial statements, in accordance with [the applied criteria].

10. If law or regulation prescribes the wording of the opinion on summary financial statements in terms that are different from those described in paragraph 9, the auditor shall:

- (a) Apply the procedures described in paragraph 8 and any further procedures necessary to enable the auditor to express the prescribed opinion; and
- (b) Evaluate whether users of the summary financial statements might misunderstand the auditor's opinion on the summary financial statements and, if so, whether additional explanation in the auditor's report on the summary financial statements can mitigate possible misunderstanding.

11. If, in the case of paragraph 10(b), the auditor concludes that additional explanation in the auditor's report on the summary financial statements cannot mitigate possible misunderstanding, the auditor shall not accept the engagement, unless required by law or regulation to do so. An engagement conducted in accordance with such law or regulation does not comply with this SA. Accordingly, the auditor's report on the summary financial statements shall not indicate that the engagement was conducted in accordance with this SA.

Timing of Work and Events Subsequent to the Date of the Auditor's Report on the Audited Financial Statements

12. The auditor's report on the summary financial statements may be dated later than the date of the auditor's report on the audited financial statements. In such cases, the auditor's report on the summary

I.590 Auditing Pronouncements

financial statements shall state that the summary financial statements and audited financial statements do not reflect the effects of events that occurred subsequent to the date of the auditor's report on the audited financial statements that may require adjustment of, or disclosure in, the audited financial statements. (Ref: Para. A10)

13. The auditor may become aware of facts that existed at the date of the auditor's report on the audited financial statements, but of which the auditor previously was unaware. In such cases, the auditor shall not issue the auditor's report on the summary financial statements until the auditor's consideration of such facts in relation to the audited financial statements in accordance with SA 560⁴ has been completed.

Auditor's Report on Summary Financial Statements

Elements of the Auditor's Report

14. The auditor's report on summary financial statements shall include the following elements⁵: (Ref: Para. A15)

- (a) A title clearly indicating it as the report of an independent auditor. (Ref: Para. A11)
- (b) An addressee. (Ref: Para. A12)
- (c) An introductory paragraph that:
 - (i) Identifies the summary financial statements on which the auditor is reporting, including the title of each statement included in the summary financial statements; (Ref: Para. A13)
 - (ii) Identifies the audited financial statements;
 - (iii) Refers to the auditor's report on the audited financial statements, the date of that report, and, subject to paragraphs 17-18, the fact that an unmodified opinion is expressed on the audited financial statements;
 - (iv) If the date of the auditor's report on the summary financial statements is later than the date of the auditor's report on the audited financial statements, states that the summary financial statements and the audited financial statements do not reflect the effects of events that occurred subsequent to the date of the auditor's report on the audited financial statements; and
 - (v) A statement indicating that the summary financial statements do not contain all the disclosures required by the financial reporting framework applied in the preparation of the audited financial statements, and that reading the summary financial statements is not a substitute for reading the audited financial statements.
- (d) A description of management's responsibility for the summary financial statements, explaining that management is responsible for the preparation of the summary financial statements in accordance with the applied criteria.
- (e) A statement that the auditor is responsible for expressing an opinion on the summary financial statements based on the procedures required by this SA.
- (f) A paragraph clearly expressing an opinion. (see paragraphs 9-11)
- (g) The auditor's signature along with the firm registration number, wherever applicable, and the membership number assigned by the Institute of Chartered Accountants of India (ICAI).
- (h) The date of the auditor's report. (Ref: Para. A14)

⁴ SA 560, "Subsequent Events".

⁵ Paragraphs 17-18, which deal with circumstances where the auditor's report on the audited financial statements has been modified, require additional elements to those listed in this paragraph.

(i) The place of signature.

15. If the addressee of the summary financial statements is not the same as the addressee of the auditor's report on the audited financial statements, the auditor shall evaluate the appropriateness of using a different addressee. (Ref: Para. A12)

16. The auditor shall date the auditor's report on the summary financial statements no earlier than: (Ref: Para. A14)

(a) The date on which the auditor has obtained sufficient appropriate evidence on which to base the opinion, including evidence that the summary financial statements have been prepared and those with the recognised authority have asserted that they have taken responsibility for them; and

(b) The date of the auditor's report on the audited financial statements.

Modifications to the Opinion, Emphasis of Matter Paragraph or Other Matter Paragraph in the Auditor's Report on the Audited Financial Statements (Ref: Para. A15)

17. When the auditor's report on the audited financial statements contains a qualified opinion, an Emphasis of Matter paragraph, or an Other Matter paragraph, but the auditor is satisfied that the summary financial statements are consistent, in all material respects, with or are a fair summary of the audited financial statements, in accordance with the applied criteria, the auditor's report on the summary financial statements shall, in addition to the elements in paragraph 14:

(a) State that the auditor's report on the audited financial statements contains a qualified opinion, an Emphasis of Matter paragraph, or an Other Matter paragraph; and

(b) Describe:

(i) The basis for the qualified opinion on the audited financial statements, and that qualified opinion; or the Emphasis of Matter or the Other Matter paragraph in the auditor's report on the audited financial statements; and

(ii) The effect thereof on the summary financial statements, if any.

18. When the auditor's report on the audited financial statements contains an adverse opinion or a disclaimer of opinion, the auditor's report on the summary financial statements shall, in addition to the elements in paragraph 14:

(a) State that the auditor's report on the audited financial statements contains an adverse opinion or disclaimer of opinion;

(b) Describe the basis for that adverse opinion or disclaimer of opinion; and

(c) State that, as a result of the adverse opinion or disclaimer of opinion, it is inappropriate to express an opinion on the summary financial statements.

Modified Opinion on the Summary Financial Statements

19. If the summary financial statements are not consistent, in all material respects, with or are not a fair summary of the audited financial statements, in accordance with the applied criteria, and management does not agree to make the necessary changes, the auditor shall express an adverse opinion on the summary financial statements. (Ref: Para. A15)

Restriction on Distribution or Use or Alerting Readers to the Basis of Accounting

20. When distribution or use of the auditor's report on the audited financial statements is restricted, or the auditor's report on the audited financial statements alerts readers that the audited financial statements are prepared in accordance with a special purpose framework, the auditor shall include a similar restriction or alert in the auditor's report on the summary financial statements.

Comparatives

21. If the audited financial statements contain comparatives, but the summary financial statements do not, the auditor shall determine whether such omission is reasonable in the circumstances of the engagement. The auditor shall determine the effect of an unreasonable omission on the auditor's report on the summary financial statements. (Ref: Para. A16)

22. If the summary financial statements contain comparatives that were reported on by another auditor, the auditor's report on the summary financial statements shall also contain the matters that SA 710 requires the auditor to include in the auditor's report on the audited financial statements⁶. (Ref: Para. A17)

Unaudited Supplementary Information Presented with Summary Financial Statements

23. The auditor shall evaluate whether any unaudited supplementary information presented with the summary financial statements is clearly differentiated from the summary financial statements. If the auditor concludes that the entity's presentation of the unaudited supplementary information is not clearly differentiated from the summary financial statements, the auditor shall ask management to change the presentation of the unaudited supplementary information. If management refuses to do so, the auditor shall explain in the auditor's report on the summary financial statements that such information is not covered by that report. (Ref: Para. A18)

Other Information in Documents Containing Summary Financial Statements

24. The auditor shall read other information included in a document containing the summary financial statements and related auditor's report to identify material inconsistencies, if any, with the summary financial statements. If, on reading the other information, the auditor identifies a material inconsistency, the auditor shall determine whether the summary financial statements or the other information needs to be revised. If, on reading the other information, the auditor becomes aware of an apparent material misstatement of fact, the auditor shall discuss the matter with management. (Ref: Para. A19)

Auditor Association

25. If the auditor becomes aware that the entity plans to state that the auditor has reported on summary financial statements in a document containing the summary financial statements, but does not plan to include the related auditor's report, the auditor shall request management to include the auditor's report in the document. If management does not do so, the auditor shall determine and carry out other appropriate actions designed to prevent management from inappropriately associating the auditor with the summary financial statements in that document. (Ref: Para. A20)

26. The auditor may be engaged to report on the financial statements of an entity, while not engaged to report on the summary financial statements. If, in this case, the auditor becomes aware that the entity plans to make a statement in a document that refers to the auditor and the fact that summary financial statements are derived from the financial statements audited by the auditor, the auditor shall be satisfied that:

- (a) The reference to the auditor is made in the context of the auditor's report on the audited financial statements; and
- (b) The statement does not give the impression that the auditor has reported on the summary financial statements.

If (a) or (b) are not met, the auditor shall request management to change the statement to meet them, or not to refer to the auditor in the document. Alternatively, the entity may engage the auditor to report on the summary financial statements and include the related auditor's report in the document. If management does

⁶ SA 710, "Comparative Information—Corresponding Figures and Comparative Financial Statements".

not change the statement, delete the reference to the auditor, or include an auditor's report on the summary financial statements in the document containing the summary financial statements, the auditor shall advise management that the auditor disagrees with the reference to the auditor, and the auditor shall determine and carry out other appropriate actions designed to prevent management from inappropriately referring to the auditor. (Ref: Para. A20)

Application and Other Explanatory Material

Engagement Acceptance (Ref: Para. 5-6)

A1. The audit of the financial statements from which the summary financial statements are derived provides the auditor with the necessary knowledge to discharge the auditor's responsibilities in relation to the summary financial statements in accordance with this SA. Application of this SA will not provide sufficient appropriate evidence on which to base the opinion on the summary financial statements if the auditor has not also audited the financial statements from which the summary financial statements are derived.

A2. Management's agreement with the matters described in paragraph 6 may be evidenced by its written acceptance of the terms of the engagement.

Criteria (Ref: Para. 6(a))

A3. Management is responsible for the determination of the information that needs to be reflected in the summary financial statements so that they are consistent, in all material respects, with or represent a fair summary of the audited financial statements. Because summary financial statements by their nature contain aggregated information and limited disclosure, there is an increased risk that they may not contain the information necessary so as not to be misleading in the circumstances. This risk increases when established criteria for the preparation of summary financial statements do not exist.

A4. Factors that may affect the auditor's determination of the acceptability of the applied criteria include:

- The nature of the entity;
- The purpose of the summary financial statements;
- The information needs of the intended users of the summary financial statements; and
- Whether the applied criteria will result in summary financial statements that are not misleading in the circumstances.

A5. The criteria for the preparation of summary financial statements may be established by an authorised or recognised standards setting organisation or by law or regulation. Similar to the case of financial statements, as explained in SA 210⁷, in many such cases, the auditor may presume that such criteria are acceptable.

A6. Where established criteria for the preparation of summary financial statements do not exist, criteria may be developed by management, for example, based on practice in a particular industry. Criteria that are acceptable in the circumstances will result in summary financial statements that:

- (a) Adequately disclose their summarised nature and identify the audited financial statements;
- (b) Clearly describe from whom or where the audited financial statements are available or, if law or regulation provides that the audited financial statements need not be made available to the intended users of the summary financial statements and establishes the criteria for the preparation of the summary financial statements, that law or regulation;
- (c) Adequately disclose the applied criteria;
- (d) Agree with or can be re-calculated from the related information in the audited financial statements; and

⁷ SA 210, "Agreeing the Terms of Audit Engagements", paragraphs A3 and A8-A9.

I.594 Auditing Pronouncements

(e) In view of the purpose of the summary financial statements, contain the information necessary, and are at an appropriate level of aggregation, so as not to be misleading in the circumstances.

A7. Adequate disclosure of the summarised nature of the summary financial statements and the identity of the audited financial statements, as referred to in paragraph A6(a), may, for example, be provided by a title such as “Summary Financial Statements Prepared from the Audited Financial Statements for the Year Ended March 31, 20X1”.

Evaluating the Availability of the Audited Financial Statements (Ref: Para. 8(g))

A8. The auditor’s evaluation whether the audited financial statements are available to the intended users of the summary financial statements without undue difficulty is affected by factors such as whether:

- The summary financial statements describe clearly from whom or where the audited financial statements are available;
- The audited financial statements are on public record; or
- Management has established a process by which the intended users of the summary financial statements can obtain ready access to the audited financial statements.

Form of Opinion (Ref: Para. 9)

A9. A conclusion, based on an evaluation of the evidence obtained by performing the procedures in paragraph 8, that an unmodified opinion on the summary financial statements is appropriate enables the auditor to express an opinion containing one of the phrases in paragraph 9. The auditor’s decision as to which of the phrases to use may be affected by generally accepted practice in the particular jurisdiction.

Timing of Work and Events Subsequent to the Date of the Auditor’s Report on the Audited Financial Statements (Ref: Para. 12)

A10. The procedures described in paragraph 8 are often performed during or immediately after the audit of the financial statements. When the auditor reports on the summary financial statements after the completion of the audit of the financial statements, the auditor is not required to obtain additional audit evidence on the audited financial statements, or report on the effects of events that occurred subsequent to the date of the auditor’s report on the audited financial statements since the summary financial statements are derived from the audited financial statements and do not update them.

Auditor’s Report on Summary Financial Statements

Elements of the Auditor’s Report

Title (Ref: Para. 14(a))

A11. A title indicating the report is the report of an independent auditor, for example, “Report of the Independent Auditor”, affirms that the auditor has met all of the relevant ethical requirements regarding independence. This distinguishes the report of the independent auditor from reports issued by others.

Addressee (Ref: Para. 14(b), 15)

A12. Factors that may affect the auditor’s evaluation of the appropriateness of the addressee of the summary financial statements include the terms of the engagement, the nature of the entity, and the purpose of the summary financial statements.

Introductory Paragraph (Ref: Para. 14(c)(i))

A13. When the auditor is aware that the summary financial statements will be included in a document that contains other information, the auditor may consider, if the form of presentation allows, identifying the page numbers on which the summary financial statements are presented. This helps readers to identify the

summary financial statements to which the auditor's report relates.

Date of the Auditor's Report (Ref: Para. 14(h), 16)

A14. The person or persons with recognised authority to conclude that the summary financial statements have been prepared and take responsibility for them depend on the terms of the engagement, the nature of the entity, and the purpose of the summary financial statements.

Illustrations (Ref: Para. 14, 17-18, 19)

A15. The Appendix to this SA contains illustrations of auditors' reports on summary financial statements that:

- (a) Contain unmodified opinions;
- (b) Are derived from audited financial statements on which the auditor issued modified opinions; and
- (c) Contain a modified opinion.

Comparatives (Ref: Para. 21-22)

A16. If the audited financial statements contain comparatives, there is a presumption that the summary financial statements also would contain comparatives. Comparatives in the audited financial statements may be regarded as corresponding figures or as comparative financial information. SA 710 describes how this difference affects the auditor's report on the financial statements, including, in particular, reference to other auditors who audited the financial statements for the prior period.

A17. Circumstances that may affect the auditor's determination whether an omission of comparatives is reasonable include the nature and objective of the summary financial statements, the applied criteria, and the information needs of the intended users of the summary financial statements.

Unaudited Supplementary Information Presented with Summary Financial Statements (Ref: Para. 23)

A18. SA 700 (Revised)⁸ contains requirements and guidance to be applied when unaudited supplementary information is presented with audited financial statements that, adapted as necessary in the circumstances, may be helpful in applying the requirement in paragraph 23.

Other Information in Documents Containing Summary Financial Statements (Ref: Para. 24)

A19. SA 720⁹ contains requirements and guidance relating to reading other information included in a document containing the audited financial statements and related auditor's report, and responding to material inconsistencies and material misstatements of fact. Adapted as necessary in the circumstances, they may be helpful in applying the requirement in paragraph 24.

Auditor Association (Ref: Para. 25-26)

A20. Other appropriate actions the auditor may take when management does not take the requested action may include informing the intended users and other known third-party users of the inappropriate reference to the auditor. The auditor's course of action depends on the auditor's legal rights and obligations. Consequently, the auditor may consider it appropriate to seek legal advice.

Material Modifications vis-a-vis ISA 810, "Engagements to Report on Summary Financial Statements"

Additions

1. Paragraph 5 of ISA 810 requires the auditor to accept an engagement to report on summary financial statements in accordance with this SA only when the auditor has been engaged to conduct an audit in

⁸ SA 700 (Revised), "Forming an Opinion and Reporting on Financial Statements", paragraphs 46-47.

⁹ SA 720, "The Auditor's Responsibility in Relation to Other Information in Documents Containing Audited Financial Statements".

accordance with SAs of the financial statements from which the summary financial statements are derived. In India, in some cases, the auditor may be required by a law or a regulation governing the entity to report on summary financial statements even for such accounting periods for which the former was not engaged to conduct the audit in accordance with SAs of the financial statements pertaining to such accounting periods. For example, in case of the report of the auditor of the company to be included in a prospectus under Clauses 1, 2, 3 of Part IIB of Schedule II to the Companies Act, 1956, such auditor might not necessarily have been the auditor of all or some of the financial statements of the company in respect of the accounting periods relating to which financial information has been reported upon by him/ her in the aforementioned report, accordingly, the word “ordinarily” has been added in the Paragraph 5 to cover these situations and also added the correspondingly footnote no. 5.

2. Paragraph 14 of ISA 810 deals with the elements of the summary financial statements that also include the auditor’s address. Since the Revised SA 700, “Forming an Opinion and Reporting on Financial Statements” requires the auditor to mention the “Place of Signature” instead of the “Auditor’s Address” in the auditor’s report, the requirement of mentioning the auditor’s address has been replaced with the place of signature.

3. Paragraph 14 of ISA 810 deals with the elements of the summary financial statements that also include auditor’s signature. Since as per the Revised SA 700, “Forming an Opinion and Reporting on Financial Statements”, the partner/proprietor signing the audit report also needs to mention the firm registration number, wherever applicable, and the membership number assigned by the Institute of Chartered Accountants of India, the said requirement has also been incorporated in the paragraph 14(g) of SA 810.

Appendix

(Ref: Para. A15)

Illustrations of Reports on Summary Financial Statements

- Illustration 1: An auditor’s report on summary financial statements prepared in accordance with established criteria. An unmodified opinion is expressed on the audited financial statements. The auditor’s report on the summary financial statements is dated later than the date of the auditor’s report on the financial statements from which summary financial statements are derived.
- Illustration 2: An auditor’s report on summary financial statements prepared in accordance with criteria developed by management and adequately disclosed in the summary financial statements. The auditor has determined that the applied criteria are acceptable in the circumstances. An unmodified opinion is expressed on the audited financial statements.
- Illustration 3: An auditor’s report on summary financial statements prepared in accordance with criteria developed by management and adequately disclosed in the summary financial statements. The auditor has determined that the applied criteria are acceptable in the circumstances. A qualified opinion is expressed on the audited financial statements.
- Illustration 4: An auditor’s report on summary financial statements prepared in accordance with criteria developed by management and adequately disclosed in the summary financial statements. The auditor has determined that the applied criteria are acceptable in the circumstances. An adverse opinion is expressed on the audited financial statements.
- Illustration 5: An auditor’s report on summary financial statements prepared in accordance with established criteria. An unmodified opinion is expressed on the audited financial statements. The auditor concludes that it is not possible to express an unmodified opinion on the summary financial statements.

Illustration 1:

Circumstances include the following:

- An unmodified opinion is expressed on the audited financial statements.
- Established criteria for the preparation of summary financial statements exist.
- The auditor's report on the summary financial statements is dated later than the date of the auditor's report on the financial statements from which the summary financial statements are derived.

REPORT OF THE INDEPENDENT AUDITOR ON THE SUMMARY FINANCIAL STATEMENTS

[Appropriate Addressee]

The accompanying summary financial statements, which comprise the summary balance sheet as at March 31, 20X1, the summary statement of profit & loss, and summary cash flow statement for the year then ended, and related notes, are derived from the audited financial statements of ABC Company Ltd. for the year ended March 31, 20X1. We expressed an unmodified audit opinion on those financial statements in our report dated May 15, 20X1. Those financial statements, and the summary financial statements, do not reflect the effects of events that occurred subsequent to the date of our report on those financial statements.

The summary financial statements do not contain all the disclosures required by the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act") [applied in the preparation of the audited financial statements of ABC Company Ltd.]. Reading the summary financial statements, therefore, is not a substitute for reading the audited financial statements of ABC Company Ltd.

Management's Responsibility for the Summary Financial Statements

Management is responsible for the preparation of a summary of the audited financial statements in accordance with [Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act") and accounting principles generally accepted in India].

Auditor's Responsibility

Our responsibility is to express an opinion on the summary financial statements based on our procedures, which were conducted in accordance with Standard on Auditing (SA) 810, "Engagements to Report on Summary Financial Statements" issued by the Institute of Chartered Accountants of India.

Opinion

In our opinion, the summary financial statements derived from the audited financial statements of ABC Company Ltd. for the year ended March 31, 20X1 are a fair summary of those financial statements, in accordance with [Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act") and accounting principles generally accepted in India].

REPORT OF THE INDEPENDENT AUDITOR ON THE SUMMARY FINANCIAL STATEMENTS

[Appropriate Addressee]

The accompanying summary financial statements, which comprise the summary balance sheet as at March 31, 20X1, the summary statement of profit & loss, and summary cash flow statement for the year then ended, and related notes, are derived from the audited financial statements of ABC Company Ltd. for the year ended March 31, 20X1¹³. We expressed a qualified audit opinion on those financial statements in our report dated May 15, 20X1 (see below).

The summary financial statements do not contain all the disclosures required by the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act") [applied in the preparation of the audited financial statements of ABC Company Ltd.]. Reading the summary financial statements, therefore, is not a substitute for reading the audited financial statements of ABC Company Ltd.

Management's Responsibility for the Summary Financial Statements

Management is responsible for the preparation of a summary of the audited financial statements on the basis described in Note X.

Auditor's Responsibility

Our responsibility is to express an opinion on the summary financial statements based on our procedures, which were conducted in accordance with Standard on Auditing (SA) 810, "Engagements to Report on Summary Financial Statements" issued by the Institute of Chartered Accountants of India.

Opinion

In our opinion, the summary financial statements derived from the audited financial statements of ABC Company Ltd. for the year ended March 31, 20X1 are a fair summary of those financial statements, on the basis described in Note X. However, the summary financial statements are misstated to the equivalent extent as the audited financial statements of ABC Company Ltd. for the year ended March 31, 20X1.

The misstatement of the audited financial statements is described in our qualified audit opinion in our report dated May 15, 20X1. Our qualified audit opinion is based on the fact that the company's inventories are carried in the balance sheet in those financial statements at Rs. XXX. Management has not stated the inventories at the lower of cost and net realisable value but has stated them solely at cost, which constitutes a departure from the Accounting Standard (AS) 2, "Valuation of Inventories". The company's records indicate that had management stated the inventories at the lower of cost and net realisable value, an amount of Rs. XXX would have been required to write the inventories down to their net realizable value. Accordingly, cost of sales would have been increased by Rs. XXX, and income tax, net income and shareholders' equity would have been reduced by Rs. XXX, Rs. XXX and Rs. XXX, respectively. Our qualified audit opinion states that, except for the effects of the described matter, those financial statements give a true and fair view of the state

¹³ When the auditor's report on the summary financial statements is dated later than the date of the auditor's report on the audited financial statements from which it is derived, the following sentence is added to this paragraph: "Those financial statements, and the summary financial statements, do not reflect the effects of events that occurred subsequent to the date of our report on those financial statements".

I.600 Auditing Pronouncements

of affairs of ABC Company Ltd. as of March 31, 20X1, and (of) its results of operations and its cash flows for the year then ended in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act").

REPORT OF THE INDEPENDENT AUDITOR ON THE SUMMARY FINANCIAL STATEMENTS

[Appropriate Addressee]

The accompanying summary financial statements, which comprise the summary balance sheet as at March 31, 20X1, the summary statement of profit & loss, and summary cash flow statement for the year then ended, and related notes, are derived from the audited financial statements of ABC Company Ltd. for the year ended March 31, 20X1. We expressed an unmodified audit opinion on those financial statements in our report dated May 15, 20X1¹⁷.

The summary financial statements do not contain all the disclosures required by the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act") [applied in the preparation of the audited financial statements of ABC Company Ltd.]. Reading the summary financial statements, therefore, is not a substitute for reading the audited financial statements of ABC Company Ltd.

¹⁶ Partner or Proprietor, as the case may be.

¹⁷ When the auditor's report on the summary financial statements is dated later than the date of the auditor's report on the audited financial statements from which it is derived, the following sentence is added to this paragraph: "Those financial statements, and the summary financial statements, do not reflect the effects of events that occurred subsequent to the date of our report on those financial statements".

I.602 Auditing Pronouncements

Management's Responsibility for the Summary Audited Financial Statements

Management is responsible for the preparation of a summary of the audited financial statements in accordance with [Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act") and accounting principles generally accepted in India].

Auditor's Responsibility

Our responsibility is to express an opinion on the summary financial statements based on our procedures, which were conducted in accordance with Standard on Auditing (SA) 810, "Engagements to Report on Summary Financial Statements" issued by the Institute of Chartered Accountants of India.

Basis for Adverse Opinion

[Describe matter that caused the summary financial statements not to be a fair summary of the audited financial statements, in accordance with the applied criteria.]

Adverse Opinion

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion paragraph, the summary financial statements referred to above are not a fair summary of the audited financial statements of ABC Company Ltd. for the year ended March 31, 20X1, in accordance with [Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act") and accounting principles generally accepted in India].

SRE 2400

Engagements to Review Historical Financial Statements

*(Effective for reviews of interim financial information for
periods beginning on or after April 1, 2016)*

Introduction

Scope of this SRE

1. This Standard on Review Engagements (SRE) deals with: (Ref: Para. A1)
 - (a) The practitioner's responsibilities when engaged to perform a review of historical financial statements, when the practitioner is not the auditor of the entity's financial statements; and
 - (b) The form and content of the practitioner's report on the financial statements.
2. This SRE does not address a review of an entity's financial statements or interim financial information performed by a practitioner who is the independent auditor of the entity's financial statements. (Ref: Para. A2)
3. This SRE is to be applied, adapted as necessary, to reviews of other historical financial information.

Relationship with SQC 1¹

4. Quality control systems, policies and procedures are the responsibility of the firm. SQC 1 applies to firms of professional accountants in respect of a firm's engagements to review financial statements.² The provisions of this SRE regarding quality control at the level of individual review engagements are premised on the basis that the firm is subject to SQC 1. (Ref: Para. A3-A4)

The Engagement to Review Historical Financial Statements

5. The review of historical financial statements is a limited assurance engagement, as described in the Framework for Assurance Engagements.³ (Ref: Para. A5-A6)
6. In a review of financial statements, the practitioner expresses a conclusion that is designed to enhance the degree of confidence of intended users regarding the preparation of an entity's financial statements in accordance with an applicable financial reporting framework. The practitioner's conclusion is based on the practitioner obtaining limited assurance. The practitioner's report includes a description of the nature of a review engagement as context for the readers of the report to be able to understand the conclusion.
7. The practitioner performs primarily inquiry and analytical procedures to obtain sufficient appropriate evidence as the basis for a conclusion on the financial statements as a whole, expressed in accordance with the requirements of this SRE.
8. If the practitioner becomes aware of a matter that causes the practitioner to believe the financial statements may be materially misstated, the practitioner designs and performs additional procedures, as the

¹ Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

² SQC 1, paragraph 5.

³ Framework for Assurance Engagements, Paragraphs 6 and 10.

I.604 Auditing Pronouncements

practitioner considers necessary in the circumstances, to be able to conclude on the financial statements in accordance with this SRE.

Authority of this SRE

9. This SRE contains the objectives of the practitioner in following the SRE which provide the context in which the requirements of this SRE are set, and are intended to assist the practitioner in understanding what needs to be accomplished in a review engagement.

10. The SRE contains requirements, expressed using “shall,” that are designed to enable the practitioner to meet the stated objectives.

11. In addition, this SRE contains introductory material, definitions, and application and other explanatory material, that provide context relevant to a proper understanding of the SRE.

12. The application and other explanatory material provides further explanation of the requirements and guidance for carrying them out. While such guidance does not itself impose a requirement, it is relevant to the proper application of the requirements. The application and other explanatory material may also provide background information on matters addressed in this SRE that assists in the application of the requirements.

Effective Date

13. This SRE is effective for reviews of financial statements for periods beginning on or after April 1, 2016.

Objectives

14. The practitioner’s objectives in a review of financial statements under this SRE are to:

(a) Obtain limited assurance, primarily by performing inquiry and analytical procedures, about whether the financial statements as a whole are free from material misstatement, thereby enabling the practitioner to express a conclusion on whether anything has come to the practitioner’s attention that causes the practitioner to believe the financial statements are not prepared, in all material respects, in accordance with an applicable financial reporting framework; and

(b) Report on the financial statements as a whole and communicate, as required by this SRE.

15. In all cases when limited assurance cannot be obtained and a qualified conclusion in the practitioner’s report is insufficient in the circumstances, this SRE requires that the practitioner either disclaim a conclusion in the report issued for the engagement or, where appropriate, withdraw from the engagement if withdrawal is possible under applicable law or regulation. (Ref. Para. A7-A9, A114-A115)

Definitions

16. The Glossary of Terms issued by the ICAI⁴ (“the Glossary”) includes the terms defined in this SRE as well as descriptions of other terms used in this SRE, to assist in consistent application and interpretation. For example, the terms “management” and “those charged with governance” used throughout this SRE are as defined in the Glossary. (Ref: Para. A10-A11)

17. For purposes of this SRE, the following terms have the meanings attributed below:

(a) Analytical procedures — Evaluations of financial information through analysis of plausible relationships among both financial and non-financial data. Analytical procedures also encompass such investigation as is necessary of identified fluctuations or relationships that are inconsistent with other relevant information or that differ from expected values by a significant amount.

(b) Engagement risk — The risk that the practitioner expresses an inappropriate conclusion when the

⁴ The Glossary of Terms relating to Standards issued by the ICAI is contained in the Handbook of Auditing Pronouncements published by the ICAI.

financial statements are materially misstated.

- (c) General purpose financial statements — Financial statements prepared in accordance with a general purpose framework.
- (d) General purpose framework — A financial reporting framework designed to meet the common financial information needs of a wide range of users. The financial reporting framework may be a fair presentation framework or a compliance framework.
- (e) Inquiry — Inquiry consists of seeking information of knowledgeable persons, both financial and non-financial, within the entity or outside the entity.
- (f) Limited assurance — The level of assurance obtained where engagement risk is reduced to a level that is acceptable in the circumstances of the engagement, but where that risk is greater than for a reasonable assurance engagement, as the basis for expressing a conclusion in accordance with this SRE. The combination of the nature, timing and extent of evidence gathering procedures is at least sufficient for the practitioner to obtain a meaningful level of assurance. To be meaningful, the level of assurance obtained by the practitioner is likely to enhance the intended users' confidence about the financial statements.⁵ (Ref: Para. A12)
- (g) Practitioner — A professional accountant in public practice. The term includes the engagement partner or other members of the engagement team, or, as applicable, the firm. Where this SRE expressly intends that a requirement or responsibility be fulfilled by the engagement partner, the term “engagement partner” rather than “practitioner” is used.
- (h) Professional judgment — The application of relevant training, knowledge and experience, within the context provided by assurance, accounting and ethical standards, in making informed decisions about the courses of action that are appropriate in the circumstances of the review engagement.
- (i) Relevant ethical requirements — Ethical requirements to which the engagement team is subject, which ordinarily comprise the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with other relevant pronouncements issued by the ICAI.
- (j) Special purpose financial statements — Financial statements prepared in accordance with a special purpose framework.
- (k) Special purpose framework — A financial reporting framework designed to meet the financial information needs of specific users. The financial reporting framework may be a fair presentation framework or a compliance framework.

Requirements

Conduct of a Review Engagement in Accordance with this SRE

18. The practitioner shall have an understanding of the entire text of this SRE, including its application and other explanatory material, to understand its objectives and to apply its requirements properly. (Ref: Para. A13)

Complying with Relevant Requirements

19. The practitioner shall comply with each requirement of this SRE, unless a requirement is not relevant to the review engagement. A requirement is relevant to the review engagement when the circumstances addressed by the requirement exist.

20. The practitioner shall not represent compliance with this SRE in the practitioner's report unless the practitioner has complied with all the requirements of this SRE relevant to the review engagement.

⁵ Attention is also drawn to paragraph 10 of the Framework for Assurance Engagements, issued by ICAI.

I.606 Auditing Pronouncements

Ethical Requirements

21. The practitioner shall comply with relevant ethical requirements, including those pertaining to independence. (Ref: Para. A14-A15)

Professional Skepticism and Professional Judgment

22. The practitioner shall plan and perform the engagement with professional skepticism recognizing that circumstances may exist that cause the financial statements to be materially misstated. (Ref: Para. A16-A19)

23. The practitioner shall exercise professional judgment in conducting a review engagement. (Ref: Para. A20-A24)

Engagement Level Quality Control

24. The engagement partner shall possess competence in assurance skills and techniques, and competence in financial reporting, appropriate to the engagement circumstances. (Ref: Para. A25)

25. The engagement partner shall take responsibility for: (Ref: Para. A26-A29)

- (a) The overall quality of each review engagement to which that partner is assigned;
- (b) The direction, supervision, planning and performance of the review engagement in compliance with professional standards and applicable legal and regulatory requirements; (Ref: Para. A30)
- (c) The practitioner's report being appropriate in the circumstances; and
- (d) The engagement being performed in accordance with the firm's quality control policies, including the following:
 - (i) Being satisfied that appropriate procedures regarding the acceptance and continuance of client relationships and engagements have been followed, and that conclusions reached are appropriate, including considering whether there is information that would lead the engagement partner to conclude that management lacks integrity; (Ref: Para. A31-A32)
 - (ii) Being satisfied that the engagement team collectively has the appropriate competence and capabilities, including assurance skills and techniques and expertise in financial reporting, to:
 - a. Perform the review engagement in accordance with professional standards and applicable legal and regulatory requirements; and
 - b. Enable a report that is appropriate in the circumstances to be issued; and
 - (iii) Taking responsibility for appropriate engagement documentation being maintained.

Relevant Considerations after Engagement Acceptance

26. If the engagement partner obtains information that would have caused the firm to decline the engagement had that information been available earlier, the engagement partner shall communicate that information promptly to the firm, so that the firm and the engagement partner can take the necessary action.

Compliance with Relevant Ethical Requirements

27. Throughout the engagement, the engagement partner shall remain alert, through observation and making inquiries as necessary, for evidence of non-compliance with relevant ethical requirements by members of the engagement team. If matters come to the engagement partner's attention through the firm's system of quality control or otherwise that indicate that members of the engagement team have not complied with relevant ethical requirements, the engagement partner, in consultation with others in the firm, shall determine the appropriate action.

Monitoring

28. An effective system of quality control for a firm includes a monitoring process designed to provide the firm with reasonable assurance that the firm's policies and procedures relating to the system of quality control are relevant, adequate and operate effectively. The engagement partner shall consider the results of the firm's monitoring process as evidenced in the latest information circulated by the firm and, if applicable, other network firms and whether deficiencies noted in that information may affect the review engagement.

Acceptance and Continuance of Client Relationships and Review Engagements

Factors Affecting Acceptance and Continuance of Client Relationships and Review Engagements

29. Unless required by law or regulation, the practitioner shall not accept a review engagement if: (Ref: Para. A33-A34)

- (a) The practitioner is not satisfied:
 - (i) That there is a rational purpose for the engagement; or (Ref: Para. A35)
 - (ii) That a review engagement would be appropriate in the circumstances; (Ref: Para. A36)
- (b) The practitioner has reason to believe that relevant ethical requirements, including independence, will not be satisfied;
- (c) The practitioner's preliminary understanding of the engagement circumstances indicates that information needed to perform the review engagement is likely to be unavailable or unreliable; (Ref: Para. A37)
- (d) The practitioner has cause to doubt management's integrity such that it is likely to affect proper performance of the review; or (Ref: Para. A36)
- (e) Management or those charged with governance impose a limitation on the scope of the practitioner's work in the terms of a proposed review engagement such that the practitioner believes the limitation will result in the practitioner disclaiming a conclusion on the financial statements.

Preconditions for Accepting a Review Engagement

30. Prior to accepting a review engagement, the practitioner shall: (Ref: Para. A38)

- (a) Determine whether the financial reporting framework applied in the preparation of the financial statements is acceptable including, in the case of special purpose financial statements, obtaining an understanding of the purpose for which the financial statements are prepared and of the intended users; and (Ref: Para. A39-A45)
- (b) Obtain the agreement of management that it acknowledges and understands its responsibilities: (Ref: Para. A46-A49)
 - (i) For preparation of the financial statements in accordance with the applicable financial reporting framework, including, where relevant, their fair presentation;
 - (ii) For such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; and
 - (iii) To provide the practitioner with:
 - a. Access to all information of which management is aware that is relevant to the preparation of the financial statements, such as records, documentation and other matters;
 - b. Additional information that the practitioner may request from management for the purpose of the review; and
 - c. Unrestricted access to persons within the entity from whom the practitioner determines it necessary to obtain evidence.

I.608 Auditing Pronouncements

31. If the practitioner is not satisfied as to any of the matters set out above as preconditions for accepting a review engagement, the practitioner shall discuss the matter with management or those charged with governance. If changes cannot be made to satisfy the practitioner as to those matters, the practitioner shall not accept the proposed engagement unless required by law or regulation to do so. However, an engagement conducted under such circumstances does not comply with this SRE. Accordingly, the practitioner shall not include any reference within the practitioner's report to the review having been conducted in accordance with this SRE.

32. If it is discovered after the engagement has been accepted that the practitioner is not satisfied as to any of the above preconditions, the practitioner shall discuss the matter with management or those charged with governance, and shall determine:

- (a) Whether the matter can be resolved;
- (b) Whether it is appropriate to continue with the engagement; and
- (c) Whether and, if so, how to communicate the matter in the practitioner's report.

Additional Considerations When the Wording of the Practitioner's Report Is Prescribed by Law or Regulation

33. The practitioner's report issued for the review engagement shall refer to this SRE only if the report complies with the requirements of paragraph 86.

34. In some cases, when the review is performed pursuant to the specific law or regulation applicable to the entity, such law or regulation may prescribe the layout or wording of the practitioner's report in a form or in terms that are significantly different from the requirements of this SRE. In those circumstances, the practitioner shall evaluate whether users might misunderstand the assurance obtained from the review of the financial statements and, if so, whether additional explanation in the practitioner's report can mitigate possible misunderstanding. (Ref: Para. A50, A141)

35. If the practitioner concludes that additional explanation in the practitioner's report cannot mitigate possible misunderstanding, the practitioner shall not accept the review engagement unless required by law or regulation to do so. A review conducted in accordance with such law or regulation does not comply with this SRE. Accordingly, the practitioner shall not include any reference within the practitioner's report to the review having been conducted in accordance with this SRE. (Ref: Para. A50, A141)

Agreeing the Terms of Engagement

36. The practitioner shall agree the terms of the engagement with management or those charged with governance, as appropriate, prior to performing the engagement.

37. The agreed terms of engagement shall be recorded in an engagement letter or other suitable form of written agreement, and shall include: (Ref: Para. A51-A53, A55)

- (a) The intended use and distribution of the financial statements, and any restrictions on use or distribution where applicable;
- (b) Identification of the applicable financial reporting framework;
- (c) The objective and scope of the review engagement;
- (d) The responsibilities of the practitioner;
- (e) The responsibilities of management, including those in paragraph 30(b); (Ref: Para. A46-A49, A54)
- (f) A statement that the engagement is not an audit, and that the practitioner will not express an audit opinion on the financial statements; and
- (g) Reference to the expected form and content of the report to be issued by the practitioner, and a

statement that there may be circumstances in which the report may differ from its expected form and content.

Recurring Engagements

38. On recurring review engagements, the practitioner shall evaluate whether circumstances, including changes in the engagement acceptance considerations, require the terms of engagement to be revised and whether there is a need to remind management or those charged with governance, as appropriate, of the existing terms of engagement. (Ref: Para. A56)

Acceptance of a Change in the Terms of the Review Engagement

39. The practitioner shall not agree to a change in the terms of the engagement where there is no reasonable justification for doing so. (Ref: Para. A57-A59)

40. If, prior to completing the review engagement, the practitioner is requested to change the engagement to an engagement for which no assurance is obtained, the practitioner shall determine whether there is reasonable justification for doing so. (Ref: Para. A60-A61)

41. If the terms of engagement are changed during the course of the engagement, the practitioner and management or those charged with governance, as appropriate, shall agree on and record the new terms of the engagement in an engagement letter or other suitable form of written agreement.

Communication with Management and Those Charged with Governance

42. The practitioner shall communicate with management or those charged with governance, as appropriate, on a timely basis during the course of the review engagement, all matters concerning the review engagement that, in the practitioner's professional judgment, are of sufficient importance to merit the attention of management or those charged with governance, as appropriate. (Ref: Para. A62-A68)

Performing the Engagement

Materiality in a Review of Financial Statements

43. The practitioner shall determine materiality for the financial statements as a whole, and apply this materiality in designing the procedures and in evaluating the results obtained from those procedures. (Ref: Para. A69-A72)

44. The practitioner shall revise materiality for the financial statements as a whole in the event of becoming aware of information during the review that would have caused the practitioner to have determined a different amount initially. (Ref: Para. A73)

The Practitioner's Understanding

45. The practitioner shall obtain an understanding of the entity and its environment, and the applicable financial reporting framework, to identify areas in the financial statements where material misstatements are likely to arise and thereby provide a basis for designing procedures to address those areas. (Ref: Para. A74-A76)

46. The practitioner's understanding shall include the following: (Ref: Para. A77, A86, A88)

- (a) Relevant industry, regulatory, and other external factors including the applicable financial reporting framework;
- (b) The nature of the entity, including:
 - (i) Its operations;
 - (ii) Its ownership and governance structure;
 - (iii) The types of investments that the entity is making and plans to make;

I.610 Auditing Pronouncements

- (iv) The way that the entity is structured and how it is financed; and
- (v) The entity's objectives and strategies;
- (c) The entity's accounting systems and accounting records; and
- (d) The entity's selection and application of accounting policies.

Designing and Performing Procedures

47. In obtaining sufficient appropriate evidence as the basis for a conclusion on the financial statements as a whole, the practitioner shall design and perform inquiry and analytical procedures: (Ref: Para. A78-A82, A86, A88)

- (a) To address all material items in the financial statements, including disclosures; and
- (b) To focus on addressing areas in the financial statements where material misstatements are likely to arise.

48. The practitioner's inquiries of management and others within the entity, as appropriate, shall include the following: (Ref: Para. A83-A86)

- (a) How management makes the significant accounting estimates required under the applicable financial reporting framework;
- (b) The identification of related parties and related party transactions, including the purpose of those transactions;
- (c) Whether there are significant, unusual or complex transactions, events or matters that have affected or may affect the entity's financial statements, including:
 - (i) Significant changes in the entity's business activities or operations;
 - (ii) Significant changes to the terms of contracts that materially affect the entity's financial statements, including terms of finance and debt contracts or covenants;
 - (iii) Significant journal entries or other adjustments to the financial statements;
 - (iv) Significant transactions occurring or recognized near the end of the reporting period;
 - (v) The status of any uncorrected misstatements identified during previous engagements; and
 - (vi) Effects or possible implications for the entity of transactions or relationships with related parties;
- (d) The existence of any actual, suspected or alleged:
 - (i) Fraud or illegal acts affecting the entity; and
 - (ii) Non-compliance with provisions of laws and regulations that are generally recognized to have a direct effect on the determination of material amounts and disclosures in the financial statements, such as tax and pension laws and regulations;
- (e) Whether management has identified and addressed events occurring between the date of the financial statements and the date of the practitioner's report that require adjustment of, or disclosure in, the financial statements;
- (f) The basis for management's assessment of the entity's ability to continue as a going concern; (Ref: Para. A87)
- (g) Whether there are events or conditions that appear to cast doubt on the entity's ability to continue as a going concern;
- (h) Material commitments, contractual obligations or contingencies that have affected or may affect the entity's financial statements, including disclosures; and

- (i) Material non-monetary transactions or transactions for no consideration in the financial reporting period under consideration.

49. In designing analytical procedures, the practitioner shall consider whether the data from the entity's accounting system and accounting records are adequate for the purpose of performing the analytical procedures. (Ref: Para. A88-A90)

Procedures to Address Specific Circumstances

Related Parties⁶

50. During the review, the practitioner shall remain alert for arrangements or information that may indicate the existence of related party relationships or transactions that management has not previously identified or disclosed to the practitioner.

51. If the practitioner identifies significant transactions outside the entity's normal course of business in the course of performing the review, the practitioner shall inquire of management about:

- (a) The nature of those transactions;
- (b) Whether related parties could be involved; and
- (c) The business rationale (or lack thereof) of those transactions.

Fraud and non-compliance with laws or regulations

52. When there is an indication that fraud or non-compliance with laws or regulations, or suspected fraud or non-compliance with laws or regulations, has occurred in the entity, the practitioner shall:

- (a) Communicate that matter to the appropriate level of senior management or those charged with governance as appropriate;
- (b) Request management's assessment of the effect(s), if any, on the financial statements;
- (c) Consider the effect, if any, of management's assessment of the effects of fraud or non-compliance with laws or regulations communicated to the practitioner on the practitioner's conclusion on the financial statements and on the practitioner's report; and
- (d) Determine whether there is a responsibility to report the occurrence or suspicion of fraud or illegal acts to a party outside the entity. (Ref: Para. A91)

Going concern

53. A review of financial statements includes consideration of the entity's ability to continue as a going concern. In considering management's assessment of the entity's ability to continue as a going concern, the practitioner shall cover the same period as that used by management to make its assessment as required by the applicable financial reporting framework, or by law or regulation where a longer period is specified.

54. If, during the performance of the review, the practitioner becomes aware of events or conditions that may cast significant doubt about the entity's ability to continue as a going concern, the practitioner shall: (Ref: Para. A92)

- (a) Inquire of management about plans for future actions affecting the entity's ability to continue as a going concern and about the feasibility of those plans, and also whether management believes the outcome of those plans will improve the situation regarding the entity's ability to continue as a going concern;
- (b) Evaluate the results of those inquiries, to consider whether management's responses provide a sufficient basis to:

⁶ As defined in the "Glossary of Terms" contained in Volume I of the Handbook of Auditing Pronouncements.

I.612 Auditing Pronouncements

- (i) Continue to present the financial statements on the going concern basis if the applicable financial reporting framework includes the assumption of an entity's continuance as a going concern; or
 - (ii) Conclude whether the financial statements are materially misstated, or are otherwise misleading regarding the entity's ability to continue as a going concern; and
- (c) Consider management's responses in light of all relevant information of which the practitioner is aware as a result of the review.

Use of work performed by others

55. In performing the review, it may be necessary for the practitioner to use work performed by other practitioners, or the work of an individual or organization possessing expertise in a field other than accounting or assurance. If the practitioner uses work performed by another practitioner or an expert in the course of performing the review, the practitioner shall take appropriate steps to be satisfied that the work performed is adequate for the practitioner's purposes. (Ref: Para. A79)

Reconciling the Financial Statements to the Underlying Accounting Records

56. The practitioner shall obtain evidence that the financial statements agree with, or reconcile to, the entity's underlying accounting records. (Ref: Para. A93)

Additional Procedures When the Practitioner Becomes Aware that the Financial Statements May Be Materially Misstated

57. If the practitioner becomes aware of a matter(s) that causes the practitioner to believe the financial statements may be materially misstated, the practitioner shall design and perform additional procedures sufficient to enable the practitioner to: (Ref: Para. A94-A98)

- (a) Conclude that the matter(s) is not likely to cause the financial statements as a whole to be materially misstated; or
- (b) Determine that the matter(s) causes the financial statements as a whole to be materially misstated.

Subsequent Events

58. If the practitioner becomes aware of events occurring between the date of the financial statements and the date of the practitioner's report that require adjustment of, or disclosure in, the financial statements, the practitioner shall request management to correct those misstatements.

59. The practitioner has no obligation to perform any procedures regarding the financial statements after the date of the practitioner's report. However, if, after the date of the practitioner's report but before the date the financial statements are issued, a fact becomes known to the practitioner that, had it been known to the practitioner at the date of the practitioner's report, may have caused the practitioner to amend the report, the practitioner shall:

- (a) Discuss the matter with management or those charged with governance, as appropriate;
- (b) Determine whether the financial statements need amendment; and
- (c) If so, inquire how management intends to address the matter in the financial statements.

60. If management does not amend the financial statements in circumstances where the practitioner believes they need to be amended, and the practitioner's report has already been provided to the entity, the practitioner shall notify management and those charged with governance not to issue the financial statements to third parties before the necessary amendments have been made. If the financial statements are nevertheless subsequently issued without the necessary amendments, the practitioner shall take appropriate action to seek to prevent reliance on the practitioner's report.

Written Representations

61. The practitioner shall request management to provide a written representation that management has fulfilled its responsibilities described in the agreed terms of engagement. The written representation shall include that: (Ref: Para. A99-A101)

- (a) Management has fulfilled its responsibility for the preparation of financial statements in accordance with the applicable financial reporting framework, including where relevant their fair presentation, and has provided the practitioner with all relevant information and access to information as agreed in the terms of the engagement; and
- (b) All transactions have been recorded and are reflected in the financial statements. If law or regulation requires management to make written public statements about its responsibilities, and the practitioner determines that such statements provide some or all of the representations required by subparagraphs (a)-(b), the relevant matters covered by such statements need not be included in the written representation.

62. The practitioner shall also request management's written representations that management has disclosed to the practitioner: (Ref: Para. A100)

- (a) The identity of the entity's related parties and all the related party relationships and transactions of which management is aware;
- (b) Significant facts relating to any frauds or suspected frauds known to management that may have affected the entity;
- (c) Known actual or possible non-compliance with laws and regulations for which the effects of non-compliance affect the entity's financial statements;
- (d) All information relevant to use of the going concern assumption in the financial statements;
- (e) That all events occurring subsequent to the date of the financial statements and for which the applicable financial reporting framework requires adjustment or disclosure, have been adjusted or disclosed;
- (f) Material commitments, contractual obligations or contingencies that have affected or may affect the entity's financial statements, including disclosures; and
- (g) Material non-monetary transactions or transactions for no consideration undertaken by the entity in the financial reporting period under consideration.

63. If management does not provide one or more of the requested written representations, the practitioner shall: (Ref: Para. A99)

- (a) Discuss the matter with management and those charged with governance, as appropriate;
- (b) Re-evaluate the integrity of management, and evaluate the effect that this may have on the reliability of representations (oral or written) and evidence in general; and
- (c) Take appropriate actions, including determining the possible effect on the conclusion in the practitioner's report in accordance with this SRE.

64. The practitioner shall disclaim a conclusion on the financial statements, or withdraw from the engagement if withdrawal is possible under applicable law or regulation, as appropriate, if:

- (a) The practitioner concludes that there is sufficient doubt about the integrity of management such that the written representations are not reliable; or
- (b) Management does not provide the required representations required by paragraph 61.

I.614 Auditing Pronouncements

Date of and Period(s) Covered by Written Representations

65. The date of the written representations shall be as near as practicable to, but not after, the date of the practitioner's report. The written representations shall be for all financial statements and period(s) referred to in the practitioner's report.

Evaluating Evidence Obtained from the Procedures Performed

66. The practitioner shall evaluate whether sufficient appropriate evidence has been obtained from the procedures performed and, if not, the practitioner shall perform other procedures judged by the practitioner to be necessary in the circumstances to be able to form a conclusion on the financial statements. (Ref: Para. A102)

67. If the practitioner is not able to obtain sufficient appropriate evidence to form a conclusion, the practitioner shall discuss with management and those charged with governance, as appropriate, the effects such limitations have on the scope of the review. (Ref: Para. A103-A104)

Evaluating the Effect on the Practitioner's Report

68. The practitioner shall evaluate the evidence obtained from the procedures performed to determine the effect on the practitioner's report. (Ref: Para. A102)

Forming the Practitioner's Conclusion on the Financial Statements

Consideration of the Applicable Financial Reporting Framework in Relation to the Financial Statements

69. In forming the conclusion on the financial statements, the practitioner shall:

- (a) Evaluate whether the financial statements adequately refer to or describe the applicable financial reporting framework; (Ref: Para. A105-A106)
- (b) Consider whether, in the context of the requirements of the applicable financial reporting framework and the results of procedures performed:
 - (i) The terminology used in the financial statements, including the title of each financial statement, is appropriate;
 - (ii) The financial statements adequately disclose the significant accounting policies selected and applied;
 - (iii) The accounting policies selected and applied are consistent with the applicable financial reporting framework and are appropriate;
 - (iv) Accounting estimates made by management appear reasonable;
 - (v) The information presented in the financial statements appears relevant, reliable, comparable, and understandable; and
 - (vi) The financial statements provide adequate disclosures to enable the intended users to understand the effects of material transactions and events on the information conveyed in the financial statements. (Ref: Para. A107-A109)

70. The practitioner shall consider the impact of:

- (a) Uncorrected misstatements identified during the review, and in the previous year's review of the entity's financial statements, on the financial statements as a whole; and
- (b) Qualitative aspects of the entity's accounting practices, including indicators of possible bias in management's judgments. (Ref: Para. A110-A111)

71. If the financial statements are prepared using a fair presentation framework, the practitioner's

consideration shall also include: (Ref: Para. A108)

- (a) The overall presentation, structure and content of the financial statements in accordance with the applicable framework; and
- (b) Whether the financial statements, including the related notes, appear to represent the underlying transactions and events in a manner that achieves fair presentation or gives a true and fair view, as appropriate, in the context of the financial statements as a whole.

Form of the Conclusion

72. The practitioner's conclusion on the financial statements, whether unmodified or modified, shall be expressed in the appropriate form in the context of the financial reporting framework applied in the financial statements.

Unmodified Conclusion

73. The practitioner shall express an unmodified conclusion in the practitioner's report on the financial statements as a whole when the practitioner has obtained limited assurance to be able to conclude that nothing has come to the practitioner's attention that causes the practitioner to believe that the financial statements are not prepared, in all material respects, in accordance with the applicable financial reporting framework.

74. When the practitioner expresses an unmodified conclusion, the practitioner shall, unless otherwise required by law or regulation, use one of the following phrases, as appropriate: (Ref: Para. A112-A113)

- (a) "Based on our review, nothing has come to our attention that causes us to believe that the financial statements do not give a true and fair view (or do not present fairly, in all material respects), in accordance with the applicable financial reporting framework," (for financial statements prepared using a fair presentation framework); or
- (b) "Based on our review, nothing has come to our attention that causes us to believe that the financial statements are not prepared, in all material respects, in accordance with the applicable financial reporting framework," (for financial statements prepared using a compliance framework).

Modified Conclusion

75. The practitioner shall express a modified conclusion in the practitioner's report on the financial statements as a whole when:

- (a) The practitioner determines, based on the procedures performed and the evidence obtained, that the financial statements are materially misstated; or
- (b) The practitioner is unable to obtain sufficient appropriate evidence in relation to one or more items in the financial statements that are material in relation to the financial statements as a whole.

76. When the practitioner modifies the conclusion expressed on the financial statements, the practitioner shall:

- (a) Use the heading "Qualified Conclusion," "Adverse Conclusion" or "Disclaimer of Conclusion," as appropriate, for the conclusion paragraph in the practitioner's report; and
- (b) Provide a description of the matter giving rise to the modification, under an appropriate heading (for example, "Basis for Qualified Conclusion," "Basis for Adverse Conclusion" or "Basis for Disclaimer of Conclusion," as appropriate), in a separate paragraph in the practitioner's report immediately before the conclusion paragraph (referred to as the basis for conclusion paragraph).

Financial statements are materially misstated

77. If the practitioner determines that the financial statements are materially misstated, the practitioner

I.616 Auditing Pronouncements

shall express:

- (a) A qualified conclusion, when the practitioner concludes that the effects of the matter(s) giving rise to the modification are material, but not pervasive to the financial statements; or
- (b) An adverse conclusion, when the effects of the matter(s) giving rise to the modification are both material and pervasive to the financial statements.

78. When the practitioner expresses a qualified conclusion on the financial statements because of a material misstatement, the practitioner shall, unless otherwise required by law or regulation, use one of the following phrases, as appropriate:

- (a) "Based on our review, except for the effects of the matter(s) described in the Basis for Qualified Conclusion paragraph, nothing has come to our attention that causes us to believe that the financial statements do not give a true and fair view (or do not present fairly, in all material respects), in accordance with the applicable financial reporting framework," (for financial statements prepared using a fair presentation framework); or
- (b) "Based on our review, except for the effects of the matter(s) described in the Basis for Qualified Conclusion paragraph, nothing has come to our attention that causes us to believe that the financial statements are not prepared, in all material respects, in accordance with the applicable financial reporting framework," (for financial statements prepared using a compliance framework).

79. When the practitioner expresses an adverse conclusion on the financial statements, the practitioner shall, unless otherwise required by law or regulation, use one of the following phrases, as appropriate:

- (a) "Based on our review, due to the significance of the matter(s) described in the Basis for Adverse Conclusion paragraph, the financial statements do not give a true and fair view (or do not present fairly, in all material respects), in accordance with the applicable financial reporting framework," (for financial statements prepared using a fair presentation framework); or
- (b) "Based on our review, due to the significance of the matter(s) described in the Basis for Adverse Conclusion paragraph, the financial statements are not prepared, in all material respects, in accordance with the applicable financial reporting framework," (for financial statements prepared using a compliance framework).

80. In the basis for conclusion paragraph, in relation to material misstatements that give rise to either a qualified conclusion or an adverse conclusion, the practitioner shall:

- (a) Describe and quantify the financial effects of the misstatement if the material misstatement relates to specific amounts in the financial statements (including quantitative disclosures), unless impracticable, in which case the practitioner shall so state;
- (b) Explain how disclosures are misstated if the material misstatement relates to narrative disclosures; or
- (c) Describe the nature of omitted information if the material misstatement relates to the non-disclosure of information required to be disclosed. Unless prohibited by law or regulation, the practitioner shall include the omitted disclosures where practicable to do so.

Inability to obtain sufficient appropriate evidence

81. If the practitioner is unable to form a conclusion on the financial statements due to inability to obtain sufficient appropriate evidence, the practitioner shall:

- (a) Express a qualified conclusion if the practitioner concludes that the possible effects on the financial statements of undetected misstatements, if any, could be material but not pervasive; or
- (b) Disclaim a conclusion if the practitioner concludes that the possible effects on the financial statements

of undetected misstatements, if any, could be both material and pervasive.

82. The practitioner shall withdraw from the engagement if the following conditions are present: (Ref: Para. A114-A116)

- (a) Due to a limitation on the scope of the review imposed by management after the practitioner has accepted the engagement, the practitioner is unable to obtain sufficient appropriate evidence to form a conclusion on the financial statements;
- (b) The practitioner has determined that the possible effects on the financial statements of undetected misstatements are material and pervasive; and
- (c) Withdrawal is possible under applicable law or regulation.

83. When the practitioner expresses a qualified conclusion on the financial statements due to inability to obtain sufficient appropriate evidence, the practitioner shall, unless otherwise required by law or regulation, use one of the following phrases, as appropriate:

- (a) "Based on our review, except for the possible effects of the matter(s) described in the Basis for Qualified Conclusion paragraph, nothing has come to our attention that causes us to believe that the financial statements do not give a true and fair view (or do not present fairly, in all material respects), in accordance with the applicable financial reporting framework," (for financial statements prepared using a fair presentation framework); or
- (b) "Based on our review, except for the possible effects of the matter(s) described in the Basis for Qualified Conclusion paragraph, nothing has come to our attention that causes us to believe that the financial statements are not prepared, in all material respects, in accordance with the applicable financial reporting framework," (for financial statements prepared using a compliance framework).

84. When disclaiming a conclusion on the financial statements the practitioner shall state in the conclusion paragraph that:

- (a) Due to the significance of the matter(s) described in the Basis for Disclaimer of Conclusion paragraph, the practitioner is unable to obtain sufficient appropriate evidence to form a conclusion on the financial statements; and
- (b) Accordingly, the practitioner does not express a conclusion on the financial statements.

85. In the basis for conclusion paragraph, in relation to either the qualified conclusion due to inability to obtain sufficient appropriate evidence or when the practitioner disclaims a conclusion, the practitioner shall include the reason(s) for the inability to obtain sufficient appropriate evidence.

The Practitioner's Report

86. The practitioner's report for the review engagement shall be in writing, and shall contain the following elements: (Ref: Para. A117-A120, A141, A143)

- (a) A title, which shall clearly indicate that it is the report of an independent practitioner for a review engagement;
- (b) The addressee(s), as required by the circumstances of the engagement;
- (c) An introductory paragraph that:
 - (i) Identifies the financial statements reviewed, including identification of the title of each of the statements contained in the set of financial statements and the date and period covered by each financial statement;
 - (ii) Refers to the summary of significant accounting policies and other explanatory information; and

I.618 Auditing Pronouncements

- (iii) States that the financial statements have been reviewed;
- (d) A description of the responsibility of management for the preparation of the financial statements, including an explanation that management is responsible for: (Ref: Para. A121-A124)
 - (i) Their preparation in accordance with the applicable financial reporting framework including, where relevant, their fair presentation;
 - (ii) Such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error;
- (e) If the financial statements are special purpose financial statements:
 - (i) A description of the purpose for which the financial statements are prepared and, if necessary, the intended users, or reference to a note in the special purpose financial statements that contains that information; and
 - (ii) If management has a choice of financial reporting frameworks in the preparation of such financial statements, a reference within the explanation of management's responsibility for the financial statements to management's responsibility for determining that the applicable financial reporting framework is acceptable in the circumstances;
- (f) A description of the practitioner's responsibility to express a conclusion on the financial statements including reference to this SRE and, where relevant, applicable law or regulation; (Ref: Para. A125-126, A142)
- (g) A description of a review of financial statements and its limitations, and the following statements: (Ref: Para. A127)
 - (i) A review engagement under this SRE is a limited assurance engagement;
 - (ii) The practitioner performs procedures, primarily consisting of making inquiries of management and others within the entity, as appropriate, and applying analytical procedures, and evaluates the evidence obtained; and
 - (iii) The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with Standards on Auditing (SAs), and, accordingly, the practitioner does not express an audit opinion on the financial statements;
- (h) A paragraph under the heading "Conclusion" that contains:
 - (i) The practitioner's conclusion on the financial statements as a whole in accordance with paragraphs 72-85, as appropriate; and
 - (ii) A reference to the applicable financial reporting framework used to prepare the financial statements. (Ref: Para. A128-A129)
- (i) When the practitioner's conclusion on the financial statements is modified:
 - (i) A paragraph under the appropriate heading that contains the practitioner's modified conclusion in accordance with paragraphs 72 and 75-85, as appropriate; and
 - (ii) A paragraph, under an appropriate heading, that provides a description of the matter(s) giving rise to the modification; (Ref: Para. A130)
- (j) A reference to the practitioner's obligation under this SRE to comply with relevant ethical requirements;
- (k) The date of the practitioner's report; (Ref: Para. A137-A140)
- (l) The practitioner's signature; and (Ref: Para. A131)
- (m) The place of signature.

Emphasis of Matter and Other Matter Paragraphs in the Practitioner's Report

Emphasis of Matter Paragraphs

87. The practitioner may consider it necessary to draw users' attention to a matter presented or disclosed in the financial statements that, in the practitioner's judgment, is of such importance that it is fundamental to users' understanding of the financial statements. In such cases, the practitioner shall include an Emphasis of Matter paragraph in the practitioner's report, provided the practitioner has obtained sufficient appropriate evidence to conclude that the matter is not likely to be materially misstated as presented in the financial statements. Such paragraph shall refer only to information presented or disclosed in the financial statements.

88. The practitioner's report on special purpose financial statements shall include an Emphasis of Matter paragraph alerting users of the practitioner's report that the financial statements are prepared in accordance with a special purpose framework and that, as a result, the financial statements may not be suitable for another purpose. (Ref: Para. A132-A133)

89. The practitioner shall include an Emphasis of Matter paragraph immediately after the paragraph that contains the practitioner's conclusion on the financial statements under the heading "Emphasis of Matter," or other appropriate heading.

Other Matter Paragraphs

90. If the practitioner considers it necessary to communicate a matter other than those that are presented or disclosed in the financial statements that, in the practitioner's judgment, is relevant to users' understanding of the review, the practitioner's responsibilities or the practitioner's report and this is not prohibited by law or regulation, the practitioner shall do so in a paragraph in the practitioner's report with the heading "Other Matter" or other appropriate heading.

Other Reporting Responsibilities

91. A practitioner may be requested to address other reporting responsibilities in the practitioner's report on the financial statements that are in addition to the practitioner's responsibilities under this SRE to report on the financial statements. In such situations, those other reporting responsibilities shall be addressed by the practitioner in a separate section in the practitioner's report headed "Report on Other Legal and Regulatory Requirements," or otherwise as appropriate to the content of the section, following the section of the report headed "Report on the Financial Statements." (Ref: Para. A134-A136)

Date of the Practitioner's Report

92. The practitioner shall date the report no earlier than the date on which the practitioner has obtained sufficient appropriate evidence as the basis for the practitioner's conclusion on the financial statements, including being satisfied that: (Ref: Para. A137-A140)

- (a) All the statements that comprise the financial statements under the applicable financial reporting framework, including the related notes where applicable, have been prepared; and
- (b) Those with the recognized authority have asserted that they have taken responsibility for those financial statements.

Documentation

93. The preparation of documentation for the review provides evidence that the review was performed in accordance with this SRE, and legal and regulatory requirements where relevant, and a sufficient and appropriate record of the basis for the practitioner's report. The practitioner shall document the following aspects of the engagement in a timely manner, sufficient to enable an experienced practitioner, having no previous connection with the engagement, to understand: (Ref: Para. A144)

- (a) The nature, timing, and extent of the procedures performed to comply with this SRE and applicable

I.620 Auditing Pronouncements

legal and regulatory requirements;

- (b) Results obtained from the procedures, and the practitioner's conclusions formed on the basis of those results; and
- (c) Significant matters arising during the engagement, the practitioner's conclusions reached thereon, and significant professional judgments made in reaching those conclusions.

94. In documenting the nature, timing and extent of procedures performed as required in this SRE, the practitioner shall record:

- (a) Who performed the work and the date such work was completed; and
- (b) Who reviewed the work performed for the purpose of quality control for the engagement, and the date and extent of the review.

95. The practitioner shall also document discussions with management, those charged with governance, and others as relevant to the performance of the review of significant matters arising during the engagement, including the nature of those matters.

96. If, in the course of the engagement, the practitioner identified information that is inconsistent with the practitioner's findings regarding significant matters affecting the financial statements, the practitioner shall document how the inconsistency was addressed.

Application and Other Explanatory Material

Scope of this SRE (Ref: Para. 1-2)

A1. In performing a review of financial statements, the practitioner may be required to comply with legal or regulatory requirements, which may differ from the requirements established in this SRE. While the practitioner may find aspects of this SRE helpful in these circumstances, it is the responsibility of the practitioner to ensure compliance with all relevant legal, regulatory and professional obligations.

Reviews of Financial Information of Components in the Context of an Audit of the Financial Statements of a Group of Entities

A2. Review engagements in accordance with this SRE may be requested for component entities by the auditor of the financial statements of a group of entities. Such a review engagement performed in accordance with this SRE may be accompanied by a request from the group auditor to undertake additional work or procedures as needed in the circumstances of the group audit engagement.

Relationship with SQC 1 (Ref: Para. 4)

A3. SQC 1 deals with the firm's responsibilities to establish and maintain its system of quality control for assurance engagements, including review engagements. Those responsibilities are directed at establishing the firm's:

- Quality control system; and
- Related policies designed to achieve the objective of the quality control system and the firm's procedures to implement and monitor compliance with those policies, including policies and procedures that address each of the following elements:
 - Leadership responsibilities for quality within the firm.
 - Relevant ethical requirements.
 - Acceptance and continuance of client relationships and specific engagements.
 - Human resources.

- Engagement performance.
- Monitoring.

A4. Under SQC 1, the firm has an obligation to establish and maintain a system of quality control to provide it with reasonable assurance that:

- (a) The firm and its personnel comply with professional standards and applicable legal and regulatory requirements; and
- (b) Reports issued by the firm⁷ or engagement partners are appropriate in the circumstances.⁸

The Engagement to Review Historical Financial Statements (Ref: Para. 5-8, 14)

A5. Reviews of financial statements may be performed for a wide range of entities that vary by type or size, or by the level of complexity in their financial reporting. In some cases, the review of financial statements of an entity may also be subject to the applicable laws or regulations and related reporting requirements.

A6. Reviews may be performed in a variety of circumstances. For example, they may be required for entities that are exempt from requirements specified in law or regulation for mandatory audit. Reviews may also be requested on a voluntary basis, such as in connection with financial reporting undertaken for arrangements under the terms of a private contract, or to support funding arrangements.

Objectives (Ref: Para. 15)

A7. This SRE requires the practitioner to disclaim a conclusion on the financial statements if:

- (a) The practitioner issues a report, or is required to issue a report for the engagement; and
- (b) The practitioner is unable to form a conclusion on the financial statements due to inability to obtain sufficient appropriate evidence, and the practitioner concludes that the possible effects on the financial statements of undetected misstatements, if any, could be both material and pervasive.

A8. The situation of being unable to obtain sufficient appropriate evidence in a review engagement (referred to as a scope limitation) may arise from:

- (a) Circumstances beyond the control of the entity;
- (b) Circumstances relating to the nature or timing of the practitioner's work; or
- (c) Limitations imposed by management or those charged with governance of the entity.

A9. This SRE sets out requirements and guidance for the practitioner when the practitioner encounters a scope limitation, either prior to accepting a review engagement, or during the engagement.

Definitions (Ref: Para. 16)

Use of the Terms "Management" and "Those Charged with Governance"

A10. The respective responsibilities of management and those charged with governance will differ between entities of various types. These differences affect the way the practitioner applies the requirements of this SRE in relation to management or those charged with governance. Accordingly, the phrase "management and, where appropriate, those charged with governance" used in various places throughout this SRE is intended to alert the practitioner to the fact that different entity environments may have different management and governance structures and arrangements.

A11. Various responsibilities relating to preparation of financial information and external financial reporting

⁷ It is clarified that in India the reports are not issued/signed in the firm's name, rather they are issued/signed on behalf of the firm by the sole practitioner, proprietor or a partner of the firm, as the case may be, in his individual name.

⁸ SQC 1, paragraph 3.

I.622 Auditing Pronouncements

will fall to either management or those charged with governance according to factors such as:

- The resources and structure of the entity; and
- The respective roles of management and those charged with governance within the entity as set out in relevant law or regulation or, if the entity is not regulated, in any formal governance or accountability arrangements established for the entity (for example, as recorded in contracts, a constitution or other type of establishment documents of the entity).

For example, in small entities there is often no separation of the management and governance roles. In larger entities, management is often responsible for execution of the business or activities of the entity and reporting thereon, while those charged with governance oversee management. In some entities, the responsibility for preparation of financial statements for an entity is the legal responsibility of those charged with governance, and in some other entities it is a management responsibility.

Limited Assurance - Use of the Term Sufficient Appropriate Evidence (Ref: Para. 17(f))

A12. Sufficient appropriate evidence is required to obtain limited assurance to support the practitioner's conclusion. Evidence is cumulative in nature and is primarily obtained from the procedures performed during the course of the review.

Conduct of a Review Engagement in Accordance with this SRE (Ref: Para. 18)

A13. This SRE does not override laws and regulations that govern a review of financial statements. In the event that those laws and regulations differ from the requirements of this SRE, a review conducted only in accordance with laws and regulations will not automatically comply with this SRE.

Ethical Requirements (Ref: Para. 21)

A14. The Code of Ethics issued by the ICAI establishes the fundamental principles of professional ethics practitioners must comply with, and provides a conceptual framework for applying those principles. The fundamental principles are:

- (a) Integrity;
- (b) Objectivity;
- (c) Professional competence and due care;
- (d) Confidentiality; and
- (e) Professional behaviour.

The Code of Ethics also illustrates how the conceptual framework is to be applied in specific situations. In complying with the Code, threats to the practitioner's compliance with relevant ethical requirements are required to be identified and appropriately addressed.

A15. In the case of an engagement to review financial statements, the Code of Ethics requires that the practitioner be independent of the entity whose financial statements are reviewed. The Code of Ethics describes independence as comprising both independence of mind and independence in appearance. The practitioner's independence safeguards the practitioner's ability to form a conclusion without being affected by influences that might otherwise compromise that conclusion. Independence enhances the practitioner's ability to act with integrity, to be objective and to maintain an attitude of professional skepticism.

Professional Skepticism and Professional Judgment

Professional Skepticism (Ref: Para. 22)

A16. Professional skepticism is necessary for the critical assessment of evidence in a review. This includes questioning inconsistencies and investigating contradictory evidence, and questioning the reliability of

responses to inquiries and other information obtained from management and those charged with governance. It also includes consideration of the sufficiency and appropriateness of evidence obtained in the light of the engagement circumstances.

A17. Professional skepticism includes being alert to, for example:

- Evidence that is inconsistent with other evidence obtained.
- Information that calls into question the reliability of documents and responses to inquiries to be used as evidence.
- Conditions that may indicate possible fraud.
- Any other circumstances that suggest the need for additional procedures.

A18. Maintaining professional skepticism throughout the review is necessary if the practitioner is to reduce the risks of:

- Overlooking unusual circumstances.
- Over-generalizing when drawing conclusions from evidence obtained.
- Using inappropriate assumptions in determining the nature, timing, and extent of the procedures performed in the review, and evaluating the results thereof.

A19. The practitioner cannot be expected to disregard past experience of the honesty and integrity of the entity's management and those charged with governance. Nevertheless, a belief that management and those charged with governance are honest and have integrity does not relieve the practitioner of the need to maintain professional skepticism or allow the practitioner to be satisfied with evidence that is inadequate for the purpose of the review.

Professional Judgment (Ref: Para. 23)

A20. Professional judgment is essential to the proper conduct of a review engagement. This is because interpretation of relevant ethical requirements and the requirements of this SRE, and the need for informed decisions throughout the performance of a review engagement, require the application of relevant knowledge and experience to the facts and circumstances of the engagement. Professional judgment is necessary, in particular:

- Regarding decisions about materiality, and the nature, timing, and extent of procedures used to meet the requirements of this SRE, and to gather evidence.
- When evaluating whether the evidence obtained from the procedures performed reduces the engagement risk to a level that is acceptable in the engagement circumstances.
- When considering management's judgments in applying the entity's applicable financial reporting framework.
- When forming the conclusion on the financial statements based on the evidence obtained, including considering the reasonableness of the estimates made by management in preparing the financial statements.

A21. The distinguishing feature of the professional judgment expected of the practitioner is that it is exercised by a practitioner whose training, knowledge and experience, including in the use of assurance skills and techniques, have assisted in developing the necessary competencies to achieve reasonable judgments. Consultation on difficult or contentious matters during the course of the engagement, both within the engagement team and between the engagement team and others at the appropriate level within or outside the firm, assists the practitioner in making informed and reasonable judgments.

I.624 Auditing Pronouncements

A22. The exercise of professional judgment in individual engagements is based on the facts and circumstances that are known by the practitioner throughout the engagement, including:

- Knowledge acquired from engagements carried out with respect to the entity's financial statements in prior periods, where applicable.
- The practitioner's understanding of the entity and its environment, including its accounting system, and of the application of the applicable financial reporting framework in the entity's industry.
- The extent to which the preparation and presentation of the financial statements require the exercise of management judgment.

A23. Professional judgment can be evaluated based on whether the judgment reached reflects a competent application of assurance and accounting principles, and is appropriate in the light of, and consistent with, the facts and circumstances that were known to the practitioner up to the date of the practitioner's report.

A24. Professional judgment needs to be exercised throughout the engagement. It also needs to be appropriately documented in accordance with the requirements of this SRE. Professional judgment is not to be used as the justification for decisions that are not otherwise supported by the facts and circumstances of the engagement, or the evidence obtained.

Engagement Level Quality Control (Ref: Para. 24-25)

A25. Assurance skills and techniques include:

- Applying professional skepticism and professional judgment to planning and performing an assurance engagement, including obtaining and evaluating evidence;
- Understanding information systems and the role and limitations of internal control;
- Linking the consideration of materiality and engagement risks to the nature, timing and extent of procedures for the review;
- Applying procedures as appropriate to the review engagement, which may include other types of procedures in addition to inquiry and analytical procedures (such as inspection, re-calculation, re-performance, observation and confirmation);
- Systematic documentation practices; and
- Application of skills and practices relevant for writing reports for assurance engagements.

A26. Within the context of the firm's system of quality control, engagement teams have a responsibility to implement quality control procedures applicable to the engagement, and provide the firm with relevant information to enable the functioning of that part of the firm's system of quality control relating to independence.

A27. The actions of the engagement partner and appropriate messages to the other members of the engagement team, in the context of the engagement partner taking responsibility for the overall quality on each review engagement, emphasize the fact that quality is essential in performing a review engagement, and the importance to the quality of the review engagement of:

- (a) Performing work that complies with professional standards and regulatory and legal requirements.
- (b) Complying with the firm's quality control policies and procedures as applicable.
- (c) Issuing a report for the engagement that is appropriate in the circumstances.
- (d) The engagement team's ability to raise concerns without fear of reprisals.

A28. Unless information provided by the firm or other parties suggests otherwise, the engagement team is entitled to rely on the firm's system of quality control. For example, the engagement team may rely on the

firm's system of quality control in relation to:

- Competence of personnel through their recruitment and formal training.
- Independence through the accumulation and communication of relevant independence information.
- Maintenance of client relationships through acceptance and continuance systems.
- Adherence to regulatory and legal requirements through the monitoring process.

In considering deficiencies identified in the firm's system of quality control that may affect the review engagement, the engagement partner may consider measures taken by the firm to rectify those deficiencies.

A29. A deficiency in the firm's system of quality control does not necessarily indicate that a review engagement was not performed in accordance with professional standards and applicable legal and regulatory requirements, or that the practitioner's report was not appropriate.

Assignment of Engagement Teams (Ref: Para. 25(b))

A30. When considering the appropriate competence and capabilities expected of the engagement team as a whole, the engagement partner may take into consideration such matters as the team's:

- Understanding of, and practical experience with, review engagements of a similar nature and complexity through appropriate training and participation.
- Understanding of professional standards and applicable legal and regulatory requirements.
- Technical expertise, including expertise with relevant information technology and specialized areas of accounting or assurance.
- Knowledge of relevant industries in which the client operates.
- Ability to apply professional judgment.
- Understanding of the firm's quality control policies and procedures.

Acceptance and Continuance of Client Relationships and Review Engagements (Ref: Para. 25(d)(i))

A31. SQC 1 requires the firm to obtain information as it considers necessary in the circumstances before accepting an engagement with a new client, when deciding whether to continue an existing engagement, and when considering acceptance of a new engagement with an existing client. Information that assists the engagement partner in determining whether acceptance and continuance of client relationships and review engagements are appropriate may include information concerning:

- The integrity of the principal owners, key management and those charged with governance; and
- Significant matters that have arisen during the current or a previous review engagement, and their implications for continuing the relationship.

A32. If the engagement partner has cause to doubt management's integrity to a degree that is likely to affect proper performance of the review, it is not appropriate under this SRE to accept the engagement, unless required by law or regulation, as doing so may lead to the practitioner being associated with the entity's financial statements in an inappropriate manner.

Acceptance and Continuance of Client Relationships and Review Engagements (Ref: Para. 29)

A33. The practitioner's consideration of engagement continuance, and relevant ethical requirements, including independence, occurs throughout the engagement, as conditions and changes in circumstances occur. Performing initial procedures on engagement continuance and evaluation of relevant ethical requirements (including independence) at the beginning of an engagement informs the practitioner's decisions and actions prior to the performance of other significant activities for the engagement.

Factors Affecting Acceptance and Continuance of Client Relationships and Review Engagements

(Ref: Para. 29)

A34. Assurance engagements may only be accepted when the engagement exhibits certain characteristics⁹ that are conducive to achieving the practitioner's objectives specified for the engagement.

Rational Purpose (Ref: Para. 29(a)(i))

A35. It may be unlikely that there is a rational purpose for the engagement if, for example:

- (a) There is a significant limitation on the scope of the practitioner's work;
- (b) The practitioner suspects the engaging party intends to associate the practitioner's name with the financial statements in an inappropriate manner; or
- (c) The engagement is intended to meet compliance requirements of relevant law or regulation and such law or regulation requires the financial statements to be audited.

Review Engagement is Appropriate (Ref: Para. 29(a)(ii) and 29(d))

A36. When the practitioner's preliminary understanding of the engagement circumstances indicates that accepting a review engagement would not be appropriate, the practitioner may consider recommending that another type of engagement be undertaken. Depending on the circumstances, the practitioner may, for example, believe that performance of an audit engagement would be more appropriate than a review. In other cases, if the engagement circumstances preclude performance of an assurance engagement, the practitioner may recommend a compilation engagement, or other accounting services engagement, as appropriate.

Information Needed to Perform the Review Engagement (Ref: Para. 29(c))

A37. An example of where the practitioner may have cause to doubt that the information needed to perform the review will be available or reliable is where the accounting records necessary for purposes of performing analytical procedures are suspected to be substantially inaccurate or incomplete. This consideration is not directed at the need that sometimes arises in the course of a review engagement to assist management by recommending adjusting entries required to finalize the financial statements prepared by management.

Preconditions for Accepting a Review Engagement (Ref: Para. 30)

A38. This SRE also requires the practitioner to ascertain certain matters, upon which it is necessary for the practitioner and the entity's management to agree, and which are within the control of the entity, prior to the practitioner accepting the engagement.

The Applicable Financial Reporting Framework (Ref: Para. 30(a))

A39. A condition for acceptance of an assurance engagement is that the criteria¹⁰ referred to in the definition of an assurance engagement are suitable and available to intended users.¹¹ For purposes of this SRE, the applicable financial reporting framework provides the criteria the practitioner uses to review the financial statements including, where relevant, the fair presentation of the financial statements. Some financial reporting frameworks are fair presentation frameworks, while others are compliance frameworks. The requirements of the applicable financial reporting framework determine the form and content of the financial statements, including what constitutes a complete set of financial statements.

Acceptability of the applicable financial reporting framework

A40. Without an acceptable financial reporting framework, management does not have an appropriate basis

⁹ Framework for Assurance Engagements, paragraph 16.

¹⁰ Framework for Assurance Engagements, paragraph 33.

¹¹ Framework for Assurance Engagements, paragraph 16(b)(ii).

for the preparation of the financial statements and the practitioner does not have suitable criteria for the review of the financial statements.

A41. The practitioner's determination of the acceptability of the financial reporting framework applied in the financial statements is made in the context of the practitioner's understanding of who the intended users of the financial statements are. The intended users are the person, persons or group of persons for whom the practitioner prepares the report. The practitioner may not be able to identify all those who will read the assurance report, particularly where there is a large number of people who have access to it.

A42. In many cases, in the absence of any indications to the contrary, the practitioner may presume that the applicable financial reporting framework is acceptable (for example, a financial reporting framework that is prescribed by law or regulation governing the entity to be used in the preparation of general purpose financial statements for certain types of entities).

A43. Factors that are relevant to the practitioner's determination of the acceptability of the financial reporting framework to be applied in the preparation of the financial statements include:

- The nature of the entity (for example, whether it is a business enterprise, a public sector entity or a not-for-profit organization).
- The purpose of the financial statements (for example, whether they are prepared to meet the common financial information needs of a wide range of users or the financial information needs of specific users).
- The nature of the financial statements (for example, whether the financial statements are a complete set of financial statements or a single financial statement).
- Whether the applicable financial reporting framework is prescribed in relevant law or regulation.

A44. If the financial reporting framework used to prepare the financial statements is not acceptable in view of the purpose of the financial statements and management will not agree to use of a financial reporting framework that is acceptable in the practitioner's view, the practitioner is required under this SRE to decline the engagement.

A45. Deficiencies in the applicable financial reporting framework that indicate that the framework is not acceptable may be encountered after the review engagement has been accepted. When use of that financial reporting framework is not prescribed by law or regulation, management may decide to adopt another framework that is acceptable. When management does so, the practitioner is required under this SRE to agree the new terms of the review engagement with management to reflect the change in the applicable financial reporting framework.

Responsibilities of Management and Those Charged with Governance (Ref: Para. 30(b), 37(e))

A46. The financial statements subject to review are those of the entity, prepared by management of the entity with oversight from those charged with governance. This SRE does not impose responsibilities on management and those charged with governance, nor does it override laws and regulations that govern their respective responsibilities. However, a review in accordance with this SRE is conducted on the premise that management, and those charged with governance as appropriate, have acknowledged certain responsibilities that are fundamental to the conduct of the review. The review of the financial statements does not relieve management and those charged with governance of their responsibilities.

A47. As part of its responsibility for the preparation of the financial statements, management is required to exercise judgment in making accounting estimates that are reasonable in the circumstances, and to select and apply appropriate accounting policies. These judgments are made in the context of the applicable financial reporting framework.

I.628 Auditing Pronouncements

A48. Because of the significance of the preconditions for undertaking a review of financial statements, the practitioner is required under this SRE to obtain the agreement of management that it understands its responsibilities before accepting a review engagement. The practitioner may obtain management's agreement either orally or in writing. However, management's agreement is subsequently recorded within the written terms of the engagement.

A49. If management, and those charged with governance where appropriate, do not or will not acknowledge their responsibilities in relation to the financial statements, it is not appropriate to accept the engagement unless law or regulation requires the practitioner to do so. In circumstances where the practitioner is required to accept the review engagement, the practitioner may need to explain to management and those charged with governance, where different, the importance of these matters and the implications for the engagement.

Additional Considerations When the Wording of the Practitioner's Report is Prescribed by Law or Regulation (Ref: Para. 34-35)

A50. This SRE requires the practitioner to not represent compliance with this SRE unless the practitioner has complied with all the requirements of this SRE that are relevant to the review engagement. Law or regulation may prescribe matters in relation to an engagement that would ordinarily cause the practitioner to decline the engagement were it possible to do so, for example, if:

- The practitioner considers that the financial reporting framework prescribed by law or regulation is not acceptable; or
- The prescribed layout or wording of the practitioner's report is in a form or in terms that are significantly different from the layout or wording required by this SRE.

Under this SRE, a review conducted in these situations does not comply with this SRE and the practitioner cannot represent compliance with this SRE in the report issued for the engagement. Notwithstanding that the practitioner is not permitted to represent compliance with this SRE, the practitioner is, however, encouraged to apply this SRE, including the reporting requirements, to the extent practicable. When appropriate to avoid misunderstanding, the practitioner may consider including a statement in the report that the review is not conducted in accordance with this SRE.

Agreeing the Terms of Engagement

Engagement Letter or Other Form of Written Agreement (Ref: Para. 37)

A51. It is in the interests of both management and those charged with governance, and the practitioner, that the practitioner sends an engagement letter prior to performing the review engagement, to help avoid misunderstandings with respect to the engagement.

Form and content of the engagement letter

A52. The form and content of the engagement letter may vary for each engagement. In addition to including the matters required by this SRE, an engagement letter may make reference to, for example:

- Arrangements concerning the involvement of other practitioners and experts in the review engagement.
- Arrangements to be made with the predecessor practitioner, if any, in the case of an initial engagement.
- The fact that a review engagement will not satisfy any statutory or third party requirements for an audit.
- The expectation that management will provide written representations to the practitioner.
- The agreement of management to inform the practitioner of facts that may affect the financial statements of which management may become aware during the period from the date of the practitioner's report to the date the financial statements are issued.

- A request for management to acknowledge receipt of the engagement letter and to agree to the terms of the engagement outlined therein.

Review of components of groups of entities

A53. The auditor of the financial statements of a group of entities may request that a practitioner perform a review of the financial information of a component entity of the group. Depending on the instructions of the group auditor, a review of the financial information of a component may be performed in accordance with this SRE. The group auditor may also specify additional procedures to supplement the work done for the review performed under this SRE. Where the practitioner conducting the review is the auditor of the component entity's financial statements, the review is not performed in accordance with this SRE.

Responsibilities of Management prescribed by law or regulation (Ref: Para. 37(e))

A54. If, in the circumstances of the engagement, the practitioner concludes that it is not necessary to record certain terms of the engagement in an engagement letter, the practitioner is still required to seek the written agreement from management, and those charged with governance where appropriate, required under this SRE that they acknowledge and understand their responsibilities set out in this SRE. This written agreement may use the wording of the law or regulation if the law or regulation establishes responsibilities for management that are equivalent in effect to those described in this SRE.

Illustrative Engagement Letter (Ref: Para. 37)

A55. An illustrative engagement letter for a review engagement is set out in Appendix 1 to this SRE.

Recurring Engagements (Ref: Para. 38)

A56. The practitioner may decide not to send a new engagement letter or other written agreement each period. However, the following factors may indicate that it is appropriate to revise the terms of the review engagement or to remind management and those charged with governance, as appropriate, of the existing terms of the engagement:

- Any indication that management misunderstands the objective and scope of the review.
- Any revised or special terms of the engagement.
- A recent change of senior management of the entity.
- A significant change in ownership of the entity.
- A significant change in nature or size of the entity's business.
- A change in legal or regulatory requirements affecting the entity.
- A change in the applicable financial reporting framework.

Acceptance of a Change in the Terms of the Review Engagement

Request to Change the Terms of the Review Engagement (Ref: Para. 39)

A57. A request from the entity for the practitioner to change the terms of the review engagement may result from factors including:

- A change in circumstances affecting the need for the service.
- Misunderstanding as to the nature of a review engagement as originally requested.
- A restriction on the scope of the review engagement, whether imposed by management or caused by other circumstances.

A58. A change in circumstances that affects the entity's requirements or a misunderstanding concerning the nature of the service originally requested may be considered a reasonable basis for requesting a change to

I.630 Auditing Pronouncements

the terms of the review engagement.

A59. In contrast, a change may not be considered reasonable if it appears that the change relates to information that is incorrect, incomplete or otherwise unsatisfactory. An example might be where the practitioner is unable to obtain sufficient appropriate evidence for a material item in the financial statements, and management asks for the engagement to be changed to a related services engagement to avoid the expression of a modified conclusion by the practitioner.

Request to Change the Nature of the Engagement (Ref: Para. 40)

A60. Before agreeing to change a review engagement to another type of engagement or related service, a practitioner who was engaged to perform a review in accordance with this SRE may need to assess, in addition to the matters referred to in this SRE, any legal or contractual implications of the change.

A61. If the practitioner concludes that there is reasonable justification to change the review engagement to another type of engagement or related service, the work performed in the review engagement to the date of change may be relevant to the changed engagement; however, the work required to be performed and the report to be issued would be those appropriate to the revised engagement. In order to avoid confusing the reader, the report on the other engagement or related service would not include reference to:

- (a) The original review engagement; or
- (b) Any procedures that may have been performed in the original review engagement, except where the review engagement is changed to an engagement to perform agreed-upon procedures and thus reference to the procedures performed is a normal part of the report.

Communication with Management and Those Charged with Governance (Ref: Para. 42)

A62. In a review engagement, the practitioner's communications with management and those charged with governance take the form of:

- (a) Inquiries the practitioner makes in the course of performing the procedures for the review; and
- (b) Other communications, in the context of having effective two-way communication to understand matters arising and to develop a constructive working relationship for the engagement.

A63. The appropriate timing for communications will vary with the circumstances of the engagement. Relevant factors include the significance and nature of the matter, and any action expected to be taken by management or those charged with governance. For example, it may be appropriate to communicate a significant difficulty encountered during the review as soon as practicable if management or those charged with governance are able to assist the practitioner to overcome the difficulty.

A64. Law or regulation may restrict the practitioner's communication of certain matters with those charged with governance. For example, law or regulation may specifically prohibit a communication, or other action, that might prejudice an investigation by an appropriate authority into an actual, or suspected, illegal act. In some circumstances, potential conflicts between the practitioner's obligations of confidentiality and obligations to communicate may be complex. In such cases, the practitioner may consider obtaining legal advice.

Communicating Matters Concerning the Review

A65. Matters to be communicated to management or those charged with governance, as appropriate, under this SRE may include:

- The practitioner's responsibilities in the review engagement, as included in the engagement letter or other suitable form of written agreement.
- Significant findings from the review, for example:

- The practitioner's views about significant qualitative aspects of the entity's accounting practices, including accounting policies, accounting estimates and financial statement disclosures.
- Significant findings from the performance of procedures, including situations where the practitioner considered performance of additional procedures necessary under this SRE. The practitioner may need to confirm that those charged with governance have the same understanding of the facts and circumstances relevant to specific transactions or events.
- Matters arising that may lead to modification of the practitioner's conclusion.
- Significant difficulties, if any, encountered during the review; for example, unavailability of expected information; unexpected inability to obtain evidence that the practitioner considers necessary for the review; or restrictions imposed on the practitioner by management. In some circumstances, such difficulties may constitute a scope limitation that, if not addressed by management or those charged with governance, may lead to modification of the practitioner's conclusion or to the practitioner's withdrawal from the engagement in certain circumstances.

A66. In some entities, different persons are responsible for the management and the governance of an entity. In these circumstances, management may have the responsibility to communicate matters of governance interest to those charged with governance. Communication by management with those charged with governance of matters that the practitioner is required to communicate does not relieve the practitioner of the responsibility to also communicate them to those charged with governance. However, communication of these matters by management may affect the form or timing of the practitioner's communication with those charged with governance.

Communication with Third Parties

A67. In some entities, the practitioner may be required by law or regulation to, for example:

- Notify a regulatory or enforcement body of certain matters communicated with those charged with governance. For example, in some cases the practitioner has a duty to report misstatements to authorities where management and those charged with governance fail to take corrective action.
- Submit copies of certain reports prepared for those charged with governance to relevant regulatory or funding bodies or, in some cases, make such reports publicly available.

A68. Unless required by law or regulation to provide a third party with a copy of the practitioner's written communications with those charged with governance, the practitioner may need the prior consent of management or those charged with governance before doing so.

Performing the Engagement

Materiality in a Review of Financial Statements (Ref: Para. 43)

A69. The practitioner's consideration of materiality is made in the context of the applicable financial reporting framework. Some financial reporting frameworks discuss the concept of materiality in the context of the preparation and presentation of financial statements. Although financial reporting frameworks may discuss materiality in different terms, they generally explain that:

- Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements;
- Judgments about materiality are made in light of surrounding circumstances, and are affected by the size or nature of a misstatement, or a combination of both; and
- Judgments about matters that are material to users of the financial statements are based on a

I.632 Auditing Pronouncements

consideration of the common financial information needs of users as a group. The possible effect of misstatements on specific individual users, whose needs may vary widely, is not considered.

A70. If present in the applicable financial reporting framework, a discussion of the concept of materiality provides a frame of reference for the practitioner in determining materiality for the review. If not present, the above considerations provide the practitioner with a frame of reference.

A71. The practitioner's determination of materiality is a matter of professional judgment, and is affected by the practitioner's perception of the needs of the intended users of the financial statements. In this context, it is reasonable for the practitioner to assume that users:

- Have a reasonable knowledge of business and economic activities and accounting, and a willingness to study the information in the financial statements with reasonable diligence;
- Understand that financial statements are prepared, presented and reviewed to levels of materiality;
- Recognize the uncertainties inherent in the measurement of amounts based on the use of estimates, judgment and the consideration of future events; and
- Make reasonable economic decisions on the basis of the information in the financial statements.

Further, unless the review engagement is undertaken for financial statements that are intended to meet the particular needs of specific users, the possible effect of misstatements on specific users, whose information needs may vary widely, is not ordinarily considered.

A72. The practitioner's judgment about what is material in relation to the financial statements as a whole is the same regardless of the level of assurance obtained by a practitioner as the basis for expressing the conclusion on the financial statements.

Revising Materiality (Ref: Para. 44)

A73. The practitioner's determination of materiality for the financial statements as a whole may need to be revised during the engagement as a result of:

- A change in the circumstances that occurred during the review (for example, a decision to dispose of a major part of the entity's business).
- New information, or a change in the practitioner's understanding of the entity and its environment as a result of performing procedures for the review in accordance with this SRE (for example, if during the review it appears as though actual financial results are likely to be substantially different from the anticipated period-end financial results that were used initially to determine materiality for the financial statements as a whole).

The Practitioner's Understanding (Ref: Para. 45-46)

A74. The practitioner uses professional judgment to determine the extent of the understanding of the entity and its environment required to perform the review of the entity's financial statements in accordance with this SRE. The practitioner's primary consideration is whether the understanding obtained is sufficient to meet the practitioner's objectives for the engagement. The breadth and depth of the overall understanding that the practitioner obtains is less than that possessed by management.

A75. Obtaining an understanding of the entity and its environment is a continual dynamic process of gathering, updating and analyzing information throughout the review engagement. The practitioner's understanding is obtained and applied on an iterative basis throughout performance of the engagement, and is updated as changes in conditions and circumstances occur. Initial procedures for engagement acceptance and continuance at the time of commencement of a review engagement are based on the practitioner's preliminary understanding of the entity and of the engagement circumstances. In a continuing client

relationship, the practitioner's understanding includes knowledge obtained from prior engagements performed by the practitioner in relation to the entity's financial statements and other financial information.

A76. The understanding establishes a frame of reference within which the practitioner plans and performs the review engagement, and exercises professional judgment throughout the engagement. Specifically, the understanding needs to be sufficient for the practitioner to be able to identify areas in the financial statements where material misstatements are likely to arise, to inform the practitioner's approach to designing and performing procedures to address those areas.

A77. In obtaining an understanding of the entity and its environment, and of the applicable financial reporting framework, the practitioner may also consider:

- Whether the entity is a component of a group of entities, or an associated entity of another entity.
- The complexity of the financial reporting framework.
- The entity's financial reporting obligations or requirements, and whether those obligations or requirements exist under applicable law or regulation or in the context of voluntary financial reporting arrangements established under formalized governance or accountability arrangements, for example, under contractual arrangements with third parties.
- Relevant provisions of laws and regulations that are generally recognized to have a direct effect on the determination of material amounts and disclosures in the financial statements, such as tax and pension laws and regulations.
- The level of development of the entity's management and governance structure regarding management and oversight of the entity's accounting records and financial reporting systems that underpin preparation of the financial statements. Smaller entities often have fewer employees, which may influence how management exercises oversight. For example, segregation of duties may not be practicable. However, in a small owner-managed entity, the owner-manager may be able to exercise more effective oversight than in a larger entity. This oversight may compensate for the generally more limited opportunities for segregation of duties.
- The "tone at the top" and the entity's control environment through which the entity addresses risks relating to financial reporting and compliance with the entity's financial reporting obligations.
- The level of development and complexity of the entity's financial accounting and reporting systems and related controls through which the entity's accounting records and related information are maintained.
- The entity's procedures for recording, classifying and summarizing transactions, accumulating information for inclusion in the financial statements and related disclosures.
- The types of matters that required accounting adjustments in the entity's financial statements in prior periods.

Designing and Performing Procedures (Ref: Para. 47, 55)

A78. The planned nature, timing and extent of the procedures the practitioner considers are needed to obtain sufficient appropriate evidence as the basis for a conclusion on the financial statements as a whole are influenced by:

- (a) The requirements of this SRE; and
- (b) Requirements established under applicable law or regulation, including additional reporting requirements contained in applicable laws or regulations.

A79. When the practitioner is engaged to review the financial statements of a group of entities, the planned nature, timing and extent of the procedures for the review are directed at achieving the practitioner's

I.634 Auditing Pronouncements

objectives for the review engagement stated in this SRE, but in the context of the group financial statements.

A80. The requirements of this SRE relating to designing and performing inquiry and analytical procedures, and procedures addressing specific circumstances, are designed to enable the practitioner to achieve the objectives specified in this SRE. The circumstances of review engagements vary widely and, accordingly, there may be circumstances where the practitioner may consider it effective or efficient to design and perform other procedures. For example, if in the course of obtaining an understanding of the entity, the practitioner becomes aware of a significant contract the practitioner may choose to read the contract.

A81. The fact that the practitioner may deem it necessary to perform other procedures does not alter the practitioner's objective of obtaining limited assurance in relation to the financial statements as a whole.

Significant or Unusual Transactions

A82. The practitioner may consider, reviewing the accounting records with a view to identifying significant or unusual transactions that may require specific attention in the review.

Inquiry (Ref: Para. 46-48)

A83. In a review, inquiry includes seeking information of management and other persons within the entity, as the practitioner considers appropriate in the engagement circumstances. The practitioner may also extend inquiries to obtain non-financial data if appropriate. Evaluating the responses provided by management is integral to the inquiry process.

A84. Depending on the engagement circumstances, inquiries may also include inquiries about:

- Actions taken at meetings of owners, those charged with governance and committees thereof, and proceedings at other meetings, if any, that affect the information and disclosures contained in the financial statements.
- Communications the entity has received, or expects to receive or obtain, from regulatory agencies.
- Matters arising in the course of applying other procedures. When performing further inquiries in relation to identified inconsistencies, the practitioner considers the reasonableness and consistency of management's responses in light of the results obtained from other procedures, and the practitioner's knowledge and understanding of the entity and the industry in which it operates.

A85. Evidence obtained through inquiry is often the principal source of evidence about management intent. However, information available to support management's intent may be limited. In that case, understanding management's past history of carrying out its stated intentions, management's stated reasons for choosing a particular course of action, and management's ability to pursue a specific course of action may provide relevant information to corroborate the evidence obtained through inquiry. Application of professional skepticism in evaluating responses provided by management is important to enable the practitioner to evaluate whether there are any matter(s) that would cause the practitioner to believe the financial statements may be materially misstated.

A86. Performing inquiry procedures assists the practitioner also in obtaining or updating the practitioner's understanding of the entity and its environment, to be able to identify areas where material misstatements are likely to arise in the financial statements.

Inquiry about the entity's ability to continue as a going concern (Ref: Para. 48(f))

A87. Often in smaller entities, management may not have prepared an assessment of the entity's ability to continue as a going concern, but instead may rely on knowledge of the business and anticipated future prospects. In these circumstances, it may be appropriate to discuss the medium and long-term prospects and financing of the entity with management, including consideration of whether management's contentions are not inconsistent with the practitioner's understanding of the entity.

Analytical Procedures (Ref: Para. 46-47, 49)

A88. In a review of financial statements, performing analytical procedures assists the practitioner in:

- Obtaining or updating the practitioner's understanding of the entity and its environment, including to be able to identify areas where material misstatements are likely to arise in the financial statements.
- Identifying inconsistencies or variances from expected trends, values or norms in the financial statements such as the level of congruence of the financial statements with key data, including key performance indicators.
- Providing corroborative evidence in relation to other inquiry or analytical procedures already performed.
- Serving as additional procedures when the practitioner becomes aware of matter(s) that cause the practitioner to believe that the financial statements may be materially misstated. An example of such an additional procedure is a comparative analysis of monthly revenue and cost figures across profit centers, branches or other components of the entity, to provide evidence about financial information contained in line items or disclosures contained in the financial statements.

A89. Various methods may be used to perform analytical procedures. These methods range from performing simple comparisons to performing complex analysis using statistical techniques. The practitioner may, for example, apply analytical procedures to evaluate the financial information underlying the financial statements through analysis of plausible relationships among both financial and non-financial data, and assessment of results for consistency with expected values with a view to identifying relationships and individual items that appear unusual, or that vary from expected trends or values. The practitioner would compare recorded amounts, or ratios developed from recorded amounts, to expectations developed by the practitioner from information obtained from relevant sources. Examples of sources of information the practitioner often uses to develop expectations, depending on the engagement circumstances, include:

- Financial information for comparable prior period(s), taking known changes into account.
- Information about expected operating and financial results, such as budgets or forecasts including extrapolations from interim or annual data.
- Relationships among elements of financial information within the period.
- Information regarding the industry in which the entity operates, such as gross margin information, or comparison of the entity's ratio of sales to accounts receivable with industry averages or with other entities of comparable size in the same industry.
- Relationships of financial information with relevant non-financial information, such as payroll costs to number of employees.

A90. The practitioner's consideration of whether data to be used for analytical procedures are satisfactory for the intended purpose(s) of those procedures is based on the practitioner's understanding of the entity and its environment, and is influenced by the nature and source of the data, and by the circumstances in which the data are obtained. The following considerations may be relevant:

- Source of the information available. For example, information may be more reliable when it is obtained from independent sources outside the entity;
- Comparability of the information available. For example, broad industry data may need to be supplemented or be adjusted to be comparable to data of an entity that produces and sells specialized products;
- Nature and relevance of the information available; for example, whether the entity's budgets are established as results to be expected rather than as goals to be achieved; and

I.636 Auditing Pronouncements

- The knowledge and expertise involved in the preparation of the information, and related controls that are designed to ensure its completeness, accuracy and validity.
- Such controls may include, for example, controls over the preparation, review and maintenance of budgetary information.

Procedures to Address Specific Circumstances

Fraud and non-compliance with laws or regulations (Ref: Para. 52(d))

A91. Under this SRE, if the practitioner has identified or suspects fraud or illegal acts, the practitioner is required to determine whether there is a responsibility to report the occurrence or suspicion to a party outside the entity. Although the practitioner's professional duty to maintain the confidentiality of client information may preclude such reporting, the practitioner's legal responsibilities may override the duty of confidentiality in some circumstances.

Events or conditions that may cast doubt regarding use of the going concern assumption in the financial statements (Ref: Para. 54)

A92. The list of factors below gives examples of events or conditions that, individually or collectively, may cast significant doubt about the going concern assumption. The list is not all inclusive, and the existence of one or more of the items does not always signify that uncertainty exists about whether the entity can continue as a going concern.

Financial

- Net liability or net current liability position.
- Fixed-term borrowings approaching maturity without realistic prospects of renewal or repayment, or excessive reliance on short-term borrowings to finance long-term assets.
- Indications of withdrawal of financial support by creditors.
- Negative operating cash flows indicated by historical or prospective financial statements.
- Adverse key financial ratios.
- Substantial operating losses or significant deterioration in the value of assets used to generate cash flows.
- Arrears or discontinuance of dividends.
- Inability to pay creditors on due dates.
- Inability to comply with the terms of loan agreements.
- Change from credit to cash-on-delivery transactions with suppliers.
- Inability to obtain financing for essential new product development or other essential investments.

Operating

- Management intentions to liquidate the entity or to cease operations.
- Loss of key management without replacement.
- Loss of a major market, key customer(s), franchise, license, or principal supplier(s).
- Labor difficulties.
- Shortages of important supplies.
- Emergence of a highly successful competitor.

Other

- Non-compliance with capital or other statutory requirements.
- Pending legal or regulatory proceedings against the entity that may, if successful, result in claims that the entity is unlikely to be able to satisfy.
- Changes in law or regulation or government policy expected to adversely affect the entity.
- Uninsured or underinsured catastrophes when they occur.

The significance of such events or conditions often can be mitigated by other factors. For example, the effect of an entity being unable to make its normal debt repayments may be counter-balanced by management's plans to maintain adequate cash flows by alternative means, such as by disposing of assets, rescheduling loan repayments, or obtaining additional capital. Similarly, the loss of a principal supplier may be mitigated by the availability of a suitable alternative source of supply.

Reconciling the Financial Statements to the Underlying Accounting Records (Ref: Para. 56)

A93. The practitioner ordinarily obtains evidence that the financial statements agree with, or reconcile to, the underlying accounting records by tracing the financial statement amounts and balances to the relevant accounting records such as the general ledger, or to a summary record or schedule that reflects the agreement or reconciliation of the financial statement amounts with the underlying accounting records (such as a trial balance).

Performing Additional Procedures (Ref: Para. 57)

A94. Additional procedures are required under this SRE if the practitioner becomes aware of a matter that causes the practitioner to believe the financial statements may be materially misstated.

A95. The practitioner's response in undertaking additional procedures with respect to an item the practitioner has cause to believe may be materially misstated in the financial statements will vary, depending on the circumstances, and is a matter for the practitioner's professional judgment.

A96. The practitioner's judgment about the nature, timing and extent of additional procedures that are needed to obtain evidence to either conclude that a material misstatement is not likely, or determine that a material misstatement exists, is guided by:

- Information obtained from the practitioner's evaluation of the results of the procedures already performed;
- The practitioner's updated understanding of the entity and its environment obtained throughout the course of the engagement; and
- The practitioner's view on the persuasiveness of evidence needed to address the matter that causes the practitioner to believe that the financial statements may be materially misstated.

A97. Additional procedures focus on obtaining sufficient appropriate evidence to enable the practitioner to form a conclusion on matters that the practitioner believes may cause the financial statements to be materially misstated. The procedures may be:

- Additional inquiry or analytical procedures, for example, being performed in greater detail or being focused on the affected items (i.e. amounts or disclosures concerning the affected accounts or transactions as reflected in the financial statements); or
- Other types of procedures, for example, substantive test of details or external confirmations.

A98. The following example illustrates the practitioner's evaluation of the need to perform additional procedures, and the practitioner's response when the practitioner believes additional procedures are

necessary.

- In the course of performing the inquiry and analytical procedures for the review, the practitioner's analysis of accounts receivable shows a material amount of past due accounts receivable, for which there is no allowance for bad or doubtful debts.
- This causes the practitioner to believe that the accounts receivable balance in the financial statements may be materially misstated. The practitioner then inquires of management whether there are uncollectible accounts receivable that would need to be shown as being impaired.
- Depending on management's response, the practitioner's evaluation of the response may:
 - (a) Enable the practitioner to conclude that the accounts receivable balance is not likely to be materially misstated. In that case, no further procedures are required.
 - (b) Enable the practitioner to determine that the matter causes the financial statements to be materially misstated. No further procedures are required, and the practitioner would form the conclusion that the financial statements as a whole are materially misstated.
 - (c) Lead the practitioner to continue to believe that the accounts receivable balance is likely to be materially misstated, while not providing sufficient appropriate evidence for the practitioner to determine that they are in fact misstated. In that case, the practitioner is required to perform additional procedures, for example, requesting from management an analysis of amounts received for those accounts after the balance sheet date to identify uncollectible accounts receivable. The evaluation of the results of the additional procedures may enable the practitioner to get to (a) or (b) above. If not, the practitioner is required to:
 - (i) Continue performing additional procedures until the practitioner reaches either (a) or (b) above; or
 - (ii) If the practitioner is not able to either conclude that the matter is not likely to cause the financial statements as a whole to be materially misstated, or to determine that the matter does cause the financial statements as a whole to be materially misstated, then a scope limitation exists and the practitioner is not able to form an unmodified conclusion on the financial statements.

Written Representations (Ref: Para. 61-63)

A99. Written representations are an important source of evidence in a review engagement. If management modifies or does not provide the requested written representations, it may alert the practitioner to the possibility that one or more significant issues may exist. Further, a request for written, rather than oral, representations in many cases may prompt management to consider such matters more rigorously, thereby enhancing the quality of the representations.

A100. In addition to the written representations required under this SRE, the practitioner may consider it necessary to request other written representations about the financial statements. These may be needed, for example, to complete the practitioner's evidence with respect to certain items or disclosures reflected in the financial statements where the practitioner considers such representations to be important in forming a conclusion on the financial statements on either a modified or unmodified basis.

A101. In some cases, management may include in the written representations qualifying language to the effect that representations are made to the best of management's knowledge and belief. It is reasonable for the practitioner to accept such wording if the practitioner is satisfied that the representations are being made by those with appropriate responsibilities and knowledge of the matters included in the representations.

Evaluating Evidence Obtained from the Procedures Performed (Ref: Para. 66-68)

A102. In some circumstances, the practitioner may not have obtained the evidence that the practitioner had expected to obtain through the design of primarily inquiry and analytical procedures and procedures addressing specific circumstances. In these circumstances, the practitioner considers that the evidence obtained from the procedures performed is not sufficient and appropriate to be able to form a conclusion on the financial statements. The practitioner may:

- Extend the work performed; or
- Perform other procedures judged by the practitioner to be necessary in the circumstances.

Where neither of these is practicable in the circumstances, the practitioner will not be able to obtain sufficient appropriate evidence to be able to form a conclusion and is required by this SRE to determine the effect on the practitioner's report, or on the practitioner's ability to complete the engagement, for example, if a member of management is unavailable at the time of the review to respond to the practitioner's inquiries on significant matters. This situation may arise even though the practitioner has not become aware of a matter(s) that causes the practitioner to believe the financial statements may be materially misstated, as addressed in paragraph 57.

Scope Limitations

A103. Inability to perform a specific procedure does not constitute a limitation on the scope of the review if the practitioner is able to obtain sufficient appropriate evidence by performing other procedures.

A104. Limitations on the scope of the review imposed by management may have other implications for the review, such as for the practitioner's consideration of areas where the financial statements are likely to be materially misstated, and engagement continuance.

Forming the Practitioner's Conclusion on the Financial Statements

Description of the Applicable Financial Reporting Framework (Ref: Para. 69(a))

A105. The description of the applicable financial reporting framework in the financial statements is important because it advises users of the financial statements of the framework on which the financial statements are based. If the financial statements are special purpose financial statements, they may be prepared under a special purpose financial reporting framework that is available only to the engaging party and the practitioner. Description of the special purpose financial reporting framework used is important as the special purpose financial statements may not be appropriate for any use other than the intended use identified for the special purpose financial statements.

A106. A description of the applicable financial reporting framework that contains imprecise qualifying or limiting language (for example, "the financial statements are in substantial compliance with Accounting Standards issued by the ICAI or Accounting Standards notified by the Central Government under the Companies Act, 2013¹², or the Accounting Standards for Local Bodies issued by the ICAI, as may be applicable") is not an adequate description of that framework as it may mislead users of the financial statements.

Disclosure of Effects of Material Transactions and Events on Information Conveyed in the Financial Statements (Ref: Para. 69(b)(vi), 71)

A107. The practitioner is required under this SRE to evaluate whether the financial statements provide adequate disclosures to enable the intended users to understand the effect of material transactions and events on the entity's financial position, financial performance and cash flows.

¹² Read with the General Circular No. 15/2013 dated 13th September 2013 issued by the Ministry of Corporate Affairs.

I.640 Auditing Pronouncements

A108. In the case of financial statements prepared in accordance with the requirements of a fair presentation framework, management may need to include additional disclosures in the financial statements beyond those specifically required by the applicable financial reporting framework or, in extremely rare circumstances, to depart from a requirement in the framework, in order to achieve the fair presentation of the financial statements.

Considerations When a Compliance Framework is Used

A109. It will be extremely rare for the practitioner to consider financial statements prepared in accordance with a compliance framework to be misleading if, in accordance with this SRE, the practitioner has determined at the time of engagement acceptance that the framework is acceptable.

Qualitative Aspects of the Entity's Accounting Practices (Ref: Para. 70(b))

A110. In considering the qualitative aspects of the entity's accounting practices, the practitioner may become aware of possible bias in management's judgments. The practitioner may conclude that the cumulative effect of a lack of neutrality, together with the effect of apparent uncorrected misstatements, causes the financial statements as a whole to be materially misstated. Indicators of a lack of neutrality that may affect the practitioner's evaluation of whether the financial statements as a whole may be materially misstated include the following:

- The selective correction of apparent misstatements brought to management's attention during the review (for example, correcting misstatements with the effect of increasing reported earnings, but not correcting misstatements that have the effect of decreasing reported earnings).
- Possible management bias in the making of accounting estimates.

A111. Indicators of possible management bias do not necessarily mean there are misstatements for purposes of drawing conclusions on the reasonableness of individual accounting estimates. They may, however, affect the practitioner's consideration of whether the financial statements as a whole may be materially misstated.

Form of the Conclusion (Ref: Para. 74)

Description of the Information the Financial Statements Present

A112. In the case of financial statements prepared in accordance with a fair presentation framework, the practitioner's conclusion states that nothing has come to the practitioner's attention that causes the practitioner to believe that the financial statements do not give a true and fair view of ... (or do not present fairly, in all material respects, ...) in accordance with [the applicable fair presentation framework]. In the case of many general purpose frameworks, for example, the financial statements are required to give a true and fair view of (or fairly present) the financial position of the entity as at the end of a period, and the entity's financial performance and cash flows for that period.

"Gives a true and fair view" or "present fairly, in all material respects"

A113. Whether the phrase "gives a true and fair view" or the phrase "present fairly, in all material respects," is used in any particular entity is determined by the law or regulation governing the review of financial statements of that entity, or by generally accepted practice in that regard. Where the relevant law or regulation requires the use of different wording, this does not affect the requirement in this SREs for the practitioner to evaluate the fair presentation of financial statements prepared in accordance with a fair presentation framework.

Inability to Form a Conclusion Due to a Management-Imposed Limitation on the Scope of the Review after Engagement Acceptance (Ref: Para. 15, 82)

A114. The practicality of withdrawing from the engagement may depend on the stage of completion of the

engagement at the time that management imposes the scope limitation. If the practitioner has substantially completed the review, the practitioner may decide to complete the review to the extent possible, disclaim a conclusion and explain the scope limitation in the paragraph in the report that describes the basis for disclaiming a conclusion.

A115. In certain circumstances, withdrawal from the engagement may not be possible if the practitioner is required by law or regulation to continue the engagement. For example, this may be the case for a practitioner appointed to review the financial statements of a public sector entity. It may also be the case in entities where the practitioner is appointed to review the financial statements covering a specific period, or appointed for a specific period, and is prohibited from withdrawing before the completion of the review of those financial statements or before the end of that period, respectively. The practitioner may also consider it necessary to include an Other Matter paragraph in the practitioner's report to explain why it is not possible for the practitioner to withdraw from the engagement.

Communication with Regulators or the Entity's Owners

A116. When the practitioner concludes that withdrawal from the engagement is necessary because of a scope limitation, there may be a professional, legal or regulatory requirement for the practitioner to communicate matters relating to the withdrawal from the engagement to regulators or the entity's owners.

The Practitioner's Report (Ref: Para. 86-92)

A117. The written report encompasses reports issued in hard copy format and those using an electronic medium.

Elements of the Practitioner's Report (Ref: Para. 86)

A118. A title indicating the report is the report of an independent practitioner, for example, "Independent Practitioner's Review Report," affirms that the practitioner has met all of the relevant ethical requirements regarding independence and, therefore, distinguishes the independent practitioner's report from reports issued by others.

A119. Law or regulation applicable to the entity may specify to whom the practitioner's report is to be addressed. The practitioner's report is normally addressed to those for whom the report is prepared, often either to the shareholders or to those charged with governance of the entity whose financial statements are being reviewed.

A120. When the practitioner is aware that the financial statements that have been reviewed will be included in a document that contains other information, such as a financial report, the practitioner may consider, if the form of presentation allows, identifying the page numbers on which the financial statements that have been reviewed are presented. This helps users to identify the financial statements to which the practitioner's report relates.

Management's Responsibility for the Financial Statements (Ref: Para. 86(d))

A121. The requirement of this SRE that the practitioner must obtain management's agreement that it acknowledges and understands its responsibilities, both in relation to the preparation of the financial statements and in relation to the review engagement, is fundamental to performing the review and reporting on the engagement. The description of management's responsibilities in the practitioner's report provides context for readers of the practitioner's report about management's responsibilities, as they relate to the review engagement performed.

A122. The practitioner's report need not refer specifically to "management" but instead may use the term that is appropriate in the context of the legal framework applicable to the entity. In some entities, the appropriate reference is to those charged with governance of the entity.

I.642 Auditing Pronouncements

A123. There may be circumstances when it is appropriate for the practitioner to add to the description of management's responsibilities as described in this SRE to reflect additional responsibilities that are relevant to the preparation of the financial statements in the context of law or regulation applicable to the entity, or due to the type of entity.

A124. In some entities, law or regulation prescribing management's responsibilities may specifically refer to a responsibility for the adequacy of the accounting books and records, or accounting system. As books, records and systems are an integral part of internal control, this SRE does not use these descriptions or make any specific reference to them.

The Practitioner's Responsibility (Ref: Para. 86(f))

A125. The practitioner's report states that the practitioner's responsibility is to express a conclusion on the financial statements based on the review performed, in order to contrast the practitioner's responsibility with management's responsibility for preparation of the financial statements.

Reference to standards (Ref: Para. 86(f))

A126. The reference to the standards used by the practitioner for the review conveys to the users of the practitioner's report that the review has been conducted in accordance with established standards.

Communication of the Nature of a Review of Financial Statements (Ref: Para. 86(g))

A127. The description of the nature of a review engagement in the practitioner's report explains the scope and limitations of the engagement undertaken for the benefit of the readers of the report. This explanation clarifies, for avoidance of doubt, that the review is not an audit and that accordingly, the practitioner does not express an audit opinion on the financial statements.

Description of the Applicable Financial Reporting Framework and How it May Affect the Practitioner's Conclusion (Ref: Para. 86(h)(ii))

A128. The identification of the applicable financial reporting framework in the practitioner's conclusion is intended to advise users of the practitioner's report of the context in which that conclusion is expressed. It is not intended to limit the evaluation required in paragraph 30(a). The applicable financial reporting framework is identified in such terms as:

"... in accordance with the Financial Reporting Standards¹³ or

"... in accordance with accounting principles generally accepted in India ..."

A129. When the applicable financial reporting framework encompasses financial reporting standards and legal or regulatory requirements, the framework is identified in terms such as "... in accordance with the Financial Reporting Standards and the requirements of the applicable Act"

Basis for Modification Paragraph When the Conclusion is Modified (Ref: Para. 86(i)(ii))

A130. An adverse conclusion or a disclaimer of conclusion relating to a specific matter described in the basis for modification paragraph does not justify the omission of a description of other identified matters that would have otherwise required a modification of the practitioner's conclusion. In such cases, the disclosure of such other matters of which the practitioner is aware may be relevant to users of the financial statements.

Signature of the Practitioner (Ref: Para. 86(l))

A131. The report is signed by the practitioner who is the partner/ proprietor in his personal name. Where the firm is appointed as the reviewer, the report is signed in the personal name of the partner/ proprietor and in

¹³ Accounting Standards issued by the ICAI or Accounting Standards notified by the Central Government under the Companies Act, 2013 or Accounting Standards for Local Bodies issued by the ICAI, as may be applicable.

the name of the firm. The partner/proprietor signing the review report also needs to mention the membership number assigned by the Institute of Chartered Accountants of India. They also include the registration number of the firm, wherever applicable, as allotted by ICAI, in the review reports signed by them¹⁴.

Alerting Readers that the Financial Statements are Prepared in Accordance with a Special Purpose Framework (Ref: Para. 88)

A132. The special purpose financial statements may be used for purposes other than those for which they were intended. For example, a regulator may require certain entities to place the special purpose financial statements on public record. For avoidance of misunderstanding, it is important that the practitioner alert users of the practitioner's report that the financial statements are prepared in accordance with a special purpose framework and, therefore, may not be suitable for another purpose.

Restriction on Distribution or Use

A133. In addition to the alert to the reader of the practitioner's report that is required by this SRE when the financial statements are prepared using a special purpose framework, the practitioner may consider it appropriate to indicate that the practitioner's report is intended solely for the specific users. Depending on the law or regulation applicable to the entity, this may be achieved by restricting the distribution or use of the practitioner's report. In these circumstances, the paragraph containing the alert about the use of a special purpose framework may be expanded to include these other matters, and the heading modified accordingly.

Other Reporting Responsibilities (Ref: Para. 91)

A134. In some cases, the practitioner may have additional responsibilities under the relevant law or regulation to report on other matters that are supplementary to the practitioner's responsibility under this SRE. For example, the practitioner may be asked to report certain matters if they come to the practitioner's attention during the course of the review of the financial statements. Alternatively, the practitioner may be asked to perform and report on additional specified procedures, or to express a conclusion on specific matters, such as the adequacy of accounting books and records. Such law or regulation may provide guidance on the practitioner's responsibilities with respect to specific additional reporting responsibilities.

A135. In some cases, the relevant law or regulation may require or permit the practitioner to report on these other responsibilities within the practitioner's report on the financial statements. In other cases, the practitioner may be required or permitted to report on them in a separate report.

A136. These other reporting responsibilities are addressed in a separate section of the practitioner's report, to clearly distinguish them from the practitioner's responsibility under this SRE to report on the financial statements. Where relevant, this section may contain sub-heading(s) that describe(s) the content of the other reporting responsibility paragraph(s). In some cases, the additional reporting responsibilities may be addressed in a report that is separate from the practitioner's report provided for the review of the financial statements.

¹⁴ The Council of the ICAI, at its 292nd meeting held in January 2010, decided to require the members of the ICAI to include, in addition to the other requirements relating to signature on the audit report, as prescribed under the relevant Standard on Auditing, the registration number of the firm as allotted by ICAI, in the audit reports signed by them, and ensure that the resolution passed by the company regarding appointment of the statutory auditor of the company under section 224 of the Companies Act, 1956, also contain the registration number of the firm of the auditor(s) with the ICAI. These requirements came into effect from April 1, 2010. Subsequently, the Council of the ICAI, at its 296th meeting held in June 2010, decided to extend the requirement to mention the firm registration number to all reports issued pursuant to any attestation engagement, including certificates, issued by the members as proprietor of/ partner in the said firm. The requirement applies where such firm registration number has been allotted by the ICAI. The Council further decided to make this requirement effective for all attestation reports/ certificates issued on or after 1st October, 2010.

I.644 Auditing Pronouncements

Date of the Practitioner's Report (Ref: Para. 86(k), 92)

A137. The date of the practitioner's report informs the user of the practitioner's report that the practitioner has considered the effect of events and transactions of which the practitioner became aware and that occurred up to that date.

A138. The practitioner's conclusion is provided on the financial statements and the financial statements are the responsibility of management. The practitioner is not in a position to conclude that sufficient appropriate evidence has been obtained until the practitioner is satisfied that all the statements that comprise the financial statements, including the related notes, have been prepared and management has accepted responsibility for them.

A139. In some entities, law or regulation identifies the individuals or bodies (for example, the directors) that are responsible for concluding that all the statements that comprise the financial statements, including the related notes, have been prepared, and specifies the necessary approval process. In such cases, evidence is obtained of that approval before dating the report on the financial statements. In some entities, however, the approval process is not prescribed in law or regulation. In such cases, the procedures the entity follows in preparing and finalizing its financial statements in view of its management and governance structures are considered in order to identify the individuals or body with the authority to conclude that all the statements that comprise the financial statements, including the related notes, have been prepared. In some cases, law or regulation may identify the point in the financial statement reporting process at which the review is expected to be complete.

A140. In some entities, final approval of the financial statements by shareholders is required before the financial statements are issued publicly. In these entities, final approval by shareholders is not necessary for the practitioner to conclude on the financial statements. The date of approval of the financial statements for purposes of this SRE is the earlier date on which those with the recognized authority determine that all the statements that comprise the financial statements, including the related notes, have been prepared and that those with the recognized authority have asserted that they have taken responsibility for them.

Practitioner's Report Prescribed by Law or Regulation (Ref: Para. 34-35, 86)

A141. Consistency in the practitioner's report, when the review has been conducted in accordance with this SRE, promotes credibility in the global marketplace by making more readily identifiable those reviews of financial statements that have been conducted in accordance with globally recognized standards. The practitioner's report may refer to this SRE when the differences between the legal or regulatory requirements and this SRE relate only to the layout or wording of the practitioner's report and, at a minimum, the report complies with the requirements of paragraph 86 of this SRE. Accordingly, in such circumstances the practitioner is considered to have complied with the requirements of this SRE, even when the layout and wording used in the practitioner's report are specified by legal or regulatory reporting requirements. Where specific requirements applicable to the entity do not conflict with this SRE, adoption of the layout and wording used in this SRE assists users of the practitioner's report to more readily recognize the practitioner's report as a report on a review of financial statements conducted in accordance with this SRE. Circumstances where law or regulation prescribes the layout or wording of the practitioner's report in terms that are significantly different from the requirements of this SRE are addressed in the requirements of this SRE concerning acceptance of review engagements and continuance of client relationships.

Practitioner's Report for Reviews Conducted in Accordance with Both Relevant Legal or Regulatory Requirements and this SRE (Ref: Para. 86(f))

A142. When, in addition to complying with the requirements of this SRE, the practitioner also complies with other specific relevant legal or regulatory requirements, governing the review engagement, the report may refer to the review having been performed in accordance with both this SRE and such legal or regulatory

requirements for engagements to review financial statements. However, a reference to both this SRE and such legal or regulatory requirements is not appropriate if there is a conflict between the requirements of this SRE and those legal or regulatory requirements that would lead the practitioner to form a different conclusion or not to include an Emphasis of Matter paragraph that, in the particular circumstances, would be required by this SRE. In such a case, the practitioner's report refers only to the relevant standards (either this SRE or the relevant legal or regulatory requirements) in accordance with which the practitioner's report has been prepared.

Illustrative Review Reports (Ref: Para. 86)

A143. Appendix 2 to this SRE contains illustrations of practitioners' reports for a review of financial statements incorporating the reporting requirements of this SRE.

Documentation

Timeliness of Engagement Documentation (Ref: Para. 93)

A144. SQC 1 requires the firm to establish time limits that reflect the need to complete the assembly of final engagement files on a timely basis.

Material Modifications vis-a-vis ISRE 2400 (Revised), "Engagements to Review Historical Financial Statements"

There are no material modifications in SRE 2400 (Revised) vis-à-vis ISRE 2400 (Revised), "Engagements to Review Historical Financial Statements"

Appendix 1

(Ref: Para. A55)

Illustrative Engagement Letter for an Engagement to Review Historical Financial Statements

The following is an example of an engagement letter for a review of general purpose financial statements (prepared in accordance with the applicable fair presentation Financial Reporting Framework), which illustrates the relevant requirements and guidance contained in this SRE. This letter is not authoritative but is intended only to be a guide that may be used in conjunction with the considerations outlined in this SRE. It will need to be varied according to individual requirements and circumstances. It is drafted to refer to the review of financial statements for a single reporting period and would require adaptation if intended or expected to apply to recurring reviews. It may be appropriate to seek legal advice that any proposed letter is suitable.

To the appropriate representative of management or those charged with governance of ABC Company:¹⁵

[The objective and scope of the review]

You¹⁶ have requested that we review the general purpose financial statements of ABC Company, which comprise the Balance Sheet as at March 31, 20XX, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information. We are pleased to confirm our acceptance and our understanding of this review engagement by means of this letter.

Our review will be conducted with the objective of expressing our conclusion on the financial statements. Our conclusion, if unmodified, will be in the form "Based on our review, nothing has come to our attention that

¹⁵ The addressees and references in the letter would be those that are appropriate in the circumstances of the engagement. It is important to refer to the appropriate persons — see paragraph 36 of this SRE.

¹⁶ Throughout this letter, references to "you," "we," "us," "management," "those charged with governance" and "practitioner" would be used or amended as appropriate in the circumstances.

I.646 Auditing Pronouncements

causes us to believe that these financial statements do not give a true and fair view of (or do not present fairly, *in all material respects*,) the financial position of the company as at [date] and of its financial performance and cash flows for the year then ended in accordance with [indicate the applicable financial reporting framework].”

[The practitioner’s responsibilities]

We will conduct our review in accordance with Standard on Review Engagements (SRE) 2400 (Revised), Engagements to Review Historical Financial Statements. SRE 2400 (Revised) requires us to conclude whether anything has come to our attention that causes us to believe that the financial statements, taken as a whole, are not prepared in all material respects in accordance with the applicable financial reporting framework. SRE 2400 also requires us to comply with relevant ethical requirements.

A review of financial statements in accordance with SRE 2400(Revised) is a limited assurance engagement. We will perform procedures, primarily consisting of making inquiries of management and others within the entity, as appropriate, and applying analytical procedures, and evaluate the evidence obtained. We will also perform additional procedures if we become aware of matters that cause us to believe the financial statements as a whole may be materially misstated. These procedures are performed to enable us to express our conclusion on the financial statements in accordance with SRE 2400(Revised). The procedures selected will depend on what we consider necessary applying our professional judgment, based on our understanding of ABC Company and its environment, and our understanding of the applicable financial reporting framework and its application in the industry context.

A review is not an audit of the financial statements, therefore:

- (a) There is a commensurate higher risk than there would be in an audit, that any material misstatements that exist in the financial statements reviewed may not be revealed by the review, even though the review is properly performed in accordance with SRE 2400 (Revised).
- (b) In expressing our conclusion from the review of the financial statements, our report on the financial statements will expressly disclaim any audit opinion on the financial statements.

[The responsibilities of management and identification of the applicable financial reporting framework (for purposes of this example, it is assumed that the practitioner has not determined that the law or regulation prescribes those responsibilities in appropriate terms; the descriptions in paragraph 30(b) of this SRE are therefore used).]

Our review will be conducted on the basis that [management and, where appropriate, those charged with governance]¹⁷ acknowledge and understand that they have the responsibility:

- (a) For the preparation of financial statements that give a true and fair view in accordance with [indicate the applicable financial reporting framework];¹⁸
- (b) For such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; and
- (c) To provide us with:
 - (i) Access to all information of which management is aware that is relevant to the preparation and fair presentation of the financial statements, such as records, documentation and other matters;
 - (ii) Additional information that we may request from management for the purpose of the review; and

¹⁷ Use terminology as appropriate in the circumstances.

¹⁸ Or, if appropriate, “For preparation and fair presentation of the financial statements in accordance with [indicate the applicable financial reporting framework]”

- (iii) Unrestricted access to persons within ABC Company from whom we determine it necessary to obtain evidence.

As part of our review, we will request from [management and, where appropriate, those charged with governance], written confirmation concerning representations made to us in connection with the review.

We look forward to full cooperation from your staff during our review.

[Other relevant information]

[Insert other information, such as fee arrangements, billings and other specific terms, as appropriate.]

[Reporting]

[Insert appropriate reference to the expected form and content of the practitioner's report.]

The form and content of our report may need to be amended in the light of our findings obtained from the review.

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our review of the financial statements including our respective responsibilities.

Illustrative Practitioners' Review Reports

Review Reports on General Purpose Financial Statements

Illustrative Review Reports with Unmodified Conclusions

Illustration 1: A practitioner's report on financial statements prepared in accordance with a fair presentation framework designed to meet the common financial information needs of a wide range of users (for example, Accounting Standards referred to in the Companies Act, 2013).

Illustrative Review Reports with Modified Conclusions

Illustration 2: A practitioner's report containing a qualified conclusion due to an apparent material misstatement of the financial statements. Financial statements prepared in accordance with a compliance framework designed to meet the common information needs of a wide range of users. (Financial statements prepared using a compliance framework)

Illustration 3: A practitioner's report containing a qualified conclusion due to the practitioner's inability to obtain sufficient appropriate evidence. (Financial statements prepared using a fair presentation framework)

Illustration 4: A practitioner's report containing an adverse conclusion due to material misstatement of the financial statements. (Financial statements prepared using a fair presentation framework)

Illustration 5: A practitioner's report containing a disclaimer of conclusion due to the practitioner's inability to obtain sufficient appropriate evidence about multiple elements of the financial statements resulting in inability to complete the review. (Financial statements prepared using a fair presentation framework)

Review Reports on Special Purpose Financial Statements

Illustration 6: A practitioner's report on financial statements prepared in accordance with the financial reporting provisions of a contract (for purposes of this illustration, a compliance framework).

Illustration 7: A practitioner's report on a single financial statement prepared in accordance with the cash receipts and disbursements basis of accounting (for purposes of this illustration, a fair presentation framework).

Illustration 1

Circumstances include the following:

- Review of a complete set of financial statements.
- The financial statements are prepared for a general purpose by management of the entity under the Companies Act, 2013 financial reporting framework, designed to achieve fair presentation
- The terms of the review engagement reflect the description of management's responsibility for the financial statements in paragraph 30(b) of this SRE.
- In addition to the review of the financial statements, the practitioner has other reporting responsibilities under the law.

INDEPENDENT PRACTITIONER'S REVIEW REPORT

[Appropriate Addressee]

Report on the Financial Statements²⁰

We have reviewed the accompanying financial statements of ABC Company, which comprise the Balance Sheet as at March 31, 20XX, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's²¹ Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Accounting Standards referred to in the Companies Act, 2013 (the Act) and other accounting principles generally accepted in India²², and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Practitioner's Responsibility

Our responsibility is to express a conclusion on the accompanying financial statements. We conducted our review in accordance with Standard on Review Engagements (SRE) 2400 (Revised), Engagements to Review Historical Financial Statements. SRE 2400 (Revised) requires us to conclude whether anything has come to our attention that causes us to believe that the financial statements, taken as a whole, are not prepared in all material respects in accordance with the applicable financial reporting framework. This Standard also requires us to comply with relevant ethical requirements.

A review of financial statements in accordance with SRE 2400 (Revised) is a limited assurance engagement. The practitioner performs procedures, primarily consisting of making inquiries of management and others within the entity, as appropriate, and applying analytical procedures, and evaluates the evidence obtained.

The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with Standards on Auditing. Accordingly, we do not express an audit opinion on these financial statements.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that these financial statements do not give a true and fair view of (or *present fairly, in all material respects,*) the financial position of ABC Company as at March 31, 20XX, and of its financial performance and cash flows for the year then ended, in accordance with the Accounting Standards referred to in the Companies Act, 2013 and other accounting principles generally accepted in India.

²⁰ The sub-title "Report on the Financial Statements" is unnecessary in circumstances when the second sub-title "Report on Other Legal and Regulatory Requirements" is not applicable.

²¹ Or other term that is appropriate in the context of the legal framework applicable to the particular entity.

²² Where management is responsible for the preparation and fair presentation of financial statements, this may read: "Management is responsible for the preparation and fair presentation of these financial statements in accordance with the Accounting Standards referred to in the Companies Act, 2013 (the Act) and other accounting principles generally accepted in India, and for such ..."

Circumstances include the following:

- Review of a complete set of financial statements required by law or regulation.
- The financial statements are prepared for a general purpose by management of the entity in accordance with the Financial Reporting Framework (DEF Law) (that is, a financial reporting framework, encompassing law or regulation, designed to meet the common financial information needs of a wide range of users, but which is not a fair presentation framework).
- The terms of the review engagement reflect the description of management's responsibility for the financial statements in paragraph 30(b) of this SRE.
- Based on the review, inventories are misstated. The misstatement is material but not pervasive to the financial statements.
- In addition to the review of the financial statements, the practitioner has other reporting responsibilities under the law.

INDEPENDENT PRACTITIONER'S REVIEW REPORT

[Appropriate Addressee]

Report on the Financial Statements²⁴

We have reviewed the accompanying financial statements of ABC Company, which comprise the Balance Sheet as at March 31, 20XX, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's²⁵ Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements in accordance with DEF Law, and for such internal control as management determines is necessary to enable the preparation of financial

²³ Partner or proprietor, as the case may be.

²⁴ The sub-title "Report on the Financial Statements" is unnecessary in circumstances when the second sub-title "Report on Other Legal and Regulatory Requirements" is not applicable.

²⁵ Or other term that is appropriate in the context of the legal framework applicable to the particular entity.

statements that are free from material misstatement, whether due to fraud or error.

Practitioner's Responsibility

Our responsibility is to express a conclusion on the accompanying financial statements. We conducted our review in accordance with Standard on Review Engagements (SRE) 2400 (Revised), Engagements to Review Historical Financial Statements. SRE 2400 (Revised) requires us to conclude whether anything has come to our attention that causes us to believe that the financial statements, taken as a whole, are not prepared in all material respects in accordance with the applicable financial reporting framework. This Standard also requires us to comply with relevant ethical requirements.

A review of financial statements in accordance with SRE 2400 (Revised) is a limited assurance engagement. The practitioner performs procedures, primarily consisting of making inquiries of management and others within the entity, as appropriate, and applying analytical procedures, and evaluates the evidence obtained.

The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with Standards on Auditing. Accordingly, we do not express an audit opinion on these financial statements.

Basis for Qualified Conclusion

The company's inventories are carried in the Balance Sheet at Rs. XXX. Management has not stated the inventories at the lower of cost and net realizable value but has stated them solely at cost, which constitutes a departure from the requirements of the Financial Reporting Framework (DEF Law). The company's records indicate that, had management stated the inventories at the lower of cost and net realizable value, an amount of Rs. XXX would have been required to write the inventories down to their net realizable value. Accordingly, cost of sales would have been increased by Rs. XXX, and income tax, net income and shareholders' equity would have been reduced by Rs. XXX, XXX and XXX, respectively.

Qualified Conclusion

Based on our review, except for the effects of the matter described in the Basis for Qualified Conclusion paragraph, nothing has come to our attention that causes us to believe that the financial statements of ABC Company are not prepared, in all material respects, in accordance with the Financial Reporting Framework (DEF Law).

Circumstances include the following:

- Review of a complete set of general purpose financial statements prepared by management of the entity under the Companies Act, 2013 financial reporting framework, designed to achieve fair presentation.
- The terms of the review engagement reflect the description of management's responsibility for the financial statements in paragraph 30(b) of this SRE.
- The practitioner was unable to obtain sufficient appropriate evidence regarding an investment in a foreign affiliate. The possible effects of the inability to obtain sufficient appropriate evidence are deemed to be material but not pervasive to the financial statements.
- The practitioner does not have other reporting responsibilities under the law in addition to the review of the consolidated financial statements.

INDEPENDENT PRACTITIONER'S REVIEW REPORT

[Appropriate Addressee]

We have reviewed the accompanying financial statements of ABC Company, which comprise the Balance Sheet as at March 31, 20XX, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's²⁷ Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Accounting Standards referred to in the Companies Act, 2013 (the Act) and other accounting principles generally accepted in India,²⁸ and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Practitioner's Responsibility

Our responsibility is to express a conclusion on the accompanying financial statements. We conducted our review in accordance with Standard on Review Engagements (SRE) 2400 (Revised), Engagements to Review Historical Financial Statements. SRE 2400 (Revised) requires us to conclude whether anything has come to our attention that causes us to believe that the financial statements, taken as a whole, are not prepared in all material respects in accordance with the applicable financial reporting framework. This Standard also requires us to comply with relevant ethical requirements.

A review of financial statements in accordance with SRE 2400 (Revised) is a limited assurance engagement. The practitioner performs procedures, primarily consisting of making inquiries of management and others within the entity, as appropriate, and applying analytical procedures, and evaluates the evidence obtained.

The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with Standards on Auditing. Accordingly, we do not express an audit opinion on these financial statements.

Basis for Qualified Conclusion

ABC Company's investment in DEF Company, a foreign associate acquired during the year and accounted for by the equity method, is carried at Rs. XXX on the Balance Sheet as at March 31, 20XX, and ABC's

²⁷ Or other term that is appropriate in the context of the legal framework applicable to the particular entity.

²⁸ Where management is responsible for the preparation and fair presentation of financial statements, this may read: "Management is responsible for the preparation and fair presentation of these financial statements in accordance with the Accounting Standards referred to in Companies Act, 2013 (the Act) and other accounting principles generally accepted in India, and for such ..."

share of DEF 's net income of Rs. XXX is included in ABC's income for the year then ended. We were unable to obtain access to the relevant financial information of DEF concerning the carrying amount of ABC's investment in DEF as at March 31, 20XX and ABC's share of DEF's net income for the year. Consequently, we were unable to perform the procedures we considered necessary.

Qualified Conclusion

Based on our review, except for the possible effects of the matter described in the Basis for Qualified Conclusion paragraph, nothing has come to our attention that causes us to believe that the accompanying financial statements do not give a true and fair view of (or do not *present fairly, in all material respects*) the financial position of ABC Company as at March 31, 20XX, and of its financial performance and cash flows for the year then ended in accordance with the Accounting Standards referred to in Companies Act, 2013 and other accounting principles generally accepted in India.

Circumstances include the following:

- Review of consolidated general purpose financial statements prepared by management of the parent under the accounting principles generally accepted in India (as required for compliance with SEBI's regulatory requirements), designed to achieve fair presentation .
- The terms of the review engagement reflect the description of management's responsibility for the financial statements in paragraph 30(b) of this SRE.
- The financial statements are materially misstated due to the non-consolidation of a subsidiary. The material misstatement is deemed to be pervasive to the financial statements. The effects of the misstatement on the financial statements have not been determined because it was not practicable to do so.
- The practitioner does not have other reporting responsibilities under the law in addition to the review of the consolidated financial statements.

INDEPENDENT PRACTITIONER'S REVIEW REPORT

[Appropriate Addressee]

We have reviewed the accompanying consolidated financial statements of ABC Company, which comprise the consolidated Balance Sheet as at March 31, 20XX, and the consolidated Statement of Profit and Loss

²⁹ Partner or proprietor, as the case may be.

and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's³⁰ Responsibility for the Financial Statements

Management is responsible for the preparation of these consolidated financial statements that give a true and fair view in accordance with the accounting principles generally accepted in India,³¹ and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Practitioner's Responsibility

Our responsibility is to express a conclusion on the accompanying consolidated financial statements. We conducted our review in accordance with Standard on Review Engagements (SRE) 2400 (Revised), Engagements to Review Historical Financial Statements. SRE 2400 (Revised) requires us to conclude whether anything has come to our attention that causes us to believe that the consolidated financial statements, taken as a whole, are not prepared in all material respects in accordance with the applicable financial reporting framework. This Standard also requires us to comply with relevant ethical requirements.

A review of consolidated financial statements in accordance with SRE 2400 (Revised) is a limited assurance engagement. The practitioner performs procedures, primarily consisting of making inquiries of management and others within the entity, as appropriate, and applying analytical procedures, and evaluates the evidence obtained.

The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with Standards on Auditing. Accordingly, we do not express an audit opinion on these consolidated financial statements.

Basis for Adverse Conclusion

As explained in Note X to the Financial Statements, the company has not consolidated the financial statements of subsidiary DEF Company it acquired during 20XX because the financial statements of this subsidiary company have not been prepared by its management. This investment is therefore accounted for on a cost basis. Under the accounting principles generally accepted in India, the subsidiary should have been consolidated because it is controlled by the company. Had DEF been consolidated, many elements in the accompanying financial statements would have been materially affected.

Adverse Conclusion

Based on our review, due to the significance of the matter discussed in the Basis for Adverse Conclusion paragraph, the consolidated financial statements do not give a true and fair view of (or do not present fairly) the financial position of ABC Company and its subsidiaries as at March 31, 20XX, and of their financial performance and cash flows for the year then ended in accordance with the accounting principles generally accepted in India.

Circumstances include the following:

- Review of a complete set of general purpose financial statements prepared by management of the entity under the Companies Act, 2013 financial reporting framework, designed to achieve fair presentation.
- The terms of the review engagement reflect the description of management's responsibility for the financial statements in paragraph 30(b) of this SRE.
- The practitioner was unable to form a conclusion on the financial statements, due to inability to obtain sufficient appropriate evidence about multiple elements of the financial statements, and the practitioner believes the effect is material and pervasive to the financial statements. Specifically, the practitioner was unable to obtain evidence about the entity's physical inventory and accounts receivable.

INDEPENDENT PRACTITIONER'S REVIEW REPORT

[Appropriate Addressee]

We were engaged to review the accompanying financial statements of ABC Company, which comprise the Balance Sheet as at March 31, 20XX, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's³³ Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Accounting Standards referred to in the Companies Act, 2013 (the Act) and other accounting principles generally accepted in India,³⁴ and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Practitioner's Responsibility

Our responsibility is to express a conclusion on the accompanying financial statements. Because of the matter(s) described in the Basis for Disclaimer of Conclusion paragraph, however, we were not able to obtain sufficient appropriate evidence as a basis for expressing a conclusion on the financial statements.

Basis for Disclaimer of Conclusion

Management did not conduct a count of physical inventory on hand at the end of the year. We were unable to perform the procedures we considered necessary concerning the inventory quantities held at March 31, 20XX, which are stated at Rs. XXX in the Balance Sheet at March 31, 20XX.

³² Partner or proprietor, as the case may be.

³³ Or other term that is appropriate in the context of the legal framework applicable to the particular entity.

³⁴ Where management is responsible for the preparation and fair presentation of financial statements, this may read: "Management is responsible for the preparation and fair presentation of these financial statements in accordance with the Accounting Standards referred to in the Companies Act, 2013 and other accounting principles generally accepted in India, and for such ..."

I.656 Auditing Pronouncements

In addition, the introduction of a new computerized accounts receivable system in January 20XX resulted in numerous errors in accounts receivable and inventory. As of the date of our report, management was still in the process of rectifying the system deficiencies and correcting the errors.

As a result of these matters, we were unable to determine whether any adjustments might have been found necessary in respect of recorded or unrecorded inventories and accounts receivable, and the elements making up the Statement of Profit and Loss and Cash Flow Statement.

Disclaimer of Conclusion

Due to the significance of the matters described in the Basis for Disclaimer of Conclusion paragraph, we were unable to obtain sufficient appropriate evidence to form a conclusion on the accompanying financial statements. Accordingly, we do not express a conclusion on these financial statements.

Circumstances include the following:

- The financial statements have been prepared by management of the entity in accordance with the financial reporting provisions of a contract (that is, a special purpose framework), to comply with the provisions of the contract. Management does not have a choice of financial reporting frameworks.
- The applicable financial reporting framework is a compliance framework.
- The terms of the review engagement reflect the description of management's responsibility for the financial statements in paragraph 30(b) of this SRE.
- Distribution or use of the practitioner's report is restricted.

INDEPENDENT PRACTITIONER'S REVIEW REPORT

[Appropriate Addressee]

We have reviewed the accompanying financial statements of ABC Company, which comprise the balance sheet as at March 31, 20XX, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information. The financial statements have been prepared by management of ABC Company based on the financial reporting provisions of Section Z of the contract dated January 1, 20XX between ABC Company and DEF Company ("the contract").

³⁵ Partner or proprietor, as the case may be.

Management's³⁶ Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements in accordance with the financial reporting provisions of Section Z of the contract, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Practitioner's Responsibility

Our responsibility is to express a conclusion on the accompanying financial statements. We conducted our review in accordance with Standard on Review Engagements (SRE) 2400(Revised), Engagements to Review Historical Financial Statements. SRE 2400 (Revised) requires us to conclude whether anything has come to our attention that causes us to believe that the financial statements, taken as a whole, are not prepared in all material respects in accordance with the applicable financial reporting framework. This Standard also requires us to comply with relevant ethical requirements.

A review of financial statements in accordance with SRE 2400(Revised) is a limited assurance engagement. The practitioner performs procedures, primarily consisting of making inquiries of management and others within the entity, as appropriate, and applying analytical procedures, and evaluates the evidence obtained.

The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with Standards on Auditing. Accordingly, we do not express an audit opinion on these financial statements.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that these financial statements are not prepared, in all material respects, in accordance with the financial reporting provisions of Section Z of the contract.

Basis of Accounting, and Restriction on Distribution and Use

Without modifying our conclusion, we draw attention to Note X to the financial statements, which describes the basis of accounting. The financial statements are prepared to assist ABC Company to comply with the financial reporting provisions of the contract referred to above. As a result, the financial statements may not be suitable for another purpose. Our report is intended solely for ABC Company and DEF Company and should not be distributed to or used by parties other than ABC Company or DEF Company.

Circumstances include the following:

- Review of a statement of cash receipts and disbursements.
- The financial statement has been prepared by management of the entity in accordance with the cash receipts and disbursements basis of accounting to respond to a request for cash flow information received from a creditor. The basis of accounting applied to prepare the financial statement has been agreed between the entity and the creditor.
- The applicable financial reporting framework is a fair presentation framework designed to meet the financial information needs of specific users.
- The practitioner has determined that it is appropriate to use the phrase “presents fairly, in all material respects,” in the practitioner’s conclusion.
- The terms of the review engagement reflect the description of management’s responsibility for the financial statement in paragraph 30(b) of this SRE.
- Distribution or use of the practitioner’s report is not restricted.

INDEPENDENT PRACTITIONER’S REVIEW REPORT

[Appropriate Addressee]

We have reviewed the accompanying statement of cash receipts and disbursements of ABC Company for the year ended March 31, 20XX, and a summary of significant accounting policies and other explanatory information (together “the financial statement”). The financial statement has been prepared by management of ABC Company using the cash receipts and disbursements basis of accounting described in Note X to the financial statement.

Management’s³⁸ Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of this financial statement in accordance with the cash receipts and disbursements basis of accounting described in Note X, and for such internal control as management determines is necessary to enable the preparation of the financial statement that is free from material misstatement, whether due to fraud or error.

Practitioner’s Responsibility

Our responsibility is to express a conclusion on the accompanying financial statement. We conducted our review in accordance with Standard on Review Engagements (SRE) 2400 (Revised), Engagements to Review Historical Financial Statements. SRE 2400 (Revised) requires us to conclude whether anything has come to our attention that causes us to believe that the financial statement is not prepared in all material respects in accordance with the applicable financial reporting framework. This Standard also requires us to comply with relevant ethical requirements.

A review of financial statements in accordance with SRE 2400 (Revised) is a limited assurance engagement. The practitioner performs procedures, primarily consisting of making inquiries of management and others within the entity, as appropriate, and applying analytical procedures, and evaluates the evidence obtained.

The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with Standards on Auditing. Accordingly, we do not express an audit opinion on this financial statement.

³⁸ Or other term that is appropriate in the context of the legal framework applicable to the particular entity.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the financial statement does not present fairly, in all material respects, (or does not give a true and fair view of) the cash receipts and disbursements of ABC Company for the year ended March 31, 20XX in accordance with the cash receipts and disbursements basis of accounting described in Note X.

Basis of Accounting

Without modifying our conclusion, we draw attention to Note X to the financial statement, which describes the basis of accounting. The financial statement is prepared to provide information to DEF Creditor. As a result, the financial statement may not be suitable for another purpose.

SRE 2410*

**Review of Interim Financial Information Performed
by the Independent Auditor of the Entity**
*(Effective for reviews of interim financial information for
periods beginning on or after April 1, 2010)*

Introduction

1. The purpose of this Standard on Review Engagements (SRE) is to establish standards and provide guidance on the auditor's professional responsibilities when the auditor undertakes an engagement to review interim financial information of an audit client, and on the form and content of the report. The term "auditor" is used throughout this SRE, not because the auditor is performing an audit function but because the scope of this SRE is limited to a review of interim financial information performed by the independent auditor of the financial statements of the entity.

2. For purposes of this SRE, interim financial information is financial information that is prepared and presented in accordance with an applicable financial reporting framework¹ and comprises either a complete or a condensed set of financial statements for a period that is shorter than the entity's financial year.

3. **The auditor who is engaged to perform a review of interim financial information should perform the review in accordance with this SRE.** Through performing the audit of the annual financial statements, the auditor obtains an understanding of the entity and its environment, including its internal control. When the auditor is engaged to review the interim financial information, this understanding is updated through inquiries made in the course of the review, and assists the auditor in focusing the inquiries to be made and the analytical and other review procedures to be applied. A practitioner who is engaged to perform a review of interim financial information, and who is not the auditor of the entity, performs the review in accordance with SRE 2400 (Revised), "Engagements to Review Financial Statements." As the practitioner does not ordinarily have the same understanding of the entity and its environment, including its internal control, as the auditor of the entity, the practitioner needs to carry out different inquiries and procedures to meet the objective of the review.

3a. This SRE is directed towards a review of interim financial information by an entity's auditor. However, it is to be applied, adapted as necessary in the circumstances, when an entity's auditor undertakes an engagement to review historical financial information other than interim financial information of an audit client.

General Principles of a Review of Interim Financial Information

4. **The auditor should comply with the ethical requirements relevant to the audit of the annual financial statements of the entity.** These ethical requirements govern the auditor's professional responsibilities in the following areas: independence, integrity, objectivity, professional competence and due care, confidentiality, professional behavior, and technical standards.

* Published in May, 2010 issue of the Journal.

¹ For example, Accounting Standards issued by the Institute of Chartered Accountants of India (ICAI) or Accounting Standards, notified by the Central Government by publishing the same as the Companies (Accounting Standards) Rules, 2006, or the Accounting Standards for Local Bodies issued by the ICAI, as may be applicable.

5. **The auditor should implement quality control procedures that are applicable to the individual engagement.** The elements of quality control that are relevant to an individual engagement include leadership responsibilities for quality on the engagement, ethical requirements, acceptance and continuance of client relationships and specific engagements, assignment of engagement teams, engagement performance, and monitoring.

6. **The auditor should plan and perform the review with an attitude of professional skepticism, recognizing that circumstances may exist that cause the interim financial information to require a material adjustment for it to be prepared, in all material respects, in accordance with the applicable financial reporting framework.** An attitude of professional skepticism means that the auditor makes a critical assessment, with a questioning mind, of the validity of evidence obtained and is alert to evidence that contradicts or brings into question the reliability of documents or representations by management of the entity.

Objective of an Engagement to Review Interim Financial Information

7. The objective of an engagement to review interim financial information is to enable the auditor to express a conclusion whether, on the basis of the review, anything has come to the auditor's attention that causes the auditor to believe that the interim financial information is not prepared, in all material respects, in accordance with an applicable financial reporting framework. The auditor makes inquiries, and performs analytical and other review procedures in order to reduce to a moderate level the risk of expressing an inappropriate conclusion when the interim financial information is materially misstated.

8. The objective of a review of interim financial information differs significantly from that of an audit conducted in accordance with Standards on Auditing (SAs). A review of interim financial information does not provide a basis for expressing an opinion whether the financial information gives a true and fair view, or is presented fairly, in all material respects, in accordance with an applicable financial reporting framework.

9. A review, in contrast to an audit, is not designed to obtain reasonable assurance that the interim financial information is free from material misstatement. A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review may bring significant matters affecting the interim financial information to the auditor's attention, but it does not provide all of the evidence that would be required in an audit.

Agreeing the Terms of the Engagement

10. **The auditor and the client should agree on the terms of the engagement.**

11. The agreed terms of the engagement are ordinarily recorded in an engagement letter. Such a communication helps to avoid misunderstandings regarding the nature of the engagement and, in particular, the objective and scope of the review, management's responsibilities, the extent of the auditor's responsibilities, the assurance obtained, and the nature and form of the report. The communication ordinarily covers the following matters:

- The objective of a review of interim financial information.
- The scope of the review.
- Management's responsibility for the interim financial information.
- Management's responsibility for establishing and maintaining effective internal control relevant to the preparation of interim financial information.
- Management's responsibility for making all financial records and related information available to the auditor

I.662 Auditing Pronouncements

- Management's agreement to provide written representations to the auditor to confirm representations made orally during the review, as well as representations that are implicit in the entity's records.
- The anticipated form and content of the report to be issued, including the identity of the addressee of the report.
- Management's agreement that where any document containing interim financial information indicates that the interim financial information has been reviewed by the entity's auditor, the review report will also be included in the document.

An illustrative engagement letter is set out in Appendix 1 to this SRE. The terms of engagement to review interim financial information can also be combined with the terms of engagement to audit the annual financial statements.

Procedures for a Review of Interim Financial Information

Understanding the Entity and its Environment, Including its Internal Control

12. The auditor should have an understanding of the entity and its environment, including its internal control, as it relates to the preparation of both annual and interim financial information, sufficient to plan and conduct the engagement so as to be able to:

- (a) Identify the types of potential material misstatement and consider the likelihood of their occurrence; and**
- (b) Select the inquiries, analytical and other review procedures that will provide the auditor with a basis for reporting whether anything has come to the auditor's attention that causes the auditor to believe that the interim financial information is not prepared, in all material respects, in accordance with the applicable financial reporting framework.**

13. As required by SA 315, "Identifying and Assessing the Risks of Material Misstatement Through Understanding the Entity and its Environment," the auditor who has audited the entity's financial statements for one or more annual periods has obtained an understanding of the entity and its environment, including its internal control, as it relates to the preparation of annual financial information that was sufficient to conduct the audit. In planning a review of interim financial information, the auditor updates this understanding. The auditor also obtains a sufficient understanding of internal control as it relates to the preparation of interim financial information as it may differ from internal control as it relates to annual financial information.

14. The auditor uses the understanding of the entity and its environment, including its internal control, to determine the inquiries to be made and the analytical and other review procedures to be applied, and to identify the particular events, transactions or assertions to which inquiries may be directed or analytical or other review procedures applied.

15. The procedures performed by the auditor to update the understanding of the entity and its environment, including its internal control, ordinarily include the following:

- Reading the documentation, to the extent necessary, of the preceding year's audit and reviews of prior interim period(s) of the current year and corresponding interim period(s) of the prior year, to enable the auditor to identify matters that may affect the current-period interim financial information.
- Considering any significant risks, including the risk of management override of controls, that were identified in the audit of the prior year's financial statements.
- Reading the most recent annual and comparable prior period interim financial information.

- Considering materiality with reference to the applicable financial reporting framework as it relates to interim financial information to assist in determining the nature and extent of the procedures to be performed and evaluating the effect of misstatements.
- Considering the nature of any corrected material misstatements and any identified uncorrected immaterial misstatements in the prior year's financial statements.
- Considering significant financial accounting and reporting matters that may be of continuing significance such as material weaknesses in internal control.
- Considering the results of any audit procedures performed with respect to the current year's financial statements.
- Considering the results of any internal audit performed and the subsequent actions taken by management.
- Inquiring of management about the results of management's assessment of the risk that the interim financial information may be materially misstated as a result of fraud.
- Inquiring of management about the effect of changes in the entity's business activities.
- Inquiring of management about any significant changes in internal control and the potential effect of any such changes on the preparation of interim financial information.
- Inquiring of management of the process by which the interim financial information has been prepared and the reliability of the underlying accounting records to which the interim financial information is agreed or reconciled.

16. The auditor determines the nature of the review procedures, if any, to be performed for components and, where applicable, communicates these matters to other auditors involved in the review. Factors to be considered include the materiality of, and risk of misstatement in, the interim financial information of components, and the auditor's understanding of the extent to which internal control over the preparation of such information is centralized or decentralized.

17. In order to plan and conduct a review of interim financial information, a recently appointed auditor, who has not yet performed an audit of the annual financial statements in accordance with SAs, should obtain an understanding of the entity and its environment, including its internal control, as it relates to the preparation of both annual and interim financial information.

18. This understanding enables the auditor to focus the inquiries made, and the analytical and other review procedures applied in performing a review of interim financial information in accordance with this SRE. As part of obtaining this understanding, the auditor ordinarily makes inquiries of the predecessor auditor and, peruses the copies of the audited financial statements including the other relevant documents relating to the prior period financial statements such as supporting schedules to the audited financial statements. In doing so, the auditor considers the nature of any corrected misstatements, and any uncorrected misstatements aggregated by the predecessor auditor, any significant risks, including the risk of management override of controls, and significant accounting and any reporting matters that may be of continuing significance, such as material weaknesses in internal control.

Inquiries, Analytical and Other Review Procedures

19. The auditor should make inquiries, primarily of persons responsible for financial and accounting matters, and perform analytical and other review procedures to enable the auditor to conclude whether, on the basis of the procedures performed, anything has come to the auditor's attention that causes the auditor to believe that the interim financial information is not prepared, in all material respects, in accordance with the applicable financial reporting framework.

20. A review ordinarily does not require tests of the accounting records through inspection, observation or confirmation. Procedures for performing a review of interim financial information are ordinarily limited to making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures, rather than corroborating information obtained concerning significant accounting matters relating to the interim financial information. The auditor's understanding of the entity and its environment, including its internal control, the results of the risk assessments relating to the preceding audit and the auditor's consideration of materiality as it relates to the interim financial information, affects the nature and extent of the inquiries made, and analytical and other review procedures applied.

21. The auditor ordinarily performs the following procedures:

- Reading the minutes of the meetings of shareholders, those charged with governance, and other appropriate committees to identify matters that may affect the interim financial information, and inquiring about matters dealt with at meetings for which minutes are not available that may affect the interim financial information.
- Considering the effect, if any, of matters giving rise to a modification of the audit or review report, accounting adjustments or unadjusted misstatements, at the time of the previous audit or reviews.
- Communicating, where appropriate, with other auditors who are performing a review of the interim financial information of the reporting entity's significant components.
- Inquiring of members of management responsible for financial and accounting matters, and others as appropriate about the following:
 - ◆ Whether the interim financial information has been prepared and presented in accordance with the applicable financial reporting framework.
 - ◆ Whether there have been any changes in accounting principles or in the methods of applying them.
 - ◆ Whether any new transactions have necessitated the application of a new accounting principle.
 - ◆ Whether the interim financial information contains any known uncorrected misstatements.
 - ◆ Unusual or complex situations that may have affected the interim financial information, such as a business combination or disposal of a segment of the business.
 - ◆ Significant assumptions that are relevant to the fair value measurement or disclosures and management's intention and ability to carry out specific courses of action on behalf of the entity.
 - ◆ Whether related party transactions have been appropriately accounted for and disclosed in the interim financial information.
 - ◆ Significant changes in commitments and contractual obligations.
 - ◆ Significant changes in contingent liabilities including litigation or claims.
 - ◆ Compliance with debt covenants.
 - ◆ Matters about which questions have arisen in the course of applying the review procedures.
 - ◆ Significant transactions occurring in the last several days of the interim period or the first several days of the next interim period.
 - ◆ Knowledge of any fraud or suspected fraud affecting the entity involving:
 - Management;
 - Employees who have significant roles in internal control; or

- Others where the fraud could have a material effect on the interim financial information.
 - ◆ Knowledge of any allegations of fraud, or suspected fraud, affecting the entity's interim financial information communicated by employees, former employees, analysts, regulators, or others.
 - ◆ Knowledge of any actual or possible noncompliance with laws and regulations that could have a material effect on the interim financial information.
 - Applying analytical procedures to the interim financial information designed to identify relationships and individual items that appear to be unusual and that may reflect a material misstatement in the interim financial information. Analytical procedures may include ratio analysis and statistical techniques such as trend analysis or regression analysis and may be performed manually or with the use of computer-assisted techniques. Appendix 2 to this SRE contains examples of analytical procedures the auditor may consider when performing a review of interim financial information.
 - Reading the interim financial information, and considering whether anything has come to the auditor's attention that causes the auditor to believe that the interim financial information is not prepared, in all material respects, in accordance with the applicable financial reporting framework.
22. The auditor may perform many of the review procedures before or simultaneously with the entity's preparation of the interim financial information. For example, it may be practicable to update the understanding of the entity and its environment, including its internal control, and begin reading applicable minutes before the end of the interim period. Performing some of the review procedures earlier in the interim period also permits early identification and consideration of significant accounting matters affecting the interim financial information.
23. The auditor performing the review of interim financial information is also engaged to perform an audit of the annual financial statements of the entity. For convenience and efficiency, the auditor may decide to perform certain audit procedures concurrently with the review of interim financial information. For example, information gained from reading the minutes of meetings of the board of directors in connection with the review of the interim financial information also may be used for the annual audit. The auditor may also decide to perform, at the time of the interim review, auditing procedures that would need to be performed for the purpose of the audit of the annual financial statements, for example, performing audit procedures on significant or unusual transactions that occurred during the period, such as business combinations, restructurings, or significant revenue transactions.
24. A review of interim financial information ordinarily does not require corroborating the inquiries about litigation or claims. It is, therefore, ordinarily not necessary to send an inquiry letter to the entity's lawyer. Direct communication with the entity's lawyer with respect to litigation or claims may, however, be appropriate if a matter comes to the auditor's attention that causes the auditor to question whether the interim financial information is not prepared, in all material respects, in accordance with the applicable financial reporting framework, and the auditor believes the entity's lawyer may have pertinent information.
25. **The auditor should obtain evidence that the interim financial information agrees or reconciles with the underlying accounting records.** The auditor may obtain evidence that the interim financial information agrees or reconciles with the underlying accounting records by tracing the interim financial information to:
- (a) The accounting records, such as the general ledger, or a consolidating schedule that agrees or reconciles with the accounting records; and
 - (b) Other supporting data in the entity's records as necessary.
26. **The auditor should inquire whether management has identified all events up to the date of the review report that may require adjustment to or disclosure in the interim financial information.** It is not

necessary for the auditor to perform other procedures to identify events occurring after the date of the review report.

27. The auditor should inquire whether management has changed its assessment of the entity's ability to continue as a going concern. When, as a result of this inquiry or other review procedures, the auditor becomes aware of events or conditions that may cast significant doubt on the entity's ability to continue as a going concern, the auditor should:

- (a) **Inquire of management as to its plans for future actions based on its going concern assessment, the feasibility of these plans, and whether management believes that the outcome of these plans will improve the situation; and**
- (b) **Consider the adequacy of the disclosure about such matters in the interim financial information.**

28. Events or conditions which may cast significant doubt on the entity's ability to continue as a going concern may have existed at the date of the annual financial statements or may be identified as a result of inquiries of management or in the course of performing other review procedures. When such events or conditions come to the auditor's attention, the auditor inquires of management as to its plans for future action, such as its plans to liquidate assets, borrow money or restructure debt, reduce or delay expenditures, or increase capital. The auditor also inquires as to the feasibility of management's plans and whether management believes that the outcome of these plans will improve the situation. However, it is not ordinarily necessary for the auditor to corroborate the feasibility of management's plans and whether the outcome of these plans will improve the situation.

29. When a matter comes to the auditor's attention that leads the auditor to question whether a material adjustment should be made for the interim financial information to be prepared, in all material respects, in accordance with the applicable financial reporting framework, the auditor should make additional inquiries or perform other procedures to enable the auditor to express a conclusion in the review report. For example, if the auditor's review procedures lead the auditor to question whether a significant sales transaction is recorded in accordance with the applicable financial reporting framework, the auditor performs additional procedures sufficient to resolve the auditor's questions, such as discussing the terms of the transaction with senior marketing and accounting personnel, or reading the sales contract.

Evaluation of Misstatements

30. The auditor should evaluate, individually and in the aggregate, whether uncorrected misstatements that have come to the auditor's attention are material to the interim financial information.

31. A review of interim financial information, in contrast to an audit engagement, is not designed to obtain reasonable assurance that the interim financial information is free from material misstatement. However, misstatements which come to the auditor's attention, including inadequate disclosures, are evaluated individually and in the aggregate to determine whether a material adjustment is required to be made to the interim financial information for it to be prepared, in all material respects, in accordance with the applicable financial reporting framework.

32. The auditor exercises professional judgment in evaluating the materiality of any misstatements that the entity has not corrected. The auditor considers matters such as the nature, cause and amount of the misstatements, whether the misstatements originated in the preceding year or interim period of the current year, and the potential effect of the misstatements on future interim or annual periods.

33. The auditor may designate an amount below which misstatements need not be aggregated, because the auditor expects that the aggregation of such amounts clearly would not have a material effect on the interim financial information. In so doing, the auditor considers the fact that the determination of materiality involves quantitative as well as qualitative considerations, and that misstatements of a relatively small amount could nevertheless have a material effect on the interim financial information.

Management Representations

34. **The auditor should obtain written representation from management that:**

- (a) **It acknowledges its responsibility for the design and implementation of internal control to prevent and detect fraud and error;**
- (b) **The interim financial information is prepared and presented in accordance with the applicable financial reporting framework;**
- (c) **It believes the effect of those uncorrected misstatements aggregated by the auditor during the review are immaterial, both individually and in the aggregate, to the interim financial information taken as a whole. A summary of such items is included in or attached to the written representations;**
- (d) **It has disclosed to the auditor all significant facts relating to any frauds or suspected frauds known to management that may have affected the entity;**
- (e) **It has disclosed to the auditor the results of its assessment of the risks that the interim financial information may be materially misstated as a result of fraud²;**
- (f) **It has disclosed to the auditor all known actual or possible noncompliance with laws and regulations whose effects are to be considered when preparing the interim financial information; and**
- (g) **It has disclosed to the auditor all significant events that have occurred subsequent to the balance sheet date and through to the date of the review report that may require adjustment to or disclosure in the interim financial information.**

35. The auditor obtains additional representations as are appropriate related to matters specific to the entity's business or industry. An illustrative management representation letter is set out in Appendix 3 to this SRE.

Auditor's Responsibility for Accompanying Information

36. **The auditor should read the other information that accompanies the interim financial information to consider whether any such information is materially inconsistent with the interim financial information.** If the auditor identifies a material inconsistency, the auditor considers whether the interim financial information or the other information needs to be amended. If an amendment is necessary in the interim financial information and management refuses to make the amendment, the auditor considers the implications for the review report. If an amendment is necessary in the other information and management refuses to make the amendment, the auditor considers including in the review report an additional paragraph describing the material inconsistency, or taking other actions, such as withholding the issuance of the review report or withdrawing from the engagement. For example, management may present alternative measures of earnings that more positively portray results of operations than the interim financial information, and such alternative measures are given excessive prominence, are not clearly defined, or not clearly reconciled to the interim financial information such that they are confusing and potentially misleading.

² Refer SA 240, "The Auditor's Responsibilities Relating to Fraud in an Audit of Financial Statements".

37. If a matter comes to the auditor's attention that causes the auditor to believe that the other information appears to include a material misstatement of fact, the auditor should discuss the matter with the entity's management. While reading the other information for the purpose of identifying material inconsistencies, an apparent material misstatement of fact may come to the auditor's attention (i.e., information, not related to matters appearing in the interim financial information, that is incorrectly stated or presented). When discussing the matter with the entity's management, the auditor considers the validity of the other information and management's responses to the auditor's inquiries, whether valid differences of judgment or opinion exist and whether to request management to consult with a qualified third party to resolve the apparent misstatement of fact. If an amendment is necessary to correct a material misstatement of fact and management refuses to make the amendment, the auditor considers taking further action as appropriate, such as notifying those charged with governance and obtaining legal advice.

Communication

38. When, as a result of performing the review of interim financial information, a matter comes to the auditor's attention that causes the auditor to believe that it is necessary to make a material adjustment to the interim financial information for it to be prepared, in all material respects, in accordance with the applicable financial reporting framework, the auditor should communicate this matter as soon as practicable to the appropriate level of management.

39. When, in the auditor's judgment, management does not respond appropriately within a reasonable period of time, the auditor should inform those charged with governance. The communication is made as soon as practicable, either orally or in writing. The auditor's decision whether to communicate orally or in writing is affected by factors such as the nature, sensitivity and significance of the matter to be communicated and the timing of such communications. If the information is communicated orally, the auditor documents the communication.

40. When, in the auditor's judgment, those charged with governance do not respond appropriately within a reasonable period of time, the auditor should consider:

- (a) **Whether to modify the report; or**
- (b) **The possibility of withdrawing from the engagement; and**
- (c) **The possibility of resigning from the appointment to audit the annual financial statements.**

41. When, as a result of performing the review of interim financial information, a matter comes to the auditor's attention that causes the auditor to believe in the existence of fraud or noncompliance by the entity with laws and regulations the auditor should communicate the matter as soon as practicable to the appropriate level of management. The determination of which level of management is the appropriate one is affected by the likelihood of collusion or the involvement of a member of management. The auditor also considers the need to report such matters to those charged with governance and considers the implication for the review.

42. The auditor should communicate relevant matters of governance interest arising from the review of interim financial information to those charged with governance. As a result of performing the review of the interim financial information, the auditor may become aware of matters that in the opinion of the auditor are both important and relevant to those charged with governance in overseeing the financial reporting and disclosure process. The auditor communicates such matters to those charged with governance.

Reporting the Nature, Extent and Results of the Review of Interim Financial Information

43. The auditor should issue a written report that contains the following:

- (a) **An appropriate title.**

- (b) An addressee, as required by the circumstances of the engagement.
- (c) Identification of the interim financial information reviewed, including identification of the title of each of the statements contained in the complete or condensed set of financial statements and the date and period covered by the interim financial information.
- (d) If the interim financial information comprises a complete set of general purpose financial statements prepared in accordance with a financial reporting framework designed to achieve fair presentation, a statement that management is responsible for the preparation and fair presentation of the interim financial information in accordance with the applicable financial reporting framework.
- (e) In other circumstances, a statement that management is responsible for the preparation and presentation of the interim financial information in accordance with the applicable financial reporting framework.
- (f) A statement that the auditor is responsible for expressing a conclusion on the interim financial information based on the review.
- (g) A statement that the review of the interim financial information was conducted in accordance with Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity," and a statement that that such a review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures.
- (h) A statement that a review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable the auditor to obtain assurance that the auditor would become aware of all significant matters that might be identified in an audit and that accordingly no audit opinion is expressed.
- (i) If the interim financial information comprises a complete set of general purpose financial statements prepared in accordance with a financial reporting framework designed to achieve fair presentation, a conclusion as to whether anything has come to the auditor's attention that causes the auditor to believe that the interim financial information does not give a true and fair view, or does not present fairly, in all material respects, in accordance with the applicable financial reporting framework (including a reference to the relevant jurisdiction of the financial reporting framework when the financial reporting framework used is not Financial Reporting Standards³ applicable in India).
- (j) In other circumstances, a conclusion as to whether anything has come to the auditor's attention that causes the auditor to believe that the interim financial information is not prepared, in all material respects, in accordance with the applicable financial reporting framework (including a reference to the relevant jurisdiction of the financial reporting framework when the financial reporting framework used is not Financial Reporting Standards applicable in India).
- (k) The date of the report.
- (l) Place of Signature.

³ Accounting Standards issued by the Institute of Chartered Accountants of India or Accounting Standards notified by the Central Government as the Companies (Accounting Standards) Rules, 2006, or the Accounting Standards for Local Bodies issued by the Institute of Chartered Accountants of India, as may be applicable.

I.670 Auditing Pronouncements

- (m) **The auditor's signature and membership number assigned by the Institute of Chartered Accountants of India (ICAI).**
- (n) **The Firm's registration number of the member of the Institute, wherever applicable, as allotted by ICAI.**

Illustrative review reports are set out in Appendix 4 to this SRE.

44. In some jurisdictions, law or regulation governing the review of interim financial information may prescribe wording for the auditor's conclusion that is different from the wording described in paragraph 43(i) or (j). Although the auditor may be obliged to use the prescribed wording, the auditor's responsibilities as described in this SRE for coming to the conclusion remain the same.

Departure from the Applicable Financial Reporting Framework

45. **The auditor should express a qualified or adverse conclusion when a matter has come to the auditor's attention that causes the auditor to believe that a material adjustment should be made to the interim financial information for it to be prepared, in all material respects, in accordance with the applicable financial reporting framework.**

46. If matters have come to the auditor's attention that cause the auditor to believe that the interim financial information is or may be materially affected by a departure from the applicable financial reporting framework, and management does not correct the interim financial information, the auditor modifies the review report. The modification describes the nature of the departure and, if practicable, states the effects on the interim financial information. If the information that the auditor believes is necessary for adequate disclosure is not included in the interim financial information, the auditor modifies the review report and, if practicable, includes the necessary information in the review report. The modification to the review report is ordinarily accomplished by adding an explanatory paragraph to the review report, and qualifying the conclusion. Illustrative review reports with a qualified conclusion are set out in Appendix 5 to this SRE.

47. When the effect of the departure is so material and pervasive to the interim financial information that the auditor concludes a qualified conclusion is not adequate to disclose the misleading or incomplete nature of the interim financial information, the auditor expresses an adverse conclusion. Illustrative review reports with an adverse conclusion are set out in Appendix 7 to this SRE.

Limitation on Scope

48. A limitation on scope ordinarily prevents the auditor from completing the review.

49. **When the auditor is unable to complete the review, the auditor should communicate, in writing, to the appropriate level of management and to those charged with governance the reason why the review cannot be completed, and consider whether it is appropriate to issue a report.**

Limitation on Scope Imposed by Management

50. The auditor does not accept an engagement to review the interim financial information if the auditor's preliminary knowledge of the engagement circumstances indicates that the auditor would be unable to complete the review because there will be a limitation on the scope of the auditor's review imposed by management of the entity.

51. If, after accepting the engagement, management imposes a limitation on the scope of the review, the auditor requests the removal of that limitation. If management refuses to do so, the auditor is unable to complete the review and express a conclusion. In such cases, the auditor communicates, in writing, to the appropriate level of management and those charged with governance the reason why the review cannot be completed. Nevertheless, if a matter comes to the auditor's attention that causes the auditor to believe that a material adjustment to the interim financial information is necessary for it to be prepared, in all material

respects, in accordance with the applicable financial reporting framework, the auditor communicates such matters in accordance with the guidance in paragraphs 38-40.

52. The auditor also considers the legal and regulatory responsibilities, including whether there is a requirement for the auditor to issue a report. If there is such a requirement, the auditor disclaims a conclusion, and provides in the review report the reason why the review cannot be completed. However, if a matter comes to the auditor's attention that causes the auditor to believe that a material adjustment to the interim financial information is necessary for it to be prepared, in all material respects, in accordance with the applicable financial reporting framework, the auditor also communicates such a matter in the report.

Other Limitations on Scope

53. A limitation on scope may occur due to circumstances other than a limitation on scope imposed by management. In such circumstances, the auditor is ordinarily unable to complete the review and express a conclusion and is guided by paragraphs 51-52. There may be, however, some rare circumstances where the limitation on the scope of the auditor's work is clearly confined to one or more specific matters that, while material, are not in the auditor's judgment pervasive to the interim financial information. In such circumstances, the auditor modifies the review report by indicating that, except for the matter which is described in an explanatory paragraph to the review report, the review was conducted in accordance with this SRE, and by qualifying the conclusion. Illustrative review reports with a qualified conclusion are set out in Appendix 6 to this SRE.

54. The auditor may have expressed a qualified opinion on the audit of the latest annual financial statements because of a limitation on the scope of that audit. The auditor considers whether that limitation on scope still exists and, if so, the implications for the review report.

Going Concern and Significant Uncertainties

55. In certain circumstances, an emphasis of matter paragraph may be added to a review report, without affecting the auditor's conclusion, to highlight a matter that is included in a note to the interim financial information that more extensively discusses the matter. The paragraph would preferably be included after the conclusion paragraph and ordinarily refers to the fact that the conclusion is not qualified in this respect.

56. If adequate disclosure is made in the interim financial information, the auditor should add an emphasis of matter paragraph to the review report to highlight a material uncertainty relating to an event or condition that may cast significant doubt on the entity's ability to continue as a going concern.

57. The auditor may have modified a prior audit or review report by adding an emphasis of matter paragraph to highlight a material uncertainty relating to an event or condition that may cast significant doubt on the entity's ability to continue as a going concern. If the material uncertainty still exists and adequate disclosure is made in the interim financial information, the auditor modifies the review report on the current interim financial information by adding a paragraph to highlight the continued material uncertainty.

58. If, as a result of inquiries or other review procedures, a material uncertainty relating to an event or condition comes to the auditor's attention that may cast significant doubt on the entity's ability to continue as a going concern, and adequate disclosure is made in the interim financial information the auditor modifies the review report by adding an emphasis of matter paragraph.

59. If a material uncertainty that casts significant doubt about the entity's ability to continue as a going concern is not adequately disclosed in the interim financial information, the auditor should express a qualified or adverse conclusion, as appropriate. The report should include specific reference to the fact that there is such a material uncertainty.

I.672 Auditing Pronouncements

60. **The auditor should consider modifying the review report by adding a paragraph to highlight a significant uncertainty (other than a going concern problem) that came to the auditor's attention, the resolution of which is dependent upon future events and which may affect the interim financial information.**

Other Considerations

61. The terms of the engagement include management's agreement that where any document containing interim financial information indicates that such information has been reviewed by the entity's auditor, the review report will also be included in the document. If management has not included the review report in the document, the auditor considers seeking legal advice to assist in determining the appropriate course of action in the circumstances⁴.

62. If the auditor has issued a modified review report and management issues the interim financial information without including the modified review report in the document containing the interim financial information, the auditor considers seeking legal advice to assist in determining the appropriate course of action in the circumstances, and the possibility of resigning from the appointment to audit the annual financial statements⁵.

63. Interim financial information consisting of a condensed set of financial statements does not necessarily include all the information that would be included in a complete set of financial statements, but may rather present an explanation of the events and changes that are significant to an understanding of the changes in the state of affairs and performance of the entity since the annual reporting date. This is because it is presumed that the users of the interim financial information will have access to the latest audited financial statements, such as is the case with listed entities. In other circumstances, the auditor discusses with management the need for such interim financial information to include a statement that it is to be read in conjunction with the latest audited financial statements. In the absence of such a statement, the auditor considers whether, without a reference to the latest audited financial statements, the interim financial information is misleading in the circumstances, and the implications for the review report.

Documentation

64. **The auditor should prepare review documentation that is sufficient and appropriate to provide a basis for the auditor's conclusion and to provide evidence that the review was performed in accordance with this SRE and applicable legal and regulatory requirements.** The documentation enables an experienced auditor having no previous connection with the engagement to understand the nature, timing and extent of the inquiries made, and analytical and other review procedures applied, information obtained, and any significant matters considered during the performance of the review, including the disposition of such matters.

⁴ The Council of the ICAI, at its 308th meeting held in August 2011, considered an issue relating to difficulties being faced by the members of the Institute in compliance with paragraphs 61 and 62 of the SRE 2410 raised by the Auditing and Assurance Standards Board of the Institute. On a consideration of the matter, the Council was of the opinion that paragraphs 61 and 62 did not envisage the auditor to take steps to ensure that on every occasion when the review results were published by the management, it also published the review report therewith. The responsibility of the auditor was upto issuance of the review report on the results, at most till the time the interim results, along with the review report, were filed by the company with the concerned stock exchange. Further, since such filing led to the concerned interim results and the review report thereon becoming available in the public domain, the same would be construed as sufficient compliance by the auditor with the requirements of paragraphs 61 and 62 of SRE 2410. The complete text of the Announcement is published in Paragraph 'C', "Announcements/Clarifications" of Section 1, "Announcements of the Council regarding Status of Various Documents issued by the Institute of Chartered Accountants of India", included in Volume I.A of the Handbook.

⁵ *ibid*

Effective Date

65. This SRE is effective for reviews of interim financial information for periods beginning on or after April 1, 2010.

Material Modifications *vis-a-vis* ISRE 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”

Additions

Paragraph 43 of ISRE 2410 deals with the basic elements of the written report of an auditor on the Review of Interim Financial Information, which also includes the location in the country or jurisdiction where the auditor practices. Since in India, Revised Standard on Auditing (SA) 700 requires the auditor to mention the “Place of Signature”, i.e., name of specific location, which is ordinarily the city where the review report is signed, in his report, the requirement of mentioning the location in the country or jurisdiction where the auditor practices has been replaced with the requirement to mention the place of signature in the auditor’s report.

Deletion

Paragraph 18 of ISRE 2410 deals with the procedures for obtaining the understanding of the entity and its environment for conducting the review of the interim financial information. These procedures also include the review of the predecessor auditor’s documentation for the preceding annual audit, and for any prior interim periods in the current year that have been reviewed by the predecessor auditor. Since in India, Clause 1 of Part I of the Second Schedule to the Code of Ethics provides that a Chartered Accountant in Practice shall be deemed to be guilty of professional misconduct if he discloses information acquired in the course of his professional engagement to any person other than his client, an auditor cannot provide access to his working paper to the another auditor. Therefore, keeping in view the requirements of the Code of Ethics, the requirement of reviewing the predecessor auditor’s documentation has been replaced with the requirement of perusing the copies of the audited financial statements including the other relevant documents relating to the prior period financial statements.

Appendix 1

Example of an Engagement Letter for a Review of Interim Financial Information

The following letter is to be used as a guide in conjunction with the consideration outlined in paragraph 10 of this SRE and will need to be adapted according to individual requirements and circumstances.

To the Board of Directors of ABC Company Ltd. (or the appropriate representative of senior management)

We are providing this letter to confirm our understanding of the terms and objectives of our engagement to review the entity’s interim balance sheet as at September 30, 20X1 and the related statement of profit & loss and cash flows for the six-month period then ended.

Our review will be conducted in accordance with Standard on Review Engagements (SRE) 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Institute of Chartered Accountants of India (ICAI) with the objective of providing us with a basis for reporting whether anything has come to our attention that causes us to believe that the interim financial information is not prepared, in all material respects, in accordance with the [indicate applicable financial reporting framework, including a reference to the relevant jurisdiction of the financial reporting when the financial reporting framework used is not Financial Reporting Standards⁶ applicable in India]. Such a review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and

⁶ See footnote 4.

I.674 Auditing Pronouncements

other review procedures and does not, ordinarily, require corroboration of the information obtained. The scope of a review of interim financial information is substantially less than the scope of an audit conducted in accordance with Standards on Auditing whose objective is the expression of an opinion regarding the financial statements and, accordingly, we shall express no such opinion.

We expect to report on the interim financial information as follows:

[Include text of sample report.]

Responsibility for the interim financial information, including adequate disclosure, is that of management of the entity. This includes designing, implementing and maintaining internal control relevant to the preparation and presentation of interim financial information that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances. As part of our review, we will request written representations from management concerning assertions made in connection with the review. We will also request that where any document containing interim financial information indicates that the interim financial information has been reviewed, our report will also be included in the document.

A review of interim financial information does not provide assurance that we will become aware of all significant matters that might be identified in an audit. Further, our engagement cannot be relied upon to disclose whether fraud or errors, or illegal acts exist. However, we will inform you of any material matters that come to our attention.

We look forward to full cooperation with your staff and we trust that they will make available to us whatever records, documentation and other information are requested in connection with our review.

[Insert additional information here regarding fee arrangements and billings, as appropriate.]

This letter will be effective for future years unless it is terminated, amended or superseded (if applicable).

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our review of the interim financial information including our respective responsibilities.

Appendix 2

Analytical Procedures the Auditor May Consider When Performing a Review of Interim Financial Information

Examples of analytical procedures the auditor may consider when performing a review of interim financial information include the following:

- Comparing the interim financial information with the interim financial information of the immediately preceding interim period, with the interim financial information of the corresponding interim period of the preceding financial year, with the interim financial information that was expected by management for the current period, and with the most recent audited annual financial statements.
- Comparing current interim financial information with anticipated results, such as budgets or forecasts (for example, comparing tax balances and the relationship between the provision for income taxes to pretax income in the current interim financial information with corresponding information in (a) budgets, using expected rates, and (b) financial information for prior periods).
- Comparing current interim financial information with relevant non-financial information.
- Comparing the recorded amounts, or ratios developed from recorded amounts, to expectations developed by the auditor. The auditor develops such expectations by identifying and applying relationships that are reasonably expected to exist based on the auditor's understanding of the entity and of the industry in which the entity operates.
- Comparing ratios and indicators for the current interim period with those of entities in the same industry.
- Comparing relationships among elements in the current interim financial information with corresponding relationships in the interim financial information of prior periods, for example, expense by type as a percentage of sales, assets by type as a percentage of total assets, and percentage of change in sales to percentage of change in receivables.
- Comparing disaggregated data. The following are examples of how data may be disaggregated:
 - ◆ By period, for example, revenue or expense items disaggregated into quarterly, monthly, or weekly amounts.
 - ◆ By product line or source of revenue.
 - ◆ By location, for example, by component.
 - ◆ By attributes of the transaction, for example, revenue generated by designers, architects, or craftsmen.
 - ◆ By several attributes of the transaction, for example, sales by product and month.

Example of a Management Representation Letter

The following letter is not intended to be a standard letter. Representations by management will vary from entity to entity and from one interim period to the next.

(Entity Letterhead)

(To Auditor)

(Date)

Opening paragraphs if interim financial information comprises condensed financial statements:

This representation letter is provided in connection with your review of the condensed balance sheet of ABC Entity as of June 30, 20X1 and the related condensed statements of profit & loss and cash flows for the three-month period then ended for the purposes of expressing a conclusion whether anything has come to your attention that causes you to believe that the interim financial information is not prepared, in all material respects, in accordance with [indicate applicable financial reporting framework, including a reference to the relevant jurisdiction of the financial reporting framework when the financial reporting framework used is not Financial Reporting Standards⁸ applicable in India].

We acknowledge our responsibility for the preparation and presentation of the interim financial information in accordance with [indicate applicable financial reporting framework].

Opening paragraphs if interim financial information comprises a complete set of general purpose financial statements prepared in accordance with a financial reporting framework designed to achieve fair presentation:

This representation letter is provided in connection with your review of the balance sheet of ABC Entity as of June 30, 20X1 and the related statements of income, changes in equity and cash flows for the three-month period then ended and a summary of the significant accounting policies and other explanatory notes for the purposes of expressing a conclusion whether anything has come to your attention that causes you to believe that the interim financial information does not give a true and fair view of (*or “does not present fairly, in all material respects,”*) the state of affairs of ABC Entity as at June 30, 20X1, and of its results of operations and its cash flows in accordance with [indicate applicable financial reporting framework, including a reference to the relevant jurisdiction of the financial reporting framework when the financial reporting framework used is not Financial Reporting Standards⁹ applicable in India].

We acknowledge our responsibility for the fair presentation of the interim financial information in accordance with [indicate applicable financial reporting framework].

We confirm, to the best of our knowledge and belief, the following representations:

- The interim financial information referred to above has been prepared and presented in accordance with [indicate applicable financial reporting framework].
- We have made available to you all books of account and supporting documentation, and all minutes of meetings of shareholders and the board of directors (namely those held on [insert applicable dates]).
- There are no material transactions that have not been properly recorded in the accounting records underlying the interim financial information.
- There has been no known actual or possible noncompliance with laws and regulations that could have a material effect on the interim financial information in the event of noncompliance.

⁸ See footnote 4.

⁹ See footnote 4.

- We acknowledge responsibility for the design and implementation of internal control to prevent and detect fraud and error.
- We have disclosed to you all significant facts relating to any known frauds or suspected frauds that may have affected the entity.
- We have disclosed to you the results of our assessment of the risk that the interim financial information may be materially misstated as the result of fraud.
- We believe the effects of uncorrected misstatements summarized in the accompanying schedule are immaterial, both individually and in the aggregate, to the interim financial information taken as a whole.
- We confirm the completeness of the information provided to you regarding the identification of related parties.
- The following have been properly recorded and, when appropriate, adequately disclosed in the interim financial information:
 - ◆ Related party transactions, including sales, purchases, loans, transfers, leasing arrangements and guarantees, and amounts receivable from or payable to related parties;
 - ◆ Guarantees, whether written or oral, under which the entity is contingently liable; and
 - ◆ Agreements and options to buy back assets previously sold.
- The presentation and disclosure of the fair value measurements of assets and liabilities are in accordance with [indicate applicable financial reporting framework]. The assumptions used reflect our intent and ability to carry specific courses of action on behalf of the entity, where relevant to the fair value measurements or disclosure.
- We have no plans or intentions that may materially affect the carrying value or classification of assets and liabilities reflected in the interim financial information.
- We have no plans to abandon lines of product or other plans or intentions that will result in any excess or obsolete inventory, and no inventory is stated at an amount in excess of realizable value.
- The entity has satisfactory title to all assets and there are no liens or encumbrances on the entity's assets.
- We have recorded or disclosed, as appropriate, all liabilities, both actual and contingent.
- [Add any additional representations related to new accounting standards that are being implemented for the first time and consider any additional representations required by a new Standard on Auditing that are relevant to interim financial information.]

To the best of our knowledge and belief, no events have occurred subsequent to the balance sheet date and through the date of this letter that may require adjustment to or disclosure in the aforementioned interim financial information.

Examples of Review Reports on Interim Financial Information

Complete Set of General Purpose Financial Statements Prepared in Accordance with a Financial Reporting Framework Designed to Achieve Fair Presentation (see paragraph 43(i))

Report on Review of Interim Financial Information

(Appropriate addressee)

Introduction

We have reviewed the accompanying balance sheet of ABC Entity as of June 30, 20X1 and the related statements of profit & loss and cash flows for the three-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with [indicate applicable financial reporting framework]. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity"¹⁰. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information does not give a true and fair view of (*or "does not present fairly, in all material respects,"*) the state of affairs of the entity as at June 30, 20X1, and of its results of operations and its cash flows for the three month period then ended in accordance with [applicable financial reporting framework, including a reference to the relevant jurisdiction of the financial reporting framework when the financial reporting framework used is not Financial Reporting Standards¹¹ applicable in India].

Appendix 5

Examples of Review Reports with a Qualified Conclusion for a Departure from the Applicable Financial Reporting Framework

Complete Set of General Purpose Financial Statements Prepared in Accordance with a Financial Reporting Framework Designed to Achieve Fair Presentation (see paragraph 43(i))

Report on Review of Interim Financial Information

(Appropriate addressee)

Introduction

We have reviewed the accompanying balance sheet of ABC Entity as of June 30, 20X1 and the related statements of profit & loss and cash flows for the three-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with [indicate applicable financial reporting framework]. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity"¹⁶. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

Based on information provided to us by management, ABC Entity has excluded from property and long-term debt certain lease obligations that we believe should be capitalized to conform with [indicate applicable financial reporting framework]. This information indicates that if these lease obligations were capitalized at June 30, 20X1, property would be increased by ₹_____, long-term debt by ₹_____, and net income and earnings per share would be increased (decreased) by ₹_____, ₹_____, ₹_____, and ₹_____, respectively for the three-month period then ended.

Qualified Conclusion

Based on our review, with the exception of the matter described in the preceding paragraph, nothing has come to our attention that causes us to believe that the accompanying interim financial information does not give a true and fair view of (or "does not present fairly, in all material respects,") the state of affairs of the entity as at June 30, 20X1, and of its results of operations and its cash flows for the three month period then ended in accordance with [indicate applicable financial reporting framework, including the reference to the

²¹ Partner or proprietor, as the case may be.

Auditor of the Entity”²². A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As a result of a fire in a branch office on (date) that destroyed its accounts receivable records, we were unable to complete our review of accounts receivable totaling Rs. _____ included in the interim financial information. The entity is in the process of reconstructing these records and is uncertain as to whether these records will support the amount shown above and the related allowance for uncollectible accounts. Had we been able to complete our review of accounts receivable, matters might have come to our attention indicating that adjustments might be necessary to the interim financial information.

Qualified Conclusion

Except for the adjustments to the interim financial information that we might have become aware of had it not been for the situation described above, based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information does not give a true and fair view of (or “does not present fairly, in all material respects,”) the state of affairs of the entity as at June 30, 20X1, and of its Results of Operations and its cash flows for the three-month period then ended in accordance with [indicate applicable financial reporting framework, including a reference to the relevant jurisdiction of the financial reporting framework when the financial reporting framework used is not Financial Reporting Standards²³ applicable in India].

Appendix 7

Examples of Review Reports with an Adverse Conclusion for a Departure from the Applicable Financial Reporting Framework

Complete Set of General Purpose Financial Statements Prepared in Accordance with a Financial Reporting Framework Designed to Achieve Fair Presentation (see paragraph 43(i))

Report on Review of Interim Financial Information

(Appropriate addressee)

Introduction

We have reviewed the accompanying balance sheet of ABC Entity as of June 30, 20X1 and the related statements of profit & loss and cash flows for the three-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with [indicate applicable financial reporting framework]. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with Standard on Review Engagements (SRE) 2410, "Review of Interim Financial Information Performed by the Auditor of the Entity"²⁸. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Adverse Conclusion

Commencing this period, management of the entity ceased to consolidate the financial statements of its subsidiary companies since management considers consolidation to be inappropriate because of the existence of new substantial non-controlling interests. This is not in accordance with [indicate applicable financial reporting framework, including a reference to the relevant jurisdiction of the financial reporting framework when the financial reporting framework used is not Financial Reporting Standards²⁹ applicable in India]. Had consolidated financial statements been prepared, virtually every account in the interim financial information would have been materially different.

Adverse Conclusion

Our review indicates that, because the entity's investment in subsidiary companies is not accounted for on a consolidated basis, as described in the preceding paragraph, this interim financial information does not give a true and fair view of (or "does not present fairly, in all material respects,") the state of affairs of the entity as at June 30, 20X1, and of its results of operations and its cash flows for the three-month period then ended in accordance with [indicate applicable financial reporting framework, including a reference to the relevant

SAE 3400
The Examination of
Prospective Financial Information
(Effective in relation to reports on
projections/forecasts issued on or after April 1, 2007)

Introduction

1. The purpose of this Standard on Assurance Engagement (SAE) is to establish standards and provide guidance on engagements to examine and report on prospective financial information including examination procedures for best-estimate and hypothetical assumptions. This SAE does not apply to the examination of prospective financial information expressed in general or narrative terms, such as that found in management's discussion and analysis in an entity's annual report, though many of the procedures outlined herein may be suitable for such an examination¹. Further, the principles laid down in the other Standards on Auditing, issued by the Institute of Chartered Accountants of India, should be used by the auditor, to the extent practicable, in applying this SAE.

2. In an engagement to examine prospective financial information, the auditor² should obtain sufficient appropriate evidence as to whether:

- (a) management's best-estimate assumptions on which the prospective financial information is based are not unreasonable and, in the case of hypothetical assumptions, such assumptions are consistent with the purpose of the information;
- (b) the prospective financial information is properly prepared on the basis of the assumptions;
- (c) the prospective financial information is properly presented and all material assumptions are adequately disclosed, including a clear indication as to whether they are best-estimate assumptions or hypothetical assumptions; and
- (d) the prospective financial information is prepared on a consistent basis with historical financial statements, using appropriate accounting principles.

3. "Prospective financial information" means financial information based on assumptions about events that may occur in the future and possible actions by an entity. It is highly subjective in nature and its

¹ The guidance provided in this Standard is in line with the provisions of clause (3) of Part I of the Second Schedule to the Chartered Accountants Act, 1949 [as amended by the Chartered Accountants (Amendment) Act, 2006]. This clause provides that a chartered accountant in practice shall be deemed to be guilty of professional misconduct "if he permits his name or the name of his firm to be used in connection with an estimate of earnings contingent upon future transactions in a manner which may lead to the belief that he vouches for the accuracy of the forecast." As per the opinion of the Council while finalising the Guidance Note on Accountant's Report on Profit Forecasts and/or Financial Forecasts at its 100th meeting held on 22nd through 24th July 1982, a chartered accountant can participate in the preparation of profit or financial forecasts and can review them, provided he indicates clearly in his report **the sources of information, the basis of forecasts** and also the **major assumptions** made in arriving at the forecasts and so long as he does not vouch for the accuracy of the forecasts. The Council has further opined that the same opinion would also apply to projections made on the basis of hypothetical assumptions about future events and management actions which are not necessarily expected to take place so long as the auditor does not vouch for the accuracy of the projection. (*emphasis added*)

² The term "auditor" is used throughout this SAE when describing services involving examination of prospective financial information. Such reference is not intended to imply that a member performing such services need necessarily be the statutory auditor of the entity's financial statements.

preparation requires the exercise of considerable judgment. Prospective financial information can be in the form of a forecast, a projection, or a combination of both, for example, a one year forecast plus a five year projection.

4. A “*forecast*” means prospective financial information prepared on the basis of assumptions as to future events which management expects to take place and the actions management expects to take as of the date the information is prepared (best-estimate assumptions).

5. A “*projection*” means prospective financial information prepared on the basis of:

- (a) hypothetical assumptions about future events and management actions which are not necessarily expected to take place, such as when some entities are in a start-up phase or are considering a major change in the nature of operations; or
- (b) a mixture of best-estimate and hypothetical assumptions.

Such information illustrates the possible consequences as of the date the information is prepared if the events and actions were to occur (a “what-if” scenario).

6. Prospective financial information can include financial statements or one or more elements of financial statements and may be prepared:

- (a) as an internal management tool, for example, to assist in evaluating a possible capital investment; or
- (b) for the distribution/submission to third parties in, for example:
 - a prospectus to provide potential investors with information about future expectations.
 - an annual report to provide information to shareholders, regulatory bodies and other interested parties.
 - a document, for example, cash flow forecasts, for the information of lenders.

7. Management is responsible for the preparation and presentation of the prospective financial information, including the identification and disclosure of the sources of information, the basis of forecasts and the underlying assumptions. The auditor may be asked to examine and report on the prospective financial information to enhance its credibility, whether it is intended for use by third parties or for internal purposes.

The Auditor’s Assurance Regarding Prospective Financial Information

8. Prospective financial information relates to events and actions that have not yet occurred and might not occur. While evidence may be available to support the assumptions on which the prospective financial information is based, such evidence is itself generally future- oriented and, therefore, speculative in nature, as distinct from the evidence ordinarily available in the examination of historical financial information. The auditor is, therefore, not in a position to express an opinion as to whether the results shown in the prospective financial information will be achieved.

9. Further, given the types of evidence available in assessing the assumptions on which the prospective financial information is based, it may be difficult for the auditor to obtain a level of satisfaction sufficient to provide a positive expression of opinion that the assumptions are free of material misstatement. Consequently, in this SAE, when reporting on the reasonableness of management’s assumptions, the auditor provides only a moderate level of assurance.

Acceptance of Engagement

10. Before accepting an engagement to examine prospective financial information, the auditor would consider, amongst other things:

I.690 Auditing Pronouncements

- the intended use of the information;
- whether the information will be for general or limited distribution;
- the nature of the assumptions, that is, whether they are best-estimates or hypothetical assumptions;
- the elements to be included in the information; and
- the period covered by the information.

11. The auditor should not accept, or should withdraw from, an engagement when the assumptions are clearly unrealistic or when the auditor believes that the prospective financial information will be inappropriate for its intended use.

12. In accordance with SA 210, “Terms of Audit Engagement”, it is necessary that the auditor and the client should agree on the terms of the engagement. It is in the interest of both client and auditor that the auditor sends an engagement letter to help in avoiding misunderstandings regarding the engagement. An engagement letter would address the matters in paragraph 10 and set out the management’s responsibilities for the assumptions and for providing the auditor with all relevant information and source data used in developing the assumptions.

Knowledge of the Business

13. The auditor should obtain a sufficient level of knowledge of the business to be able to evaluate whether all significant assumptions required for the preparation of the prospective financial information have been identified. The auditor would also need to become familiar with the entity’s process for preparing prospective financial information, for example, by considering:

- (a) The internal controls over the system used to prepare prospective financial information and the expertise and experience of those persons preparing the prospective financial information.
- (b) The nature of the documentation prepared by the entity supporting management’s assumptions.
- (c) The extent to which statistical, mathematical and computer-assisted techniques are used.
- (d) The methods used to develop and apply assumptions.
- (e) The accuracy of prospective financial information prepared in prior periods, if any, and the reasons for any significant variances therein.

14. The auditor should consider the extent to which reliance on the entity’s historical financial information is justified. The auditor requires knowledge of the entity’s historical financial information to assess whether the prospective financial information has been prepared on a basis consistent with the historical financial information and to provide a historical yardstick for considering management’s assumptions. The auditor will need to establish, for example, whether relevant historical information was audited or reviewed and whether acceptable accounting principles were used in its preparation.

15. If the audit or review report on prior period historical financial information was other than a clean report³ or if the entity is in a start-up/expansion phase, the auditor would consider the relevant facts and the effect on the examination of the prospective financial information.

Period Covered

16. The auditor should consider the period of time covered by the prospective financial information. Since assumptions become more speculative as the length of the period covered increases, as that period lengthens, the ability of management to make best-estimate assumptions decreases. The period

³ Alternatively known as the unmodified report in terms of the Standard on Auditing (SA) 700, “The Auditor’s Report on Financial Statements”.

would not extend beyond the time for which management has a reasonable basis for the assumptions. The following are some of the factors that are relevant to the auditor's consideration of the period of time covered by the prospective financial information:

- (a) The operating cycle, for example, in the case of a major construction project undertaken by a construction company, the time required to complete the project may dictate the period covered.
- (b) The degree of reliability of assumptions, for example, if the entity is introducing a new product, the prospective period covered could be short and broken into small segments, such as weeks or months. Alternatively, if for example, the entity's sole business is owning a property under long-term lease, a relatively long prospective period might be reasonable.
- (c) The needs of users, for example, prospective financial information may be prepared in connection with an application for a loan for the period of time required to generate sufficient funds for repayment. Alternatively, the information may be prepared for investors in connection with the issue of securities to illustrate the intended use of the proceeds in the subsequent period.

Examination Procedures

17. When determining the nature, timing and extent of examination procedures, the auditor should consider matters such as:

- (a) the knowledge obtained during any previous engagements;**
- (b) management's competence regarding the preparation of prospective financial information;**
- (c) the likelihood of material misstatement;**
- (d) the extent to which the prospective financial information is affected by the management's judgment;**
- (e) the sources of information considered by the management for the purpose, their adequacy, reliability of the underlying data, including data derived from third parties, such as industry statistics, to support the assumptions;**
- (f) the stability of entity's business; and**
- (g) the engagement team's experience with the business and the industry in which the entity operates and with reporting on prospective financial information.**

18. The auditor would assess the source and reliability of the evidence supporting management's best-estimate assumptions. Sufficient appropriate evidence supporting such assumptions would be obtained from internal and external sources including consideration of the assumptions in the light of historical information and an evaluation of whether they are based on plans that are within the entity's capacity. Examples of external sources are government publications, industry publications, economic forecast, existing or proposed legislation, and reports of changing technology. Examples of internal sources are budgets, the economic substance and viability of the entity and/or transaction or project of the entity, reputation of management responsible for assumptions underlying the prospective financial information, wage agreements, patents, royalty agreements and records, sales backlog records, debt agreements, and actions of the board of directors involving entity plans, etc.

19. The auditor would consider whether, when hypothetical assumptions are used, all significant implications of such assumptions have been taken into consideration. For example, if sales are assumed to grow beyond the entity's current plant capacity, the prospective financial information will need to include the necessary investment in the additional plant capacity or the costs of alternative means of meeting the anticipated sales, such as subcontracting production.

I.692 Auditing Pronouncements

20. The auditor would need to be satisfied that the hypothetical assumptions are consistent with the purpose of the prospective financial information and that there is no reason to believe they are clearly unrealistic.

21. The auditor will need to be satisfied that the prospective financial information is properly prepared from management's assumptions by, for example, making checks such as recomputation and reviewing internal consistency, that is, the actions management intends to take are compatible with each other and there are no inconsistencies in the determination of the amounts that are based on common variables such as interest rates.

22. The auditor would focus on the extent to which those areas that are particularly sensitive to variation will have a material effect on the results shown in the prospective financial information. This will influence the extent to which the auditor will seek appropriate evidence. It will also influence the auditor's evaluation of the appropriateness and adequacy of disclosure.

23. When engaged to examine one or more elements of prospective financial information, such as an individual financial statement, it is important that the auditor considers the interrelationship of other components in the financial statements.

24. When any elapsed portion of the current period is included in the prospective financial information, the auditor would consider the extent to which procedures need to be applied to the historical information. Procedures will vary depending on the circumstances, for example, how much of the prospective period has elapsed.

25. The auditor should obtain written representations from management regarding the intended use of the prospective financial information, the completeness of significant management assumptions and management's acceptance of its responsibility for the prospective financial information. The management is also responsible for identification and disclosure of uncontrollable factors, outstanding litigations, commitments, or any other material factors that are likely to affect the prospective financial information.

Presentation and Disclosure

26. When assessing the presentation and disclosure of the prospective financial information and the underlying assumptions, in addition to the specific requirements of any relevant statutes, regulations as well as the relevant professional pronouncements, the auditor will need to consider whether:

- (a) the presentation of prospective financial information is informative and not misleading;
- (b) the accounting policies are clearly disclosed in the notes to the prospective financial information;
- (c) the assumptions are adequately disclosed in the notes to the prospective financial information. It needs to be clear whether assumptions represent management's best-estimates or are hypothetical and, when assumptions are made in areas that are material and are subject to a high degree of uncertainty, this uncertainty and the resulting sensitivity of results needs to be adequately disclosed;
- (d) the date as of which the prospective financial information was prepared is disclosed. Management needs to confirm that the assumptions are appropriate as of this date, even though the underlying information may have been accumulated over a period of time;
- (e) the basis of establishing points in a range is clearly indicated and the range is not selected in a biased or misleading manner when results shown in the prospective financial information are expressed in terms of a range; and

- (f) there is any change in the accounting policy of the entity from that disclosed in the most recent historical financial statements and whether reason for the change and the effect of such change on the prospective financial information has been adequately disclosed.

Documentation

27. The auditor should document matters, which are important in providing evidence to support his report on examination of prospective financial information, and evidence that such examination was carried out in accordance with this SAE. The working papers will include the sources of information, basis of forecasts and the assumptions made in arriving the forecasts, hypothetical assumptions, evidence supporting the assumptions, management representations regarding the intended use and distribution of the information, completeness of material assumptions, management's acceptance of its responsibility for the information, audit plan, the nature, timing and extent of examination procedures performed, and, in case the auditor expresses a modified opinion or withdraws from the engagement, the reasons forming the basis of such decision.

Report on Examination of Prospective Financial Information

28. The report by an auditor on an examination of prospective financial information should contain the following:

- (a) Title;
- (b) Addressee;
- (c) Identification of the prospective financial information;
- (d) Reference to the Standards on Auditing applicable to the examination of prospective financial information;
- (e) Statement that management is responsible for the prospective financial information including the underlying assumptions;
- (f) When applicable, a reference to the purpose and/or restricted distribution of the prospective financial information;
- (g) Statement that the examination procedures included examination, on a test basis, of evidence supporting the assumptions, amounts and other disclosures in the forecast or projection;
- (h) Statement of negative assurance as to whether the assumptions provide a reasonable basis for the prospective financial information;
- (i) Opinion as to whether the prospective financial information is properly prepared on the basis of the assumptions and is presented in accordance with the relevant financial reporting framework;
- (j) Appropriate caveats concerning the achievability of the results indicated by the prospective financial information;
- (k) Date of report (which should be the date procedures have been completed);
- (l) Place of signature; and
- (m) Signature.

29. Such a report would:

- State whether, based on the examination of the evidence supporting the assumptions, anything has come to the auditor's attention, which causes the auditor to believe that the assumptions do not provide a reasonable basis for the prospective financial information.

I.694 Auditing Pronouncements

- Express an opinion as to whether the prospective financial information is properly prepared on the basis of the assumptions and is presented in accordance with the relevant financial reporting framework.
- State that:
 - Actual results are likely to be different from the prospective financial information since anticipated events frequently do not occur as expected and the variation could be material. Likewise, when the prospective financial information is expressed as a range, it would be stated that there can be no assurance that actual results will fall within the range; and
 - In the case of a projection, the prospective financial information has been prepared for (intended use), using a set of assumptions that include hypothetical assumptions about future events and management's actions that are not necessarily expected to occur. Consequently, readers are cautioned that the prospective financial information should not be used for purposes other than the abovementioned intended use.

30. The following is an example of an extract from an unmodified report on a projection:

We have examined the projection of _____ (project) _____ (name of the entity) for the period from _____ to _____ as given in⁴ _____ to the Prospective Financial Information from page _____ to _____ in accordance with Standard on Assurance Engagement 3400, "The Examination of Prospective Financial Information", issued by the Institute of Chartered Accountants of India. The preparation and presentation of the projection including the underlying assumptions, set out in note _____ to _____ to the prospective financial information, is the responsibility of the Management and has been approved by the Board of Directors⁵ of the company. Our responsibility is to examine the evidence supporting the assumptions (excluding the hypothetical assumption) and other information in the prospective financial information. Our responsibility does not include verification of the accuracy of the projections. Therefore, we do not vouch for the accuracy of the same.

This projection has been prepared for (describe purpose). As the entity is in a start-up phase the projection has been prepared using a set of assumptions that include hypothetical assumptions about future events and management's actions that are not necessarily expected to occur. Consequently, readers are cautioned that this projection may not be appropriate for purposes other than that described above.

We have carried out our examination of the prospective financial information on a test basis. Based on our examination of the evidence supporting the assumptions, nothing has come to our attention which causes us to believe that these assumptions do not provide a reasonable basis for the projection, assuming that _____ (state or refer to the hypothetical assumptions).

Further, in our opinion the projection is properly prepared on the basis of the assumptions as set out in Note _____ to the Prospective Financial Information and on a consistent basis in accordance with the historical financial statements, using appropriate accounting principles. Even if the events anticipated under the hypothetical assumptions described above occur, actual results are still likely to be different from the projection since other anticipated events frequently do not occur as expected and the variation may be material.

A complete illustrative format of an unmodified report on a projection is given in **Appendix 1**.

31. The following is an example of an extract from an unmodified report on a forecast:

⁴ Provide suitable identification, such as by reference to page numbers or by identifying the individual schedule.

⁵ Other corresponding approving authority in the case of entities other than companies.

We have examined the forecast of _____ (*project*) of the _____ (*name of the entity*) for the period from _____ to _____ in accordance with the Standard on Assurance Engagements (SAE) 3400, "The Examination of Prospective Financial Information", issued by the Institute of Chartered Accountants of India. The preparation and presentation of the forecast including the underlying assumptions, set out in Note _____ to the Prospective Financial Information is the responsibility of the management and has been approved by the Board of Directors of the Company. The sources of information are set out in Annexure _____ to the prospective financial information. Our responsibility is to examine the evidence supporting the forecast. Our responsibility does not include verification of the accuracy of the forecasts. Therefore, we do not vouch for the accuracy of the same.

Based on our examination of the evidence supporting the assumptions, nothing has come to our attention which causes us to believe that these assumptions do not provide a reasonable basis for the forecast. Further, in our opinion the forecast is properly prepared on the basis of the assumptions as set out in Note ____ and on consistent basis with historical financial statements, using appropriate accounting principles.

Actual results are likely to be different from the forecast since anticipated events frequently do not occur as expected and the variation may be material.

A complete illustrative format of an unmodified report on a forecast is given in **Appendix 2**.

32. When the auditor believes that the presentation and disclosure of the prospective financial information is not adequate, the auditor should express a qualified or adverse opinion in the report on the prospective financial information, or withdraw from the engagement as appropriate. An example would be where financial information fails to disclose adequately the consequences of any assumptions, which are highly sensitive.

33. When the auditor believes that one or more significant assumptions do not provide a reasonable basis for the prospective financial information prepared on the basis of best-estimate assumptions or that one or more significant assumptions do not provide a reasonable basis for the prospective financial information given the hypothetical assumptions, the auditor should either express an adverse opinion setting out the reasons in the report on the prospective financial information, or withdraw from the engagement.

34. When the examination is affected by conditions that preclude application of one or more procedures considered necessary in the circumstances, the auditor should either withdraw from the engagement or disclaim the opinion and describe the scope limitation in the report on the prospective financial information.

Effective Date

35. This SAE is effective in relation to reports on projections/forecasts, issued on or after April 1, 2007. However, earlier application of the Standard is encouraged.

Compatibility with International Standard on Assurance Engagement (ISAE) 3400

Except for the matters noted below, the basic principles and essential procedures of this SAE and International Standard on Assurance Engagement (ISAE) 3400 "The Examination of Prospective Financial Information", are consistent in all material respects:

- (a) SAE precludes the auditor from expressing positive assurance regarding the assumptions as it may tantamount to vouching for the accuracy of the forecast/projection/hypothetical assumptions. Whereas, the ISAE 3400 permits the auditor to express positive assurance when in his judgment an appropriate level of satisfaction has been obtained.

- (b) The sub points in paragraph 17 (corresponding to paragraph 17 of the ISAE 3400) have been rearranged. Sub point (e) has been elucidated for the sake of better understanding of the readers. The sub points (f) and (g) have been added in the SAE as additional factors to be considered by the auditor.
- (c) In paragraph 20 of the SAE, the phrase “although evidence supporting hypothetical assumptions need not be obtained” has been deleted since it is felt that such a phrase is inconsistent with the necessity for the auditor to obtain evidence to support his conclusions.
- (d) In paragraph 26 (corresponding to paragraph 26 of the ISAE 3400), the term “professional standards” has been changed to “professional pronouncements” since pronouncements would include standards as well as other relevant documents, such as Guidance Notes, announcement(s), issued by the ICAI.
- (e) In line with requirement of SA 700, “The Auditor’s Report on Financial Statements” this SAE requires the auditor to include a scope section in the examination report to explain the nature and extent of the auditor’s work. ISAE 3400 does not contain an equivalent requirement.
- (f) SAE specifically provides for the documentation required to be done by the auditor in regard to any engagement of examination of prospective financial information. However, ISAE 3400 does not contain such explicit provision.

Appendix 1

**Illustrative Format of
an Unmodified Report on a Projection**

***Report on Examination of
Prospective Financial Information***

To the ...(addressee).....

We have examined the projection of _____ (project) _____ (name of the entity) for the period from _____ to _____ as given in⁶ _____ to the Prospective Financial Information from page __ to __ in accordance with Standard on Assurance Engagement 3400, “The Examination of Prospective Financial Information”, issued by the Institute of Chartered Accountants of India. The preparation and presentation of the projection including the underlying assumptions, set out in note _____ to _____ to the prospective financial information, is the responsibility of the Management and has been approved by the Board of Directors⁷ of the company. Our responsibility is to examine the evidence supporting the assumptions (excluding the hypothetical assumption) and other information in the prospective financial information. Our responsibility does not include verification of projections. Therefore, we do not vouch for the accuracy of the same.

This projection has been prepared for _____ (intended use). The projection has been prepared using a set of assumptions that include hypothetical assumptions about future events and management’s actions that are not necessarily expected to occur. Consequently, users are cautioned that this projection may not be appropriate for purposes other than that described above.

We have carried out our examination of the prospective financial information on a test basis. Based on our examination of the evidence supporting the assumptions, nothing has come to our attention which causes us

⁶ Provide suitable identification, such as by reference to page numbers or by identifying the individual schedule.

⁷ Other corresponding approving authority in the case of entities other than companies.

to believe that these assumptions do not provide a reasonable basis for the projection, assuming that _____ (state or refer to the hypothetical assumptions).

Further, in our opinion the projection is properly prepared on the basis of the assumptions as set out in Note _____ to the Prospective Financial Information and on a consistent basis with the historical financial statements, using appropriate accounting principles. Even if the events anticipated under the hypothetical assumptions described above occur, actual results are still likely to be different from the projection since other anticipated events frequently do not occur as expected and the variation may be material.

SAE 3402

Assurance Reports on Controls At a Service Organisation

(Effective for service auditors' assurance reports covering periods ending on or after April 1, 2011)

Introduction

Scope of this SAE

1. This Standard on Assurance Engagements (SAE) deals with assurance engagements undertaken by a professional accountant in public practice¹ to provide a report for use by user entities and their auditors on the controls at a service organization that provides a service to user entities that is likely to be relevant to user entities' internal control as it relates to financial reporting. It complements SA 402², in that reports prepared in accordance with this SAE are capable of providing appropriate evidence under SA 402. (Ref: Para. A1)
2. The "Framework for Assurance Engagements" states that an assurance engagement may be a "reasonable assurance" engagement or a "limited assurance" engagement; that an assurance engagement may be either an "assertion-based" engagement or a "direct reporting" engagement; and, that the assurance conclusion for an assertion-based engagement can be worded either in terms of the responsible party's assertion or directly in terms of the subject matter and the criteria.³ This SAE only deals with assertion-based engagements that convey reasonable assurance, with the assurance conclusion worded directly in terms of the subject matter and the criteria⁴.
3. This SAE applies only when the service organization is responsible for, or otherwise able to make an assertion about, the suitable design of controls. This SAE does not deal with assurance engagements:
 - (a) To report only on whether controls at a service organization operated as described, or
 - (b) To report only on controls at a service organization other than those related to a service that is likely to be relevant to user entities' internal control as it relates to financial reporting (for example, controls that affect user entities' production or quality control). (Ref: Para. A2)
4. In addition to issuing an assurance report on controls, a service auditor may also be engaged to provide reports such as the following, which are not dealt with in this SAE:
 - (a) A report on a user entity's transactions or balances maintained by a service organization; or
 - (b) An agreed-upon procedures report on controls at a service organization.

Relationship with Other Professional Pronouncements

5. Framework for Assurance Engagements provides requirements in relation to such topics as

¹ As per the Framework for Assurance Engagements, issued by the Institute of Chartered Accountants of India, the term "professional accountant in public practice (practitioner)" refers to the member of the Institute of Chartered Accountants of India who is in practice in terms of section 2 of the Chartered Accountants Act, 1949. The term is also used to refer to a firm of chartered accountants in public practice.

² SA 402, "Audit Considerations Relating to an Entity Using a Service Organization".

³ Framework for Assurance Engagements, paragraphs 9, 10 and 56.

⁴ Paragraphs 13 and 53(k) of this SAE.

I.700 Auditing Pronouncements

engagement acceptance, planning, evidence, and documentation that apply to all assurance engagements, including engagements in accordance with this SAE. This SAE expands on how such requirements are to be applied in a reasonable assurance engagement to report on controls at a service organization. The Framework for Assurance Engagements, which also defines and describes the elements and objectives of an assurance engagement, provides the context for understanding this SAE.

6. Compliance with Framework for Assurance Engagements requires, among other things, that the service auditor comply with the Code of Ethics of the Institute of Chartered Accountants of India, and implement quality control procedures that are applicable to the individual engagement⁵.

Effective Date

7. This SAE is effective for service auditors' assurance reports covering periods ending on or after April 1, 2011.

Objectives

8. The objectives of the service auditor are:

- (a) To obtain reasonable assurance about whether, in all material respects, based on suitable criteria:
 - (i) The service organization's description of its system fairly presents the system as designed and implemented throughout the specified period (or in the case of a type 1 report, as at a specified date);
 - (ii) The controls related to the control objectives stated in the service organization's description of its system were suitably designed throughout the specified period (or in the case of a type 1 report, as at a specified date);
 - (iii) Where included in the scope of the engagement, the controls operated effectively to provide reasonable assurance that the control objectives stated in the service organization's description of its system were achieved throughout the specified period.
- (b) To report on the matters in (a) above in accordance with the service auditor's findings.

Definitions

9. For purposes of this SAE, the following terms have the meanings attributed below:

- (a) *Carve-out method* – Method of dealing with the services provided by a subservice organization, whereby the service organization's description of its system includes the nature of the services provided by a subservice organization, but that subservice organization's relevant control objectives and related controls are excluded from the service organization's description of its system and from the scope of the service auditor's engagement. The service organization's description of its system and the scope of the service auditor's engagement include controls at the service organization to monitor the effectiveness of controls at the subservice organization, which may include the service organization's review of an assurance report on controls at the subservice organization.
- (b) *Complementary user entity controls* – Controls that the service organization assumes, in the design of its service, will be implemented by user entities, and which, if necessary to achieve control objectives stated in the service organization's description of its system, are identified in that description.
- (c) *Control objective* – The aim or purpose of a particular aspect of controls. Control objectives relate to risks that controls seek to mitigate.
- (d) *Controls at the service organization* – Controls over the achievement of a control objective that is

⁵ Framework for Assurance Engagements, paragraph 4. Members attention is also drawn to ISAE 3000, paragraphs 4 and 6.

covered by the service auditor's assurance report. (Ref: Para. A3)

- (e) *Controls at a subservice organization* – Controls at a subservice organization to provide reasonable assurance about the achievement of a control objective.
- (f) *Criteria* – Benchmarks used to evaluate or measure a subject matter including, where relevant, benchmarks for presentation and disclosure.
- (g) *Inclusive method* – Method of dealing with the services provided by a subservice organization, whereby the service organization's description of its system includes the nature of the services provided by a subservice organization, and that subservice organization's relevant control objectives and related controls are included in the service organization's description of its system and in the scope of the service auditor's engagement. (Ref: Para. A4)
- (h) *Internal audit function* – An appraisal activity established or provided as a service to the service organization. Its functions include, amongst other things, examining, evaluating and monitoring the adequacy and effectiveness of internal control.
- (i) *Internal auditors* – Those individuals who perform the activities of the internal audit function. Internal auditors may belong to an internal audit department or equivalent function.
- (j) *Report on the description and design of controls at a service organization (referred to in this SAE as a "type 1 report")* – A report that comprises:
 - (i) The service organization's description of its system;
 - (ii) A written assertion by the service organization that, in all material respects, and based on suitable criteria:
 - a. The description fairly presents the service organization's system as designed and implemented as at the specified date;
 - b. The controls related to the control objectives stated in the service organization's description of its system were suitably designed as at the specified date; and
 - (iii) A service auditor's assurance report that conveys reasonable assurance about the matters in (ii)a.-b. above.
- (k) *Report on the description, design and operating effectiveness of controls at a service organization (referred to in this SAE as a "type 2 report")* – A report that comprises:
 - (i) The service organization's description of its system;
 - (ii) A written assertion by the service organization that, in all material respects, and based on suitable criteria:
 - a. The description fairly presents the service organization's system as designed and implemented throughout the specified period;
 - b. The controls related to the control objectives stated in the service organization's description of its system were suitably designed throughout the specified period; and
 - c. The controls related to the control objectives stated in the service organization's description of its system operated effectively throughout the specified period; and
 - (iii) A service auditor's assurance report that:
 - a. Conveys reasonable assurance about the matters in (ii)a.-c. above; and
 - b. Includes a description of the tests of controls and the results thereof.
- (l) *Service auditor* – A professional accountant in public practice who, at the request of the service

I.702 Auditing Pronouncements

organization, provides an assurance report on controls at a service organization.

- (m) *Service organization* – A third-party organization (or segment of a third-party organization) that provides services to user entities that are likely to be relevant to user entities' internal control as it relates to financial reporting.
- (n) *Service organization's system (or the system)* – The policies and procedures designed and implemented by the service organization to provide user entities with the services covered by the service auditor's assurance report. The service organization's description of its system includes identification of: the services covered; the period, or in the case of a type 1 report, the date, to which the description relates; control objectives; and related controls.
- (o) *Service organization's assertion* – The written assertion about the matters referred to in paragraph 9(k)(ii) (or paragraph 9(j)(ii) in the case of a type 1 report).
- (p) *Subservice organization* – A service organization used by another service organization to perform some of the services provided to user entities that are likely to be relevant to user entities' internal control as it relates to financial reporting.
- (q) *Test of controls* – A procedure designed to evaluate the operating effectiveness of controls in achieving the control objectives stated in the service organization's description of its system.
- (r) *User auditor* – An auditor who audits and reports on the financial statements of a user entity⁶.
- (s) *User entity* – An entity that uses a service organization.

Requirements

Framework for Assurance Engagements

10. The service auditor shall not represent compliance with this SAE unless the service auditor has complied with the requirements of this SAE and the requirements of the Framework for Assurance Engagements.

Ethical Requirements

11. The service auditor shall comply with relevant ethical requirements, including those pertaining to independence, relating to assurance engagements. (Ref: Para. A5)

Management and Those Charged with Governance

12. Where this SAE requires the service auditor to inquire of, request representations from, communicate with, or otherwise interact with the service organization, the service auditor shall determine the appropriate person(s) within the service organization's management or governance structure with whom to interact. This shall include consideration of which person(s) have the appropriate responsibilities for and knowledge of the matters concerned. (Ref: Para. A6)

Acceptance and Continuance

13. Before agreeing to accept, or continue, an engagement the service auditor shall:

- (a) Determine whether:
 - (i) The service auditor has the capabilities and competence to perform the engagement; (Ref: Para. A7)
 - (ii) The criteria to be applied by the service organization to prepare the description of its system will

⁶ In the case of a subservice organization, the service auditor of a service organization that uses the services of the subservice organization is also a user auditor.

- be suitable and available to user entities and their auditors; and
- (iii) The scope of the engagement and the service organization's description of its system will not be so limited that they are unlikely to be useful to user entities and their auditors.
- (b) Obtain the agreement of the service organization that it acknowledges and understands its responsibility:
- (i) For the preparation of the description of its system, and accompanying service organization's assertion, including the completeness, accuracy and method of presentation of that description and assertion; (Ref: Para. A8)
 - (ii) To have a reasonable basis for the service organization's assertion accompanying the description of its system; (Ref: Para. A9)
 - (iii) For stating in the service organization's assertion the criteria it used to prepare the description of its system;
 - (iv) For stating in the description of its system:
 - a. The control objectives; and,
 - b. Where they are specified by law or regulation, or another party (for example, a user group or a professional body), the party who specified them;
 - (v) For identifying the risks that threaten achievement of the control objectives stated in the description of its system, and designing and implementing controls to provide reasonable assurance that those risks will not prevent achievement of the control objectives stated in the description of its system, and therefore that the stated control objectives will be achieved; and (Ref: Para. A10)
 - (vi) To provide the service auditor with:
 - a. Access to all information, such as records, documentation and other matters, including service level agreements, of which the service organization is aware that is relevant to the description of the service organization's system and the accompanying service organization's assertion;
 - b. Additional information that the service auditor may request from the service organization for the purpose of the assurance engagement; and
 - c. Unrestricted access to persons within the service organization from whom the service auditor determines it necessary to obtain evidence.

Acceptance of a Change in the Terms of the Engagement

14. If the service organization requests a change in the scope of the engagement before the completion of the engagement, the service auditor shall be satisfied that there is a reasonable justification for the change. (Ref: Para. A11-A12)

Assessing the Suitability of the Criteria

15. As required by Framework for Assurance Engagements, the service auditor shall assess whether the service organization has used suitable criteria in preparing the description of its system, in evaluating whether controls are suitably designed, and, in the case of a type 2 report, in evaluating whether controls are operating effectively⁷.

⁷ Framework for Assurance Engagements, paragraphs 33-36.

I.704 Auditing Pronouncements

16. In assessing the suitability of the criteria to evaluate the service organization's description of its system, the service auditor shall determine if the criteria encompass, at a minimum:

- (a) Whether the description presents how the service organization's system was designed and implemented, including, as appropriate:
 - (i) The types of services provided, including, as appropriate, classes of transactions processed;
 - (ii) The procedures, within both information technology and manual systems, by which services are provided, including, as appropriate, procedures by which transactions are initiated, recorded, processed, corrected as necessary, and transferred to the reports and other information prepared for user entities;
 - (iii) The related records and supporting information, including, as appropriate, accounting records, supporting information and specific accounts that are used to initiate, record, process and report transactions; this includes the correction of incorrect information and how information is transferred to the reports and other information prepared for user entities;
 - (iv) How the service organization's system deals with significant events and conditions, other than transactions;
 - (v) The process used to prepare reports and other information for user entities;
 - (vi) The specified control objectives and controls designed to achieve those objectives;
 - (vii) Complementary user entity controls contemplated in the design of the controls; and
 - (viii) Other aspects of the service organization's control environment, risk assessment process, information system (including the related business processes) and communication, control activities and monitoring controls that are relevant to the services provided.
- (b) In the case of a type 2 report, whether the description includes relevant details of changes to the service organization's system during the period covered by the description.
- (c) Whether the description omits or distorts information relevant to the scope of the service organization's system being described, while acknowledging that the description is prepared to meet the common needs of a broad range of user entities and their auditors and may not, therefore, include every aspect of the service organization's system that each individual user entity and its auditor may consider important in its particular environment.

17. In assessing the suitability of the criteria to evaluate the design of controls, the service auditor shall determine if the criteria encompass, at a minimum, whether:

- (a) The service organization has identified the risks that threaten achievement of the control objectives stated in the description of its system; and
- (b) The controls identified in that description would, if operated as described, provide reasonable assurance that those risks do not prevent the stated control objectives from being achieved.

18. In assessing the suitability of the criteria to evaluate the operating effectiveness of controls in providing reasonable assurance that the stated control objectives identified in the description will be achieved, the service auditor shall determine if the criteria encompass, at a minimum, whether the controls were consistently applied as designed throughout the specified period. This includes whether manual controls were applied by individuals who have the appropriate competence and authority. (Ref: Para. A13-A15)

Materiality

19. When planning and performing the engagement, the service auditor shall consider materiality with respect to the fair presentation of the description, the suitability of the design of controls and, in the case of a

type 2 report, the operating effectiveness of controls. (Ref: Para. A16-A18)

Obtaining an Understanding of the Service Organization's System

20. The service auditor shall obtain an understanding of the service organization's system, including controls that are included in the scope of the engagement. (Ref: Para. A19-A20)

Obtaining Evidence Regarding the Description

21. The service auditor shall obtain and read the service organization's description of its system, and shall evaluate whether those aspects of the description included in the scope of the engagement are fairly presented, including whether: (Ref: Para. A21-A22)

- (a) Control objectives stated in the service organization's description of its system are reasonable in the circumstances; (Ref: Para. A23)
- (b) Controls identified in that description were implemented;
- (c) Complementary user entity controls, if any, are adequately described; and
- (d) Services performed by a subservice organization, if any, are adequately described, including whether the inclusive method or the carve-out method has been used in relation to them.

22. The service auditor shall determine, through other procedures in combination with inquiries, whether the service organization's system has been implemented. Those other procedures shall include observation, and inspection of records and other documentation, of the manner in which the service organization's system operates and controls are applied. (Ref: Para. A24)

Obtaining Evidence Regarding Design of Controls

23. The service auditor shall determine which of the controls at the service organization are necessary to achieve the control objectives stated in the service organization's description of its system, and shall assess whether those controls were suitably designed. This determination shall include: (Ref: Para. A25-A27)

- (a) Identifying the risks that threaten the achievement of the control objectives stated in the service organization's description of its system; and
- (b) Evaluating the linkage of controls identified in the service organization's description of its system with those risks.

Obtaining Evidence Regarding Operating Effectiveness of Controls

24. When providing a type 2 report, the service auditor shall test those controls that the service auditor has determined are necessary to achieve the control objectives stated in the service organization's description of its system, and assess their operating effectiveness throughout the period. Evidence obtained in prior engagements about the satisfactory operation of controls in prior periods does not provide a basis for a reduction in testing, even if it is supplemented with evidence obtained during the current period. (Ref: Para. A28-A32)

25. When designing and performing tests of controls, the service auditor shall:

- (a) Perform other procedures in combination with inquiry to obtain evidence about:
 - (i) How the control was applied;
 - (ii) The consistency with which the control was applied; and
 - (iii) By whom or by what means the control was applied;
- (b) Determine whether controls to be tested depend upon other controls (indirect controls) and, if so, whether it is necessary to obtain evidence supporting the operating effectiveness of those indirect controls; and (Ref: Para. A33-A34)

I.706 Auditing Pronouncements

(c) Determine means of selecting items for testing that are effective in meeting the objectives of the procedure. (Ref: Para. A35-A36)

26. When determining the extent of tests of controls, the service auditor shall consider matters including the characteristics of the population to be tested, which includes the nature of controls, the frequency of their application (for example, monthly, daily, a number of times per day), and the expected rate of deviation.

Sampling

27. When the service auditor uses sampling, the service auditor shall: (Ref: Para. A35-A36)

- (a) Consider the purpose of the procedure and the characteristics of the population from which the sample will be drawn when designing the sample;
- (b) Determine a sample size sufficient to reduce sampling risk to an appropriately low level;
- (c) Select items for the sample in such a way that each sampling unit in the population has a chance of selection;
- (d) If a designed procedure is not applicable to a selected item, perform the procedure on a replacement item; and
- (e) If unable to apply the designed procedures, or suitable alternative procedures, to a selected item, treat that item as a deviation.

Nature and Cause of Deviations

28. The service auditor shall investigate the nature and cause of any deviations identified and shall determine whether:

- (a) Identified deviations are within the expected rate of deviation and are acceptable; therefore, the testing that has been performed provides an appropriate basis for concluding that the control is operating effectively throughout the specified period;
- (b) Additional testing of the control or of other controls is necessary to reach a conclusion on whether the controls relative to a particular control objective are operating effectively throughout the specified period; or (Ref: Para. A25)
- (c) The testing that has been performed provides an appropriate basis for concluding that the control did not operate effectively throughout the specified period.

29. In the extremely rare circumstances when the service auditor considers a deviation discovered in a sample to be an anomaly and no other controls have been identified that allow the service auditor to conclude that the relevant control objective is operating effectively throughout the specified period, the service auditor shall obtain a high degree of certainty that such deviation is not representative of the population. The service auditor shall obtain this degree of certainty by performing additional procedures to obtain sufficient appropriate evidence that the deviation does not affect the remainder of the population.

The Work of an Internal Audit Function⁸

Obtaining an Understanding of the Internal Audit Function

30. If the service organization has an internal audit function, the service auditor shall obtain an understanding of the nature of the responsibilities of the internal audit function and of the activities performed in order to determine whether the internal audit function is likely to be relevant to the engagement. (Ref: Para. A37)

⁸ This SAE does not deal with instances when individual internal auditors provide direct assistance to the service auditor in carrying out audit procedures.

Determining Whether and to What Extent to Use the Work of the Internal Auditors

31. The service auditor shall determine:
- (a) Whether the work of the internal auditors is likely to be adequate for purposes of the engagement; and
 - (b) If so, the planned effect of the work of the internal auditors on the nature, timing or extent of the service auditor's procedures.
32. In determining whether the work of the internal auditors is likely to be adequate for purposes of the engagement, the service auditor shall evaluate:
- (a) The objectivity of the internal audit function;
 - (b) The technical competence of the internal auditors;
 - (c) Whether the work of the internal auditors is likely to be carried out with due professional care; and
 - (d) Whether there is likely to be effective communication between the internal auditors and the service auditor.
33. In determining the planned effect of the work of the internal auditors on the nature, timing or extent of the service auditor's procedures, the service auditor shall consider: (Ref: Para. A38)
- (a) The nature and scope of specific work performed, or to be performed, by the internal auditors;
 - (b) The significance of that work to the service auditor's conclusions; and
 - (c) The degree of subjectivity involved in the evaluation of the evidence gathered in support of those conclusions.

Using the Work of the Internal Audit Function

34. In order for the service auditor to use specific work of the internal auditors, the service auditor shall evaluate and perform procedures on that work to determine its adequacy for the service auditor's purposes. (Ref: Para. A39)
35. To determine the adequacy of specific work performed by the internal auditors for the service auditor's purposes, the service auditor shall evaluate whether:
- (a) The work was performed by internal auditors having adequate technical training and proficiency;
 - (b) The work was properly supervised, reviewed and documented;
 - (c) Adequate evidence has been obtained to enable the internal auditors to draw reasonable conclusions;
 - (d) Conclusions reached are appropriate in the circumstances and any reports prepared by the internal auditors are consistent with the results of the work performed; and
 - (e) Exceptions relevant to the engagement or unusual matters disclosed by the internal auditors are properly resolved.

Effect on the Service Auditor's Assurance Report

36. If the work of the internal audit function has been used, the service auditor shall make no reference to that work in the section of the service auditor's assurance report that contains the service auditor's opinion. (Ref: Para. A40)
37. In the case of a type 2 report, if the work of the internal audit function has been used in performing tests of controls, that part of the service auditor's assurance report that describes the service auditor's tests of controls and the results thereof shall include a description of the internal auditor's work and of the service auditor's procedures with respect to that work. (Ref: Para. A41)

I.708 Auditing Pronouncements

Written Representations

38. The service auditor shall request the service organization to provide written representations: (Ref: Para. A42)

- (a) That reaffirm the assertion accompanying the description of the system;
- (b) That it has provided the service auditor with all relevant information and access agreed to;⁹ and
- (c) That it has disclosed to the service auditor any of the following of which it is aware:
 - (i) Non-compliance with laws and regulations, fraud, or uncorrected deviations attributable to the service organization that may affect one or more user entities;
 - (ii) Design deficiencies in controls;
 - (iii) Instances where controls have not operated as described; and
 - (iv) Any events subsequent to the period covered by the service organization's description of its system up to the date of the service auditor's assurance report that could have a significant effect on the service auditor's assurance report.

39. The written representations shall be in the form of a representation letter addressed to the service auditor. The date of the written representations shall be as near as practicable to, but not after, the date of the service auditor's assurance report.

40. If, having discussed the matter with the service auditor, the service organization does not provide one or more of the written representations requested in accordance with paragraph 38(a) and (b) of this SAE, the service auditor shall disclaim an opinion. (Ref: Para. A43)

Other Information

41. The service auditor shall read the other information, if any, included in a document containing the service organization's description of its system and the service auditor's assurance report, to identify material inconsistencies, if any, with that description. While reading the other information for the purpose of identifying material inconsistencies, the service auditor may become aware of an apparent misstatement of fact in that other information.

42. If the service auditor becomes aware of a material inconsistency or an apparent misstatement of fact in the other information, the service auditor shall discuss the matter with the service organization. If the service auditor concludes that there is a material inconsistency or a misstatement of fact in the other information that the service organization refuses to correct, the service auditor shall take further appropriate action. (Ref: Para. A44-A45)

Subsequent Events

43. The service auditor shall inquire whether the service organization is aware of any events subsequent to the period covered by the service organization's description of its system up to the date of the service auditor's assurance report that could have a significant effect on the service auditor's assurance report. If the service auditor is aware of such an event, and information about that event is not disclosed by the service organization, the service auditor shall disclose it in the service auditor's assurance report.

44. The service auditor has no obligation to perform any procedures regarding the description of the service organization's system, or the suitability of design or operating effectiveness of controls, after the date of the service auditor's assurance report.

⁹ Paragraph 13(b)(vi) of this SAE.

Documentation

45. The service auditor shall prepare documentation that is sufficient to enable an experienced service auditor, having no previous connection with the engagement, to understand:

- (a) The nature, timing, and extent of the procedures performed to comply with this SAE and applicable legal and regulatory requirements;
- (b) The results of the procedures performed, and the evidence obtained; and
- (c) Significant matters arising during the engagement, and the conclusions reached thereon and significant professional judgments made in reaching those conclusions.

46. In documenting the nature, timing and extent of procedures performed, the service auditor shall record:

- (a) The identifying characteristics of the specific items or matters being tested;
- (b) Who performed the work and the date such work was completed; and
- (c) Who reviewed the work performed and the date and extent of such review.

47. If the service auditor uses specific work of the internal auditors, the service auditor shall document the conclusions reached regarding the evaluation of the adequacy of the work of the internal auditors, and the procedures performed by the service auditor on that work.

48. The service auditor shall document discussions of significant matters with the service organization and others including the nature of the significant matters discussed and when and with whom the discussions took place.

49. If the service auditor has identified information that is inconsistent with the service auditor's final conclusion regarding a significant matter, the service auditor shall document how the service auditor addressed the inconsistency.

50. The service auditor shall assemble the documentation in an engagement file and complete the administrative process of assembling the final engagement file on a timely basis after the date of the service auditor's assurance report¹⁰.

51. After the assembly of the final engagement file has been completed, the service auditor shall not delete or discard documentation before the end of its retention period. (Ref: Para. A46)

52. If the service auditor finds it necessary to modify existing engagement documentation or add new documentation after the assembly of the final engagement file has been completed and that documentation does not affect the service auditor's report, the service auditor shall, regardless of the nature of the modifications or additions, document:

- (a) The specific reasons for making them; and
- (b) When and by whom they were made and reviewed.

Preparing the Service Auditor's Assurance Report

Content of the Service Auditor's Assurance Report

53. The service auditor's assurance report shall include the following basic elements: (Ref: Para. A47)

- (a) A title that clearly indicates the report is an independent service auditor's assurance report.
- (b) An addressee.
- (c) Identification of:

¹⁰ Standard on Quality Control (SQC) 1, paragraphs 74-76, provide further guidance.

I.710 Auditing Pronouncements

- (i) The service organization's description of its system, and the service organization's assertion, which includes the matters described in paragraph 9(k)(ii) for a type 2 report, or paragraph 9(j)(ii) for a type 1 report.
 - (ii) Those parts of the service organization's description of its system, if any, that are not covered by the service auditor's opinion.
 - (iii) If the description refers to the need for complementary user entity controls, a statement that the service auditor has not evaluated the suitability of design or operating effectiveness of complementary user entity controls, and that the control objectives stated in the service organization's description of its system can be achieved only if complementary user entity controls are suitably designed or operating effectively, along with the controls at the service organization.
 - (iv) If services are performed by a subservice organization, the nature of activities performed by the subservice organization as described in the service organization's description of its system and whether the inclusive method or the carve-out method has been used in relation to them. Where the carve-out method has been used, a statement that the service organization's description of its system excludes the control objectives and related controls at relevant subservice organizations, and that the service auditor's procedures do not extend to controls at the subservice organization. Where the inclusive method has been used, a statement that the service organization's description of its system includes control objectives and related controls at the subservice organization, and that the service auditor's procedures extended to controls at the subservice organization.
- (d) Identification of the criteria, and the party specifying the control objectives.
- (e) A statement that the report and, in the case of a type 2 report, the description of tests of controls are intended only for user entities and their auditors, who have a sufficient understanding to consider it, along with other information including information about controls operated by user entities themselves, when assessing the risks of material misstatements of user entities' financial statements. (Ref: Para. A48)
- (f) A statement that the service organization is responsible for:
- (i) Preparing the description of its system, and the accompanying assertion, including the completeness, accuracy and method of presentation of that description and that assertion;
 - (ii) Providing the services covered by the service organization's description of its system;
 - (iii) Stating the control objectives (where not identified by law or regulation, or another party, for example, a user group or a professional body); and
 - (iv) Designing and implementing controls to achieve the control objectives stated in the service organization's description of its system.
- (g) A statement that the service auditor's responsibility is to express an opinion on the service organization's description, on the design of controls related to the control objectives stated in that description and, in the case of a type 2 report, on the operating effectiveness of those controls, based on the service auditor's procedures.
- (h) A statement that the engagement was performed in accordance with SAE 3402, "Assurance Reports on Controls at a Service Organization," which requires that the service auditor comply with ethical requirements and plan and perform procedures to obtain reasonable assurance about whether, in all material respects, the service organization's description of its system is fairly presented and the controls are suitably designed and, in the case of a type 2 report, are operating effectively.

- (i) A summary of the service auditor's procedures to obtain reasonable assurance and a statement of the service auditor's belief that the evidence obtained is sufficient and appropriate to provide a basis for the service auditor's opinion, and, in the case of a type 1 report, a statement that the service auditor has not performed any procedures regarding the operating effectiveness of controls and therefore no opinion is expressed thereon.
 - (j) A statement of the limitations of controls and, in the case of a type 2 report, of the risk of projecting to future periods any evaluation of the operating effectiveness of controls.
 - (k) The service auditor's opinion, expressed in the positive form, on whether, in all material respects, based on suitable criteria:
 - (i) In the case of a type 2 report:
 - a. The description fairly presents the service organization's system that had been designed and implemented throughout the specified period;
 - b. The controls related to the control objectives stated in the service organization's description of its system were suitably designed throughout the specified period; and
 - c. The controls tested, which were those necessary to provide reasonable assurance that the control objectives stated in the description were achieved, operated effectively throughout the specified period.
 - (ii) In the case of a type 1 report:
 - a. The description fairly presents the service organization's system that had been designed and implemented as at the specified date; and
 - b. The controls related to the control objectives stated in the service organization's description of its system were suitably designed as at the specified date.
 - (l) The date of the service auditor's assurance report, which shall be no earlier than the date on which the service auditor has obtained sufficient appropriate evidence on which to base the opinion.
 - (m) **Practitioner's Signature**—The report should be signed by the practitioner in his personal name. Where the firm is appointed, the report should be signed in the personal name of the engagement partner and in the name of the firm. The partner/proprietor signing the assurance report also needs to mention the membership number assigned by the Institute of Chartered Accountants of India (the Institute). If Partnership/proprietorship firm is appointed, the registration number of the firm, as may be allotted by the Institute, also needs to be mentioned in the assurance reports signed by them.
 - (n) **The place of signature** – the report should name specific location, which is ordinarily the city where the report is signed.
54. In the case of a type 2 report, the service auditor's assurance report shall include a separate section after the opinion, or an attachment, that describes the tests of controls that were performed and the results of those tests. In describing the tests of controls, the service auditor shall clearly state which controls were tested, identify whether the items tested represent all or a selection of the items in the population, and indicate the nature of the tests in sufficient detail to enable user auditors to determine the effect of such tests on their risk assessments. If deviations have been identified, the service auditor shall include the extent of testing performed that led to identification of the deviations (including the sample size where sampling has been used), and the number and nature of the deviations noted. The service auditor shall report deviations even if, on the basis of tests performed, the service auditor has concluded that the related control objective was achieved. (Ref: Para. A18 and A49)

I.712 Auditing Pronouncements

Modified Opinions

55. If the service auditor concludes that: (Ref: Para. A50-A52)
- (a) The service organization's description does not fairly present, in all material respects, the system as designed and implemented;
 - (b) The controls related to the control objectives stated in the description were not suitably designed, in all material respects;
 - (c) In the case of a type 2 report, the controls tested, which were those necessary to provide reasonable assurance that the control objectives stated in the service organization's description of its system were achieved, did not operate effectively, in all material respects; or
 - (d) The service auditor is unable to obtain sufficient appropriate evidence, the service auditor's opinion shall be modified, and the service auditor's assurance report shall contain a clear description of all the reasons for the modification.

Other Communication Responsibilities

56. If the service auditor becomes aware of non-compliance with laws and regulations, fraud, or uncorrected errors attributable to the service organization that are not clearly trivial and may affect one or more user entities, the service auditor shall determine whether the matter has been communicated appropriately to affected user entities. If the matter has not been so communicated and the service organization is unwilling to do so, the service auditor shall take appropriate action. (Ref: Para. A53)

Application and Other Explanatory Material

Scope of this SAE (Ref: Para. 1 and 3)

A1. Internal control is a process designed to provide reasonable assurance regarding the achievement of objectives related to the reliability of financial reporting, effectiveness and efficiency of operations and compliance with applicable laws and regulations. Controls related to a service organization's operations and compliance objectives may be relevant to a user entity's internal control as it relates to financial reporting. Such controls may pertain to assertions about presentation and disclosure relating to account balances, classes of transactions or disclosures, or may pertain to evidence that the user auditor evaluates or uses in applying auditing procedures. For example, a payroll processing service organization's controls related to the timely remittance of payroll deductions to government authorities may be relevant to a user entity as late remittances could incur interest and penalties that would result in a liability for the user entity. Similarly, a service organization's controls over the acceptability of investment transactions from a regulatory perspective may be considered relevant to a user entity's presentation and disclosure of transactions and account balances in its financial statements. The determination of whether controls at a service organization related to operations and compliance are likely to be relevant to user entities' internal control as it relates to financial reporting is a matter of professional judgment, having regard to the control objectives set by the service organization and the suitability of the criteria.

A2. The service organization may not be able to assert that the system is suitably designed when, for example, the service organization is operating a system that has been designed by a user entity or is stipulated in a contract between a user entity and the service organization. Because of the inextricable link between the suitable design of controls and their operating effectiveness, the absence of an assertion with respect to the suitability of design will likely preclude the service auditor from concluding that the controls provide reasonable assurance that the control objectives have been met and thus from opining on the operating effectiveness of controls. As an alternative, the practitioner may choose to accept an agreed-upon procedures engagement to perform tests of controls, or an assurance engagement to conclude on whether, based on tests of controls, the controls have operated as described.

Definitions (Ref: Para. 9(d) and 9(g))

A3. The definition of “controls at the service organization” includes aspects of user entities’ information systems maintained by the service organization, and may also include aspects of one or more of the other components of internal control at a service organization. For example, it may include aspects of a service organization’s control environment, monitoring, and control activities when they relate to the services provided. It does not, however, include controls at a service organization that are not related to the achievement of the control objectives stated in the service organization’s description of its system, for example, controls related to the preparation of the service organization’s own financial statements.

A4. When the inclusive method is used, the requirements in this SAE also apply to the services provided by the subservice organization, including obtaining agreement regarding the matters in paragraph 13(b)(i)-(v) as applied to the subservice organization rather than the service organization. Performing procedures at the subservice organization entails coordination and communication between the service organization, the subservice organization, and the service auditor. The inclusive method generally is feasible only if the service organization and the subservice organization are related, or if the contract between the service organization and the subservice organization provides for its use.

Ethical Requirements (Ref: Para. 11)

A5. The service auditor is subject to relevant independence requirements, which ordinarily comprise *Code of Ethics* of the Institute. In performing an engagement in accordance with this SAE, the *Code of Ethics* of the ICAI does not require the service auditor to be independent from each user entity.

Management and Those Charged with Governance (Ref: Para. 12)

A6. Management and governance structures vary by jurisdiction and by entity, reflecting influences such as different cultural and legal backgrounds, and size and ownership characteristics. Such diversity means that it is not possible for this SAE to specify for all engagements the person(s) with whom the service auditor is to interact regarding particular matters. For example, the service organization may be a segment of a third-party organization and not a separate legal entity. In such cases, identifying the appropriate management personnel or those charged with governance from whom to request written representations may require the exercise of professional judgment.

Acceptance and Continuance

Capabilities and Competence to Perform the Engagement (Ref: Para. 13(a)(i))

A7. Relevant capabilities and competence to perform the engagement include matters such as the following:

- Knowledge of the relevant industry;
- An understanding of information technology and systems;
- Experience in evaluating risks as they relate to the suitable design of controls; and
- Experience in the design and execution of tests of controls and the evaluation of the results.

Service Organization’s Assertion (Ref: Para. 13(b)(i))

A8. Refusal, by a service organization, to provide a written assertion, subsequent to an agreement by the service auditor to accept, or continue, an engagement, represents a scope limitation that causes the service auditor to withdraw from the engagement. If law or regulation does not allow the service auditor to withdraw from the engagement, the service auditor disclaims an opinion.

Reasonable Basis for Service Organization’s Assertion (Ref: Para. 13(b)(ii))

A9. In the case of a type 2 report, the service organization’s assertion includes a statement that the

I.714 Auditing Pronouncements

controls related to the control objectives stated in the service organization's description of its system operated effectively throughout the specified period. This assertion may be based on the service organization's monitoring activities. Monitoring of controls is a process to assess the effectiveness of controls over time. It involves assessing the effectiveness of controls on a timely basis, identifying and reporting deficiencies to appropriate individuals within the service organization, and taking necessary corrective actions. The service organization accomplishes monitoring of controls through ongoing activities, separate evaluations, or a combination of both. The greater the degree and effectiveness of ongoing monitoring activities, the less need for separate evaluations. Ongoing monitoring activities are often built into the normal recurring activities of a service organization and include regular management and supervisory activities. Internal auditors or personnel performing similar functions may contribute to the monitoring of a service organization's activities. Monitoring activities may also include using information communicated by external parties, such as customer complaints and regulator comments, which may indicate problems or highlight areas in need of improvement. The fact that the service auditor will report on the operating effectiveness of controls is not a substitute for the service organization's own processes to provide a reasonable basis for its assertion.

Identification of Risks (Ref: Para. 13(b)(iv))

A10. As noted in paragraph 9(c), control objectives relate to risks that controls seek to mitigate. For example, the risk that a transaction is recorded at the wrong amount or in the wrong period can be expressed as a control objective that transactions are recorded at the correct amount and in the correct period. The service organization is responsible for identifying the risks that threaten achievement of the control objectives stated in the description of its system. The service organization may have a formal or informal process for identifying relevant risks. A formal process may include estimating the significance of identified risks, assessing the likelihood of their occurrence, and deciding about actions to address them. However, since control objectives relate to risks that controls seek to mitigate, thoughtful identification of control objectives when designing and implementing the service organization's system may itself comprise an informal process for identifying relevant risks.

Acceptance of a Change in the Terms of the Engagement (Ref: Para. 14)

A11. A request to change the scope of the engagement may not have a reasonable justification when, for example, the request is made to exclude certain control objectives from the scope of the engagement because of the likelihood that the service auditor's opinion would be modified; or the service organization will not provide the service auditor with a written assertion and the request is made to perform the engagement under Framework for Assurance Engagements.

A12. A request to change the scope of the engagement may have a reasonable justification when, for example, the request is made to exclude from the engagement a subservice organization when the service organization cannot arrange for access by the service auditor, and the method used for dealing with the services provided by that subservice organization is changed from the inclusive method to the carve-out method.

Assessing the Suitability of the Criteria (Ref: Para. 15-18)

A13. Criteria need to be available to the intended users to allow them to understand the basis for the service organization's assertion about the fair presentation of its description of the system, the suitability of the design of controls and, in the case of a type 2 report, the operating effectiveness of the controls related to the control objectives.

A14. Framework for Assurance Engagements requires the service auditor, among other things, to assess

the suitability of criteria, and the appropriateness of the subject matter¹¹. The subject matter is the underlying condition of interest to intended users of an assurance report. The following table identifies the subject matter and minimum criteria for each of the opinions in type 2 and type 1 reports.

	Subject matter	Criteria	Comment	
Opinion about the fair presentation of the service organization's system (type 1 and type 2 reports)	The service organization's system that is likely to be relevant to user entities' internal control as it relates to financial reporting and is covered by the service auditor's assurance report.	The description is fairly presented if it: (a) presents how the service organization's system was designed and implemented including, as appropriate, the matters identified in paragraph 16(a)(i)-(viii); (b) in the case of a type 2 report, includes relevant details of changes to the service organization's system during the period covered by the description; and (c) does not omit or distort information relevant to the scope of the service organization's system being described, while acknowledging that the description is prepared to meet the common needs of a broad range of user entities and may not, therefore, include every aspect of the service organization's system that each individual user entity may consider important in its own particular environment.	The specific wording of the criteria for this opinion may need to be tailored to be consistent with criteria established by, for example, law or regulation, user groups, or a professional body. Examples of criteria for this opinion are provided in the illustrative service organization's assertion in Appendix 1. Paragraphs A21-A24 offer further guidance on determining whether these criteria are met. (The subject matter information ¹² for this opinion is the service organization's description of its system and the service organization's assertion that the description is fairly presented.)	
Opinion about suitability of design, and operating effectiveness	The suitability of the design and operating effectiveness of those controls that are necessary to achieve the control	The controls are suitably designed and operating effectively if: (a) the service organization has identified the risks that threaten achievement of the control objectives	When the criteria for this opinion are met, controls will have provided reasonable assurance that	The control objectives, which are stated in the service organization's description of

¹¹ Framework for Assurance Engagements, paragraph 16(b). Members attention is also drawn to ISAE 3000, paragraphs 18-19.

¹² The "subject matter information" is the outcome of the evaluation or measurement of the subject matter.

I.716 Auditing Pronouncements

<p>s (type 2 reports)</p>	<p>objectives stated in the service organization's description of its system.</p>	<p>stated in the description of its system; (b) the controls identified in that description would, if operated as described, provide reasonable assurance that those risks do not prevent the stated control objectives from being achieved; and (c) the controls were consistently applied as designed throughout the specified period. This includes whether manual controls were applied by individuals who have the appropriate competence and authority.</p>	<p>the related control objectives were achieved throughout the specified period. (The subject matter information for this opinion is the service organization's assertion that controls are suitably designed and that they are operating effectively.)</p>	<p>its system, are part of the criteria for these opinions. The stated control objectives will differ from engagement to engagement. If, as part of forming the opinion on the description, the service auditor concludes the stated control objectives are not fairly presented then those control objectives would not be suitable as part of the criteria for forming an opinion on either the design or operating effectiveness of controls.</p>
<p>Opinion about suitability of design (type 1 reports)</p>	<p>The suitability of the design of those controls that are necessary to achieve the control objectives stated in the service organization's description of its system.</p>	<p>The controls are suitably designed if: (a) the service organization has identified the risks that threaten achievement of the control objectives stated in the description of its system; and (b) the controls identified in that description would, if operated as described, provide reasonable assurance that those risks do not prevent the stated control objectives from being achieved.</p>	<p>Meeting these criteria does not, of itself, provide any assurance that the related control objectives were achieved because no assurance has been obtained about the operation of controls. (The subject matter information for this opinion is the service organization's assertion that controls are suitably designed.)</p>	<p>Meeting these criteria does not, of itself, provide any assurance that the related control objectives were achieved because no assurance has been obtained about the operation of controls. (The subject matter information for this opinion is the service organization's assertion that controls are suitably designed.)</p>

A15. Paragraph 16(a) identifies a number of elements that are included in the service organization's description of its system as appropriate. These elements may not be appropriate if the system being described is not a system that processes transactions, for example, if the system relates to general controls over the hosting of an IT application but not the controls embedded in the application itself.

Materiality (Ref: Para. 19 and 54)

A16. In an engagement to report on controls at a service organization, the concept of materiality relates to the system being reported on, not the financial statements of user entities. The service auditor plans and performs procedures to determine whether the service organization's description of its system is fairly presented in all material respects, whether controls at the service organization are suitably designed in all material respects and, in the case of a type 2 report, whether controls at the service organization are operating effectively in all material respects. The concept of materiality takes into account that the service auditor's assurance report provides information about the service organization's system to meet the common information needs of a broad range of user entities and their auditors who have an understanding of the manner in which that system has been used.

A17. Materiality with respect to the fair presentation of the service organization's description of its system, and with respect to the design of controls, includes primarily the consideration of qualitative factors, for example: whether the description includes the significant aspects of processing significant transactions; whether the description omits or distorts relevant information; and the ability of controls, as designed, to provide reasonable assurance that control objectives would be achieved. Materiality with respect to the service auditor's opinion on the operating effectiveness of controls includes the consideration of both quantitative and qualitative factors, for example, the tolerable rate and observed rate of deviation (a quantitative matter), and the nature and cause of any observed deviation (a qualitative matter).

A18. The concept of materiality is not applied when disclosing, in the description of the tests of controls, the results of those tests where deviations have been identified. This is because, in the particular circumstances of a specific user entity or user auditor, a deviation may have significance beyond whether or not, in the opinion of the service auditor, it prevents a control from operating effectively. For example, the control to which the deviation relates may be particularly significant in preventing a certain type of error that may be material in the particular circumstances of a user entity's financial statements.

Obtaining an Understanding of the Service Organization's System (Ref: Para. 20)

A19. Obtaining an understanding of the service organization's system, including controls, included in the scope of the engagement, assists the service auditor in:

- Identifying the boundaries of that system, and how it interfaces with other systems.
- Assessing whether the service organization's description fairly presents the system that has been designed and implemented.
- Determining which controls are necessary to achieve the control objectives stated in the service organization's description of its system.
- Assessing whether controls were suitably designed.
- Assessing, in the case of a type 2 report, whether controls were operating effectively.

A20. The service auditor's procedures to obtain this understanding may include:

- Inquiring of those within the service organization who, in the service auditor's judgment, may have relevant information.
- Observing operations and inspecting documents, reports, printed and electronic records of transaction processing.
- Inspecting a selection of agreements between the service organization and user entities to identify their common terms.

I.718 Auditing Pronouncements

- Reperforming control procedures.

Obtaining Evidence Regarding the Description (Ref: Para. 21-22)

A21. Considering the following questions may assist the service auditor in determining whether those aspects of the description included in the scope of the engagement are fairly presented in all material respects:

- Does the description address the major aspects of the service provided (within the scope of the engagement) that could reasonably be expected to be relevant to the common needs of a broad range of user auditors in planning their audits of user entities' financial statements?
- Is the description prepared at a level of detail that could reasonably be expected to provide a broad range of user auditors with sufficient information to obtain an understanding of internal control in accordance with SA 31513? The description need not address every aspect of the service organization's processing or the services provided to user entities, and need not be so detailed as to potentially allow a reader to compromise security or other controls at the service organization.
- Is the description prepared in a manner that does not omit or distort information that may affect the common needs of a broad range of user auditors' decisions, for example, does the description contain any significant omissions or inaccuracies in processing of which the service auditor is aware?
- Where some of the control objectives stated in the service organization's description of its system have been excluded from the scope of the engagement, does the description clearly identify the excluded objectives?
- Have the controls identified in the description been implemented?
- Are complementary user entity controls, if any, described adequately? In most cases, the description of control objectives is worded such that the control objectives are capable of being achieved through effective operation of controls implemented by the service organization alone. In some cases, however, the control objectives stated in the service organization's description of its system cannot be achieved by the service organization alone because their achievement requires particular controls to be implemented by user entities. This may be the case where, for example, the control objectives are specified by a regulatory authority. When the description does include complementary user entity controls, the description separately identifies those controls along with the specific control objectives that cannot be achieved by the service organization alone.
- If the inclusive method has been used, does the description separately identify controls at the service organization and controls at the subservice organization? If the carve-out method is used, does the description identify the functions that are performed by the subservice organization? When the carve-out method is used, the description need not describe the detailed processing or controls at the subservice organization.

A22. The service auditor's procedures to evaluate the fair presentation of the description may include:

- Considering the nature of user entities and how the services provided by the service organization are likely to affect them, for example, whether user entities are from a particular industry and whether they are regulated by government agencies.
- Reading standard contracts, or standard terms of contracts, (if applicable) with user entities to gain an understanding of the service organization's contractual obligations.

¹³ SA 315, "Identifying and Assessing the Risks of Material Misstatement Through Understanding the Entity and Its Environment".

- Observing procedures performed by service organization personnel.
- Reviewing the service organization's policy and procedure manuals and other systems documentation, for example, flowcharts and narratives.

A23. Paragraph 21(a) requires the service auditor to evaluate whether the control objectives stated in the service organization's description of its system are reasonable in the circumstances.

Considering the following questions may assist the service auditor in this evaluation:

- Have the stated control objectives been designated by the service organization or by outside parties such as a regulatory authority, a user group, or a professional body that follows a transparent due process?
- Where the stated control objectives have been specified by the service organization, do they relate to the types of assertions commonly embodied in the broad range of user entities' financial statements to which controls at the service organization could reasonably be expected to relate? Although the service auditor ordinarily will not be able to determine how controls at a service organization specifically relate to the assertions embodied in individual user entities' financial statements, the service auditor's understanding of the nature of the service organization's system, including controls, and services being provided is used to identify the types of assertions to which those controls are likely to relate.
- Where the stated control objectives have been specified by the service organization, are they complete? A complete set of control objectives can provide a broad range of user auditors with a framework to assess the effect of controls at the service organization on the assertions commonly embodied in user entities' financial statements.

A24. The service auditor's procedures to determine whether the service organization's system has been implemented may be similar to, and performed in conjunction with, procedures to obtain an understanding of that system. They may also include tracing items through the service organization's system and, in the case of a type 2 report, specific inquiries about changes in controls that were implemented during the period. Changes that are significant to user entities or their auditors are included in the description of the service organization's system.

Obtaining Evidence Regarding Design of Controls (Ref: Para. 23 and 28(b))

A25. From the viewpoint of a user entity or a user auditor, a control is suitably designed if, individually or in combination with other controls, it would, when complied with satisfactorily, provide reasonable assurance that material misstatements are prevented, or detected and corrected. A service organization or a service auditor, however, is not aware of the circumstances at individual user entities that would determine whether or not a misstatement resulting from a control deviation is material to those user entities. Therefore, from the viewpoint of a service auditor, a control is suitably designed if, individually or in combination with other controls, it would, when complied with satisfactorily, provide reasonable assurance that control objectives stated in the service organization's description of its system are achieved.

A26. A service auditor may consider using flowcharts, questionnaires, or decision tables to facilitate understanding the design of the controls.

A27. Controls may consist of a number of activities directed at the achievement of a control objective. Consequently, if the service auditor evaluates certain activities as being ineffective in achieving a particular control objective, the existence of other activities may allow the service auditor to conclude that controls related to the control objective are suitably designed.

Obtaining Evidence Regarding Operating Effectiveness of Controls

Assessing Operating Effectiveness (Ref: Para. 24)

A28. From the viewpoint of a user entity or a user auditor, a control is operating effectively if, individually or in combination with other controls, it provides reasonable assurance that material misstatements, whether due to fraud or error, are prevented, or detected and corrected. A service organization or a service auditor, however, is not aware of the circumstances at individual user entities that would determine whether a misstatement resulting from a control deviation had occurred and, if so, whether it is material. Therefore, from the viewpoint of a service auditor, a control is operating effectively if, individually or in combination with other controls, it provides reasonable assurance that control objectives stated in the service organization's description of its system are achieved. Similarly, a service organization or a service auditor is not in a position to determine whether any observed control deviation would result in a material misstatement from the viewpoint of an individual user entity.

A29. Obtaining an understanding of controls sufficient to opine on the suitability of their design is not sufficient evidence regarding their operating effectiveness, unless there is some automation that provides for the consistent operation of the controls as they were designed and implemented. For example, obtaining information about the implementation of a manual control at a point in time does not provide evidence about operation of the control at other times. However, because of the inherent consistency of IT processing, performing procedures to determine the design of an automated control, and whether it has been implemented, may serve as evidence of that control's operating effectiveness, depending on the service auditor's assessment and testing of other controls, such as those over program changes.

A30. To be useful to user auditors, a type 2 report ordinarily covers a minimum period of six months. If the period is less than six months, the service auditor may consider it appropriate to describe the reasons for the shorter period in the service auditor's assurance report. Circumstances that may result in a report covering a period of less than six months include when (a) the service auditor is engaged close to the date by which the report on controls is to be issued; (b) the service organization (or a particular system or application) has been in operation for less than six months; or (c) significant changes have been made to the controls and it is not practicable either to wait six months before issuing a report or to issue a report covering the system both before and after the changes.

A31. Certain control procedures may not leave evidence of their operation that can be tested at a later date and, accordingly, the service auditor may find it necessary to test the operating effectiveness of such control procedures at various times throughout the reporting period.

A32. The service auditor provides an opinion on the operating effectiveness of controls throughout each period, therefore, sufficient appropriate evidence about the operation of controls during the current period is required for the service auditor to express that opinion. Knowledge of deviations observed in prior engagements may, however, lead the service auditor to increase the extent of testing during the current period.

Testing of Indirect Controls (Ref: Para. 25(b))

A33. In some circumstances, it may be necessary to obtain evidence supporting the effective operation of indirect controls. For example, when the service auditor decides to test the effectiveness of a review of exception reports detailing sales in excess of authorized credit limits, the review and related follow up is the control that is directly of relevance to the service auditor. Controls over the accuracy of the information in the reports (for example, the general IT controls) are described as "indirect" controls.

A34. Because of the inherent consistency of IT processing, evidence about the implementation of an automated application control, when considered in combination with evidence about the operating effectiveness of the service organization's general controls (in particular, change controls), may also provide

substantial evidence about its operating effectiveness.

Means of Selecting Items for Testing (Ref: Para. 25(c) and 27)

A35. The means of selecting items for testing available to the service auditor are:

- (a) Selecting all items (100% examination). This may be appropriate for testing controls that are applied infrequently, for example, quarterly, or when evidence regarding application of the control makes 100% examination efficient;
- (b) Selecting specific items. This may be appropriate where 100% examination would not be efficient and sampling would not be effective, such as testing controls that are not applied sufficiently frequently to render a large population for sampling, for example, controls that are applied monthly or weekly; and
- (c) Sampling. This may be appropriate for testing controls that are applied frequently in a uniform manner and which leave documentary evidence of their application.

A36. While selective examination of specific items will often be an efficient means of obtaining evidence, it does not constitute sampling. The results of procedures applied to items selected in this way cannot be projected to the entire population; accordingly, selective examination of specific items does not provide evidence concerning the remainder of the population. Sampling, on the other hand, is designed to enable conclusions to be drawn about an entire population on the basis of testing a sample drawn from it.

The Work of an Internal Audit Function

Obtaining an Understanding of the Internal Audit Function (Ref: Para. 30)

A37. An internal audit function may be responsible for providing analyses, evaluations, assurances, recommendations, and other information to management and those charged with governance. An internal audit function at a service organization may perform activities related to the service organization's own system of internal control, or activities related to the services and systems, including controls, that the service organization is providing to user entities.

Determining Whether and to What Extent to Use the Work of the Internal Auditors (Ref: Para. 33)

A38. In determining the planned effect of the work of the internal auditors on the nature, timing or extent of the service auditor's procedures, the following factors may suggest the need for different or less extensive procedures than would otherwise be the case:

- The nature and scope of specific work performed, or to be performed, by the internal auditors is quite limited.
- The work of the internal auditors relates to controls that are less significant to the service auditor's conclusions.
- The work performed, or to be performed, by the internal auditors does not require subjective or complex judgments.

Using the Work of the Internal Audit Function (Ref: Para. 34)

A39. The nature, timing and extent of the service auditor's procedures on specific work of the internal auditors will depend on the service auditor's assessment of the significance of that work to the service auditor's conclusions (for example, the significance of the risks that the controls tested seek to mitigate), the evaluation of the internal audit function and the evaluation of the specific work of the internal auditors. Such procedures may include:

- Examination of items already examined by the internal auditors;
- Examination of other similar items; and

I.722 Auditing Pronouncements

- Observation of procedures performed by the internal auditors.

Effect on the Service Auditor's Assurance Report (Ref: Para. 36-37)

A40. Irrespective of the degree of autonomy and objectivity of the internal audit function, such function is not independent of the service organization as is required of the service auditor when performing the engagement. The service auditor has sole responsibility for the opinion expressed in the service auditor's assurance report, and that responsibility is not reduced by the service auditor's use of the work of the internal auditors.

A41. The service auditor's description of work performed by the internal audit function may be presented in a number of ways, for example:

- By including introductory material to the description of tests of controls indicating that certain work of the internal audit function was used in performing tests of controls.
- Attribution of individual tests to internal audit.

Written Representations (Ref: Para. 38 and 40)

A42. The written representations required by paragraph 38 are separate from, and in addition to, the service organization's assertion, as defined at paragraph 9(o).

A43. If the service organization does not provide the written representations requested in accordance with paragraph 38(c) of this SAE, it may be appropriate for the service auditor's opinion to be modified in accordance with paragraph 55(d) of this SAE.

Other Information (Ref: Para. 42)

A44. The *Code of Ethics* of the ICAI requires that a service auditor not be associated with information where the service auditor believes that the information:

- (a) Contains a materially false or misleading statement;
- (b) Contains statements or information furnished negligently; or
- (c) Omits or obscures information required to be included where such omission or obscurity would be misleading¹⁴.

If other information included in a document containing the service organization's description of its system and the service auditor's assurance report contains future-oriented information such as recovery or contingency plans, or plans for modifications to the system that will address deviations identified in the service auditor's assurance report, or claims of a promotional nature that cannot be reasonably substantiated, the service auditor may request that information be removed or restated.

A45. If the service organization refuses to remove or restate the other information, further actions that may be appropriate include, for example:

- Requesting the service organization to consult with its legal counsel as to the appropriate course of action.
- Describing the material inconsistency or material misstatement of fact in the assurance report.
- Withholding the assurance report until the matter is resolved.
- Withdrawing from the engagement.

¹⁴ The Code of Ethics of the ICAI, paragraph 110.2.

Documentation (Ref: Para. 51)

A46. SQC 1 requires firms to establish policies and procedures for the timely completion of the assembly of engagement files¹⁵. An appropriate time limit within which to complete the assembly of the final engagement file is ordinarily not more than 60 days after the date of the service auditor's report¹⁶.

Preparing the Service Auditor's Assurance Report

Content of the Service Auditor's Assurance Report (Ref: Para. 53)

A47. Illustrative examples of service auditors' assurance reports and related service organizations' assertions are contained in **Appendices 1 and 2**.

Intended Users and Purposes of the Service Auditor's Assurance Report (Ref: Para. 53(e))

A48. The criteria used for engagements to report on controls at a service organization are relevant only for the purposes of providing information about the service organization's system, including controls, to those who have an understanding of how the system has been used for financial reporting by user entities. Accordingly this is stated in the service auditor's assurance report. In addition, the service auditor may consider it appropriate to include wording that specifically restricts distribution of the assurance report other than to intended users, its use by others, or its use for other purposes.

Description of the Tests of Controls (Ref: Para. 54)

A49. In describing the nature of the tests of controls for a type 2 report, it assists readers of the service auditor's assurance report if the service auditor includes:

- The results of all tests where deviations have been identified, even if other controls have been identified that allow the service auditor to conclude that the relevant control objective has been achieved or the control tested has subsequently been removed from the service organization's description of its system.
- Information about causative factors for identified deviations, to the extent the service auditor has identified such factors.

Modified Opinions (Ref: Para. 55)

A50. Illustrative examples of elements of modified service auditor's assurance reports are contained in **Appendix 3**.

A51. Even if the service auditor has expressed an adverse opinion or disclaimed an opinion, it may be appropriate to describe in the basis for modification paragraph the reasons for any other matters of which the service auditor is aware that would have required a modification to the opinion, and the effects thereof.

A52. When expressing a disclaimer of opinion because of a scope limitation, it is not ordinarily appropriate to identify the procedures that were performed nor include statements describing the characteristics of a service auditor's engagement; to do so might overshadow the disclaimer of opinion.

Other Communication Responsibilities (Ref: Para. 56)

A53. Appropriate actions to respond to the circumstances identified in paragraph 56 may include:

- Obtaining legal advice about the consequences of different courses of action.
- Communicating with those charged with governance of the service organization.

¹⁵ SQC 1, paragraph 74.

¹⁶ SQC 1, paragraph 75.

I.724 Auditing Pronouncements

- Communicating with third parties (for example, a regulator) when required to do so.
- Modifying the service auditor's opinion, or adding an Other Matter paragraph.
- Withdrawing from the engagement.

Appendix 1

(Ref. Para. A47)

Example Service Organization's Assertions

The following examples of service organization's assertions are for guidance only and are not intended to be exhaustive or applicable to all situations.

Example 1: Type 2 Service Organization's Assertion

Assertion by the Service Organization

The accompanying description has been prepared for customers who have used [the type or name of] system and their auditors who have a sufficient understanding to consider the description, along with other information including information about controls operated by customers themselves, when assessing the risks of material misstatements of customers' financial statements. [Entity's name] confirms that:

- (a) The accompanying description at pages [bb-cc] fairly presents [the type or name of] system for processing customers' transactions throughout the period [date] to [date]. The criteria used in making this assertion were that the accompanying description:
 - (i) Presents how the system was designed and implemented, including:
 - The types of services provided, including, as appropriate, classes of transactions processed.
 - The procedures, within both information technology and manual systems, by which those transactions were initiated, recorded, processed, corrected as necessary, and transferred to the reports prepared for customers.
 - The related accounting records, supporting information and specific accounts that were used to initiate, record, process and report transactions; this includes the correction of incorrect information and how information was transferred to the reports prepared for customers.
 - How the system dealt with significant events and conditions, other than transactions.
 - The process used to prepare reports for customers.
 - Relevant control objectives and controls designed to achieve those objectives.
 - Controls that we assumed, in the design of the system, would be implemented by user entities, and which, if necessary to achieve control objectives stated in the accompanying description, are identified in the description along with the specific control objectives that cannot be achieved by ourselves alone.
 - Other aspects of our control environment, risk assessment process, information system (including the related business processes) and communication, control activities and monitoring controls that were relevant to processing and reporting customers' transactions.

- (ii) Includes relevant details of changes to the service organization's system during the period [date] to [date].
 - (iii) Does not omit or distort information relevant to the scope of the system being described, while acknowledging that the description is prepared to meet the common needs of a broad range of customers and their auditors and may not, therefore, include every aspect of the system that each individual customer may consider important in its own particular environment.
- (b) The controls related to the control objectives stated in the accompanying description were suitably designed and operated effectively throughout the period [date] to [date]. The criteria used in making this assertion were that:
- (i) The risks that threatened achievement of the control objectives stated in the description were identified;
 - (ii) The identified controls would, if operated as described, provide reasonable assurance that those risks did not prevent the stated control objectives from being achieved; and
 - (iii) The controls were consistently applied as designed, including that manual controls were applied by individuals who have the appropriate competence and authority, throughout the period [date] to [date].

Example 2: Type 1 Service Organization's Assertion

The accompanying description has been prepared for customers who have used [the type or name of] system and their auditors who have a sufficient understanding to consider the description, along with other information including information about controls operated by customers themselves, when obtaining an understanding of customers' information systems relevant to financial reporting. [Entity's name] confirms that:

- (a) The accompanying description at pages [bb-cc] fairly presents [the type or name of] system for processing customers' transactions as at [date]. The criteria used in making this assertion were that the accompanying description:
- (i) Presents how the system was designed and implemented, including:
 - The types of services provided, including, as appropriate, classes of transactions processed.
 - The procedures, within both information technology and manual systems, by which those transactions were initiated, recorded, processed, corrected as necessary, and transferred to the reports prepared for customers.
 - The related accounting records, supporting information and specific accounts that were used to initiate, record, process and report transactions; this includes the correction of incorrect information and how information is transferred to the reports prepared customers.
 - How the system dealt with significant events and conditions, other than transactions.
 - The process used to prepare reports for customers.
 - Relevant control objectives and controls designed to achieve those objectives.
 - Controls that we assumed, in the design of the system, would be implemented by user entities, and which, if necessary to achieve control objectives stated in the accompanying description, are identified in the description along with the specific control objectives that cannot be achieved by ourselves alone.

I.726 Auditing Pronouncements

- Other aspects of our control environment, risk assessment process, information system (including the related business processes) and communication, control activities and monitoring controls that were relevant to processing and reporting customers' transactions.
- (ii) Does not omit or distort information relevant to the scope of the system being described, while acknowledging that the description is prepared to meet the common needs of a broad range of customers and their auditors and may not, therefore, include every aspect of the system that each individual customer may consider important in its own particular environment.
- (b) The controls related to the control objectives stated in the accompanying description were suitably designed as at [date]. The criteria used in making this assertion were that:
- (i) The risks that threatened achievement of the control objectives stated in the description were identified; and
- (ii) The identified controls would, if operated as described, provide reasonable assurance that those risks did not prevent the stated control objectives from being achieved.

Appendix 2

(Ref. Para. A47)

Example Service Auditor's Assurance Reports

The following examples of reports are for guidance only and are not intended to be exhaustive or applicable to all situations.

Example 1: Type 2 Service Auditor's Assurance Report

Independent Service Auditor's Assurance Report on the Description of Controls, their Design and Operating Effectiveness

To: XYZ Service Organization

Scope

We have been engaged to report on XYZ Service Organization's description at pages [bb-cc] of its [type or name of] system for processing customers' transactions throughout the period [date] to [date] (the description), and on the design and operation of controls related to the control objectives stated in the description¹⁷.

XYZ Service Organization's Responsibilities

XYZ Service Organization is responsible for: preparing the description and accompanying assertion at page [aa], including the completeness, accuracy and method of presentation of the description and assertion; providing the services covered by the description; stating the control objectives; and designing, implementing and effectively operating controls to achieve the stated control objectives.

Service Auditor's Responsibilities

Our responsibility is to express an opinion on XYZ Service Organization's description and on the design and operation of controls related to the control objectives stated in that description, based on our procedures. We conducted our engagement in accordance with Standard on Assurance Engagements 3402, "Assurance

¹⁷ If some elements of the description are not included in the scope of the engagement, this is made clear in the assurance report.

Reports on Controls at a Service Organization,” issued by the Institute of Chartered Accountants of India. That standard requires that we comply with ethical requirements and plan and perform our procedures to obtain reasonable assurance about whether, in all material respects, the description is fairly presented and the controls are suitably designed and operating effectively.

An assurance engagement to report on the description, design and operating effectiveness of controls at a service organization involves performing procedures to obtain evidence about the disclosures in the service organization’s description of its system, and the design and operating effectiveness of controls. The procedures selected depend on the service auditor’s judgment, including the assessment of the risks that the description is not fairly presented, and that controls are not suitably designed or operating effectively. Our procedures included testing the operating effectiveness of those controls that we consider necessary to provide reasonable assurance that the control objectives stated in the description were achieved. An assurance engagement of this type also includes evaluating the overall presentation of the description, the suitability of the objectives stated therein, and the suitability of the criteria specified by the service organization and described at page [aa].

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Limitations of Controls at a Service Organization

XYZ Service Organization’s description is prepared to meet the common needs of a broad range of customers and their auditors and may not, therefore, include every aspect of the system that each individual customer may consider important in its own particular environment. Also, because of their nature, controls at a service organization may not prevent or detect all errors or omissions in processing or reporting transactions. Also, the projection of any evaluation of effectiveness to future periods is subject to the risk that controls at a service organization may become inadequate or fail.

Opinion

Our opinion has been formed on the basis of the matters outlined in this report. The criteria we used in forming our opinion are those described at page [aa]. In our opinion, in all material respects:

- (a) The description fairly presents the [the type or name of] system as designed and implemented throughout the period from [date] to [date];
- (b) The controls related to the control objectives stated in the description were suitably designed throughout the period from [date] to [date]; and
- (c) The controls tested, which were those necessary to provide reasonable assurance that the control objectives stated in the description were achieved, operated effectively throughout the period from [date] to [date].

Description of Tests of Controls

The specific controls tested and the nature, timing and results of those tests are listed on pages [yy-zz].

Intended Users and Purpose

This report and the description of tests of controls on pages [yy-zz] are intended only for customers who have used XYZ Service Organization’s [type or name of] system, and their auditors, who have a sufficient understanding to consider it, along with other information including information about controls operated by customers themselves, when assessing the risks of material misstatements of customers’ financial statements.

Example 2: Type 1 Service Auditor's Assurance Report

Independent Service Auditor's Assurance Report on the Description of Controls and their Design

To: XYZ Service Organization

Scope

We have been engaged to report on XYZ Service Organization's description at pages [bb-cc] of its [type or name of] system for processing customers' transactions as at [date] (the description), and on the design of controls related to the control objectives stated in the description¹⁹.

We did not perform any procedures regarding the operating effectiveness of controls included in the description and, accordingly, do not express an opinion thereon.

XYZ Service Organization's Responsibilities

XYZ Service Organization is responsible for: preparing the description and accompanying assertion at page [aa], including the completeness, accuracy and method of presentation of the description and the assertion; providing the services covered by the description; stating the control objectives; and designing, implementing and effectively operating controls to achieve the stated control objectives.

Service Auditor's Responsibilities

Our responsibility is to express an opinion on XYZ Service Organization's description and on the design of controls related to the control objectives stated in that description, based on our procedures. We conducted our engagement in accordance with Standard on Assurance Engagements 3402, "Assurance Reports on Controls at a Service Organization," issued by the Institute of Chartered Accountants of India. That standard requires that we comply with ethical requirements and plan and perform our procedures to obtain reasonable assurance about whether, in all material respects, the description is fairly presented and the controls are suitably designed in all material respects.

An assurance engagement to report on the description and design of controls at a service organization involves performing procedures to obtain evidence about the disclosures in the service organization's description of its system, and the design of controls. The procedures selected depend on the service auditor's judgment, including the assessment that the description is not fairly presented, and that controls are not suitably designed. An assurance engagement of this type also includes evaluating the overall presentation of the description, the suitability of the control objectives stated therein, and the suitability of the criteria specified by the service organization and described at page [aa].

¹⁸ Partner or Proprietor, as the case may be.

¹⁹ If some elements of the description are not included in the scope of the engagement, this is made clear in the assurance report.

As noted above, we did not perform any procedures regarding the operating effectiveness of controls included in the description and, accordingly, do not express an opinion thereon.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Limitations of Controls at a Service Organization

XYZ Service Organization's description is prepared to meet the common needs of a broad range of customers and their auditors and may not, therefore, include every aspect of the system that each individual customer may consider important in its own particular environment. Also, because of their nature, controls at a service organization may not prevent or detect all errors or omissions in processing or reporting transactions.

Opinion

Our opinion has been formed on the basis of the matters outlined in this report. The criteria we used in forming our opinion are those described at page [aa]. In our opinion, in all material respects:

- (a) The description fairly presents the [the type or name of] system as designed and implemented as at [date]; and
- (b) The controls related to the control objectives stated in the description were suitably designed as at [date].

Intended Users and Purpose

This report is intended only for customers who have used XYZ Service Organization's [type or name of] system, and their auditors, who have a sufficient understanding to consider it, along with other information including information about controls operated by customers themselves, when obtaining an understanding of customers' information systems relevant to financial reporting.

Appendix 3

(Ref. Para. A50)

Example Modified Service Auditor's Assurance Reports

The following examples of modified reports are for guidance only and are not intended to be exhaustive or applicable to all situations. They are based on the examples of reports in **Appendix 2**.

Example 1: Qualified opinion – the service organization's description of the system is not fairly presented in all material respects

...

Service Auditor's Responsibilities

...

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Basis for Qualified Opinion

The accompanying description states at page [mn] that XYZ Service Organization uses operator identification numbers and passwords to prevent unauthorized access to the system. Based on our procedures, which included inquiries of staff personnel and observation of activities, we have determined that operator identification numbers and passwords are employed in Applications A and B but not in Applications C and D.

Qualified Opinion

Our opinion has been formed on the basis of the matters outlined in this report. The criteria we used in forming our opinion were those described in XYZ Service Organization's assertion at page [aa]. In our opinion, except for the matter described in the Basis for Qualified Opinion paragraph:

(a) ...

Example 2: Qualified opinion – the controls are not suitably designed to provide reasonable assurance that the control objectives stated in the service organization's description of its system will be achieved if the controls operate effectively

...

Service Auditor's Responsibilities

...

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Basis for Qualified Opinion

As discussed at page [mn] of the accompanying description, from time to time XYZ Service Organization makes changes in application programs to correct deficiencies or to enhance capabilities. The procedures followed in determining whether to make changes, in designing the changes and in implementing them, do not include review and approval by authorized individuals who are independent from those involved in making the changes. There are also no specified requirements to test such changes or provide test results to an authorized reviewer prior to implementing the changes.

Qualified Opinion

Our opinion has been formed on the basis of the matters outlined in this report. The criteria we used in forming our opinion were those described in XYZ Service Organization's assertion at page [aa]. In our opinion, except for the matter described in the Basis for Qualified Opinion paragraph:

(a) ...

Example 3: Qualified opinion – the controls did not operate effectively throughout the specified period (type 2 report only)

...

Service Auditor's Responsibilities

...

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Basis for Qualified Opinion

XYZ Service Organization states in its description that it has automated controls in place to reconcile loan payments received with the output generated. However, as noted at page [mn] of the description, this control was not operating effectively during the period from dd/mm/yyyy to dd/mm/yyyy due to a programming error. This resulted in the non-achievement of the control objective "Controls provide reasonable assurance that loan payments received are properly recorded" during the period from dd/mm/yyyy to dd/mm/yyyy. XYZ implemented a change to the program performing the calculation as of [date], and our tests indicate that it was operating effectively during the period from dd/mm/yyyy to dd/mm/yyyy.

Qualified Opinion

Our opinion has been formed on the basis of the matters outlined in this report. The criteria we used in forming our opinion were those described in XYZ Service Organization's assertion at page [aa]. In our opinion, except for the matter described in the Basis for Qualified Opinion paragraph:

...

Example 4: Qualified opinion – the service auditor is unable to obtain sufficient appropriate evidence

...

Service Auditor's Responsibilities

...

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Basis for Qualified Opinion

XYZ Service Organization states in its description that it has automated controls in place to reconcile loan payments received with the output generated. However, electronic records of the performance of this reconciliation for the period from dd/mm/yyyy to dd/mm/yyyy were deleted as a result of a computer processing error, and we were therefore unable to test the operation of this control for that period. Consequently, we were unable to determine whether the control objective "Controls provide reasonable assurance that loan payments received are properly recorded" operated effectively during the period from dd/mm/yyyy to dd/mm/yyyy.

Qualified Opinion

Our opinion has been formed on the basis of the matters outlined in this report. The criteria we used in forming our opinion were those described in XYZ Service Organization's assertion at page [aa]. In our opinion, except for the matter described in the Basis for Qualified Opinion paragraph:

(a) ...

SAE 3420

**Engagements to Report on the Compilation of Pro
Forma Financial Information Included in a
Prospectus**
*(Effective in relation to reports on
projections/forecasts issued on or after April 1, 2016)*

Introduction

Scope of this SAE

1. This Standard on Assurance Engagements (SAE) deals with reasonable assurance engagements undertaken by a practitioner¹ to report on the responsible party's² compilation of pro forma financial information included in a prospectus. The SAE applies where:

- Such reporting is required by securities law or the regulation of the securities exchange ("relevant law or regulation") in the jurisdiction in which the prospectus is to be issued; or
- This reporting is generally accepted practice in such jurisdiction. (Ref: Para. A1)

Nature of the Practitioner's Responsibility

2. In an engagement performed under this SAE, the practitioner has no responsibility to compile the pro forma financial information for the entity; such responsibility rests with the responsible party. The practitioner's sole responsibility is to report on whether the pro forma financial information has been compiled, in all material respects, by the responsible party on the basis of the applicable criteria.

3. This SAE does not deal with non-assurance engagements in which the practitioner is engaged by the entity to compile its historical financial statements.

Purpose of Pro Forma Financial Information Included in a Prospectus

4. The purpose of pro forma financial information included in a prospectus is solely to illustrate the impact of a significant event or transaction on unadjusted financial information of the entity as if the event had occurred or the transaction had been undertaken at an earlier date selected for purposes of the illustration. This is achieved by applying pro forma adjustments to the unadjusted financial information. Pro forma financial information does not represent the entity's actual financial position, financial performance, or cash flows. (Ref: Para. A2–A3)

Compilation of Pro Forma Financial Information

5. The compilation of pro forma financial information involves the responsible party gathering, classifying, summarizing and presenting financial information that illustrates the impact of a significant event or transaction on unadjusted financial information of the entity as if the event had occurred or the transaction had been undertaken at the selected date. Steps involved in this process include:

- Identifying the source of the unadjusted financial information to be used in compiling the pro forma

¹ The term "practitioner" is described in the Framework for Assurance Engagements, paragraphs 1, 22 and 23.

² The Framework for Assurance Engagements, paragraph 24, describes the meaning of the term "responsible party."

financial information, and extracting the unadjusted financial information from that source; (Ref: Para. A4–A5)

- Making pro forma adjustments to the unadjusted financial information for the purpose for which the pro forma financial information is presented; and
- Presenting the resulting pro forma financial information with accompanying disclosures.

6. A reasonable assurance engagement to report on the compilation of pro forma financial information involves performing the procedures set out in this SAE to assess whether the applicable criteria used by the responsible party in the compilation of the pro forma financial information provide a reasonable basis for presenting the significant effects directly attributable to the event or transaction, and to obtain sufficient appropriate evidence about whether: (Ref: Para. A6)

- The related pro forma adjustments give appropriate effect to those criteria; and
- The resulting pro forma column (see paragraph 11(c)) reflects the proper application of those adjustments to the unadjusted financial information.

It also involves evaluating the overall presentation of the pro forma financial information. The engagement, however, does not involve the practitioner updating or reissuing any reports or opinions on any historical financial information used in compiling the pro forma financial information, or performing an audit or review of the financial information used in compiling the pro forma financial information.

Relationship with Other Professional Pronouncements

7. The performance of assurance engagements other than audits or reviews of historical financial information requires the practitioner to comply with the Framework for Assurance Engagements. The Framework includes requirements in relation to such topics as engagement acceptance, planning, evidence, and documentation that apply to all assurance engagements, including engagements in accordance with this SAE. This SAE expands on how the Framework is to be applied in a reasonable assurance engagement to report on the compilation of pro forma financial information included in a prospectus. The Framework also defines and describes the elements and objectives of an assurance engagement, provides context for understanding this SAE.

8. Compliance with the Framework requires, among other things, that the practitioner:
- Comply with the independence and other requirements of the Code of Ethics, issued by the Institute of Chartered Accountants of India; and
 - Implement quality control procedures that are applicable to the individual engagement.

Effective Date

9. This SAE is effective for assurance reports dated on or after 01st April 2016.

Objectives

10. The objectives of the practitioner are:
- (a) To obtain reasonable assurance about whether the pro forma financial information has been compiled, in all material respects, by the responsible party on the basis of the applicable criteria; and
 - (b) To report in accordance with the practitioner's findings.

Definitions

11. For purposes of this SAE, the following terms have the meanings attributed below:
- (a) Applicable criteria – The criteria used by the responsible party when compiling the pro forma financial

I.734 Auditing Pronouncements

information. Criteria may be established by an authorized or recognized standard-setting organization or by law or regulation. Where established criteria do not exist, they will be developed by the responsible party. (Ref: Para. A7–A9)

- (b) Pro forma adjustments – In relation to unadjusted financial information, these include:
- (i) Adjustments to unadjusted financial information that illustrate the impact of a significant event or transaction (“event” or “transaction”) as if the event had occurred or the transaction had been undertaken at an earlier date selected for purposes of the illustration; and
 - (ii) Adjustments to unadjusted financial information that are necessary for the pro forma financial information to be compiled on a basis consistent with the applicable financial reporting framework of the reporting entity (“entity”) and its accounting policies under that framework. (Ref: Para. A15–A16)

Pro forma adjustments include the relevant financial information of a business that has been, or is to be, acquired (“acquiree”), or a business that has been, or is to be, divested (“divestee”), to the extent that such information is used in compiling the pro forma financial information (“acquiree or divestee financial information”).

- (c) Pro forma financial information – Financial information shown together with adjustments to illustrate the impact of an event or transaction on unadjusted financial information as if the event had occurred or the transaction had been undertaken at an earlier date selected for purposes of the illustration. In this SAE, it is presumed that pro forma financial information is presented in columnar format consisting of (a) the unadjusted financial information; (b) the pro forma adjustments; and (c) the resulting pro forma column. (Ref: Para. A2)
- (d) Prospectus – A document issued pursuant to legal or regulatory requirements relating to the entity’s securities on which it is intended that a third party should make an investment decision.
- (e) Published financial information – Financial information of the entity or of an acquiree or a divestee that is made available publicly.
- (f) Unadjusted financial information – Financial information of the entity to which pro forma adjustments are applied by the responsible party. (Ref: Para. A4–A5)

Requirements

Framework for Assurance Engagements

12. The practitioner shall not represent compliance with this SAE unless the practitioner has complied with the requirements of both this SAE and the Framework for Assurance Engagements.

Engagement Acceptance

13. Before agreeing to accept an engagement to report on whether pro forma financial information included in a prospectus has been compiled, in all material respects, on the basis of the applicable criteria, the practitioner shall:

- (a) Determine that the practitioner has the capabilities and competence to perform the engagement; (Ref: Para. A10)
- (b) On the basis of a preliminary knowledge of the engagement circumstances and discussion with the responsible party, determine that the applicable criteria are suitable and that it is unlikely that the pro forma financial information will be misleading for the purpose for which it is intended;
- (c) Evaluate the wording of the opinion prescribed by the relevant law or regulation, if any, to determine that the practitioner will likely be able to express the opinion so prescribed based on performing the

procedures specified in this SAE; (Ref: Para. A54–A56)

- (d) Where the sources from which the unadjusted financial information and any acquiree or divestee financial information have been extracted have been audited or reviewed and a modified audit opinion or review conclusion has been expressed, or the report contains an Emphasis of Matter paragraph, consider whether or not the relevant law or regulation permits the use of, or reference in the practitioner's report to, the modified audit opinion or review conclusion or the report containing the Emphasis of Matter paragraph with respect to such sources;
- (e) If the entity's historical financial information has never been audited or reviewed, consider whether the practitioner can obtain a sufficient understanding of the entity and its accounting and financial reporting practices to perform the engagement; (Ref: Para. A31)
- (f) If the event or transaction includes an acquisition and the acquiree's historical financial information has never been audited or reviewed, consider whether the practitioner can obtain a sufficient understanding of the acquiree and its accounting and financial reporting practices to perform the engagement; and
- (g) Obtain the agreement of the responsible party that it acknowledges and understands its responsibility for: (Ref: Para. A11–A12)
 - (i) Adequately disclosing and describing the applicable criteria to the intended users if these are not publicly available;
 - (ii) Compiling the pro forma financial information on the basis of the applicable criteria; and
 - (iii) Providing the practitioner with:
 - a. Access to all information (including, when needed for purposes of the engagement, information of the acquiree(s) in a business combination), such as records, documentation and other material, relevant to evaluating whether the pro forma financial information has been compiled, in all material respects, on the basis of the applicable criteria;
 - b. Additional information that the practitioner may request from the responsible party for the purpose of the engagement;
 - c. Access to those within the entity and the entity's advisors from whom the practitioner determines it necessary to obtain evidence relating to evaluating whether the pro forma financial information has been compiled, in all material respects, on the basis of the applicable criteria; and
 - d. When needed for purposes of the engagement, access to appropriate individuals within the acquiree(s) in a business combination.

Planning and Performing the Engagement

Assessing the Suitability of the Applicable Criteria

14. The practitioner shall assess whether the applicable criteria are suitable, as required by the Framework for Assurance Engagements³, and in particular shall determine that they include, at a minimum, that:

- (a) The unadjusted financial information be extracted from an appropriate source; (Ref: Para. A4–A5, A27)
- (b) The pro forma adjustments be:
 - (i) Directly attributable to the event or transaction; (Ref: Para. A13)
 - (ii) Factually supportable; and (Ref: Para. A14)

³ The Framework for Assurance Engagements, paragraph 16

I.736 Auditing Pronouncements

- (iii) Consistent with the entity's applicable financial reporting framework and its accounting policies under that framework; and (Ref: Para. A15–A16)
- (c) Appropriate presentation be made and disclosures be provided to enable the intended users to understand the information conveyed. (Ref: Para. A2–A3, A42)
- 15. In addition, the practitioner shall assess whether the applicable criteria are:
 - (a) Consistent, and do not conflict, with relevant law or regulation; and
 - (b) Unlikely to result in pro forma financial information that is misleading.

Materiality

16. When planning and performing the engagement, the practitioner shall consider materiality with respect to evaluating whether the pro forma financial information has been compiled, in all material respects, on the basis of the applicable criteria. (Ref: Para. A17–A18)

Obtaining an Understanding of How the Responsible Party Has Compiled the Pro Forma Financial Information and Other Engagement Circumstances

- 17. The practitioner shall obtain an understanding of: (Ref: Para. A19)
 - (a) The event or transaction in respect of which the pro forma financial information is being compiled;
 - (b) How the responsible party has compiled the pro forma financial information; (Ref: Para. A20–A21)
 - (c) The nature of the entity and any acquiree or divestee, including: (Ref: Para. A22–A23)
 - (i) Their operations;
 - (ii) Their assets and liabilities; and
 - (iii) The way they are structured and how they are financed;
 - (d) Relevant industry, legal and regulatory, and other external factors pertaining to the entity and any acquiree or divestee; and (Ref: Para. A24–A26)
 - (e) The applicable financial reporting framework and the accounting and financial reporting practices of the entity and of any acquiree or divestee, including their selection and application of accounting policies.

Obtaining Evidence about the Appropriateness of the Source from Which the Unadjusted Financial Information Has Been Extracted

18. The practitioner shall determine whether the responsible party has extracted the unadjusted financial information from an appropriate source. (Ref: Para. A27–A28)

19. If there is no audit or review report on the source from which the unadjusted financial information has been extracted, the practitioner shall perform procedures to be satisfied that the source is appropriate. (Ref: Para. A29–A31)

20. The practitioner shall determine whether the responsible party has appropriately extracted the unadjusted financial information from the source.

Obtaining Evidence about the Appropriateness of the Pro Forma Adjustments

21. In evaluating whether the pro forma adjustments are appropriate, the practitioner shall determine whether the responsible party has identified the pro forma adjustments necessary to illustrate the impact of the event or transaction at the date or for the period of the illustration. (Ref: Para. A32)

22. In determining whether the pro forma adjustments are in accordance with the applicable criteria, the practitioner shall determine whether they are:

- (a) Directly attributable to the event or transaction; (Ref: Para. A13)

- (b) Factually supportable. If acquiree or divestee financial information is included in the pro forma adjustments and there is no audit or review report on the source from which such financial information has been extracted, the practitioner shall perform procedures to be satisfied that the financial information is factually supportable; and (Ref: Para. A14, A33– A38)
- (c) Consistent with the entity's applicable financial reporting framework and its accounting policies under that framework. (Ref: Para. A15-A16)

Modified Audit Opinion or Review Conclusion, or Emphasis of Matter Paragraph, with Respect to the Source from Which the Unadjusted Financial Information Has Been Extracted or the Source from Which the Acquiree or Divestee Financial Information Has Been Extracted

23. A modified audit opinion or review conclusion may have been expressed with respect to either the source from which the unadjusted financial information has been extracted or the source from which the acquiree or divestee financial information has been extracted, or a report containing an Emphasis of Matter paragraph may have been issued with respect to such source. In such circumstances, if the relevant law or regulation does not prohibit the use of such a source, the practitioner shall evaluate:

- (a) The potential consequence on whether the pro forma financial information has been compiled, in all material respects, on the basis of the applicable criteria; (Ref: Para. A39)
- (b) What further appropriate action to take; and (Ref: Para. A40)
- (c) Whether there is any effect on the practitioner's ability to report in accordance with the terms of the engagement, including any effect on the practitioner's report.

Source from Which the Unadjusted Financial Information Has Been Extracted or Pro Forma Adjustments Not Appropriate

24. If, on the basis of the procedures performed, the practitioner identifies that the responsible party has:

- (a) Used an inappropriate source from which to extract the unadjusted financial information; or
- (b) Omitted a pro forma adjustment that should be included, applied a pro forma adjustment that is not in accordance with the applicable criteria or otherwise inappropriately applied a pro forma adjustment,

the practitioner shall discuss the matter with the responsible party. If the practitioner is unable to agree with the responsible party as to how the matter should be resolved, the practitioner shall evaluate what further action to take. (Ref: Para. A40)

Obtaining Evidence about the Calculations within the Pro Forma Financial Information

25. The practitioner shall determine whether the calculations within the pro forma financial information are arithmetically accurate.

Evaluating the Presentation of the Pro Forma Financial Information

26. The practitioner shall evaluate the presentation of the pro forma financial information. This shall include consideration of:

- (a) The overall presentation and structure of the pro forma financial information, including whether it is clearly labeled to distinguish it from historical or other financial information; (Ref: Para. A2–A3)
- (b) Whether the pro forma financial information and related explanatory notes illustrate the impact of the event or transaction in a manner that is not misleading; (Ref: Para. A41)
- (c) Whether appropriate disclosures are provided with the pro forma financial information to enable the intended users to understand the information conveyed; and (Ref: Para. A42)
- (d) Whether the practitioner has become aware of any significant events subsequent to the date of the

I.738 Auditing Pronouncements

source from which the unadjusted financial information has been extracted that may require reference to, or disclosure in, the pro forma financial information. (Ref: Para. A43)

27. The practitioner shall read the other information included in the prospectus containing the pro forma financial information to identify material inconsistencies, if any, with the pro forma financial information. If, on reading the other information, the practitioner identifies a material inconsistency or becomes aware of a material misstatement of fact in that other information, the practitioner shall discuss the matter with the responsible party.

If correction of the matter is necessary and the responsible party refuses to do so, the practitioner shall take further appropriate action. (Ref: Para. A44)

Written Representations

28. The practitioner shall request written representations from the responsible party that:

- (a) In compiling the pro forma financial information, the responsible party has identified all appropriate pro forma adjustments necessary to illustrate the impact of the event or transaction at the date or for the period of the illustration; and (Ref: Para. A45)
- (b) The pro forma financial information has been compiled, in all material respects, on the basis of the applicable criteria.

Forming the Opinion

29. The practitioner shall form an opinion on whether the pro forma financial information has been compiled, in all material respects, by the responsible party on the basis of the applicable criteria. (Ref: Para. A46–A48)

30. In order to form that opinion, the practitioner shall conclude whether the practitioner has obtained sufficient appropriate evidence about whether the compilation of the pro forma financial information is free from material omissions, or inappropriate use or application of a pro forma adjustment. That conclusion shall include an evaluation of whether the responsible party has adequately disclosed and described the applicable criteria to the extent that these are not publicly available. (Ref: Para. A49–A50)

Form of Opinion

Unmodified Opinion

31. The practitioner shall express an unmodified opinion when the practitioner concludes that the pro forma financial information has been compiled, in all material respects, by the responsible party on the basis of the applicable criteria.

Modified Opinion

32. Where the relevant law or regulation precludes publication of a prospectus that contains a modified opinion with regard to whether the pro forma financial information has been compiled, in all material respects, on the basis of the applicable criteria and the practitioner concludes that a modified opinion is nevertheless appropriate in accordance with the Framework for Assurance Engagements, the practitioner shall discuss the matter with the responsible party. If the responsible party does not agree to make the necessary changes, the practitioner shall:

- (a) Withdraw from the engagement; or
- (b) Consider seeking legal advice.

33. Where the relevant law or regulation may not preclude publication of a prospectus that contains a modified opinion with regard to whether the pro forma financial information has been compiled, in all material respects, on the basis of the applicable criteria and the practitioner determines that a modified opinion is

appropriate in accordance with the Framework for Assurance Engagements, the practitioner shall apply the requirements in the Framework for Assurance Engagements regarding modified opinions.

Emphasis of Matter Paragraph

34. In some circumstances, the practitioner may consider it necessary to draw users' attention to a matter presented or disclosed in the pro forma financial information or the accompanying explanatory notes. This would be the case when, in the practitioner's opinion, the matter is of such importance that it is fundamental to users' understanding of whether the pro forma financial information has been compiled, in all material respects, on the basis of the applicable criteria. In such circumstances, the practitioner shall include an Emphasis of Matter paragraph in the practitioner's report provided that the practitioner has obtained sufficient appropriate evidence that the matter does not affect whether the pro forma financial information has been compiled, in all material respects, on the basis of the applicable criteria. Such a paragraph shall refer only to information presented or disclosed in the pro forma financial information or the accompanying explanatory notes.

Preparing the Assurance Report

35. The practitioner's report shall include the following basic elements: (Ref: Para. A57)

- (a) A title that clearly indicates that the report is an independent assurance report; (Ref: Para. A51)
- (b) An addressee(s), as agreed in the terms of engagement; (Ref: Para. A52)
- (c) Introductory paragraphs that identify: (Ref: Para. A53)
 - (i) The pro forma financial information;
 - (ii) The source from which the unadjusted financial information has been extracted, and whether or not an audit or review report on such a source has been published;
 - (iii) The period covered by, or the date of, the pro forma financial information; and
 - (iv) A reference to the applicable criteria on the basis of which the responsible party has performed the compilation of the pro forma financial information, and the source of the criteria;
- (d) A statement that the responsible party is responsible for compiling the pro forma financial information on the basis of the applicable criteria;
- (e) A description of the practitioner's responsibilities, including statements that:
 - (i) The practitioner's responsibility is to express an opinion about whether the pro forma financial information has been compiled, in all material respects, by the responsible party on the basis of the applicable criteria;
 - (ii) For purposes of this engagement, the practitioner is not responsible for updating or reissuing any reports or opinions on any historical financial information used in compiling the pro forma financial information, nor has the practitioner, in the course of this engagement, performed an audit or review of the financial information used in compiling the pro forma financial information; and
 - (iii) The purpose of pro forma financial information included in a prospectus is solely to illustrate the impact of a significant event or transaction on unadjusted financial information of the entity as if the event had occurred or the transaction had been undertaken at an earlier date selected for purposes of the illustration. Accordingly, the practitioner does not provide any assurance that the actual outcome of the event or transaction at that date would have been as presented;
- (f) A statement that the engagement was performed in accordance with SAE 3420, 'Assurance Engagements to Report on the Compilation of Pro Forma Financial Information Included in a

I.740 Auditing Pronouncements

Prospectus, which requires that the practitioner comply with ethical requirements and plan and perform procedures to obtain reasonable assurance about whether the responsible party has compiled, in all material respects, the pro forma financial information on the basis of the applicable criteria;

- (g) Statements that:
- (i) A reasonable assurance engagement to report on whether the pro forma financial information has been compiled, in all material respects, on the basis of the applicable criteria involves performing procedures to assess whether the applicable criteria used by the responsible party in the compilation of the pro forma financial information provide a reasonable basis for presenting the significant effects directly attributable to the event or transaction, and to obtain sufficient appropriate evidence about whether:
 - The related pro forma adjustments give appropriate effect to those criteria; and
 - The pro forma financial information reflects the proper application of those adjustments to the unadjusted financial information;
 - (ii) The procedures selected depend on the practitioner's judgment, having regard to the practitioner's understanding of the nature of the entity, the event or transaction in respect of which the pro forma financial information has been compiled, and other relevant engagement circumstances; and
 - (iii) The engagement also involves evaluating the overall presentation of the pro forma financial information;
- (h) Unless otherwise required by law or regulation, the practitioner's opinion using one of the following phrases, which are regarded as being equivalent: (Ref: Para. A54–A56)
- (i) The pro forma financial information has been compiled, in all material respects, on the basis of the [applicable criteria]; or
 - (ii) The pro forma financial information has been properly compiled on the basis stated;
- (i) The practitioner's signature;
 - (j) The date of the report; and
 - (k) The place of signature.

Application and Other Explanatory Material

Scope of this SAE (Ref: Para.1)

A1. *This standard does not deal with circumstances where pro forma financial information is provided as part of the entity's financial statements pursuant to the requirements of an applicable financial reporting framework.*

Purpose of Pro Forma Financial Information Included in a Prospectus

(Ref: Para. 4, 11(c), 14(c), 26(a))

A2. *Pro forma financial information is accompanied by related explanatory notes that often disclose the matters set out in paragraph A42.*

A3. *Different presentations of pro forma financial information may be included in the prospectus depending on the nature of the event or transaction and how the responsible party intends to illustrate the impact of such event or transaction on the unadjusted financial information of the entity. For example, the entity may acquire a number of businesses prior to an initial public offering. In such circumstances, the responsible party may choose to present a pro forma net asset statement to illustrate the impact of the*

acquisitions on the entity's financial position and key ratios such as debt to equity as if the acquired businesses had been combined with the entity at an earlier date. The responsible party may also choose to present a pro forma income statement to illustrate what the results of operations might have been for the period ended on that date. In such cases, the nature of the pro forma financial information may be described by titles such as "Pro Forma Balance Sheet as at March 31, 20X1" and "Pro Forma Statement of profit and loss for the Year Ended March 31, 20X1."

Compilation of Pro Forma Financial Information

Unadjusted Financial Information (Ref: Para. 5, 11(f), 14(a))

A4. In many cases, the source from which the unadjusted financial information has been extracted will be published financial information such as annual or interim financial statements.

A5. Depending on how the responsible party chooses to illustrate the impact of the event or transaction, the unadjusted financial information may comprise either:

- One or more single financial statements, such as a statement of financial position and a statement of profit and loss; or
- Financial information that is appropriately condensed from a complete set of financial statements, for example, a statement of net assets.

Nature of Reasonable Assurance Engagement (Ref: Para. 6)

A6. In this SAE, describing the pro forma financial information as being "properly compiled" means that the pro forma financial information has been compiled, in all material respects, by the responsible party on the basis of the applicable criteria.

Definitions

Applicable Criteria (Ref: Para. 11(a))

A7. Where established criteria for compiling the pro forma financial information do not exist, the responsible party will have developed the criteria based on, for example, practice in a particular industry or the criteria of a jurisdiction that has developed established criteria, and disclosed that fact.

A8. The applicable criteria for compiling the pro forma financial information will be suitable in the circumstances if they meet the benchmarks set out in paragraph 14.

A9. Accompanying explanatory notes may include appropriate additional detail about the criteria to describe how they illustrate the effects of the particular event or transaction. This may include, for example:

- The date at which the event is assumed to have occurred or the transaction been undertaken.
- The approach used for allocating income, overheads, assets and liabilities between relevant businesses in a divestment.

Engagement Acceptance

Capabilities and Competence to Perform the Engagement (Ref: Para. 13(a))

A10. The Code of Ethics, issued by the Institute of Chartered Accountants of India requires the practitioner to maintain appropriate professional knowledge and skill, including an awareness and understanding of relevant technical, professional and business developments, in order to provide competent professional service⁴. In the context of this requirement of the Code of Ethics, relevant capabilities and competence to perform the engagement also include matters such as the following:

⁴ The Code of Ethics, paragraphs 130.1-130.3.

I.742 Auditing Pronouncements

- Knowledge and experience of the industry in which the entity operates;
- An understanding of the relevant securities laws and regulations and related developments;
- An understanding of the listing requirements of the relevant securities exchange and of capital market transactions such as mergers, acquisitions and securities offerings;
- Familiarity with the process of preparing a prospectus and listing securities on the securities exchange; and
- Knowledge of the financial reporting frameworks used in the preparation of the sources from which the unadjusted financial information and, if applicable, the acquiree's financial information have been extracted.

The Responsible Party's Responsibilities (Ref: Para. 13(g))

A11. *An engagement in accordance with this SAE is conducted on the premise that the responsible party has acknowledged and understands that it has the responsibilities set out in paragraph 13(g). In some jurisdictions, such responsibilities may be specified in the relevant law or regulation. In others, there may be little or no legal or regulatory definition of such responsibilities. An assurance engagement to report on whether pro forma financial information has been compiled, in all material respects, on the basis of the applicable criteria is based on the assumption that:*

- (a) The practitioner's role does not involve taking responsibility for compiling such information; and
- (b) The practitioner has a reasonable expectation of obtaining the information necessary for the engagement.

Accordingly, this premise is fundamental to the conduct of the engagement. To avoid misunderstanding, agreement is reached with the responsible party that it acknowledges and understands that it has such responsibilities as part of agreeing and recording the terms of the engagement as required by the Framework for Assurance Engagements.

A12. *If law or regulation prescribes in sufficient detail the terms of the engagement, the practitioner need only record the fact that such law or regulation applies and that the responsible party acknowledges and understands its responsibilities as set out in paragraph 13(g).*

Planning and Performing the Engagement Assessing the Suitability of the Applicable Criteria Directly Attributable Adjustments (Ref: Para. 14(b)(i), 22(a))

A13. *It is necessary that the pro forma adjustments be directly attributable to the event or transaction to avoid the pro forma financial information reflecting matters that do not arise solely as a result of the event or that are not an integral part of the transaction. Directly attributable adjustments exclude those that relate to future events or are dependent on actions to be taken once the transaction has been completed, even if such actions are key to the entity entering into the transaction (for example, closing of redundant production sites after an acquisition).*

Factually Supportable Adjustments (Ref: Para. 14(b)(ii), 22(b))

A14. *It is also necessary that the pro forma adjustments be factually supportable in order to provide a reliable basis for the pro forma financial information. Factually supportable adjustments are capable of objective determination. Sources of factual support for the pro forma adjustments include, for example:*

- Purchase and sale agreements.
- Financing documents for the event or transaction, such as debt agreements.
- Independent valuation reports.

- Other documents relating to the event or transaction.
- Published financial statements.
- Other financial information disclosed in the prospectus.
- Relevant legal or regulatory actions, such as in the area of taxation.
- Employment agreements.
- Actions of those charged with governance.

Adjustments Consistent with the Entity's Applicable Financial Reporting Framework and Its Accounting Policies under that Framework (Ref: Para. 11(b)(ii), 14(b)(iii), 22(c))

A15. For the pro forma financial information to be meaningful, it is necessary that the pro forma adjustments be consistent with the entity's applicable financial reporting framework and its accounting policies under that framework. In the context of a business combination, for example, compiling the pro forma financial information on the basis of the applicable criteria involves consideration of such matters as:

- Whether differences exist between the acquiree's accounting policies and those of the entity; and
- Whether accounting policies for transactions undertaken by the acquiree that the entity has not previously entered into are policies that the entity would have adopted for such transactions under its applicable financial reporting framework, taking into account the entity's particular circumstances.

A16. Consideration of the appropriateness of the entity's accounting policies may also be necessary in some circumstances. For example, as part of the event or transaction, the entity may propose to issue complex financial instruments for the first time. If this is the case, it may be necessary to consider:

- Whether the responsible party has selected appropriate accounting policies to be used in accounting for such financial instruments under its applicable financial reporting framework; and
- Whether it has appropriately applied such policies in compiling the pro forma financial information.

Materiality (Ref: Para. 16)

A17. Materiality with regard to whether the pro forma financial information has been compiled, in all material respects, on the basis of the applicable criteria does not depend on a single quantitative measure. Instead, it depends on the size and nature of the omission or inappropriate application of an element of the compilation as described in paragraph A18, whether or not intentional. Judgment about these aspects of size and nature will, in turn, depend on such matters as:

- The context of the event or transaction;
- The purpose for which the pro forma financial information is being compiled; and
- The related engagement circumstances.

The determining factor could be the size or the nature of the matter, or a combination of both.

A18. The risk of the pro forma financial information not being considered compiled, in all material respects, on the basis of the applicable criteria may arise when there is evidence of, for example:

- Use of an inappropriate source from which to extract the unadjusted financial information.
- Incorrect extraction of the unadjusted financial information from an appropriate source.
- In relation to adjustments, the misapplication of accounting policies or the failure of the adjustments to be consistent with the entity's accounting policies.
- Failure to make an adjustment required by the applicable criteria.

I.744 Auditing Pronouncements

- Making an adjustment that is not in accordance with the applicable criteria.
- A mathematical or clerical mistake in the calculations within the pro forma financial information.
- Inadequate, incorrect or omitted disclosures.

Obtaining an Understanding of How the Responsible Party Has Compiled the Pro Forma Financial Information and Other Engagement Circumstances (Ref: Para. 17)

A19. *The practitioner may obtain this understanding through a combination of procedures such as:*

- Inquiring of the responsible party and other entity personnel involved in compiling the pro forma financial information.
- Inquiring of other appropriate parties such as those charged with governance and the entity's advisors.
- Reading relevant supporting documentation such as contracts or agreements.
- Reading minutes of meetings of those charged with governance.

How the Responsible Party Has Compiled the Pro Forma Financial Information (Ref: Para. 17(b))

A20. *The practitioner may obtain an understanding of how the responsible party has compiled the pro forma financial information by considering, for example:*

- The source from which the unadjusted financial information has been extracted.
- The steps taken by the responsible party to:
 - Extract the unadjusted financial information from the source.
 - Identify the appropriate pro forma adjustments, for example, how the responsible party has obtained acquiree financial information in compiling the pro forma financial information.
- The responsible party's competence in compiling pro forma financial information.
- The nature and extent of oversight by the responsible party of other entity personnel involved in compiling the pro forma financial information.
- The responsible party's approach to identifying appropriate disclosures to support the pro forma financial information.

A21. *In a business combination or divestment, areas that may give rise to complexity in the compilation of the pro forma financial information include allocations of income, overheads, and assets and liabilities among or between the relevant businesses. Accordingly, it is important that the practitioner understand the responsible party's approach and criteria for such allocations and that the explanatory notes accompanying the pro forma financial information disclose these matters.*

Nature of the Entity and Any Acquiree or Divestee (Ref: Para. 17(c))

A22. *An acquiree may be an incorporated entity or a separately identifiable unincorporated operation within another entity such as a division, branch or line of business. A divestee may be an incorporated entity such as a subsidiary or joint venture, or a separately identifiable unincorporated operation within the entity such as a division, branch or line of business.*

A23. *The practitioner may have all or part of the required understanding of the entity and any acquiree or divestee, and their respective environments, if the practitioner has audited or reviewed their financial information.*

Relevant Industry, Legal and Regulatory, and Other External Factors (Ref: Para. 17(d))

A24. *Relevant industry factors include industry conditions such as the competitive environment, supplier and customer relationships, and technological developments. Examples of matters the practitioner may*

consider include:

- The market and competition, including demand, capacity, and price competition.
- Common business practices within the industry.
- Cyclical or seasonal activity.
- Product technology relating to the entity's products.

A25. *Relevant legal and regulatory factors include the legal and regulatory environment. This encompasses, among other matters, the applicable financial reporting framework in accordance with which the entity or, if applicable, the acquiree prepares its periodic financial information, and the legal and political environment. Examples of matters the practitioner may consider include:*

- Industry-specific accounting practices.
- Legal and regulatory framework for a regulated industry.
- Legislation and regulation that significantly affect the entity's or, if applicable, the acquiree's or divestee's operations, including direct supervisory activities.
- Taxation.
- Government policies currently affecting the conduct of the entity's or, if applicable, the acquiree's or divestee's business, such as monetary policies (including foreign exchange controls), fiscal policies, financial incentives (for example, government aid programs), and tariffs or trade restrictions policies.
- Environmental requirements affecting the entity's or acquiree's or divestee's industry and business.

A26. *Examples of other external factors affecting the entity and, if applicable, the acquiree or divestee that the practitioner may consider include the general economic conditions, interest rates and availability of financing, and inflation or currency revaluation.*

Obtaining Evidence about the Appropriateness of the Source from Which the Unadjusted Financial Information Has Been Extracted

Relevant Factors to Consider (Ref: Para. 14(a), 18)

A27. *Factors that affect the appropriateness of the source from which the unadjusted financial information has been extracted include whether there is an audit or review report on the source and whether the source:*

- Is permitted or specifically prescribed by the relevant law or regulation, is permitted by the relevant securities exchange with which the prospectus is to be filed, or is used as such under normal market custom and practice.
- Is clearly identifiable.
- Represents a reasonable starting point for compiling the pro forma financial information in the context of the event or transaction, including whether it is consistent with the entity's accounting policies and is at an appropriate date or covers an appropriate period.

A28. *An audit or review report on the source from which the unadjusted financial information has been extracted may have been issued by another practitioner. In this situation, the need by the practitioner reporting under this SAE for an understanding of the entity and its accounting and financial reporting practices pursuant to the requirements of paragraphs 17(c) and (e), and to be satisfied that the source from which the unadjusted financial information has been extracted is appropriate, is not diminished.*

No Audit or Review Report on the Source from Which the Unadjusted Financial Information Has Been Extracted (Ref: Para. 19)

I.746 Auditing Pronouncements

A29. When there is no audit or review report on the source from which the unadjusted financial information has been extracted, it is necessary for the practitioner to perform procedures in relation to the appropriateness of that source. Factors that may affect the nature and extent of these procedures include, for example:

- Whether the practitioner has previously audited or reviewed the entity's historical financial information, and the practitioner's knowledge of the entity from such engagement.
- How recently the entity's historical financial information was audited or reviewed.
- Whether the entity's financial information is subject to periodic review by the practitioner, for example, for purposes of meeting regulatory filing requirements.

A30. The entity's financial statements for the period immediately preceding that of the source from which the unadjusted financial information has been extracted are likely to have been audited or reviewed, even if the source from which the unadjusted financial information has been extracted itself is not. For example, the source from which the unadjusted financial information has been extracted may be interim financial statements that have not been audited or reviewed whereas the entity's financial statements for the immediately preceding financial year may have been audited. In such a case, procedures that the practitioner may perform, having regard to the factors in paragraph A29, in relation to the appropriateness of the source from which the unadjusted financial information has been extracted include:

- Inquiring of the responsible party about:
 - The process by which the source has been prepared and the reliability of the underlying accounting records to which the source is agreed or reconciled.
 - Whether all transactions have been recorded.
 - Whether the source has been prepared in accordance with the entity's accounting policies.
 - Whether there have been any changes in accounting policies from the most recent audited or reviewed period and, if so, how such changes have been dealt with.
 - Its assessment of the risk that the source may be materially misstated as a result of fraud.
 - The effect of changes in the entity's business activities and operations.
- If the practitioner has audited or reviewed the immediately preceding annual or interim financial information, considering the findings of such audit or review and whether these might indicate any issues with the preparation of the source from which the unadjusted financial information has been extracted.
- Corroborating the information provided by the responsible party in response to the practitioner's inquiries when the responses appear inconsistent with the practitioner's understanding of the entity or the engagement circumstances.
- Comparing the source with the corresponding prior period financial information and, as applicable, the immediately preceding annual or interim financial information, and discussing significant changes with the responsible party.

Historical financial information of the entity never audited or reviewed (Ref: Para. 13(e))

A31. Other than in the case of an entity formed for purposes of the transaction and which has never had any trading activity, it is unlikely that relevant law or regulation will permit an entity to issue a prospectus if its historical financial information has never been audited or reviewed.

Obtaining Evidence about the Appropriateness of the Pro Forma Adjustments *Identification of Appropriate Pro Forma Adjustments (Ref: Para. 21)*

A32. Informed by the practitioner's understanding of how the responsible party has compiled the pro forma financial information and other engagement circumstances, the practitioner may obtain evidence regarding whether the responsible party has appropriately identified the necessary pro forma adjustments through a combination of procedures such as:

- Evaluating the reasonableness of the responsible party's approach to identifying the appropriate pro forma adjustments, for example, the method used in identifying appropriate allocations of income, overheads, assets and liabilities among the relevant businesses.
- Inquiring of relevant parties within an acquiree regarding the approach to extracting the acquiree financial information.
- Evaluating specific aspects of the relevant contracts, agreements or other documents.
- Inquiring of the entity's advisors regarding specific aspects of the event or transaction and related contracts and agreements that are relevant to the identification of appropriate adjustments.
- Evaluating relevant analyses and worksheets prepared by the responsible party and other entity personnel involved in compiling the pro forma financial information.
- Obtaining evidence of the responsible party's oversight of other entity personnel involved in compiling the pro forma financial information.
- Performing analytical procedures.

Factual Support for Any Acquiree or Divestee Financial Information Included in the Pro Forma Adjustments (Ref: Para. 22(b))

Divestee financial information

A33. In the case of a divestment, the divestee's financial information will be derived from the source from which the unadjusted financial information has been extracted, which will often be audited or reviewed. The source from which the unadjusted financial information has been extracted will therefore provide the basis for the practitioner to determine whether there is factual support for the divestee financial information. In such a case, matters to consider include, for example, whether income and expenses attributable to the divestee that are recorded at the consolidated level have been appropriately reflected in the pro forma adjustments.

A34. Where the source from which the unadjusted financial information has been extracted has not been audited or reviewed, the practitioner may refer to the guidance in paragraphs A29–A30 in determining whether the divestee financial information is factually supportable.

Acquiree financial information

A35. The source from which the acquiree financial information has been extracted may have been audited or reviewed. Where the source from which the acquiree financial information has been extracted has been audited or reviewed by the practitioner, the acquiree financial information will, subject to any implications arising from the circumstances addressed in paragraph 23, be factually supportable.

A36. The source from which the acquiree financial information has been extracted may have been audited or reviewed by another practitioner. In this situation, the need by the practitioner reporting under this SAE for an understanding of the acquiree and its accounting and financial reporting practices pursuant to the requirements of paragraphs 17(c) and (e), and to be satisfied that the acquiree financial information is factually supportable, is not diminished.

A37. When the source from which the acquiree financial information has been extracted has not been

I.748 Auditing Pronouncements

audited or reviewed, it is necessary for the practitioner to perform procedures in relation to the appropriateness of that source. Factors that may affect the nature and extent of these procedures include, for example:

- Whether the practitioner has previously audited or reviewed the acquiree's historical financial information, and the practitioner's knowledge of the acquiree from such engagement.
- How recently the acquiree's historical financial information was audited or reviewed.
- Whether the acquiree's financial information is subject to periodic review by the practitioner, for example, for purposes of meeting regulatory filing requirements.

A38. The acquiree's financial statements for the period immediately preceding that of the source from which the acquiree financial information has been extracted often will have been audited or reviewed, even if the source from which the acquiree financial information has been extracted itself is not. In such a case, procedures that the practitioner may perform, having regard to the factors in paragraph A37, in relation to whether the acquiree financial information is factually supportable include:

- Inquiring of the acquiree's management about:
 - The process by which the source from which the acquiree financial information has been extracted has been prepared and the reliability of the underlying accounting records to which the source is agreed or reconciled.
 - Whether all transactions have been recorded.
 - Whether the source from which the acquiree financial information has been extracted has been prepared in accordance with the acquiree's accounting policies.
 - Whether there have been any changes in accounting policies from the most recent audited or reviewed period and, if so, how such changes have been dealt with.
 - Its assessment of the risk that the source from which the acquiree financial information has been extracted may be materially misstated as a result of fraud.
 - The effect of changes in the acquiree's business activities and operations.
- If the practitioner has audited or reviewed the immediately preceding annual or interim financial information, considering the findings of such audit or review and whether these might indicate any issues with the preparation of the source from which the acquiree financial information has been extracted.
- Corroborating the information provided by the acquiree's management in response to the practitioner's inquiries when the responses appear inconsistent with the practitioner's understanding of the acquiree or the engagement circumstances.
- Comparing the source from which the acquiree financial information has been extracted with the corresponding prior period financial information and, as applicable, the immediately preceding annual or interim financial information, and discussing significant changes with the acquiree's management.

Modified Audit Opinion or Review Conclusion, or Emphasis of Matter Paragraph, with Respect to the Source from Which the Unadjusted Financial Information Has Been Extracted or the Source from Which the Acquiree or Divestee Financial Information Has Been Extracted

Potential Consequence (Ref: Para. 23(a))

A39. Not all modified audit opinions, review conclusions or Emphasis of Matter paragraphs with respect to either the source from which the unadjusted financial information has been extracted or the source from which the acquiree or divestee financial information has been extracted may necessarily affect whether the

pro forma financial information can be compiled, in all material respects, on the basis of the applicable criteria. For example, a qualified audit opinion may have been expressed on the entity's financial statements because of the non-disclosure of remuneration for those charged with governance as required by the applicable financial reporting framework. If this is the case and these financial statements are used as the source from which the unadjusted financial information has been extracted, such qualification may have no consequence on whether pro forma net asset and income statements can be compiled, in all material respects, on the basis of the applicable criteria.

Further Appropriate Action (Ref: Para. 23(b), 24)

A40. *Further appropriate action that the practitioner may take includes, for example:*

- In relation to the requirement in paragraph 23(b):
 - Discussing the matter with the responsible party.
 - Where possible under relevant law or regulation, making a reference in the practitioner's report to the modified audit opinion, review conclusion, or the Emphasis of Matter paragraph, if, in the practitioner's professional judgment, the matter is of sufficient relevance and importance to users' understanding of the pro forma financial information.
- In relation to the requirement in paragraph 24, where possible under relevant law or regulation, modifying the practitioner's opinion.
- Where possible under relevant law or regulation, withdrawing from the engagement.
- Seeking legal advice.

Evaluating the Presentation of the Pro Forma Financial Information

Avoiding Association with Misleading Financial Information (Ref: Para. 26(b))

A41. *The Code of Ethics issued by the Institute of Chartered Accountants of India requires that a practitioner should not be associated with reports, returns, communications or other information where he believes that the information⁵:*

- (a) Contain a materially false or misleading statement;
- (b) Contain statements or information furnished negligently; or
- (c) Omits or obscures any information required to be included where such omission or obscurity would be misleading.

Disclosures Accompanying the Pro Forma Financial Information (Ref: Para. 14(c), 26(c))

A42. *Appropriate disclosures may include matters such as:*

- The nature and purpose of the pro forma financial information, including the nature of the event or transaction, and the date at which such event is assumed to have occurred or transaction been undertaken;
- The source from which the unadjusted financial information has been extracted, and whether or not an audit or review report on such a source has been published;
- The pro forma adjustments, including a description and explanation of each adjustment. This includes, in the case of acquiree or divestee financial information, the source from which such information has been extracted and whether or not an audit or review report on such a source has been published;

⁵ The Code of Ethics, paragraph 110.2.

I.750 Auditing Pronouncements

- If not publicly available, a description of the applicable criteria on the basis of which the pro forma financial information has been compiled; and
- A statement to the effect that the pro forma financial information has been compiled for illustrative purposes only and that, because of its nature, it does not represent the entity's actual financial position, financial performance, or cash flows.

Relevant law or regulation may require these or other specific disclosures

Consideration of Significant Subsequent Events (Ref: Para. 26(d))

A43. *As the practitioner is not reporting on the source from which the unadjusted financial information has been extracted, there is no requirement for the practitioner to perform procedures to identify events after the date of the source that require adjustment of, or disclosure in, such source. Nevertheless, it is necessary for the practitioner to consider whether any significant events subsequent to the date of the source from which the unadjusted financial information has been extracted have come to the practitioner's attention that may require reference to, or disclosure in, the explanatory notes to the pro forma financial information to avoid the latter being misleading. Such consideration is based on performing the procedures under this SAE or the practitioner's knowledge of the entity and the engagement circumstances. For example, after the date of the source from which the unadjusted financial information has been extracted, the entity may have entered into a capital transaction involving the conversion of its convertible debt into equity, non-disclosure of which could result in the pro forma financial information being misleading.*

Material Inconsistency with Other Information (Ref: Para. 27)

A44. *Further appropriate action that the practitioner may take if the responsible party refuses to revise the pro forma financial information or the other information as appropriate includes, for example:*

- Where possible under relevant law or regulation:
 - Describing the material inconsistency in the practitioner's report.
 - Modifying the practitioner's opinion.
 - withdrawing from the engagement.
- Seeking legal advice.

Written Representations (Ref: Para. 28(a))

A45. *In some circumstances, the types of transactions involved may require the responsible party to select accounting policies for the pro forma adjustments that the entity has not previously had to articulate because it had no relevant transactions. In such a case, the practitioner may request the responsible party to expand the written representations to include confirmation that the selected accounting policies constitute the entity's adopted policies for such types of transactions.*

Forming the Opinion

Assurance on Further Matters Required by the Relevant Law or Regulation (Ref: Para. 29)

A46. *Relevant law or regulation may require the practitioner to express an opinion on matters other than whether the pro forma financial information has been compiled, in all material respects, on the basis of the applicable criteria. In some of these circumstances, it may not be necessary for the practitioner to perform additional procedures. For example, the relevant law or regulation may require the practitioner to express an opinion about whether the basis on which the responsible party has compiled the pro forma financial information is consistent with the entity's accounting policies. Compliance with the requirements in paragraphs 18 and 22(c) of this SAE provides a basis for expressing such an opinion.*

A47. *In other circumstances, the practitioner may need to perform additional procedures. The nature and*

extent of such additional procedures will vary with the nature of the other matters on which the relevant law or regulation requires the practitioner to express an opinion.

Statement of the Practitioner's Responsibility for the Report

A48. The relevant law or regulation may require the practitioner to include in the practitioner's report an explicit statement asserting or confirming the practitioner's responsibility for the report. The inclusion of such an additional legal or regulatory statement in the practitioner's report is not incompatible with the requirements of this SAE.

Disclosure of the Applicable Criteria (Ref: Para. 30)

A49. The responsible party need not repeat in the explanatory notes accompanying the pro forma financial information any criteria that are prescribed by the relevant law or regulation, or promulgated by an authorized or recognized standard-setting organization. Such criteria will be publicly available as part of the reporting regime and are therefore implicit in the responsible party's compilation of the pro forma financial information.

A50. Where the responsible party has developed any specific criteria, it is necessary that those criteria be disclosed so that users may obtain a proper understanding of how the pro forma financial information has been compiled by the responsible party.

Preparing the Assurance Report Title (Ref: Para. 35(a))

A51. A title indicating that the report is the report of an independent practitioner, for example, "Independent Practitioner's Assurance Report on the Compilation of Pro Forma Financial Information Included in a Prospectus," affirms that the practitioner has met all of the relevant ethical requirements regarding independence as required by the Framework for Assurance Engagements⁶. This distinguishes the report of the independent practitioner from reports issued by others.

Addressee(s) (Ref: Para. 35(b))

A52. The relevant law or regulation may specify the addressee(s) of the report. Alternatively, the practitioner may agree with the entity who the addressee(s) will be as part of the terms of the engagement.

Introductory Paragraphs (Ref: Para. 35(c))

A53. As the pro forma financial information will be included in a prospectus that contains other information, the practitioner may consider, if the form of presentation allows, including a reference that identifies the section where the pro forma financial information is presented. This helps readers identify the pro forma financial information to which the practitioner's report relates.

Opinion (Ref: Para. 13(c), 35(h))

A54. Whether the phrase "pro forma financial information has been compiled, in all material respects, on the basis of the [applicable criteria]," or the phrase "pro forma financial information has been properly compiled on the basis stated" is used to express the opinion in any particular jurisdiction is determined by the law or regulation governing reporting on pro forma financial information in that jurisdiction, or by generally accepted practice in that jurisdiction.

A55. The relevant law or regulation in some jurisdictions may prescribe the wording of the practitioner's opinion in terms other than those specified above. Where this is the case, it may be necessary for the practitioner to exercise judgment to determine whether performing the procedures set out in this SAE would enable the practitioner to express the opinion in the wording prescribed by law or regulation, or

⁶ The Framework for Assurance Engagements, paragraph 16

I.752 Auditing Pronouncements

whether further procedures would be necessary.

A56. When the practitioner concludes that performing the procedures set out in this SAE would be sufficient to enable the practitioner to express the opinion in the wording prescribed by law or regulation, it may be appropriate to regard that wording as being equivalent to the two alternative wordings of the opinion specified in this SAE.

Illustrative Report (Ref: Para. 35)

A57. A practitioner's report with an unmodified opinion is set out in the Appendix.

Material Modifications vis-à-vis ISAE 3420, "Assurance Engagements to Report on the Compilation of Pro Forma Financial Information Included in a Prospectus"

Deletions

1 Paragraph 32 of ISAE 3420 deals with circumstances where the relevant law or regulation precludes publication of a prospectus that contains a modified opinion with regard to whether the pro forma financial information has been compiled, in all material respects, on the basis of the applicable criteria and the practitioner concludes that a modified opinion is nevertheless appropriate, the practitioner shall discuss the matter with the responsible party and if the responsible party does not agree to make the necessary changes, the practitioner shall **withhold the report** or withdraw from the engagement or consider seeking legal advice. Since in India, the practice of withholding the report is not in vogue, the option of withholding the report by the practitioner has been deleted. Similarly in paragraph A40 and paragraph A44, the option of withholding the report by the practitioner has been deleted.

Appendix (Ref: Para. A57)

Illustrative Practitioner's Report with an Unmodified Opinion

INDEPENDENT PRACTITIONER'S ASSURANCE REPORT ON THE COMPILATION OF PRO FORMA FINANCIAL INFORMATION INCLUDED IN A PROSPECTUS

[Appropriate Addressee(s)]

Report on the Compilation of Pro Forma Financial Information Included in a Prospectus

We have completed our assurance engagement to report on the compilation of pro forma financial information of ABC Company by [the responsible party]. The pro forma financial information consists of [the pro forma balance sheet as at [date]], [the pro forma statement of profit and loss for the period ended [date]], [the pro forma cash flow statement for the period ended [date]], and related notes [as set out on pages xx-xx of the prospectus issued by the company]. The applicable criteria on the basis of which [the responsible party] has compiled the pro forma financial information are [specified in [Securities Regulation XX] and described in [Note X]]/[described in [Note X]].

The pro forma financial information has been compiled by [the responsible party] to illustrate the impact of the [event or transaction] [set out in Note X] on the [company's financial position as at specify date] [and] [the company's/its financial performance [and cash flows] for the period ended specify date] as if the [event or transaction] had taken place at [specify date] [and specify date respectively]. As part of this process, information about the company's [financial position], [financial performance] [and cash flows] has been extracted by [the responsible party] from the company's financial statements [for the period ended

[date]], on which [[an audit]/[a review] report]/[no audit or review report] has been published.⁷

[The Responsible Party's] Responsibility for the Pro Forma Financial Information

[The responsible party] is responsible for compiling the pro forma financial information on the basis of the [applicable criteria]. This responsibility includes the responsibility for designing, implementing and maintaining internal control relevant for compiling the pro forma financial information on the basis of the [applicable criteria] that is free from material misstatement, whether due to fraud or error. The {Responsible party} is also responsible for identifying and ensuring that the Company complies with the laws and regulations applicable to its activities, including compliance with the provisions of the laws and regulations for the compilation of Pro Forma Financial Information.

Practitioner's Responsibilities

Our responsibility is to express an opinion , as required by[Reference to the relevant law or regulation], about whether the pro forma financial information has been compiled, in all material respects, by [the responsible party] on the basis of the[applicable criteria].

We conducted our engagement in accordance with Standard on Assurance Engagements (SAE) 3420, Assurance Engagements to Report on the Compilation of Pro Forma Financial Information Included in a Prospectus, issued by the Institute of Chartered Accountants of India. This Standard requires that the practitioner comply with ethical requirements and plan and perform procedures to obtain reasonable assurance about whether [the responsible party] has compiled, in all material respects, the pro forma financial information on the basis of the[applicable criteria].

For purposes of this engagement, we are not responsible for updating or reissuing any reports or opinions on any historical financial information used in compiling the pro forma financial information, nor have we, in the course of this engagement, performed an audit or review of the financial information used in compiling the pro forma financial information.

The purpose of pro forma financial information included in a prospectus is solely to illustrate the impact of a significant event or transaction on unadjusted financial information of the entity as if the event had occurred or the transaction had been undertaken at an earlier date selected for purposes of the illustration. Accordingly, we do not provide any assurance that the actual outcome of the event or transaction at[specify date] would have been as presented.

A reasonable assurance engagement to report on whether the pro forma financial information has been compiled, in all material respects, on the basis of the applicable criteria involves performing procedures to assess whether the applicable criteria used by [the responsible party] in the compilation of the pro forma financial information provide a reasonable basis for presenting the significant effects directly attributable to the event or transaction, and to obtain sufficient appropriate evidence about whether:

- The related pro forma adjustments give appropriate effect to those criteria; and
- The pro forma financial information reflects the proper application of those adjustments to the unadjusted financial information.

The procedures selected depend on the practitioner's judgment, having regard to the practitioner's understanding of the nature of the company, the event or transaction in respect of which the pro forma financial information has been compiled, and other relevant engagement circumstances.

The engagement also involves evaluating the overall presentation of the pro forma financial information.

⁷ Where the audit or review report has been modified, reference may be made to where the modification has been described in the prospectus

I.754 Auditing Pronouncements

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Opinion

In our opinion, [the pro forma financial information has been compiled, in all material respects, on the basis of the [applicable criteria]]/[the pro forma financial information has been properly compiled on the basis stated].

Report on Other Legal or Regulatory Requirements

[Relevant law or regulation may require the practitioner to express an opinion on other matters (see paragraphs A46–A47). The form and content of this section of the practitioner's report will vary with the nature of such other reporting responsibilities.]

SRS 4400
Engagements to Perform
Agreed-upon Procedures
regarding Financial Information
(Effective for all agreed upon
procedures engagements on or after April 1, 2004)

Introduction

1. The purpose of this Standard on Related Services (SRS) is to establish standards and provide guidance on the auditor's¹ professional responsibilities when an engagement to perform agreed-upon procedures regarding financial information is undertaken and on the form and content of the report that the auditor issues in connection with such an engagement.

2. In an engagement to perform agreed-upon procedures, the auditor is engaged by the client to issue a report of factual findings, based on specified procedures performed on specified subject matter of specified elements, accounts or items of a financial statement. For example, an engagement to perform agreed-upon procedures may require the auditor to perform certain procedures concerning individual items of financial data, say, accounts payable, accounts receivable, purchases from related parties and sales and profits of a segment of an entity, or a financial statement, say, a balance sheet or even a complete set of financial statements.

3. This SRS is directed towards engagements regarding financial information. However, it may provide useful guidance for engagements to perform agreed-upon procedures regarding non-financial information; provided the auditor has adequate knowledge of the subject matter in question and reasonable criteria exist on which to base his findings. These Standards on Auditing is to be read in conjunction with the "Framework of Statements on Standard Auditing Practices and Guidance Notes on Related Services"². The principles laid down in the other SAs, issued by the Institute of Chartered Accountants of India, may be used by the auditor, to the extent practicable, in applying this SRS.

Objective of an Agreed-upon Procedures Engagement

4. **The objective of an agreed-upon procedures engagement is for the auditor to carry out procedures of an audit nature to which the auditor and the entity and any appropriate third parties have agreed and to report on factual findings.**

5. As the auditor simply provides a report of the factual findings of agreed-upon procedures, no assurance is expressed by him in his report. Instead, users of the report assess for themselves the procedures and the findings reported by the auditor and draw their own conclusions from the work done by the auditor.

¹ The term "auditor" is used throughout this SRS when describing services involving performance of agreed-upon procedures. Such reference is not intended to imply that a person performing related services need necessarily be the auditor of the entity's financial statements.

² The Framework issued in 2001 has been withdrawn pursuant to the issuance of the "Framework for Assurance Engagements", which is applicable from April 1, 2008. The text of the Revised Framework is reproduced elsewhere in this Handbook.

I.756 Auditing Pronouncements

6. The report is restricted to those parties that have agreed to the procedures to be performed since others, unaware of the reasons for the procedures, may misinterpret the results. However, it is possible in certain circumstances that the report of the engagement may not be restricted only to those parties that have agreed to the procedures to be performed, but made available to a wider range of entities or individuals, e.g., in case of government organisations.

General Principles of an Agreed-upon Procedures Engagement

7. **The auditor should comply with the Code of Ethics, issued by the Institute of Chartered Accountants of India.** Ethical principles governing the auditor's professional responsibilities for this type of engagement are:

- (a) Integrity;
- (b) Objectivity;
- (c) Professional competence and due care;
- (d) Confidentiality;
- (e) Professional conduct; and
- (f) Technical standards

Independence is not a requirement for agreed-upon procedures engagement, however, the terms or objective of the engagement may require the auditor to comply with the independence requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India. **Where the auditor is not independent, a statement to that effect should be made in the report of factual findings.**

8. **The auditor should conduct an agreed-upon procedure engagement in accordance with this SRS and the terms of the engagement.**

Defining the Terms of the Engagement

9. **The auditor should ensure with representatives of the entity and, ordinarily, other specified parties who will receive copies of the report of factual findings, that there is a clear understanding regarding the agreed procedures and the conditions of the engagement.** Matters to be agreed include the following:

- (a) Nature of the engagement including the fact that the procedures performed will not constitute an audit or a review and that accordingly no assurance will be expressed.
- (b) Stated purpose for the engagement.
- (c) Identification of the financial information to which the agreed-upon procedures will be applied.
- (d) Nature, timing and extent of the specific procedures to be applied.
- (e) Limitations on distribution of the report of factual findings. When such limitation would be in conflict with the legal requirements, if any, the auditor would not accept the engagement.

10. In certain circumstances, for example, when the procedures have been agreed to between the regulator, industry representatives and representatives of the accounting profession, the auditor may not be able to discuss the procedures with all the parties who will receive the report. In such cases, the auditor may consider, for example, discussing the procedures to be applied with appropriate representatives of the parties involved, reviewing relevant correspondence from such parties.

11. It is in the interests of both the client and the auditor that the auditor sends an engagement letter documenting the key terms of the appointment. An engagement letter confirms the auditor's acceptance of

the appointment and helps avoid misunderstanding regarding such matters as the objectives and scope of the engagement, the extent of the auditor's responsibilities and the form of reports to be issued.

12. Matters that would be included in the engagement letter include:
- ◆ A listing of the procedures to be performed as agreed-upon between the parties.
 - ◆ A statement that the distribution of the report of factual findings would be restricted to the specified parties who have agreed to the procedures to be performed.

An example of an engagement letter appears in **Appendix I** to this SRS.

Planning

13. **The auditor should plan the work so that an effective engagement will be performed.**

Documentation

14. **The auditor should document matters which are important in providing evidence to support the report of factual findings, and evidence that the engagement was carried out in accordance with this SRS and the terms of the engagement.**

Procedures and Evidence

15. **The auditor should carry out the procedures agreed-upon and use the evidence obtained as the basis for the report of factual findings.**

16. The procedures applied in an engagement to perform agreed-upon procedures may include:

- ◆ Inquiry and analysis.
- ◆ Recomputation, comparison and other clerical accuracy checks.
- ◆ Observation.
- ◆ Inspection.
- ◆ Obtaining confirmations.

Appendix II to this SRS is an example report which contains an illustrative list of procedures which may be used as one part of a typical agreed-upon procedures engagement.

Reporting

17. **The report on an agreed-upon procedures engagement needs to describe the purpose and the agreed-upon procedures of the engagement in sufficient detail to enable the reader to understand the nature and the extent of the work performed. The report should also clearly mention that no audit or review has been performed.**

18. **The report of factual findings should contain:**

- (a) **Title;**
- (b) **Addressee (ordinarily, the appointing authority);**
- (c) **Identification of specific financial or non-financial information to which the agreed-upon procedures have been applied;**
- (d) **A statement that the procedures performed were those agreed-upon with the recipient;**
- (e) **A statement that the engagement was performed in accordance with the Standard on Related Services applicable to agreed-upon procedures engagements;**
- (f) **Identification of the purpose for which the agreed-upon procedures were performed;**

I.758 Auditing Pronouncements

- (g) A listing of the specific procedures performed;
- (h) A description of the auditor's factual findings including sufficient details of errors and exceptions found;
- (i) A statement that the procedures performed do not constitute either an audit or a review and, as such, no assurance is expressed;
- (j) A statement that had the auditor performed additional procedures, an audit or a review, other matters might have come to light that would have been reported;
- (k) A statement that the report is restricted to those parties that have agreed to the procedures to be performed;
- (l) A statement (when applicable) that the report relates only to the elements, accounts, items or financial and non-financial information specified and that it does not extend to the entity's financial statements taken as a whole;
- (m) Date of the report;
- (n) Place of signature ; and
- (o) Auditor's signature

The report should be signed by the accountant in his personal name. Where the firm is appointed, the report should be signed in the personal name of the accountant and in the name of the firm. The partner/proprietor signing the report on agreed-upon procedures should also mention the membership number assigned by the Institute of Chartered Accountants of India

Appendix II to this SRS contains an example of a report of factual findings issued in connection with an engagement to perform agreed-upon procedures regarding financial information.

Effective Date

19. This Standard on Related Services is applicable to all agreed upon procedures engagements beginning on or after April 1, 2004.

Compatibility with the International Standard on Auditing (ISA) 920**

The standards established in this Standard on Related Services are generally consistent in all material respects with those set out in the International Standard on Auditing (ISA) 920, "Engagements to Perform Agreed-upon Procedures regarding Financial Information".

** Now the International Standard on Related Services (ISRS) 4400.

Appendix I

Example of an Engagement Letter for an Agreed-upon Procedures Engagement

The following letter is for use as a guide in conjunction with paragraph 12 of this Standard on Related Services and is not intended to be a standard letter. The engagement letter will need to be varied according to individual requirements and circumstances.

Date

To the Board of Directors (or other appropriate representatives of the client who engaged the auditor).

This is in reference to your letter dated _____, appointing us to perform agreed-upon procedures in respect of _____ (*identify the items, e.g., sales, profit of a segment, accounts receivables, etc., of the entity*).

This letter is to confirm our understanding of the terms and objectives of our engagement and the nature and limitations of the services that we will provide.

Our engagement will be conducted in accordance with the Standard on Related Services (SRS) 4400, "Engagements to Perform Agreed-upon Procedures regarding Financial Information", issued by the Institute of Chartered Accountants of India and we will indicate so in our report.

We have agreed to perform the following procedures and report to you the factual findings resulting from our work:

(Describe the nature, timing and extent of the procedures to be performed, including specific reference, where applicable, to the identity of documents and records to be read, individuals to be contacted and parties from whom confirmations will be obtained.)

The procedures that we will perform are solely to assist you in _____ (*state purpose*). Our report is not to be used for any other purpose and is solely for your information, and/ or for use by _____ (*in case the terms of reference so require*).

The procedures that we will perform will not constitute an audit or a review made in accordance with the generally accepted auditing standards in India and, consequently, no assurance will be expressed.

We look forward to your full cooperation and trust that you will make available to us whatever records, documentation and other information requested in connection with our engagement.

Our fees will be billed as work progresses.

I.760 Auditing Pronouncements

Please sign and return the attached copy of this letter to indicate that it is in accordance with your understanding of the terms of the engagement including the specific procedures, which we have agreed will be performed.

Appendix II

Example of a Report of Factual Findings in Connection with Accounts Receivable

CONFIDENTIAL

Report Of Factual Findings In Connection With Agreed-upon Procedures Assignment Related To Accounts Receivable

To *(those who engaged the auditor)*

We have performed the procedures agreed with you and enumerated below with respect to the accounts receivable of ABC Company as at _____(date), set forth in the accompanying schedules *(not shown in this example)*. Our engagement was undertaken in accordance with the Standard on Related Services (SRS) 4400, "Engagements to Perform Agreed-upon Procedures regarding Financial Information", issued by the Institute of Chartered Accountants of India. The procedures were performed solely to assist you in evaluating the validity of the accounts receivable and are summarized as follows:

1. We obtained and checked the addition of the trial balance of accounts receivable as at _____(date), prepared by ABC Company, and we compared the total to the balance in the related general ledger account.
2. We compared the attached list *(not shown in this example)* of major customers and the amounts outstanding at _____(date) to the related names and amounts in the trial balance.

³ Partner or proprietor, as the case may be.

3. We obtained customers' statements or confirmations from customers to confirm balances outstanding at _____ (date).

4. We compared such statements or confirmations to the amounts referred to in 2 above. For amounts which did not agree, we obtained reconciliations from ABC Company. For reconciliations obtained, we identified and listed outstanding invoices, debit notes and outstanding cheques, each of which was greater than Rs. XXX. We located and examined such invoices and debit notes subsequently raised and cheques subsequently received and we ascertained that they have been rightly listed as outstanding on the reconciliations.

We report our findings below:

- (a) With respect to item 1, we found the addition to be correct and the total amount to be in agreement.
- (b) With respect to item 2, we found the amounts compared to be in agreement.
- (c) With respect to item 3, we found there were suppliers' statements for all such customers.
- (d) With respect to item 4, we found the amounts agreed, or with respect to amounts which did not agree, we found the Company had prepared reconciliations and that the debit notes, invoices and outstanding cheques over Rs. XXX were appropriately listed as reconciling items with the following exceptions:

(Detail the exceptions)

Because the above procedures do not constitute either an audit or a review made in accordance with the generally accepted auditing standards in India, we do not express any assurance on the accounts receivable as at _____(date).

Had we performed additional procedures or had we performed an audit or review of the financial statements in accordance with the generally accepted auditing standards in India, other matters might have come to our attention that would have been reported to you.

Our report is solely for the purpose set forth in the first paragraph of this report and for your information and is not to be used for any other purpose or to be distributed to any other parties. This report relates only to the accounts and items specified above and does not extend to any financial statements of ABC Company, taken as a whole.

SRS 4410(Revised)

Compilation Engagements

*(Effective for compilation engagements undertaken after
March 31, 2016.)*

Introduction

Scope of this SRS

1. This Standard on Related Services (SRS) deals with the practitioner's responsibilities when engaged to assist management with the preparation and presentation of historical financial information without obtaining any assurance on that information, and to report on the engagement in accordance with this SRS. (Ref: Para. A1–A2)

2. This SRS applies to compilation engagements for historical financial information. The SRS may be applied, adapted as necessary, to compilation engagements for financial information other than historical financial information, and to compilation engagements for non-financial information. Hereinafter in this SRS, reference to "financial information" means "historical financial information." (Ref: Para. A3–A4)

3. When the practitioner is requested to assist management with the preparation and presentation of financial information, appropriate consideration may need to be given to whether the engagement should be undertaken in accordance with this SRS. Factors that indicate that it may be appropriate to apply this SRS, including reporting under this SRS, include whether:

- The financial information is required under provisions of applicable law or regulation, and whether it is required to be publicly filed.
- External parties other than the intended users of the compiled financial information are likely to associate the practitioner with the financial information, and there is a risk that the level of the practitioner's involvement with the information may be misunderstood, for example:
 - If the financial information is intended for use by parties other than management or those charged with governance, or may be provided to, or obtained by, parties who are not the intended users of the information; and
 - If the practitioner's name is identified with the financial information. (Ref: Para. A5)

Relationship with SQC 1¹

4. Quality control systems, policies and procedures are the responsibility of the firm. SQC 1 applies to firms of professional accountants in respect of a firm's compilation engagements.² The provisions of this SRS regarding quality control at the level of individual compilation engagements are premised on the basis that the firm is subject to SQC 1. (Ref: Para. A6–A10)

¹ Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

² SQC 1, paragraph 1.

The Compilation Engagement

5. Management may request a professional accountant in public practice to assist with the preparation and presentation of financial information of an entity. The value of a compilation engagement performed in accordance with this SRS to users of financial information results from the application of the practitioner's professional expertise in accounting and financial reporting and compliance with professional standards, including relevant ethical requirements, and the clear communication of the nature and extent of the practitioner's involvement with the compiled financial information. (Ref: Para. A11–A14)
6. Since a compilation engagement is not an assurance engagement, a compilation engagement does not require the practitioner to verify the accuracy or completeness of the information provided by management for the compilation, or otherwise to gather evidence to express an audit opinion or a review conclusion on the preparation of the financial information.
7. Management retains responsibility for the financial information and the basis on which it is prepared and presented. That responsibility includes application by management of the judgment required for the preparation and presentation of the financial information, including the selection and application of appropriate accounting policies and, where needed, developing reasonable accounting estimates. (Ref: Para. A11–A12)
8. This SRS does not impose responsibilities on management or those charged with governance, or override laws and regulations that govern their responsibilities. An engagement performed in accordance with this SRS is conducted on the premise that management, or those charged with governance where appropriate, have agreed certain responsibilities that are fundamental to the performance of the compilation engagement. (Ref: Para. A11–A12)
9. Financial information that is the subject of a compilation engagement may be required for various purposes including:
- (a) To comply with mandatory periodic financial reporting requirements established in law or regulation, if any; or
 - (b) For purposes unrelated to mandatory financial reporting under relevant law or regulation, including for example:
 - For management or those charged with governance, prepared on a basis appropriate for their particular purposes (such as preparation of financial information for internal use).
 - For periodic financial reporting undertaken for external parties under a contract or other form of agreement (such as financial information provided to a funding body to support provision or continuation of a grant).
 - For transactional purposes, for example to support a transaction involving changes to the entity's ownership or financing structure (such as for a merger or acquisition).
10. Different financial reporting frameworks can be used to prepare and present financial information, ranging from a simple entity-specific basis of accounting to established financial reporting standards. The financial reporting framework adopted by management to prepare and present the financial information will depend on the nature of the entity and the intended use of the information. (Ref: Para. A15–A17)

Authority of this SRS

11. This SRS contains the objectives of the practitioner in following the SRS which provide the context in

I.764 Auditing Pronouncements

which the requirements of this SRS are set, and are intended to assist the practitioner in understanding what needs to be accomplished in a compilation engagement.

12. This SRS contains requirements, expressed using “shall,” that are designed to enable the practitioner to meet the stated objectives.

13. In addition, this SRS contains introductory material, definitions, and application and other explanatory material, that provide context relevant to a proper understanding of the SRS.

14. The application and other explanatory material provides further explanation of the requirements and guidance for carrying them out. While such guidance does not in itself impose a requirement, it is relevant to the proper application of the requirements. The application and other explanatory material may also provide background information on matters addressed in this SRS that assists in the application of the requirements.

Effective Date

15. This SRS is effective for compilation engagements undertaken after March 31, 2016.

Objectives

16. The practitioner’s objectives in a compilation engagement under this SRS are to:

- (a) Apply accounting and financial reporting expertise to assist management in the preparation and presentation of financial information in accordance with an applicable financial reporting framework based on information provided by management; and
- (b) Report in accordance with the requirements of this SRS.

Definitions

17. The Glossary of Terms (the Glossary) includes the terms defined in this SRS and also includes descriptions of other terms found in this SRS, to assist in consistent interpretation. The following terms have the meanings attributed below for the purposes of this SRS:

- (a) Applicable financial reporting framework – The financial reporting framework adopted by management and, where appropriate, those charged with governance in the preparation of the financial information that is acceptable in view of the nature of the entity and the objective of the financial information, or that is required by law or regulation. (Ref: Para. A29–A31)
- (b) Compilation engagement – An engagement in which a practitioner applies accounting and financial reporting expertise to assist management in the preparation and presentation of financial information of an entity in accordance with an applicable financial reporting framework, and reports as required by this SRS. Throughout this SRS, the words “compile”, “compiling” and “compiled” are used in this context.
- (c) Engagement partner – The partner or other person in the firm who is responsible for the engagement and its performance, and for the report that is issued on behalf of the firm, and who, where required, has the appropriate authority from a professional, legal or regulatory body.
- (d) Engagement team – All partners and staff performing the engagement, and any individuals engaged by the firm or a network firm who perform procedures on the engagement. This excludes external experts engaged by the firm or a network firm.
- (e) Misstatement – A difference between the amount, classification, presentation, or disclosure of a reported item in the financial information, and the amount, classification, presentation, or disclosure

that is required for the item to be in accordance with the applicable financial reporting framework. Misstatements can arise from error or fraud.

Where the financial information is prepared in accordance with a fair presentation framework, misstatements also include those adjustments of amounts, classifications, presentation, or disclosures that, in the practitioner's judgment, are necessary for the financial information to be presented fairly, in all material respects, or to give a true and fair view.

- (f) Practitioner – A professional accountant in public practice³ who conducts the compilation engagement. The term includes the engagement partner or other members of the engagement team, or, as applicable, the firm. Where this SRS expressly intends that a requirement or responsibility be fulfilled by the engagement partner, the term “engagement partner” rather than “practitioner” is used.
- (g) Relevant ethical requirements – Ethical requirements the engagement team is subject to when undertaking compilation engagements. These requirements comprise the Code of Ethics issued by ICAI together with other relevant pronouncements issued by ICAI. (Ref: Para. A20)

Requirements

Conduct of a Compilation Engagement in Accordance with this SRS

18. The practitioner shall have an understanding of the entire text of this SRS, including its application and other explanatory material, to understand its objectives and to apply its requirements properly.

Complying with Relevant Requirements

19. The practitioner shall comply with each requirement of this SRS unless a particular requirement is not relevant to the compilation engagement, for example if the circumstances addressed by the requirement do not exist in the engagement.

20. The practitioner shall not represent compliance with this SRS unless the practitioner has complied with all requirements of this SRS relevant to the compilation engagement.

Ethical Requirements

21. The practitioner shall comply with relevant ethical requirements. (Ref: Para. A18–A20)

Professional Judgment

22. The practitioner shall exercise professional judgment in conducting a compilation engagement. (Ref: Para. A21–A23)

Engagement Level Quality Control

23. The engagement partner shall take responsibility for:

- (a) The overall quality of each compilation engagement to which that partner is assigned; and
- (b) The engagement being performed in accordance with the firm's quality control policies and procedures, by:
 - (i) Following appropriate procedures regarding the acceptance and continuance of client relationships and engagements; (Ref: Para. A25)

³ Attention is also drawn to footnote 1 to the Framework for Assurance Engagements, which clarifies that a “practitioner” refers to the members of the Institute of Chartered Accountants of India who is in practice in terms of section 2 of the Chartered Accountants Act, 1949. The term is also used to refer to a firm of chartered accountants in public practice.

I.766 Auditing Pronouncements

- (ii) Being satisfied that the engagement team collectively has the appropriate competence and capabilities to perform the compilation engagement;
- (iii) Being alert for indications of non-compliance by members of the engagement team with relevant ethical requirements, and determining the appropriate action if matters come to the engagement partner's attention indicating that members of the engagement team have not complied with relevant ethical requirements; (Ref: Para. A26)
- (iv) Directing, supervising and performing the engagement in compliance with professional standards and applicable legal and regulatory requirements; and
- (v) Taking responsibility for appropriate engagement documentation being maintained.

Engagement Acceptance and Continuance

Continuance of Client Relationships, Engagement Acceptance and Agreeing the Terms of the Engagement

24. The practitioner shall not accept the engagement unless the practitioner has agreed the terms of engagement with management, and the engaging party if different, including:

- (a) The intended use and distribution of the financial information, and any restrictions on either its use or its distribution where applicable; (Ref: Para. A19, A27–A28, A31–A32)
- (b) Identification of the applicable financial reporting framework; (Ref: Para. A19, A29–A32)
- (c) The objective and scope of the compilation engagement; (Ref: Para. A19)
- (d) The responsibilities of the practitioner, including the requirement to comply with relevant ethical requirements; (Ref: Para. A19)
- (e) The responsibilities of management for: (Ref: Para. A33–A35)
 - (i) The financial information, and for the preparation and presentation thereof, in accordance with a financial reporting framework that is acceptable in view of the intended use of the financial information and the intended users;
 - (ii) Design, implementation and maintenance of such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error;
 - (iii) The accuracy and completeness of the records, documents, explanations and other information provided by management for the compilation engagement; and
 - (iv) Judgments needed in the preparation and presentation of the financial information, including those for which the practitioner may provide assistance in the course of the compilation engagement; and (Ref: Para. A21)
- (f) The expected form and content of the practitioner's report.

25. The practitioner shall record the agreed terms of engagement in an engagement letter or other suitable form of written agreement, prior to performing the engagement. (Ref: Para. A36–A38)

Recurring Engagements

26. On recurring compilation engagements, the practitioner shall evaluate whether circumstances, including changes in the engagement acceptance considerations, require the terms of engagement to

be revised and whether there is need to remind management of the existing terms of engagement. (Ref: Para. A39)

Communication with Management and Those Charged with Governance

27. The practitioner shall communicate with management or those charged with governance, as appropriate, on a timely basis during the course of the compilation engagement, all matters concerning the compilation engagement that, in the practitioner's professional judgment, are of sufficient importance to merit the attention of management or those charged with governance, as appropriate. (Ref: Para. A40)

Performing the Engagement

The Practitioner's Understanding

28. The practitioner shall obtain an understanding of the following matters sufficient to be able to perform the compilation engagement: (Ref: Para. A41–A43)

- (a) The entity's business and operations, including the entity's accounting system and accounting records; and
- (b) The applicable financial reporting framework, including its application in the entity's industry.

Compiling the Financial Information

29. The practitioner shall compile the financial information using the records, documents, explanations and other information, including significant judgments, provided by management.

30. The practitioner shall discuss with management, or those charged with governance as appropriate, those significant judgments, for which the practitioner has provided assistance in the course of compiling the financial information. (Ref: Para. A44)

31. Prior to completion of the compilation engagement, the practitioner shall read the compiled financial information in light of the practitioner's understanding of the entity's business and operations, and of the applicable financial reporting framework. (Ref: Para. A45)

32. If, in the course of the compilation engagement, the practitioner becomes aware that the records, documents, explanations or other information, including significant judgments, provided by management for the compilation engagement are incomplete, inaccurate or otherwise unsatisfactory, the practitioner shall bring that to the attention of management and request the additional or corrected information.

33. If the practitioner is unable to complete the engagement because management has failed to provide records, documents, explanations or other information, including significant judgments, as requested, the practitioner shall withdraw from the engagement and inform management and those charged with governance of the reasons for withdrawing. (Ref: Para. A51)

34. If the practitioner becomes aware during the course of the engagement that:

- (a) The compiled financial information does not adequately refer to or describe the applicable financial reporting framework; (Ref: Para. A46)
- (b) Amendments to the compiled financial information are required for the financial information not to be materially misstated; or (Ref: Para. A47–A49)
- (c) The compiled financial information is otherwise misleading, (Ref: Para. A50)

I.768 Auditing Pronouncements

the practitioner shall propose the appropriate amendments to management.

35. If management declines, or does not permit the practitioner to make the proposed amendments to the compiled financial information, the practitioner shall withdraw from the engagement and inform management and those charged with governance of the reasons for withdrawing. (Ref: Para. A51)

36. If withdrawal from the engagement is not possible, the practitioner shall determine the professional and legal responsibilities applicable in the circumstances. (Ref: Para A52)

37. The practitioner shall obtain an acknowledgement from management or those charged with governance, as appropriate, that they have taken responsibility for the final version of the compiled financial information. (Ref: Para. A62)

Documentation

38. The practitioner shall include in the engagement documentation: (Ref: Para. A53–A55)

- (a) Significant matters arising during the compilation engagement and how those matters were addressed by the practitioner;
- (b) A record of how the compiled financial information reconciles with the underlying records, documents, explanations and other information, provided by management; and
- (c) A copy of the final version of the compiled financial information for which management or those charged with governance, as appropriate, has acknowledged their responsibility, and the practitioner's report. (Ref: Para. A62)

The Practitioner's Report

39. An important purpose of the practitioner's report is to clearly communicate the nature of the compilation engagement, and the practitioner's role and responsibilities in the engagement. The practitioner's report is not a vehicle to express an opinion or conclusion on the financial information in any form.

40. The practitioner's report issued for the compilation engagement shall be in writing, and shall include the following elements: (Ref: Para. A56–A57, A63)

- (a) The report title;
- (b) The addressee(s), as required by the terms of the engagement; (Ref: Para. A58)
- (c) A statement that the practitioner has compiled the financial information based on information provided by management;
- (d) A description of the responsibilities of management, or those charged with governance as appropriate, in relation to the compilation engagement, and in relation to the financial information;
- (e) Identification of the applicable financial reporting framework and, if a special purpose financial reporting framework is used, a description or reference to the description of that special purpose financial reporting framework in the financial information;
- (f) Identification of the financial information, including the title of each element of the financial information if it comprises more than one element, and the date of the financial information or the period to which it relates;
- (g) A description of the practitioner's responsibilities in compiling the financial information, including that

- the engagement was performed in accordance with this SRS, and that the practitioner has complied with relevant ethical requirements;
- (h) A description of what a compilation engagement entails in accordance with this SRS;
 - (i) Explanations that:
 - (i) Since a compilation engagement is not an assurance engagement, the practitioner is not required to verify the accuracy or completeness of the information provided by management for the compilation; and
 - (ii) Accordingly, the practitioner does not express an audit opinion or a review conclusion on whether the financial information is prepared in accordance with the applicable financial reporting framework.
 - (j) If the financial information is prepared using a special purpose financial reporting framework, an explanatory paragraph that: (Ref: Para. A59–A61)
 - (i) Describes the purpose for which the financial information is prepared and, if necessary, the intended users, or contains a reference to a note in the financial information that discloses this information; and
 - (ii) Draws the attention of readers of the report to the fact that the financial information is prepared in accordance with a special purpose framework and that, as a result, the information may not be suitable for other purposes;
 - (k) The date of the practitioner's report;
 - (l) The practitioner's signature; and
 - (m) The Place of signature.
41. The practitioner shall date the report on the date the practitioner has completed the compilation engagement in accordance with this SRS. (Ref: Para. A62)

Application and Other Explanatory Material

Scope of this SRS

General Considerations (Ref: Para. 1)

A1. In a compilation engagement where the engaging party is someone other than management or those charged with governance of the entity, this SRS may be applied adapted as necessary.

A2. A practitioner's involvement with services or activities in the course of assisting management of an entity with the preparation and presentation of the entity's financial information can take many different forms. When the practitioner is engaged to provide such services or activities for an entity under this SRS, the practitioner's association with the financial information is communicated through the practitioner's report provided for the engagement in the form required by this SRS. The practitioner's report contains the practitioner's explicit assertion of compliance with this SRS.

Application to Compilation Engagements Other than for Historical Financial Information (Ref: Para. 2)

A3. This SRS addresses engagements where the practitioner assists management in the preparation and presentation of historical financial information. The SRS may, however, also be applied, adapted as

I.770 Auditing Pronouncements

necessary, when the practitioner is engaged to assist management in preparing and presenting other financial information. Examples include:

- Pro forma financial information.
- Prospective financial information, including financial budgets or forecasts.

A4. Practitioners may also undertake engagements to assist management in the preparation and presentation of non-financial information, for example, greenhouse gas statements, corporate social responsibility reporting, environmental reporting, sustainability reporting, integrated reporting, statistical returns or other information returns. In those circumstances, the practitioner may apply this SRS, adapted as necessary, as relevant to those types of engagements.

Considerations Relevant to Application of the SRS (Ref: Para. 3)

A5. Mandatory application of this SRS may be specified in national settings for engagements where practitioners undertake services relevant to the preparation and presentation of financial information of an entity (such as in relation to preparation of historical financial statements required for public filing). If mandatory application is not specified, either under law or regulation, or under applicable professional standards or otherwise, the practitioner may nevertheless conclude that applying this SRS is appropriate in the circumstances.

Relationship with SQC 1 (Ref: Para. 4)

A6. SQC 1 deals with the firm's responsibilities to establish and maintain its system of quality control for related services engagements, including compilation engagements. Those responsibilities are directed at establishing:

- The firm's quality control system; and
- The firm's related policies designed to achieve the objective of the quality control system and its procedures to implement and monitor compliance with those policies.

A7. Under SQC 1, the firm has an obligation to establish and maintain a system of quality control to provide it with reasonable assurance that:

- (a) The firm and its personnel comply with professional standards and applicable legal and regulatory requirements; and
- (b) Reports issued by the firm or engagement partners are appropriate in the circumstances.⁴

A8. Within the context of the firm's system of quality control, engagement teams have a responsibility to implement quality control procedures applicable to the engagement.

A9. Unless information provided by the firm or other parties suggests otherwise, the engagement team is entitled to rely on the firm's system of quality control. For example, the engagement team may rely on the firm's system of quality control in relation to:

- Competence of personnel through their recruitment and formal training.
- Maintenance of client relationships through acceptance and continuance systems.
- Adherence to legal and regulatory requirements through the monitoring process.

⁴ SQC 1, paragraph 3.

In considering deficiencies identified in the firm's system of quality control that may affect the compilation engagement, the engagement partner may consider measures taken by the firm to rectify the situation that the engagement partner considers are sufficient in the context of that compilation engagement.

A10. A deficiency in the firm's system of quality control does not necessarily indicate that a compilation engagement was not performed in accordance with professional standards and applicable legal and regulatory requirements, or that the practitioner's report was not appropriate.

The Compilation Engagement

Use of the Terms "Management" and "Those Charged with Governance" (Ref: Para. 5, 7–8)

A11. The respective responsibilities of management and those charged with governance will differ between entities of various types. These differences affect the way the practitioner applies the requirements of this SRS regarding management or those charged with governance. Accordingly, the phrase "management and, where appropriate, those charged with governance" used in various places throughout this SRS is intended to alert the practitioner to the fact that different entity environments may have different management and governance structures and arrangements.

A12. Various responsibilities relating to the preparation of financial information and external financial reporting fall to either management or those charged with governance according to factors such as:

- The resources and structure of the entity.
- The respective roles of management and those charged with governance within the entity as set out in relevant law or regulation or, if the entity is not regulated, in any formal governance or accountability arrangements established for the entity (for example, as recorded in contracts, or a constitution or other type of document by which an entity is established).

In many small entities, there is often no separation of the management and governance roles for the entity, or those charged with governance of the entity may also be involved in managing the entity. In most other cases, especially in larger entities, management is responsible for execution of the business or activities of the entity and reporting thereon, while those charged with governance have oversight of management. In larger entities, those charged with governance will often have or assume responsibility for approving the financial information of the entity, particularly when it is intended for use by external parties. In large entities, often a subgroup of those charged with governance, such as an audit committee, is charged with certain oversight responsibilities.

Involvement in Other Activities Relating to Preparation and Presentation of Financial Information (Ref: Para. 5)

A13. The scope of a compilation engagement will vary depending on the circumstances of the engagement. However, in every case it will involve assisting management in the preparation and presentation of the entity's financial information in accordance with the financial reporting framework, based on information provided by management. In some compilation engagements, management may have already prepared the financial information itself in a draft or preliminary form.

A14. A practitioner may also be engaged to undertake certain other activities on behalf of management, additional to the compilation engagement. For example, the practitioner may be requested to also collect, classify and summarize the underlying accounting data of the entity and process the data in the form of accounting records through to preparation of a trial balance. The trial balance would then be used as the

I.772 Auditing Pronouncements

underlying information from which the practitioner can compile the financial information that is the subject of a compilation engagement undertaken in accordance with this SRS. This is often the case for smaller entities that do not have well-developed accounting systems, or entities that prefer to outsource the preparation of accounting records to external providers. This SRS does not address such additional activities that the practitioner may perform to assist management in other areas, in advance of compiling the entity's financial statements.

Financial Reporting Frameworks (Ref: Para. 10)

A15. The financial information may be prepared in accordance with a financial reporting framework designed to meet:

- The common financial information needs of a wide range of users (that is, a “general purpose financial reporting framework”); or
- The financial information needs of specific users (that is, a “special purpose financial reporting framework”).
- The requirements of the applicable financial reporting framework determine the form and content of the financial information. The financial reporting framework may, in some cases, be referred to as the “basis of accounting.”

A16. Examples of commonly used general purpose financial reporting frameworks are:

- International Financial Reporting Standards (IFRS) and established national financial reporting standards applicable to publicly-listed entities.
- International Financial Reporting Standards for Small- and Medium-Sized Entities (IFRS for SMEs) and established national financial reporting standards applicable to small- and medium-sized entities.
- Accounting Standards notified under the Companies (Accounting Standards) Rules, 2006.
- Indian Accounting Standards (Ind AS) issued by ICAI.
- Accounting Standards (AS) issued by ICAI.

A17. Examples of special purpose financial reporting frameworks that may be used, depending on the particular purpose of the financial information, are:

- The cash receipts and disbursements basis of accounting for cash flow information that an entity may be requested to prepare for creditors;
- The financial reporting provisions established by a regulator to meet the requirements of that regulator; or
- The financial reporting provisions of a contract, such as a bond indenture, a loan agreement, or a project grant.

Ethical Requirements (Ref: Para. 21)

A18. Chapter 1 of the ICAI's Code of Ethics establishes the fundamental principles of professional ethics that practitioners must comply with, and provides a conceptual framework for applying those principles. The fundamental principles are:

- (a) Integrity;
- (b) Objectivity;

- (c) Professional competence and due care;
- (d) Confidentiality; and
- (e) Professional behavior.

Chapter 2 of the ICAI's Code of Ethics illustrates how the conceptual framework is to be applied in specific situations. In complying with the Code of Ethics, threats to the practitioner's compliance with relevant ethical requirements are required to be identified and appropriately addressed.

Ethical Considerations Regarding the Practitioner's Association with Information (Ref: Para. 21, 24(a)–(d))

A19. Under the Code of Ethics,⁵ in applying the principle of integrity, a professional accountant is required to not be associated with reports, returns, communications or other information where he believes that the information:

- (a) Contains a materially false or misleading statement;
- (b) Contains statements or information furnished negligently; or
- (c) Omits or obscures any information required to be included where such omission or obscurity would be misleading.

Independence (Ref: Para. 17(g), 21)

A20. Notwithstanding that Section 290, Independence–Assurance Engagements of the ICAI's Code of Ethics does not apply to compilation engagements, laws or regulations may specify requirements or disclosure rules pertaining to independence.

Professional Judgment (Ref: Para. 22, 24(e)(iv))

A21. Professional judgment is essential to the proper conduct of a compilation engagement. This is because interpretation of relevant ethical requirements and the requirements of this SRS, and the need for informed decisions throughout the performance of a compilation engagement, require the application of relevant knowledge and experience to the facts and circumstances of the engagement. Professional judgment is necessary, in particular, when the engagement involves assisting management of the entity regarding decisions about:

- The acceptability of the financial reporting framework that is to be used to prepare and present the financial information of the entity, in view of the intended use of the financial information and the intended users thereof.
- The application of the applicable financial reporting framework, including:
 - Selection of appropriate accounting policies under that framework;
 - Development of accounting estimates needed for the financial information to be prepared and presented under that framework; and
 - Preparation and presentation of financial information in accordance with the applicable financial reporting framework.

The practitioner's assistance to management is always provided on the basis that management or

⁵ Code of Ethics, paragraph 110.2.

I.774 Auditing Pronouncements

those charged with governance, as appropriate, understand the significant judgments that are reflected in the financial information, and accept responsibility for those judgments.

A22. Professional judgment involves the application of relevant training, knowledge and experience, within the context provided by this SRS and accounting and ethical standards, in making informed decisions about the courses of action that are appropriate in the circumstances of the compilation engagement.

A23. The exercise of professional judgment in individual engagements is based on the facts and circumstances that are known to the practitioner up to the date of the practitioner's report on the engagement, including:

- Knowledge acquired from performance of other engagements undertaken for the entity, where applicable (for example, taxation services).
- The practitioner's understanding of the entity's business and operations, including its accounting system, and of the application of the applicable financial reporting framework in the industry in which the entity operates.
- The extent to which the preparation and presentation of the financial information requires the exercise of management judgment.

Engagement Level Quality Control (Ref: Para. 23(b))

A24. The actions of the engagement partner and appropriate messages to the other members of the engagement team, in taking responsibility for the overall quality on each engagement, emphasize the importance to achieving the quality of the engagement of:

- (a) Performing work that complies with professional standards and regulatory and legal requirements;
- (b) Complying with the firm's quality control policies and procedures as applicable; and
- (c) Issuing the practitioner's report for the engagement in accordance with this SRS.

Acceptance and Continuance of Client Relationships and Compilation Engagements (Ref: Para. 23(b)(i))

A25. SQC 1 requires the firm to obtain such information as it considers necessary in the circumstances before accepting an engagement with a new client, when deciding whether to continue an existing engagement, and when considering acceptance of a new engagement with an existing client. Information that assists the engagement partner in determining whether acceptance or continuance of client relationships and compilation engagements is appropriate may include information concerning the integrity of the principal owners, key management and those charged with governance. If the engagement partner has cause to doubt management's integrity to a degree that is likely to affect proper performance of the engagement, it may not be appropriate to accept the engagement.

Compliance with Relevant Ethical Requirements in Conducting the Engagement (Ref: Para. 23(b)(iii))

A26. SQC 1 sets out the responsibilities of the firm for establishing policies and procedures designed to provide it with reasonable assurance that the firm and its personnel comply with relevant ethical requirements. This SRS sets out the engagement partner's responsibilities with respect to the engagement team's compliance with relevant ethical requirements.

Engagement Acceptance and Continuance

Identifying the Intended Use of the Financial Information (Ref: Para. 24(a))

A27. The intended use of the financial information is identified with reference to applicable law, regulation, or other arrangements established concerning the provision of financial information of the entity, bearing in mind the financial information needs of parties internal or external to the entity who are the intended users. Examples are financial information required to be provided by an entity in connection with undertaking transactions or financing applications with external parties such as suppliers, banks or other providers of finance or funding.

A28. The practitioner's identification of the intended use of the financial information also involves understanding such factors as the particular purpose(s) of management, or those charged with governance, where applicable, that are intended to be served through requesting the compilation engagement, and those of the engaging party where different. For example, a grant funding body may require the entity to provide financial information compiled by a professional accountant to obtain information about certain aspects of an entity's operations or activities, prepared in a specified form, to support provision of a grant or continuation of an existing grant.

Identification of the Applicable Financial Reporting Framework (Ref: Para. 17(a), 24(b))

A29. The decision about the financial reporting framework that management adopts for the financial information is made in the context of the intended use of the information as described in the agreed terms of engagement, and the requirements of any applicable law or regulation.

A30. The following are examples of factors that indicate it may be relevant to consider whether the financial reporting framework is acceptable:

- The nature of the entity, and whether it is a regulated form of entity, for example, whether it is a profit-oriented business enterprise, a public sector entity or a not-for-profit organization.
- The intended use of the financial information and the intended users. For example, the financial information could be intended to be used by a wide range of users or, alternatively, could be for use by management or by certain external users in the context of a particular purpose specified as part of agreeing the terms of the compilation engagement.
- Whether the applicable financial reporting framework is prescribed or specified, either in applicable law or regulation, or in a contract or other form of agreement with a third party, or as part of governance or accountability arrangements adopted voluntarily by the entity.
- The nature and form of the financial information that is to be prepared and presented under the applicable financial reporting framework, for example, a complete set of financial statements, a single financial statement, or financial information presented in another format agreed between parties to a contract or other form of agreement.

Relevant Factors When Financial Information is Intended for a Particular Purpose (Ref: Para. 24(a)–(b))

A31. The engaging party generally agrees the nature and form of financial information that is intended for a particular purpose with the intended users, for example as specified under the financial reporting provisions of a contract or a project grant or as needed to support the entity's transactions or activities. The relevant contract may require use of an established financial reporting framework, such as a general purpose financial reporting framework established by an authorized or recognized standard-setting body or by law or regulation. Alternatively, the parties to the contract may agree on the use of a general purpose framework with modifications or adaptations that fit their particular needs. In that case, the applicable financial reporting framework may be described in the financial information and in the practitioner's report as being the financial

I.776 Auditing Pronouncements

reporting provisions of the specified contract rather than with reference to the modified financial reporting framework. In such cases, notwithstanding that the compiled financial information may be made more broadly available, the applicable financial reporting framework is a special purpose framework, and the practitioner is required to comply with the relevant reporting requirements of this SRS.

A32. When the applicable financial reporting framework is a special purpose financial reporting framework, the practitioner is required by this SRS to record any restrictions on either the intended use or distribution of the financial information in the engagement letter, and to state in the practitioner's report that the financial information is prepared using a special purpose financial reporting framework, and as a result may not be suitable for other purposes.

Responsibilities of Management (Ref: Para. (24(e))

A33. Under this SRS, the practitioner is required to obtain the agreement of management, or where applicable those charged with governance, on management's responsibilities in relation to both the financial information and the compilation engagement as a condition precedent to accepting the engagement. In smaller entities, management, or those charged with governance where applicable, may not be well-informed about what those responsibilities are, including those arising in applicable law or regulation. In order to obtain management's agreement on an informed basis, the practitioner may find it necessary to discuss those responsibilities with management in advance of seeking management's agreement on its responsibilities.

A34. If management does not acknowledge its responsibilities in the context of a compilation engagement, the practitioner is not able to undertake the engagement, and it is not appropriate for the practitioner to accept the engagement unless required to do so under applicable law or regulation. In circumstances where the practitioner is nevertheless required to accept the engagement, the practitioner may need to communicate with management about the importance of these matters and the implications for the engagement.

A35. The practitioner is entitled to rely on management to provide all relevant information for the compilation engagement on an accurate, complete and timely basis. The form of the information provided by management for the purpose of the engagement will vary in different engagement circumstances. In broad terms, it will comprise records, documents, explanations and other information relevant to the compilation of the financial information using the applicable financial reporting framework. The information provided may include, for example, information about management assumptions, intentions or plans underlying development of accounting estimates needed to compile the information under the applicable financial reporting framework.

Engagement Letter or Other Form of Written Agreement (Ref: Para. 25)

A36. It is in the interest of both management, and the engaging parties where different, and the practitioner that the practitioner sends an engagement letter to management and, where applicable, to the engaging parties prior to performing the compilation engagement, to help avoid misunderstanding with respect to the compilation engagement. An engagement letter confirms the practitioner's acceptance of the engagement and confirms such matters as:

- The objectives and scope of the engagement, including the understanding of the parties to the engagement that the engagement is not an assurance engagement.
- The intended use and distribution of the financial information, and any restrictions on its use or distribution (where applicable).

- The responsibilities of management in relation to the compilation engagement.
- The extent of the practitioner's responsibilities, including that the practitioner will not express an audit opinion or a review conclusion on the financial information.
- The form and content of the report to be issued by the practitioner for the engagement.

Form and Content of the Engagement Letter

A37. The form and content of the engagement letter may vary for each engagement. In addition to the matters required by this SRS, an engagement letter may make reference to, for example:

- Arrangements concerning the involvement of other practitioners and experts in some aspects of the compilation engagement.
- Arrangements to be made with the predecessor practitioner, if any, in the case of an initial engagement.
- The possibility that management or those charged with governance, as appropriate, may be requested to confirm in writing certain information or explanations conveyed orally to the practitioner during the engagement.
- Ownership of the information used for purposes of the compilation engagement, distinguishing between documents and information of the entity provided for the engagement and the practitioner's engagement documentation, having regard to applicable law and regulation.
- A request for management, and the engaging party if different, to acknowledge receipt of the engagement letter and to agree to the terms of the engagement outlined therein.

Illustrative Engagement Letter

A38. An illustrative engagement letter for a compilation engagement is set out in Appendix 1 to this SRS.

Recurring Engagements (Ref: Para. 26)

A39. The practitioner may decide not to send a new engagement letter or other written agreement each period. However, the following factors may indicate that it is appropriate to revise the terms of the compilation engagement, or to remind management or the engaging party, where applicable, of the existing terms of the engagement:

- Any indication that management or the engaging party, where applicable, misunderstands the objective and scope of the engagement.
- Any revised or special terms of the engagement.
- A recent change of senior management of the entity.
- A significant change in ownership of the entity.
- A significant change in nature or size of the entity's business.
- A change in legal or regulatory requirements affecting the entity.
- A change in the applicable financial reporting framework.

Communication with Management and Those Charged with Governance (Ref: Para. 27)

A40. The appropriate timing for communications will vary with the circumstances of the compilation engagement. Relevant circumstances include the significance and nature of the matter and any action

I.778 Auditing Pronouncements

expected to be taken by management or those charged with governance. For example, it may be appropriate to communicate a significant difficulty encountered during the engagement as soon as practicable if management or those charged with governance are able to assist the practitioner to overcome the difficulty.

Performing the Engagement

The Practitioner's Understanding (Ref: Para. 28)

A41. Obtaining an understanding of the entity's business and its operations, including the entity's accounting system and accounting records, is an ongoing process that occurs throughout the compilation engagement. The understanding establishes a frame of reference within which the practitioner exercises professional judgment in compiling the financial information.

A42. The breadth and depth of the understanding the practitioner has or obtains about the entity's business and operations is less than that possessed by management. It is directed at the level that is sufficient for the practitioner to be able to compile the financial information under the terms of the engagement.

A43. Examples of matters the practitioner may consider in obtaining an understanding of the entity's business and operations and the applicable financial reporting framework include:

- The legal and regulatory requirements applicable to the entity.
- The size and complexity of the entity and its operations.
- The complexity of the financial reporting framework.
- The entity's financial reporting obligations or requirements, whether they exist under applicable laws and regulation, under the provisions of a contract or other form of agreement with a third party, or in the context of voluntary financial reporting arrangements.
- The level of development of the entity's management and governance structure regarding management and oversight of the entity's accounting records and financial reporting systems that underpin the preparation of financial information of the entity.
- The level of development and complexity of the entity's financial accounting and reporting systems and related controls.
- The nature of the entity's assets, liabilities, revenues and expenses.

Compiling the Financial Information

Significant Judgments (Ref: Para.30)

A44. In some compilation engagements, the practitioner does not provide assistance to management with significant judgments. In other engagements, the practitioner may provide such assistance, for example, in relation to a required accounting estimate or helping management with its consideration of appropriate accounting policies or estimating the useful life of fixed assets or ascertaining the condition of inventory. Where assistance is provided, discussion is needed so that management and those charged with governance, as appropriate, understand the significant judgments reflected in the financial information, and accept their responsibility for those judgments.

Reading the Financial Information (Ref: Para. 31)

A45. The practitioner's reading of the financial information is intended to assist the practitioner in fulfilling the practitioner's ethical requirements relevant to the compilation engagement. (Also refer Para. A19)

Proposing Amendments to the Financial Information

Reference to or description of the applicable financial reporting framework (Ref: Para. 34(a))

A46. There may be circumstances when the applicable financial reporting framework is an established financial reporting framework with significant departures therefrom. If the description of the applicable financial reporting framework in the compiled financial information makes reference to the established framework with significant departures, the practitioner may need to consider whether the reference to the established framework is misleading in the circumstances of the engagement.

Amendment for material misstatements, and for the information not to be misleading (Ref: Para. 34(b)–(c))

A47. The practitioner's consideration of materiality is made in the context of the applicable financial reporting framework. Some financial reporting frameworks discuss the concept of materiality in the context of the preparation and presentation of financial information. Although financial reporting frameworks may discuss materiality in different terms, they generally explain that:

- Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial information;
- Judgments about materiality are made in light of surrounding circumstances, and are affected by the size or nature of a misstatement, or a combination of both; and
- Judgments about matters that are material to users of the financial information are based on a consideration of the common financial information needs of users as a group. The possible effect of misstatements on specific individual users, whose needs may vary widely, is not considered.

For example, in case of companies, the Schedule III to the Companies Act, 2013 gives the following materiality threshold:

A company shall disclose by way of notes additional information regarding aggregate expenditure and income on any item of income or expenditure which exceeds one percent of the revenue from operations or Rs. 1,00,000 whichever is higher.

A48. If present in the applicable financial reporting framework, such a discussion provides a frame of reference for the practitioner in understanding materiality for the purpose of the compilation engagement. If not present, the above considerations provide the practitioner with a frame of reference.

A49. The practitioner's perception of the needs of users of the financial information affects the practitioner's view of materiality. In this context, it is reasonable for the practitioner to assume that users:

- Have a reasonable knowledge of business and economic activities and accounting, and a willingness to study the financial information with reasonable diligence;
- Understand that financial information is prepared and presented to levels of materiality;
- Recognize the uncertainties inherent in the measurement of amounts based on the use of estimates, judgment and the consideration of future events; and
- Make reasonable economic decisions on the basis of the information in the financial information.

A50. The applicable financial reporting framework may include the premise that the financial information is prepared on the going concern basis. If the practitioner becomes aware that uncertainties exist regarding the entity's ability to continue as a going concern, the practitioner may, as appropriate, suggest a more

I.780 Auditing Pronouncements

appropriate presentation under the applicable financial reporting framework, or appropriate disclosures concerning the entity's ability to continue as a going concern, in order to be in compliance with that framework, and to avoid the financial information being misleading.

Conditions that Require the Practitioner to Withdraw from the Engagement (Ref: Para. 33, 35)

A51. In circumstances addressed by the requirements of this SRS where withdrawal from the engagement is necessary, the responsibility to inform management and those charged with governance of the reasons for withdrawing provides an opportunity to explain the practitioner's ethical obligations.

A52. The professional and legal responsibilities of the practitioner may include, for example:

- Reporting to the appointing authority,
- Reporting to the regulatory authority,
- Seeking legal advice,
- Describing the facts in the compilation report.

Documentation (Ref: Para. 38)

A53. The documentation required by this SRS serves a number of purposes, including the following:

- Providing a record of matters of continuing relevance to future compilation engagements.
- Enabling the engagement team, as applicable, to be accountable for its work, including recording the completion of the engagement.

A54. The practitioner may consider also including in the engagement documentation a copy of the entity's trial balance, summary of significant accounting records or other information that the practitioner used to perform the compilation.

A55. In recording how the compiled financial information reconciles with the underlying records, documents, explanations and other information provided by management for the purpose of the compilation engagement, the practitioner may, for example, keep a schedule showing the reconciliation of the entity's general ledger account balances to the compiled financial information, including any adjusting journal entries or other amendments to the financial information that the practitioner has agreed with management in the course of the engagement.

The Practitioner's Report (Ref: Para. 40)

A56. The written report encompasses reports issued in hard copy format and those issued using an electronic medium.

A57. When the practitioner is aware that the compiled financial information and the practitioner's report will be included in a document that contains other information, such as a financial report, the practitioner may consider, if the form of presentation allows, identifying the page numbers on which the financial information is presented. This helps users to identify the financial information to which the practitioner's report relates.

Addressees of the Report (Ref: Para. 40(b))

A58. Law or regulation may specify to whom the practitioner's report is to be addressed in the particular jurisdiction. The practitioner's report is normally addressed to the party who engaged the practitioner under the terms of the engagement, ordinarily the management of the entity.

Financial Information Prepared Using a Special Purpose Financial Reporting Framework (Ref: Para. 40(j))

A59. Under this SRS, if the financial information is prepared using a special purpose financial reporting framework, the practitioner's report is required to draw the attention of readers of the report to the special purpose financial reporting framework used in the financial information, and to state that the financial information may therefore not be suitable for other purposes. This may be supplemented by an additional clause that restricts either the distribution or use, or both, of the practitioner's report to the intended users only.

A60. Financial information prepared for a particular purpose may be obtained by parties other than the intended users, who may seek to use the information for purposes other than those for which the information was intended. For example, a regulator may require certain entities to provide financial statements prepared using a special purpose financial reporting framework, and those financial statements to be on public record. The fact of the wider availability of those financial statements to parties other than the intended users does not mean the financial statements would then become general purpose financial statements. The practitioner's statements required to be included in the practitioner's report are needed to draw readers' attention to the fact that the financial statements are prepared under a special purpose financial reporting framework, and may not, therefore, be suitable for other purposes.

Restriction on Distribution and Use of the Practitioner's Report

A61. The practitioner may consider it appropriate to indicate that the practitioner's report is intended solely for the specified intended users of the financial information. Depending on the law or regulation of the particular jurisdiction, this may be achieved by restricting either the distribution or use, or both, of the practitioner's report to the intended users only.

Completion of the Compilation Engagement and Dating of the Practitioner's Report (Ref: Para. 37, 38, 41)

A62. The process that exists within the entity for the approval of the financial information by management, or by those charged with governance as appropriate, is a relevant consideration for the practitioner when completing the compilation engagement. Depending on the nature and purpose of the financial information, there may be an established approval process that management or those charged with governance are required to follow, or that is prescribed in applicable law and regulation, for the preparation and finalization of financial information or financial statements of the entity.

Illustrative Reports (Ref: Para. 40)

A63. Appendix 2 to this SRS contains illustrations of practitioners' compilation reports incorporating the required elements of the report.

Material Modifications vis-a-vis ISRS 4410 (Revised), "Compilation Engagements"

There are no material modifications in SRS 4410 (Revised) vis-a-vis ISRS 4410 (Revised), 'Compilation Engagements' except addition of the following bullet point in paragraph 24(e):

- Design, implementation and maintenance of such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Illustrative Engagement Letter for a Compilation Engagement

The following is an example of an engagement letter for a compilation engagement that illustrates the relevant requirements and guidance contained in this SRS. This letter is not authoritative but is intended only to be a guide that may be used in conjunction with the considerations outlined in this SRS. It will need to be adapted according to the requirements and circumstances of individual compilation engagements. It is drafted to refer to the compilation of financial statements for a single reporting period and would require adaptation if intended or expected to apply to a recurring engagement as described in this SRS. It may be appropriate to seek legal advice that any proposed letter is suitable.

This engagement letter illustrates the following circumstances:

- The financial statements are to be compiled for sole use by the management of a company (ABC Company), and use of the financial statements will be restricted to management. Use and distribution of the practitioner's report is also restricted to management.
- The compiled financial statements will comprise only the balance sheet of the company as at March 31, 20XX and the Statement of Profit and Loss for the year then ended, without notes. Management has determined that the financial statements be prepared on an accrual basis as described.

To the Management⁶ of ABC Company:

[The objective and scope of the compilation engagement]

You have requested that we provide the following services:

On the basis of information that you will provide, we will assist you in the preparation and presentation of the following financial statements for ABC Company: the balance sheet of ABC Company as at March 31, 20XX and the Statement of Profit and Loss for the year then ended. These financial statements will not include explanatory notes, other than a note describing the basis of accounting as set out in this engagement letter.

The purpose for which the financial statements will be used is to provide full-year financial information showing the entity's financial position at the financial reporting date of March 31, 20XX and financial performance for the year then ended. The financial statements will be solely for your use, and will not be distributed to other parties.

Our Responsibilities

A compilation engagement involves applying expertise in accounting and financial reporting to assist you in the preparation and presentation of financial information. Since a compilation engagement is not an assurance engagement, we are not required to verify the accuracy or completeness of the information you provide to us for the compilation engagement, or otherwise to gather evidence to express an audit opinion or a review conclusion. Accordingly, we will not express an audit opinion or a review conclusion on whether the financial statements are prepared in accordance with the basis of accounting you have specified, as described above.

⁶ Throughout this illustrative engagement letter, references to "you," "we," "us," "management," "those charged with governance" and "practitioner" would be used or amended as appropriate in the circumstances.

We will perform the compilation engagement in accordance with the Standard on Related Services (SRS) 4410 (Revised), *Compilation Engagements*. SRS 4410 (Revised) requires that, in undertaking this engagement, we comply with relevant ethical requirements. For that purpose, we are required to comply with the ICAI's Code of Ethics

Your Responsibilities

The compilation engagement to be performed is conducted on the basis that you acknowledge and understand that our role is to assist you in the preparation and presentation of the financial statements in accordance with the financial reporting framework you have adopted for the financial statements. Accordingly, you have the following overall responsibilities that are fundamental to our undertaking the compilation engagement in accordance with SRS 4410 (Revised):

- (a) Responsibility for the financial statements and the preparation and presentation thereof in accordance with a financial reporting framework that is acceptable in view of the intended use of the financial statements and the intended users.
- (b) Responsibility for the design, implementation and maintenance of such internal control as you determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
- (c) Responsibility for the accuracy and completeness of the records, documents, explanations and other information you provide to us for the purpose of compiling the financial statements.
- (d) Responsibility for the judgments needed in the preparation and presentation of the financial statements, including those for which we may provide assistance in the course of the compilation engagement.

Our Compilation Report

As part of our engagement, we will issue our report attached to the financial statements compiled by us, which will describe the financial statements, and the work we performed for this compilation engagement [see attached]. The report will also note that the use of the financial statements is restricted to the purpose set out in this engagement letter, and that use and distribution of our report provided for the compilation engagement is restricted to you, as the management of ABC Company.

Please sign and return the attached copy of this letter to indicate your acknowledgement of, and agreement with, the arrangements for our engagement to compile the financial statements described herein, and our respective responsibilities.

[Other relevant information]

[Insert other information, such as fee arrangements, billings and other specific terms, as appropriate.]

PART-III

GUIDANCE NOTE ON INDEPENDENCE OF AUDITORS (REVISED)*

1. INTRODUCTION

1.1 This Guidance Note aims to clarify the meaning of independence while performing their duties as Auditors. Professional integrity and independence is an essential characteristic of all the professions but is more so in the case of accountancy profession. Independence implies that the judgement of a person is not subordinate to the wishes or direction of another person who might have engaged him, or to his own self-interest. This document shall provide guidance to members about the specific circumstances and relationships that may create threats to independence. The Guidance Note also provides safeguards that should be employed by the auditors to mitigate the risk arising from such circumstances and relationship leading to the threats to independence.

1.2 It is not possible to define “independence” precisely. Rules of professional conduct dealing with independence are framed primarily with a certain objective. The rules themselves cannot create or ensure the existence of independence. Independence is a condition of mind as well as personal character and should not be confused with the superficial and visible standards of independence which are sometimes imposed by law. These legal standards may be relaxed or strengthened but the quality of independence remains unaltered.

1.3 There are two interlinked perspectives of independence of auditors, one, independence of mind; and two, independence in appearance.

The Code of Ethics for Professional Accountants, issued by International Federation of Accountants (IFAC) defines the term ‘Independence’ as follows:

“Independence is:

- (a) **Independence of mind – the state of mind that permits the provision of an opinion without being affected by influences that compromise professional judgment, allowing an individual to act with integrity, and exercise objectivity and professional skepticism; and**
- (b) **Independence in appearance – the avoidance of facts and circumstances that are so significant a reasonable and informed third party, having knowledge of all relevant information, including any safeguards applied, would reasonably**

* Issued in January, 2005. This Guidance Note replaces the Guidance Note published in ‘The Chartered Accountant’, June 1968, p. 670–672.

III.2 Auditing Pronouncements

conclude a firm's, or a member of the assurance team's, integrity, objectivity or professional skepticism had been compromised."

1.4 Independence of the auditor has not only to exist in fact, but also appear to so exist to all reasonable persons. The relationship between the auditor and his client should be such that firstly, he is himself satisfied about his independence and secondly, no unbiased person would be forced to the conclusion that, on an objective assessment of the circumstances, there is likely to be an abridgement of the auditors' independence.

1.5 In all phases of a Chartered Accountant's work, he is expected to be independent, but in particular in his work as auditor, independence has a special meaning and significance. Not only the client but also the stakeholders, prospective investors, bankers and government agencies rely upon the accounts of an enterprise when they are audited by a Chartered Accountant. As statutory auditor of a limited company, for example, the Chartered Accountant would cease to perform any useful function if the persons who rely upon the accounts of the company do not have any faith in the independence and integrity of the Chartered Accountant. In such cases he is expected to be objective in his approach, fearless, and capable of expressing an honest opinion based upon the performance of work such as his training and experience enables him to do so.

1.6 The objective of an audit of financial statements, prepared within a framework of recognized accounting policies and practices and relevant statutory requirements, if any, is to enable an auditor to express an opinion on such financial statements. The auditor's opinion helps determination of the true and fair view of the financial position and operating results of an enterprise. The user, however, should not assume that the auditor's opinion is an assurance as to the future viability of the enterprise or the efficiency or effectiveness with which management has conducted the affairs of the enterprise.

1.7 The idea of independence is instilled in the minds of Chartered Accountants from the commencement of their training under articles or audit service. It has to be applied in their day-to-day work and their success is dependent entirely upon their integrity, competence and independence of approach.

1.8 Dependent as it is on the state of mind and character of a person, independence, is a very subjective matter. One person might be independent in a particular set of circumstances, while another person might feel he is not independent in similar circumstances. It is therefore the duty of every Chartered Accountant to determine for himself whether or not he can act independently in the given circumstances of a case and quite apart from legal rules, in no case to place himself in a position which would compromise his independence.

1.9 The auditor should be straightforward, honest and sincere in his approach to his professional work. He must be fair and must not allow prejudice or bias to override his objectivity. He should maintain an impartial attitude and both be and appear to be free of any interest which might be regarded, whatever its actual effect, as being incompatible with integrity and objectivity. This is not self evident in the exercise of the reporting function but also applies to all other professional work. In determining whether a member in practice is or is not seen to be free of any interest which is incompatible with objectivity, the criterion should

be whether a reasonable person, having knowledge of relevant facts and taking into account the conduct of the member and the member's behaviour under the circumstances, could conclude that the member has placed himself in a position where his objectivity would or could be impaired.

1.10 While performing audit functions, maintaining quality control is the objectives of the quality control and policies to be adopted by an Auditor shall ordinarily incorporate the following:

- (a) **Professional Requirements:** Personnel in the firm are to adhere to the principles of Independence, Integrity, Objectivity, Confidentiality and Professional Behaviours.
- (b) **Skills and Competence:** The firm is to be staffed by personnel who have attained and maintained the Technical Standards and Professional Competence required to enable them to fulfill their responsibilities with Due Care.
- (c) **Assignment:** Audit work is to be assigned to personnel who have the degree of technical training and proficiency required in the circumstances.
- (d) **Delegation:** There is to be sufficient direction, supervision and review of work at all levels to provide reasonable assurance that the work performed meets appropriate standards of quality.
- (e) **Consultation:** Whenever necessary, consultation within or outside the firm is to occur with those who have appropriate expertise.
- (f) **Acceptance and Retention of Clients:** An evaluation of prospective clients and a review, on an ongoing basis, of existing clients is to be conducted. In making a decision to accept or retain a client, the firm's independence and ability to serve the client properly are to be considered.
- (g) **Monitoring:** The continued adequacy and operational effectiveness of quality control policies and procedures is to be monitored.

1.11 A member not in practice has a duty to be objective in carrying out his or her professional work whether or not the appearance of professional independence is attainable. Thus a member performing professional work must recognize the problems created by personal relationships or financial involvement, which by reason of their nature or degree might threaten his independence.

1.12 Standing alone, the word "Independence" may lead observers to suppose that a person exercising professional judgment ought to be free from all economic, financial and other relationships. This is impossible, as every member of society has relationships with others. Therefore, the significance of economic, financial and other relationships should also be evaluated in the light of what a reasonable and informed third party having knowledge of all relevant information would reasonably conclude to be unacceptable.

1.13 Many different circumstances, or combination of circumstances, may be relevant and accordingly it is impossible to define every situation that creates threats to independence and specify the appropriate mitigating action that should be taken. In addition, the nature of

III.4 Auditing Pronouncements

assurance engagements may differ and consequently different threats may exist, requiring the application of different safeguards. A conceptual framework that requires chartered accountants to identify, evaluate and address threats to independence, rather than merely comply with a set of specific rules in the public interest.

2. THREATS TO INDEPENDENCE

2.1 The Code of Ethics for Professional Accountants, prepared by the International Federation of Accountants (IFAC) identifies five types of threats. These are:

1. *Self-interest threats*, which occur when an auditing firm, its partner or associate could benefit from a financial interest in an audit client. Examples include (i) direct financial interest or materially significant indirect financial interest in a client, (ii) loan or guarantee to or from the concerned client, (iii) undue dependence on a client's fees and, hence, concerns about losing the engagement, (iv) close business relationship with an audit client, (v) potential employment with the client, and (vi) contingent fees for the audit engagement.
2. *Self-review threats*, which occur when during a review of any judgement or conclusion reached in a previous audit or non-audit engagement, or when a member of the audit team was previously a director or senior employee of the client. Instances where such threats come into play are (i) when an auditor having recently been a director or senior officer of the company, and (ii) when auditors perform services that are themselves subject matters of audit.
3. *Advocacy threats*, which occur when the auditor promotes, or is perceived to promote, a client's opinion to a point where people may believe that objectivity is getting compromised, e.g. when an auditor deals with shares or securities of the audited company, or becomes the client's advocate in litigation and third party disputes.
4. *Familiarity threats are self-evident*, and occur when auditors form relationships with the client where they end up being too sympathetic to the client's interests. This can occur in many ways: (i) close relative of the audit team working in a senior position in the client company, (ii) former partner of the audit firm being a director or senior employee of the client, (iii) long association between specific auditors and their specific client counterparts, and (iv) acceptance of significant gifts or hospitality from the client company, its directors or employees.
5. *Intimidation threats*, which occur when auditors are deterred from acting objectively with an adequate degree of professional skepticism. Basically, these could happen because of threat of replacement over disagreements with the application of accounting principles, or pressure to disproportionately reduce work in response to reduced audit fees.

3. SAFEGUARDS TO INDEPENDENCE

3.1 The Chartered Accountant has a responsibility to remain independent by taking into account the context in which they practice, the threats to independence and the safeguards available to eliminate the threats.

3.2 To address the issue, Members are advised to apply the following guiding principles:

- For the public to have confidence in the quality of audit, it is essential that auditors should always be and appears to be independent of the entities that they are auditing.
- In the case of audit, the key fundamental principles are integrity, objectivity and professional skepticism, which necessarily require the auditor to be independent.
- Before taking on any work, an auditor must conscientiously consider whether it involves threats to his independence.
- When such threats exist, the auditor should either desist from the task or, at the very least, put in place safeguards that eliminate them. All such safeguards measure needs to be recorded in a form that can serve as evidence of compliance with due process.
- If the auditor is unable to fully implement credible and adequate safeguards, then he must not accept the work.

3.3 *Provisions contained under the Companies Act, 1956*

3.3.1 In order to ensure independence, the law has made certain provisions which either prohibit the appointment of a person as auditor in certain circumstances or place certain restrictions on his appointment as auditor or put third parties on guard against the possibility of an abridgement of independence by requiring certain disclosures to be made. These provisions are briefly outlined below:

3.3.2 Section 226 of the Companies Act, 1956 prohibits the appointment of a Chartered Accountant as auditor of a Company if he is:

- (i) an officer or employee of the Company;
- (ii) a partner of a person in the employment of an officer or of an employee of the Company;
- (iii) a person who is indebted to the company for an amount exceeding ₹ 1000;
- (iv) a person who has given any guarantee or provided any security in connection with the indebtedness of any third person to the company for an amount exceeding ₹ 1000;
- (v) a person holding any security of that company.

3.3.3 A person who is disqualified from becoming auditor of any body corporate under the above rules is also disqualified from appointment as auditor of such body's subsidiary, co-subsidiary or holding company.

3.3.4 Section 314 of the Companies Act, 1956 makes separate provision for the case where an auditor of a Company (whether public or private) is a relative of a director, or manager of a private company of which the director of the company is a director or member. In the case of

III.6 Auditing Pronouncements

such a person he may be appointed as auditor of a company only if such appointment is approved with the consent of the company in general meeting obtained by a special resolution.

3.3.5 It will be observed from the above that the Act has specifically provided for cases where the independence of an auditor may be affected by his connection with the company and prohibited or restricted him from acting as auditor under those circumstances.

3.3.6 A question often arises as to whether an indebtedness (as referred in para (iii) above) arises in cases where in accordance with the terms of his engagement by a client (e.g. resolution passed at the general meeting) the auditor recovers his fees on a progressive basis as and when a part of the work is done without waiting for the completion of the whole job. In these circumstances, where in accordance with such terms the auditor recovers his fees on a progressive basis he cannot be said to be indebted to the company at any stage.

3.3.7 A question of indebtedness may also be raised where an auditor of a company purchases goods or services from a company audited by him. In such a case, if the amount outstanding exceeds ₹ 1000/- irrespective of the nature of the purchase or period of credit allowed to other customers the provisions concerning disqualification of auditor as contained in Section 226 (3)(d) of the Companies Act, 1956 will be attracted.

3.3.8 Another question which arises for consideration is whether a partner is disqualified from appointment as auditor when the firm of which he is a partner is indebted to the company in excess of the limit prescribed and whether the firm is disqualified from appointment as auditor when a partner of the firm is indebted in excess of the prescribed limit. In both cases, the disqualification will apply, because when a firm is appointed as auditor, each partner is deemed to be so appointed and when a firm is indebted, each partner is deemed to be indebted.

3.3.9 There may also be situations in which, though the appointment is in the individual name of a partner, the work, is, in fact, carried out by the firm and the fees are credited to the account of the firm. In such situations, the firm will be deemed to be acting as auditor and the disqualification will be attracted.

3.4 Provisions contained under the Chartered Accountants Act, 1949, Chartered Accountants Regulations, 1988 and under Code of Ethics to ensure Independence of Auditors

3.4.1 Clause (10) of Part I of the First Schedule to the Chartered Accountants Act, 1949 prohibits acceptance of, what have been described as contingent fees, i.e., fees, which are either based on percentage of profits or otherwise dependent on the finding or the results of employment.

3.4.2 What distinguishes a profession from a business is that professional service is not rendered with the sole purpose of a profit motive. Personal gain is one but not the main or the only objective. Professional opinion, therefore, frowns upon methods where payment is made to depend on the basis of results. It is obvious that a person who is to receive payment in direct proportion to the benefit received by his client, may be tempted to exaggerate the

advantage of his service or may adopt means which are not ethical. It will have the effect of undermining his integrity and impairing his independence. Therefore, the members are prohibited from charging or accepting any remuneration based on a percentage of the profits or on the happening of a particular contingency such as, the successful outcome of an appeal in revenue proceedings.

3.4.3 Professional services should not be offered or rendered under an arrangement whereby no fee will be charged unless a specified finding or result is obtained or where the fee is otherwise contingent upon the findings or results of such services. However, fee should not be regarded as being contingent if fixed by a Court or other public authority.

3.4.4 The Council of the Institute has framed Regulation 192 which exempts members from the operation of this Clause in certain professional services. The said Regulation 192 is reproduced below:

“192. Restriction on fees

No chartered accountant in practice shall charge or offer to charge, accept or offer to accept, in respect of any professional work, fees which are based on a percentage of profits, or which are contingent upon the findings, or results of such work:

Provided that:

- (a) in the case of a receiver or a liquidator, the fees may be based on a percentage of the realisation or disbursement of the assets;
- (b) in the case of an auditor of a co-operative society, the fees may be based on a percentage of the paid up capital or the working capital or the gross or net income or profits; and
- (c) in the case of a valuer for the purposes of direct taxes and duties, the fees may be based on a percentage of the value of the property valued.”

3.4.5 Attention of the members is invited to the provisions of Clause (4) of Part I of the Second Schedule to the Chartered Accountants Act, 1949 which provides that a Chartered Accountant in practice shall be deemed to be guilty of professional misconduct if he expresses his opinion on financial statements of any business or any enterprise in which he, his firm or a partner in his firm has a substantial interest, unless he discloses his interest also in his report.

3.4.6 If the opinion of auditors are to command respect and the confidence of the public, it is essential that they must disclose every factor which is likely to affect their independence. Since financial interest in the business can be one of the important factors, which may disturb independence, the clause provides that the existence of such an interest direct or indirect should be disclosed. This is intended to assure the public as regards the faith and confidences that could be reposed on the independent opinion expressed by the auditors.

3.4.7 The words “financial statements” used in this clause would cover both reports and certificates usually given after an examination of the accounts or the financial statement or any attest function under any statutory enactment or for purposes of income-tax assessments. This would not however, apply to cases where such statements are prepared by members in

III.8 Auditing Pronouncements

employment purely for the information of their respective employers in the normal course of their duties and not meant to be submitted to any outside authority.

3.4.8 Public conscience is expected to be ahead of the law. Members, therefore, are expected to interpret the requirement as regards independence much more strictly than what the law requires and should not place themselves in positions which would either compromise or jeopardise their independence.

3.4.9 A Member must take care to see that he does not get into situations where there could be a conflict of interest and duty. For example, where a Chartered Accountant is appointed the liquidator of a company, he should not himself audit the Statement of Account to be filed under Section 551 (1) of the Companies Act, 1956. The audit in such circumstances should be done by a Chartered Accountant other than the one who is the liquidator of the company. Attention of the members is drawn to the audit assignments where appointment is done by the Comptroller & Auditor General of India (C&AG), Reserve Bank of India (RBI) and such other authorities. In addition to ensuring independence during the assignment, it is also essential to avoid any situation in near future which may be interpreted as a threat to independence, as for example, he or any other partner of his firm should not accept any other assignment such as internal audit, system audit and management consultancy services within one year from the completion of audit assignment.

3.4.10 A Chartered Accountant in employment should not certify the financial statements of the concern in which he is employed, or of a concern under the same management as the concern in which he is employed, even though he holds certificate of practice and that such certification can be done by any chartered accountant in practice. This restriction would not however apply where the certification is permitted by any law, e.g. Section 228 (iv) of the Companies Act, 1956 and the Companies (Branch Audit Exemption) Rules made thereunder. The Council has decided that a chartered accountant should not by himself or in his firm name:-

- (i) accept the auditorship of a college, if he is working as a part-time lecturer in the college.
- (ii) accept the auditorship of a trust where his partner is either an employee or a trustee of the trust.

3.4.11 Many new areas of professional work have been added, e.g., Special Audit under the Statutes, Tax Audit, Concurrent Audit of Banks, Concurrent Audit of Borrowers of Financial institutions, Audit of non-corporate borrowers of banks and financial institutions, audit of stock exchange, brokers etc. The Council wishes to emphasize that the requirement of Clause (4) of Part I of the Second Schedule to the Chartered Accountants Act, 1949 is equally applicable while performing all types of attest functions by the members.

3.4.12 Some of the situations which may arise in the applicability of Clause (4) of Part I of the Second Schedule to the Chartered Accountants Act, 1949 are discussed below for the guidance of members:-

1. Where the member, his firm or his partner or his relative has substantial interest in the business or enterprise.

The independence of mind is a fundamental concept of audit and/or expression of opinion on the financial statements in any form and, therefore, must always be maintained. Nothing can substitute for the essential and fundamental requirements of independence. Therefore, the Council's views are clarified in the following circumstances.

(i) An enterprise/concern of which a member is either an owner or a partner

The holding of interest in the business or enterprise by a member himself whether as sole-proprietor or partner in a firm, in the opinion of the Council, would affect his independence of mind in the performance of professional duties in conducting the audit and/or expressing an opinion on financial statements of such enterprise. Therefore, a member should not audit financial statements of such business or enterprise.

(ii) Where the partner or relative of a member has substantial interest

The holding of substantial interest by the partner or relative of the member in the business or enterprise of which the audit is to be carried out and opinion is to be expressed on the financial statement, may also affect the independence of mind of the member, in the opinion of Council, in the performance of professional duties. Therefore, the member may, for the same reasons as not to compromise his independence, desist from undertaking the audit of financial statements of such business or enterprise. However, where a member undertakes the audit of such business or enterprise, he should disclose such interest in his report while expressing his opinion on the financial statements of such business or enterprise.

2. Where the member or his partner or relative is a director or in the employment of an officer or an employee of the company

Section 226 of the Companies Act, 1956 specifically prohibits a member from auditing the accounts of a company in which he is a director or in the employment of an officer or an employee of the company. Although the provisions of the aforesaid section are not specifically applicable in the context of audits performed under other statutes, e.g. tax audit, yet the underlying principle of independence of mind is equally applicable in those situations also. Therefore, the Council's views are clarified in the following situations.

(i) Where a member is a director

In cases where the member is a director of a company the financial statements of which are to be audited and/or opinion is to be expressed, he should not undertake such job and/or express opinion on the financial statements of that company.

(ii) Where a partner or relative of the member is a director in the company who has a substantial interest.

III.10 Auditing Pronouncements

In such cases for the reason as not to compromise with the independence of mind, the member may desist from undertaking the audit of financial statements and/or expression of opinion thereon. However, if a member feels that his independence is not affected and undertakes the audit of such company, he should disclose such interest in his report while expressing his opinion on the financial statements of such company.

The meaning of the words "relative" and "substantial interest" shall be the same as are contained in the Resolution passed by the Council in pursuance to Regulation 190A of Chartered Accountants Regulations, 1988 (Appendix 9 of 2002 edition).

3.4.13 An accountant is expected to be no less independent in the discharge of his duties as a tax consultant or as a financial adviser than as auditor. In fact, it is necessary that he should bear the same degree of integrity and independence of mind in all spheres of his work. Unless this is done, the accounts of companies audited by Chartered Accountants or statements made by them during the course of assessment proceedings would not be relied upon as correct by the authorities.

3.4.14. The Members are not permitted to write the books of accounts of their auditee clients.

3.4.15 A statutory auditor of a company cannot also be its internal auditor, as it will not be possible for him to give independent and objective report issued under sub-Section 4A of Section 227 of the Companies Act, 1956 read with the Companies (Auditors' Report) Order, 2003.

3.4.16 The Council has issued a Notification No.1-CA(37)/70 dated 23rd May, 1970 whereby a member of the Institute in practice shall be deemed to be guilty of professional misconduct, if—

- I. he accepts appointment as Cost auditor of Company under Section 233B of the Companies Act, 1956 while he -
 - (a) is an auditor of the company appointed under Section 224 of the Companies Act; or
 - (b) is an officer or employee of the company; or
 - (c) is a partner, or is in the employment of an officer or employee of the company; or
 - (d) is a partner or is in the employment of the Company's auditor appointed under Section 224 of the Companies Act, 1956; or
 - (e) is indebted to the company for an amount exceeding one thousand rupees, or has given any guarantee or provided any security in connection with the indebtedness of any third person to the company for an amount exceeding one thousand rupees;

OR

- II. after his appointment as Cost Auditor, he becomes subject to any of the disabilities stated in items I (a) to (e) above and continues to function as a cost auditor thereafter.

3.4.17 The Council has issued a Notification No.1-CA(39)/70 dated 16th October, 1970 whereby a member of the Institute in practice shall be deemed to be guilty of professional misconduct, if he accepts the appointment as auditor of a company under Section 224 of the Companies Act, 1956, while he is an employee of the cost auditor of the Company appointed under Section 233B of the Companies Act, 1956.

3.4.18 The Council has issued a Notification No.1-CA(7)/60/2002 dated 8th March, 2002 whereby a member of the Institute in practice shall be deemed to be guilty of professional misconduct, if he accepts the appointment as statutory auditor of Public Sector Undertaking(s)/Government Company(ies)/Listed Company(ies) and other Public Company(ies) having turnover of ₹ 50 crores or more in a year and accepts any other work(s) or assignment(s) or service(s) in regard to the same Undertaking(s)/ Company(ies) on a remuneration which in total exceeds the fee payable for carrying out the statutory audit of the same Undertaking/company.

3.4.19 The Council has issued a Notification No.1-CA(7)/63/2002 dated 2nd August, 2002 whereby a member of the Institute in practice shall be deemed to be guilty of professional misconduct, if he accepts appointment as auditor of a concern while he is indebted to the concern or has given any guarantee or provided any security in connection with the indebtedness of any third person to the concern, for limits fixed in the statute and in other cases for amount exceeding ₹ 10,000/-.

3.4.20 To ensure that the professional independence of a member doing attest function does not appear to be jeopardized he should, as far as possible, take care to see that the professional fees for audit and other services received by the firm in which he is a partner, by him and his partners individually and by firm or firms in which he or his partner are partners from one or more clients or companies under the same management does not exceed 40% of the gross annual fees of the firm, firms and partners referred to above. 'Companies under the same management' here would refer to the definition of this expression as provided in section 370(1-B) of the Companies Act, 1956.

Provided that no such ceiling on the gross annual professional fees of a member would be applicable where such fees do not exceed two lakhs of rupees in respect of a member or firm including fees received by the member or firm for other services rendered through the medium of a different firm or firms in which such member or firm may be a partner or proprietor.

Provided further that no such ceiling on the gross annual professional fees of a member would be applicable in the case of audit of government companies, public undertakings, nationalized banks, public financial institutions or where appointments of auditors are made by the Government.

3.4.21 Members' attention is also drawn to Clauses (8) & (9) of Part I of the First Schedule to the Chartered Accountants Act, 1949:

“A Member shall be deemed to be guilty of professional misconduct, if he:

X XX XXX XXXX

III.12 Auditing Pronouncements

- (8) accepts a position as auditor previously held by another chartered accountant or a restricted state auditor without first communicating with him in writing;
- (9) accepts an appointment as auditor of a company without first ascertaining from it whether the requirements of Section 225 of the Companies Act, 1956 in respect of such appointment have been duly complied with.”

3.4.22 Clause (8) of Part I of First Schedule to the Chartered Accountants Act, 1949 emphasized the requirement of mandatory communication with the previous auditor in all types of audit viz., statutory audit, tax audit, internal audit, concurrent audit or any kind of audit and it is equally applicable to audits of both government and non-government entities.

3.4.23 Clause (9) of Part I of First Schedule to the Chartered Accountants Act, 1949 provided that an auditor of the company before accepting the appointment, should ascertain from the auditor whether the requirements of Section 225 of the Companies Act, 1956 in respect of such appointment have been duly complied with. Section 224 of the Companies Act, 1956 contains several provisions in the matter of appointment of auditors in different circumstances and situations whereas Section 225 laid down the procedure which must be followed whenever a company desires to change its auditor. Also that the validity of the appointment of an auditor is not challenged or objected to by shareholders or the retiring auditors at a later date, it has been made obligatory to ascertain from the company that the appropriate procedure in the matter of appointment has been faithfully followed. Independence of auditor is a concept to be addressed through its all the possible aspects and the message of Clause (8) & (9) is to ensure that an auditor should be conscious about this aspect from the very point of accepting the position of an auditor.

4. CONCLUSION

4.1 The Council feels that there are adequate safeguards provided in the Companies Act, 1956 as well as in the Chartered Accountants Act, 1949. The Council is of the view that independence, being a state of the mind, is not necessarily affected by the fact of mere relationship any more than it should be existence if the relationship did not exist. In any case, lest there may be any feeling in the public mind that relationship would affect the independence of auditors, the Council suggests that where, due to near relationship of an auditor, with a Managing or a Whole-Time Director the independence of an auditor is likely to be jeopardized, he should use his good sense, and acting in the best traditions of the profession, refrain from accepting the appointment.

4.2 If the opinion of chartered accountant is to command respect and the confidence of the public, it is essential that they must ensure their independence to assure the public as regards the faith and confidence that could be reposed on them. The Chartered Accountant should ensure his independence in all assurance services including concurrent audit, tax audit and internal audit. The chartered accountant should make it certain that his independence is not jeopardized. Where he feels that his independence is jeopardized, he should refrain from accepting the assignment.

GUIDANCE NOTE ON AUDIT OF INVENTORIES*

The following is the text of the Guidance Note on *Audit of Inventories*, issued by the Auditing Practices Committee (APC)** of the Council of the Institute of Chartered Accountants of India. This Guidance Note should be read in conjunction with the Statements on Standard Auditing Practices (SAPs)¹ issued by the Institute.

1. Para 2.1 of the “Preface to the Statements on Standard Auditing Practices²” issued by the Institute of Chartered Accountants of India states that the “main function of the APC is to review the existing auditing practices in India and to develop Statements on Standard Auditing Practices (SAPs) so that these may be issued by the Council of the Institute.” Para 2.4 of the Preface states that the “APC will issue Guidance Notes on the issues arising from the SAPs wherever necessary.”

2. The Auditing Practices Committee has also taken up the task of reviewing the Statements on auditing matters issued prior to the formation of the Committee. It is intended to issue, in due course of time, Engagement Standards or Guidance Notes, as appropriate, on the matters covered by such Statements which would then stand withdrawn. Accordingly, with the issuance of this Guidance Note on Audit of Inventories, Chapter 5 of the *Statement on Auditing Practices*, titled “Inventories”, shall stand withdrawn. In due course of time, the entire *Statement on Auditing Practices* shall be withdrawn.³

INTRODUCTION

3. Inventories are tangible property held for sale in the ordinary course of business, or in the process of production for such sale, or for consumption in the production of goods or services for sale, including maintenance supplies and consumable stores and spare parts meant for replacement in the normal course.⁴ Inventories normally comprise raw materials including components, work-in-process, finished goods including by-products, maintenance supplies, stores and spare parts, and loose tools.⁵

* Issued in November, 1994.

** Now known as the Auditing and Assurance Standards Board (AASB).

¹ Now known as Engagement Standards.

² The said Preface has been withdrawn pursuant to issuance of the Revised “Preface to Standards on Quality Control, Auditing, Review, Other Assurance and Related Service”, by the Institute of Chartered Accountants of India. The Revised Preface is effective from April 1, 2008. The text of the revised Preface is reproduced in the Vol.I of this Handbook.

³ Since the Statement was withdrawn in March, 2005, the entire paragraph is redundant.

⁴ Servicing equipment, stand-by equipment and specialised spares of machinery (which are in the nature of ‘insurance spares’) are normally capitalised.

⁵ The audit procedures, relating to shares debentures and other securities held as stock-in-trade (i.e., for sale in the ordinary course of business) are similar to those followed for audit of investments. Accordingly, this Guidance Note does not apply in respect of audit of shares, debentures and other securities held as stock-in-trade.

III.14 Auditing Pronouncements

4. Inventories normally constitute a significant portion of the total assets, particularly in the case of manufacturing and trading entities as well as some service rendering entities. Audit of inventories, therefore, assumes special importance.
5. The following features of inventories have an impact on the related audit procedures:
 - (i) By their very nature, inventories normally turn over rapidly.
 - (ii) Inventories are susceptible to obsolescence and spoilage. Further, some of the items of inventory may be slow-moving while others may follow a seasonal pattern of movement.
 - (iii) Inventories are normally movable in nature, although there may be some instances of immovable inventories also, e.g., in the case of an entity dealing in real-estate.
 - (iv) All the items of inventory may not be located at one place but may be held at different locations such as factories and warehouses, or with third parties such as selling agents.
 - (v) The individual items of inventory may not be significant in value, but taken together, they normally constitute a significant proportion of total assets and current assets of manufacturing, trading and certain service entities.
 - (vi) Physical condition (e.g., stage of completion of work-in-process in certain industries) and existence of certain items of inventories may be difficult to determine.
 - (vii) Valuation of inventories may involve varying degrees of estimation, including expert opinions, e.g., in the case of jewelry.

INTERNAL CONTROL EVALUATION

6. The auditor should study and evaluate the system of internal control relating to inventories, to determine the nature, timing and extent of his other audit procedures. He should particularly review the following aspects of internal control relating to inventories⁶:
 - (a) The control procedures should provide for segregation of such functions whose combination may permit the commitment or concealment of fraud or error; for example, persons undertaking the physical verification of stocks should be different from those responsible for store-keeping in respect of those stocks.
 - (b) The stores procedures should provide for the use of pre-numbered standardized forms.
 - (c) There should be a system of cross-checking the data generated by different operating departments.
7. The auditor should also review specific controls over receipts, issues, physical inventories, and inventory records.

VERIFICATION

8. As in the case of other assets, the responsibility for properly determining the quantity and

⁶ The extent of review of controls would depend upon the facts and circumstances of each case. Reference may be made in this regard to the "Internal Control Questionnaire", issued by the Institute of Chartered Accountants of India in 1976 which contains, *inter alia*, an illustrative discussion on internal controls in relation to inventories.

value of inventories rests with the management of the entity. It is, therefore, the responsibility of the management of the entity to ensure that the inventories included in the financial information are physically in existence and represent all inventories owned by the entity. The management satisfies this responsibility by carrying out appropriate procedures which will normally include verification of all items of inventory at least once in every financial year. This responsibility is not reduced even where the auditor attends any physical count of inventories in order to obtain audit evidence.

9. In any auditing situation, the auditor employs appropriate procedures to obtain reasonable assurance about various assertions (Standard on Auditing (SA) 500, Audit Evidence). In carrying out an audit of inventories, the auditor is particularly concerned with obtaining sufficient appropriate audit evidence to corroborate the management's assertions regarding the following:

- Existence - that all recorded inventories exist as at the year-end.
- Ownership - that all inventories owned by the entity are recorded and that all recorded inventories are owned by the entity.
- Valuation - that the stated basis of valuation of inventories is appropriate and properly applied, and that the condition of inventories is recognised in their valuation.

Verification of inventories may be carried out by employing the following procedures:

- (a) examination of records;
- (b) attendance at stock-taking;
- (c) obtaining confirmations from third parties;
- (d) examination of valuation and disclosure; and
- (e) analytical review procedures.

The nature, timing and extent of audit procedures to be performed is, however, a matter of professional judgement of the auditor.

EXAMINATION OF RECORDS

10. The entities usually maintain detailed stock records in the form of stores/stock ledgers showing in respect of each major item, the receipts, issues and balances. The extent of examination of these records by an auditor with reference to the relevant basic documents (e.g., goods received notes, inspection reports, material issue notes, bin cards, etc.) depends upon the facts and circumstances of each case.

11. The auditor may come across cases where the entity does not maintain detailed stock records other than the basic records relating to purchases and sales. In such situations, the auditor would have to suitably extend the extent of application of the audit procedures discussed in paragraphs 12-22 and 30.

ATTENDANCE AT STOCK-TAKING

12. Physical verification of inventories is the responsibility of the management of the entity. However, where the inventories are material and the auditor is placing reliance upon the physical count by the management, it may be appropriate for the auditor to attend the stock-taking. The extent of auditor's attendance at stock-taking would depend upon his assessment of the efficacy of relevant internal control procedures, and the results of his examination of the stock records maintained by the entity and of the analytical review procedures.

13. The procedures concerning the auditor's attendance at stock-taking depend upon the method of stock-taking followed by the entity.

14. There are two principal methods of stock-taking : periodic stocktaking and continuous stock-taking. Under the first method, physical verification of inventories is carried out at a single point of time, usually at the year-end or at a selected date before or shortly after the year-end. Under the second method, physical verification is carried out throughout the year, with different items of inventory being physically verified at different points of time. However, the verification programme is normally so designed that each material item is physically verified at least once in a year and more often in appropriate cases. The continuous stock-taking method is effective when a perpetual inventory system of record-keeping is also in existence. Some entities use continuous stock-taking methods for certain stocks and carry out a full count of other stocks at a selected date.

15. The auditor is expected to examine the adequacy of the methods and procedures of physical verification followed by the entity. Before commencement of verification, the management should issue appropriate instructions to stock-taking personnel. Such instructions should cover all phases of physical verification and preferably be in writing. It would be useful if the instructions are formulated by the entity in consultation with the auditor. The auditor should examine these instructions to assess their efficacy. An illustrative set of instructions which may be useful in most cases is given in **Appendix I** to this Guidance Note.

16. Where the auditor is present at the time of stock-taking, he should observe the procedure of physical verification adopted by the stock-taking personnel to ensure that the instructions issued in this behalf are being actually followed. The auditor should also perform test-counts to satisfy himself about the effectiveness of the count procedures. In carrying out the test counts, the auditor should give particular consideration to those stocks which have a high value either individually or as a category of stocks. Proper attention should also be paid to the physical condition of inventories.

17. Ideally, there should be no movement of stocks when the physical verification is being carried out. On occasions, however, it may be necessary for the entity to continue the production, receiving, or dispatch operations during physical verification. In such circumstances, it is essential that the entity has the procedures to identify and record such movements. The auditor should review the procedures adopted by the entity to account for the movement of inventories from one location to another within the entity during stock-taking (e.g., issues from stores to production departments).

18. The auditor should also examine whether the entity has instituted appropriate cut-off procedures to ensure that –

- (a) goods purchased but not received have been included in the inventories and the liability has been provided for;
- (b) goods sold but not despatched have been excluded from the inventories and credit has been taken for the sales.

The auditor may examine a sample of documents evidencing the movement of stocks into and out of stores, including documents pertaining to periods shortly before and shortly after the cut-off date, and check whether the stocks represented by those documents were included or excluded, as appropriate, during the stock-taking.

19. The auditor should review the original physical verification sheets and trace selected items including the more valuable ones into the final inventories. He should also compare the final inventories with stock records and other corroborative evidence, e.g., stock statements submitted to banks.

20. The auditor should examine whether the discrepancies noticed on physical verification have been investigated and properly accounted for.

21. Where continuous stock-taking methods are being used by the entity, the auditor should, in addition to performing the audit procedures discussed in paragraphs 16-20 above, pay greater attention to ascertaining whether the management:

- (a) maintains adequate stock records that are kept up-to-date;
- (b) has satisfactory procedures for physical verification of inventories, so that in the normal circumstances the programme of physical verification will cover all material items of inventories at least once during the year; and
- (c) investigates and corrects all material differences between the book records and the physical counts.

22. The auditor should determine whether the procedures for identifying defective, damaged, obsolete, excess and slow-moving items of inventory are well-designed and operate properly.

CONFIRMATIONS FROM THIRD PARTIES

23. Where significant stocks of the entity are held by third parties, the auditor should examine that the third parties are not such with whom it is not proper that the stocks of the entity are held. The auditor should also directly obtain from the third parties written confirmation of the stocks held. Arrangements should be made with the entity for sending requests for confirmation to such third parties. A proforma letter of request for confirmation to be used in such cases is given in **Appendix II** to this Guidance Note. Similarly, the auditor should also obtain confirmation from such third parties for whom the entity is holding significant amount of stocks. **Appendix-III** to this Guidance Note gives a proforma letter of request for confirmation to be used for this purpose.

EXAMINATION OF VALUATION AND DISCLOSURE

24. The auditor's objective concerning valuation is to obtain evidence that the amount at which inventories have been valued is computed on an appropriate basis.

III.18 Auditing Pronouncements

25. The auditor should satisfy himself that the valuation of inventories is in accordance with the normally accepted accounting principles and is on the same basis as in the preceding year. The generally accepted accounting principles⁷ involved in the valuation of most types of inventories are dealt with in Accounting Standard (AS) 2, "Valuation of Inventories", issued by the Council of the Institute of Chartered Accountants of India.

26. The auditor should examine the methods of applying the basis of inventory valuation. Thus, with regard to determination of cost, the auditor should examine, *inter alia*, the stock sheets, records of physical verification, invoices, costing records and other relevant documents and also examine and test the treatment of overhead expenses as a part of cost of inventories.

27. Wherever feasible, and particularly where only a single or a few major products are produced, the auditor may call for a reconciliation of the total cost of production for the year as determined by the cost records with the total expenses as per the financial books and review this reconciliation. Where standard costs are used or where overheads are charged at standard rates or percentages, he may examine the variances from actuals and, where these are significant, ensure that appropriate adjustment is made to the inventories.

28. The auditor should examine the evidence supporting the assessment of net realizable value. In this regard, the auditor should particularly examine whether appropriate allowance has been made for defective, damaged and obsolete and slow-moving inventories in determining the net realizable value.

29. The auditor should satisfy himself that the inventories have been disclosed properly in the financial statements. Where the relevant statute lays down any disclosure requirements in this behalf, the auditor should examine whether the same have been complied with.

ANALYTICAL REVIEW PROCEDURES

30. In addition to the audit procedures discussed above, the following analytical review procedures may often be helpful as a means of obtaining audit evidence regarding the various assertions relating to inventories:

- (i) reconciliation of quantities of opening stocks, purchases, production, sales and closing stocks;
- (ii) comparison of closing stock quantities and amounts with those of the previous year;
- (iii) comparison of the relationship of current year stock quantities and amounts with the current year sales and purchases, with the corresponding figures for the previous year;
- (iv) comparison of the composition of the closing stock (e.g., raw materials as a percentage of total stocks, work-in-process as a percentage of total stocks) with the corresponding figures for the previous year;
- (v) comparison of current year gross profit ratio with the gross profit ratio for the previous year;

⁷ It may be mentioned that the Manufacturing and Other Companies (Auditor's Report) Order, 1988 uses the words "normally accepted accounting principles".

- (vi) comparison of actual stock, purchase and sales figures with the corresponding budgeted figures, if available;
- (vii) comparison of yield with the corresponding figure for the previous year;
- (viii) comparison of significant ratios relating to inventories with the similar ratios for other firms in the same industry, if available;
- (ix) comparison of significant ratios relating to inventories with the industry norms, if available.

It may be clarified that the foregoing is only an illustrative list of analytical review procedures which an auditor may employ in carrying out audit of inventories. The exact nature of analytical review procedures to be applied in a specific situation is a matter of professional judgement of the auditor.

SPECIAL CONSIDERATIONS IN CASE OF WORK-IN-PROCESS

31. In general, the audit procedures regarding work-in-process are similar to those used for raw materials and finished goods. However, the auditor has to carefully assess the stage of completion of the work-in-process for assessing the appropriateness of its valuation. For this purpose, the auditor may examine the production/costing records (e.g., cost sheets), hold discussions with the personnel concerned, and obtain expert opinion, where necessary.

32. In certain cases, due to the nature of the product and the manufacturing process involved, physical verification of work-in-process may be impracticable. In such cases, the auditor should lay greater emphasis on ascertaining whether the system, from which the work-in-process is ascertained, is reliable. It may also be useful for the auditor to examine the subsequent records of production/sales.

MANAGEMENT REPRESENTATIONS

33. The auditor should obtain from the management of the entity, a written statement describing in detail, the location of inventories, methods and procedures of physical verification and valuation of inventories. While such a representation letter serves as a formal acknowledgment of the management's responsibilities with regard to inventories, it does not relieve the auditor of his responsibility for performing audit procedures to obtain sufficient appropriate audit evidence to form the basis for the expression of his opinion on the financial information. A sample management representation letter regarding inventories is given in **Appendix IV** to this Guidance Note. It may be mentioned that the representations made in the letter can alternatively be included in a composite representation letter usually issued by the management to the auditor.

DOCUMENTATION

34. The auditor should maintain adequate working papers regarding audit of inventories. He should maintain on his audit file a summary of each inventory as also the details regarding the extent of his verification. The management representation letter concerning inventories should also be maintained on the audit file.

**Illustrative Set of Instructions to be Issued by the
Client to its Staff Responsible for Stock-Taking**
(Ref. Paragraph 15)

This Appendix contains an illustrative set of instructions which may be issued by the client to the staff responsible for stock-taking. The Appendix also lists special instructions in respect of stocks held by others and work-in process.

The annual physical examination of inventories of the entity is to be carried out on 31st March. The work will commence at 8.00 A.M. on 31st March, and there will be no movement of inventories during their physical examination.

1. Mr. AB will be in overall charge of the physical counting.
2. Messrs....., Auditors, will depute their staff to observe the work performed by us. It should be remembered that they are not responsible for any part of the stock-taking.
3. You are responsible for the physical counting of all stocks in (state here the exact area for which the person is responsible e.g., Block B of Godown No. 2, or in the open yard on south of factory, etc.). You are not concerned with similar items of stock which may be stored at other locations.

How to proceed with the work

4. At 8 A.M. you should present yourself in the office of Mr. AB where you will be handed over a bunch of inventory tags. You should ensure that you have in your possession a sufficient number for your needs. You should also have in your possession a pen, blank papers, a measuring tape, (state here any other instrument which is required for measurement, counting, weighing etc.). Please ensure that for all items in your area for which weighing or measuring is required, the necessary apparatus is available.

Procedure for tagging

5.1 You should place a tag on each pile, box, bin, etc., which is counted by you after recording the quantity, description, part number, condition of the stocks to the extent known (e.g., damaged stocks), etc., on the tag. You should proceed in proper order so as to ensure that no items are omitted. When the work of counting is completed you should hand over the remaining tags including soiled and damaged tags to Mr. PQ.

5.2 All items are required to be measured, weighed or counted in order to ascertain the exact quantity on hand. However, in respect of small items of in significant value, such as bolts, nuts (state here any other items which are known to be of small value), the quantities on hand may be estimated without actual counting etc. In the latter case, please state "estimated" on the tag.

5.3 Please ensure that proper identification is made by part number, description, etc., and that in the case of work-in-process, the last operation performed is clearly specified in accordance with the schedule attached to this Memorandum. No movement of any stock from one location to another should take place during the period of stock checking.

5.4 Where bin cards are kept on the bins or job tickets are attached to items in process, you should not merely copy the quantities shown on those documents to the tag without verification. All alterations made on the tags should be initialled and quantities should be recorded in ink.

5.5 Mr. PQ is responsible for the control over tags in use. For this purpose, he should prepare a schedule in the attached Form.

5.6 After obtaining the permission of the auditors⁸, instructions will be issued for the removal of the tags and a suitable person should be sent around in each department to detach the detachable portion of the tags, leaving the counterpart in the proper position. When they are collected, all such tags should be brought back to a central location, placed in serial order and tallied with the schedule prepared by Mr. PQ. After this has been done, the tags will be released to the Accounts Department which is concerned with the preparation of the inventory. Later on, when the inventory has been prepared, a check should be possible to see whether all the tags have been listed.

5.7 After the work of counting has been completed, Mr. AB, who is in overall charge of stock-taking, will make a visit to each area in order to ascertain that all bins, boxes, etc., bear a tag and make a check of the quantities shown therein. At this point, the auditors will carry out further observation and make such test checks as they consider necessary.

5.8 The counterparts of the tags should be left on the relevant bins or piles for a period of at least one month and the quantity shown on the counterparts of the tag should be used as the opening balance of the bin card for the subsequent period.

Procedure for preparing stock sheets

6.1 Separate listings under the following broad heads should be prepared:

- (i) Raw materials, including components
- (ii) Work-in-process
- (iii) Finished goods, including by-products
- (iv) Maintenance supplies and stores and spare parts
- (v) Loose tools

Defective, damaged, obsolete, excess or slow-moving stocks should be listed separately under each of the above categories.

6.2 It should be examined that the stock cards, bin cards, tags or other stock records are posted up-to-date so that items can be traced and verified in these records, simultaneously with the physical checking of stocks.

6.3 A list of excesses and shortages should be drawn up at the time of physical stock-taking.

⁸ It is presumed that the auditors or their representatives are present at the time of stock-taking.

III.22 Auditing Pronouncements

6.4 Stocks belonging to third parties and remaining in custody of the entity should be separately identified from the entity's own stock. A separate listing should be prepared for all such items of stocks.

6.5 Defective, damaged, obsolete, excess or slow-moving stocks should be kept separate from other items.

6.6 Counters and checkers should sign or initial the stock sheets for the work done by them.

Stocks held by others

7.1 The following steps be taken for stocks belonging to the entity but held by others:

- (i) A separate listing for such stocks be prepared.
- (ii) A letter should be sent to such persons to confirm the stocks held by them directly to the auditor.
- (iii) An authority to inspect stocks held by third parties should be given to the auditor where the same is considered necessary by the auditor.
- (iv) An independent record for such goods be kept by the entity.

7.2 The above steps should also be taken for stocks given on loan or received on loan.

Work-in-Process

8.1 With regard to work-in-process, the following instructions be given to the staff members concerned:

- (i) A separate listing for work-in-process be prepared.
- (ii) The internal records kept by the entity be written up-to-date.
- (iii) If the amount of work-in-process is determinable from production records, the same be kept up-to-date.
- (iv) A list of opening work-in-process be kept ready at the time of stock-taking.

Appendix II

Illustrative Letter of Confirmation of Inventories Held by Others

[Ref. Paragraph 23]

(Letterhead of Entity)

[Date]

[Name and address of holder of inventories]

Dear Sir,

For audit purposes, kindly furnish directly to our auditors (name and address of the auditors) details concerning our inventories held by you for [state here the purpose of holding of inventories by the third party] as of the close of business on

According to our records, you held the following inventories as of that date:

Description	Quantity
.....
.....

In case you identify certain items of inventories as defective or damaged, the details thereof may be furnished separately, indicating the quantities and giving a general description of the condition of such items. Also, please confirm that our inventories held by you are free of any charge or encumbrance.

A stamped envelope addressed to our auditors is enclosed for your convenience.

Yours faithfully,

(Signature of responsible official of the entity)

Appendix III

**Illustrative Letter of Confirmation – Inventories
Held by the Entity on Behalf of Others**

[Ref. Paragraph 23]

[Letterhead of Entity]

[Date]

[Name and address of owner of inventories]

Dear Sir,

For audit purposes, kindly furnish directly to our auditors (name and address of the auditors) details concerning your inventories held by us for [state here the purpose of holding of inventories by the entity as of the close of business on _____].

According to our records, we held the following inventories as of that date:

Description	Quantity
.....
.....

A stamped envelope addressed to our auditors is enclosed for your convenience.

Yours faithfully,

(Signature of responsible official of the entity)

Representation Letter for Inventories

[Ref. Paragraph 33]

The following is a sample representation letter for inventories. It might be used to supplement the general letter of representation or included therein. The letter should be modified where appropriate.

[Letterhead of Entity]

[Date]

[Name and Address of the Auditor]

Dear Sir,

In connection with your audit of the financial statements of X limited as of....., 19...., and for the year then ended, we make, to the best of our knowledge and belief, the following representations concerning inventories.

1. Inventories at the year-end consisted of the following:

Raw Materials (including components)	₹ _____
Work-in-Process	₹ _____
Finished Goods (including by-products)	₹ _____
Maintenance supplies and Stores and Spare Parts	₹ _____
Loose Tools	₹ _____
Others (specify each major head separately)	₹ _____
Total	₹ _____

2. All quantities were determined by actual physical count or weight or measurement that was taken under our supervision and in accordance with written instructions, on (date/dates of physical verification), except as follows:⁹

.....

.....

⁹ Where physical verification of inventories is carried out at a date other than the closing date, this paragraph may be modified as below:

Inventories recorded in the books as at.....(date of balance sheet) aggregating to ₹ are based upon the physical inventories taken as at (date of physical verification) by actual count weight or measurement. The material discrepancies noticed on physical verification of stocks as compared to book records have been properly dealt with in the books of account and subsequent transactions recorded in the accounts fairly reflect the changes in the inventories up to (balance sheet date).

3. Except as set out below, all goods included in the inventory are the property of the entity and are not subject to any charge, and none of the goods are held as consignee for others or as bailee:

.....

4. All inventories owned by the entity, wherever located, have been recorded, including goods sent on consignment.

5. Inventories do not include goods sold to customers for which delivery is yet to be made.

6. Inventories have been valued on the following basis/bases:

Raw Materials (including components)

Work-in-Process

Finished Goods (including by-products)

Maintenance supplies and Stores and Spare Parts

Loose Tools

Others (specify each major head separately)

(In describing the basis/bases of valuation, the method of ascertaining the cost (e.g. FIFO, Average Cost or LIFO) should also be stated. Similarly, the extent to which overheads have been included in the cost should also be stated.)

7. The following provisions have been made in respect of excess, slow moving, damaged, or obsolete inventories and these, in our view, are adequate.

.....

8. No item of inventories has a net realizable value in the ordinary course of business which is less than the amount at which it is included in inventories.

9. The basis/bases of valuation is/are the same as that/those used in the previous year, except as set out below:

Class of Inventory	Basis of valuation		Effect of change in Basis of Valuation
	This year	Last year	
.....	
.....	

Yours faithfully,

(Signature of responsible official of the entity)

Clarification***

Auditor's Duties where Inventories are Stated to be "As Valued and Certified by the Management" in Financial Statements

(Refer Paragraph 33)

It has been observed that in some cases, inventories are described in the financial statements as "Stocks (as valued and certified by the management)". The use of such an expression may lead the users of the financial statements to believe that the auditor merely relies on the management's certificate without carrying out any other appropriate audit procedures to satisfy himself about the existence and valuation of inventories.

The Institute of Chartered Accountants of India has issued a Guidance Note on Audit of Inventories, which recommends the procedures to be followed by the auditors in conducting the audit of inventories. Para 33 of the Guidance Note, *inter alia*, recommends as below:

"The auditor should obtain from the management of the entity, a written statement describing in detail the location of inventories, methods and procedures of physical verification and valuation of inventories. While such a representation letter serves as a formal acknowledgment of the management's responsibilities with regard to inventories, it does not relieve the auditor of his responsibility for performing audit procedures to obtain sufficient appropriate audit evidence to form the basis for the expression of his opinion on the financial information."

In view of the above, the Council of the Institute hereby clarifies that despite the expression "as valued and certified by the management", the duties and responsibilities of the auditors with regard to audit of inventories are not diminished. Thus, in order that the auditor's role with regard to inventories is properly appreciated by the users of the financial statements, the auditor may advise his clients to omit the words "as valued and certified by the management", when describing inventories in the financial statements.

*** Published in September, 1999 issue of "The Chartered Accountant", p.66.

GUIDANCE NOTE ON AUDIT OF DEBTORS, LOANS AND ADVANCES*

The following is the text of the Guidance Note on Audit of Debtors, Loans and Advances issued by the Auditing Practices Committee (APC)⁺ of the Council of the Institute of Chartered Accountants of India. This Guidance Note should be read in conjunction with the Statements on Standard Auditing Practices (SAPs)¹ issued by the Institute.

1. Paragraph 2.1 of the “Preface to the Statements on Standard Auditing Practices”² issued by the Institute of Chartered Accountants of India states that the “main function of the APC is to review the existing auditing practices in India and to develop Statements on Standard Auditing Practices (SAPs) so that these may be issued by the Council of the Institute.” Paragraph 2.4 of the Preface states that the “APC will issue Guidance Notes on the issues arising from the SAPs wherever necessary.”

2. The Auditing Practices Committee has also taken up the task of reviewing the Statements on auditing matters issued prior to the formation of the Committee. It is intended to issue, in due course of time, Engagement Standards or Guidance Notes, as appropriate, on the matters covered by such Statements which would then stand withdrawn. Accordingly, with the issuance of this Guidance Note on Audit of Debtors, Loans and Advances, Chapter-7 of the *Statement on Auditing Practices*, titled ‘Debtors, Loans and Advances’, shall stand withdrawn. In due course of time, the entire *Statement of Auditing Practices* shall be withdrawn.³

INTRODUCTION

3. Debtors, loans and advances may constitute a significant proportion of the total assets of an entity. Debtors represent the amounts due to an entity for goods sold or services rendered or in respect of other similar contractual obligations, but do not include the amounts which are in the nature of loans or advances. Loans represent the claims of an entity in respect of such contractual obligations as moneys lent. Advances represent payments made on account of, but before completion of, a contract or before acquisition of goods or receipt of services. For purposes of this Guidance Note, debtors, loans and advances include instruments such as bills of exchange, promissory notes and similar other instruments, evidencing debtors, loans

* Published in June, 1994 issue of ‘The Chartered Accountant’.

⁺ Now known as the Auditing and Assurance Standards Board (AASB).

¹ Now known as Engagement Standards.

² The said Preface has been withdrawn pursuant to issuance of the Revised “Preface to Standards on Quality Control, Auditing, Review, Other Assurance and Related Service”, by the Institute of Chartered Accountants of India. The Revised Preface is effective from April 1, 2008. The text of the revised Preface is reproduced in the Vol.I of this Handbook.

³ Since the Statement was withdrawn in March, 2005, the entire paragraph is redundant.

and advances.

4. An important feature of debtors, loans and advances which has a significant effect on the related audit procedures is that these assets are represented only by documentary evidence; they have no physical existence. Moreover, the documentary evidence is generally in the form of invoices, loan documents, etc., prepared by the entity itself. The auditor should take these factors into account in designing his audit procedures.

INTERNAL CONTROL EVALUATION

5. The auditor should study and evaluate the system of internal control relating to debtors, loans and advances, to determine the nature, timing and extent of his other audit procedures. He should particularly review the following aspects of internal control relating to debtors, loans and advances.⁴

(a) In respect of debtors

- (i) The basis on which credit limits for customers are to be determined should be clearly laid down. The credit limits fixed in respect of individual customers should be approved by an official independent of the sales department. These limits should be checked before orders are accepted from the customers. There should also be a system of periodic review of the credit limits.
- (ii) The procedure should ensure prompt recording of debts and realisations and of linking receipts with outstandings.
- (iii) There should be a procedure for preparation of aging schedule of debtors at regular intervals. The schedules should be reviewed by a responsible official and necessary action initiated in respect of overdue accounts.
- (iv) Statements of account should be sent to all debtors at periodic intervals. They should be prepared and despatched by a person independent of the ledger-keeper. The debtors should be requested to confirm the balances as per the statements with reference to their own records. The confirmations received should be reviewed by a person independent of the ledger-keeper and the person responsible for preparing the statements of account, and necessary action taken in case of discrepancies.
- (v) All material adjustments in debtors' accounts, particularly those relating to rebates, allowances, commissions etc., should require approval of the competent authority. Similarly, any write-off of bad debts should require approval of the competent authority.
- (vi) There should be a system of periodic reconciliation of various debtor balances with related control accounts.

⁴ The extent of review of internal controls would depend upon the facts and circumstances of each case. Reference may be made in this regard to the "Internal Control Questionnaire", issued by the Institute of Chartered Accountants of India in 1976, which contains an illustrative discussion on internal controls in relation to debtors and loans and advances.

(b) In respect of loans and advances

- (i) As far as possible, the system should specify the following:
 - ◆ total amount up to which loans may be made;
 - ◆ the purposes for which loans may be made;
 - ◆ maximum amount of loans which may be made for each such purpose in individual cases;
 - ◆ the terms on which such loans may be made;
 - ◆ the persons who are authorized to make loans;
 - ◆ procedure for ensuring compliance with relevant legal requirements.
- (ii) All variations in the terms of loans and advances should be duly approved in writing by the competent authority.
- (iii) Where security is taken against the loans, the form and adequacy of security should be reviewed by a responsible official.
- (iv) The loan and security documents should be kept in safe custody of a responsible official. A record of all such documents should be maintained and the documents should be periodically verified with reference to such records.
- (v) The system should provide for identification of cases where principal and/or interest have become overdue or where any other terms are not being complied with.
- (vi) Confirmation of balances should be obtained at periodic intervals in the same manner as in the case of debtors.

VERIFICATION

6. In any auditing situation, the auditor employs appropriate procedures to obtain reasonable assurance about various assertions (see Standard on Auditing (SA) 500, *Audit Evidence*). In carrying out an audit of debtors, loans and advances, the auditor is particularly concerned with obtaining sufficient appropriate audit evidence to corroborate the management's assertions regarding the following:

- | | | |
|--------------|---|---|
| Existence | - | that all amounts recorded in respect of debtors, loans and advances are outstanding as at the date of the balance sheet. |
| Completeness | - | that there are no unrecorded debtors, loans and advances. |
| Valuation | - | that the stated basis of valuation of debtors, loans and advances is appropriate and properly applied, and that the recoverability of debtors, loans and advances is recognised in their valuation. |
| Disclosure | - | that the debtors, loans and advances are disclosed, classified, and described in accordance with recognised accounting policies and |

III.30 Auditing Pronouncements

practices and relevant statutory requirements, if any.

Verification of debtors may be carried out by employing the following procedures:

- (a) examination of records;
- (b) direct confirmation procedure (also known as 'circularisation procedure');
- (c) analytical review procedures.

The nature, timing and extent of audit procedures to be performed is, however, a matter of professional judgement of the auditor.

EXAMINATION OF RECORDS

7. The auditor should carry out an examination of the relevant records to satisfy himself about the validity, accuracy and recoverability of the debtor balances. The extent of such examination would depend on the auditor's evaluation of the efficacy of internal controls.

8. The auditor should check the agreement of balances as shown in the schedules of debtors with those in the ledger accounts. He should also check the agreement of the total of debtor balances with the related control accounts. Any differences in this regard should be examined.

9. Verification of subsequent realizations is a widely used procedure, even in cases where direct confirmation procedure is followed. In the case of significant debtors, the auditor should also examine the correspondence or other documentary evidence to satisfy himself about their validity and accuracy.

10. While examining the schedules of debtors with reference to the debtors' ledger accounts, the auditor should pay special attention to the following aspects:

- (a) Where the schedules show the age of the debts, the auditor should examine whether the age of the debts has been properly determined.
- (b) Whether the amounts outstanding are made up of items which are not overdue, having regard to the credit terms of the entity.
- (c) Whether transfers from one account to another are properly evidenced.
- (d) Whether provisions for allowances, discounts and doubtful debts are required. In this regard, the auditor should recognise that even though a debtor may have confirmed the balance due by him, he may still not pay the same.

11. The following are some of the indications of doubtful and uncollectible debts, loans and advances:

- (a) The terms of credit have been repeatedly ignored.
- (b) There is stagnation, or lack of healthy turnover, in the account.
- (c) Payments are being received but the balance is continuously increasing.
- (d) Payments, though being received regularly, are quite small in relation to the total

outstanding balance.

- (e) An old bill has been partly paid (or not paid), while later bills have been fully settled.
- (f) The cheques received from the debtor have been repeatedly dishonoured.
- (g) The debt is under litigation, arbitration, or dispute.
- (h) The auditor becomes aware of unwillingness or inability of the debtor to pay the dues e.g., a debtor has either become insolvent, or has closed down his business, or is not traceable.
- (i) Amounts due from employees, which have not been repaid on termination of employment.
- (j) Collection is barred by statute of limitation.

12. Bad debts written off or excessive discounts or unusual allowances should be verified with the relevant correspondence. Proper authorisation should be inspected.

13. In the case of claims made against insurance companies, shipping companies, railways, etc., the auditor should examine the correspondence or other available evidence to ascertain whether the claims have been acknowledged as debts and there is a reasonable possibility of their being realized. If it appears that they are not collectible, they should be shown as doubtful. Similar considerations apply in respect of claims for export incentives, claims for price escalation in case of construction contracts, claims for interest on delayed payments, etc.

14. The auditor should examine whether the contingent liability, if any, in respect of bills accepted by customers and discounted with the banks is properly disclosed. He should also examine whether adequate provision on this account has been made, where required.⁵

Special Considerations in Case of Loans and Advances

15. In general, the procedure outlined above in regard to debtors is also applicable in the case of loans and advances. However, in the case of loans and advances, the auditor may find greater documentary evidence (in the form of loan and security documents and related correspondence) on which he can place reliance.

16. In the case of loans and advances, an important aspect to be examined by the auditor is whether the entity is empowered to make loans. In many cases, the statute governing the entity may contain restrictions or conditions about the amount of loans, purposes for which loans may be granted, parties to which loans may be granted etc. Similarly, the internal regulations of the entity may also prescribe the procedure to be followed for making the loans. For instance, in the case of companies, sections 292, 295 and 370 place restrictions on the making of loans by companies.⁶ The competence of the borrower to receive the loan may also

⁵ Reference may be made in this regard to Accounting Standard (AS) 4, *Contingencies and Events Occurring after the Balance Sheet Date*, issued by the Institute of Chartered Accountants of India.

⁶ For a detailed study of this aspect, reference may be made to the Institute's publication titled *A Guide to Company Audit*. Similarly, in the case of entities like banks, insurance companies, etc., reference may be made to

III.32 Auditing Pronouncements

affect the legality and, hence, the recoverability of the loan. The auditor should examine the loan documents and other evidence with reference to the above while determining the legality and recoverability of the loans made by the entity.

17. The auditor should ascertain whether the parties to whom loans and advances have been made have complied with the terms and conditions relating to payment of interest, repayment of loans or adjustment of advances, etc. In the case of defaults, e.g., where the repayment of loans or advances or the payment of interest are overdue, the auditor should consider whether such defaults are indicative of unwillingness or inability of the parties concerned to make the payment.

18. The auditor should pay particular attention to loans and advances given to parties in whom directors or persons who are substantial owners of the entity are interested. He should ascertain the purpose of such loans and advances, the terms and conditions on which they have been made as also their recoverability.

19. The auditor should also examine any other aspects required to be examined or reported upon by the relevant statute. For example, the auditor of a company covered by the Manufacturing and Other Companies (Auditor's Report) Order, 1988⁷, is required to state in his report whether the terms and conditions on which loans and advances have been made are *prima facie* prejudicial to the interests of the company. Similarly, clause (a) of sub-section (1A) of section 227 of the Companies Act, 1956, requires the auditor to inquire "whether loans and advances made by the company on the basis of security have been properly secured and whether the terms on which they have been made are not prejudicial to the interests of the company or its members".

DIRECT CONFIRMATION PROCEDURE

20. The verification of balances by direct communication with debtors is theoretically the best method of ascertaining whether the balances are genuine, accurately stated and undisputed, particularly where the internal control system is weak. It must be recognised, however, that mere confirmation of balance by a debtor does not by itself ensure ultimate recovery. Moreover, the utility of this procedure depends to a large extent on receiving adequate response to confirmation requests. Therefore, in situations where the auditor has reasons to believe, based on his past experience or other factors, that it is unlikely that adequate response would be received from the debtors, he may limit his reliance on direct confirmation procedure and place greater reliance on the other auditing procedures.

21. The auditor employs direct confirmation procedure with the consent of the entity under audit. There may be situations where the management of the entity requests the auditor not to seek confirmation from certain debtors. In such cases, the auditor should consider whether there are valid grounds for such a request. For example, the management may explain the

the relevant publication(s) of the Institute, e.g., *Guidance Note on Audit of Banks*, *Guidance Note on Audit of Companies Carrying on General Insurance Business*, *Guidance Note on Companies Carrying on Life Insurance Business*, *Guide to Audit of Cooperative Societies*, etc.

⁷ The Department of Company Affairs has notified the Companies (Auditor's Report) Order, 2003 in June 2003 in terms of the powers given to it under section 227(4A) of the Companies Act, 1956.

reason as being the fact that there is a dispute with the particular debtor and the request for confirmation may aggravate sensitive negotiations between the entity and the debtor. Before accepting a refusal as justified, the auditor should examine any available evidence to support the management's explanations, e.g., correspondence between the entity and the debtor. In such a case, alternative procedures should be applied to debtors not subjected to confirmation. In appropriate cases, the auditor may also need to re-consider the nature, timing and extent of his audit procedures including the degree of planned reliance on management's representations.

22. The confirmation date, the method of requesting confirmations, and the particular debtors from whom confirmation of balances is to be obtained are to be determined by the auditor. While determining the information to be obtained, the form of confirmation, as well as the extent and timing of application of the confirmation procedure, the auditor should consider all relevant factors such as the effectiveness of internal control, the apparent possibility of disputes, inaccuracies or irregularities in the accounts, the probability that requests will receive consideration, and the materiality of the amounts involved.

23. The debtors may be requested to confirm the balances either (a) as at the date of the balance sheet, or (b) as at any other selected date which is reasonably close to the date of the balance sheet. The date should be settled by the auditor in consultation with the entity. Where the auditor decides to confirm the debtors at a date other than the balance sheet date, he should examine the movements in debtor balances which occur between the confirmation date and the balance sheet date and obtain sufficient evidence to satisfy himself that debtor balances stated in the balance sheet are not materially misstated.

24. The form of requesting confirmation from the debtors may be either (a) the 'positive' form of request, wherein the debtor is requested to respond whether or not he is in agreement with the balance shown, or (b) the 'negative' form of request, wherein the debtor is requested to respond only if he disagrees with the balance shown.

25. The use of the positive form is preferable when individual account balances are relatively large, or where the internal controls are weak, or where the auditor has reason to believe that there may be a substantial number of accounts in dispute or with inaccuracies or irregularities. An illustrative positive form of request letter is given in **Appendix I** to this Guidance Note.

26. The negative form is useful when internal controls are considered to be effective, or when a large number of small balances are involved, or when the auditor has no reason to believe that the debtors are unlikely to respond. If the negative rather than the positive form of confirmation is used, the number of requests sent and the extent of the other auditing procedures to be performed should normally be greater so as to enable the auditor to obtain the same degree of assurance with respect to the debtor balances. An illustrative negative form of request letter is given in **Appendix II** to this Guidance Note.

27. In many situations, it may be appropriate to use the positive form for debtors with large balances and the negative form for debtors with small balances.

28. Where the number of debtors is small, all of them may be circularized, but if the debtors are numerous, this may be done on a sample basis. The sample list of debtors to be

III.34 Auditing Pronouncements

circularized, in order to be meaningful, should be based on a complete list of all debtor accounts. While selecting the debtors to be circularized, special attention should be paid to accounts with large balances, accounts with old outstanding balances, and customer accounts with credit balances. In addition, the auditor should select accounts in respect of which provisions have been made or balances have been written off during the period under audit or earlier years and request confirmation of the balance without considering the provision or write-off. The auditor may also consider including in his sample some of the accounts with nil balances. The nature of the entity's business (e.g., the type of sales made or services rendered) and the type of third parties with whom the entity deals, should also be considered in selecting the sample, so that the auditor can reach appropriate conclusions about the debtors as a whole.

29. In appropriate cases, the debtor may be sent a copy of his complete ledger account for a specific period as shown in the entity's books. This procedure is more likely to reveal errors and fraud and may be particularly useful in the case of large accounts involving many entries, or where there is evidence that accounts are in dispute or are not being settled in accordance with the entity's usual trade terms.

30. The method of selection of the debtors to be circularised should not be revealed to the entity until the trial balance of the debtors' ledger is handed over to the auditor. A list of debtors selected for confirmation should be given to the entity for preparing requests for confirmation which should be properly addressed and duly stamped. The auditor should maintain strict control to ensure the correctness and proper dispatch of request letters. In the alternative, the auditor may request the client to furnish duly authorised confirmation letters and the auditor may fill in the names, addresses and the amounts relating to debtors selected by him and mail the letters directly. It should be ensured that confirmations as well as any undelivered letters are returned to the auditor and not to the client.

31. Where positive form of request is used, the auditor may, in appropriate cases, request the entity to follow up with a reminder to those debtors from whom he receives no replies. In exceptional circumstances, the auditor may also correspond directly with those significant debtors from whom he receives no replies despite reminders. In the event of inadequacy of responses received, the auditor will have to increase the extent of examination of records and analytical review procedures beyond that planned originally.

32. Any discrepancies revealed by the confirmations received or by the additional tests carried out by the auditor may have a bearing on other accounts not included in the original sample. The entity should be asked to investigate and reconcile the discrepancies. In addition, the auditor should also consider what further tests he can carry out in order to satisfy himself as to the correctness of the amount of debtors taken as a whole.

ANALYTICAL REVIEW PROCEDURES

33. In addition to the audit procedures discussed above, the following analytical review procedures may often be helpful as a means of obtaining audit evidence regarding the various assertions relating to debtors, loans and advances:

- (a) comparison of closing balances of debtors, loans and advances with the corresponding figures for the previous year;
- (b) comparison of the relationship between current year debtor balances and the current year sales with the corresponding figures for the previous year;
- (c) comparison of actual closing balances of debtors, loans and advances with the corresponding budgeted figures, if available;
- (d) comparison of current year's aging schedule with the corresponding figures for the previous year;
- (e) comparison of significant ratios relating to debtors, loans and advances with the similar ratios for other firms in the same industry, if available;
- (f) comparison of significant ratios relating to debtors, loans and advances with the industry norms, if available.

It may be clarified that the foregoing is only an illustrative list of analytical review procedures which an auditor may employ in carrying out an audit of debtors, loans and advances. The exact nature of analytical review procedures to be applied in a specific situation is a matter of professional judgement of the auditor.

DISCLOSURE

34. The auditor should satisfy himself that the debtors, loans and advances have been disclosed properly in the financial statements. Where the relevant statute lays down any disclosure requirements in this behalf, the auditor should examine whether the same have been complied with.

MANAGEMENT REPRESENTATIONS

35. The auditor should obtain from the management of the entity, a written statement regarding recoverability of debtors and loans and advances and their classification for balance sheet purposes. While such a representation letter serves as a formal acknowledgment of the management's responsibilities with regard to debtors, loans and advances, it does not relieve the auditor of his responsibility for performing audit procedures to obtain sufficient appropriate audit evidence to form the basis for the expression of his opinion on the financial information. A sample management representation letter regarding debtors, loans and advances is given in **Appendix III** to this Guidance Note. It may be mentioned that the representations made in the letter can alternatively be included in the composite representation letter usually issued by the management to the auditor.

DOCUMENTATION

36. The auditor should maintain adequate working papers regarding audit of debtors, loans and advances. Among others, he should maintain on his audit file, the confirmations received as well as any undelivered letters of request for confirmation. The management representation letter concerning debtors, loans and advances should also be maintained on the audit file.

Appendix I

Illustrative Letter of Confirmation to be Sent to Debtors-Positive Form

[Ref. Paragraph 25]

[Letterhead of Entity]

[Date]

[Name and address of debtor]

Dear Sir,

For audit purposes, kindly confirm directly to our auditors (name and address of the auditors) that the balance of Rs..... due by you as on, as shown by our books, is correct. The details of the balance are as under:⁸

<i>Invoice No.</i>	<i>Date</i>	Order Reference or Tender No. etc. (To be used Particularly for Government Customers)	Acceptance or Amount
Total			
Less : Advance received			
Net Amount due by you (Rs.)			_____

A stamped envelope addressed to our auditors is enclosed for your convenience.

If the amount shown is in agreement with your books, kindly strike-out the paragraph marked (B) below. If the amount shown is not in agreement with your books, kindly furnish the details in the proforma given in the paragraph marked (B) below and strike-out paragraph (A). In either case, kindly sign at the place provided below and return this entire letter directly to our auditors in the enclosed envelope. Your prompt compliance with this request will be appreciated.

Kindly return this form in its entirety.

Yours Faithfully,

(Signature of responsible official of the entity)

.....

⁸ In case the list of invoices forming the balance is too large, these details may not be given.

(Do not perforate the form at this point)

(Name and Address of entity)

(A) We confirm that the above stated amount is correct as at _____

OR

(B) We state that the above-stated amount is not correct as per our records. The details of the balance as at _____ as per our records are as below:

Invoice No.	Date	Order Reference	Amount
		Total	_____
		Less: Advanced paid	_____
		Net Amount due from us (Rs.)	_____
		Net Amount due from us (Rs.)	_____

Date

(Signature of debtor/responsible official)

Appendix II

Illustrative Letter of Confirmation to be Sent to Debtors-Negative Form

[Ref. Paragraph 26]

[Letterhead of Entity]

[Date]

[Name and address of debtor]

Dear Sir,

For audit purposes, kindly write directly to our auditors (name and address of the auditors) if the balance of Rs. due by you as on _____ as shown by our books, is not correct, giving details of the differences. The details of the balance are as under:⁹

Invoice No.	Date	Order Reference or Acceptance or Tender No. etc. (To be used particularly for Government Customers)	Amount
		Total	_____
		Less: Advanced paid	_____
		Net Amount due by you (Rs.)	_____

⁹ In case the list of invoices forming the balance is too large, these details may not be given.

III.38 Auditing Pronouncements

If you do not notify our auditors of any difference within ten days of the date of this letter, it will be presumed that the balance stated above is correct.

A stamped envelope addressed to our auditors is enclosed for your convenience.

Yours faithfully,

(Signature of responsible official of the entity)

Appendix III

Representation Letter for Debtors, Loans and Advances

[Ref. Paragraph 35]

The following is a sample representation letter for debtors, loans and advances. It might be used to supplement the general letter of representation or included therein. The letter should be modified where appropriate.

[Letterhead of Entity]

[Date]

[Name and Address of the Auditor]

Dear Sir,

In connection with your audit of the financial statements of X Ltd. as of, 19.., and for the year then ended, we certify that the following items appearing in the books as at(date of the Balance Sheet) are considered good and fully recoverable with the exception of those specifically shown as "doubtful" in the Balance Sheet.

Sundry Debtors Rs.

Loans and Advances¹⁰ Rs.

Yours faithfully,

(Signature of responsible official of the entity)

¹⁰ It may be pointed out that a similar certificate regarding deposits made by the entity may also be obtained by the auditor in appropriate cases.

GUIDANCE NOTE ON AUDIT OF INVESTMENTS*

The following is the text of the Guidance Note on Audit of Investments issued by the Auditing Practices Committee (APC)¹ of the Council of the Institute of Chartered Accountants of India. This Guidance Note should be read in conjunction with the Statements on Standard Auditing Practices (SAPs)² issued by the Institute.

1. Para 2.1 of the "Preface to the Statements on Standard Auditing Practices"³ issued by the Institute of Chartered Accountants of India states that the "main function of the APC is to review the existing auditing practices in India and to develop Statements on Standard Auditing Practices (SAPs) so that these may be issued by the Council of the Institute." Para 2.4 of the Preface states that the "APC will issue Guidance Notes on the issues arising from the SAPs wherever necessary.

2. The Auditing Practices Committee has also taken up the task of reviewing the Statements on auditing matters issued prior to the formation of the Committee, It is intended to issue, in due course of time, Engagement Standards or Guidance Notes, as appropriate, on the matters covered by such Statements which would then stand withdrawn.⁴ With the issuance of this Guidance Note on Audit of Investments, Chapter 4 of the *Statement on Auditing Practices*, titled "Investments", shall stand withdrawn. In due course of time, the entire *Statement on Auditing Practices* shall be withdrawn.⁵

* Issued in November, 1994.

¹ Now known as the Auditing and Assurance Standards Board (AASB).

² Now known as Engagement Standards.

³ The said Preface has been withdrawn pursuant to issuance of the Revised "Preface to Standards on Quality Control, Auditing, Review, Other Assurance and Related Service", by the Institute of Chartered Accountants of India. The Revised Preface is effective from April 1, 2008. The text of the revised Preface is reproduced in Vol.I of this Handbook.

⁴ This Guidance Note does not deal with special aspects of audit of investments of retirement benefit plans, life insurance enterprises, mutual funds and/or the related asset management companies, banks and public financial institutions formed under a Central or State Government Act or so declared under the Companies Act, 1956. The special aspects of audit of investments of some of these institutions have been dealt with in other publications of the Institute, e.g., *Guidance Note on Audit of Banks*, *Guidance Note on Audit of Companies Carrying on General Insurance Business*, *Guidance Note on Companies Carrying on Life Insurance Business*. It may also be noted that in the case of certain types of entities, e.g., companies, banks, insurance companies, co-operative societies, etc., the question of compliance with the legal requirements assumes special importance. Appendix I to this Guidance Note contains a brief description of the main provisions of the statutes governing these types of entities in so far as they relate to investments. It may be emphasised that the Appendix is only illustrative and not exhaustive. Moreover, the legal requirements may change from time to time and, therefore, this Appendix should not be construed as representing the correct legal position at all points of time.

⁵ Since the Statement was withdrawn in March, 2005, the entire paragraph is redundant.

INTRODUCTION

3. Investments are assets held by an entity for earning income by way of dividends, interest and rentals, for capital appreciation, or for other benefits to the investing entity⁶ Investments are classified as 'current investments' and 'long term investments'. A *current investment* is an investment that is by its nature readily realisable and is intended to be held for not more than one year from the date on which such investment is made. A *long term investment* is an investment other than a current investment.⁷

4. The following features of investments have an impact on the related auditing procedures:

- (a) Investments constitute a significant portion of the total assets of certain entities like banks, insurance companies, investment companies, trusts, etc. In other cases, the nature, quantum and type of investments may vary from case to case.
- (b) Documentary evidence is generally available for audit verification. A detailed record of acquisition, disposal, etc., of the investments is usually maintained.
- (c) The market values of investments may keep on fluctuating. While in the case of some investments, such fluctuations may not be wide, in the case of others, they may be significant.
- (d) Physical location of documents of title to investments may be different from the one where the acquisition, disposal and recording thereof take place.
- (e) Many investments are readily marketable or can be converted into cash.

INTERNAL CONTROL EVALUATION

5. The auditor should study and evaluate the system of internal control relating to investments to determine the nature, timing and extent of his other audit procedures. He should particularly review the following aspects of internal control relating to investments.⁸

- (a) *Control over acquisition, accretion and disposal of investments*: There should be proper authority for sanction, acquisition and disposal of investments (including renunciation of rights). It should also be ensured that investments are made in accordance with the legal requirements governing the entity as also with its internal regulations, e.g., the provisions of the articles of association, rules and regulations, trust deed, etc.
- (b) *Safeguarding of investments*: The investments should be in the name of the entity as far as possible. The legal requirements in this behalf, if any, should be complied with. There

⁶ It may be clarified that the term 'investments' covers only such securities as are beneficially owned by the entity and not those held by it on behalf of others.

⁷ It may be clarified that inventories, as defined in Accounting Standard (AS) 2, "Valuation of Inventories", issued by the Institute of Chartered Accountants of India are not investments. However, the recommendations of this Guidance Note also apply, to the extent relevant to shares, debentures and other securities held as stock-in-trade. Fixed assets (other than investment properties), as defined in Accounting Standard (AS) 10, "Accounting for Fixed Assets", issued by the Institute, are also not investments.

⁸ The extent of review of controls would depend upon the facts and circumstances of each case. Reference may be made in this regard to the *Internal Control Questionnaire*, issued by the Institute of Chartered Accountants of India in 1976 which contains, *inter alia*, an illustrative list of internal controls in relation to investments.

should exist a proper system for the safe custody of all scrips or other documents of title to the investments belonging to the entity.

- (c) *Controls relating to title to investments:* It should be ensured that in cases where the title does not pass on to the entity immediately on acquisition, the same is transferred to the entity in due course of time, along with the benefits that might have accrued since the acquisition of the investments. It should be ensured that there is no undue time-lag in the execution of various stages of the transactions.
- (d) *Information controls:* These controls should ensure that reliable information is available for recording acquisitions (including by way of conversion of securities, right issues or other entitlements, under schemes of amalgamation, acquisition, etc.), accretions and disposals, and for ascertaining the market values etc. Detailed records regarding acquisition, disposal etc. of the investments should be maintained along with proper documentation.

VERIFICATION

6. The auditor's primary objective in audit of investments is to satisfy himself as to their existence and valuation. Verification of investments may be carried out by employing the following procedures:

- (a) verification of transactions;
- (b) physical inspection;
- (c) examination of valuation and disclosure; and
- (d) analytical review procedures.

The nature, timing and extent of audit procedures to be performed is, however, a matter of professional judgment of the auditor.

7. The investments of an entity may take various forms, e.g., they may be in the form of Government securities, shares and debentures, immovable properties, etc. The following paragraphs discuss the audit steps for verifying investments, with special reference to investments in the form of shares, debentures and other securities.

VERIFICATION OF TRANSACTIONS

8. The auditor should ascertain whether the investments made by the entity are within its authority. In this regard, the auditor should examine whether the legal requirements governing the entity, insofar as they relate to investments, have been complied with and the investments made by the entity are not *ultra vires* the entity. Apart from the above, the auditor should also ensure that any other covenants or conditions which restrict, qualify or abridge the right of ownership and/or disposal of investments, have been complied with by the entity.

9. The auditor should satisfy himself that the transactions for the purchase/sale of investments are supported by due authority and documentation. The acquisition/disposal of investments should be verified with reference to the broker's contract note, bill of costs,

III.42 Auditing Pronouncements

receipts and other similar evidence. The auditor should pay special attention to ascertaining whether the investments have been purchased or sold cum-dividend/ex-dividend, cum-interest/ex-interest, cum-right/ex-right or cum-bonus/ex-bonus. He should check whether proper adjustments in this regard have been made in the cost/sales value of securities purchased or sold.

10. In the case of a rights issue, the offer to the entity contained in the letter of rights should be examined. Where the rights have been renounced or otherwise disposed of or not exercised, the auditor should examine the relevant decision of the appropriate authority in this behalf, as also that the sale proceeds, if any, have been duly accounted for.

11. As regards bonus shares, the intimation to the entity regarding such issue should be examined with a view to ascertaining the receipt and recording of the requisite number of shares by the entity.

12. Where the amounts of purchases or sales of investments are substantial, the auditor may check the prices paid/received with reference to the stock exchange quotations, where available, on or about the date of purchase or sale.

PHYSICAL INSPECTION

13. The auditor should carry out a physical inspection of investments in the form of shares, debentures and other securities. (Special considerations apply in the case of investments in the form of immovable properties, as discussed in paragraph 24.) In the case of certain entities (e.g., insurance companies), physical inspection of investments is a statutory requirement.

14. The depository services and scripless trading are becoming increasingly popular in India. Depository services involve custody of documents of title to investments such as certificates, scrips and deeds and thus avoid their physical handling by the investor. The Public Debt Office of the Reserve Bank of India offers such services to facilitate trading in Government Securities. Authorised institutions such as banks, financial institutions etc., which have individual ledger accounts with the Public Debt Office can trade in government securities between themselves by issuing and accepting Bankers' Receipts. In case of such transactions, the auditor should verify the periodic reconciliation of balances as per the records of the entity and those as per the Public Debt Office.

15. Apart from the Public Debt Office, there are now a number of other custodial organisations whose services are being utilised by banks, large investors, institutional investors, mutual funds etc. The concept of the National Depository System (NDS) is also under development. This system is aimed at eliminating physical movement of securities for purchases and sales. Wherever the services of any of these custodial or depository organisations are being used by the entity under audit, the auditor should redesign his audit procedures to ensure that there is an effective system of periodic reconciliation of balances as per the records of the entity and those as per the records of the custodial or depository organisation. The auditor should also examine the certificates issued by such organisations confirming the holdings of the entity. The concept of scripless trading being introduced by the

National Stock Exchange and the OTC Exchange of India also envisage elimination of movement of title deeds of securities. In such cases, the auditor should verify the interim and other acknowledgments issued by dealers as well as the year-end confirmation certificates of the depository organisations.

16. The investments held by the entity in its own custody should normally be examined at the close of business on the last day of the year. In case this is not possible, the auditor should carry out the inspection on a date as near to the balance sheet date as possible. In such a case, he should take into consideration any adjustments for subsequent transactions of purchase, sale, etc. Where a substantial number of investments are kept by the entity in its custody, the auditor should carry out a surprise inspection of the investments on hand at least once in the year in addition to his year-end examination. He should take particular care to see that only the investments belonging to the entity are produced to him. This aspect assumes special importance in the case of entities like banks which hold investments on their own account, in the form of securities lodged by the customers against loans and advances, and on behalf of the PMS clients.

17. Where investments are held by any other person on behalf of the entity, e.g., by banks, the auditor should examine the certificates received from them. Such certificates should preferably be received directly by the auditor. A suggested form of bank confirmation certificate is given in **Appendix II** to this Guidance Note.

18. In case investments are held by persons other than banks, the auditor should ensure that there is justification for it, e.g., securities in the custody of brokers or with the company concerned for transfer, consolidation, splitting up conversion, etc. Evidence of securities held with others should be examined and, in appropriate cases, physical inspection of the relevant documents may be made, to the extent possible, in the course of audit. Where the investments are recorded at an office other than the one where the documents of title thereto are physically located, the local auditor may be requested to verify the same.

19. If the investments are held otherwise than in the name of the entity (e.g., in the name of nominees/trustees), the auditor should ascertain the reasons for the same and examine the relevant documentary evidence (e.g., written confirmations from the nominees, trustees, etc.) supporting the real/beneficial interest of the entity in the investments.

20. The auditor should also examine any other aspects required to be examined or reported upon by the relevant statute. For example, in the case of a company, the auditor should also carry out the procedures outlined in paragraphs 21-23 below.

21. Where shares are held not in the name of the company but in the name of a director, officer, etc., the auditor should examine whether the declaration referred to in section 187-C of the Companies Act, 1956 has been properly made.

22. The auditor should keep in mind the provisions of section 227(1A)(c) which requires that

III.44 Auditing Pronouncements

the auditor of a company, not being an investment company within the meaning of section 372 of the Companies Act, 1956 or a banking company, should enquire whether so much of the assets of the company as consist of shares, debentures and other securities have been sold at a price less than that at which they are purchased by the company.⁹

23. In case the entity is a finance, investment, chit fund, *nidhi* or mutual benefit company and is dealing or trading in shares, securities, debentures or other investments, the auditor has to state in his report (by virtue of the requirements of the Manufacturing and Other Companies (Auditor's Report) Order, 1988**, issued under section 227(4A) of the Companies Act, 1956) whether proper records have been maintained of the transactions and contracts and whether timely entries have been made therein as also whether the shares, securities, debentures and other investments have been held by the company in its own name except to the extent of exemptions granted under section 49 of the Companies Act, 1956.¹⁰

IMMOVABLE PROPERTIES

24. Where immovable properties are held as investments, the auditor should verify them in the same manner as in the case of immovable properties held as fixed assets.¹¹

EXAMINATION OF VALUATION AND DISCLOSURE

25. The auditor should satisfy himself that the investments have been valued and disclosed in the financial statements in accordance with recognised accounting policies and practices and relevant statutory requirements, if any.¹² **Appendix III** to this Guidance Note discusses, by way of illustration, the disclosure requirements of some of the Acts. The auditor should also examine whether the method of valuation followed by the entity is consistently applied.

26. The auditor should examine whether, in computing the cost of investments, the expenditure incurred on account of transfer fees, stamp duty, brokerage, etc., is included in the cost of investments.

27. The auditor may ascertain the market value of the quoted securities from official quotations of the stock exchange. In case of unquoted securities, the auditor should ascertain the method adopted by the entity for determining the market value of such securities. He

⁹ For a detailed discussion on this aspect reference may be made to the "Statement on Qualification in Auditor's Report", issued by the Institute of Chartered Accountants of India (ICAI).

(The readers may note that the Council, at 269th meeting, held from July 18 to 20, 2007, decided to withdraw the "Statement on Qualification in Auditor's Report" except paragraphs 2.1 to 2.30 dealing with reporting under section 227 (1A) of the Companies Act, 1956 and to rename the Statement as "Statement on Reporting under section 227(1A) of the Companies Act, 1956".)

** Currently, the Companies (Auditor's Report) Order, 2003 (Revised 2005) is in force in terms of section 227(4A) of the Companies Act, 1956.

¹⁰ For a detailed discussion on this aspect, reference may be made to the Statement on the Companies (Auditor's Report) Order, 2003, issued by the Institute of Chartered Accountants of India.

¹¹ Reference may be made in this regard to the *Guidance Note on Audit of Fixed Assets*, issued by the Institute of Chartered Accountants of India.

¹² Reference may be made in this regard to Accounting Standard 13, *Accounting for Investments*, issued by the Institute of Chartered Accountants of India.

should examine whether the method adopted by the entity is one of the recognised methods of valuation of securities such as break-up value method, capitalisation of yield method, yield to maturity method, etc. In the case of investments other than in the form of securities (e.g., rare paintings), the auditor should examine that the market value has been ascertained on the basis of authentic market reports.

ANALYTICAL REVIEW PROCEDURES

28. As a measure of judging the overall reasonableness of the amounts attributed to investments, the auditor may relate the amount of income received from investments with the corresponding figures of investments and compare this ratio with the similar ratio for the previous years. For this purpose, investments may be classified into appropriate categories. Thus, in the case of fixed interest-bearing securities, the auditor may relate the amount of interest earned with the face value of the related securities. In the case of other securities, the auditor may review the schedule of dividend and other returns and the schedule of investments prepared by the entity and judge their reasonableness.

MANAGEMENT REPRESENTATIONS

29. The auditor should obtain from the management of the entity a written statement regarding classification and valuation of investments for Balance Sheet purposes. While such a representation letter serves as a formal acknowledgment of the management's responsibilities with regard to investments, it does not relieve the auditor of his responsibility for performing audit procedures to obtain sufficient appropriate audit evidence to form the basis for the expression of his opinion on the financial information. A sample management representation letter regarding investments is given in **Appendix IV** to this Guidance Note. It may be mentioned that the representations made in the letter can alternatively be included in the composite representation letter usually issued by the management to the auditor.

DOCUMENTATION

30. The auditor should maintain adequate working papers regarding audit of investments. Among others, he should maintain on his audit file, the management representation letter concerning investments.

Appendix I

Legal Requirements Relating to Investments

(Ref. Paragraph 2)

This Appendix contains an illustrative description of the legal provisions regarding investments as contained in the Companies Act, 1956, Banking Regulation Act, 1949, Insurance Act, 1938, and the Cooperative Societies Act, 1912. It may be emphasised that this Appendix is only illustrative in nature and is not intended to give an exhaustive description of all the relevant legal requirements applicable to different types of entities. Moreover, the legal requirements

III.46 Auditing Pronouncements

may change from time to time and therefore, this Appendix should not be construed as representing the correct legal position at all points of time.

Provisions of the Companies Act, 1956

The main relevant sections are section 49, section 108, section 292, section 293(1)(c) and section 372, besides requirements of inquiry/reporting under sections 227(1A) and 227(4A).

Section 49 provides that, subject to certain exceptions, investments made by a company on its own behalf shall be made and held by it in its own name.

Section 108 lays down the mode of transfer of shares and debentures and prescribes the period of validity of blank transfers. Sections 108A-108I lay down certain restrictions on acquisition and transfer of shares.

Section 292 provides that the power to invest the funds of a company shall be exercised by its Board of Directors on behalf of the company only by means of resolutions passed at meetings of the Board. However, the Board may, by a resolution passed at a meeting, delegate this power to any of its committees, the managing director, the manager or any other principal officer of the company. In such case, every resolution delegating the power to invest the funds of the company shall specify the total amount upto which the funds may be invested and the nature of the investments which may be made, by the committee or the person to whom the power to invest is so delegated.

Section 293(1)(c) provides that the Board of Directors of a public company, or of a private company which is a subsidiary of a public company, shall not invest otherwise than in trust securities, the amount of compensation received by it in respect of the compulsory acquisition of any undertaking or of any premises or properties used for any such undertaking except with the consent of the company in a general meeting.

Section 372 provides that a company, whether by itself or together with its subsidiaries, shall not be entitled to acquire, by way of subscription, purchase or otherwise, the shares of any other body corporate except to the extent and except in accordance with the restrictions and conditions, specified in the section.

Provisions of the Banking Regulation Act, 1949

Section 19 of the Act provides that no banking company shall hold shares in any company, whether as pledgee, mortgagee or absolute owner, of an amount exceeding 30% of the paid-up share capital of that company or 30% of its own paid-up share capital and reserves, whichever is less. The above restriction, however, does not apply to the holding by a banking company of shares in its subsidiary. A banking company is also prohibited from holding shares, whether as pledgee, mortgagee or absolute owner, in any company in the management of which, any managing director or manager of the banking company is in any manner concerned or interested.

Section 24 of the Banking Regulation Act provides that every banking company shall maintain in India in cash, gold or unencumbered approved securities, an amount which shall not, at the close of business on any day, be less than twenty-five per cent or such other percentage not

exceeding forty, as the Reserve Bank of India may from time to time specify, of the total of its demand and time liabilities in India as on the last Friday of the second preceding fortnight.

The above provisions also apply to the State Bank of India and its subsidiaries and the nationalised banks.

Provisions of the Insurance Act, 1938

Section 27(B) of the Insurance Act, 1938 provides that no insurer carrying on general insurance business can invest or keep invested any part of his assets otherwise than in any of the approved investments or in other investments which satisfy certain conditions or in certain prescribed assets which are deemed to be approved investments for the purposes of this section.

A general insurance company can invest any part of its assets in investments other than the investments mentioned above, provided that (i) the total amount of all such investments does not exceed 25 per cent of its assets and (ii) the making or the continuance of the investment is with the consent of all the directors, present and eligible to vote, at a meeting, special notice of which, has been given to all directors, then in India. All such investments including investments in which any director is interested must be reported without delay to the Controller of Insurance with full details of the investments and the extent of any director's interest in any such investment.

An insurer cannot invest or keep invested any part of his assets in the shares of any one banking company or investment company more than (a) ten per cent of his assets, or (b) two per cent of the subscribed share capital and debentures of the banking company or investment company concerned, whichever is less.

Further, an insurer cannot invest or keep invested any part of his assets in the shares or debentures of any one company other than a banking company or investment company more than (a) ten per cent of his assets, or (b) ten per cent of the subscribed share capital and debentures of the company, whichever is less.

Where an investment is in partly paid-up shares, the uncalled liability on such shares shall be added to the amount invested, for the purpose of determining whether such investment exceeds the limits referred to above. However, an insurer can subscribe to the right shares notwithstanding the limits specified above.

These limits do not apply to an investment made by an insurer in the shares of any other insurance company carrying on insurance or re-insurance business in India.

The Controller of Insurance can waive for a specified period and with certain conditions, the limits specified above if, on an application from the insurer, he is satisfied that special grounds exist warranting such waiver.

An insurer cannot invest or keep invested any part of his assets in the shares or debentures of any private company.

III.48 Auditing Pronouncements

Provisions of the Cooperative Societies Act, 1912

Section 32 of the Cooperative Societies Act, 1912 provides that a registered society can invest or deposit its funds only:

- (a) in Government Savings Banks;
- (b) in any of the securities specified in section 20 of the Indian Trusts Act, 1882;
- (c) in the shares or on the security of any other registered society;
- (d) with any bank or person carrying on the business of banking, approved for this purpose by the Registrar; or
- (e) in any other mode permitted by the rules.

Appendix II

Illustrative Letter of Confirmation – Investments Held by Banks

(Ref. Paragraph 17)

[Letterhead of entity]

[Date]

.....(Bank)

.....

.....

Dear Sirs,

For audit purpose, kindly send directly to our auditors (name and address of the auditors) a certificate regarding all the shares, debentures and other securities belonging to us but lying with you as (i) security against loans and advances to us, or (ii) in safe custody account at the close of business on

For your convenience, we enclose in duplicate a form in which the certificate may be sent. Please send one copy to our auditors, retaining the other for your records. Should you find the space on the form insufficient to contain all the relevant information, please attach a separate statement.

We would request you to state NIL wherever applicable.

Yours faithfully,

(to be signed by person authorised to operate accounts)

Appendix III

Disclosure Requirements Relating to Investments

(Ref. Paragraph 25)

To illustrate the manner of disclosure of investments in the financial statements, this Appendix discusses the requirements of the Companies Act, 1956, the Banking Regulation Act, 1949, and the Insurance Act, 1938, insofar as they relate to disclosure of information regarding investments in the financial statements prepared and presented in accordance with the provisions of these statutes. As regards the co-operative societies, the form and content of their financial statements are governed by the rules framed by the State Government concerned. It may be emphasised that, in every case, there should be an adequate disclosure of all relevant information to facilitate proper understanding of the financial statements by the users.

Requirements of the Companies Act, 1956

Schedule VI to the Companies Act, 1956 requires the disclosure of investments in the balance sheet as below:

- (1) Investments in Government or Trust Securities.
- (2) Investments in shares, debentures or bonds (showing separately shares fully paid up and partly paid up and also distinguishing the different classes of shares and showing also in similar details investments in shares, debentures or bonds of subsidiary companies).
- (3) Immovable properties.
- (4) Investments in the capital of partnership firms.

The above particulars have to be given showing the nature of investments and mode of valuation, for example, cost or market value. Further, the aggregate amount of the company's quoted investments and the market value thereof have to be shown. The aggregate amount of the company's unquoted investments is also required to be shown.

A statement of investments (whether shown under "Investments" or under "Current Assets" as stock-in-trade, separately classifying trade investments and other investments) is required to be annexed to the balance sheet, showing the names of the bodies corporate (indicating separately the names of the bodies corporate under the same management) in whose shares or debentures investments have been made (including all investments whether existing on the balance sheet date or not, made subsequent to the date as at which the previous balance sheet was made out) and the nature and extent of the investments so made in each such body corporate. In the case of an investment company, i.e., a company whose principal business is the acquisition of shares, stocks, debentures or other securities, it shall be sufficient if the statement shows only the investments existing on the date as at which the balance sheet has been made out. In regard to the investments in the capital of partnership firms, the names of the firms (with the names of all their partners, total capital and the share of each partner) are required to be given in the statement.

III.50 Auditing Pronouncements

Requirements of the Banking Regulation Act, 1949

The Third Schedule to the Banking Regulation Act, 1949, requires the investments to be classified under the following heads for the purpose of balance sheet presentation:

- I. Investments in India in
 - (i) Government securities
 - (ii) Other approved Securities
 - (iii) Shares
 - (iv) Debentures and Bonds
 - (v) Subsidiaries and/or joint ventures
 - (vi) Others (to be specified)Total:

- II. Investments outside India in
 - (i) Government securities (including local authorities)
 - (ii) Subsidiaries and/or joint ventures abroad
 - (iii) Other investments (to be specified)Total:

- Grand Total: (I &II)

Requirements of the Insurance Act, 1938

The First Schedule to the Insurance Act, 1938 requires the disclosure of investments of an insurer as below: ·

- ◆ Deposit with the Reserve Bank of India (Securities to be specified)
- ◆ Indian Government Securities
- ◆ State Government Securities
- ◆ British, British Colonial and British Dominion Government Securities
- ◆ Foreign Government Securities
- ◆ Indian Municipal Securities
- ◆ British and Colonial Securities
- ◆ Foreign Securities
- ◆ Bonds, Debentures, Stocks and other securities whereon interest is guaranteed by the Indian Government or a State Government
- ◆ Bonds, Debentures, Stocks and other securities whereon interest is guaranteed by the

British or any Colonial Government

- ◆ Bonds, Debentures, stocks and other securities whereon interest is guaranteed by any Foreign Government
- ◆ Debentures of any railway in India
- ◆ Debentures of any railway out of India
- ◆ Preference or guaranteed shares of any railway in India
- ◆ Preference or guaranteed shares of any railway out of India
- ◆ Railway Ordinary Stocks (i) in India (ii) out of India
- ◆ Other Debentures and Debenture stock of companies incorporated (i) in India (ii) out of India
- ◆ Other guaranteed and preference stocks and shares of companies incorporated (i) in India (ii) out of India
- ◆ Other ordinary stocks and shares of companies incorporated (i) in India (ii) out of India
- ◆ Holdings in Subsidiary companies

The book value and the market value have to be shown in respect of the investments. Where the market value is ascertained on a basis other than the published quotations, the manner in which such value has been arrived at, is also required to be disclosed.

Appendix IV

Representation Letter for Investments

(Ref. Paragraph 29)

The following is a sample representation letter for investments. It might be used to supplement the general letter of representation or included therein. The letter should be modified where appropriate.

(Letterhead of Entity)

[Date]

[Name and Address of the Auditor]

Dear Sir,

In connection with your audit of the financial statements of X Limited as of 19...., and for the year then ended, we confirm to the best of our knowledge and belief, the following representations concerning investments.

1. The current investments as appearing in the balance sheet consist of only such investments as are by their nature readily realisable and intended to be held for not more than one year from the respective dates on which they were made. All other investments have been shown in the balance sheet as 'long-term investments'.

III.52 Auditing Pronouncements

2. Current investments have been valued at the lower of cost and fair value. Long-term investments have been valued at cost, except that any permanent diminution in their value has been provided for in ascertaining their carrying amount.
3. In respect of offers of right issues received during the year, the rights have been either been subscribed to, or renounced or allowed to lapse. In no case have they been renounced in favour of third parties without consideration which has been properly accounted for in the books of account.
4. All the investments produced to you for physical verification belong to the entity and they do not include any investments held on behalf of any other person.
5. The entity has clear title to all its investments including such investments which are in the process of being registered in the name of the entity or which are not held in the name of the entity. There are no charges against the investments of the entity except those appearing in the records of the entity.

Yours faithfully,

(Signature of responsible official of the entity)

GUIDANCE NOTE ON AUDIT OF CASH AND BANK BALANCES*

The following is the text of the Guidance Note on Audit of Cash and Bank Balances issued by the Auditing Practices Committee (APC)¹ of the Council of the Institute of Chartered Accountants of India. This Guidance Note should be read in conjunction with the Statements on Standard Auditing Practices (SAPs)² issued by the Institute.

1. Para 2.1 of the *Preface to the Statements on Standard Auditing Practices*³, issued by the Institute of Chartered Accountants of India, states that the "main function of the APC is to review the existing auditing practices in India and to develop Statements on Standard Auditing Practices (SAPs) so that these may be issued by the Council of the Institute." Para 2.4 of the Preface states that the "APC will issue Guidance Notes on the issues arising from the SAPs wherever necessary."

2. The Auditing Practices Committee has also taken up the task of reviewing the Statements on auditing matters issued prior to the formation of the Committee. It is intended to issue, in due course of time, SAPs or Guidance Notes, as appropriate, on the matters covered by such Statements which would then stand withdrawn. With the issuance of this Guidance Note on Audit of Cash and Bank Balances, Chapter 6 of the *Statement on Auditing Practices*, titled 'Cash and Bank Balances', shall stand withdrawn.⁴ In due course of time, the entire *Statement on Auditing Practices* shall be withdrawn.⁵

INTRODUCTION

3. Cash and bank balances may constitute a significant proportion of the total assets of an entity. An important feature of cash and bank balances which has a significant impact on the related audit procedures is that these assets are highly prone to misappropriation, misapplication and other forms of fraud.

4. In any auditing situation, the auditor employs appropriate procedures to obtain reasonable assurance about various assertions (see Standard on Auditing (SA) 500, Audit

* Published in November, 1995 issue of 'The Chartered Accountant.

¹ Now known as the Auditing and Assurance Standards Board (AASB).

² Now known as Engagement Standards.

³ The said Preface has been withdrawn pursuant to issuance of the Revised "Preface to Standards on Quality Control, Auditing, Review, Other Assurance and Related Service", by the Institute of Chartered Accountants of India. The Revised Preface is effective from April 1, 2008. The text of the revised Preface is reproduced in the Vol-I of this Handbook.

⁴ The special aspects of audit of cash and bank balances in the case of banks are dealt with in the Guidance Note on Audit of Banks (edn. 2008).

⁵ Since the Statement was withdrawn in March, 2005, the entire paragraph is redundant.

III.54 Auditing Pronouncements

Evidence). In carrying out an audit of cash and bank balances, the auditor is particularly concerned with obtaining sufficient appropriate audit evidence to corroborate the management's assertions regarding the following:

- Existence - that recorded cash and bank balances exist as at the year-end.
- Rights and obligations - that recorded cash and bank balances represent the assets of the entity.
- Completeness - that there are no unrecorded cash and bank balances.

Besides the above, in certain situations, the auditor may also be particularly concerned with the valuation of cash and bank balances, e.g., in the case of foreign currency held by the entity or in the case of bank accounts designated in foreign currencies.

INTERNAL CONTROL EVALUATION

5. The auditor should study and evaluate the system of internal control relating to cash and bank balances to determine the nature, timing and extent of his other audit procedures. He should particularly review the following aspects of internal control relating to cash and bank balances.⁶

- (a) segregation of duties relating to authorisation of transactions, handling of cash/issuance of cheques and writing of books of account, and rotation of the duties periodically;
- (b) proper authorisation of cash and banking transactions;
- (c) daily recording of cash transactions;
- (d) safeguards such as restrictive crossing of cheques, use of pre-printed, pre-numbered forms;
- (e) periodic reconciliation of bank balances;
- (f) reconciliation of cash-on-hand with book balance on a daily basis or at other appropriate intervals, including surprise checks by higher authorities;
- (g) safe custody of cash, cheque books, receipt books etc.; and
- (h) cash/fidelity insurance.

VERIFICATION

6. Verification of cash and bank balances may be carried out by employing the procedures described in paragraphs 7-27. It may, however, be emphasised that the nature, timing and extent of substantive procedures to be performed is a matter of professional judgement of the auditor which is based, *inter alia*, on the auditor's evaluation of the effectiveness of the related internal controls.

⁶ The extent of review of controls would depend upon the facts and circumstances of each case. Reference may be made in this regard to the *Internal Control Questionnaire*, issued by the Institute of Chartered Accountants of India in 1976 which contains, *inter alia*, an illustrative list of internal controls in relation to cash and bank balances.

VERIFICATION OF CASH BALANCES

7. The auditor should carry out physical verification of cash at the date of the balance sheet. However, if this is not feasible, physical verification may be carried out, on a surprise basis, at any time shortly before or after the date of the balance sheet. In the latter case, the auditor should examine whether the cash balance shown in the financial statements reconciles with the results of the physical verification after taking into account the cash receipts and cash payments between the date of the physical verification and the date of the balance sheet. Besides physical verification at or around the date of the balance sheet, the auditor should also carry out surprise verification of cash during the year.

8. All cash balances in the same location should be verified simultaneously. Where petty cash is maintained by one or more officials, the auditor should advise the entity to require the officials concerned to deposit the entire petty cash on hand on the last day with the cashier. The auditor should enquire whether the cashier also handles cash of sister concerns, staff societies, etc. In such a case, cash pertaining to them should also be verified at the same time so as to avoid chances of cash balances of one entity being presented as those of another.

9. If IOUs ('I owe you') or other similar documents are found during physical verification, the auditor should obtain explanations from a senior official of the entity as to the reasons for such IOUs/other similar documents remaining pending. It should also be ensured that such IOUs/other similar documents are not shown as cash-on-hand.

10. The quantum of torn or mutilated currency notes should be examined in the context of the size and nature of business of the entity. The auditor should also examine whether such currency notes are exchanged within a reasonable time.

11. If, during the course of the audit, it comes to the attention of the auditor that the entity is consistently maintaining an unduly large balance of cash- on-hand, he should carry out surprise verification of cash more frequently to ascertain whether the actual cash-on-hand agrees with the balances as shown by the books. If the cash-on-hand is not in agreement with the balance as shown in the books, he should seek explanations from a senior official of the entity. In case any material difference is not satisfactorily explained, the auditor should state this fact appropriately in his audit report. In any case, he should satisfy himself regarding the necessity for such large balances having regard to the normal working requirements of the entity. The entity may also be advised to deposit the whole or the major part of the cash balance in the bank at reasonable intervals.

12. Where postdated cheques are on hand on the balance sheet date, the auditor should verify that they have not been accounted for as collections during the period under audit.

VERIFICATION OF BANK BALANCES

13. The auditor should advise the entity to send a letter to all its bankers to, directly confirm the balances to the auditor. The **Appendix** to this Guidance Note gives an illustrative proforma letter of request for confirmation to be used for this purpose. The request for confirmation should also cover dormant accounts as well as accounts closed during the year.

III.56 Auditing Pronouncements

14. The auditor should examine the bank reconciliation statement prepared as on the last day of the year. He may also examine the reconciliation statements as at other dates during the year. It should be examined whether (i) cheques issued by the entity but not presented for payment, and (ii) cheques deposited for collection by the entity but not credited in the bank account, have been duly debited/credited in the subsequent period. For this purpose, the bank statements of the relevant period should be examined. If the cheques issued before the end of the year have not been presented within a reasonable time, it is possible that the entity might have prepared the cheques before the end of the year but not delivered them to the parties concerned. In such a case, the auditor should examine that the entity has reversed the relevant entries.

15. Where the auditor finds that post-dated cheques are issued by the entity, he should verify that any cheques pertaining to the subsequent period have not been accounted for as payments during the period under audit.

16. The auditor should pay special attention to those items in the reconciliation statements which are outstanding for an unduly long period. The auditor should ascertain the reasons for such outstanding items from the management. He should also examine whether any such items require an adjustment/write-off.

17. The auditor should be alert to the possibility that even though the balance in an apparently inoperative account may have remained stagnant, transactions may have taken place in that account during the year.

18. Where a large number of cheques has been issued/deposited in the last few days of the year, and a sizeable proportion of such cheques has subsequently remained unpaid/uncleared, this may indicate an intention of understating creditors/debtors or understating/overstating bank balances. In such a case, it may be appropriate for the auditor to obtain confirmations from the parties concerned, especially in respect of cheques involving large amounts. The auditor should also examine whether a reversal of the relevant entries would be appropriate under the circumstances.

19. The procedures discussed in paragraph 18 should also be considered by the auditor in cases where a large number of cheques is on hand at the date of the balance sheet and a sizable proportion of such cheques has subsequently remained undeposited/uncleared.

20. In relation to balances/deposits with specific charge on them, or those held under the requirements of any law, the auditor should examine that suitable disclosures are made in the financial statements.

21. In respect of fixed deposits or any other type of deposits with banks, the relevant receipts/certificates, duly supported by bank advices, should be examined.

22. Remittances shown as being in transit should be examined with reference to their credit in the bank in the subsequent period. Where the auditor finds that such remittances have not been credited in the subsequent period, he should ascertain the reasons for the same. He should also examine whether the entity has reversed the relevant entries in appropriate cases.

23. The auditor should examine that suitable adjustments are made in respect of cheques which have become stale as at the close of the year.

24. Where material amounts are held in bank accounts which are blocked, e.g., in foreign banks with exchange control restrictions or any banks which are under moratorium or liquidation, the auditor should examine whether the relevant facts have been suitably disclosed in the financial statements. He should also examine whether suitable adjustments on this account have been made in the financial statements in appropriate cases.

25. Where the auditor finds that the number of bank accounts maintained by the entity is disproportionately large in relation to its size, the auditor should exercise greater care in satisfying himself about the genuineness of banking transactions and balances.

EXAMINATION OF VALUATION AND DISCLOSURE

26. The auditor should satisfy himself that cash and bank balances have been valued and disclosed in the financial statements in accordance with recognised accounting policies and practices and relevant statutory requirements, if any.⁷ In this regard, the auditor should examine that following items are not included in cash and bank balances:

- (a) Temporary advances.
- (b) Stale or dishonoured cheques.

Postage and revenue stamps, if material in amount, may be shown separately instead of being included under cash and bank balances.

27. The auditor should also examine that suitable disclosures as mentioned in paragraphs 20 and 24 above are made in relevant cases.

Appendix

Illustrative Letter of Confirmation – Bank Balances

(Ref. Paragraph 13)

[Letterhead of Entity]

[Name and Address of Bank]

[Date]

Dear Sirs,

Please send directly to our auditors (name and address of the auditors) details of balances as at the close of business on [date] of all our accounts with you as well as details of charges held against such balances, with a copy to us. For your convenience, we enclose in duplicate a form in which details of our balances with you can be filled in. If you find the spaces on the form insufficient to contain all the relevant information, please attach a separate statement.

⁷ For valuation of foreign currency held as cash-in-hand and bank balances designated in foreign currencies, reference may be made to Accounting Standard 11, "Accounting for the Effects of Changes in Foreign Exchange Rates", issued by the Institute of Chartered Accountants of India.

GUIDANCE NOTE ON AUDIT OF LIABILITIES*

The following is the text of the Guidance Note on Audit of Liabilities issued by the Auditing Practices Committee (APC)¹ of the Council of the Institute of Chartered Accountants of India. This Guidance Note should be read in conjunction with the Statements on Standard Auditing Practices (SAPs)² issued by the Institute.

1. Para 2.1 of the Preface to the Standards on Auditing³ issued by the Institute of Chartered Accountants of India states that the “main function of the APC is to review the existing auditing practices in India and to develop Statements on Standard Auditing Practices (SAPs) so that these may be issued by the Council of the Institute.” Para 2.4 of the Preface states that the “APC will issue Guidance Notes on the issues arising from the SAPs wherever necessary.”
2. The Auditing Practices Committee has also taken up the task of reviewing the Statements on auditing matters issued prior to the formation of the Committee. It is intended to issue, in due course of time, SAPs or Guidance Notes as appropriate, on the matters covered by such Statements which would then stand withdrawn. With the issuance of this Guidance Note on Audit of Liabilities, Chapter 9 of the *Statement on Auditing Practices*, titled ‘Liabilities’, shall stand withdrawn. In due course of time, the entire *Statement on Auditing Practices* shall be withdrawn⁴.

INTRODUCTION

3. Liabilities are the financial obligations of an enterprise other than owners’ funds.
4. Liabilities include loans and borrowings, trade creditors and other current liabilities, deferred payment credits, instalments payable under hire purchase agreements, and provisions. Besides liabilities, this Guidance Note also deals with contingent liabilities, i.e., obligations relating to past transactions or other events or conditions that may arise in consequence of one or more future events which are presently deemed possible but not probable.
5. Special considerations may apply in the case of audit of liabilities of specialised entities like banks, financial institutions and venture capital funds.
6. Liabilities generally constitute a significant proportion of the total sources of funds of an

* Published in December, 1995 issue of ‘The Chartered Accountant’.

¹ Now known as the Auditing and Assurance Standards Board (AASB).

² Now known as Engagement Standards.

³ The said Preface has been withdrawn pursuant to issuance of the Revised “Preface to Standards on Quality Control, Auditing, Review, Other Assurance and Related Service”, by the Institute of Chartered Accountants of India. The Revised Preface is effective from April 1, 2008. The text of the revised Preface is reproduced in the Vol-I of this Handbook.

⁴ Since the Statement was withdrawn in March, 2005, the entire paragraph is redundant.

entity. The audit of liabilities is primarily directed at ensuring that all known liabilities have been properly accounted for, since material omission or misstatement of liabilities vitiates the true and fair view of the financial statements.

7. An important feature of liabilities which has a significant effect on the related audit procedures is that these are represented only by documentary evidence which originates mostly from third parties in their dealings with the entity.

8. In any auditing situation, the auditor employs appropriate procedures to obtain reasonable assurance about various assertions [Standard on Auditing (SA) 500, Audit Evidence]. In carrying out an audit of liabilities, the auditor is particularly concerned with obtaining sufficient appropriate audit evidence to satisfy himself that all known liabilities are recorded and stated at fair and reasonable amounts.

INTERNAL CONTROL EVALUATION

9. The auditor should study and evaluate the system of internal control relating to liabilities to determine the nature, timing and extent of his other audit procedures. He should particularly review the following aspects of internal control relating to liabilities.⁵

(a) *In respect of loans and borrowings (including advances and deposits)*

- (i) As far as possible, the following should be clearly specified:
 - ◆ the borrowing powers and limits;
 - ◆ persons authorised and competent to borrow;
 - ◆ terms of borrowings;
 - ◆ procedure for ensuring compliance with relevant legal requirements/internal regulations.
- (ii) Any variations in the terms of loans and borrowings should be truly approved/ratified in writing by competent authority.
- (iii) Security offered against loans and borrowings should be properly recorded and periodically reviewed.
- (iv) The records and documents should be kept in proper custody and reviewed periodically.
- (v) The system should bring out all cases of non-compliance with terms and conditions including amounts of principal and/or interest which have become overdue.
- (vi) Confirmation of balances should be obtained at periodic intervals and the discrepancies, if any, should be duly investigated and reconciled.
- (vii) There should be a proper procedure for year-end valuation of loans and borrowings,

⁵ The extent of review of controls would depend upon the facts and circumstances of each case. Reference may be made in this regard to the Internal Control Questionnaire, issued by the Institute of Chartered Accountants of India, which contains, *inter alia*, an illustrative list of internal controls in relation to creditors and borrowings.

III.62 Auditing Pronouncements

especially for those designated in foreign currencies.⁶

(b) *In respect of Trade Creditors*

- (i) The procedure should ensure proper recording of transactions and facilitate the linking of payments with outstandings.
- (ii) The payments made to creditors should be in line with the approved policies of the entity.
- (iii) There should be specific procedures for payments against duplicate invoices or other duplicate records as well as for payments against accounts which have remained unclaimed for quite some time.
- (iv) There should be a procedure for preparation of schedules of trade creditors at periodic intervals; this should be reviewed by a responsible person and necessary action initiated on overdue accounts.
- (v) Statements of account should be called for creditors at periodic intervals and the discrepancies, if any, should be duly investigated and reconciled.
- (vi) All adjustments in the creditors' accounts such as those relating to claims for returns, defectives, short receipts of goods, rebates, allowances and commissions etc., should require approval of competent authority. Similarly, any write-back of creditors' balances and escalation claims should be approved by competent authority.
- (vii) There should be appropriate cut-off procedures in relation to transactions affecting the creditor accounts.

(c) *In respect of other current liabilities, trade deposits and provisions*

The internal control procedures as spelt out above for loans and borrowings and creditors broadly apply in relation to these items.

10. In respect of contingent liabilities, the auditor should examine whether the internal control system of the entity provides for a procedure for identifying and estimating such liabilities and for periodic review of the same.

VERIFICATION

11. Verification of liabilities may be carried out by employing the following procedures:

- (a) examination of records;
- (b) direct confirmation procedure;
- (c) examination of disclosure;
- (d) analytical review procedures,
- (e) obtaining management representations.

⁶ Reference may be made in this regard to Accounting Standard 11 (revised 2003), *Effects of Changes in Foreign Exchange Rates*, issued by the Institute of Chartered Accountants of India.

The nature, timing and extent of substantive procedures to be performed is, however, a matter of professional judgement of the auditor which is based, *inter alia*, on the auditor's evaluation of the effectiveness of the related internal controls.

EXAMINATION OF RECORDS

Loans and Borrowings

12. The auditor should satisfy himself that the loans obtained are within the borrowing powers of the entity.
13. The auditor should carry out an examination of the relevant records to judge the validity and accuracy of the loans.
14. In respect of loans and advances from banks, financial institutions and others, the auditor should examine that the book balances agree with the statements of the lenders. He should also examine the reconciliation statements, if any, prepared by the entity in this regard.
15. The auditor should examine the important terms in the loan agreements and the documents, if any, evidencing charge in respect of such loans and advances. He should particularly examine whether the requirements of the applicable statute regarding creation and registration of charges have been complied with.
16. Where the entity has accepted deposits, the auditor should examine whether the directives issued by the Reserve Bank of India or other appropriate authority are complied with.
17. In case the value of the security falls below the amount of the loan outstanding, the auditor should examine whether the loan is classified as secured only to the extent of the market value of the security.
18. Where short-term secured loans have been disclosed separately from other secured loans, the auditor should verify the correctness of the amount of such short-term loans.
19. Where instalments of long-term loans falling due within the next twelve months have been disclosed in the financial statements (e.g., in parentheses or by way of a footnote), the auditor should verify the correctness of the amount of such instalments.
20. The auditor should examine the hire purchase agreements for the purchase of assets by the entity and ensure the correctness of the amounts shown as outstanding in the accounts and also examine the security aspect. Future instalments under hire purchase agreements for the purchase of assets may be shown as secured loans.
21. The deferred payment credits should be verified with reference to the important terms in the agreement, including due dates of payments and guarantees furnished by banks. The auditor should also verify the copies of hundies/bills accepted separately.

Trade Creditors and Other Current Liabilities

22. The auditor should check the adequacy of cut-off procedures adopted by the entity in relation to transactions affecting the creditor accounts. For example, the auditor may examine the documents relating to receipt of goods from suppliers during a few days immediately

III.64 Auditing Pronouncements

before the year-end and verify that the related invoices have been recorded as purchases of the current year.

23. The auditor should check that the total of the creditors' balances agrees with the related control account, if any; the difference, if any, should be examined.

24. The auditor should examine the correspondence and other relevant documentary evidence to satisfy himself about the validity, accuracy and completeness of creditors/acceptances.

25. The auditor should verify that in cases where income is collected in advance for services to be rendered in future, the unearned portion, not applicable to the period under audit, is not recognised as income of the period under audit but is shown in the balance sheet as a part of current liabilities.

26. While examining schedule of creditors and other schedules such as those relating to advance payments, unclaimed dividends and other liabilities, the auditor should pay special attention to the following aspects:

- (a) long outstanding items;
- (b) unadjusted claims for short supplies, poor quality, discount, commission, etc.;
- (c) liabilities not correlated/adjusted against related advances;
- (d) authorisation and correctness of transfers from one account to another.

Based on his examination as aforesaid, the auditor should determine whether any adjustments in accounts are required.

27. In case there are any unusual payments around the year-end, the auditor should examine them thoroughly. In particular, the auditor should examine if the entries relating to any such payments have been reversed in the subsequent period.

28. The auditor should review subsequent transactions to identify/confirm material liabilities outstanding at the balance sheet date.

Provisions

29. The term 'provision' means amounts retained by way of providing for depreciation or diminution in value of assets or retained by way of providing for any known liability the amount of which cannot be determined with substantial accuracy. Provisions include those in respect of depreciation or diminution in the value of assets, product warranties, service contracts and guarantees, taxes and levies, gratuity, proposed dividend etc. This Guidance Note, however, does not deal with provisions for depreciation or diminution in the value of assets.

30. The audit of provisions primarily involves examining the reasonableness and adequacy of the amounts provided for. The auditor should also examine that the provisions made are not in excess of what is reasonably required.

31. *Provisions for Taxes and Duties:* The adequacy of the provision for taxation for the year should be examined. The position regarding the overall outstanding liability of the entity as at

the date of balance sheet should be reviewed. In respect of assessments completed, revised or rectified during the year, the auditor should examine whether suitable adjustments have been made in respect of additional demands or refunds, as the case may be. Similarly, he should examine whether excess provisions or refunds have been properly adjusted. The relevant orders received up to the time of audit should be considered and, on this basis, it should be examined whether any short provisions have been made good. If there is a material tax liability for which no provision is made in the accounts, the auditor should qualify his report in this respect even if the reserves are adequate to cover the liability.

32. If the entity disputes its liability in regard to demands raised, the auditor should examine whether there is a positive evidence or action on the part of the entity to show that it has not accepted the demand for payment of tax or duty, e.g., where it has gone into appeal under section 246 of the Income-tax Act, 1961. Where an application for rectification of mistake (e.g., under section 154 of the Income tax Act, 1961) has been made by the entity, the amount should be regarded as disputed. Where the demand notice/intimation for the payment of tax is for a certain amount and the dispute relates to only a part and not the whole of the amount, only such amount should be treated as disputed. A disputed tax liability may require a provision or suitable disclosure (see Accounting Standard (AS) 4, *Contingencies and Events Occurring After the Balance Sheet Date* issued by the Institute of Chartered Accountants of India). In determining whether a provision is required, the auditor should, among other procedures, make appropriate inquiries of management, review minutes of the meetings of the board of directors and correspondence with the entity's lawyers, and obtain appropriate management representations.

33. In case the entity has made the provision for taxation on the basis of the tax-effect accounting method, the auditor should examine whether the method has been applied properly.⁷

34. *Provision for Gratuity*: The auditor should examine whether the entity is required to pay gratuity to its employees by virtue of the provisions of the Payment of Gratuity Act, 1972 and/or in terms of agreement with employees and, if so, whether provision for accruing gratuity liability has been made by the entity.⁸ The auditor should examine the adequacy of the gratuity provision with reference to the actuarial certificate obtained by the entity. In case the entity has not obtained such an actuarial certificate, the auditor should examine whether the method followed by it for calculating the accruing liability for gratuity is rational.

35. *Provision for Bonus*: In the case of provision for bonus, the auditor should examine whether the liability is provided for in accordance with the Payment of Bonus Act, 1965 and/or agreement with the employees or award of competent authority. Where the bonus actually paid is in excess of the amount required to be paid as per the provisions of the applicable law/agreement/award, the auditor should specifically examine the authority for the same (e.g., resolution of the board of directors in the case of a company).

⁷ Reference may be made in this regard to the Accounting Standard (AS) 22, "Accounting for Taxes on Income" issued by the Institute of Chartered Accountants of India.

⁸ Reference may be made in this regard to Accounting Standard (AS) 15 (Revised in 2005), "Accounting for Employee Benefits", issued by the Institute of Chartered Accountants of India.

36. *Provision for Dividends*: The auditor should examine that dividends are provided for as per applicable provisions of the relevant laws and rules framed thereunder, relevant agreements and resolutions.

37. *Other Provisions*: Where provisions are made for liabilities that may arise on account of product warranties, service contracts, performance warranties etc., the auditor should examine whether the provisions made are in accordance with Accounting Standard (AS) 4, "Contingencies and Events Occurring After the Balance Sheet Date", issued by the Institute of Chartered Accountants of India. The auditor should also examine the reasonableness of the basis adopted for quantifying the provision with reference to the relevant agreements.

Contingent Liabilities

38. The term 'contingent liabilities' refers to obligations relating to past transactions or other events or conditions that may arise in consequence of one or more future events which are presently deemed possible but not probable. Contingent liabilities may or may not crystallize into actual liabilities. If they do become actual liabilities, they give rise to a loss or an expense. The uncertainty as to whether there will be any legal obligation differentiates a contingent liability from a liability that has crystallized. Contingent liabilities should also be distinguished from those contingencies which are likely to result in a loss (i.e., a loss is not merely possible but probable) and which, therefore, require an adjustment of relevant assets or liabilities.⁹ Some of the instances giving rise to contingent liabilities are:

- (a) law suits, disputes and claims against the entity not acknowledged as debts:
- (b) membership of a company limited by guarantee.

39. The following general procedures may be useful in verifying contingent liabilities.

- (a) Review of minutes of the meetings of board of directors, committees of board of directors/other similar body.
- (b) Review of contracts, agreements and arrangements.
- (c) Review of list of pending legal cases, correspondence relating to taxes, duties, etc.
- (d) Review of terms and conditions of grants and subsidies availed under various schemes.
- (e) Review of records relating to contingent liabilities maintained by the entity.
- (f) Enquiry of, and discussions with, the management and senior officials of the entity.
- (g) Representations from the management.

40. The auditor should verify that contingent liabilities do not include any items which require an adjustment of relevant assets or liabilities.

DIRECT CONFIRMATION PROCEDURE

41. The verification of balances by direct communication with creditors is theoretically the best

⁹ Reference may be made in this regard to the Accounting Standard (AS) 4, "Contingencies and Events Occurring After the Balance Sheet Date", issued by the Institute of Chartered Accountants of India.

method of ascertaining whether the balances are genuine, accurately stated and undisputed, particularly where the internal control system is weak. However, the utility of this procedure depends to a large extent on receiving adequate response to confirmation requests. Therefore, in situations where the auditor has reasons to believe, based on his past experience or other factors, that it is unlikely that adequate response would be received from the creditors, he may limit his reliance on direct confirmation procedure and place greater reliance on the other auditing procedures.

42. The auditor employs direct confirmation procedure with the consent of the entity under audit. There may be situations where the management of the entity requests the auditor not to seek confirmation from certain creditors. In such cases, the auditor should consider whether there are valid grounds for such a request. For example, the management may explain the reason as being the fact that there is a dispute with the particular creditor and the request for confirmation may aggravate sensitive negotiations between the entity and the creditor. Before accepting a refusal as justified, the auditor should examine any available evidence to support the management's explanations, e.g., correspondence between the entity and the creditor. In such a case, alternative procedures should be applied to creditors not subjected to confirmation. In appropriate cases, the auditor may also need to re-consider the nature, timing and extent of his audit procedures including the degree of planned reliance on management's representations,

43. The confirmation date, the method of requesting confirmations, and the particular creditors from whom confirmation of balances is to be obtained are to be determined by the auditor. While determining the information to be obtained, the form of confirmation, as well as the extent and timing of application of the confirmation procedure, the auditor should consider all relevant factors such as the effectiveness of internal control, the apparent possibility of disputes, inaccuracies or irregularities in the accounts, the probability that requests will receive consideration, and the materiality of the amounts involved.

44. The creditors may be requested to confirm the balances either (a) as at the date of the balance sheet, or (b) as at any other selected date which is reasonably close to the date of the balance sheet. The date should be settled by the auditor in consultation with the entity. Where the auditor decides to seek confirmation from the creditors at a date other than the balance sheet date, he should examine the movements in creditor balances which occur between the confirmation date and the balance sheet date and obtain sufficient evidence to satisfy himself that creditor balances stated in the balance sheet are not materially misstated.

45. The form of requesting confirmation from the creditors may be either (a) the 'positive' form of request, wherein the creditor is requested to respond whether or not he is in agreement with the balance shown, or (b) the 'negative' form of request, wherein the creditor is requested to respond only if he disagrees with the balance shown.

46. The use of the positive form is preferable when individual account balances are relatively large, or where the internal controls are weak, or where the auditor has reason to believe that there may be a substantial number of accounts in dispute or with inaccuracies or irregularities. An illustrative positive form of request letter is given in **Appendix I** to this Guidance Note.

III.68 Auditing Pronouncements

47. The negative form is useful when internal controls are considered to be effective, or when a large number of small balances are involved, or when the auditor has no reason to believe that the creditors are unlikely to respond. If the negative rather than the positive form of confirmation is used, the number of requests sent and the extent of the other auditing procedures to be performed should normally be greater so as to enable the auditor to obtain the same degree of assurance with respect to the creditor balances. An illustrative negative form of request letter is given in **Appendix II** to this Guidance Note.

48. In many situations, it may be appropriate to use the positive form for creditors with large balances and the negative form for creditors with small balances.

49. Where the number of creditors is small, all of them may be circularised, but if the creditors are numerous, this may be done on a sample basis. The sample list of creditors to be circularised, in order to be meaningful, should be based on a complete list of all creditor accounts. While selecting the creditors to be circularised, special attention should be paid to accounts with large balances, accounts with old outstanding balances, and supplier accounts with debit balances. In addition, the auditor should select accounts in respect of which balances have been written back to the profit and loss account. In such cases, the auditor may decide that the balance as per the books of the entity may not be stated in the request letter sent to the creditors concerned; instead, the creditors may be asked to intimate the balance as per their records. The auditor may also consider including in his sample some of the accounts which have been fully squared up. The nature of the entity's business and the type of third parties with whom the entity deals, should also be considered in selecting the sample, so that the auditor can reach appropriate conclusions about the creditors as a whole.

50. In appropriate cases, the creditor may be sent a copy of his complete ledger account for a specific period as shown in the entity's books. This procedure is more likely to reveal errors and fraud and may be particularly useful in the case of large accounts involving many entries, or where there is evidence that accounts are in dispute or are not being settled in accordance with the usual trade terms.

51. The method of selection of the creditors to be circularised should not be revealed to the entity until the trial balance of the creditors' ledger is handed over to the auditor. A list of creditors selected for confirmation should be given to the entity for preparing requests for confirmation which should be properly addressed and duly stamped. The auditor should maintain strict control to ensure the correctness and proper dispatch of request letters. In the alternative, the auditor may request the client to furnish duly authorised confirmation letters and the auditor may fill in the names, addresses and the amounts relating to creditors selected by him and mail the letters directly. It should be ensured that confirmations as well as any undelivered letters are returned to the auditor and not to the client.

52. Where positive form of request is used, the auditor may, in appropriate cases, request the entity to follow up with a reminder to those creditors from whom he receives no replies. In exceptional circumstances, the auditor may also correspond directly with those significant creditors from whom he receives no replies despite reminders, with intimation to the entity. In the event of inadequacy of responses received, the auditor will have to increase the extent of examination of records and analytical review procedures beyond that planned originally.

53. Any discrepancies revealed by the confirmations received or by the additional tests carried out by the auditor may have a bearing on other accounts not included in the original sample. The entity should be asked to investigate reconcile the discrepancies. In addition, the auditor should also consider what further tests he can carry out in order to satisfy himself as to the correctness of the amount of creditors taken as a whole.

EXAMINATION OF DISCLOSURE

54. The auditor should satisfy himself that the liabilities have been disclosed properly in the financial statements. Where the relevant statute lays down any disclosure requirements in this behalf, the auditor should examine whether the same have been complied with.

55. In some cases loans are guaranteed by third parties in whose favour the assets of the entity are charged. The auditor should examine whether the disclosures concerning such loans are appropriate, e.g., they may be classified as secured with disclosure of the fact that the assets of the entity have been charged in favour of third parties which, in turn, have given guarantees to parties from whom loans have been obtained.

56. The auditor should recommend to the entity to disclose, in parentheses or in footnotes, the installments of term loans, if any, falling due for repayment within the next twelve months.

57. The auditor should examine that the following have been disclosed in respect of contingent liabilities:

- (a) nature of each contingent liability;
- (b) the uncertainties which may affect the future outcome;
- (c) an estimate of the financial effect or a statement that such estimate cannot be made.

ANALYTICAL REVIEW PROCEDURES

58. In addition to the audit procedures discussed above, the following analytical review procedures may often be helpful as a means of obtaining audit evidence regarding the various assertions:

- (a) comparison of closing balances of loans and borrowings, creditors, etc., with the corresponding figures for the previous year;
- (b) comparison of the relationship between current year creditor balances and the current year purchases with the corresponding figures for the previous year;
- (c) comparison of actual closing balances of loans and borrowings, creditors, etc., with the corresponding budgeted figures, if available;
- (d) comparison of current year's aging schedule of creditors with the corresponding figures for the previous year;
- (e) comparison of significant ratios relating to loans and borrowings, creditors, etc., with the similar ratios for other firms in the same industry, if available;
- (f) comparison of significant ratios relating to loans and borrowings, creditors, etc. with the

III.70 Auditing Pronouncements

industry norms, if available.

It may be clarified that the foregoing is only an illustrative list of analytical review procedures which an auditor may employ in carrying out an audit of liabilities. The exact nature of analytical review procedures to be applied in a specific situation is a matter of professional judgement of the auditor

Special Considerations in the Case of a Company

59. In addition to the procedures described above, the auditor should also employ the following procedures in the case of audit of a company.

- (a) In determining whether the loans obtained by the company are within its powers, the auditor should scrutinise its memorandum and articles of association and also examine whether the provisions of sections 292 and 293(1(d) of the Companies Act, 1956 are complied with.
- (b) The auditor should examine the register of charges to ensure that charges created have been duly registered. He should also ensure that the description of such charges disclosed in the balance sheet agrees in substance with that stated in the documents creating the charges.
- (c) The auditor should examine all loans taken from bodies corporate under the same management or from a company, firm or other party in which any director is interested and determine whether, in his opinion, the rate of interest and other terms and conditions of the loans are *prime facie* prejudicial to the interest of the company.¹⁰
- (d) Where the company has accepted deposits, the auditor should examine compliance with the relevant legal provisions, e.g., section 58A of the Companies Act, 1956 and the rules framed thereunder/directions issued by the Reserve Bank of India.
- (e) In respect of unclaimed dividends, the auditor should examine whether the company has complied with the provisions of section 205A of the Companies Act, 1956 and the rules framed thereunder regarding transfer of certain unpaid or unclaimed dividends to a special bank account/general revenue account of the Central Government.
- (f) The auditor should examine whether any undisputed amounts payable in respect of income-tax, wealth tax, sales tax, customs duty and excise duty are outstanding as at the balance sheet date for a period of more than six months from the date they became payable. If so, the auditor should report the amounts of such outstanding dues.¹¹
- (g) The verification procedure to be adopted by the auditor for audit of debentures would vary from year to year, depending upon whether fresh debentures are issued and/or they

¹⁰ Reference may also be made in this regard to the *Statement on the Companies (Auditor's Report) Order, 2003* issued by the Institute of Chartered Accountants of India.

¹¹ Reference may also be made in this regard to the *Statement on the Companies (Auditor's Report) Order, 2003 (Revised 2005)* issued by the Institute of Chartered Accountants of India.

are redeemed or converted into shares during the year. In case of fresh issue of debentures, the auditor should examine the memorandum and articles of association of the company and resolutions authorising the issue. He should also examine compliance with the requirements of the terms of issue and any variations thereof and necessary approvals/clearances for the issue from authorities concerned such as SEBI, RBI etc. The auditor should also examine that proper accounts are maintained with regard to amounts received towards application, allotment and calls and that the Payments by way of refunds/interest and all other relevant accounts are duly reconciled. Where debentures are issued at a premium/discount, the auditor should ensure that such sums are accounted for distinctly. In case of buy-back, conversion, re-issue or redemption of debentures, the auditor should examine that these are in accordance with the terms of the issue. The auditor should examine that the requirements relating to creation of debenture redemption reserve and, where applicable, sinking fund and its Investment; and other related requirements are complied with.

MANAGEMENT REPRESENTATIONS

60. The auditor should obtain from the management of the entity a written statement that all known liabilities have been recorded in the books and that all contingent liabilities have been properly disclosed. While such a representation letter serves as a formal acknowledgment of the management's responsibilities for proper accounting and disclosure of the relevant items, it does not relieve the auditor of his responsibility for performing audit procedures to obtain sufficient appropriate audit evidence to form the basis for the expression of his opinion on the financial statement. A sample management representation letter regarding liabilities and contingent liabilities is given in **Appendix III** to this Guidance Note. It may be mentioned that the representations made in the letter can alternatively be included in the composite representation letter usually issued by the management to the auditor.

DOCUMENTATION

61. The auditor should maintain adequate working papers regarding audit of liabilities and contingent liabilities. Among others, he should maintain on his audit file, confirmations received as well as any undelivered letters of request for confirmation. The management representation letter contingent liabilities and contingent liabilities should also be maintained on the audit file.

Appendix I

Illustrative Letter of Confirmation to be Sent to Creditors - Positive Form

[Ref. paragraph 46]

[Letterhead of Entity]

[Name and Address of Creditor]

[Date]

Dear Sir,

III.72 Auditing Pronouncements

For audit purposes, kindly confirm directly to our auditors (name and address of the auditors) that the balance of Rs. _____ due by us to you as on _____ as shown by our books, is correct. The details of the balance are as under:¹²

Invoice No.	Date	Order Reference	Amount
		Total	_____
		Less: Payments made/other debits	_____
		Net amount due to us (Rs.)	_____

A stamped envelope addressed to our auditors is enclosed for your convenience.

If the amount shown is in agreement with your books, kindly strike-out the paragraph marked (B) below. If the amount shown is not in agreement with your books, kindly furnish the details in the proforma given in the paragraph marked (B) below and strike-out paragraph (A). In either case, kindly sign at the place provided below and return this entire letter directly to our auditors in the enclosed envelope. Your prompt compliance with this request will be appreciated.

Kindly return this form in its entirety.

Yours faithfully,

(Signature of responsible official of the entity)

(Do not perforate the form at this point)

[Name and Address of Entity]

(A) We confirm that the above stated amount is correct as at _____

OR

(B) We state that the above-stated amount is not correct as per our records. The details of the balance as at _____ as per our records are as below:

Invoice No.	Date	Order Reference	Amount
		Total	_____

¹² In case the list of invoices forming the balance is too large, these details may not be given.

	Less: Payments made/other debits _____
	Net amount due to us (Rs.) _____
Date _____	

(Signature of creditor/responsible official)

Appendix II**Illustrative Letter of Confirmation to be Sent to Creditors - Negative Form***[Ref. paragraph 47]*

[Letterhead of Entity]

[Date]

[Name and Address of Creditor]

Dear Sir,

For audit purposes, kindly write directly to our auditors (name and address of the auditors) if the balance of Rs. _____ due by us to you as on _____ as shown by our books, is not correct, giving details of the differences. The details of the balance are as under:¹³

Invoice No.	Date	Order Reference	Amount
Total			_____
Less: Payments made/other debits			_____
Net amount due by us (Rs.)			_____

If you do not notify our auditors of any difference within ten days of the date of this letter, it will be presumed that the balance stated above is correct.

A stamped envelope addressed to our auditors is enclosed for your convenience.

Yours faithfully,

(Signature of responsible official of the entity)

¹³ In case the list of invoices forming the balance is too large, these details may not be given

**Illustrative Representation Letter for
Liabilities and Contingent Liabilities**

[Ref. paragraph 60]

The following is a sample representation letter for liabilities and contingent liabilities. It might be used to supplement the general letter of representation or included therein. The letter should be modified where appropriate.

[Letterhead of Entity]

[Date]

[Name and Address of the Auditor]

Dear Sir,

In connection with your audit of the financial statements of X Ltd. as of, 19....., and for the year then ended, we confirm, to the best of our knowledge and belief, the following representations:

1. We have recorded all known liabilities in the financial statements.
2. We have disclosed in notes to the financial statements all guarantees that we have given to third parties and all other contingent liabilities.
3. Contingent liabilities disclosed in the notes to the financial statements do not include any contingencies which are likely to result in a loss and which, therefore, require adjustment of assets or liabilities.
4. Provisions have been made in the accounts for all known losses and claims of material amounts.

Yours faithfully,

(Signature of responsible official of the entity)

GUIDANCE NOTE ON AUDIT OF REVENUE*

*The following is the text of the Guidance Note on Audit of Revenue issued by the Auditing Practices Committee (APC)** of the Council of the Institute of Chartered Accountants of India. This Guidance Note should be read in conjunction with the Statements on Standard Auditing Practices (SAPs)+ issued by the Institute.*

1. Para 2.1 of the 'Preface to the Statements on Standard Auditing Practices'¹, issued by the Institute of Chartered Accountants of India, states that the "main function of the APC is to review the existing auditing practices in India and to develop Statements on Standard Auditing Practices (SAPs) so that these may be issued by the Council of the Institute." Para 2.4 of the Preface states that the "APC will issue Guidance Notes on the issues arising from the SAPs wherever necessary."
2. The Auditing Practices Committee has also taken up the task of reviewing the Statements on auditing matters issued prior to the formation of the Committee. It is intended to issue, in due course of time, Engagement Standards or Guidance Notes, as appropriate, on the matters covered by such Statements which would then stand withdrawn. Accordingly, with the issuance of this Guidance Note on Audit of Revenue, paragraph 11.1 of Chapter 11 of the Statement on Auditing Practices, titled 'Profit and Loss Account', shall stand withdrawn. In due course of time, the entire Statement of Auditing Practices shall be withdrawn.²

INTRODUCTION

3. Revenue is the gross inflow of cash, receivables or other consideration arising in the course of the ordinary activities of an entity from the sale of goods, from the rendering of services, and from the use by others of entity resources yielding interest, royalties and dividends. Revenue is measured by the charges made to customers for goods supplied and services rendered to them and by the charges and rewards arising from the use of resources by them. The term 'revenue' covers only the gross inflow of cash, receivables or other consideration, as aforesaid, received or receivable by the entity on its own account. Amounts collected on behalf of third parties are excluded from revenue. For example, in an agency relationship, revenue from the view point of the agent is the amount of commission receivable by him and not the gross amount of cash, receivables or other consideration collected by him on behalf of the principal.

* Published in May, 1997 issue of 'The Chartered Accountant'.

** Now known as the Auditing and Assurance Standards Board (AASB).

+ Now known as the Engagement Standards.

¹ The said Preface has been withdrawn pursuant to issuance of the Revised "Preface to Standards on Quality Control, Auditing, Review, Other Assurance and Related Service", by the Institute of Chartered Accountants of India. The Revised Preface is effective from April 1, 2008. The text of the revised Preface is reproduced in the Vol-I of this Handbook.

² Since the Statement was withdrawn in March, 2005, the entire paragraph is redundant.

III.76 Auditing Pronouncements

4. This Guidance Note deals with the audit of the following types of revenue (dealt with in Accounting Standard (AS) 9, *Revenue Recognition*, issued by the Institute of Chartered Accountants of India) arising in the course of the ordinary activities of an entity:

- ◆ Sale of goods.
- ◆ Rendering of services.
- ◆ Use by others of entity resources yielding interest, royalties and dividends.

5. In any auditing situation, the auditor employs appropriate procedures to obtain reasonable assurance about various assertions (see Statement on Standard on Auditing (SA) 500, *Audit Evidence*). In carrying out an audit of revenue, the auditor is particularly concerned with obtaining sufficient appropriate audit evidence to corroborate the management's assertions regarding the following:

Occurrence –	that recorded revenue arose from transactions which took place during the relevant period and pertain to the entity.
Completeness –	that there is no unrecorded revenue.
Measurement –	that revenue is recorded in the proper amounts and is allocated to the proper period.
Presentation and Disclosure –	that revenue is disclosed, classified, and described in accordance with recognised accounting policies and practices and relevant statutory requirements, if any.

INTERNAL CONTROL EVALUATION

6. The auditor should study and evaluate the system of internal control relating to revenue, to determine the nature, timing and extent of his other audit procedures. He should particularly review the following aspects of internal control relating to revenue:³

- (a) The systems and procedures relating to generation of revenue including authority to fix prices, offer discounts and other terms of sale.
- (b) Accounting procedures relating to recognition of revenue.
- (c) Existence of periodic reports on actual performance vis-à-vis budgets.

VERIFICATION

7. Verification of revenue may be carried out by employing the following procedures:

- (a) examination of records;
- (b) analytical review procedures.

³ The extent of review of internal controls would depend upon the facts and circumstances of each case. Reference may be made in this regard to the "Internal Control Questionnaire" issued by the Institute of Chartered Accountants of India in 1976, which contains an illustrative list of internal controls in relation to sales.

The nature, timing and extent of substantive procedures to be performed is, however, a matter of professional judgment of the auditor which is based, *inter alia*, on the auditor's evaluation of the effectiveness of the related internal controls.

EXAMINATION OF RECORDS

8. The auditor should examine whether the basis of recognition of revenue by the entity is in accordance with the recognised accounting principles as laid down in Accounting Standard (AS) 9, *Revenue Recognition*, issued by the Institute of Chartered Accountants of India.

9. The auditor should examine whether the entity has instituted adequate cut-off procedures in relation to sales and sale returns. The objective of cut-off procedures is to ensure that the transactions pertaining to a period are recorded in that period and not in a preceding or subsequent period. The auditor should examine the efficacy of such procedures. The auditor can examine the despatch documents (such as railway receipts) pertaining to a few days immediately before the year-end and verify that the related sale invoices have been recorded as sales of the current year.

10. The auditor should examine selected entries in the sales journal with reference to the related sale invoices, dispatch documents and other supporting documents such as the customers' orders, credit approval notes, etc. He should compare the actual price charged with the authorised price lists or with the authorisation by the appropriate official of the entity, as the case may be. The auditor should also trace the selected entries to the customers' account.

11. The auditor should also examine selected despatch documents with reference to related sale invoices and the sales journal.

12. The auditor should examine selected entries in the sales return journal with reference to the receiving reports in respect of goods returned, credit notes and entries in the customers' accounts. Similarly, the auditor should examine selected credit notes with reference to entries in the sales return journal, receiving reports in respect of goods returned, and entries in the customers' accounts.

13. In respect of goods sent on approval, the auditor should particularly examine that revenue in respect of such goods is not recognised until (a) the goods have been formally accepted by the buyer, or (b) the buyer has done an act adopting the transaction, or (c) the time period for rejection has elapsed or where no time has been fixed, a reasonable time has elapsed.

14. In respect of sales to intermediate parties (i.e., where goods are sold to distributors, dealers or others for resale), the auditor should examine that revenue from such sales is not recognised until the significant risks and rewards of ownership have passed. However, in situations where an intermediate party is in substance an agent (e.g., a consignee), revenue

III.78 Auditing Pronouncements

should not be recognised until the related goods are sold to a third party.⁴

15. Where the consideration is receivable in installments and includes an element of interest, the auditor should examine that the revenue attributable to the sale excludes the interest element.

16. In respect of export sales, the auditor should carry out the following procedures in addition to the usual audit procedures applicable in respect of domestic sales.

- (a) The auditor should examine that revenue from export sales in which consideration is receivable in a foreign currency is recorded at an appropriate amount in accordance with Accounting Standard (AS) 11, *Accounting for the Effects of Changes in Foreign Exchange Rates*⁵.
- (b) The auditor should obtain a written representation from the management to the effect that the entity has complied with the legal and regulatory requirements relating to exports.⁶

17. In respect of revenue arising from services rendered (i.e., in the form of fees, commission, brokerage, etc.), the auditor should examine the related agreements and other documents. Similarly, in respect of revenue in the form of interest, dividends and royalties, the auditor should examine the related documents such as loan documents, lease agreements, etc. The auditor may also seek confirmatory certificates from the parties concerned.

18. The auditor should also verify realisations subsequent to the date of the balance sheet to identify items of unrecorded revenue.

EXAMINATION OF PRESENTATION AND DISCLOSURE

19. The auditor should satisfy himself that the revenue has been disclosed properly in the financial statements. Where the relevant statute lays down any disclosure requirements in this behalf, the auditor should examine whether the same have been complied with.

ANALYTICAL PROCEDURES

20. In addition to the audit procedures discussed above, the following analytical procedures may often be helpful as a means of obtaining audit evidence regarding the various assertions relating to revenue:

- (a) Comparison, product-wise and location-wise, of revenue for the current year with the corresponding figures for previous years.
- (b) Comparison of ratio of gross margin to sales for the current year with the corresponding figures for previous years.
- (c) Comparison of ratio of sales returns to sales for the current year with the corresponding

⁴ Reference may be made to AS 1, *Disclosure of Accounting Policies*, for discussion on the concept of "substance over form".

⁵ This Accounting Standard has been revised in 2003. The title of the revised Accounting Standard is "Effects of Changes in Foreign Exchange Rates".

⁶ Reference may be made in this regard to SA 580, "Representations by Management".

figures for previous years.

- (d) Comparison of ratio of trade discount to sales for the current year with the corresponding figures for previous years.
- (e) Comparison of ratio of excise duty/sales tax/export incentives to sales for the current year with the corresponding figures for previous years.
- (f) Comparison, product-wise and location-wise, of quantity sold during the year with the corresponding figures for previous years.
- (g) Product-wise reconciliation of quantity sold during the year with opening stock, purchases/production and closing stock.
- (h) Comparison of dividend/interest/royalty for the current year with the corresponding figures for previous years.
- (i) Comparison of ratio of income on investments to average investments for the current year (separately for each major type of investment) with the corresponding figures for previous years.

Apart from the above, the auditor may also work out quantitative ratios and reconciliations, e.g., he may relate the quantum of output to the quantum of input to judge its reasonableness. Similarly, he may relate the wage payments to the quantum of output, and so on.

It may be clarified that the foregoing is only an illustrative list of analytical procedures, which an auditor may employ in carrying out an audit of revenue. The exact nature of analytical procedures to be applied in a specific situation is a matter of professional judgment of the auditor.

SPECIAL CONSIDERATIONS IN THE CASE OF A COMPANY

21. In the case of audit of a company, in addition to the procedures described above, the auditor should also carry out appropriate audit procedures in respect of matters which are specifically required to be examined under the provisions of the Companies Act, 1956. For example, as required by the [Manufacturing and Other Companies (Auditor's Report) Order, 1988, issued under section 227(4A) of the Act, the auditor should examine whether the transactions of sale of goods, materials and services and purchase of goods and materials, made in pursuance of contracts or arrangements entered in the register(s) maintained under section 301 of the Act, and exceeding the limits specified in the Order, have been made at prices which are reasonable having regard to prevailing market prices for such goods, materials or services or the price at which transactions for similar goods or services have been made with other parties.^{7]}

DOCUMENTATION

22. The auditor should maintain adequate working papers regarding audit of revenue.

⁷ Reference may be made in this regard to Statement on Companies (Auditor's Report) Order, 2003 (Revised 2005).

GUIDANCE NOTE ON AUDIT OF EXPENSES*

Para 2.1 of the "Preface to the Statements on Standard Auditing Practices"¹ issued by the Institute of Chartered Accountants of India states that the "main function of the APC is to review the existing auditing practices in India and to develop Statements on Standard Auditing Practices (SAPs)" so that these may be issued by the Council of the Institute." Para 2.4 of the Preface states that the "APC will issue Guidance Notes on the issues arising from the SAPs wherever necessary."

The Auditing Practices Committee^{***} has also taken up the task of reviewing the Statements on auditing matters issued prior to the formation of the Committee. It is intended to issue, in due course of time, SAPs or Guidance Notes, as appropriate, on the matters covered by such Statements which would then stand withdrawn. Accordingly, with the issuance of this Guidance Note on Audit of Expenses, paragraphs 11.2-11.8 of Chapter 11 of the *Statement on Auditing Practices*, titled 'Profit and Loss Account', shall stand withdrawn. In due course of time, the entire *Statement on Auditing Practices* shall be withdrawn.²

The following is the text of the Guidance Note on "Audit of Expenses" issued by the Auditing Practices Committee of the Council of the Institute of Chartered Accountants of India. This Guidance Note should be read in conjunction with the Statements on Standard Auditing Practices issued by the Institute.

INTRODUCTION

1. An expense is a cost relating to the operations of an accounting period or to the revenue earned during the period or the benefits of which do not extend beyond that period. The expression "cost" means the amount of expenditure incurred on or attributable to a specified article, product or activity.

2. Expenses are recognised by the following approaches:

(a) *Identification with revenue transactions*

^{*} Published in November, 2001 issue of 'The Chartered Accountant'.

¹ The said Preface has been withdrawn pursuant to issuance of the Revised "Preface to Standards on Quality Control, Auditing, Review, Other Assurance and Related Service", by the Institute of Chartered Accountants of India. The Revised Preface is effective from April 1, 2008. The text of the revised Preface is reproduced in the Vol.I of this Handbook.

^{**} Now known as Engagement Standards.

^{***} Now known as Auditing and Assurance Standards Board.

² Since the Statement was withdrawn in March, 2005, the entire paragraph is redundant.

Costs directly associated with the revenue recognised during the relevant period are considered as expenses and are charged to income for the period.

(b) *Identification with a period of time*

In many cases, although some costs may have connection with the revenue for the period, the relationship is so indirect that it is impracticable to attempt to establish it. However, there is a clear identification with a period of time.³ Such costs are regarded as 'period costs' and are expensed in the relevant period, e.g., salaries, telephone, travelling, depreciation on office building, normal interest, etc. Similarly, the costs, the benefits of which, do not clearly extend beyond the accounting period are also charged as expenses.

3. The following features of expenses affect the nature, timing and extent of the related audit procedures:

- (a) In the case of most items of expenses, documentary evidence originating from third parties is available.
- (b) The nature and relative significance of various items of expenses usually differ from one enterprise to another, depending primarily on the nature of operations carried out by them. For example, in the case of most manufacturing enterprises, the principal items of expenses would include the cost of raw materials consumed, labour cost and other conversion costs. On the other hand, in the case of a trading enterprise, the principal items of expenses would generally be the cost of goods sold. In the case of an enterprise supplying, providing, maintaining and operating any services, the principal items of expense would include personnel and professional expenses, office maintenance, etc.
- (c) The amount of some expenses has a logical relationship with certain other financial statement items while the amount of some other expenses does not have such a relationship. For example, in an enterprise where the production process is standardised, the consumption of raw materials (and, therefore, the cost of raw materials consumed) has a logical relationship with the quantum of output. Similarly, the proportion of various constituents of cost of production is expected to remain more or less constant in the absence of known conditions to the contrary. Likewise, proportion of the amount of interest for a period to the amount of loans outstanding during the period is expected to vary within certain specific limits. On the other hand, the expenditure on research and development often has little relationship with other items in the financial statements.
- (d) The amount of some items of expenses (e.g., gratuity, taxes, bonus, etc.) is significantly affected by applicable laws.

4. In an audit, the auditor employs appropriate procedures to obtain reasonable assurance about various assertions (see SA 500, *Audit Evidence*). In carrying out an audit of expenses, the auditor is particularly concerned with obtaining sufficient appropriate audit evidence to corroborate the management's assertions regarding the following:

³ Reference may be made in this regard to Guidance Note on Accrual Basis of Accounting.

III.82 Auditing Pronouncements

Occurrence	that recorded expenses arose from transactions or events that place during the relevant period and pertain to the entity.
Completeness	that there are no unrecorded expenses.
Measurement	that expenses are recorded in the proper amounts and are allocated to the proper period.
Presentation and Disclosure	that expenses are disclosed, classified, and described in accordance with recognised accounting policies and practices and relevant statutory requirements, if any.

5. In view of the divergence in the nature of expenses incurred by different enterprises, it is not possible to describe the audit procedures applicable in carrying out an audit of expenses in all situations. This Guidance Note provides guidance on procedures to be employed in carrying out an audit of expenses which would be applicable in the case of most enterprises. It is recognised, however, that audit procedures different from or additional to those described in this Guidance Note may be necessary in a particular case, depending upon its specific facts and circumstances.

INTERNAL CONTROL EVALUATION

6. The auditor should study and evaluate the system of internal control relating to expenses, to determine the nature, timing and extent of his other audit procedures. He should particularly review the following aspects of internal control relating to expenses:⁴

- (a) The systems and procedures relating to incurring of expenses including authorisation procedures.
- (b) Accounting procedures relating to recognition of expenses.
- (c) Existence of periodic reports on actual performance *vis a vis* budgets and internal management reports, if any.

VERIFICATION

7. Verification of expenses may be carried out by employing the procedures, *viz.*, (a) examination of records; and (b) analytical procedures. The nature, timing and extent of substantive procedures to be performed is, however, a matter of professional judgment of the auditor which is based, *inter alia*, on the auditor's evaluation of the effectiveness of the related internal controls. The auditor should examine whether the basis of recognition of expenses by the entity is in accordance with the recognised accounting principles.

⁴The extent of review of internal controls would depend upon the facts and circumstances of each case. Reference may be made in this regard to the "Internal Control Questionnaire", issued by the Institute of Chartered Accountants of India in 1976 which contains, *inter alia*, an illustrative list of internal controls in relation to petty cash, cash and bank payments, salaries and wages and purchases.

(a) Examination of Records

8. Examination of records and documents is one of the most important techniques of auditing. An auditor has to examine a large number of documents in the course of an audit since most transactions are supported only by documentary evidence. The accounting systems of business enterprises are so designed that documentary evidence is created in respect of each transaction. The auditor should carry out an examination of the relevant records to satisfy himself about the validity, accuracy and other assertions with regard to various expenses incurred by the entity. The extent of such examination would depend on the auditor's evaluation of the efficacy of internal controls.

(b) Analytical Procedures

9. The auditor should conduct analytical procedures which involve analysis of significant ratios and trends, including the resulting investigation of fluctuations and relationships that are inconsistent with other relevant information or which deviate from predicted amounts.⁵

10. The following paragraphs describe the audit procedures applicable in respect of various items of expenses.

GOODS AND RAW MATERIALS CONSUMED

11. The auditor's examination of the cost of goods, stores and materials consumed during the year would involve, *inter alia*, examination of purchases of goods and materials made during the year as well as of purchase returns and of opening and closing inventories.

PURCHASES AND PURCHASE RETURNS

12. The auditor should examine whether the entity has instituted adequate cut-off procedures in relation to purchases and purchase returns. The objective of cut-off procedures is to ensure that the transactions pertaining to a period are recorded in that period and not in a preceding or subsequent period. The auditor should examine the efficacy of such procedures. The auditor can examine the selected receipt documents (such as goods received notes) pertaining to a few days immediately before the year-end and verify that the related purchase invoices have been recorded as purchases of the current year. The auditor should pay particular attention to the cut-off procedures relating to purchases, both indigenous and imported, to determine whether these procedures ensure recognition of purchases at the time the significant risks and rewards of ownership of the related goods pass on to the entity.

13. The auditor should examine selected entries in the purchase journal with reference to the related purchase invoices, receipt records and other supporting documents such as the purchase orders. The auditor should also trace the selected entries to the suppliers' account.

14. While examining purchase invoices, the auditor should examine whether subsidies, rebates, duty drawbacks or other similar items have been properly accounted for. As per AS 2, costs of purchase consist of the purchase price including duties and taxes (other than those

⁵ Refer to Standard on Auditing (SA) 520, "Analytical Procedures".

III.84 Auditing Pronouncements

subsequently recoverable by the enterprise from the taxing authorities), freight inwards and other expenditure directly attributable to the acquisition. Trade discounts, rebates, duty drawbacks and other similar items are deducted in determining the costs of purchase.

15. The auditor should also examine selected receipt records with reference to related purchase invoices and the purchase journal.

16. The auditor should examine selected entries of purchase returns with reference to the goods returned notes, debit notes and entries in the suppliers' accounts. Similarly, the auditor should examine selected debit notes with reference to purchase returns, goods returned notes, and entries in the suppliers' accounts.

17. In case of transactions between related parties, the auditor should pay special attention to nature and description of such transactions.⁶

18. The auditor should obtain a representation from the management to the effect that the entity has complied with the legal and regulatory requirements, if any. When the auditor becomes aware of non-compliance, the auditor should obtain sufficient information to evaluate the possible effect in the financial statements. The auditor should also consider communication/reporting of non-compliance with the management including audit committee, users of financial statements and to regulatory authorities, as may be appropriate.⁷

19. In respect of imports, the auditor should carry out the following procedures in addition to the usual audit procedures applicable in respect of domestic purchases.

- (a) Besides examining the usual documents relating to purchases, the auditor should also examine such documents as bill of lading, custom documents, etc., which are specific to import transactions.
- (b) The auditor should pay special attention to the terms of import relating to the incidence of charges like insurance and freight, i.e., whether the imports are on C.I.F. basis, or F.O.B. basis, or some other basis.
- (c) The auditor should examine that imports for which consideration is payable in a foreign currency are recorded at an appropriate amount in accordance with Accounting Standard (AS) 11, *Accounting for the Effects of Changes in Foreign Exchange Rates*.

20. In addition to the audit procedures discussed above, the following analytical procedures may often be helpful as a means of obtaining audit evidence regarding the various assertions relating to purchases.

- (a) Comparison, item-wise and location-wise, both quantity and value, of purchases for the current year/period with the corresponding figures for previous years/periods.
- (b) Comparison of ratio of gross margin to sales for the current year/period with the corresponding figures for previous years/periods.

⁶ Refer to Accounting Standard (AS) 18, "Related Party Disclosures".

⁷ Refer to Standard on Auditing (SA) 250, "Consideration of Laws and Regulations in an Audit of Financial Statements".

- (c) Comparison of ratio of purchase returns to purchases for the current year/period with the corresponding figures for previous years/periods.
- (d) Product-wise reconciliation of quantity sold during the year/period with opening stock, purchases/production and closing stock.

Apart from the above, the auditor may also work out quantitative ratios and reconciliations, e.g., he may relate the quantum of output to the quantum of input to judge its reasonableness. In case segment information is available, the above procedures may be carried out for each segment.

21. The auditor should also verify payments subsequent to the date of the balance sheet to identify any purchases which have not been recorded in the books of account.

Wages and Salaries

22. The auditor should examine the entries in the payroll/wage sheets with reference to relevant records, e.g., employee's records maintained by the personnel department showing details of pay such as basic pay, allowances, annual increments, leaves availed, etc. Special attention may also be paid by auditor in respect of new employees joining the entity during the year. Similarly, the payroll may also be examined with reference to the time records/attendance records and leave records maintained by the personnel department. The deductions made in respect of income-tax, provident fund, Employees' State Insurance (ESI), welfare schemes, health schemes, etc., may be examined with reference to the returns submitted to the authorities concerned and the receipts/acknowledgments issued by such authorities.

23. The auditor should examine whether any legal, regulatory or contractual requirements having a bearing on the rate or amount of wages and salaries have been complied with. Similar considerations would also apply to payments made to a contractor for hire of labour. Such requirements would include, *inter alia*, the provisions of the Minimum Wages Act, 1948, agreement with the employees, award of competent authority and judicial rulings.

24. In the case of senior management officials, the auditor should pay particular attention to determining whether the salaries payable are as per the terms of contract with the employees concerned. Special requirements of terms of contract such as granting stock options (as per schemes formulated by SEBI), availing leave encashment, total amount payable annually including ex-gratia, etc., should be specifically looked into.

25. In the case of casual labour, besides carrying out the other audit procedures, the auditor should specifically examine the sanction of the competent authority for employment of such labour and ascertain whether such employees are retained as per the time rate or piece-rate basis. In appropriate cases, the auditor may pay a surprise visit to the sites where the casual labour is employed to assess the correctness of the attendance records maintained in respect of such labour. In cases where complete outsourcing of labour has been given to an outside agency, the terms of agreement and compliance thereof would be examined.

III.86 Auditing Pronouncements

26. The auditor should obtain a list of employees who have retired or otherwise left the services of the entity during the period under audit and examine that they have not been included in the payroll.

27. In addition to the audit procedures discussed above, the following analytical procedures may often be helpful as a means of obtaining audit evidence regarding the various assertions relating to wages and salaries:

- (a) comparison of wage bill for the year/period with the wage bill of previous years/periods;
- (b) comparison of the monthly wages and salaries of a month with other months during the year/period and with the corresponding month of the previous years/periods;
- (c) comparison of the wage bill for each department/unit for the current year/period with the corresponding figures for previous years/periods;
- (d) comparison of the ratios of wages and salaries to sales for the current year/period with the corresponding figures for the previous years/periods;
- (e) comparison of the ratio of wages and salaries to cost of production for the current year/period with the corresponding figures for previous years/periods;
- (f) comparison of the ratio of contribution towards provident fund to wages and salaries for the current year/period with the corresponding figures for previous years/periods;
- (g) comparison of the ratio of contribution towards provident fund to wages and salaries for the current year/period with the rate(s) of contribution specified under the law governing provident fund;
- (h) comparison of the ratio of contribution towards ESI to wages and salaries for the current year/period with the corresponding figure for previous years/periods;
- (i) comparison of the ratio of contribution towards ESI to wages and salaries for the current year/period with the rate(s) of contribution specified under the law governing the ESI.

Bonus

28. In the case of provision for bonus, the auditor should examine whether the liability is provided for in accordance with the Payment of Bonus Act, 1965, and/or agreement with the employees or award of competent authority. Where the bonus actually paid is in excess of the amount required to be paid as per the provisions of the applicable law/agreement/award, the auditor should specifically examine the authority for the same (e.g., resolution of the board of directors in the case of a company).

Retirement Benefits

29. The auditor should examine whether the entity is liable to pay any retirement benefits to its employees such as provident fund, superannuation/pension, gratuity, etc., whether in pursuance of requirements of any law and/or in terms of agreement with the employees⁸. If so, the auditor should examine whether the amount payable has been computed in accordance

⁸ Attention is invited in this regard to Accounting Standard (AS) 15, "Accounting for Employees Benefits".

with the relevant legal and/or contractual requirements. In respect of gratuity/pension, the auditor should specifically examine whether the provision for accruing gratuity/pension liability has been made by the entity. The auditor should examine the adequacy of provision with reference to the actuarial certificate obtained by the entity⁹. In case the entity has not obtained such an actuarial certificate, the auditor should examine that the method followed by it, say, group gratuity insurance scheme taken by the entity, for calculating the accrued liability for gratuity is rational.

Other Conversion Costs

30. The auditor should verify the other conversion costs (such as power and fuel, processing charges, etc.) with reference to the supporting documents and related agreements. In case the material is sent outside to third parties for processing, necessary charges including existence of materials, wastage, etc., need to be ascertained and accounted for. In addition, the auditor may also compare the amount of expense on a particular item with the corresponding figure for previous years. Similarly, he may work out the ratios of different items of conversion costs to total cost of production for the current year and compare the same with the corresponding figures for previous years.

Establishment and General Administrative Expenses

31. The auditor should verify establishment expenses and general administrative expenses such as insurance, rent, rates, conveyance, travelling, telephone, entertainment, printing and stationery, general expenses, etc., with reference to the sanction of the competent authority, the supporting documents, related agreements and the rules and regulations followed by the entity. The auditor may also compare the amounts of these expenses with the corresponding figures for previous years. Similarly, he may work out the ratios of different items of expenses to sales for the current year and compare the same with the corresponding figures for previous years.

Interest and Financial charges

32. The auditor should verify the amount of interest expense for the year with reference to the terms and conditions of relevant agreements. The auditor may also work out the ratio of interest expense for the year to average interest-bearing loans and advances outstanding during the year and compare it with the corresponding figure for previous years and reconcile the same. The auditor should particularly examine that interest as well as other financing costs such as commitment fees on funds borrowed for a qualifying asset included in the gross book value of the asset to which they relate and have not been charged to the Profit and Loss Account of the period in which they are incurred¹⁰. If the entity has paid any penal interest, it should also be examined. Such interest should be disclosed as part of normal interest. The auditor should consider, having regard to the materiality, whether it requires separate disclosure.

⁹Attention is also invited in this regard to Standard on Auditing (SA) 620, "Using the Work of an Expert".

¹⁰ Attention is invited in this regard to Accounting Standard (AS) 16, "Borrowing Costs".

DEPRECIATION

33. The auditor should check the calculation of depreciation. The total depreciation arrived at should be compared with that of previous years to identify reasons for variations. The auditor should particularly examine whether the depreciation charge having regard to rate of depreciation and method of depreciation followed consistently is adequate keeping in view the generally accepted bases of accounting for depreciation¹¹. Alternatively, the auditor may consider qualifying his report. In case, assets have been revalued by entity during the year, the auditor should ensure that the depreciation has been computed properly.

RESEARCH AND DEVELOPMENT EXPENSES

34. The auditor should verify various items of expenses incurred on research and development with reference to supporting documents and related agreements. For example, the cost of materials consumed for research and development may be verified with reference to such documents as purchase invoices, goods received notes, records relating to issue of materials, etc. The auditor should particularly examine whether the accounting policy followed by the entity regarding treatment of research and development costs is in accordance with Accounting Standard (AS) 8, "Accounting for Research and Development".

35. The auditor should examine whether the deferral meets the appropriate legal requirements, if any. If an accounting policy for deferral of research and developments is adopted, it should be applied to all such projects which meet the criteria laid down for deferral under AS 8. The auditor should examine whether the criteria laid down in AS 8 which previously justified the deferral of certain research and development costs no longer apply, the unamortised balance has been charged as an expense of the year. Similarly, the auditor should examine that where the criteria for deferral continue to be met but the amount of unamortised balance of the deferred research and development costs and other relevant costs exceed the expected future revenues/benefits related thereto, such excess has been charged as an expense immediately.

REPAIRS AND MAINTENANCE

36. The auditor should scrutinise the repairs and maintenance account to ascertain that new fixed assets and substantial improvements to existing assets have not been included in repairs and maintenance. The auditor should exercise special care particularly in case large amounts charged to the Profit and Loss Account.

CONTINGENCIES

37. In respect of product warranties, service contracts, performance warranties, etc., the auditor should examine whether provisions have been made in accordance with Accounting Standard (AS) 4, "Contingencies and Events Occurring After the Balance Sheet Date". The auditor should also examine the reasonableness of the basis adopted for quantifying the provision with reference to the relevant agreements and the assessment based on his past experience.

¹¹ Attention is also drawn to Accounting Standard (AS) 6, "Depreciation Accounting".

TAXES ON INCOME

38. The auditor should examine that tax expense or tax saving has been properly computed and disclosed in the financial statements¹². The tax expense for the period which comprises current tax and deferred tax is to be included in the determination of net profit or loss for the period under audit. In case of companies attracting minimum alternate tax, it has to be ensured that proper provision has been considered in the accounts. The auditor should examine that the deferred taxes have been recognised for all timing differences subject to consideration of prudence in respect of deferred tax assets as set out in Accounting Standard (AS) 22, *Accounting for Taxes on Income*. If there is a material departure from the provisions of AS 22, the auditor should qualify his report.

39. In respect of assessments completed, revised or rectified during the year, the auditor should examine whether suitable adjustments have been made in respect of additional demands or refunds, as the case may be. The relevant orders received up to the time of audit should be considered and, on this basis, it should be examined whether adjustment is required in the financial statements.

40. If the entity disputes its liability in regard to demands raised, the auditor should examine whether there is a positive evidence or action on the part of the entity to show that it has not accepted the demand for payment of tax or duty, e.g., where it has gone into appeal under relevant provisions of the Income-tax Act, 1961. Where an application for rectification of mistake has been made by the entity, the amount should be regarded as disputed. Where the demand notice/intimation for the payment of tax is for a certain amount and the dispute relates to only a part and not the whole of the amount, only such amount should be treated as disputed. A disputed tax liability may require a provision or suitable disclosure (see Accounting Standard 4, *Contingencies and Events Occurring After the Balance Sheet Date*). In determining whether a provision is required, the auditor should, among other procedures, make appropriate inquiries of management, review minutes of the meetings of the board of directors and correspondence with the entity's lawyers, and obtain appropriate management representations.

41. The auditor should obtain from the management, a statement showing the status of pending tax matters. He should examine the statements to assess the adequacy of provisions made in respect of those matters in the context of their current status.

SPECIAL CONSIDERATIONS IN THE CASE OF A COMPANY

42. *In the case of audit of a company, in addition to the procedures described above, the auditor should also carry out appropriate audit procedures in respect of matters which are specifically required to be examined under the provisions of the Companies Act, 1956. Some of the illustrative procedures specifically applicable in the case of audit of a company are described below. It may be clarified that the following is not an exhaustive list of additional procedures to be carried out in the case of audit of expenses in the case of a company.*

¹² Attention is drawn to Accounting Standard (AS) 22, "Accounting for Taxes on Income".

III.90 Auditing Pronouncements

- (a) The auditor should examine whether the managerial remuneration paid or payable by the company is within the limits laid down under section 198 and Schedule XIII to the Companies Act, 1956. The auditor should also examine whether the remuneration paid or payable to the directors of the company, including any managing or whole-time director, has been determined by the Articles of Association of the company or by a resolution of the company passed in a general meeting. The auditor should also examine whether the remuneration of directors complies with the provisions of section 309 of the Companies Act, 1956. The auditor should further examine whether the computation of net profit for purposes of managerial remuneration is in accordance with sections 349 and 350 of the Companies Act, 1956.
- (b) The auditor should examine whether the contributions, if any, made by the company to charitable and other funds not directly relating to the business of the company or the welfare of its employees comply with the provisions of section 293 of the Companies Act, 1956. According to this section, the board of directors of a public company cannot, except with the consent of the company in general meeting, contribute to charitable and other funds not directly relating to the business of the company or the welfare of its employees, any amounts the aggregate of which will, in any financial year, exceed Rs.50,000 or 5 per cent of the average net profits of the company as determined in accordance with the provisions of section 349 and section 350 during the three financial years immediately preceding, whichever is greater. The auditor should examine whether the Memorandum of Association of the company empowers it to make contributions to charitable or other funds not directly relating to the business of the company or the welfare of its employees. If the objects clause in the Memorandum does not contain such authority, the company has no power to make such contributions.

The auditor should ask the management to prepare a schedule of contributions to various funds covered by section 293 made during the year, giving the names of the institutions to which contributions have been made, the amounts paid and the dates on which the contributions were approved by the board of directors. He should also ask the management to prepare a computation showing the limits of permissible contributions which can be made under this section.

- (c) The auditor should examine whether political contributions made by the company are within the limit prescribed in section 293A of the Companies Act, 1956.¹³ Where the limit laid down under section 293A is adhered to and the facts are properly disclosed, the auditor has no further duty. Where, however, the facts regarding such contributions are not properly disclosed, the auditor should qualify his report and state the facts therein. Where the auditor has genuine doubt regarding the applicability of the Section, he should ensure that the fact is properly disclosed in his audit report.

Where the auditor is satisfied that political contributions have been made in excess of the limit prescribed in section 293A, he should bring this to the attention of the shareholders

¹³ Reference may be made in this regard to the Guidance Note on Section 293A of the Companies Act, 1956 and the Auditor.

by qualifying his audit report and making a mention of the excess amount involved, if ascertainable.

The auditor should obtain a certificate from company's board of directors to the effect that all amounts of contributions to political parties or for any political purpose to any person falling under the provisions of section 293A have been brought into the books of account of the company and that no amounts of such nature other than those so included in the books have been paid/given, directly or indirectly.

- (d) The auditor should examine whether the contribution, if any, to the National Defence Fund or any other fund approved by the Central Government for the purpose of national defence complies with the provisions of section 293B of the Companies Act, 1956. This section empowers the board of directors to make such contributions. It may be noted that unlike the contributions to charitable or other funds not directly relating to the business of the company or to the welfare of its employees, contributions to National Defence Fund (or other similar funds) can be made by a company even where the Memorandum of Association of the company does not specifically empower it in this regard. The auditor should examine whether the total amount or amounts contributed by the company to the National Defence Fund (or other similar funds) during the year have been suitably disclosed in the profit and loss account.
- (e) In respect of payments to sole-selling agents, the auditor should examine whether the provisions of sections 294, 294A and 294AA have been complied with.
- (f) The auditor should examine whether the provisions of section 297 have been complied with in appropriate cases. He should also examine compliance with the terms and conditions, if any, stipulated by the Central Government in its approval under the proviso to sub-section (1) of section 297.
- (g) In case any partner or relative of a director of the company, any firm in which such director, or relative of such director, is a partner, any private company of which such director is a director or member, or any director, or manager of such a private company, holds any office or place of profit under the company or under any subsidiary of the company, the auditor should examine whether the provisions of section 314 have been complied with.
- (h) The auditor should examine whether any personal expenses have been charged to revenue account.
- (i) The auditor should examine whether the transaction of purchase of goods and materials and services, made in pursuance of contracts or arrangements entered in the register(s) maintained under section 301 of the Companies Act, 1956, as aggregating during the year to Rs.50,000[@] (Rupees Fifty Thousand) or more in respect of each party, have been made at prices which are reasonable having regard to prevailing market prices for such

[@] This limit has been enhanced to Rs. five lacs by the Companies (Auditor's Report) Order, 2003.

III.92 Auditing Pronouncements

goods, materials and services or the prices at which transaction for similar goods or service have been made with other parties.¹⁴

- (j) The auditor should examine whether any undisputed amounts payable in respect of income tax, wealth tax, sales tax, customs duty and excise duty were outstanding as at the last day of financial year concerned, for a period of more than six months from the date they became payable have been reported under MAOCARO, 1988@@.

EXAMINATION OF PRESENTATION AND DISCLOSURE

43. The auditor should satisfy himself that the expenses have been properly classified and disclosed in the financial statements. Where the relevant statute lays down any disclosure requirements in this behalf, the auditor should examine whether the same have been complied with.

MANAGEMENT REPRESENTATION

44. The auditor should consider obtaining a management representation on expenses charged to the statement of profit or loss when other sufficient appropriate audit evidence cannot reasonably be expected to exist.¹⁵

DOCUMENTATION

45. The auditor should maintain adequate working papers regarding audit of expenses.¹⁶

¹⁴ Reference may be made in this regard to the Statement on the Companies (Auditor's Report) Order, 2003 (Revised in 2005).

@@ Replaced by the Companies (Auditor's Report) Order, 2003.

¹⁵ Reference may be made in this regard to Standard on Auditing (SA) 580, "Representation by Management".

¹⁶ Reference may be made in this regard to Standard on Auditing (SA) 230, "Documentation".

GUIDANCE NOTE ON SECTION 227(3)(e) AND (f) OF THE COMPANIES ACT, 1956 [REVISED]*

INTRODUCTION

1. Section 227 of the Companies Act, 1956 (hereinafter referred to as the "Act") deals with the powers and duties of the auditors of companies. Section 227(1A) of the Act requires the auditor to make certain specific enquiries during the course of audit. Section 227(2) of the Act requires the auditor, *inter alia*, to give his report to the members of company on the accounts examined by him, and on every balance sheet and profit and loss account and every document declared to be a part of or annexed to such balance sheet or profit and loss account which are laid before the company in a general meeting during the tenure of the auditor's office. Sub-section (3) of section 227 of the Act also lays down certain matters necessarily required to be reported upon by the auditor in his report. The auditor is also required to include a statement on the matters specified in the Companies (Auditor's Report) Order, 2003 (Revised 2005) (hereinafter referred to as "CARO, 2003"), issued under section 227(4A) of the Act. Sub-section (3) of section 227 of Act provides as follows:

- "(3) The auditor's report shall also state -
- (a) whether he has obtained all the information and explanations, which to the best of his knowledge and belief, were necessary for the purposes of his audit;
 - (b) whether, in his opinion, proper books of account, as required by law, have been kept by the company so far as appears from his examination of those books, and proper returns adequate for the purposes of his audit have been received from branches not visited by him;
 - (bb) whether the report on the accounts of any branch office audited under section 228 by a person other than the company's auditor has been forwarded to him as required by clause (c) of sub-section (3) of that section and how he has dealt with the same in preparing the auditor's report;
 - (c) whether the company's balance sheet and profit and loss account dealt with by the report are in agreement with the books of account and returns;
 - (d) whether, in his opinion, the profit and loss account and balance sheet comply with the accounting standards referred to in sub-section (3C) of section 211;
 - (e) in thick type or in italics the observations or comments of the auditors which have any adverse effect on the functioning of the company;

* Issued in March, 2001.

III.94 Auditing Pronouncements

- (f) whether any director is disqualified from being appointed as director under clause (g) of sub-section (1) of section 274;
 - (g) whether the cess payable under section 441A has been paid and if not, the details of the amount of cess not paid.¹
2. In terms of reporting requirements under sub-sections (2) and (3) of section 227 of the Act, matters on which the auditor has to report upon, can be broadly divided into two categories as under:
- (i) statements of fact; and
 - (ii) opinions.
3. The statements of fact are:
- (i) whether he has obtained all the information and explanations which to the best of his knowledge and belief were necessary for the purposes of his audit;
 - (ii) whether the report on the accounts of any branch office audited under section 228 by a person other than the company's auditors has been forwarded to him as required by section 228(3)(c) and how he has dealt with the same in preparing the auditor's report;
 - (iii) whether the company's balance sheet and profit and loss account dealt with by the report are in agreement with the books of account and returns;
 - (iv) whether any director is disqualified from being appointed as a director under clause (g) of sub-section (1) of section 274; and
 - (v) whether the cess payable under section 441A has been paid and if not, the details of the amount of cess not paid.
4. The opinions which the auditor is required to express are:
- (i) whether proper books of account as required by law have been kept by the company so far as it appears from the examination of the books and proper returns adequate for the purposes of the audit have been received from branches not visited by him;
 - (ii) whether the profit and loss account and balance sheet comply with the accounting standards referred to in sub-section (3C) of section 211;
 - (iii) whether the accounts give the information required by the Act in the manner so required; and
 - (iv) whether the accounts give a true and fair view, in the case of the balance sheet of the state of the company's affairs, and in the case of the profit and loss account, of the profit or loss for the year.

SCOPE OF THE GUIDANCE NOTE

5. This Guidance Note is intended to assist the auditors in discharging their duties in respect of clauses (e) and (f) of sub-section (3) of section 227 of the Act. Clause (e) of the

¹ Inserted by the Companies (Second Amendment) Act, 2002.

said sub-section creates a requirement for the auditor to consider whether any matter leading to the modification of the auditor's report on financial statements is likely to have an adverse effect on the functioning of the company. It may be noted that the matters that lead to modification in the auditor's report on financial statements are an emphasis of matter paragraph, qualification, situation giving rise to limitation on scope and disagreement with the management². If the matter leading to the modification of the auditor's report on financial statements is likely to have an adverse effect on the functioning of the company, the auditor is required to highlight such matter in **thick** type or in *italics*. Under clause (f) of sub-section (3) of section 227 of the Act, the auditor is required to state whether any director of the company is disqualified from being appointed a director of a company in terms of clause (g) of sub-section (1) of section 274 of the Act.

REPORTING UNDER SECTION 227(3)(E) OF THE ACT

6. The relevant extracts of section 227(3)(e) of the Act are reproduced below:

“3. *The auditor's report shall also state –*

.....
(e) in thick type or in italics, the observations or comments of the auditors, which have any adverse effect on the functioning of the company”.

7. Clause (e) requires the auditor to highlight "in thick type or in italics, the observations or comments which have any adverse effect on the functioning of the company". An auditor's report may contain matters leading to modifications in the auditor's report on financial statements. Such matters may be related to issues which may have an adverse effect on the functioning of the company. The words "observations" or "comments" as appearing in clause (e) of section 227(3) are construed to have the same meaning as referring to "emphasis of matter paragraphs, qualifications, situations giving rise to limitation on scope, disagreements with the management leading to modification in the auditors report". Therefore, only such "observations" or "comments" which have an adverse effect on the functioning of the company are required to be stated in thick type or in italics. For the sake of clarity, it may be noted that neither the auditor's observations nor the comments made by him have any adverse effect on the functioning of a company. Instead, these observations or comments made by the auditor might contain matters which might have an adverse effect on the functioning of a company.

8. The Act does not specify the meaning of the phrase 'adverse effect on the functioning of the company'. The expression may be interpreted to mean that any event affecting the functioning of the company, observed by the auditor, should be reported upon even though it does not affect the financial statements, e.g., revocation of a license to manufacture one out of the many products during the year to which the financial statements relate, etc. However, such an interpretation would not only be beyond the scope of the audit of financial statements of the company but would also not be in accordance with the objective and concept of audit stipulated under the Act. A more logical and harmonious interpretation is that the amendment

² Reference may be made to paragraphs 31 through 47 of Standard on Auditing (SA) 700, "The Auditor's Report on Financial Statements."

does not intend to change the basic objective and the concept of audit of financial statements of a company, which is to examine the financial statements with a view to express an opinion thereon.

9. The scope of the audit and auditor's role remains as contemplated under the Engagement Standards and other relevant pronouncements issued by the Institute of Chartered Accountants of India as well as laid down in the Act, i.e., to lend credibility to the financial statements by reporting whether they reflect a true and fair view. SA 200A, "Objective and Scope of the Audit of Financial Statements" specifies, "the auditor's opinion helps determination of the true and fair view of the financial position and operating results of an enterprise. The user, however, should not assume that the auditor's opinion is an assurance as to the future viability of the enterprise or the efficiency or effectiveness with which management has conducted the affairs of the enterprise". It also states, "the auditor's work involves exercise of judgement, for example, in deciding the extent of audit procedures and in assessing the reasonableness of the judgements and estimates made by management in preparing the financial statements. Furthermore, much of the evidence available to the auditor can enable him to draw only reasonable conclusions therefrom. Because of these factors, absolute certainty in auditing is rarely attainable". Further, it also clarifies that "in forming his opinion on the financial statements, the auditor follows procedures designed to satisfy himself that the financial statements reflect a true and fair view of the financial position and operating results of the enterprise. The auditor recognises that because of the test nature and other inherent limitations of an audit, together with the inherent limitations of any system of internal control, there is an unavoidable risk that some material misstatement may remain undiscovered. While in many situations the discovery of a material misstatement by management may often arise during the conduct of the audit, such discovery is not the main objective of audit nor is the auditor's programme of work specifically designed for such discovery".

10. There is no change in the objective and scope of an audit of financial statements because of inclusion of clause (e) in sub-section (3) of section 227 of the Act. The auditor expresses his opinion on the true and fair view presented by the financial statements through his report which may be modified in certain circumstances. However, the auditor would now have to evaluate subject matters leading to modification of the audit report to make judgement as to which of them has an adverse effect on the functioning of the company within the overall context of audit of financial statements of the company. Only such matters, which in the opinion of the auditor, deal with matters that have an adverse effect on the functioning of the company should be given in **thick** type or in *italics*. Conversely, such qualifications or adverse remarks of the auditor, which do not deal with matters that have adverse effect on the functioning of the company, need not be given in **thick** type or in *italics*. Examples of qualifications or adverse comments which have an adverse effect on the functioning of the company include a situation where the going concern assumption is considered inappropriate or there exists any item having a significant impact on the current financial results of the company and which might also have a material effect on the future results of the entity, e.g., non-determination of obsolete stocks / bad debts, significant impairment of the assets, etc.

11. As far as inquiries under section 227(1A) are concerned, the auditor is not required to report on these matters unless he has any special comments to make on any of the items referred to therein. The auditor may also consider highlighting such comments in **thick** type or in *italics* which have any adverse effect on the functioning of the company. Another issue which arises is whether any observation or comment made by the auditor in respect of his statements on matters specified in CARO, 2003 issued under section 227(4A) of the Act, which has any adverse effect on the functioning of the company, should also be reported in terms of this clause. In this regard, it is noted that section 227(4A) of the Act treats the comments on the matters specified in CARO, 2003 as a part of the auditor's report. Accordingly, any observation or comment made by the auditor in his report under CARO, 2003 contain such matters, which, in his opinion, will have any adverse effect on the functioning of the company, should also be reported in **thick** type or *italics* as required by this clause. An example in this regard may be where an auditor in respect of paragraph 4(i)(c) of CARO, 2003 reports that there exists a substantial doubt that without the replacement of significant part of fixed assets sold during the year, the company would be able to continue as a going concern for the foreseeable future.

Reporting under Section 227(3)(f) of the Act

12. Clause (f) of section 227(3) of the Companies Act, 1956, is reproduced below:

"227(3) The auditor's report shall also state –

.....

(f) whether any director is disqualified from being appointed as a director under clause (g) of sub-section (1) of section 274."

13. In order to report upon clause (f) of sub-section (3) of section 227 of the Act, it is essential that the auditor understands the requirements of clause (g) of sub-section (1) of section 274 of the Act. The relevant extracts of section 274(1)(g) referred to in clause (f) of section 227(3), are reproduced below:

"274(1) A person shall not be capable of being appointed director of a company, if—

.....

(g) such person is already a director of a public company which –

(A) has not filed the annual accounts and annual returns for any continuous three financial years commencing on and after the first day of April, 1999; or

(B) has failed to repay its deposit or interest thereon on due date or redeem its debentures on due date or pay dividend and such failure continues for one year or more;

Provided that such person shall not be eligible to be appointed as a director of any other public company for a period of five years from the date on which such public

III.98 Auditing Pronouncements

company in which he is a director failed to file annual accounts and annual returns under sub-clause (a) or has failed to repay its deposit or interest or redeem its debentures on due date or pay dividend referred to in clause (B)."

14. On a perusal of section 227(3)(f), it is apparent that the auditor of a company, public or private, has to report on whether any of the directors of the company is disqualified from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Act. This is because while clause (f) of section 227(3) is the operating clause, clause (g) of sub-section (1) of section 274 is the defining clause. Thus, in order to be able to make a statement pursuant to clause (f) of sub-section (3) of section 227 of the Act in his report, the auditor would need to satisfy himself as to whether any of the directors of the company is disqualified under section 274(1)(g) from being appointed as a director in a company. It may also be noted that where none of the directors of a private company have been directors in a public company, the disqualification mentioned under section 274(1)(g) would not get attracted since the disqualification under the said section is defined in respect of a person who is director of a public company.

15. Disqualification of a director for being appointed as a director of a company under section 274(1)(g) should be determined with reference to a particular date only. This is so because a director can become disqualified under the said section at any point of time during the year. Further, a director can attract the disqualification if any of the defaults mentioned under section 274(1)(g) is either done by the company being audited (if the company being audited is a public company) or any other public company in which a director of the company being audited is a director or has been a director in a public company which incurred the defaults and the period of five years has not elapsed. These factors make it impracticable for an auditor to determine whether any of the directors of the company attracted the disqualification under section 274(1)(g) at any point of time during the period covered by the auditor's report. It is, therefore, practicable that whether any of the directors of the company has attracted disqualification should be considered as on a particular date, namely, at the balance sheet date.

16. The Department of Company Affairs³ ("the Department") vide its Notification numbered GSR 830(E) dated October 21, 2003, has issued "The Companies (Disqualification of Directors under section 274(1)(g) of the Companies Act, 1956) Rules, 2003 (hereinafter referred to as the "Rules") to carry out the purpose of clause (g) of sub-section (1) of section 274 of the Act. The text of the Rules is reproduced in **Appendix I** to this Guidance Note.

17. The Rules are applicable to all public limited companies. However, the question regarding the applicability of the Rules to a company, which has been granted license under section 25 of the Act, and a private company, which is a subsidiary of a body corporate incorporated outside India, is required to be examined.

18. Section 25 of the Act only contains conditions subject to which the Central Government may dispense with the requirement to use the word "limited" or "private limited" in the name of a company. Thus, a public company, which is granted a license under section 25 of the Act,

³ Now "Ministry of Company Affairs".

continues to be a public limited company under the Act and therefore the Rules would be applicable to such a public limited company.

19. As far as a private company, which is a subsidiary of a body corporate incorporated outside India is concerned, it may be noted that section 4(7) of the Act provides that:

“(7) A private company, being a subsidiary of a body corporate incorporated outside India, which, if incorporated in India, would be a public company within the meaning of this Act, shall be deemed for the purposes of this Act to be a subsidiary of a public company if the entire share capital in that private company is not held by that body corporate whether alone or together with one or more other bodies corporate incorporated outside India.”

20. By virtue of section 3(iv)(c), a private company, if it is a subsidiary of a body corporate incorporated outside India, which if incorporated in India would have been a public company and some part of its share capital is held by a legal entity in India, would become a public company within the meaning of the Act. Therefore, the Rules would also be applicable to such a private company.

DISQUALIFICATION UNDER SECTION 274(1)(G)

21. The situation for disqualification of a director, as envisaged in sub-clause (A) of clause (g) of section 274 (1) of the Act is that the concerned public company has not filed the annual accounts and annual returns for any continuous three financial years commencing on or after the first day of April 1999. Further, sub-rule (a) of Rule 3 lays down that in such a case, persons who are directors on the last due date for filing the annual accounts and the annual returns shall be disqualified from being appointed as a director of another public company. In this context, it is also necessary to understand as to what is the “last due date” as envisaged by the Rules. The last due date would mean the due date with reference to the annual accounts and annual returns of the last of the three consecutive financial years for which the annual accounts and annual returns have not been filed. The proviso to clause (g) of sub-section (1) of section 274 provides that the period of five years would be reckoned from the date as specified in sub-clause (A), on which the public company failed to file its annual accounts and annual returns. From the above, it is clear that if the following conditions are satisfied in respect of a person, he would become disqualified under sub-clause (A) of clause (g) of sub-section (1) of section 274 of the Act:

- (a) The person is a director in a public company as on the last due date for filing the annual accounts and annual return for three continuous financial years. Thus, even if the person concerned has been appointed as a director in the public company only a few days before the last due date, the person would attract disqualification under section 274(1)(g). Further, a person who ceased to be a director of the public company as on the last due date for filing the annual accounts and annual return for three continuous financial years would not be disqualified from being appointed as a director of a public company.

III.100 Auditing Pronouncements

- (b) The public company has not filed the annual accounts and annual return for three consecutive financial years. Thus, if the said failure is not for a period of three continuous financial years, the disqualification would not be attracted.
- (c) The public company has failed to file both, the annual accounts and annual return. Thus, if the company has filed either the annual accounts or annual return within the due dates, the disqualification would not be attracted.
- (d) The period of five years has not elapsed since the date of default made by the public company. Thus, if the period of five years has elapsed since the date of the default, the person concerned shall not remain disqualified under sub-clause (A) of section 274(1)(g).

22. The situation for disqualification of a director, as envisaged in sub-clause (B) of clause (g) of section 274 of the Act is that the concerned public company has failed to repay its deposit or interest thereon on due date or redeem its debentures on due date or pay dividend and such failure continues for a period of one year or more. Further, sub-rule (b) of Rule 3 provides that if a company has failed to repay any deposit, irrespective of the enactment, rules or regulations under which the deposits have been accepted by the companies, or interest thereon, or redeem its debentures, or pay any dividend declared on the respective due dates, and if such failure continues for one year, as described in sub-clause (B) of clause (g) of sub-section (1) of section 274, then the directors of that company would stand disqualified immediately on expiry of one year from the respective due dates. The proviso to the Rule further provides that that all the directors who have been directors in the relevant year, from the due date to the expiry of one year after the due date, will also be disqualified. It may also be noted that that the disqualification on account of the reasons cited under sub-rule (b) of Rule 3 of the Rules is also applicable to the reappointment as a director.

23. The explanation to Rule 3, however, clarifies that a company would not be considered as having defaulted in payment of the dividend referred to in sub-clause (B) of clause (g) of section 274(1) in the following situations:

- (i) The dividend in question has not been claimed; or
- (ii) The dividend in question has been transferred to a separate bank account, i.e., the Unpaid Dividend Account of the company in accordance with the requirements of section 205A of the Act; or
- (iii) The dividend in question has been paid into the Investor Education and Protection Fund as required under section 205C of the Act.

24. The Department has also issued certain Circulars/Notifications in respect of operation/applicability of clause (g) of section 274(1) of the Act. A gist of these Notifications/Circulars is as under:

- (i) In respect of sub clause (B) of clause (g) of section 274(1) of the Act, the Department, vide its general circular numbered 5 of 2003 (F No. 2/5/2001-CLV) dated 14-1-2003 has clarified that default in repayment of privately placed bonds/ debentures/ debt instruments by public financial institutions will not be considered as default to disqualify directors under section 274(1)(g) of the Act.

- (ii) The Department has, vide its notification numbered GSR 829(E), also clarified that the provisions of clause (g) of sub section (1) of section 274 of the Act shall not be applicable to a Government company.
- (iii) Further, the Department has also clarified, vide its general circular numbered 8/2002, dated 22-3-2002, that the nominee directors appointed by the public financial institutions and companies established under the Act of Parliament having non obstante provisions over the Companies Act, 1956 like IDBI, LIC, UTI, IIBI, etc., in their respective statutes shall not be liable to be disqualified under section 274(1)(g) of the Act. The Department has also clarified that the nominee directors appointed on the boards of assisted concerns or other public companies by (a) public financial institutions within the meaning of section 4A of the Act; (b) Central or State Government; and (c) banking companies are also exempt from the provisions of section 274(1)(g) of the Act.

25. The proviso to sub-section (1) of section 252 of the Act requires that a public company having a paid-up capital of rupees five crores or more; or one thousand or more small shareholders may have a director elected by such small shareholders in the manner as may be prescribed. The Department had, vide its Notification No. GSR. 168(E), dated March 9, 2001, issued the "Companies (Appointment of the Small Shareholders' Director) Rules, 2001. The said Rules define "small shareholders" as "a shareholder holding shares of nominal value of twenty thousand rupees or less in a public company to which section 252 of the Act applies. The said Rules deal with the manner of election of small shareholders' director, disqualification of such directors and vacation of office by such directors. Rule 5 of the said Rules which deals with the disqualification of small shareholders' directors lists out certain conditions wherein a person shall not be capable of being appointed as a small shareholders' director of a company. The said Rule 5, however, does envisage the situations outlined in clause (g) of section 274(1) as a condition for disqualification. Thus, a logical interpretation of the situation would be that a person appointed as a small shareholders' director pursuant to the above mentioned Rules would not be subject to any disqualification arising in terms of clause (g) of section 274(1) of the Act.

26. The Companies (Disqualification of Directors under section 274(1)(g) of the Companies Act, 1956) Rules, 2003 (the "Rules") have also introduced the concepts of "Disqualifying" and "Appointing" companies. As per Rule 2, a "disqualifying" company is "the company in which the default has occurred on account of which a director stands disqualified". Further, Rule 2 also defines an "appointing" company as "the company in which an individual is seeking an appointment as a director, including reappointment as a director". However, this distinction between the "appointing company" and "disqualifying company" apparently has no significance to the auditor since he is required to state in his report on the financial statements of the company whether any of the directors of the company as on the balance sheet is disqualified from being appointed as a director of a company under section 274(1)(g) of the Act.

27. Under Rule 9, every director in a public company registered under the Companies Act, 1956, is required to file Form DD-A, as prescribed in the Rules, before he is appointed or reappointed in any company. Rule 5 also casts a duty on every company which has failed to file its annual accounts and returns and/or fails to repay any deposit, interest, dividend, or fails

III.102 Auditing Pronouncements

to redeem its debentures, as described in clauses (A) and (B) of clause (g) of sub-section (1) of section 274 of the Act, to immediately file a return in duplicate in Form DD-B (prescribed in the said Rules) with the Registrar of Companies.

28. Another point to note is that the provisions of clause (g) of section 274(1) of the Act do not find a place in the provisions of section 283 of the Act, which deals with vacation of office by the director(s). Therefore, a director should not be construed as having vacated his office merely because of his having incurred a disqualification under clause (g) of section 274(1) of the Act. Another question that arises in this regard is whether in case all the directors of a company are disqualified under section 274(1)(g), whether such directors can approve the financial statements of the company. As mentioned, in case a director of a company becomes disqualified from being appointed as a director in a company in terms of section 274(1)(g) of the Act, he continues to be a director of the company until the expiry of his term. Therefore, even in a case where all the directors become disqualified from being appointed as a director in a company they can approve the financial statements and continue to discharge the duties and responsibilities assigned by the Act.

DUTIES OF THE AUDITOR UNDER THE RULES

29. Rule 4 of the Rules deals with the duties of the statutory auditors of both the disqualifying as well as the appointing companies. Sub-rule (a) of Rule 4 requires that the statutory auditors of both the appointing as well as the disqualifying company to:

- (i) report under section 227(3)(f) of the Act to the members of the respective companies as to whether any director is disqualified from being appointed as a director under clause (g) of section 274(1) of the Companies Act, 1956; and
- (ii) furnish a certificate every year as to whether on the basis of his examination of the books and records of the company, any director of the company is disqualified as a director or not.

30. It is, therefore, clear that the statutory auditors of both the disqualifying as well as the appointing company would, in addition to their report in terms of section 227(3)(f) of the Act, would also have to, each financial year, furnish a certificate as required in Rule 4.

31. Sub Rule (b) of Rule 4 further casts a duty on the statutory auditors of the “disqualifying” company to report to the members of the company as required under section 227(3)(f) whether any director in the company has been disqualified during the year from being reappointed as director, or being appointed as a director in another company under clause (g) of section 274(1).

Auditor’s Procedures for Compliance with Section 227(3)(f) and the Rules

32. In order to comply with the requirements of section 227(3)(f) of the Act and the Rules, the auditor should obtain a written representation as to:

- (a) Names of directors of the company during the period covered by the auditor’s report (including the directors at the balance sheet date), showing separately, the names of

nominee directors and directors appointed in accordance with the Companies (Appointment of the Small Shareholders' Director) Rules, 2001

- (b) Particulars of appointment/reappointment, resignation/retirement etc., of each of the above directors.
- (c) Whether in case of directors appointed on or after the date of the Companies (Disqualification of Directors under section 274(1)(g) of the Companies Act, 1956) Rules, 2003 coming into effect, each such director has submitted Form DD-A, as required under the said Rules.
- (d) That the information contained in the register of directors maintained under section 303(1) is updated to show the position as on the balance sheet date.
- (e) Whether the company has committed any default as envisaged in sub-clauses (A) and/or (B) of clause (g) of section 274 (1) of the Act.
- (f) In case the company has committed a default under sub-clauses (A) and/ or (B) of clause (g) of section 274(1) of the Act, whether the company has furnished the Form DD-B, as required by the Rules.

33. The auditor should also obtain a written representation from the directors of the company as to whether they have attracted the disqualification in terms of clause (g) of sub-section (1) of section 274 of the Act. The auditor should require the directors to submit a written representation in respect of each public company in which they are directors as to whether as on the balance sheet date the public companies of which he is a director have defaulted in terms of the section 274(1)(g). There is a practice amongst many companies that the directors obtain a legal compliance report, periodically, to ensure that the companies have complied with all the legal requirements. Such compliance reports generally also contain the information regarding filing of annual accounts and annual return and compliance with clause (g) of sub-section (1) of section 274 can be a part of the said legal compliance report. Such a compliance report can, therefore, be submitted by the director as an evidence in this regard. In addition to written representation obtained from the director in respect of public companies of which he is a director, the auditor should also obtain written representation from the director in respect of each of those public companies in which he was a director in the past as to whether or not the director is disqualified to be appointed as a director in terms of proviso to Section 274(1)(g). The auditor should insist that written representations provided by the management as well as the directors appointed prior to the issuance of Rules or the legal compliance report, as the case may be, should be taken on record by the Board of Directors of the company being audited. However, in no case, is the auditor of either the appointing company or the disqualifying company expected to make any roving enquiries from such other companies in which the concerned director is also a director, as to whether or not they have committed any default in terms of sub clauses (A) and/ or (B) of clause (g) of section 274(1) of the Act.

34. The auditor should verify the information provided by the management and the directors from the information contained in the register maintained under section 303(1) of the Act. The said register contains various particulars relating to all the directors of the company including

III.104 Auditing Pronouncements

particulars in respect of the office of director, managing director, etc. The auditor can also examine the Form 32 filed by the company during the financial year under section 303(2) of the Act so as to know the changes, for example, appointment, retirement, resignation etc., of directors during the year. Form DD-A filed by the directors would also assist the auditor in assessing whether any director appointed during the year, at the time of appointed, was disqualified under section 274(1)(g) of the Act.

35. In case company being audited happens to be a public company which has not filed the annual accounts and annual returns for any continuous three financial years commencing on and after 1st April, 1999; or has failed to repay its deposit or interest thereon on due date or redeem its debentures on due date or pay dividend and such failure continues for one year or more; then the auditor must report that all the directors are disqualified from being appointed as director in terms of clause (g) of sub-section (1) of section 274 of the Act. The auditor, in such a case, should also examine the return in Form DD-B to be filed under the Rules. Form DD-B contains the particulars of directors during the relevant period.

36. Since the Rules are applicable to public limited companies only, Forms DD-A and DD-B would not be available to the auditor a private company. In such cases, the auditor's employs the same procedures to comply with the requirements of section 227(3)(f) which are applied by an auditor of a public company except that the auditor is not required to examine Forms DD-A and DD-B because of their non-availability in a private company.

37. The reporting under clause (f) of sub-section (3) of section 227 of the Act may be as follows, keeping in view the situation concerned:

- (a) Where all the directors of the company are able to produce the evidence as specified in paragraph 33 above that the public company/(ies) of which they are directors have not defaulted in terms of section 274(1)(g), the auditor may report as follows:

"On the basis of the written representations received from the directors, and taken on record by the Board of Directors, we report that none of the directors is disqualified as on 31st March, 2XXX from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956".

- (b) In a situation where a director is unable to produce the written representation as specified in paragraph 33 above, the auditor may report as follows:

"Mr. X, who is also a director of ABC Ltd., has not produced written representation as to whether ABC Ltd., in which Mr. X is a director as on 31st March, 2XXX, had not defaulted in terms of section 274(1)(g) of the Companies Act, 1956. In the absence of this representation, we are unable to comment whether Mr. X is disqualified from being appointed as a director under clause (g) of sub-section (1) of section 274 of the Companies Act, 1956. As far as other directors are concerned, on the basis of the written representations received from such directors, and taken on record by the Board of Directors, we report that none of the remaining directors is disqualified as on 31st March, 2XXX from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956."

- (c) Where on the basis of the written representation received from a director, it is noted that the director was disqualified from being appointed as a director under this clause, the auditor may report as follows:

“On the basis of the written representation received from Mr. Y, who is a director of ABC Ltd., as on 31st March 2XXX, and taken on record by the Board of Directors, we report that he is disqualified from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.

As far as other directors are concerned, on the basis of the written representations received from such directors, and taken on record by the Board of Directors, we report that none of the remaining directors is disqualified as on 31st March 2XXX from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.”

Certificate under the Rules

38. As mentioned, sub-rule (a) of Rule 4 requires that it shall be the duty of the statutory auditor to furnish a certificate each year as to whether on the basis of his examination of the books and records of the company, any director of the company is disqualified for appointment as a director or not. The Rules, however, are silent as to whom the said certificate would be addressed. An interpretation could be that the auditor should furnish such a certificate to the shareholders of the company. However, this does not seem to be logical since the shareholders would get the same information from the auditor's statement in respect of clause (f) of sub-section (3) of section 227 of the Act. Therefore, it would be appropriate that the certificate is addressed to the Board of Directors of the Company. It may also be noted that the Rules are also silent as to the format and contents of the certificate. An illustrative format of the said certificate is given in **Appendix II**, which may be used by the auditors.

Appendix I

PUBLISHED IN THE GAZETTE OF INDIA, PART II, SECTION 3(i), EXTRAORDINARY

Ministry of Finance

(Department of Company Affairs)

NOTIFICATION

New Delhi, the 21st October, 2003

G.S.R. 830 (E).- In exercise of the powers conferred by clause (b) of sub-section (1) of section 642 of the Companies Act, 1956 (1 of 1956), the Central Government hereby makes the following rules to carry out the purpose of clause (g) of sub-section (1) of section 274 of the said Act, namely :-

1. Short Title, Commencement and Extent

- (1) These rules may be called the Companies (Disqualification of Directors under section 274(1)(g) of the Companies Act, 1956) Rules, 2003.

III.106 Auditing Pronouncements

- (2) These rules shall come into force from the date of their notification in the Official Gazette.
- (3) These rules shall apply to all public limited companies registered under the Companies Act, 1956.

2. Definitions

In these Rules, unless the context otherwise requires, -

- (a) “disqualifying company” is the company in which the default has occurred on account of which a director stands disqualified;
- (b) “appointing company” is the company in which an individual is seeking appointment as a director, including re-appointment as director.

3. Disqualifications under clause (g) of sub-section (1) of section 274 of the Companies Act, 1956

- (a) Whenever a company fails to file the annual accounts and annual returns, as described in sub-clause (A) of clause (g) of sub-section (1) of section 274, persons who are directors on the last due date for filing the annual accounts and the annual returns for any continuous three financial years commencing on and after the first day of April, 1999, shall be disqualified.
- (b) If a company has failed to repay any deposit, irrespective of the enactment, rules or regulations under which the deposits have been accepted by the companies, or interest thereon, or redeem its debentures, or pay any dividend declared on the respective due dates, and if such failure continues for one year, as described in sub-clause (B) of clause (g) of sub-section (1) of section 274, then the directors of that company shall stand disqualified immediately on expiry of that one year from the respective due dates:

Provided that all the directors who have been directors in the relevant year, from the due date to the expiry of one year after the due date, will be disqualified:

Provided further that disqualification on account of the reasons cited under this Rule shall also apply to the reappointment as a director.

Explanation-For the purpose of this rule, it is clarified that non-payment of dividend referred to in sub-clause (B) of clause (g) of sub-section (1) of section 274 due to the reason of dividend not being claimed or kept in separate bank account as required under section 205A of Companies Act, 1956 or paid into Investors Education & Protection Fund as required under section 205C of that Act shall not be deemed to be a failure to make payment of dividend.

4. Duty of Statutory Auditor to Report on Disqualification

- (a) It shall be the duty of statutory auditor of the appointing company as well as disqualifying company, as required under section 227(3)(f) to report to the members of the company whether any director is disqualified from being appointed as director under clause (g) of sub-section (1) of section 274 and to furnish a certificate each year as to whether on the

basis of his examination of the books and records of the company, any director of the company is disqualified for appointment as a director or not.

- (b) It shall be the duty of the statutory auditors of the “disqualifying company” as required in section 227(3)(f) to report to the members of the company whether any director in the company has been disqualified during the year from being re-appointed as director, or being appointed as director in another company under clause (g), of sub-section (1) of section 274.

5. Duty of Company to Intimate Disqualification

Whenever a company fails to file the annual accounts and returns, or fails to repay any deposit, interest, dividend, or fails to redeem its debentures, as described in clauses (A) and (B) of clause (g) of sub-section (1) of section 274, the company shall immediately file a return in duplicate in Form ‘DD-B’, prescribed under these rules for this purpose, to the Registrar of Companies, furnishing therein the names and addresses of all the Directors of the company during the relevant financial years:

Provided that names of such directors who have been exempted from application of Section 274(1)(g) by the Central Government, from time to time, shall be excluded.

Provided further that no unusual abbreviations or short forms shall be used in filling up the Form ‘DD-B’, which shall give such details as may be necessary to distinguish and identify each director without any ambiguity.

6. Failure to Intimate Disqualification Shall render Director as Officer in Default

When a company fails to file the Form ‘DD-B’ as above within 30 days of the failure that would attract disqualification under Section 274(1)(g), officers of the company listed in section 5 of the Companies Act, 1956 shall be officers in default.

- 7.(a) Upon receipt of the Form ‘DD-B’ in duplicate under Rule 5, the Registrar of Companies shall immediately register the document and place one copy of it in the document file for public inspection.
- (b) The Registrar of Companies shall forward the other copy to the Central Government.

8. Names of the Disqualified Directors on the Website etc.

- (a) The Central Government shall place on the web site of the Department of Company Affairs the names and addresses and such other details including names and details of the companies concerned, as may be necessary, in respect of all the disqualified directors.
- (b) The Central Government may also publicize the names of disqualified directors in such manner as it may consider appropriate.
- (c) The Central Government shall take such steps as may be required to update its web-site to ensure that name of the person, in whose respect disqualification period has expired after 5 years, is deleted from the web-site.

III.108 Auditing Pronouncements

9. Duty of Every Director

Every director in a public company registered under the Companies Act, 1956 shall file Form 'DD-A', prescribed under these Rules, before he is appointed or re-appointed.

10. If any question arises as to whether these rules are or are not applicable to a particular company, such question shall be decided by the Central Government.

11. Punishment for Contravention of the Rules

If a company or any other person contravenes any provision of these rules for which no punishment is provided in the Companies Act, 1956, the company and every officer of the company who is in default or such other person shall be punishable with fine which may extend to five thousand rupees and where the contravention is a continuing one, with a further fine which may extend to five hundred rupees for every day after the first, during which the contravention continues.

12. On the commencement of these rules, all rules, orders or directions in force in relation to any matter for which provision is made in these Rules shall stand repealed, except as respects things done or omitted to be done before such repeal.

Companies (Disqualification of Directors under section 274(1)(g) of the Companies Act, 1956) Rules, 2003

Intimation by Director

[Pursuant to Section 274(1)(g)]

Registration No. of Company _____

Nominal Capital Rs. _____

Paid-up Capital Rs. _____

Name of Company _____

Address of its Registered Office _____

To

The Board of Directors
of _____

I _____ son/daughter/wife of _____ resident of _____ director/managing director/manager in the company hereby give notice that I am/was a director in the following companies during the last 3 years:

Name of the Company	Date of Appointment	Date of Cessation
1.....		
2.....		

I further confirm that I have not incurred disqualification under section 274(1)(g) of the Companies Act, 1956 in any of the above companies, in the previous financial year, and that I, at present, stand free from any disqualification from being a director.

or

I further confirm that I have incurred disqualifications under section 274(1)(g) of the Companies Act, 1956 in the following company(s) in the previous financial year, and that I, at present stand disqualified from being a director.

Name of the Company	Date of Appointment	Date of Cessation
1.....		
2.....		

Signature
(Full Name)

Dated this _____ day of _____

FORM 'DD-B'
Report by a Public Company

[Pursuant to Section 274(1)(g) read with Rule 5 of Companies (Disqualification of Directors under section 274(1)(g) of the Companies Act, 1956) Rules, 2003]

Registration No. of Company: _____

Nominal Capital Rs. _____

Paid-up Capital Rs. _____

Name of Company _____

Address of its Registered Office _____

To

The Registrar of Companies,

It is hereby reported under section 274(1)(g) of Companies Act, 1956, that M/s. _____ have failed to (i) file the annual accounts and annual returns for the last three financial years, or (ii) repay deposits or interest thereon on due date being _____ or redeem its debentures on due date being _____ or pay dividend declared by the company since _____ or both. The period of one year has expired on _____.

III.110 Auditing Pronouncements

The name and address of directors at the relevant period are as under :-

- (a) Director's name in full, without abbreviations
- (b) Director's name as per company's records (abbreviations may be expanded and shown)
- (c) Address of the Director
 - (i) Permanent
 - (ii) Present
- (d) Positions held by the director in the last 5 years, prior to disqualification:

Signature
Designation*

Dated this _____ day of _____

*State whether Director, Managing Director, Manager or Secretary

Appendix II

FORMAT OF THE CERTIFICATE TO BE ISSUED UNDER RULE 4 (a) OF THE COMPANIES (DISQUALIFICATION OF DIRECTORS UNDER SECTION 274(1)(g) OF THE COMPANIES ACT, 1956) RULES, 2003

Auditor's Certificate

Rule 4 (a) of the Companies (Disqualification of Directors Under section 274(1)(g) of the Companies Act, 1956) Rules, 2003

To,

The Board of Directors of _____ (name of the company)

In terms of Rule 4(a) of the Companies (Disqualification of Directors under section 274(1)(g) of the Companies Act, 1956) Rules, 2003, I/we (name of the chartered accountant/ firm, as the case may be), based on our examination of the books and records of the company, carried out in accordance with the requirements of the Guidance Note on Section 227(3)(e) and (f) of the Companies Act, 1956, issued by the Institute of Chartered Accountants of India, do hereby certify that none of the directors of the company, i.e., (name of the company) as on _____ (date of the balance sheet) is disqualified for appointment as a director in the aforementioned company in terms of clause (g) of sub section (1) of section 274 of the Companies Act, 1956.

⁴ Partner or proprietor, as the case may be.

GUIDANCE NOTE ON COMPUTER ASSISTED AUDIT TECHNIQUES (CAATs)*

INTRODUCTION

1. The overall objectives and scope of an audit do not change when an audit is conducted in a computer information systems (CIS) environment. The application of auditing procedures may, however, require the auditor to consider techniques known as Computer Assisted Audit Techniques (CAATs) that use the computer as an audit tool for enhancing the effectiveness and efficiency of audit procedures. CAATs are computer programs and data that the auditor uses as part of the audit procedures to process data of audit significance, contained in an entity's information systems.

2. The purpose of this Guidance Note is to provide guidance in the use of CAATs. This Guidance Note describes computer assisted audit techniques including computer tools, collectively referred to as CAATs. This Guidance Note applies to all uses of CAATs when a computer of any type or size is involved whether that computer is operated by the entity or by a third party.

DESCRIPTION OF COMPUTER ASSISTED AUDIT TECHNIQUES (CAATS)

3. Computer Assisted Audit Techniques (CAATs) are important tools for the auditor in performing audits. CAATs may be used in performing various auditing procedures, including the following:

- ◆ tests of details of transactions and balances, for example, the use of audit software for recalculating interest or the extraction of invoices over a certain value from computer records;
- ◆ analytical procedures, for example, identifying inconsistencies or significant fluctuations;
- ◆ tests of general controls, for example, testing the set-up or configuration of the operating system or access procedures to the program libraries or by using code comparison software to check that the version of the program in use is the version approved by management ;
- ◆ sampling programs to extract data for audit testing;
- ◆ tests of application controls, for example, testing the functioning of a programmed control; and
- ◆ reperforming calculations performed by the entity's accounting systems.

* Issued in September, 2003

III.112 Auditing Pronouncements

4. CAATs allow the auditor to give access to data without dependence on the client, test the reliability of client software, and perform audit tests more efficiently. CAATs are computer programs and data that the auditor uses as part of the audit procedures to process data of audit significance contained in an entity's information systems. CAATs may consist of package programs, purpose-written programs, utility programs or system management program. Regardless of the origin of the programs, the auditor substantiates their appropriateness and validity for audit purposes before using them. A brief description of the programs commonly used is given below.

- ◆ *Package Programs* are generalized computer programs designed to perform data processing functions, such as reading data, selecting and analyzing information, performing calculations, creating data files and reporting in a format specified by the auditor.
- ◆ *Purpose-Written Programs* perform audit tasks in specific circumstances. These programs may be developed by the auditor, the entity being audited or an outside programmer hired by the auditor. In some cases, the auditor may use an entity's existing programs in their original or modified state because it may be more efficient than developing independent programs.
- ◆ *Utility Programs* are used by an entity to perform common data processing functions, such as sorting, creating and printing files. These programs are generally not designed for audit purposes, and therefore may not contain features such as automatic record counts or control totals.
- ◆ *System Management Programs* are enhanced productivity tools that are typically part of a sophisticated operating systems environment, for example, data retrieval software or code comparison software. As with utility programs these tools are not specifically designed for auditing use and their use requires additional care.

Details of some of the techniques used are mentioned in the Appendix.

CONSIDERATIONS IN THE USE OF CAATS

5. When planning an audit, the auditor may consider an appropriate combination of manual and computer assisted audit techniques. In determining whether to use CAATs, the factors to consider include:

- ◆ the IT knowledge, expertise and experience of the audit team;
- ◆ the availability of CAATs and suitable computer facilities and data;
- ◆ the impracticability of manual tests;
- ◆ effectiveness and efficiency; and
- ◆ time constraints.

Before using CAATs the auditor considers the controls incorporated in the design of the entity's computer systems to which CAAT would be applied in order to determine whether, and if so, how, CAATs should be used.

IT KNOWLEDGE, EXPERTISE AND EXPERIENCE OF THE AUDIT TEAM

6. Standard on Auditing (SA) 401, "Auditing in a Computer Information Systems Environment" deals with the level of skill and competence the audit team needs to conduct an audit in a CIS environment. It provides guidance when an auditor delegates work to assistants with CIS skills or when the auditor uses work performed by other auditors or experts with such skills. Specifically, the audit team should have sufficient knowledge to plan, execute and use the results of the particular CAAT adopted. The level of knowledge required depends on "availability of CAATs" and "suitable computer facilities".

AVAILABILITY OF CAATS AND SUITABLE COMPUTER FACILITIES

7. The auditor considers the availability of CAATs, suitable computer facilities and the necessary computer-based information systems and data. The auditor may plan to use other computer facilities when the use of CAATs on an entity's computer is uneconomical or impractical, for example, because of an incompatibility between the auditor's package program and entity's computer. Additionally, the auditor may elect to use their own facilities, such as PCs or laptops.

8. The cooperation of the entity's personnel may be required to provide processing facilities at a convenient time, to assist with activities such as loading and running of CAAT on the entity's system, and to provide copies of data files in the format required by the auditor.

IMPRACTICABILITY OF MANUAL TESTS

9. Some audit procedures may not be possible to perform manually because they rely on complex processing (for example, advanced statistical analysis) or involve amounts of data that would overwhelm any manual procedure. In addition, many computer information systems perform tasks for which no hard copy evidence is available and, therefore, it may be impracticable for the auditor to perform tests manually. The lack of hard copy evidence may occur at different stages in the business cycle.

- ◆ Source information may be initiated electronically, such as by voice activation, electronic data imaging, or point of sale electronic funds transfer. In addition, some transactions, such as discounts and interest calculations, may be generated directly by computer programs with no specific authorization of individual transactions.
- ◆ A system may not produce a visible audit trail providing assurance as to the completeness and accuracy of transactions processed. For example, a computer program might match delivery notes and suppliers' invoices.
- ◆ In addition, programmed controlled procedures, such as checking customer credit limits, may provide hard copy evidence only on an exception basis.
- ◆ A system may not produce hard copy reports. In addition, a printed report may contain only summary totals while computer files retain the supporting details.

EFFECTIVENESS AND EFFICIENCY

10. The effectiveness and efficiency of auditing procedures may be improved by using CAATs to obtain and evaluate audit evidence. CAATs are often an efficient means of testing a large number of transactions or controls over large populations by:

- ◆ analyzing and selecting samples from a large volume of transactions;
- ◆ applying analytical procedures; and
- ◆ performing substantive procedures.

11. Matters relating to efficiency that an auditor might consider include:

- ◆ the time taken to plan, design, execute and evaluate CAAT;
- ◆ technical review and assistance hours;
- ◆ designing and printing of forms (for example, confirmations); and
- ◆ availability of computer resources

12. In evaluating the effectiveness and efficiency of CAAT, the auditor considers the continuing use of CAAT application. The initial planning, design and development of CAAT will usually benefit audits in subsequent periods.

TIME CONSTRAINTS

13. Certain data, such as transaction details, are often kept for a short time and may not be available in machine-readable form by the time auditor wants them. Thus, the auditor will need to make arrangements for the retention of data required, or may need to alter the timing of the work that requires such data.

14. Where the time available to perform an audit is limited, the auditor may plan to use CAAT because its use will meet the auditor's time requirement better than other possible procedures.

USING CAATS

15. The major steps to be undertaken by the auditor in the application of CAAT are to:

- (a) set the objective of CAAT application;
- (b) determine the content and accessibility of the entity's files;
- (c) identify the specific files or databases to be examined;
- (d) understand the relationship between the data tables where a database is to be examined;
- (e) define the specific tests or procedures and related transactions and balances affected;
- (f) define the output requirements;
- (g) arrange with the user and IT departments, if appropriate, for copies of the relevant files or database tables to be made at the appropriate cut off date and time;
- (h) identify the personnel who may participate in the design and application of CAAT;

- (i) refine the estimates of costs and benefits;
- (j) ensure that the use of CAAT is properly controlled;
- (k) arrange the administrative activities, including the necessary skills and computer facilities;
- (l) reconcile data to be used for CAAT with the accounting and other records;
- (m) execute CAAT application;
- (n) evaluate the results;
- (o) document CAATs to be used including objectives, high level flowcharts and run instructions; and
- (p) assess the effect of changes to the programs/system on the use of CAAT.

TESTING CAAT

16. The auditor should obtain reasonable assurance of the integrity, reliability, usefulness, and security of CAAT through appropriate planning, design, testing, processing and review of documentation. This should be done before reliance is placed upon CAAT. The nature, timing and extent of testing is dependent on the commercial availability and stability of CAAT.

CONTROLLING CAAT APPLICATION

17. The specific procedures necessary to control the use of CAAT depend on the particular application. In establishing control, the auditor considers the need to:

- (a) approve specifications and conduct a review of the work to be performed by CAAT;
- (b) review the entity's general controls that may contribute to the integrity of CAAT, for example, controls over program changes and access to computer files. When such controls cannot be relied on to ensure the integrity of CAAT, the auditor may consider processing CAAT application at another suitable computer facility; and
- (c) ensure appropriate integration of the output by the auditor into the audit process.

18. Procedures carried out by the auditor to control CAATs applications may include:

- (a) participating in the design and testing of CAAT;
- (b) checking, if applicable, the coding of the program to ensure that it conforms with the detailed program specifications;
- (c) asking the entity's staff to review the operating system instructions to ensure that the software will run in the entity's computer installation;
- (d) running the audit software on small test files before running it on the main data files;
- (e) checking whether the correct files were used, for example, by checking external evidence, such as control totals maintained by the user, and that those files were complete;
- (f) obtaining evidence that the audit software functioned as planned, for example, by reviewing output and control information; and

III.116 Auditing Pronouncements

- (g) establishing appropriate security measures to safeguard the integrity and confidentiality of the data.

When the auditor intends to perform audit procedures concurrently with online processing, the auditor reviews those procedures with appropriate client personnel and obtains approval before conducting the tests to help avoid the inadvertent corruption of client records.

19. To ensure appropriate control procedures, the presence of the auditor is not necessarily required at the computer facility during the running of CAAT. It may, however, provide practical advantages, such as being able to control distribution of the output and ensuring the timely correction of errors, for example, if the wrong input file were to be used.

20. Audit procedures to control test data applications may include:

- ◆ controlling the sequence of submissions of test data where it spans several processing cycles;
- ◆ performing test runs containing small amounts of test data before submitting the main audit test data;
- ◆ predicting the results of the test data and comparing it with the actual test data output, for the individual transactions and in total;
- ◆ confirming that the current version of the programs was used to process the test data; and
- ◆ testing whether the programs used to process the test data were the programs the entity used throughout the applicable audit period.

21. When using CAAT, the auditor may require the cooperation of entity staff with extensive knowledge of the computer installation. In such circumstances, the auditor considers whether the staff improperly influenced the results of CAAT.

22. Audit procedures to control the use of audit-enabling software may include:

- ◆ verifying the completeness, accuracy and availability of the relevant data, for example, historical data may be required to build a financial model;
- ◆ reviewing the reasonableness of assumptions used in the application of the tool set, particularly, when using modeling software;
- ◆ verifying availability of resources skilled in the use and control of the selected tools; and
- ◆ confirming the appropriateness of the tool set to the audit objective, for example, the use of industry specific systems may be necessary for the design of audit programs for unique business cycles.

DOCUMENTATION

23. The various stages of application of CAATs should be sufficiently documented to provide adequate audit evidence.

24. The audit working papers should contain sufficient documentation to describe CAAT application, including the details set out in the sections below:

(a) Planning

- ◆ CAAT objectives;
- ◆ CAAT to be used;
- ◆ Controls to be exercised; and
- ◆ Staffing, timing and cost.

(b) Execution

- ◆ CAAT preparation and testing procedures and controls;
- ◆ Details of the tests performed by CAAT;
- ◆ Details of inputs (e.g., data used, file layouts), processing (e.g., CAATs high-level flowcharts, logic) and outputs (e.g., log files, reports);
- ◆ Listing of relevant parameters or source code; and
- ◆ Relevant technical information about the entity's accounting system, such as file layouts.

(c) Audit Evidence

- ◆ Output provided;
- ◆ Description of the audit work performed on the output;
- ◆ Audit findings; and
- ◆ Audit conclusions;

(d) Other

- ◆ Recommendations to the entity management; and

In addition, it may be useful to document suggestions for using CAAT in future years.

ARRANGEMENTS WITH THE ENTITY

25. The auditor may make arrangements for the retention of the data files, such as detailed transaction files, covering the appropriate audit time frame.

26. In order to minimize the effect on the organisation's production environment, access to the organisation's information system facilities, programs/systems and data should be arranged well in advance of the needed time period

27. The auditor should also consider the effect of these changes on the integrity and usefulness of CAAT, as well as the integrity of the programs/system and data used by the auditor.

USING CAATS IN SMALL ENTITIES

28. Although the general principles outlined in this Guidance Note apply in small entity IT environments, the following points need special consideration:

- (a) The level of general controls may be such that the auditor will place less reliance on the system of internal control. This will result in greater emphasis on tests of details of transactions and balances and analytical review procedures, which may increase the effectiveness of certain CAATs, particularly, audit software.
- (b) Where smaller volumes of data are processed, manual methods may be more cost effective.
- (c) A small entity may not be able to provide adequate technical assistance to the auditor, making the use of CAATs impracticable.
- (d) Certain audit package programs may not operate on small computers, thus restricting the auditor's choice of CAATs. The entity's data files may, however, be copied and processed on another suitable computer.

Appendix

Examples of Computer Assisted Audit Techniques

Techniques	Description	Advantages	Disadvantages
Audit Automation	<ul style="list-style-type: none"> ◆ Expert Systems ◆ Tools to evaluate a client's risk management procedures ◆ Electronic working papers, which provide for the direct extraction of data from clients computer records ◆ Corporate and financial modeling programs for use as predictive audit test 	<ul style="list-style-type: none"> ◆ These techniques are more useful when auditors are using laptops which can be directly linked with the entity's system. 	<ul style="list-style-type: none"> ◆ Not applicable in the case of mainframe computers.

Audit Software	<ul style="list-style-type: none"> ◆ Software used by the auditor to read data on client's files, to provide information for the audit and/or to re-perform procedures carried out by the client's programs. 	<ul style="list-style-type: none"> ◆ Performs a wide variety of audit tasks ◆ Long term economies ◆ Reads actual records ◆ Capable of dealing with large volumes of transactions 	<ul style="list-style-type: none"> ◆ Requires a reasonable degree of skill to use ◆ Initial set up costs can be high ◆ Adaptation often needed from machine to machine
Core Image Comparison	Software used by the auditor to compare the executable version of a program with a secure master copy	<ul style="list-style-type: none"> ◆ Provides a high degree of comfort concerning the executable version of the program ◆ Particularly useful where only executable versions are distributed 	<ul style="list-style-type: none"> ◆ Requires a high degree of skill to set up and to interpret the results. ◆ Where programs have been recompiled the comparison may be invalidated as the program records everything as a difference ◆ Printouts are hard to interpret and the actual changes made are difficult to establish ◆ Availability restricted to certain machine types
Database Analysers	Software used by the auditor to examine the rights associated with terminals and the ability of users to access information on a database	<ul style="list-style-type: none"> ◆ Provides detailed information concerning the operation of the database ◆ Enhances the auditor's understanding of the database management system 	<ul style="list-style-type: none"> ◆ Requires a high degree of skill to set up and to interpret the results ◆ Restricted availability both as regards machine types and database management systems ◆ Specific and limited audit applicability
Embedded Code	Software used by the auditor to examine	<ul style="list-style-type: none"> ◆ Performs a wide variety of 	<ul style="list-style-type: none"> ◆ There is a processing overhead involved

III.120 Auditing Pronouncements

	transactions passing through the system by placing his own program in the suite of programs used for processing.	<p>audit tasks</p> <ul style="list-style-type: none"> ◆ Examines each transaction as it passes through the system ◆ Operates continuously ◆ Capable of identifying unusual transactions passing through the system. 	<p>because of the extra programs</p> <ul style="list-style-type: none"> ◆ Definition of what constitutes an unusual transaction needs to be very precise ◆ Precautions need to be taken over the output from the programs to ensure is security ◆ Precautions need to be taken to ensure that the program cannot be suppressed or tampered with ◆ Requires some degree of skill to use and to interpret the results
Log Analysers	Software used by the auditor to read and analyse records of machine activity	<ul style="list-style-type: none"> ◆ Provides detailed information on machine usage. ◆ Long term economies ◆ Effective when testing integrity controls 	<ul style="list-style-type: none"> ◆ Requires a high degree of skill to use and to interpret the results ◆ Limited availability as regards machine types ◆ High volume of records restricts extent of test
Mapping	Software used by the auditor to list unused program instructions	<ul style="list-style-type: none"> ◆ Identifies program code which may be there for fraudulent reasons. 	<ul style="list-style-type: none"> ◆ Very specific objective ◆ Requires a high degree of skill to use and to interpret the results ◆ Adaptation needed from machine to machine.
Modelling	A variety of software, usually associated with a microcomputer, enabling the auditor to carry out analytical	<ul style="list-style-type: none"> ◆ Can be a very powerful analytical tool ◆ Can enable the auditor to examine 	<ul style="list-style-type: none"> ◆ A high volume of data may need to be entered initially ◆ Results require careful interpretation

	reviews of client's results, to alter conditions so as to identify amounts for provisions or claims, or to project results and compare actual results with those expected	provisions on a number of different bases <ul style="list-style-type: none"> ◆ Very flexible in use ◆ Can provide the auditor with useful information on trends and patterns 	
On-line Testing	Techniques whereby the auditor arranges or manipulates data either real or fictitious, in order to see that a specific program or screen edit test is doing its work	<ul style="list-style-type: none"> ◆ Very widely applicable ◆ Easy to use ◆ Can be targeted for specific functions carried out by programs 	<ul style="list-style-type: none"> ◆ Each use satisfies only one particular objective ◆ Care must be taken to ensure that "live" data does not impact actual results
Program Code Analysis	An examination by the auditor of the source code of a particular program with a view to following the logic of the program so as to satisfy himself that it will perform according to his understanding	<ul style="list-style-type: none"> ◆ Gives a reasonable degree of comfort about the program logic ◆ The auditor can examine every function of the program code 	<ul style="list-style-type: none"> ◆ The auditor must understand the program language ◆ The auditor needs to check that the source code represents the version in the source library, and that this version equates to the executable version
Program Library Analysers	Software used by the auditor to examine dates of changes made to the executable library and the use of utilities to amend programs	<ul style="list-style-type: none"> ◆ Provides the auditor with useful information concerning the program library ◆ Identifies abnormal changes to the library 	<ul style="list-style-type: none"> ◆ Requires a high degree of skill to use and to interpret the results ◆ Availability restricted to certain machine types ◆ Only relevant when testing integrity controls

III.122 Auditing Pronouncements

		<ul style="list-style-type: none"> ◆ Useful when testing program security 	
Snapshots	Software used by the auditor to take a “picture” of a file of data or a transaction passing through the system at a particular point in time	<ul style="list-style-type: none"> ◆ Permits the auditor to examine processing at a specific point in time to carry out tests, or to confirm the way a particular aspect of the system operates 	<ul style="list-style-type: none"> ◆ Can be expensive to set up
Source Comparison	Software used by the auditor to compare the source version of a program with a secure master copy	<ul style="list-style-type: none"> ◆ Compares source code line by line and identifies all differences ◆ Useful when testing integrity controls or particularly important program procedures 	<ul style="list-style-type: none"> ◆ Other procedures are necessary to ensure that the executable version reflects the source code examined ◆ Requires some degree of skill to use and to interpret the results ◆ Availability restricted to certain machine types
Test Data - “Live”, “Dead”, Integrated Test Facility or Base Case System Evaluation	Fictitious data applied against the client’s programs either whilst they are running or in an entirely separate operation. The results of processing the fictitious data are compared with the expected results based on the auditor’s understanding of the programs involved	<ul style="list-style-type: none"> ◆ Performs a wide variety of tasks ◆ Gives considerable comfort about the operation of programs ◆ Can be precisely targeted for specific procedures within programs 	<ul style="list-style-type: none"> ◆ “Dead” test data requires additional work for the auditor to satisfy himself the right programs were used ◆ Care must be taken to ensure that “live” data does not impact actual results ◆ Technique can be expensive to set up and cumbersome to use ◆ Adequate for detection of major error but less likely to detect deep-

		◆ Long term economies	seated fraud
Tracing	Software used by the auditor to identify which instructions were used in a program and in what order	◆ Helps to analyse the way in which a program operates	<ul style="list-style-type: none"> ◆ There may be less costly ways to achieve the same objectives, although not in the same detail ◆ Requires a high degree of skill to use and to interpret the results ◆ Adaptation needed from machine to machine

GUIDANCE NOTE ON AUDIT OF CAPITAL AND RESERVES¹

The following is the text of the Guidance Note on Audit of Capital and Reserves, issued by the Council of the Institute of Chartered Accountants of India. The Guidance Note should be read in conjunction with the Standards on Auditing issued by the Institute.

INTRODUCTION

1. Capital and reserves constitute the owners' funds. Capital comprises both the amounts contributed by the owners and the profits capitalised over a period of time (by way of issue of bonus shares in case of corporate entities or by way of crediting the retained earnings to the capital account in case of non-corporate entities).
2. Capital may consist of various classes of shares with varying voting rights in case of corporate entities.
3. Reserves are the portion of earnings, receipts or other surplus of an enterprise (whether capital or revenue) appropriated by the management for a general or a specific purpose other than a provision for depreciation or diminution in the value of assets or for a known liability. Reserves comprise both capital and revenue reserves. Ordinarily, revenue reserves are retained earnings, whereas the capital reserves may constitute both retained capital profits and owners' contribution in the form of premium on issue of shares and surpluses resulting from re-issue of forfeited shares. Revaluation reserve arising from revaluation of fixed assets is also a capital reserve.
4. The auditor, in many audit engagements, particularly those relating to corporate entities, may find very few changes in the capital account and/ or reserve accounts. However, the transactions in the capital and reserve accounts are normally material in amount in addition to being significant in nature and, therefore, each transaction in these accounts requires careful attention.
5. In any auditing situation, the auditor employs appropriate procedures to obtain reasonable assurance about various assertions (see Standard on Auditing (SA) 500, *Audit Evidence*). In carrying out the audit of capital and reserves, the auditor is particularly concerned with obtaining sufficient appropriate audit evidence to corroborate the management's assertions regarding the following:

¹ Issued in January, 2006. Attention of the readers is invited to the fact that prior to the issuance of this Guidance Note, the aspect of audit of Capital and Reserves was covered by paragraphs 8.1 to 8.18 of the Statement on Auditing Practices. The Statements was withdrawn pursuant to the issuance of the Guidance Note on Audit of Payment of Dividend in August 2005.

<i>Existence:</i>	that the recorded amounts of capital and reserves exist at the given date
<i>Occurrence:</i>	that the transactions recorded in the capital and reserve account(s) occurred during the period under audit
<i>Obligation:</i>	that the amounts appearing in the capital and reserves account(s) are in fact a liability of the entity
<i>Completeness:</i>	that there are no unrecorded transactions in respect of capital and reserves account(s)
<i>Measurement :</i>	that the transactions in the capital and reserves account(s) have been recorded at the proper amount
<i>Valuation:</i>	that the amounts recorded in the capital and reserve account(s) are recorded at appropriate carrying value
<i>Presentation and disclosure:</i>	that the items of capital and reserves have been disclosed, classified, and described in the financial statements in accordance with recognised financial reporting framework applicable to the client.

6. The principal objectives of the auditor in the examination of capital and reserves, therefore, are:

- (a) to ascertain that amounts shown in capital and reserve account(s) as at the balance sheet date are correct;
- (b) to determine that all transactions during the year, affecting owners' funds were properly authorised and recorded;
- (c) to examine whether the applicable laws and regulations and terms of issue/ agreement, if any, have been complied with; and
- (d) to verify whether these amounts have been properly classified and disclosed in the financial statements.

INTERNAL CONTROL EVALUATION

7. Paragraph 2 of the Standard on Auditing (SA) 400, *Risk Assessments and Internal Control*, requires the auditor to obtain an understanding of the accounting and internal controls relating to capital and reserves sufficient to plan the audit and develop an effective audit approach. Paragraph 1 of the SA 500 requires the auditor to "obtain sufficient appropriate audit evidence through the performance of compliance and substantive procedures to enable him to draw reasonable conclusions therefrom on which to base his opinion on the financial information". Paragraph 1 further states:

"Compliance procedures are tests designed to obtain reasonable assurance that those internal controls on which audit reliance is to be placed are in effect.

Substantive procedures are designed to obtain evidence as to the completeness, accuracy and validity of the data produced by the accounting system."

In certain cases, the client may employ a third party to carry out any of its transactions in respect of capital and/ or reserves. For example, it is quite common for listed companies to

III.126 Auditing Pronouncements

outsource the administrative aspects related to allotment, issuance of share certificates, share transfer, maintenance of records of shareholders, etc. In such situations, the auditor, as required by Standard on Auditing (SA) 402, "*Audit Considerations Relating to Entities Using Service Organisations*", should also consider how such arrangements affect the client's accounting and internal control system so as to plan and develop an effective audit approach.

8. In the case of non-corporate entities, the auditor needs to ascertain general terms and conditions regarding contribution of capital, interest payable on capital, interest chargeable on withdrawals, limits imposed on withdrawals, etc. In respect of corporate entities, the auditor should particularly review the following aspects of internal controls relating to capital and reserves:

- (a) *Proper authorisation of transactions*: All transactions in the capital and reserves accounts such as issue of fresh shares and allotment, buy back of shares, forfeiture, making calls on the shares, should be properly authorised as required by the Companies Act, 1956. Outsourcing of any services, e.g., depository services should also be with the proper authorisation of a competent authority. The authority to sign the share certificates may be delegated to a person as per the laws applicable to the entity.
- (b) *Proper control over issue and custody of share certificates*: In case where shares are in the physical form, the auditor is required to examine that proper internal control system exists to ensure that the share certificates are pre-numbered, proper accounts are maintained for certificates cancelled due to defacement, wear out, exhaustion of cages to record transfer particulars, dematerialisation. The auditor should examine whether blank share certificates are under the lock and control of the company secretary or some other responsible officer of the entity. He should also examine whether at least one officer of the entity personally signs the share certificates issued, though other signatures can be facsimile type and whether such a signing officer also verifies the register of share certificates, wherein the issue particulars are recorded. It may be noted that share certificates are generally issued for a fixed lot of shares (marketable lot, or some other predetermined denomination).
- (c) *Allotment and call intimations etc.*: The auditor should examine whether allotment of shares and calls is done pursuant to a resolution of the Board and that proper internal controls exist for despatch of allotment advices and call letters.
- (d) *Internal control on receipts and accounting of application, allotment and call money*: Internal controls applicable for receipt and accounting of money received on application, allotment and calls need to be evaluated. Proper records should be maintained for recording the said transactions. Periodical reconciliation of bank accounts opened specially for transactions in capital account have to be made.
- (e) *Maintenance of adequate records*: The auditor should verify whether proper system of internal controls for documentation is in operation. It includes maintenance of proper and adequately detailed records in respect of the details of members, share certificate stock ledger, duplicate certificates, cancelled certificates, etc.

- (f) *Proper control over issue of instructions to depository participants*: There should exist proper controls over issue of instructions to and for execution of requests received from the depository participants for the dematerialisation/re-materialisation of shares and proper records are required to be maintained for recording such transactions.

INTERNAL CONTROLS RELATING TO OUTSOURCED ACTIVITIES

9. For the efficient carrying out of the day to day transactions like issue of share certificates/instructions to depository participants for the credit of shares on allotment, either on public issue or rights issue, issue of call letters, etc., authority may be delegated, at the general meeting, to registrars and share transfer agents. In such cases, the auditor should follow the procedures described by the SA 402.

VERIFICATION

10. Verification of capital and reserves may be carried out employing the following procedures:

- (i) examination of records;
- (ii) examination of compliance with laws and regulations and terms of issue/ contract, if any; and
- (iii) examination of presentation and disclosure.

11. The nature, timing and extent of substantive procedures to be performed is, however, a matter of professional judgment of the auditor which is based, *inter alia*, on the auditor's evaluation of the effectiveness of the related internal controls.

ENTITIES OTHER THAN PARTNERSHIPS AND SOLE PROPRIETORSHIPS

Examination of Records

Capital

Authorised Capital

12. The authorised capital shown in the balance sheet should be checked with the Memorandum of Association in case of a company, registered byelaws in case of a co-operative society, relevant statute or the Government Order in case of a statutory corporation or other body corporate. The auditor may also refer the audited balance sheet of the immediately preceding year.

13. The minutes of the general meeting and/ or Board should be examined to see, if any, change in the capital structure has taken place since the last balance sheet and whether it is properly authorised. A company, having a share capital, in terms of the provisions of section 94 of the Companies Act, 1956 may change its share capital as follows:

- (i) increase its share capital by such amount as it thinks expedient by issuing new shares
- (ii) consolidate or divide all or any of its share capital into shares of larger amount than its existing shares

III.128 Auditing Pronouncements

- (iii) convert all or any of its fully paid up shares into stock, and reconvert that stock into fully paid-up shares of any denomination
- (iv) sub-divide its shares, or any of them, into shares of smaller amount than is fixed by the memorandum
- (v) cancel shares which, at the date of passing of the resolution in that regard, have not been taken or agreed to be taken by any person, and diminish the amount of its share capital by the amount of the shares so cancelled

In such cases, the auditor should also examine the copy of the documents filed with the Registrar of Companies in relevant form along with the specified fee pursuant to the requirements of section 97 of the Companies Act, 1956. In addition to the situations envisaged in section 94 of the Companies Act, 1956, the auditor should also enquire whether the Central Government has, under Section 81(4) ordered or directed under Section 94A(2) of the Companies Act, 1956, the conversion of debentures or loans into share capital, resulting in an increase in the authorised capital of the company. The authorised capital may also undergo a change, as a consequence of a merger or a demerger. Similarly, in case of statutory corporations, amendments made to the statute governing the entity or the Government Order in case of other public sector bodies should be enquired into.

Issued and Subscribed Capital

14. *Issued Capital:* The following records/documents would ordinarily provide necessary evidence for issued capital:

- (a) The minutes of the general and/ or board meetings for further issue of shares, e.g., under section 81 of the Companies Act, 1956;
- (b) Offer documents, if any, filed with the Securities and Exchange Board of India (SEBI)/Registrar of Companies (ROCs) and Reserve Bank of India (RBI) in respect of permission in case of ADR/GDR issue.
- (c) Return of allotment filed with the Registrar of Companies.

15. *Subscribed Capital:* Shares subscribed in response to the issue of capital can be verified by reviewing the applications received for the subscription of shares. The subscribed capital is the capital for which the application money is received. The subscribed share capital cannot exceed the issued capital.

Paid up capital

16. Periodical reconciliation of outstanding shares held in demat and physical form as on book closure/ record date should also be done.

17. The auditor should review the minutes books of Board of Directors and the members and also any amendments made to the statutory register to ascertain whether any changes have taken place in the capital of the entity, for example –

- A. Increase in capital due to:
- (i) Fresh issue of shares/ADR/GDR.
 - (ii) Allotment of shares pursuant to merger/amalgamation or acquisition of property or services.
 - (iii) Part/full conversion of loans or debentures
 - (iv) Allotment of shares pursuant to exercise of option either by the promoters or the employees or other option holders.
 - (v) Allotment of Bonus shares
 - (vi) Rights issue
- B. Decrease in capital due to:
- (i) Forfeiture
 - (ii) Buy-back of shares
 - (iii) Redemption of redeemable preference shares
 - (iv) Reduction of capital
 - (v) Surrender of shares as in the case of Co-operative societies
 - (vi) De-merger

18. A list of members, together with shares held by them and the amounts paid-up thereon, should be available with the company/entity as at the balance sheet date and the aggregate of these should agree, with the details of capital shown in the balance sheet. A copy of the annual return for the previous year filed under the Companies Act, 1956 or any other statute or a list of members prepared for issuing dividend warrants may also be examined. If the auditor chooses to verify the list of members as per the annual return or list of members prepared for issuing dividend warrants, he should also check the reconciliation with the amount as at the balance sheet date, with the changes occurred during the period from the date of balance sheet and record date/ book closure date. Where the registration work is carried out by independent specialised agencies, a certificate, containing the list of members, the number of shares held, including those in the demat form and physical form and amount paid up on these shares and calls in arrears, if any, should be obtained and reconciliation of the particulars with the amount credited as paid up in the share capital account of the General Ledger be checked on a test basis.

19. If a change in the capital has taken place during the year under audit, inquiries should be made to ascertain that it is properly authorised in the manner prescribed by the Articles and appropriate resolutions have been passed with requisite majority.

20. The auditor should enquire whether the Central Government has passed any order under Section 108 or Section 250 of the Companies Act, 1956 freezing the voting rights of any shareholders. It may be noted that there are provisions in the Banking Regulation Act, 1949

III.130 Auditing Pronouncements

limiting the voting rights of a person. Similarly, the Co-operative Societies Act, 1912 provides for issue of two types of shares, one having voting rights and other not having voting rights. The Companies Act, 1956 also provides for issue of shares with non voting rights. These matters have a bearing while examining the validity of the resolutions passed by the members of the entity. The auditor should, therefore, also check that the classes of shares have been appropriately disclosed.

Subscription in Cash and Kind

21. The law requires a distinction to be made between shares subscribed for in cash and shares subscribed for consideration other than in cash. Shares subscribed for in cash should include only the following kinds of subscription: -

- (a) where the subscription amount is received either in cash or by cheque;
- (b) where the amount is adjusted against a *bona fide* debt payable in money at once by the company.

There might be situations where a company has taken a loan under a stipulation that in case of default in repayment of the loan, the loan would get converted into shares. In such a situation, on a default in repayment of the loan by the company, if the loan gets converted into shares in the company, such shares would be considered as having been allotted for cash. Where shares are allotted against credit balance in a person's account, inquiry should be made as to how the credit balance in that account has arisen, whether it was for a valid consideration and whether the amount was due for payment at the time of issue.

22. The Department of Company Affairs² has clarified through its circular No. 8/32(75) 77-CL-V dated 13th March, 1978, that a genuine debt adjusted against the amount receivable towards share capital can be treated as amount paid in cash. The extracts from the advice received from an eminent Counsel in this regard are given as **Appendix A** to this Guidance Note.

23. Where the subscription for share capital is paid into a bank account in a foreign country, it should be verified that the amount deposited in the foreign currency is in accordance with the terms of issue and such an amount as, if remitted into India on the day on which the deposit is made in the foreign country, would have realised in Indian rupees a sum equal to the amount credited as paid up and premium, if any, on the shares. The auditor should verify that the guidelines issued by SEBI for inviting, collecting and recording of foreign capital have been complied with by the company. The foreign exchange fluctuations, if any, should be accounted for in the balance with bank in accordance with the provisions of Accounting Standard 11, *Accounting for the Effects of Changes in Foreign Exchange Rates*.

24. *Issue of Shares for Consideration Other than Cash:* Shares may also be issued for a consideration other than cash, e.g., for supply of machinery or technical know-how. The auditor should examine the underlying agreement in respect of the same and verify whether the agreement has been properly approved. The auditor should treat the shares issued for

² Now known as the Ministry of Company Affairs.

consideration other than cash separate from those issued against cash in his audit approach. He needs to verify that the consideration for which shares are issued, viz., supply of machinery or technical know-how is *prima facie* fully received.

25. Further, as per the provisions of section 75 of the Companies Act, 1956, whenever company having a share capital makes any allotment of its shares, the company has to comply with the following conditions:

- i. It has to file with the Registrar of Companies, a return of the allotment, stating the number and nominal amount of shares comprised in the allotment, the names, addresses and occupations of the allottees, and the amount if any, paid or due and payable on the shares.
- ii. In case of shares allotted for other than cash, it has to produce before the Registrar, *inter alia*, a contract in writing, constituting the title of the allottee to the allotment together with any contract of sale, or a contract for services or other consideration in respect of which allotment was made.

26. The auditor may examine the following records to the extent they are applicable to the particular circumstances, in case of increase in paid-up capital:

- (a) Final price determined in case of offer through book building process³.
- (b) Scheme of compromise or arrangement as referred to in section 394 of the Companies Act, 1956, approved by the Court.
- (c) Compromise proposal with creditors and the consequential Order of the Court or an Order of Central Government under Section 397 of the Companies Act, 1956.
- (d) Procedure and terms of reissue of forfeited shares.

27. In case the payment is allowed to be made on allotment and/ or also in instalments of one or more calls, the auditor has to verify the resolution of the Board for making calls, amount received against the calls and the posting of the amount to the correct member's account/folio. A schedule of allotment money and a schedule for each call have to be verified on test check basis and reconciled with total amount received and due on allotment and each call. If the accounting work relating to the share capital is outsourced to a Registrar and Share Transfer Agent, the auditor should follow the principles enunciated in SA 402. If the Articles of Association permit and the terms of issue state that in the event of delay in payment of either allotment money or calls, the investor has to pay interest, the auditor should verify whether such interest is collected and properly accounted for in the books of account. The auditor should review the schedules of calls in arrears and calls in advance, and ensure that interest

³ *Book Building Process*: Listed companies can also issue shares through Book Building Process. Book Building is a process wherein the issuer of securities asks investors to bid for his securities at different prices. These bids are within an indicative price-band, decided by the issuer. Here, investors bid for different quantity of shares, at different prices. Considering these bids, the issuer determines a cutoff price, which is the price at which the securities are allotted. SEBI has issued guidelines on issue of shares through Book Building Process. The auditor has to verify whether the company has complied with all the guidelines issued by SEBI in this regard and also that the basis of determination of the floor price and the final price by the company is consistent with the provisions in that regard.

III.132 Auditing Pronouncements

is provided in accordance with the Articles of Association, Offer Documents/Terms of Issue. The auditor may verify the Board Resolution, if any, for waiver of interest on calls in arrears. Interest on calls in arrears may be accounted at the time of receipt, with proper disclosure in the balance sheet for deviating from the accrual principle. The schedule of calls in arrears should show separately the amounts, if any, due from the directors. Similarly, the auditor should also examine the payment of interest on calls received in advance, if any, made by the company. He should verify whether any such payment of interest on calls received in advance is permitted by the articles of association of the company. He should also examine the Board resolution in this regard.

28. In case shares are issued at discount, the auditor has to verify the compliance of Section 79 of the Companies Act, 1956.

29. Generally, employees are offered shares at a price lesser than the market rate. Sections 79 and 79A of the Companies Act, 1956 and SEBI (Employee Stock Option Scheme and Employees Stock Purchase Scheme) Guidelines, 1999 (ESOS and ESPS), Employee Stock Option Scheme for Public Sector Enterprises and others statues governing the entity have to be complied with. Transactions relating to options are to be accounted as required by the said scheme or the Accounting Standards and provisions of any relevant statute, if any, in force, on treatment of discount etc., on ESOS/ESPS.

30. *Issue of Sweat Equity*: Section 79A of the Companies Act, 1956 deals with the issue of sweat equity by the company to its employees and directors, at a discount or for consideration other than cash for providing know-how or making available rights in the nature of intellectual property rights or value additions, by whatever name called. SEBI has also issued SEBI (Issue of Sweat Equity) Regulations, 2002 for issue of the sweat equity by the listed companies. The issue of sweat equity by unlisted companies is governed by Unlisted Companies (Issue of Sweat Equity Shares) Rules, 2003⁴. The auditor must verify that if the company has issued any sweat equity, whether the provisions of Section 79A of the Companies Act, 1956 and the Rules applicable to the company, depending whether listed or not, have been complied with.

31. Companies are now allowed to buy-back their own shares. Sections 77A and 77B of the Companies Act, 1956 lay down the conditions and procedures for buy-back of the shares of a company. In case of private limited and unlisted companies, the Private Limited Company and Unlisted Public Limited Company (Buy-back of Securities) Rules 1999, and in case of listed companies, SEBI (Buy-back of Securities) Regulations, 1998 have to be complied with. The auditor should verify particularly that the funds employed for the buy-back are from the resources as permitted by the law. The reconciliation of entries in escrow account or the bank account separately opened for payment of purchase consideration have to be verified with the number of shares bought back and price paid. The auditor should also verify the entries made in the concerned books/registers with regard to destruction of share certificates and extinguishments of dematerialised shares and a reconciliation of these two to arrive at the total number of securities purchased under buy- back process.

⁴ Issued by the Ministry of Company Affairs vide Notification number GSR 923E dated 4th December, 2003.

32. Registered Byelaws of the Co-operative Societies specify the terms and conditions for surrender of all or certain class of shares. Generally, surrender of shares is allowed only at par. The auditor has to verify the certificates surrendered vis-à-vis the payment made and the entries made in the Register of members, share certificate ledger etc.

33. In case of reduction of capital is by way of reduction of the nominal value of the shares, either by canceling unpaid portion of the partly paid shares, or extinguishing some part of the paid up capital, the auditor has to verify that the High Court Order under Section 100 of the Companies Act, 1956 for reduction of capital has been complied with. Further, he has to verify the share certificates surrendered and the statement of corresponding new share certificates issued. In case reduction is achieved by canceling fully paid shares proportionately, the auditor should also verify the surrendered shares/issue of stickers/intimation to the depositories vis-à-vis the amount reduced.

34. It may be noted that the buy-back of shares under Section 77A and redemption of redeemable preference shares under Section 80 do not attract the provisions of Section 100 of the Companies Act, 1956.

Application Money

35. Schedule VI to the Companies Act, 1956 does not prescribe the manner of disclosure of share application money. However, as a matter of prudence and better disclosure, share application money should be shown separately between "Share Capital" and "Reserves & Surpluses" in the Balance Sheet till the time share application money is transferred to the Share Capital Account. However, in the following situations, the share application money would be disclosed separately under the head "Current Liabilities" in the Balance Sheet:

- invalid or revoked applications;
- excess application money received due to over subscription; and
- when minimum subscription stated in the offer document is not received.

36. The auditor has to verify whether application money stated is fully backed by the share application forms/certificate from the Share Transfer Agent and applications are received pursuant to a resolution of the appropriate authority for issue of capital. Amount received without satisfying any of the above conditions should be refunded by the company.

37. Share application money accepted by the company, if not backed by the application form/Registrar's certificate alongwith the resolution of the Board as stated above, should be treated as unsecured loan. The auditor should verify that the application money received in excess of capital offered for subscription, if any, has been stated under Current Liabilities. The auditor may examine the reasonableness of the period for which the share application money remains pending allotment.

38. In case of refund of excess application money/revoked applications, the auditor should verify the same and apply the similar audit procedures as applied for audit of any other liability. The auditor should also verify whether the company has complied with the Guidelines prescribed by SEBI with regard to time schedule and payment of interest in case of delay in such refunds.

III.134 Auditing Pronouncements

Calls Received in Advance

39. The auditor should examine whether the calls received in advance and payment of interest, if any, thereon is in accordance with the provisions contained in the Articles of Association in this regard. Schedule of calls received in advance is to be reviewed with reference to the amounts deposited in the bank.

40. Interest, if any, paid on the amount received in advance of calls should be verified and the audit procedure to be employed is same as in case of payment of interest on borrowings.

General

41. The auditor should examine whether proper accounts have been maintained with regard to amounts received on application, allotment and calls and the payments by way of refunds/interest and all other relevant accounts are duly reconciled. Where shares are issued at a premium, the auditor should ensure that such sums are accounted for separately. In case of buy back, reissue or redemption of preference shares and reduction of capital by payment of money, the auditor should examine whether these have been properly accounted and duly reconciled with payments made for the same.

42. Proviso to section 383A of the Companies Act, 1956 requires certain companies to obtain a certificate of compliance with the provisions of the Companies Act, 1956 from a practicing company secretary. The auditor of such companies may review the same.

Reserves

43. Reserves should be distinguished from provisions. For this purpose, reference may be made to the definitions of the expressions, "provision" and "reserve", etc., in the Guidance Note on Terms Used in Financial Statements issued by the Institute. The definition of the term "reserve" as given in the said Guidance Note is explained in paragraph 3. It is important to remember that any amount provided in excess of the requirements is in the nature of reserve and should be shown as such.

44. It is also necessary to make a distinction between capital reserves and revenue reserves in the accounts. A Revenue Reserve is ordinarily available for distribution as dividend.

45. Reserves may also contain amount received from the Government. These grants may be in the nature of promoters' contribution or related to any specific fixed asset. The auditor should verify that the principles of Accounting Standard 12, *Accounting for Government Grants* for recognition, presentation, refund, if required, and disclosure of the grant have been appropriately complied with.

46. A reserve account is styled as Reserve Fund only when such reserves are represented by specifically earmarked assets or investments.

47. In case of amalgamations and mergers, reserves of the amalgamated /merged company have to be treated as prescribed in Accounting Standard 14, *Accounting for Amalgamations* issued by the Institute. However, the auditor, especially in cases of amalgamations/ mergers, may come across a situation where the relevant Court/ Tribunal has made an order sanctioning an accounting treatment different from that prescribed by an Accounting Standard.

In such a situation, the attention of the members is drawn to the announcement of the Council of the Institute in this respect. The Council has recommended that the following disclosures be made in the financial statements for the year in which different treatment has been given:

- (i) A description of the accounting treatment made alongwith the reason that the same has been adopted because of the Court/ Tribunal order.
- (ii) Description of the difference between the accounting treatment prescribed in the Accounting Standard and that followed by the Company.
- (iii) The final impact, if any, arising due to such a difference.

Capital Reserves

Capital Redemption Reserve

48. In terms of the provisions of sections 77A and 80 of the Companies Act, 1956, if the company redeems the preferential share capital or buys back its own shares, using the retained earnings, the amount equivalent to the nominal value of the shares redeemed/bought back have to be transferred to the capital redemption reserve, and such reserve can be utilised only for issue of bonus shares to the members of the company.

Securities Premium Account

49. Any premium realised on issue of securities should be transferred to Securities Premium Account and utilised only for the purposes laid down in section 78 of the Companies Act, 1956.

Government Grants

50. Grants, contributions and subsidies received from Government specifically for acquisition of assets have to be treated and disclosed in the financial statements as laid down in Accounting Standard 12, issued by the Institute.

Revaluation Reserve

51. Reserves arising out of revaluation of fixed assets are to be transferred to the Revaluation Reserve account. The treatment and utilisation of these reserves is governed by the "Guidance Note on Treatment of Reserve Created on Revaluation of Fixed Assets" and "Guidance Note on Availability of Revaluation Reserve for Issue of Bonus Shares" issued by the Institute.

Statutory Reserves

52. Section 17 of the Banking Regulation Act, 1949 and certain provisions in the Co-operative Societies Act, 1912 provide for creation and utilisation of certain specific reserves. Laws governing other entities may contain similar provisions as to the creation and utilisation of such reserves. The regulators may also direct the entities to create some specific reserves, for example, the Reserve Bank of India has directed all banking companies to create and transfer certain amount of profits earned on trading of investments to Investment Fluctuation Reserve and has also stipulated the purpose for which such reserve can be utilised. The

auditor should familiarise himself with such regulatory directions with respect to creation and utilization of such specific reserve and verify compliance therewith.

Revenue Reserves

53. A revenue reserve is a reserve, which is available for distribution as dividend. The auditor should examine the legal provisions governing the entity with regard to transfer of certain percentage of profits to reserves, for example, the requirements of section 205 (2A) of the Companies Act, 1956, the Reserve Bank of India Directions in case of Non Banking Financial Companies, etc.

54. Certain other statutes may require transfer of profits to reserves. For example, the Income-tax Act, 1961 may require creation of certain reserves and provide for rules for utilisation of such reserves to claim certain fiscal benefits. The auditor should examine the need for transfer of profits to reserves and utilisation of such transfers.

Examination of Compliance with Laws and Regulations

55. Standard on Auditing (SA) 250, *Consideration of Laws and Regulations in an Audit of Financial Statements* requires that “when planning and performing audit procedures and in evaluating and reporting the results thereof, the auditor should recognise that non compliance by the entity with laws and regulations may materially affect the financial statements.” The auditor should therefore acquire sufficient knowledge of the legal and regulatory framework within which the client operates. This assumes added importance in cases of audit of capital and reserves of companies since the matters relating to the share capital and reserves are governed by the provisions of the Companies Act, 1956, especially the provisions contained in sections 69 to 116, section 177C, section 205(2A) of the said Act. For example, sections 69 to 116 of the Companies Act, 1956 regulate the matters relating to issue and allotment of shares, section 205 (2A) and section 177C of the Companies Act, 1956 contain provisions relating to creation and utilisation of certain reserves and section 187C deals with the situation where the beneficial owner of the shares of the company is different from the person whose name is appearing in the shareholders’ register of the company. Guidelines issued by the Securities and Exchange Board of India from time to time also contain the matters relating to the issue and allotment of shares in case of public offer and substantial acquisition of shares in case of existing listed companies. Moreover, the Articles of Association of the entity may also have provisions relating to share capital and reserves. The Companies Act, 1956 requires compliance with the Articles of Association in so far as they are not contradictory to the provisions of the Act. Hence, it is very important to verify the compliance with the laws and regulations governing the entity.

56. The State Co-operative Societies Acts may have conditions as to minimum paid up capital and also minimum number of members for co-operative societies and with regard to creation and utilisation of various reserves. Statutes governing the entity may contain similar provisions with regard to the number of members and minimum amount of capital. The auditor should be familiar with the laws governing the entity. The auditor has to carefully examine the compliance of such legal requirements.

57. The auditor has to examine the compliance with the various rules and regulations, for example:

- (a) Government Order, if any, the Memorandum and the Articles of Association of the company or the Rules and Regulations governing the entity.
- (b) Terms of issue attached or subsequently approved in case of conversion of loans or convertible preference shares.
- (c) Issue of Foreign Currency Convertible Bonds and Ordinary Shares (Through Depository Receipt Mechanism) Scheme, 1993 and Guidelines on Euro Issues.
- (d) Rules and Regulations relating to issue and buy back of ADR/GDR.
- (e) Chapter XIII of SEBI (Disclosure and Investor Protection) Guidelines 2000 in case of preferential issue.
- (f) Unlisted Public Companies (Preferential Allotment) Rules, 2003.
- (g) Unlisted Companies (Issue of Sweat Equity Shares) Rules, 2003.
- (h) Any other Rules and Regulations prescribed by Government/SEBI from time to time.

Examination of Presentation and Disclosure

58. The laws governing the entity may prescribe the format for disclosure of information relating to the Capital and Reserves in its Balance Sheet. For example, the Companies Act, 1956, the Banking Regulation Act, 1949, the Electricity Act, 2003 and Insurance laws prescribe the format of Balance Sheet and the manner of disclosure of the capital and reserves in the financial statements. The auditor should examine compliance with such disclosure requirements and adequacy thereof. Where the relevant statute lays down any disclosure requirements in this behalf, the auditor should examine whether the same are complied with, for example, SEBI requires that in case of public issue and preferential issue of shares and/or partly/fully convertible debentures, purpose for which these monies are utilised and the manner in which the unutilised money is invested should be disclosed. Sometimes, it may be necessary to disclose the information either in the Significant Accounting Policies and Notes on Accounts to clarify the matters, for example, any employee options outstanding, etc. The auditor should examine such necessity and consider whether appropriate disclosures such as those listed below have been made:

- Aggregate number and class of shares allotted as fully paid up pursuant to contract(s) with or without payment being received in cash
- Aggregate number and class of shares allotted as fully paid by way of bonus shares
- Aggregate number and class of shares bought back
- Source of issuance of bonus shares during the year, if any
- Preference Share Capital, including terms of redemption or conversion
- Shares with differential rights

SPECIAL CONSIDERATIONS APPLICABLE TO PARTNERSHIP ENTITIES

59. The most significant document underlying the partnership form of organisation is the Partnership Deed.

60. The Partnership Deed generally provides the capital required to be contributed by the partners and their respective share in profits and losses and interest, if any, on the capital contributed or balances to their credit. The Partnership Deed may also provide for the treatment of excess capital contributed by any partner and their respective rights relating to the withdrawals from capital/drawing accounts.

61. It may be possible that one or more partners contributes the capital in kind rather than in cash. For example, the premises required for the business may be provided by a partner as his capital contribution. If such contributions are in kind at the time of admission of the partners, the value of such assets is generally mentioned in the Partnership Deed. If the value is not mentioned in the Partnership Deed, the auditor may request for a declaration of the value in writing by all the partners. He should also obtain necessary audit evidence for supporting the valuation.

62. The partnership deed may also provide for fixed capital contribution and timing of contribution by each partner. The auditor should examine whether the capital contributed by each of the partners is in accordance with the Partnership Deed and the capital is maintained at the level mentioned in the Partnership Deed throughout the period of audit.

63. If the Partnership Deed places any restrictions on the drawings of the partners, the auditor should examine whether the drawings have been within the permissible limit.

64. The auditor has to verify the correctness of the interest, if any, credited or debited to the partners' capital or drawings account.

65. Generally, remuneration, interest on capital, interest on drawings, profits or losses are adjusted in the capital accounts or the drawing accounts of the partners, and Reserve accounts are not maintained in case of partnership accounts. However, if fiscal or any other law require any reserve has to be created for claiming any benefit, a reserve with appropriate title may be created out of the profits of the firm. The rules for utilisation of the reserve may be provided in the relevant laws. In such event, the auditor should examine the compliance with the same. Sometimes, the partners may decide to create and utilise certain reserves due the exigencies of the business, in which case the auditor has to verify the compliance of the decision of the partners. In case the entity has not complied with the prescribed reserve utilization requirements, he should consider the effect of the same on his audit report in terms of the principles laid down in the SA 250, *Consideration of Laws and Regulations in an Audit of Financial Statements*.

66. Special Reserves, created to meet the requirements of any law, may be credited to the Partners' Capital Accounts on fulfillment of such statutory requirements or the terms of creation of such reserves.

67. Government grants and subsidies received shall have to be accounted for in accordance with Accounting Standard 12.

68. Where either investments or drawings have come from Non Resident Indians or foreign sources involving foreign currency, the auditor has to verify the compliance of RBI regulations as well as the provisions of the Foreign Exchange Management Act, 1999 in this regard.

69. All transactions in the partners' capital account and drawings account have to be vouched for their correctness.

70. The auditor has to verify that the distribution of profit/loss is as per the terms of Partnership Deed. It may be noted that if any minor is admitted to the benefits of partnership, no loss should be apportioned to the share of minor.

71. If a partner dies/retires during the year, the partnership entity may prepare accounts up to the date of such death/retirement to ascertain the claim of heirs/retiring partner. In such event, the auditor has to verify the apportionment of the profit/loss for both the periods.

SPECIAL CONSIDERATIONS APPLICABLE TO A SOLE PROPRIETARY ENTITY

72. The audit of capital account of the sole proprietor poses considerable problems, as the capital account is generally maintained as a current account. Generally, the entries in the capital account are many, when compared with other forms of entities. The capital introduced by the proprietor in the entity may be in cash or in kind. The introduction of capital can take place at number of times, depending upon the need for the working capital in the entity. Similarly, the drawings are made for various personal expenses.

73. It may also be possible that the personal expenses of the proprietor are booked in the accounts of the business without appropriately reflecting them in those accounts.

74. Generally, internal control procedures are inadequate or absent in many sole proprietary entities. Hence, the auditor should be careful while examining the accounts of such entity. Though the auditor needs to obtain the same level of assurance in order to express an unqualified opinion on the financial statements of both small and large entities, however, many internal controls which would be relevant to large entities are not practical in the small business. For example, in small businesses, accounting procedures may be performed by a few persons who may have both operating and custodial responsibilities, and therefore segregation of duties may be missing or severely limited. Inadequate segregation of duties may, in some cases, be offset by a strong management control system in which owner/manager supervisory controls exist because of direct personal knowledge of the entity and involvement in transactions. In circumstances where segregation of duties is limited and audit evidence of supervisory controls is lacking, the audit evidence necessary to support the auditor's opinion on the financial statements may have to be obtained entirely through the performance of substantive procedures. He should apply his professional judgment based on the knowledge of the business he has acquired to determine whether the expenditure recorded is in fact relevant and appropriate to the business and also all expenditures are recorded in the books of account.

75. The auditor should examine the nature of assets included in the balance sheet of the entity and verify whether such assets are relevant and appropriate to the nature of the business and recorded at fair value.

III.140 Auditing Pronouncements

76. Generally profits or losses are adjusted in the capital account or the drawings account of the proprietor, and reserve accounts are not maintained in case of sole proprietorship accounts. However, if fiscal laws require any reserve to be created for claiming any fiscal benefit, a reserve account with appropriate title may be created out of the profits of the firm. The rules for utilisation of the reserve account may be provided in the same fiscal laws. In such event the auditor should examine the compliance with such laws.

77. Special Reserves created, if any, pursuant to fiscal laws, upon fulfillment of the terms of such reserves, have to be transferred to the capital account of the sole proprietor.

78. Government grants and subsidies received shall have to be accounted for in accordance with Accounting Standard 12.

MANAGEMENT REPRESENTATIONS

79. The auditor should obtain from the management of the entity, a written representation on significant aspects of capital and reserves accounts, viz., that all the transactions in the capital and reserves have been recorded and recorded at correct values; that there are no unrecorded transactions in the capital and reserves accounts, that the year end balances (including any notes to the accounts in respect thereof) of the capital and reserves accounts have been appropriately presented and disclosed in accordance with applicable financial reporting framework, in the financial statements, that the management has complied with all the applicable rules and regulations while undertaking transactions relating to capital and reserves.

DOCUMENTATION

80. The auditor should maintain adequate working papers documenting significant aspects of audit such as:

- (a) the nature, timing, extent and results of the audit procedures performed to comply with Standards on Auditing and applicable legal and regulatory requirements;
- (b) the audit evidence obtained;
- (c) the conclusions reached on significant matters ; and
- (d) in relation to audit procedures designed to address identified risks of material misstatement, conclusions that are not otherwise readily determinable from the procedures performed or audit evidence obtained.

However, it may be noted that the extent of documentation is a matter of professional judgment since it is neither necessary nor practical that every observation, consideration or conclusion is documented by the auditor in his working papers.

Appendix A

Extracts from Counsel's opinion referred to in Para 22 – “Subscription in Cash and Kind”

“The ratio of Spargo's case is that if there is on the one side a bona-fide debt payable in money at once by the company (hereinafter called “debt”), and on the other side a bona-fide

liability to pay money on allotment of shares, so that if bank notes are handed from one side of the table to other in payment of calls, they may legitimately be handed back in payment of the debt. The law does not make it necessary that the formality should be gone through of the money being handed over be taken back again, and if the two demands are set off against each other the shares have been paid for in cash. This is still good law and on facts similar to those of Spargo's case it would be right for a company to show in its accounts the shares as having been allotted for cash.

It is the necessary implication of Section 227(1A)(f) that shares may be correctly stated to have been allotted for cash even though cash may not have been actually received in respect of such allotment If the Auditors find that the case is covered by the ratio of the decision in Spargo's case, no comment would be required from the Auditors and the statement in the Balance Sheet and other accounts that the shares were allotted for cash must be accepted as correct, regular and not misleading, although no cash had been actually received by the company.....

The function of Section 75(1) is merely to impose an obligation on the company to file a Return of the Allotments with the Registrar. Now, the expression "share allotted for cash" is an ambiguous expression. It may mean shares allotted for cash actually received by the Company, or it may mean shares allotted for cash not actually received but adjusted against a debt. In order that this ambiguity may be removed and the Registrar may know the precise factual position, Section 75(1)(a) requires that in the Return of Allotments to be filed with the Registrar shares should not be shown as having been allotted for cash if cash has not been actually received. This, however, does not prevent the company from stating in the Return that shares not shown in the Return as having been allotted for cash were in fact allowed against adjustment of a debt, and consequently such shares would be shown in the company's accounts as having been allotted for cash."

GUIDANCE NOTE ON AUDIT OF PAYMENT OF DIVIDEND*

The following is the text of the Guidance Note on Audit of Payment of Dividend issued by the Auditing and Assurance Standards Board of the Council of the Institute of Chartered Accountants of India. This Guidance Note should be read in conjunction with the Standards on Auditing issued by the Institute.

1. Paragraph 2.1 of the “Preface to the Statements on Standard Auditing Practices¹” issued by the Institute of Chartered Accountants of India states that the “main function of the Auditing Practices Committee (APC)² is to review the existing auditing practices in India and to develop Statements on Standard Auditing Practices (SAPs)³ so that these may be issued by the Council of the Institute”. Paragraph 2.4 of the Preface states that the “APC will issue Guidance Notes on the issues arising from the SAPs wherever necessary”.
2. The Auditing and Assurance Standards Board has also taken up the task of reviewing the Statements on auditing matters issued prior to the formation of the Board. It is intended to issue, in due course of time, Engagement Standards or Guidance Notes, as appropriate, on the matters covered by such Statements which would then stand withdrawn. Accordingly, with the issuance of this Guidance Note on Audit of Payment of Dividends, paragraphs 8.19 to 8.24 of the “Capital and Reserve” section of “Statement on Auditing Practices” shall stand withdrawn.⁴

Introduction

3. Guidance Note on Terms Used in the Financial Statements, issued by the Institute, defines dividend as “A distribution to shareholders out of profits or reserves available for this purpose”.
4. Dividend means a return on shares held in an entity and payable out of distributable surplus. The dividends, which are paid on winding up, are in fact distribution of the entity’s assets and not of profits, even if those assets include some profit earned on winding up of the entity. However, the proviso to section 205(3) of the aforementioned Act permits a company to

* Issued in August, 2005.

¹ The said Preface has been withdrawn pursuant to issuance of the Revised “Preface to Standards on Quality Control, Auditing, Review, Other Assurance and Related Service”, by the Institute of Chartered Accountants of India. The Revised Preface is effective from April 1, 2008. The text of the revised Preface is reproduced in the Vol-I.A of this Handbook.

² Now known as the Auditing and assurance Standards Board (AASB).

³ Now known as Engagement Standards.

⁴ Since the Statement was withdrawn in March, 2005, the entire paragraph is redundant.

capitalise its profits by issuing fully paid bonus shares or paying up any amount being unpaid on shares held by its members. Further, under section 205(3) of the Companies Act, 1956, no dividend is payable otherwise than in cash.

5. Dividend includes any interim dividend. It may also be noted that in case of a company, provisions of section 205, 205A, 205C, 206, 206A and 207 of the Companies Act, 1956 apply to interim dividend as well.

6. In any auditing situation, the auditor employs appropriate procedures to obtain reasonable assurance about various assertions as laid down in paragraph 6 of the Standard on Auditing 500, "Audit Evidence". In carrying out the audit of payment of dividends, the auditor's primary objective is to obtain sufficient appropriate audit evidence to satisfy himself that dividend has been declared and paid in accordance with the applicable provisions, if any, of the relevant laws and regulations applicable to the entity and that all the transactions relating to declaration and payment of dividend have been properly accounted for and disclosed. The auditor's scope of examination would, therefore, include:

- (a) verifying whether dividend has been declared out of distributable surplus after proper authorisation, as required under law;
- (b) evaluating the internal control system regarding procedure of preparation and issuance of dividend warrants /instructions for direct transfer of funds to the shareholders' accounts and also check the timeliness of dispatch of warrants and deposition of the dividend amount in the separate bank account, if any, maintained for this purpose;
- (c) examining compliance with the requirements of the relevant laws and regulations relating to payment of dividend, for example, mandatory transfer to a reserve fund or transfer to other funds, such as unclaimed dividend account., Investor Education and Protection Fund, etc., as applicable to the entity; and
- (d) examining the system for recording and appropriate disclosure of transactions during the year relating to payment of dividend.

Internal Control Evaluation

7. The auditor should ascertain whether the governing charter, for example, Articles of Association in case of a company, or any similar document of the entity, permits payment of dividend to the members by the entity. For example, a company formed under section 25 of the Companies Act, 1956 is prohibited under the said section itself from paying any dividend to its members.

8. The auditor should study and evaluate the system of internal control relating to payment of dividend to determine the nature, timing and extent of his other audit procedures. He should particularly review the following aspects relating to payment of dividend:

- (a) whether all transactions in the dividend account have been authorised by the competent

III.144 Auditing Pronouncements

authority;

- (b) whether the registers containing the details of members and dividend have been properly maintained by the entity;
- (c) whether there is an effective system of segregation of duties in place. Special attention should be given to the segregation of the duties towards maintenance of shareholders' register, preparation of dividend warrants and maintenance of warrant dispatch register;
- (d) the internal control procedures with regard to preparation of dividend warrants and posting them to the members, or the instructions given for electronic transfer of funds or any other mode of payment of dividend to the members, and records maintained to record the details of unclaimed dividend. Separate records of unclaimed dividend should be maintained for each year's dividend/interim dividend;
- (e) the procedures for payment of unclaimed dividend and should satisfy himself that they are not paid without adequate safeguards being taken as to identification of the payee, checking of the payee's claim, etc.

In case, the above activities are outsourced, the auditor should evaluate the activities of the service organisation and if finds them significant, he should obtain sufficient information to understand the accounting and internal control systems of the service organisation and assess control risk at either the maximum or a lower level, as appropriate, if tests of control are performed. For detailed guidance in this respect, reference may be made to Standard on Auditing 402, "Audit Considerations Relating to an Entity Using a Service Organisation."

Verification

9. Verification of payment of dividend may be carried out by performing the following procedures:

- (a) examination of compliance with laws and regulations and such other relevant information having a bearing on payment of dividend; and
- (b) examination of the system of maintenance of records.

10. The auditor should verify the compliance with laws and regulations, provisions contained in the governing charter, e.g. Articles of Association in case of companies, bye-laws or rules and directions/instructions issued by any regulatory authority applicable to the entity and/or the terms of the banks/financial institutions which may lay down certain restrictions or conditions on declaration of dividend. For example:

- (a) In case of companies, the following conditions have to be complied with before declaration of dividend:
 - ◆ It has provided for depreciation for any previous financial year(s) which fall(s) after the commencement of the Companies (Amendment) Act, 1960 [section 205(1)] and

further that such depreciation has been computed in accordance with the requirements of section 350 and other provisions of section 205(2) of the Act

- ◆ It has provided for any losses incurred in any previous financial year(s) which fall(s) after the commencement of the Companies (Amendment) Act, 1960 [section 205(1)]
 - ◆ Where the company has declared dividend for any financial year out of the profits for that year, it has also transferred to a reserve such percentage (or a higher percentage) of profits as may be prescribed in the Companies (Transfer of Profits to Reserves) Rules, 1975 [section 205(2A)]
 - ◆ It has complied with the requirements of section 80A, dealing with redemption of irredeemable preference shares etc., of the Companies Act, 1956.
- (b) Under the Banking Regulation Act, 1949, dividend can not be paid without first writing off intangible assets and transferring certain percentage of profits to statutory reserves unless permitted by the Central Government to do so. Section 17 of the Banking Regulation Act, 1949 requires that a banking company incorporated in India must transfer twenty per cent of its annual profits to a reserve fund before any dividend is distributed unless a specific exemption has been obtained from the Central Government.
- (c) State Co-operative laws lay down that certain percentage of profits have to be transferred to various reserves and a minimum percentage of profit has to be paid as dividend.

11. The auditor has to verify that the dividend is declared only out of distributable surplus. For example, in case of a company, under section 205 of the Companies Act, 1956, dividends can be distributed out of profits for the year in which dividend is declared, accumulated profits of any preceding year or under any guarantee given by Central or any State Government.

12. The auditor should verify that a specific resolution for payment of dividend has been duly passed at the meeting of the Board or any similar authority. In case of interim dividend, the dividend declared by the Board of Directors or similar authority is final. In case of final dividend, the auditor should also verify that the recommendations of the Board have been approved by the members at the annual general meeting. It may, however, be noted that in case of companies, the members can reduce the amount of dividend or decide for non-payment of dividend but they can not increase the dividend recommended by the Board.

13. If the entity has non-voting shares and/or shares with variable rights and /or preference shares with various options like, cumulative, participatory, etc., the resolution declaring the dividend should also specify different rates of dividend on the shares having variable rights or preferential rights as to dividend. In such cases, the auditor has to verify that the dividend paid is in accordance with the terms of the resolution and also the resolution is in accordance with the terms attached to these shares.

14. Other laws and regulations, relating to payment of dividend, governing the entity may impose similar or other restrictions. The auditor has to be familiar with the laws and regulations

III.146 Auditing Pronouncements

governing the entity and verify whether these laws and regulations have been complied with. For example, the auditor has to examine the compliance with provisions of the Foreign Exchange Management Act, 1999 for the payment of dividend in foreign currency pursuant to issue of shares to non-residents and issue of ADR/GDR. **Appendix** to this Guidance Note contains relevant extracts of the provisions of various statutes having a bearing on the declaration and payment of dividend.

15. In case of a listed company, the auditor should also verify whether the provisions of the Listing Agreement as to declaration of dividend, e.g., prior intimation to the Stock Exchange about the Board meeting at which declaration/recommendation of dividend is to be considered, intimation to Stock Exchanges of all dividends and/or cash bonuses recommended or declared or the decision to pass any dividend or interest payment at the Board meeting, have been complied with or not.

16. The nature, timing and extent of substantive procedures to be performed by the auditor is, however, a matter of professional judgment of the auditor which is based, *inter alia*, on the auditor's evaluation of the effectiveness of the related internal controls.

17. The auditor should examine that the mandatory transfer of the amount specified to a separate fund, where so required by the relevant laws and regulations, have been made before payment of dividend.

18. The auditor has to verify that the dividend is paid in accordance with the terms prescribed in resolution by the Board/members.

19. The auditor should verify that the dividend warrants have been dispatched to the members within the time limit prescribed.

20. If an interim dividend is declared, the auditor has to verify whether the same is approved in a general meeting of the members and the provisions contained in the Articles of Association or bye-laws or other statutes governing the body corporate permit it to pay interim dividend. In case of statutory corporations and nationalised banks, the Board may be empowered to declare and pay the dividend and resolution by the members may not be necessary. In case of companies, the auditor should verify that the financial statements have been prepared and presented before the Board and the Board while considering the interim dividend, has taken into account the depreciation to be provided for the full year, profit to be transferred to reserves under Companies (Transfer of Profits to Reserves) Rules, 1975 and the dividend payable to preference shareholders.

21. If the laws and regulations applicable to the entity require it to deposit the amount of dividend, interim and/or final, in a separate bank account, the auditor has to verify whether such transfer of funds to the separate account has been made within the prescribed time limit. The auditor should also verify the compliance of law with regard to unclaimed dividend. For example, in case of companies, the dividend declared has to be deposited within prescribed period in a

separate bank account and if dividend is not claimed within such number of days, of such transfer, as may be specified by the Companies Act, 1956 or rules made thereunder and the amount remaining in the separate bank account has to be transferred to unpaid dividend account separately opened with any scheduled bank and the amount remaining in that account after the expiry of such period of opening such unpaid dividend account, as may be prescribed together with interest accrued thereon, if any, has to be transferred to Investor Education and Protection Fund Account established under the Companies Act, 1956. It may be noted, that within specified number of months prior to the transfer of unclaimed dividend to Investor Education & Protection Fund, the company has to give notice to individuals who have not claimed such dividend. If the auditor finds that the amounts required to be transferred as above have a material effect on the financial statements, and have not been properly reflected in the financial statements, the auditor should assess the impact of such non-compliance on his audit report.

22. The auditor should verify that adjustment, if any, made in the dividend payable, towards calls in arrears or any other sums due from members is in accordance with the terms of issue, laws and regulations applicable to the entity.

23. The auditor may verify the total amount of dividend transferred to a separate bank account is in agreement with the statement prepared by the body corporate reconciling the total dividend payable on shares in physical form, dematerialised form, and dividend withheld in respect of shares pending for registration of transfer and adjustments, if any, made for the calls in arrears and other dues from the members.

24. The listed companies are required to electronically transfer dividend to bank accounts of the shareholders, wherever Electronic Clearing Services (ECS) facility is available and the members/depositories furnish details of the respective bank accounts of the members and in respect of others, distribute the dividend through dividend warrants. In such cases, in addition to test checks for individual payments, the auditor should examine the overall reconciliation of the total payment made through electronic transfer and payment made through dividend warrants.

25. The auditor should verify that the dividend is paid:

- (a) (i) in respect of shares held in electronic form, to those persons whose details as on record date/book closure date are furnished by the depositories; and/or
- (ii) in respect of shares held in physical form, to the members whose names are appearing on the record date/ immediately after effecting the transfers submitted till the date of book closure; and
- (b) in respect of share warrants to the holders of share warrants.

26. The auditor should apply the analytical procedures before forming any overall conclusion so as to find out any material fluctuations and deviations from the relevant information that he has gained during the course of audit. Such analytical procedures may be regarding the changes in the shareholding pattern, dividend pay out ratio, ratio of gross dividend payable to the paid up

III.148 Auditing Pronouncements

share capital or ratio of net dividend payable with the gross dividend payable by the entity. In case of listed companies, the auditor may also review the minutes of the meetings of the Investors' Grievances Committee, wherever such Committee exists, to have an overview of the nature and number of complaints related to dividends as the same would provide the auditor an additional evidence as to the efficacy of the internal control system in relation to payment of dividend.

27. The auditor should verify that the total amount remaining in the unclaimed dividend account, for example, because of dispute about ownership on account of court cases etc., or the amount not claimed by shareholders, tallies with the schedule of unclaimed dividend for each year for which dividend remains unclaimed.

28. The auditor has to verify that in case the entity proposes to pay dividend out of its accumulated reserves, whether the same has been paid after complying with the statutory requirements, if any. For example, a company can pay dividend out of its accumulated reserves only after complying with the provisions of sub-section (3) of Section 205A of the Companies Act, 1956 and the Companies (Declaration of Dividend out of Profits) Rules, 1975. These Rules provide for the maximum amount that can be paid as dividend. In cases where the company declares dividend that is not in accordance with these Rules, the auditor must verify that the company has obtained prior approval from the Central Government for the same. Similar provisions, if any, in the laws applicable to other entities have to be complied with.

29. The auditor should also verify that:

- (a) If capital profits are distributed as dividend:
 - (i) the Articles or the bye-laws or other rules and regulations applicable to the entity, permit such distribution; and
 - (ii) it has been realised in cash; and
 - (iii) the Board or similar authority is satisfied that net aggregate value of the assets remaining after distribution of that profit will not be less than the book values so that share capital and reserves remaining after the distribution will be fully represented by the remaining assets.
- (b) Capital surplus arising on the revaluation of fixed assets is not directly or indirectly available for distribution as dividend.
- (c) Any reserve in the nature of capital reserve arising on acquisition of a business as a going concern or on amalgamation in the nature of purchase and Securities premium collected on the issue of securities can not be utilised for declaration of dividend.

Disclosure

30. Proposed dividend should be shown as appropriation of profit in the Profit and Loss

Account and as provision under “Provisions” in the Balance Sheet.

31. Unclaimed dividends should be shown in Balance Sheet under the head “Current Liabilities”.

32. In respect of companies, all arrears of cumulative preference dividends should be shown as a contingent liability.

Management Representation

33. The auditor should obtain representation from the management of the entity about the amount retained in unclaimed dividend account by reason of disputes pending in various courts of law and also that it has complied with all laws and regulations applicable to the provisioning and payment of dividend including transfers to Unclaimed Dividend Fund or any other fund such as Investors Education and Protection Fund, where so required and that the dividend has been paid to the persons entitled to it.

Documentation

34. The auditor’s working papers should contain the plan devised for verification of payment of dividend. Among other papers, he should maintain in his audit file, the management representations and any other relevant document, such as copy of the Board resolution authorising payment of dividend, etc. He should ensure that all significant matters that require the exercise of his professional judgment, together with the auditor’s conclusion thereon have been properly included in his working papers.

Appendix

Provisions of Certain Acts and Rules With Regard to Declaration and Payment of Dividend⁵

The Companies Act, 1956

205. Dividend to be Paid only out of Profits – (1) No dividend shall be declared or paid by a company for any financial year except out of the profits of the company for that year arrived at after providing for depreciation in accordance with the provisions of sub-section (2) or out of the profits of the company for any previous financial year or years arrived at after providing for depreciation in accordance with those provisions and remaining undistributed or out of both or out of moneys provided by the Central Government or a State Government for the payment of dividend in pursuance of a guarantee given by that Government:

Provided that –

⁵ The Acts and Rules specified in this Appendix are only illustrative in nature and are not meant to be exhaustive for the purposes of the laws dealing with the payment of dividend by different entities.

III.150 Auditing Pronouncements

- (a) if the company has not provided for depreciation for any previous financial year or years which falls or fall after the commencement of the Companies (Amendment) Act, 1960 (65 of 1960) it shall, before declaring or paying dividend for any financial year provide for such depreciation out of the profits of that financial year or out of the profits of any other previous financial year or years;
- (b) if the company has incurred any loss in any previous financial year or years, which falls or fall after the commencement of the Companies (Amendment) Act, 1960 (65 of 1960) then, the amount of the loss or an amount which is equal to the amount provided for depreciation for that year or those years whichever is less, shall be set off against the profits of the company for the year for which dividend is proposed to be declared or paid or against the profits of the company for any previous financial year or years, arrived at in both cases after providing for depreciation in accordance with the provisions of sub-section (2) or against both;
- (c) the Central Government may, if it thinks necessary so to do in the public interest, allow any company to declare or pay dividend for any financial year out of the profits of the company for that year or any previous financial year or years without providing for depreciation:

Provided further that it shall not be necessary for a company to provide for depreciation as aforesaid where dividend for any financial year is declared or paid out of the profits of any previous financial year or years which falls or fall before the commencement of the Companies (Amendment) Act, 1960 (65 of 1960).

- (1A) The Board of directors may declare interim dividend and the amount of dividend including interim dividend shall be deposited in a separate bank account within five days from the date of declaration of such dividend.
- (1B) The amount of dividend including interim dividend so deposited under sub-section (1A) shall be used for payment of interim dividend.
- (1C) The provisions contained in sections 205, 205A, 205C, 206, 206A and 207 shall, as far as may be, also apply to any interim dividend.
- (2) For the purpose of sub-section (1), depreciation shall be provided either –
 - (a) to the extent specified in section 350; or
 - (b) in respect of each item of depreciable asset, for such an amount as is arrived at by dividing ninety-five per cent of the original cost thereof to the company by the specified period in respect of such asset; or
 - (c) on any other basis approved by the Central Government which has the effect of writing off by way of depreciation ninety-five per cent of the original cost to the company of each such depreciable asset on the expiry of the specified period; or

- (d) as regards any other depreciable asset for which no rate of depreciation has been laid down by this Act or any rules made there under, on such basis as may be approved by the Central Government by any general order published in the Official Gazette or by any special order in any particular case:

Provided that where depreciation is provided for in the manner laid down in clause (b) or clause (c), then, in the event of the depreciable asset being sold, discarded, demolished or destroyed the written down value thereof at the end of the financial year in which the asset is sold, discarded, demolished or destroyed, shall be written off in accordance with the proviso to section 350.

(2A) Notwithstanding anything contained in sub-section (1), on and from the commencement of the Companies (Amendment) Act, 1974 (41 of 1974), no dividend shall be declared or paid by a company for any financial year out of the profits of the company for that year arrived at after providing for depreciation in accordance with the provisions of sub-section (2), except after the transfer to the reserves of the company of such percentage of its profits for that year, not exceeding ten per cent, as may be prescribed:

Provided that nothing in this sub-section shall be deemed to prohibit the voluntary transfer by a company of a higher percentage of its profits to the reserves in accordance with such rules as may be made by the Central Government in this behalf.

(2B) A company which fails to comply with the provisions of section 80A shall not, so long as such failure continues, declare any dividend on its equity shares.

- (3) No dividend shall be payable except in cash:

Provided that nothing in this sub-section shall be deemed to prohibit the capitalization of profits or reserves of a company for the purpose of issuing fully paid-up bonus shares or paying up any amount, for the time being unpaid, on any shares held by the members of the company.

(4) Nothing in this section shall be deemed to affect in any manner the operation of the section 208.

- (5) For the purposes of this section –

- (a) “specified period” in respect of any depreciable asset shall mean the number of years at the end of which at least ninety-five per cent of the original cost of that asset to the company will have been provided for by way of depreciation if depreciation were to be calculated in accordance with the Provisions of section 350;
- (b) any dividend payable in cash may be paid by cheque or warrant sent through the post directed to the registered address of the shareholder entitled to the payment of the dividend, or in the case of joint shareholders, to the registered address of that one of the joint shareholders which is first named on the register of members, or to such person and to such address as the shareholder or the joint shareholders may in writing direct.

205A. Unpaid dividend to be transferred to special dividend account—

(1) Where, after the commencement of the Companies (Amendment) Act, 1974 (41 of 1974), a dividend has been declared by a company but has not been paid, or claimed, within thirty days from the date of the declaration, to any shareholder entitled to the payment of the dividend, the company shall, within seven days from the date of expiry of the said period of thirty days, transfer the total amount of dividend which remains unpaid or unclaimed within the said period of thirty days to a special account to be opened by the company in that behalf in any scheduled bank, to be called “Unpaid Dividend Account of Company Limited/ Company (Private) Limited”.

Explanation: In this sub-section, the expression “dividend which remains unpaid” means any dividend the warrant in respect thereof has not been encashed or which has otherwise not been paid or claimed.

(2) Where the whole or any part of any dividend, declared by a company before the commencement of the Companies (Amendment) Act, 1974 (41 of 1974), remains unpaid at such commencement, the company shall within a period of six months from such commencement, transfer such unpaid amount to the account referred to in sub-section (1).

(3) Where, owing to inadequacy or absence of profits in any year, any company proposes to declare dividend out of the accumulated profits earned by the company in previous years and transferred by it to the reserves, such declaration of dividend shall not be made except in accordance with such rules as may be made by the Central Government in this behalf, and, where any such declaration is not in accordance with such rules, such declaration shall not be made except with the previous approval of the Central Government.

(4) If the default is made in transferring the total amount referred to in sub-section (1) or any part thereof to the unpaid dividend account of the concerned company, the company shall pay, from the date of such default, interest on so much of the amount as has not been transferred to the said account, at the rate of twelve per cent per annum and the interest accruing on such amount shall ensure to the benefit of the members of the company, in proportion to the amount remaining unpaid to them.

(5) Any money transferred to the unpaid dividend account of a company in pursuance of this section which remains unpaid or unclaimed for a period of seven years from the date of such transfer shall be transferred by the company to the fund established under sub-section (1) of section 205C.

(6) The company shall, when making any transfer under sub-section (5) to the Fund established under section 205C any unpaid or unclaimed dividend, furnish to such authority or committee as the Central Government may appoint in this behalf a statement in the prescribed form setting forth in respect of all sums included in such transfer, the nature of the sums, the names and last known addresses of the persons entitled to receive the sum, the amount to

which each person is entitled and the nature of his claim thereto, and such other particulars as may be prescribed.

(7) The company shall be entitled to a receipt from the authority or committee under sub-section (4) of section 205C for any money transferred by it to the Fund and such a receipt shall be an effectual discharge of the company in respect thereof.

(8) If a company fails to comply with any of the requirements of this section, the company and every officer of the company who is in default, shall be punishable with fine which may extend to five thousand rupees for every day during which the failure continues.

205B. Payment of unpaid or unclaimed dividend— Any person claiming to be entitled to any money transferred under sub-section (5) of section 205A to the general revenue account of the Central Government, may apply to the Central Government for an order for payment of the money claimed; and the Central Government may, if satisfied, whether on a certificate by the company or otherwise, that such person is entitled to the whole or any part of the money claimed, make an order for the payment to that person of the sum due to him after taking such security from him as it may think fit:

Provided that nothing contained in this section shall apply to any person claiming to be entitled to any money transferred to the fund referred to in section 205C on and after the commencement of the Companies (Amendment) Act, 1999.

205C. Establishment of Investor Education and Protection Fund— (1) The Central Government shall establish a fund to be called the Investor Education and Protection Fund (hereafter in this section referred to as the “Fund”).

(2) There shall be credited to the Fund the following amounts, namely:

- (a) amounts in the unpaid dividend accounts of companies;
- (b) the application moneys received by companies for allotment of any securities and due for refund;
- (c) matured deposits with companies;
- (d) matured debentures with companies;
- (e) the interest accrued on the amounts referred to in clauses (a) to (d);
- (f) grants and donations given to the Fund by the Central Government, State Governments, companies or any other institutions for the purposes of the Fund; and
- (g) the interest or other income received out of the investments made from the Fund:

Provided that no such amounts referred to in clauses (a) to (d) shall form part of the Fund unless such amounts have remained unclaimed and unpaid for a period of seven years from the date they became due for payment.

III.154 Auditing Pronouncements

Explanation: For the removal of doubts, it is hereby declared that no claims shall lie against the Fund or the company in respect of individual amounts which were unclaimed and unpaid for a period of seven years from the dates that they first became due for payment and no payment shall be made in respect of any such claims.

(3) The Fund shall be utilised for promotion of investor's awareness and protection of the interests of investors in accordance with such rules as may be prescribed.

(4) The Central Government shall, by notification in the Official Gazette, specify an authority or committee, with such members as the Central Government may appoint, to administer the Fund, and maintain separate accounts and other relevant records in relation to the Fund in such form as may be prescribed in consultation with the Comptroller and Auditor – General of India.

(5) It shall be competent for the authority or committee appointed under sub-section (4) to spend moneys out of the Fund for carrying out the objects for which the Fund has been established.

206. Dividend not to be paid except to registered shareholders or to their order or to their bankers—(1) No dividend shall be paid by a company in respect of any share therein, except—

- (a) to the registered holder of such share or to his order or to his bankers; or
- (b) in case a share warrant has been issued in respect of the share in pursuance of section 114, to the bearer of such warrant or to his bankers.

(2) Nothing contained in sub-section (1) shall be deemed to require the bankers of a registered shareholder to make a separate application to the company for the payment of the dividend.

206A. Right to dividend, right shares and bonus shares to be held in abeyance pending registration of transfer of shares— Where any instrument of transfer of shares has been delivered to any company for registration and the transfer of such shares has not been registered by the company, it shall, notwithstanding anything contained in any other provisions of this Act,—

- (a) transfer the dividend in relation to such shares to the special account referred to in section 205A unless the company is authorised by the registered holder of such share in writing to pay such dividend to the transferee specified in such instrument of transfer; and
- (b) keep in abeyance in relation to such shares any offer of rights shares under clause (a) of sub-section (1) of section 81 and any issue of fully paid-up bonus shares in pursuance of sub-section (3) of section 205.

207. Penalty for failure to distribute dividends within thirty days – Where a dividend has been declared by a company but has not been paid, or the warrant in respect thereof has not been posted, within thirty days from the date of declaration, to any shareholder entitled to the payment of the dividend, every director of the company shall, if he is knowingly a party to the default, be punishable with simple imprisonment for a term which may extend to three years and shall also be liable to a fine of one thousand rupees for every day during which such default continues and the company shall be liable to pay simple interest at the rate of eighteen per cent per annum during the period for which such default continues:

Provided that no offence shall be deemed to have been committed within the meaning of the foregoing provisions in the following cases, namely:

- (a) where the dividend could not be paid by reason of the operation of any law;
- (b) where a shareholder has given directions to the company regarding the payment of the dividend and those directions cannot be complied with;
- (c) where there is a dispute regarding the right to receive the dividend;
- (d) where the dividend has been lawfully adjusted by the company against any sum due to it from the shareholder; or
- (e) where, for any other reason, the failure to pay the dividend or to post the warrant within the period aforesaid was not due to any default on the part of the company.

Companies (Transfer of Profits to Reserves) Rules, 1975

[GSR 426 (E), Dated 24-7-1975]

In exercise of the powers conferred by sub-section (2A) of section 205, read with clause (a) of subsection (1) of section 642, of the Companies Act, 1956 (1 of 1956), the Central Government hereby makes the following rules, namely:

Short title

1. These rules may be called the Companies (Transfer of Profits to Reserves) Rules, 1975.

Percentage of profits to be transferred to reserves

2. No dividend shall be declared or paid by a company for any financial year out of the profits of the company for that year arrived at after providing for depreciation in accordance with the provisions of sub-section (2) of section 205 of the Act, except after the transfer to the reserves of the company of a percentage of its profits for that year as specified below:

- (i) where the dividend proposed exceeds 10 per cent but not 12.5 per cent of the paid-up capital, the amount to be transferred to the reserves shall not be less than 2.5 per cent of the current profits;
- (ii) where the dividend proposed exceeds 12.5 per cent but does not exceed 15 per cent of the paid-up capital, the amount to be transferred to the reserves shall not be less than 5 per cent of the current profits;
- (iii) where the dividend proposed exceeds 15 per cent but does not exceed 20 per cent of the paid-up capital, the amount to be transferred to the reserves shall not be less than 7.5 per cent of the current profits; and
- (iv) where the dividend proposed exceeds 20 per cent of the paid-up capital, the amount to be transferred to reserves shall not be less than 10 per cent of the current profits.

Conditions governing voluntary transfer of a higher percentage

3. Nothing in rule 2 shall be deemed to prohibit the voluntary transfer by a company of a percentage higher than 10 per cent of its profits to its reserves for any financial year, so however, that:

- (i) Where a dividend is declared, -
 - (a) a minimum distribution sufficient for the maintenance of dividends to shareholders at a rate equal to the average of the rates at which dividends declared by it over the three years immediately preceding the financial year, or
 - (b) in a case where bonus shares have been issued in the financial year in which the dividend is declared or in the three years immediately preceding the financial year, a minimum distribution sufficient for the maintenance of dividends to share holders at an

amount equal to the average amount (quantum) of dividend declared over the three years immediately preceding the financial year, is ensured:

Provided that in a case where the net profits after tax are lower by 20 per cent or more than the average net profits after tax of the two financial years immediately preceding, it shall not be necessary to ensure such minimum distribution,

- (ii) where no dividend is declared, the amount proposed to be transferred to its reserves from the current profits shall be lower than the average amount of the dividends to the shareholders declared by it over the three years immediately preceding the financial year.

Penalty

4. If a company fails to comply with any of the provisions contained in these rules, the company and every officer of the company in default, shall be punishable with fine which may extend to five hundred rupees, and, where the contravention is a continuing one, with a further fine which may extend to fifty rupees for every day, after the first, during which such contravention continues.

Companies (Declaration of Dividend out of Reserves) Rules, 1975

[GSR No. 427 (E), Dated 24-7- 1975]

In exercise of the powers conferred by sub-section (3) of section 205A, read with clause (a) of sub-section (1) of section 642, of the Companies Act, 1956 (1 to 1956), the Central Government hereby makes the following rules, namely:

Short title

1. These rules may be called the Companies (Declaration of Dividend out of Reserves) Rules, 1975.

Declaration of dividend out of reserves

2. In the event of inadequacy or absence of profits in any year, dividend may be declared by a company for that year out of the accumulated profits earned by it in previous years and transferred by it to the reserves, subject to the conditions that -

- (i) the rate of the dividend declared shall not exceed the average of the rates at which dividend was declared by it in the five years immediately preceding that year or ten per cent of its paid up capital, whichever is less;
- (ii) the total amount to be drawn from the accumulated profits earned in previous years and transferred to the reserves shall not exceed an amount equal to one-tenth of the sum of its paid-up capital and free reserves and the amount so drawn shall first be utilised to set off the losses incurred in the financial year before any dividend in respect of preference or equity shares is declared; and

III.158 Auditing Pronouncements

- (iii) the balance of reserves after such drawal shall not fall below fifteen per cent of its paid-up share capital.

Explanation: For the purposes of this rule, “profits earned by a company in previous years and transferred by it to the reserves” shall mean the total amount of net profits after tax, transferred to reserves as at the beginning of the year for which the dividend is to be declared; and in computing the said amount, the appropriations out of the amount transferred from the Development Rebate Reserve [at the expiry of the period specified under the Income-tax Act, 1961 (43 of 1961)] shall be included and all items of Capital Reserves including reserves created by revaluation of assets shall be excluded.

Insurance Act, 1938

Restriction on dividends and bonuses

49. (1) No insurer, being an insurer specified in sub-clause (a) (ii) or sub-clause (b) of clause (9) of section 2, who carries on the business of life insurance or any other class or sub-class of insurance business to which section 13 applies, shall, for the purpose of declaring or paying any dividend to shareholders or any bonus to policy-holders or of making any payment in service of any debentures, utilize directly or indirectly any portion of the life insurance fund or of the fund of such other class or sub class of insurance business, as the case may be, except a surplus shown in the valuation balance-sheet in such form as may be specified by the regulations made by the Authority submitted to the Authority as part of the abstract referred to in section 15, as a result of an actuarial valuation of the assets and liabilities of the insurer; nor shall he increase such surplus by contributions out of any reserve fund or otherwise unless such contributions have been brought in as revenue through the revenue account applicable to that class or sub-class of insurance business on or before the date of valuation aforesaid, except when the reserve fund is made up solely of transfers from similar surpluses disclosed by valuations in respect of which returns have been submitted to the Authority under section 15 of this Act or to the Central Government under section 11 of the Indian Life Assurance Companies Act, 1912 (6 of 1912):

Provided that payments made out of any such surplus in service of any debentures shall not exceed fifty per-cent of such surplus including any payment by way of interest on the debentures, and interest paid on the debentures shall not exceed ten per-cent of any such surplus except when the interest paid on the debentures is offset against the interest credited to the fund or funds concerned in deciding the interest basis adopted in the valuation disclosing the aforesaid surplus:

Provided further that the share of any such surplus allocated to or reserved for the shareholders (including any amount for the payment of dividends guaranteed to them, whether by way of first charge or otherwise), shall not exceed such sums as may be specified by the Authority and such share shall in no case exceed ten per-cent of such surplus in case of participating policies and in other cases the whole thereof.

(2) For the purposes of sub-section (1), the actual amount of income-tax deducted at source during the period following the date as at which the last preceding valuation was made and preceding the date as at which the valuation in question is made may be added to such surplus after deducting an estimated amount for income-tax on such surplus, such addition and deduction being shown in an abstract of the report of the actuary referred to in sub-section (1) of section 13:

Declaration of interim bonuses

112. Notwithstanding anything to the contrary contained in this Act, an insurer carrying on the business of life insurance shall be at liberty to declare an interim bonus or bonuses to policy-holders whose policies mature for payment by reason of death or otherwise during the inter-valuation period on the recommendation of the investigating of actuary made at the last preceding valuation.

The Banking Regulation Act, 1949

15. Restrictions as to Payment of Dividend

(1) No banking company shall pay any dividend on its shares until all its capitalised expenses (including preliminary expenses, organisation expenses, share-selling commission, brokerage, amounts of losses incurred and any other item of expenditure not represented by tangible assets) have been completely written off.

(2) Notwithstanding anything to the contrary contained in sub-section (1) or in the Companies Act, 1956 (1 of 1956), a banking company may pay dividends on its shares without writing off-

- (i) the depreciation, if any, in the value of its investments in approved securities in any case where such depreciation has not actually been capitalised or otherwise accounted for as a loss;
- (ii) the depreciation, if any, in the value of its investments in shares, debentures or bonds (other than approved securities) in any case where adequate provision for such depreciation has been made to the satisfaction of the auditor of the banking company;
- (iii) the bad debts, if any, in any case where adequate provision for such debts has been made to the satisfaction of the auditor of the banking company.

17. Reserve Fund

(1) Every banking company incorporated in India shall create a reserve fund and shall, out of the balance of profit of each year, as disclosed to the profit and loss account prepared under Section 29 and before any dividend is declared, transfer to the reserve fund a sum equivalent to not less than twenty per cent of such profit.

(1A) Notwithstanding anything contained in sub-section (1), the Central Government may, on the recommendation of the Reserve Bank and having regard to the adequacy of the paid-up capital

III.160 Auditing Pronouncements

and reserves of a banking company in relation to its deposit liabilities, declare by order in writing that the provisions of sub-section (1) shall not apply to the banking company for such period as may be specified in the order:

Provided that no such order shall be made unless, at the time it is made, the amount in the reserve fund under sub-section (1), together with the amount in the share premium account is not less than the paid-up capital of the banking company.

(2) Where a banking company appropriates any sum or sums from the reserve fund or the share premium account, it shall, within twenty-one days from the date of such appropriation, report the fact to the Reserve Bank, explaining the circumstances relating to such appropriation:

Provided that the Reserve Bank may, in any particular case, extend the said period of twenty-one days by such period as it thinks fit or condone any delay in the making of such report.

The Regional Rural Banks Act, 1976

21. Disposal of profits— After making provisions for bad and doubtful debts, depreciation in assets, contributions to staff and superannuation funds and all other matters for which provision is, under law, necessary or which are usually provided for by banking companies, a Regional Rural Bank may, out of its net profits, declare a dividend.

The Multi-State Co-Operative Societies Act, 2002

62. Funds not to be divided by way of profit— (1) No part of the funds, other than net profits, of a multi-State co-operative society shall be divided by way of bonus or dividend or otherwise distributed among its members.

(2) The net profit of a multi-State co-operative society referred to in sub-section (1) in respect of a society earning profits shall be calculated by deducting from the gross profits for the year, all interest accrued and accruing in relation to amounts which are overdue, establishment charges, interest payable on loans and deposits, audit fees, working expenses including repairs, rent, taxes and depreciation, bonus payable to employees under the law relating to payment of bonus for the time being in force, and equalization fund for such bonus, provision for payment of income-tax and making approved donations under the Income-tax Act, 1961 (43 of 1961), development rebate, provision for development fund, bad debt fund, price fluctuation fund, dividend equalization fund, share capital redemption fund, investment fluctuation fund, provision for retirement benefits to employees, and after providing for or writing off bad debts and losses not adjusted against any fund created out of profit:

Provided that such society may add to the net profits for the year interest accrued in the preceding years, but actually recovered during the year:

Provided further that in the case of such multi-State co-operative societies, as do not have share capital, the surplus of income over expenditure shall not be treated as net profits and such surplus shall be dealt with in accordance with the bye-laws.

63. Disposal of net profits (1) A multi-State co-operative society shall, out of its net profits in any year.

- (a) transfer an amount not less than twenty-five per cent to the reserve fund;
 - (b) credit one per cent, to co-operative education fund maintained, by the National Co-operative Union of India Limited, New Delhi, in the manner as may be prescribed;
 - (c) transfer an amount not less than ten per cent, to a reserve fund for meeting unforeseen losses.
- (2) Subject to such conditions as may be prescribed, the balance of the net profits may be utilised for all or any of the following purposes, namely: -
- (a) payment of dividend to the members on their paid-up share capital at a rate not exceeding the prescribed limit;
 - (b) constitution of, or contribution to, such special funds including education funds, as may be specified in the bye-laws;
 - (c) donation of amounts not exceeding five per cent of the net profits for any purpose connected with the development of co-operative movement or charitable purpose as defined in Section 2 of the Charitable Endowments Act, 1890 (6 of 1890);
 - (d) payment of ex-gratia amount to employees of the multi-State co-operative society to the extent and in the manner specified in the bye-laws.

64. Investment of funds: A multi-State co-operative society may invest or deposit its funds—

- (a) in a co-operative bank, State co-operative bank, co-operative land development bank or Central co-operative bank; or
- (b) in any of the securities specified in Section 20 of the Indian Trusts Act, 1882 ; or
- (c) in the shares or securities of any other multi-State co-operative society or any co-operative society; or
- (d) in the shares, securities or assets of a subsidiary institution or any other institution; or
- (e) with any other bank; or
- (f) in such other mode as may be provided in the bye-laws.

Explanation: For the purposes of clause (e), “bank” means any banking company as defined in clause (c) of Section 5 of the Banking Regulation Act, 1949, and includes-

- (a) the State Bank of India constituted under the State Bank of India Act, 1955;
- (b) a subsidiary bank as defined in clause (k) of Section 2 of the State Bank of India (Subsidiary Banks) Act, 1959;

III.162 Auditing Pronouncements

- (c) a corresponding new bank constituted under Section 3 of the Banking Companies (Acquisition and Transfer of Undertakings) Act, 1970 (5 of 1970) or a corresponding new bank constituted under Section 3 of the Banking Companies (Acquisition and Transfer of Undertakings) Act, 1980 (40 of 1980).

Multi-State Co-operative Societies Rules, 2002

24. Distribution of profit to members.

- (1) No part of the funds, other than net profits of a multi-State co-operative society shall be distributed by way of bonus or dividend or otherwise among its members.
- (2) Payment of dividend to the members on their paid-up share capital shall be as specified in the bye-laws.
- (3) The bye-laws of a multi-State co-operative society may provide for distribution of patronage bonus to its members in consonance with the transactions of a member with the society.
- (4) Every multi-State Co-operative society may also provide for in their bye-laws the subjects and purposes for which the reserve fund will be utilised.

GUIDANCE NOTE ON TAX AUDIT UNDER SECTION 44AB OF THE INCOME-TAX ACT, 1961

1. Terms, abbreviations used in this Guidance Note.

In this Guidance Note the following terms and abbreviations occur often in the text. A brief explanation of such terms and abbreviations is given below. Further, reference to a section without reference to the relevant Act means that the section has reference to the Income-tax Act, 1961.

(a)	Act	The Income-tax Act, 1961.
(b)	AS	Accounting Standards prescribed under the Companies Act, 2013 for company assesseees and prescribed by the Institute of Chartered Accountants of India for non company assesseees.
(c)	AS(IT)	Accounting Standards notified by the Central Government under section 145(2).
(d)	Assessee	As defined in section 2(7) of the Act.
(e)	Audit report	Any report submitted in Form No. 3CA/3CB along with the statement of particulars in Form No. 3CD.
(f)	Board	The Central Board of Direct Taxes constituted under the Central Boards of Revenue Act, 1963.
(g)	Circular	A circular or instructions issued by the Board under section 119(1) of the Act.
(h)	Form or Forms	Collectively refer to Forms 3CA, 3CB and 3CD.
(i)	ICAI/Institute	The Institute of Chartered Accountants of India.
(j)	Limited Liability Partnership (LLP)	As defined in the Limited Liability Partnership Act, 2008
(k)	Person	As defined in section 2(31) of the Act.
(l)	Previous year	As defined in section 3 of the Act.

III.164 Auditing Pronouncements

- (m) **Rules** The Income-tax Rules, 1962.
- (n) **Specified date** "Specified date", in relation to the accounts of the assessee of the previous year relevant to an assessment year, means the due date for furnishing the return of income under sub-section (1) of section 139 of the Act.
- (o) **SA** Standards on Auditing
- (p) **STT** Securities transactions tax leviable under Chapter VII of the Finance (No.2) Act, 2004.
- (q) **Tax audit** The audit carried out under the provisions of section 44AB.
- (r) **Tax auditor** Auditor appointed by an assessee to carry out tax audit.

2. Introduction

2.1 The Act provides for audit of accounts and/or report/certificate of a chartered accountant in the following cases in respect of AY 2014-15:

S. No.	Particulars of Report/ statement/ Certificates	Applicable Section of the Income-tax Act, 1961	Applicable Rule of Income-tax Rules, 1962	Form No.
	during the previous year and other relevant details to be verified by an accountant as per section 115U.			
29.	Assessee engaged in the business of operating qualifying ships having opted for computation of income from such business under the tonnage tax scheme contained in chapter XII G of the Act to furnish a report under section 115VW of the Act.	115VW(ii)	11T	66

2.2 The first edition of this Guidance Note was published in the year 1985 immediately after the introduction of tax audit provision to help members in discharging their responsibility in an efficient manner. In order to incorporate changes made by the amendments to the Finance Act, as well as judicial pronouncements, circulars etc., the said Guidance Note has been revised in the years 1989, 1998, 1999, 2005 and 2013. The sequence of certain significant events is as follows:

- (a) The Government had substituted revised Rule 6G and Forms 3CA, 3CB and 3CD in the Official Gazette on June 4, 1999, vide Notification No 10950/F.No. 153/74/98/TPL and omitted Forms No.3CC and 3CE.
- (b) These forms have been subsequently revised vide CBDT's Notification No. 280/2004 dated 16th November 2004.
- (c) Significant changes in the Form No.3CD were made in the year 2006 through a Notification No. 208/2006 dated 10th August, 2006 which notified the Income tax (Ninth Amendment) Rules, 2006.
- (d) Significant changes in the Form No.3CD were again made in the year 2014 through the Notification No. 33/2014 dated 25.07.2014 which notified the Income-tax (7th Amendment) Rules, 2014.

2.3 Form No. 3CD is quite comprehensive and covers generally all the items included in Form No. 6B prescribed for reporting under section 142(2A) and hence this Guidance Note

III.172 Auditing Pronouncements

would meet almost all the reporting requirements of audit under section 142(2A) also. However, if under section 142(2A), the Assessing Officer requires specific information, the same has to be given separately along with Form No. 6B. The Institute has published separate Guidance Notes for audit of Public Charitable Institutions under section 12A(b), Report under section 92E of the Act, Report under section 115JB of the Act and Report under section 115JC of the Act.

2.4 The tax audit was introduced by section 11 of the Finance Act, 1984, which inserted a new section 44AB with effect from 1st April, 1985 [Assessment Year 1985-86]. This section makes it obligatory for a person carrying on business to get his accounts audited by a chartered accountant, and to furnish by the 'specified date', the report in the prescribed form of such audit, if the total sales, turnover or gross receipts in business in the relevant previous year exceed or exceeds the prescribed limit (Rs. One Crore w.e.f. A.Y. 2013-14). For a professional, the provisions of tax audit become applicable, if his gross receipts in profession exceed the prescribed limit (Rs. Twenty five Lakhs w.e.f. A.Y. 2013-14) in the relevant previous year. As observed by the Finance Minister, while presenting the Union Budget for 1984-85, and as stated in the Memorandum explaining the provisions of the Finance Bill, 1984, the compulsory audit is intended to ensure proper maintenance of books of account and other records, in order to reflect the true income of the tax payer and to facilitate the administration of tax laws by a proper presentation of the accounts before the tax authorities. This would also save the time of the Assessing Officers considerably in carrying out the verification. The scope of section 44AB was enlarged to provide that audit under the section would be required in case of a person carrying on the business of the nature referred to in section 44AD or 44AE or 44AF (by the Finance Act 1997 w.e.f. assessment year 1998-99) or 44BB or 44BBB (by the Finance Act 2003 w.e.f. assessment year 2004-05), if such person claims that his income is lower than the amount of income deemed under these sections as presumptive income. Thereafter, Finance (No.2) Act, 2009 (w.e.f. AY 2011-12) enlarged the scope of section 44AD to encompass within its ambit the assessee covered by the provision of erstwhile section 44AF and hence, section 44AF has been omitted. While section 44AF dealt with assessee carrying on retail trade, the amended section 44AD covers all assessee carrying on eligible business except professionals as referred to in section 44AA(1), a person earning income in the nature of commission or brokerage, a person carrying on any agency business.

2.5 The *vires* of section 44AB has been upheld by Hon'ble Supreme Court in *T.D. Venkata Rao v. Union of India* [1999] 237 ITR 315 (SC). The Apex Court has made the following significant observations:

"Chartered Accountants, by reason of their training have special aptitude in the matter of audits. It is reasonable that they, who form a class by themselves, should be required to audit the accounts of businesses whose income (sic: turnover) exceeds Rs.40 lakhs* and professionals whose income (sic: gross

receipts) exceeds Rs.10 lakhs in any given year. There is no material on record and indeed in our view, there cannot be that an income-tax practitioner has the same expertise as chartered accountants in the matter of accounts. For the same reasons the challenge under article 19 must fail, and it must be pointed out that these income-tax practitioners are still entitled to be authorised representatives of assessees."**

**(increased to Rs. One Crore w.e.f. A.Y. 2013-14)*

*** (increased to Rs. Twenty Five Lakhs w.e.f. A.Y. 2013-14)*

3. Provisions of section 44AB

3.1 Section 44AB reads as under:

"Audit of accounts of certain persons carrying on business or profession".

44AB. *Every person, --*

- (a) *carrying on business shall, if his total sales, turnover or gross receipts, as the case may be, in business exceed or exceeds one crore rupees* in any previous year; or*
- (b) *carrying on profession shall, if his gross receipts in profession exceed twenty-five lakh rupees* in any previous year; or*
- (c) *carrying on the business shall, if the profits and gains from the business are deemed to be the profits and gains of such person under section 44AE or section 44BB or section 44BBB, as the case may be, and he has claimed his income to be lower than the profits or gains so deemed to be the profits and gains of his business, as the case may be, in any previous year; or*
- (d) *carrying on the business shall, if the profits and gains from the business are deemed to be the profits and gains of such person under section 44AD and he has claimed such income to be lower than the profits and gains so deemed to be the profits and gains of his business and his income exceeds the maximum amount which is not chargeable to income-tax in any previous year*

get his accounts of such previous year audited by an accountant before the specified date and furnish by that date the report of such audit in the prescribed form duly signed and verified by such accountant and setting forth such particulars as may be prescribed.

Provided that this section shall not apply to the person, who derives income of the nature referred to in section 44B or section 44BBA, on and from the 1st day of April, 1985 or, as the case may be, the date on which the relevant section came into force, whichever is later.

III.174 Auditing Pronouncements

Provided further that in a case where such person is required by or under any other law to get his accounts audited, it shall be sufficient compliance with the provisions of this section if such person gets the accounts of such business or profession audited under such law before the specified date and furnishes by that date the report of the audit as required under such other law and a further report by an accountant in the form prescribed under this section.

Explanation - For the purposes of this section, -

- (i) "accountant" shall have the same meaning as in the Explanation below sub-section (2) of section 288;*
- (ii) "specified date", in relation to the accounts of the assessee of the previous year relevant to an assessment year, means the due date for furnishing the return of income under sub-section (1) of section 139*

** w.e.f. A.Y. 2013-14*

3.2 The Explanation below sub-section (2) of section 288 defines "accountant". Accordingly, "accountant" means a chartered accountant within the meaning of the Chartered Accountants Act, 1949 (38 of 1949), and includes, in relation to any State, any person who by virtue of the provisions of sub-section (2) of section 226 of the Companies Act, 1956 (1 of 1956), is entitled to be appointed to act as an auditor of companies registered in that State. Section 226 of the Companies Act, 1956 has been replaced by section 141 in the Companies Act, 2013 w.e.f 1.4.2014.

3.3 The above section stipulates that every person carrying on business or profession is required to get his accounts audited by a chartered accountant before the "specified date" and furnish by that date the report of such audit, if the total sales, turnover or gross receipts exceed the prescribed limit (Presently Rs.1 crore w.e.f. A.Y. 2013-14) in the case of business and gross receipts exceed the prescribed limit (Presently Rs.25 lakhs w.e.f. A.Y. 2013-14) in the case of profession - vide clauses (a) and (b) of section 44AB.

3.4 Clause (c) of section 44AB, inserted by the Finance Act, 1997 and subsequently amended by the Finance Act, 2003 and Finance (No. 2) Act, 2009, provides that in the case of an assessee carrying on a business of the nature specified in sections 44AE, 44BB or 44BBB tax audit will be required, if he claims his income to be lower than the presumptive income deemed under the said sections even if his sales, turnover, or gross receipts does not exceed the prescribed limit (Presently Rs.1 crore w.e.f A.Y. 2013-14).

3.5 (1) Clause (d) of section 44AB, inserted by the Finance Act, 2009 w.e.f 1-4-2011 provides that in the case of an assessee carrying on a business of the nature specified in section 44AD, tax audit will be required, if he claims his income to be lower than the presumptive income deemed under the said section and such income exceeds the maximum amount not chargeable to income-tax (i.e. basic exemption limit). Section 44AD as amended by Finance Act, 2009 provides that notwithstanding anything to the contrary contained

in sections 28 to 43C, in the case of an eligible assessee engaged in an eligible business, a sum equal to eight per cent of the total turnover or gross receipts of the assessee in the previous year on account of such business or, as the case may be, a sum higher than the aforesaid sum claimed to have been earned by the eligible assessee, shall be deemed to be the profits and gains of such business chargeable to tax under the head "Profits and gains of business or profession".

(2) Any deduction allowable under the provisions of sections 30 to 38 shall, for the purposes of sub-section (1), be deemed to have been already given full effect to and no further deduction under those sections shall be allowed :

Provided that where the eligible assessee is a firm, the salary and interest paid to its partners shall be deducted from the income computed under sub-section (1) subject to the conditions and limits specified in clause (b) of section 40.

(3) The written down value of any asset of an eligible business shall be deemed to have been calculated as if the eligible assessee had claimed and had been actually allowed the deduction in respect of the depreciation for each of the relevant assessment years.

(4) The provisions of Chapter XVII-C shall not apply to an eligible assessee in so far as they relate to the eligible business.

(5) Notwithstanding anything contained in the foregoing provisions of this section, an eligible assessee who claims that his profits and gains from the eligible business are lower than the profits and gains specified in sub-section (1) and whose total income exceeds the maximum amount which is not chargeable to income-tax, shall be required to keep and maintain such books of account and other documents as required under sub-section (2) of section 44AA and get them audited and furnish a report of such audit as required under section 44AB.

(6) The provisions of this section, notwithstanding anything contained in the foregoing provisions, shall not apply to—

- (i) a person carrying on profession as referred to in sub-section (1) of section 44AA;
- (ii) a person earning income in the nature of commission or brokerage; or
- (iii) a person carrying on any agency business.

Explanation.—For the purposes of this section,—

- (a) "eligible assessee" means,—
 - (i) an individual, Hindu undivided family or a partnership firm, who is a resident, but not a limited liability partnership firm as defined under clause (n) of sub-section (1) of section 2 of the Limited Liability Partnership Act, 2008 (6 of 2009); and
 - (ii) who has not claimed deduction under any of the sections 10A, 10AA, 10B, 10BA or deduction under any provisions of Chapter VIA under the heading "C. - Deductions in respect of certain incomes" in the relevant assessment year.

III.176 Auditing Pronouncements

- (b) "eligible business" means,—
- (i) any business except the business of plying, hiring or leasing goods carriages referred to in section 44AE; and
 - (ii) whose total turnover or gross receipts in the previous year does not exceed an amount of one crore rupees.

3.6 Under the provisions of section 44AD, an eligible assessee can opt to be assessed on presumptive basis, so long as the sales, turnover or gross receipts from an eligible business do not exceed Rs.1 crore. Once the sales, turnover or gross receipts from any such eligible business(es) exceed the prescribed limit (Presently Rs.1 crore w.e.f A.Y. 2013-14), a tax audit will be required under clause (a) of section 44AB. The provisions of sections 44AA and 44AB shall not apply insofar as they relate to an eligible business as referred to in section 44AD and , the business of plying, hiring or leasing goods carriages as referred to in section 44AE. In computing the monetary limits under sections 44AA and 44AB, the sales, turnover or gross receipts, from the business in the said sections is to be excluded.

3.7 If a person is carrying on business(es), coming within the scope of sections 44AD, 44AE, 44BB or 44BBB but he exercises his option given under these sections to get his accounts audited under section 44AB, tax audit requirements would apply, in respect of such business(es) even if the turnover of such business(es) does not exceed the prescribed limit (Presently Rs.1 crore w.e.f A.Y. 2013-14). In the case of a person carrying on businesses covered by sections 44AD, 44AE, 44BB or 44BBB and opting for presumptive taxation, tax audit requirement would not apply in respect of such businesses. If such person is carrying on other business(es) not covered by presumptive taxation, tax audit requirements would apply in respect thereof, if the turnover of such business(es), other than the business(es) covered by presumptive taxation thereof, exceed the prescribed limit (Presently Rs.1 crore w.e.f. A.Y. 2013-14).

3.8 The first proviso to section 44AB stipulates that this section will not be applicable to a person who derives income of the nature referred to in sections 44B or 44BBA. Accordingly, where the assessee is carrying on any one or more of the businesses specified in section 44B or 44BBA referred to in the first proviso to section 44AB, the sales/turnover/gross receipts from such businesses shall not be included in the total sales/turnover/gross receipts for determining the applicability of section 44AB.

3.9 The report of such audit, duly signed and verified by the chartered accountant is required to be given in such form and setting forth such particulars as prescribed by the Board. Rule 6G provides that such audit report and particulars should be given in Forms No. 3CA/3CB as may be applicable and the statement of particulars should be given in Form No.3CD.

3.10 A question may arise in the case of an assessee who is eligible to claim deductions under various sections like sections 80-IA, 80-IB or 80-IC etc., as to whether it will be

necessary for him to get separate audit reports/certificates under these sections in addition to an audit report under section 44AB. The requirement of section 44AB is a general requirement covering the overall position of the accounts of the assessee. This applies to the consolidated accounts of the assessee for the relevant previous year covering the results of all the units owned by the assessee whether situated at one place or at different places. Therefore, when the turnover of all the units put together exceed the prescribed limits, the assessee will have to get the audit report under section 44AB in the prescribed form and separate audit reports in the forms prescribed for different purposes like sections 80-IA, 80-IB or 80-IC etc. will have to be further obtained by the assessee to meet the specific requirements of the relevant sections.

4. 'Profession' and 'business' explained

4.1. The term "business" is defined in section 2(13) of the Act, as under:

"Business" includes any trade, commerce, or manufacture or any adventure or concern in the nature of trade, commerce or manufacture.

The word 'business' is one of wide import and it means activity carried on continuously and systematically by a person by the application of his labour or skill with a view to earning an income. The expression "business" does not necessarily mean trade or manufacture only - *Barendra Prasad Ray v ITO [1981] 129 ITR 295 (SC)*.

4.2 Section 2(36) of the Act defines profession to include vocation. Profession is a word of wide import and includes "vocation" which is only a way of living. – *Additional CIT v. Ram Kripal Tripathi [1980] 125 ITR 408 (All)*.

4.3 Whether a particular activity can be classified as 'business' or 'profession' will depend on the facts and circumstances of each case. The expression "profession" involves the idea of an occupation requiring purely intellectual skill or manual skill controlled by the intellectual skill of the operator, as distinguished from an operation which is substantially the production or sale or arrangement for the production or sale of commodities. - *CIT Vs. Manmohan Das (Deceased) [1966] 59 ITR 699 (SC)*, *CIT v. Ram Kripal Tripathi [1980] 125 ITR 408 (All)*.

4.4 The following have been listed out as professions in section 44AA read with Rule 6F and other professions notified thereunder (Notifications No. 1620 SO-18(E) dated 12.1.77, No. 9102SO 2675 dated 25.09.1992 and No.116 SO 385(E), dated 4.5.2001):

- (i) Accountancy
- (ii) Architectural
- (iii) Authorised Representative
- (iv) Company Secretary
- (v) Engineering

III.178 Auditing Pronouncements

- (vi) Film Artists/Actors, Cameraman, Director including an assistant director; a music director, including an assistant music director, an art director, including an assistant art director; a dance director, including an assistant dance director; Singer, Story-writer, a screen-play writer, a dialogue writer; editor, , lyricist and dress designer .
- (vii) Interior Decoration
- (viii) Legal
- (ix) Medical
- (x) Technical Consultancy
- (xi) Information Technology. Attention is invited to *Notification No. 890(E)/2000* dated 26-9-2000.

4.5. The following activities have been held to be business :

- (i) Advertising agent
- (ii) Clearing, forwarding and shipping agents - *CIT v. Jeevanlal Lalloobhai & Co. [1994] 206 ITR 548 (Bom)*.
- (iii) Couriers
- (iv) Insurance agent
- (v) Nursing home
- (vi) Stock and share broking and dealing in shares and securities - *CIT v. Lallubhai Nagardas & Sons [1993] 204 ITR 93 (Bom)*.
- (vii) Travel agent.

5. Sales, turnover, gross receipts

5.1 It will be noted that the provision relating to tax audit applies to every person carrying on business, if his total sales, turnover or gross receipts in business exceed the prescribed limit (Rs.1 crore w.e.f. A.Y. 2013-14) and to a person carrying on a profession, if his gross receipts from profession exceed the prescribed limit (Rs.25 lakhs w.e.f A.Y. 2013-14) in any previous year. However, the term "sales", "turnover" or "gross receipts" are not defined in the Act, and therefore the meaning of the aforesaid terms has to be considered for the applicability of the section.

5.2 The Central Sales Tax Act, 1956 defines "Turnover" as follows:

"turnover" used in relation to any dealer liable to tax under this Act means the aggregate of the sale prices received and receivable by him in respect of sales of any goods in the course of inter-State trade or commerce made during any prescribed period and determined in accordance with the provisions of the Act and rules made there under.

Further, section 8A(1) of the said Act provides that in determining turnover, deduction of sales tax should be made from the aggregate of sales price.

5.3 The term "Turnover" has been defined under Section 2(91) of the Companies Act, 2013 as follows:

"2(91) "turnover" means the aggregate value of the realisation of amount made from the sale, supply or distribution of goods or on account of services rendered, or both, by the company during a financial year;"

5.4 In the "Guidance Note on Terms Used in Financial Statements" published by the Institute, the expression "Sales Turnover" (Item 15.01) has been defined as under:-

"The aggregate amount for which sales are effected or services rendered by an enterprise. The term 'gross turnover' and 'net turnover' (or 'gross sales' and 'net sales') are sometimes used to distinguish the sales aggregate before and after deduction of returns and trade discounts".

5.5 The Guide to Company Audit issued by the Institute in the year 1980, while discussing "sales", stated as follows:

"Total turnover, that is, the aggregate amount for which sales are effected by the company, giving the amount of sales in respect of each class of goods dealt with by the company and indicating the quantities of such sales for each class separately.

Note (i) The term 'turnover' would mean the total sales after deducting therefrom goods returned, price adjustments, trade discount and cancellation of bills for the period of audit, if any. Adjustments which do not relate to turnover should not be made e.g. writing off bad debts, royalty etc. Where excise duty is included in turnover, the corresponding amount should be distinctly shown as a debit item in the profit and loss account."

5.6 The "Statement on the Amendments to Schedule VI to the Companies Act, 1956" issued by the Institute (Page 14, 1976 edition)(replaced with Guidance Note on Revised Schedule VI of the Companies Act, 1956) while discussing the disclosure requirements relating to 'turnover' stated as follows:-

"As regards the value of turnover, a question which may arise is with reference to various extra and ancillary charges. The invoices may involve various extra and ancillary charges such as those relating to packing, freight, forwarding, interest, commission, etc. It is suggested that ordinarily the value of turnover should be disclosed exclusive of such ancillary and extra charges, except in those cases where because of the accounting system followed by the company, separate demarcation of such charges is not possible from the accounts or where the company's billing procedure involves a composite charge inclusive of various services rather than a separate charge for each service.

III.180 Auditing Pronouncements

In the case of invoices containing composite charges, it would not ordinarily be proper to attempt a demarcation of ancillary charges on a proportionate or estimated basis. For example, if a company makes a composite charge to its customer, inclusive of freight and despatch, the charge so made should accordingly be treated as part of the turnover for purpose of this section. It would not be proper to reduce the value of the turnover with reference to the approximate value of the service relating to freight and despatch. On the other hand, if the company makes a separate charge for freight and despatch and for other similar services, it would be quite proper to ignore such charges when computing the value of the turnover to be disclosed in the Profit and Loss Account. In other words, the disclosure may well be determined by reference to the company's invoicing and accounting policy and may thereby vary from company to company. For reasons of consistency as far as possible, a company should adhere to the same basic policy from year to year and if there is any change in the policy the effect of that change may need to be disclosed if it is material, so that a comparison of the turnover figures from year to year does not become misleading."

5.7 The Statement on the Companies (Auditors' Report) Order, 2003 issued by the Institute in April 2004, while discussing the term 'turnover' in paragraph 23 states `as follows:

The term, "turnover", has not been defined by the Order. Part II of Schedule VI to the Act, however, defines the term "turnover" as the aggregate amount for which sales are effected by the company. It may be noted that the "sales effected" would include sale of goods as well as services rendered by the company. In an agency relationship, turnover is the amount of commission earned by the agent and not the aggregate amount for which sales are effected or services are rendered. The term "turnover" is a commercial term and it should be construed in accordance with the method of accounting regularly employed by the company.

5.8 Although, Schedule III of the Companies Act, 2013 has replaced the Revised Schedule VI of the Companies Act, 1956 in the year 2014, guidance given herein above with respect to meaning of the term "turnover" is still relevant.

5.9 The term 'turnover' for the purposes of this clause may be interpreted to mean the aggregate amount for which sales are effected or services rendered by an enterprise. If sales tax and excise duty are included in the sale price, no adjustment in respect thereof should be made for considering the quantum of turnover. Trade discounts can be deducted from sales but not the commission allowed to third parties. If, however, the Excise duty and / or sales tax recovered are credited separately to Excise duty or Sales tax Account (being separate accounts) and payments to the authority are debited in the same account, they would not be included in the turnover. However, sales of scrap shown separately under the heading 'miscellaneous income' will have to be included in turnover.

5.10 Considering that the words "Sales", "Turnover" and "Gross receipts" are commercial terms, they should be construed in accordance with the method of accounting regularly

employed by the assessee. Section 145(1) provides that income chargeable under the head "Profits and gains of business or profession" or "Income from other sources" should be computed in accordance with either cash or mercantile system of accounting regularly employed by the assessee. The method of accounting followed by the assessee is also relevant for the determination of sales, turnover or gross receipts in the light of the above discussion.

5.11 Applying the above generally accepted accounting principles, a few typical cases may be considered:

- (i) Discount allowed in the sales invoice will reduce the sale price and, therefore, the same can be deducted from the turnover.
- (ii) Cash discount otherwise than that allowed in a cash memo/sales invoice is in the nature of a financing charge and is not related to turnover. The same should not be deducted from the figure of turnover.
- (iii) Turnover discount is normally allowed to a customer if the sales made to him exceed a particular quantity. This being dependent on the turnover, as per trade practice, it is in the nature of trade discount and should be deducted from the figure of turnover even if the same is allowed at periodical intervals by separate credit notes.
- (iv) Special rebate allowed to a customer can be deducted from the sales if it is in the nature of trade discount. If it is in the nature of commission on sales, the same cannot be deducted from the figure of turnover.
- (v) Price of goods returned should be deducted from the figure of turnover even if the returns are from the sales made in the earlier year/s.
- (vi) Sale proceeds of fixed assets would not form part of turnover since these are not held for resale.
- (vii) Sale proceeds of property held as investment property will not form part of turnover.
- (viii) Sale proceeds of any shares, securities, debentures, etc., held as investment will not form part of turnover. However if the shares, securities, debentures etc., are held as stock-in-trade, the sale proceeds thereof will form part of turnover.

5.12 (a) A question may also arise as to whether the sales by a commission agent or by a person on consignment basis forms part of the turnover of the commission agent and/or consignee as the case may be. In such cases, it will be necessary to find out, whether the property in the goods or all significant risks, reward of ownership of goods belongs to the commission agent or the consignee immediately before the transfer by him to third person. If the property in the goods or all significant risks and rewards of ownership of goods continue to belong to the principal, the relevant sale price shall not form part of the sales/turnover of the commission agent and/or the consignee as the case may be. If, however, the property in the goods, significant risks and reward of ownership belongs to the commission agent and/or the

III.182 Auditing Pronouncements

consignee, as the case may be, the sale price received/receivable by him shall form part of his sales/turnover.

(b) In this context, it would be useful to refer to the CBDT Circular No.452 dated 17th March, 1986, where the Board has clarified the question of applicability of section 44AB in the cases of Commission Agents, Arhatias, etc. The Circular is published in **Appendix I (Page no. 213)**.

5.13 Share brokers, on purchasing securities on behalf of their customers, do not get them transferred in their names but deliver them to the customers who get them transferred in their names. The same is true in case of sales also. The share broker holds the delivery merely on behalf of his customer. The property in goods does not get transferred to the share brokers. Only brokerage which is being accounted for in the books of account of share brokers should be taken into account for considering the limits for the purpose of section 44AB. However, in case of transactions entered into by share broker on his personal account, the sale value should also be taken into account for considering the limit for the purpose of section 44AB. The case of a sub-broker is not different from that of a share broker.

5.14 The turnover or gross receipts in respect of transactions in shares, securities and derivatives may be determined in the following manner.

- (a) **Speculative transaction:** A speculative transaction means a transaction in which a contract for the purchase or sale of any commodity, including stocks and shares, is periodically or ultimately settled otherwise than by the actual delivery or transfer of the commodity or scrips. Thus, in a speculative transaction, the contract for sale or purchase which is entered into is not completed by giving or receiving delivery so as to result in the sale as per value of contract note. The contract is settled otherwise and squared up by paying out the difference which may be positive or negative. As such, in such transaction the difference amount is 'turnover'. In the case of an assessee undertaking speculative transactions there can be both positive and negative differences arising by settlement of various such contracts during the year. Each transaction resulting into whether a positive or negative difference is an independent transaction. Further, amount paid on account of negative difference paid is not related to the amount received on account of positive difference. In such transactions though the contract notes are issued for full value of the purchased or sold asset the entries in the books of account are made only for the differences. Accordingly, the aggregate of both positive and negative differences is to be considered as the turnover of such transactions for determining the liability to audit vide section 44AB.
- (b) **Derivatives, futures and options:** Such transactions are completed without the delivery of shares or securities. These are also squared up by payment of differences. The contract notes are issued for the full value of the asset purchased or sold but entries in the books of account are made only for the differences. The transactions may be squared up any time on or before the striking date. The buyer of the option pays the

premia. The turnover in such types of transactions is to be determined as follows:

- (i) The total of favourable and unfavourable differences shall be taken as turnover.
- (ii) Premium received on sale of options is also to be included in turnover.
- (iii) In respect of any reverse trades entered, the difference thereon, should also form part of the turnover.

- (c) **Delivery based transactions:** Where the transaction for the purchase or sale of any commodity including stocks and shares is delivery based whether intended or by default, the total value of the sales is to be considered as turnover.

5.15 (a) Further, an issue may arise whether such transactions of purchase or sale of stocks and shares undertaken by the assessee are in the course of business or as investment. The answer to this issue will depend on the facts and circumstances of each case taking into consideration the nature of the transaction, frequency and volume of transactions etc. For this, attention is invited to the following judgments where this issue has been considered.

- (i) *CIT v. P.K.N. and Co Ltd (1966) 60 ITR 65 (SC)*
- (ii) *Saroj Kumar Mazumdar v. CIT (1959) 37 ITR 242 (SC)*
- (iii) *CIT v. Sutlej Cotton Mills Supply Agency Ltd. (1975) 100 ITR 706 (SC)*
- (iv) *G. Venkataswami Naidu & Co. v. CIT (1959) 351TR 594 (SC)*

Further, CBDT Circular No.4/2007, dated: 15-6-2007-**Appendix II (Page no. 217)** may also be referred to.

(b) In case such transactions are for the purposes of investment and income/loss arising therefrom is to be computed under the head 'Capital Gains', then the value of such transaction is not to be included in sales or turnover for deciding the applicability of audit under section 44AB. However, in case such transactions are in the course of business, then the total of such sales are to be included in the sale, turnover or gross receipts as the case may be, of the assessee for determining the applicability of audit under section 44AB.

5.16 The term "gross receipts" is also not defined in the Act. It will include all receipts whether in cash or in kind arising from carrying on of the business which will normally be assessable as business income under the Act. Broadly speaking, the following items of income and/or receipts would be covered by the term "gross receipts in business":

- (i) Cash assistance (by whatever name called) received or receivable by any person against exports under any scheme of the Government of India;
- (ii) Any duty of customs or excise or service tax re-paid or repayable as drawback to any person against exports under the Customs and Central Excise Duties and Service tax Drawback Rules, 1995;
- (iii) The aggregate of gross income by way of interest received by the money lender;
- (iv) Commission, brokerage, service and other incidental charges received in the business

III.184 Auditing Pronouncements

of chit funds;

- (v) Reimbursement of expenses incurred (e.g. packing, forwarding, freight, insurance, travelling etc.) and if the same is credited to a separate account in the books, only the net surplus on this account should be added to the turnover for the purposes of Section 44AB;
- (vi) The net exchange rate difference on export sales during the year on the basis of the principle explained in (v) above will have to be added;
- (vii) Hire charges of cold storage;
- (viii) Liquidated damages;
- (ix) Insurance claims - except for fixed assets;
- (x) Sale proceeds of scrap, wastage etc. unless treated as part of sale or turnover, whether or not credited to miscellaneous income account;
- (xi) Gross receipts including lease rent in the business of operating lease;
- (xii) Finance income to reimburse and reward the lessor for his investment and services;
- (xiii) Hire charges and instalments received in the course of hire purchase;
- (xiv) Advance received and forfeited from customers.
- (xv) the value of any benefit or perquisite, whether convertible into money or not, arising from business or the exercise of a profession

5.17 The following items would not form part of "gross receipts in business" for purposes of section 44AB.

- (i) Sale proceeds of fixed assets including advance forfeited, if any;
- (ii) Sale proceeds of assets held as investments;
- (iii) Rental income unless the same is assessable as business income;
- (iv) Dividends on shares except in the case of an assessee dealing in shares;
- (v) Income by way of interest unless assessable as business income;
- (vi) Reimbursement of customs duty and other charges collected by a clearing agent;
- (vii) In the case of a recruiting agent, the advertisement charges received by him by way of reimbursement of expenses incurred by him;
- (viii) In the case of a travelling agent, the amount received from the clients for payment to the airlines, railways etc. where such amounts are received by way of reimbursement of expenses incurred on behalf of the client. If, however, the travel agent is conducting a package tour and charges a consolidated sum for transportation, boarding and lodging and other facilities, then the amount received from the members of group tour should form part of gross receipts;

- (ix) In the case of an advertising agent, the amount of advertising charges recovered by him from his clients provided these are by way of reimbursement. But if the advertising agent books the advertisement space in bulk and recovers the charges from different clients, the amount received by him from the clients will not be the same as the charges paid by him and in such a case the amount recovered by him will form part of his gross receipts;
- (x) Share of profit of a partner of a firm in the total income of the firm excluded from his total income under section 10(2A) of the Income-tax Act;
- (xi) Write back of amounts payable to creditors and/or provisions for expenses or taxes no longer required.

5.18 Thus, the principle to be applied is that if the assessee is merely reimbursed for certain expenses incurred, the same will not form part of his gross receipts. But in the case of charges recovered, which are not by way of reimbursement of the actual expenses incurred, they will form part of his gross receipts.

5.19 In the case of a professional, the expression "gross receipts" in profession would include all receipts arising from carrying on of the profession. A question may, however, arise as to whether the out of pocket expenses received by him should form part of his gross receipts for purposes of this section. Normally, in the case of solicitors, advocates or chartered accountants, such out of pocket expenses received in advance are credited in a separate client's account and utilised for making payments for stamp duties, registration fees, counsel's fees, travelling expenses etc. on behalf of the clients. These amounts, if collected separately either in advance or otherwise, should not form part of the "gross receipts". If, however, such out of pocket expenses are not specifically collected but are included/collected by way of a consolidated fee, the whole of the amount so collected shall form part of gross receipts and no adjustment should be made in respect of actual expenses paid by the professional person for and/or on behalf of his clients out of the gross fees so collected. However, the amount received by way of advance for which services are yet to be rendered will not form part of the receipts, as such advances are the liabilities of the assessee and cannot be treated as his receipts till the services are rendered.

5.20 A question may arise in the case of an assessee carrying on business and at the same time engaged in a profession as to what are the limits applicable to him under section 44AB for getting the accounts audited. In such a case if his professional receipts are, say, rupees twenty seven lakhs but his total sales, turnover or gross receipts in business are, say, rupees seventy two lakhs, it will be necessary for him to get his accounts of the profession and also the accounts of the business audited because the gross receipts from the profession exceed the limit of rupees twenty five lakhs. If however, the professional receipts are, say, rupees twenty one lakhs and total sales turnover or gross receipts from business are, say, rupees eighty six lakhs it will not be necessary for him to get his accounts audited under the above section, because his gross receipts from the profession as well as total sales, turnover or

gross receipts from the business are below the prescribed limits.

5.21 It may, however, be noted that in cases where the assessee carries on more than one business activity, the results of all business activities should be clubbed together. In other words, the aggregate sales, turnover and/or gross receipts of all businesses carried on by an assessee would be taken into consideration in determining whether the prescribed limit (Presently Rs. 1 crore w.e.f. A.Y. 2013-14) as laid down in section 44AB has been exceeded or not. However, where the business is covered by section 44B or 44BBA turnover of such business shall be excluded. Similarly, where the business is covered by section 44AD or 44AE and the assessee opts to be assessed under the respective sections on presumptive basis, the turnover thereof shall be excluded. So far as a partnership firm is concerned, each firm is an independent assessee for purposes of Income-tax Act. Therefore, the figures of sales of each firm will have to be considered separately for purposes of determining whether or not the accounts of such firm are required to be audited for purposes of section 44AB.

5.22 It must also be understood that the issue whether the turnover exceeds the prescribed limit (Presently Rs.1 crore w.e.f A.Y. 2013-14) in the case of business or the gross receipts exceed the prescribed limit (Presently Rs.25 lakhs w.e.f. A.Y. 2013-14) in the case of profession is to be determined in each year independent of the results obtained in the preceding year or years. Further, this section applies only if the turnover exceeds the prescribed limit according to the accounts maintained by the assessee. If the Assessing Officer wants the assessee to get his accounts audited in cases where the figures of turnover as appearing in the books of account of the assessee do not exceed the prescribed limits, he has no option but to pass an order under section 142(2A) directing the assessee to get his accounts audited from a chartered accountant as may be nominated by the Commissioner of Income-tax or the Chief Commissioner of Income-tax.

6. Liability to tax audit - Special cases

6.1 A question may arise in the case of an assessee whose income is not chargeable to income-tax by reason of a specific exemption contained in the law or otherwise, as to whether he is required to get his accounts audited and to furnish such report under section 44AB. Such cases may cover those assessee who are wholly outside the purview of income-tax law as well as those whose income is otherwise exempt under the Act. It is felt that neither section 44AB nor any other provisions of the Act stipulate exemption from the compulsory tax audit to any person whose income is exempt from tax. This section makes it mandatory for every person carrying on any business or profession to get his accounts audited where conditions laid down in the section are satisfied and to furnish the report of such audit in the prescribed form. A trust/association/institution carrying on business may enjoy exemptions as the case may be under sections 10(21), 10(23A), 10(23B) or section 10(23BB) or section 10(23C) or section 11. A co-operative society carrying on business may enjoy deduction under section 80P. Such institutions/associations of persons will have to get their accounts audited and to furnish such audit report for purposes of section 44AB if their turnover in business exceeds

the prescribed limit (Presently Rs.1 crore w.e.f. A.Y. 2013-14). But an agriculturist, who does not have any income under the head "Profits and gains of business or profession" chargeable to tax under the Act and who is not required to file any return under the said Act, need not get his accounts audited for purposes of section 44AB even though his total sales of agricultural products may exceed the prescribed limit (Presently Rs.1 crore w.e.f. A.Y. 2013-14)

6.2 It may be appreciated that the object of audit under section 44AB is only to assist the Assessing Officer in computing the total income of an assessee in accordance with different provisions of the Act. Therefore, even if the income of a person is below the taxable limit laid down in the relevant Finance Act of a particular year, he will have to get his accounts audited and to furnish such report under section 44AB, if his turnover in business exceed the prescribed limit (Presently Rs.1 crore w.e.f. A.Y. 2013-14).

6.3 The case of non-residents may be considered separately. Section 44AB does not make any distinction between a resident or non-resident. Therefore, a non-resident assessee is also required to get his accounts audited and to furnish such report under section 44AB if his turnover/sales/gross receipts exceed the prescribed limits. This audit, however, would be confined only to the Indian operations carried out by the non-resident assessee since he is chargeable to income-tax in India only in respect of income accruing or arising or received in India.

7. Specified date and tax audit

7.1 As per the recent developments, the tax audit report is required to be uploaded using digital signature of the tax auditor. A question may arise whether a tax auditor appointed under section 44AB can be held responsible if he does not complete the audit and if the tax audit report is not uploaded before the specified date. Answer to this question will depend on the facts and circumstances of the case. Normally, it is the professional duty of the chartered accountant to ensure that the audit accepted by him is completed before the due date. If there is any unreasonable delay on his part, he is answerable to the Institute if a complaint is made by the client. However, if the delay in the completion of audit is attributable to his client, the tax auditor cannot be held responsible. It is, therefore, necessary that no chartered accountant should accept audit assignments which he cannot complete within the above time frame. In this regard, reference may also be made to paragraph 12 of this Guidance Note.

8. Penalty

8.1. In order to ensure proper compliance with section 44AB, section 271B has been enacted which reads as under:-

"Failure to get accounts audited

271B. *If any person fails to get his accounts audited in respect of any previous year or years relevant to an assessment year or furnish a report of such audit as required under*

III.188 Auditing Pronouncements

section 44AB, the Assessing Officer may direct that such person shall pay, by way of penalty, a sum equal to one-half per cent of the total sales, turnover or gross receipts, as the case may be, in business, or of the gross receipts in profession, in such previous year or years or a sum of one hundred fifty thousand rupees, whichever is less."

8.2. As such, the failure of a person, to get his accounts audited in respect of any previous year or furnish a copy of such report as required under section 44AB may attract a penalty equal to 0.5% of the total sales, turnover or gross receipts, or Rs.1.5 lakh whichever is less. However, in view of the specific provisions contained in section 273B, no penalty is imposable under section 271B on the assessee for the above failure if he proves that there was reasonable cause for the said failure. The onus of proving reasonable cause is on the assessee.

8.3. Some of the instances where Tribunals/Courts have accepted as "reasonable cause" are as follows:

- (a) Resignation of the tax auditor and consequent delay;
- (b) *Bona fide* interpretation of the term 'turnover' based on expert advice;
- (c) Death or physical inability of the partner in charge of the accounts;
- (d) Labour problems such as strike, lock out for a long period, etc.;
- (e) Loss of accounts because of fire, theft, etc. beyond the control of the assessee;
- (f) Non-availability of accounts on account of seizure;
- (g) Natural calamities, commotion, etc.

9. Tax auditor

9.1 The tax audit is to be carried out by an "accountant". The term "accountant" has been defined in sub-clause (i) of Explanation to section 44AB as under:

For the purposes of this section, -

- (i) "accountant" shall have the same meaning as in the Explanation below sub-section (2) of section 288".

The above-mentioned Explanation reads as under:

"Accountant" means a chartered accountant within the meaning of Chartered Accountants Act, 1949 (38 of 1949) and includes, in relation to any State, any person, who by virtue of the provisions of sub-section (2) of section 226 of the Companies Act, 1956 (1 of 1956), is entitled to be appointed to act as an auditor of companies registered in that State."

As stated earlier, section 226 of the Companies Act, 1956 has been replaced with section 141 in the Companies Act, 2013 with effect from 1.04.2014.

9.2 The proviso to section 44AB lays down that where the accounts of an assessee are required to be audited by or under any other law, it shall be sufficient compliance with the provisions of this section, if such person gets the accounts of such business or profession audited under such other law before the specified date and furnishes by that date the report by an 'accountant' as required under section 44AB. It may be noted that after amendment by the Finance Act, 2001, tax audit can be carried out by an accountant only. Accordingly, in case of any assessee like a co-operative society where the accounts under the relevant law have been audited by a person other than a chartered accountant, the tax audit will have to be conducted by the 'accountant' as defined under section 44AB.

9.3. Though the section refers to the accounts being audited by an accountant which means a chartered accountant as defined above, the audit can also be done by a firm of chartered accountants. This has been a recognised practice under the Act. In such a case, it would be necessary to state the name of the partner who has signed the audit report on behalf of the firm. The member signing the report as a partner of a firm or in his individual capacity should give his membership number while registering himself in the e-filing portal.

9.4. Section 44AB stipulates that only Chartered Accountants should perform the tax audit. This section does not stipulate that only the statutory auditor appointed under the Companies Act or other similar Statute should perform the tax audit. As such the tax audit can be conducted either by the statutory auditor or by any other chartered accountant in full time practice.

9.5 It may be noted that the Council at its 242nd meeting has passed a resolution effective from 1st April 2005, that any member in part-time practice (namely, holding a certificate of practice and also engaging himself in any other business and/or occupation) is not entitled to perform attest functions including tax audit.

9.6 A question may arise in the case of a public sector company or any other company where the statutory auditor has not been appointed by the authorities concerned as to whether the tax auditor appointed under section 44AB can complete his audit without waiting for statutory audit report on the accounts audited by the statutory auditors. It may be noted that Form No. 3CA requires the tax auditor to enclose a copy of the audit report conducted by the statutory auditor or the auditor of the financial statements as the case may be. Where a statutory auditor has not been appointed by the authorities concerned or where the report of the statutory auditor is not available for whatever reasons, it will be possible for the tax auditor to give his report in Form No. 3CB and to certify the relevant particulars in Form No.3CD. This is particularly important in those cases where the assessee concerned has suffered losses in the relevant accounting year. It may, however, be noted that the tax auditor in such cases will have to conduct the financial audit as well in order to enable him to certify whether or not the accounts reported upon by him give a true and fair view of the state of affairs of the assessee whose accounts are audited by him under section 44AB.

9.7 Tax audit under section 44AB being a recurring audit assignment, for expressing professional opinion on the financial statements and the particulars, the member accepting the

III.190 Auditing Pronouncements

assignment should communicate with the member who had done tax audit in the earlier year as provided in the Chartered Accountants Act. When making the enquiry from the retiring auditor, the member accepting the assignment should find out whether there is any professional or other reasons why he should not accept the appointment. The professional reasons for not accepting the appointment include:

- ◆ Non-compliance of the provisions of sections 224 and 225 of the Companies Act as mentioned in *Code of Ethics issued by ICAI under Clause (9) of Part I of First Schedule to Chartered Accountants Act, 1949. Sections 224 and 225 have been replaced with section 139/142 and section 140 respectively in Companies Act, 2013.
- ◆ Non-payment of undisputed audit fees by auditees other than in case of sick units for carrying out the statutory audit under the Companies Act, 1956/2013 or various other statutes.
- ◆ Issuance of qualified report

9.8 In the case of a person whose accounts of the business or profession have been audited under any other law (i.e. a company, a co-operative society, etc. which is required to get the accounts audited under a Statute) it is not necessary to communicate with the statutory auditor if he had not done tax audit in the earlier year. Attention of the members is invited to the detailed discussion in the publication of ICAI, *"Code of Ethics" – **Appendix III (Page no. 220)**. Further, attention of members is invited to the Chapter- VII "Appointment of an Auditor in case of non-payment of undisputed fees" of the Council Guidelines No.1-CA(7)/02/2008, dated 8th August, 2008- **Appendix IV (Page no. 226)**

**In view of the fact that with effect from 01.04.2014.the Companies Act, 1956 has been replaced with Companies Act, 2013, the "Code of Ethics" issued by ICAI is under revision. The members may refer the revised "Code of Ethics" as and when published for the above mentioned provisions.*

9.9 A chartered accountant should not accept the tax audit of a person to whom he is indebted for more than rupees ten thousand. Reference should be made to Chapter- X "Appointment of an auditor when he is indebted to a concern" of the Council Guidelines No.1-CA(7)/02/2008, dated 8th August, 2008- **Appendix IV (Page no. 226)** whereby a member of the Institute shall be deemed to be guilty of professional misconduct if he accepts appointment as an auditor of a concern while he is indebted to the concern or has given any guarantee or provided any security in connection with the indebtedness of any third person to the concern, for limits fixed in the statute and in other cases for amount exceeding rupees ten thousand. For this purpose, the limit of Rs. 10,000/- shall be the aggregate amount in respect of the proprietor and/or the partner/s of the firm of chartered accountants.

9.10 The Council has issued a Guideline No.1-CA(7)/02/2008, dated 8th August, 2008 given in **Appendix IV (Page no. 226)** Chapter- IX "Appointment as Statutory auditor" states that a member of the Institute in practice shall be deemed to be guilty of professional misconduct, if he accepts the appointment as statutory auditor of Public Sector Undertaking/ Government

Company /Listed Company and other Public Company having turnover of Rs. 50 crores or more in a year and accepts any other work or assignment or service in regard to the same undertaking/company on a remuneration which in total exceeds the fee payable for carrying out the statutory audit of the same undertaking/company.

9.11 The above restrictions shall apply in respect of fees for other work or service or assignment payable to the statutory auditors and their associate concerns put together.

9.12 As per the said notification, the term “other work(s)” or “service(s)” or “assignment(s)” shall include Management Consultancy and all other professional services permitted by the Council pursuant to Section 2(2)(iv) of the Chartered Accountants Act, 1949 but shall not include: -

- (i) audit under any other statute;
- (ii) certification work required to be done by the statutory auditors; and
- (iii) any representation before an authority.

9.13 Since the obligation for tax audit has been specified in section 44AB of the Income-tax Act, 1961, it will be considered as an audit under any other statute for the purpose of this notification and thus the above restriction shall not apply in respect of tax audit fees.

9.14 The tax auditor should obtain from the assessee a letter of appointment for conducting the audit as mentioned in section 44AB. It is advisable that such an appointment letter should be signed by the person competent to sign the return of income in terms of the provisions of section 140 of the Act. It would also be useful if the letter affirms that no other auditor was appointed to conduct the tax audit for the year for which the appointment is being made. The letter may also give the name and address of the tax auditor for the previous year, wherever relevant. This would give the necessary information to the incoming tax auditor to enable him to communicate with the previous auditor. The letter of appointment should also specify the remuneration of the tax auditor. SA-210, *Agreeing the Terms of Audit Engagement* issued by the ICAI requires that the auditor to agree with the terms of audit engagement with management or those charged with governance as appropriate. The agreed terms would need to be recorded in an audit engagement letter or other suitable form of written agreement and shall include (a) The objective and scope of the audit of the financial statements; It should be specifically mentioned that the scope of audit is restricted to the provisions contained in section 44AB of the Income tax Act, 1961 and the Income-tax Rules, 1962. (b) The responsibilities of the auditor; (c) The responsibilities of management; (d) Identification of the applicable financial reporting framework for the preparation of the financial statements; and (e) Reference to the expected form and content of any reports to be issued by the auditor as per the provisions of Income-tax Act, 1961 and Income-tax Rule, 1962 along with a statement that there may be circumstances in which a report may differ from its expected form and content. In the interest of both client and auditor, the auditor should send an engagement letter, preferably before the commencement of the engagement, to help avoid any

III.192 Auditing Pronouncements

misunderstandings with respect to the engagement. The engagement letter documents and confirms the auditor's acceptance of the appointment, the objective and scope of the audit and the extent of the auditor's responsibilities to the client. However, it may be noted that wherever an audit is to be conducted under a Statute, acknowledgement of the letter of the auditor by the client is considered to be sufficient compliance of SA-210. The tax auditor should get the statement of particulars, as required in the annexure to the audit report, authenticated by the assessee before he does the same.

9.15 The tax auditor is required to upload the tax audit report directly in the e-filing portal.

9.16 The appointment of the auditor for tax audit in the case of a company need not be made at the general meeting of the members. It can be made by the Board of Directors or even by any officer, if so authorised by the Board in this behalf. The appointment in the case of a firm or a proprietary concern can be made by a partner or the proprietor or a person authorised by the assessee. It is possible for the assessee to appoint two or more chartered accountants as joint auditors for carrying out the tax audit, in which case, the audit report will have to be signed by all the chartered accountants. In case of disagreement, they can give their reports separately. In this regard, attention is invited to Para 12 of the SA 299, *Responsibility of Joint Auditors* issued by ICAI reproduced below:

"Normally, the joint auditors are able to arrive at an agreed report. However, where the joint auditors are in disagreement with regard to any matters to be covered by the report, each one of them should express his own opinion through a separate report. A joint auditor is not bound by the views of the majority of the joint auditors regarding matters to be covered in the report and should express his opinion in a separate report in case of a disagreement."

The responsibility of joint tax auditors will be the same as in the case of other audits e.g. audit under the Companies Act. For details relating to such responsibility, in the case of joint tax audit, reference may be made to SA 299, *Responsibility of Joint Auditors*.

9.17 The position of a tax auditor for conducting audit under section 44AB will be considered as an office of profit. Therefore, the provisions of section 314 of the Companies Act, 1956 will be attracted when a relative of a director is appointed as a tax auditor of the company, if the remuneration thereof exceeds the limits prescribed in the aforesaid section. The necessary formalities will be required to be complied with as required under section 314. It may be noted Section 314 of the Companies Act, 1956 has been replaced with section 188 of the Companies Act, 2013, w.e.f. 1.4.2014.

9.18 The Act does not prohibit a relative or an employee of the assessee being appointed as a tax auditor under section 44AB. It may, however, be noted that as per the decision of the Council (reported in the Code of Ethics under clause (4) of Part I of Second Schedule), a chartered accountant should not express his opinion on financial statements of any business or enterprise in which he, his firm or a partner in his firm has a substantial interest. It may be

noted that the Council has decided not to permit a Chartered Accountant in employment to certify the financial statements of the concern in which he is employed, or of a concern under the same management as the concern in which he is employed, even though he holds certificate of practice and that such certification can be done by any Chartered Accountant in practice. This restriction would not however apply where the certification is permitted by any law, e.g. Section 228(4) of the Companies Act, 1956 and the Companies (Branch Audit Exemption) Rules, 1961 made thereunder. Therefore, an employee of an assessee or an employee of a concern under the same management cannot audit the accounts of an assessee under section 44AB. Relevant extracts from the *Code of Ethics published by ICAI are given in **Appendix V (Page no. 237)**

**In view of the fact that with effect from 01.04.2014, the Companies Act, 1956 has been replaced with Companies Act, 2013, the "Code of Ethics" issued by ICAI is under revision. The members may refer the revised "Code of Ethics" as and when published for the above mentioned provisions.*

9.19 A chartered accountant who is responsible for writing or maintenance of the books of account of the assessee should not audit such accounts. This principle will apply to the partner of such a member as well as to the firm in which he is a partner. In view of this, a chartered accountant who is responsible for writing or maintenance of the books of account or his partner or the firm in which he is a partner should not accept tax audit assignment under section 44AB in the case of such an assessee.

9.20 The audit of accounts of a professional firm of chartered accountants, under section 44AB cannot be conducted by any partner or employee of such firm.

9.21 A chartered accountant/firm of chartered accountants, who is appointed as tax consultant of the assessee, can conduct tax audit under section 44AB. But an internal auditor of the assessee cannot conduct tax audit if he is an employee of the assessee. The Council of ICAI in its 281st meeting held from 3rd to 5th October, 2008 decided that an internal auditor of an assessee, whether working with the organisation or independently practicing chartered accountant or a firm of chartered accountants, cannot be appointed as his tax auditor. The decision was made effective from 12-12-2008.

9.22 A question may arise whether an assessee can remove a tax auditor appointed under section 44AB. The answer depends upon the facts and circumstances of the case. It is, however, possible for the management to remove a tax auditor where there are valid grounds for such removal. This may arise where the tax auditor has delayed the submission of audit report under section 44AB for an unreasonable period and if it is found that there is no possibility of getting the audit report uploaded before the specified date. In such cases, the management may be justified in removing the tax auditor. However, the tax auditor cannot be removed on the ground that he has given an adverse audit report or the assessee has an apprehension that the tax auditor is likely to give an adverse audit report. If there is any unjustified removal of tax auditors, the Ethical Standards Board constituted by the Institute

III.194 Auditing Pronouncements

can intervene in such cases. No other chartered accountant should accept the audit assignment if the removal of his predecessor is not on valid grounds.

9.23 Before accepting a tax audit, the chartered accountant should take into consideration the ceiling on tax audit assignments fixed under the Chapter VI- Tax Audit assignments under Section 44AB of the Income-tax Act, 1961 of the Council Guidelines No.1-CA(7)/02/2008, dated 8th August,2008 as amended by a decision of the Council taken in its 331st meeting held from 10.02.2014 to 12.02.2014 and its 333rd meeting held from 14.05.2014 to 16.05.2014.- **Appendix-IV (Page no. 226) .**

9.24 In view of the said Guidelines a member of the Institute in practice, shall be deemed to be guilty of professional misconduct if, he accepts more than 60 tax audit assignments relating to an assessment year or such other limit as may be prescribed by ICAI from time to time under section 44AB, whether in respect of a person whose accounts have been audited under any other law or a person who carries on business or profession but who is not required by or under any other law to get his accounts audited.

9.25 (a) As per the Council Guidelines No.1-CA(7)/02/2008, dated 8th August, 2008, audit of books of account of persons carrying on businesses covered by sections 44AD and 44AE, is not included in the aforesaid limit. The auditor is advised to maintain the details of the audits conducted by virtue of the provisions of section 44AD and 44AE separately in the format mentioned in Para 9.26.

(b) Furthermore, a clarification was issued for reckoning the “specified number of tax audit assignments” conducted under section 44AB of the Income-tax Act, 1961, the text of the clarification is reproduced below:

“Various statutes prevailing in India like DVAT, 2004 requires the assessee to furnish an audit report in a form duly signed and verified by such particulars as may be prescribed under section 44AB of the Income-tax Act, 1961 i.e. Form 3CB/3CD. This had lead to the doubts as to whether such audits would be included in the ceiling of “specified number of tax audit assignments”.

Considering the same, the Council at its 311th meeting held on 8th and 9th November, 2011 clarified that audit prescribed under any statute which requires the audit report in the form as prescribed under section 44AB of the Income-tax Act, shall not be considered for the purpose of reckoning the specified number of tax audit assignments if the turnover of the auditee is below the turnover limit specified in section 44AB of the Income-tax Act, 1961. For instance audit under section 44AD, audit under DVAT, 2004 (for turnover between 40 to 60 Lakhs) etc. will not be considered for inclusion in the present limit of 60 audits”*

**w.e.f 1.04.2014*

9.26 In case the member is a partner of a firm of chartered accountants in practice, the ceiling of 60 tax audit assignments shall be computed with reference to each of the partner in

the said firm. Where any partner of the firm of chartered accountants in practice is also a partner of any other firm or firms of chartered accountants in practice, the ceiling limit of 60 shall apply with reference to all the firms together in relation to such partner. Similarly, where any partner accepts one or more tax audit assignments in his individual capacity, the total number of such assignments under section 44AB which may be accepted by him whether directly in his individual capacity or as partner of the firm of chartered accountants in practice shall not exceed 45 tax audit assignments. If two members or firms of chartered accountants are appointed as joint tax auditors, then the assignment will have to be included in the case of both the members or firms separately. It has, however, been clarified that the audit of the head office and branch offices concerned shall be regarded as one tax audit assignment. Similarly, the audit of one or more branches of the same concern by one chartered accountant in practice shall be construed as only one tax audit assignment. In computing the specified number of tax audit assignments each year's audit would be taken as a separate assignment. Every chartered accountant in practice shall maintain a record of the tax audit assignments accepted by him in each financial year in the format prescribed by the Council. This format is reproduced in **Appendix VI (Page no. 242)**.

9.27 The Institute has recommended fees for professional services on the basis of time devoted by a chartered accountant and his assistants. The fees for tax audit assignment can be charged by a chartered accountant on the basis of the work involved in the assignment. It may be appreciated that no uniform fees can be recommended on the basis of turnover because an assessee having turnover of Rs.1 crore in a trading activity may have less transactions as compared to an assessee having the same turnover in a manufacturing activity. Similarly the transactions in a wholesale business will be less than the transactions in a retail business. The revised minimum recommended scale of fees recommended by the Committee of Capacity Building of CA Firms and small and medium Practitioners as on date is given in **Appendix VII (Page No. 243)**.

9.28 The chartered accountants should charge reasonable fees depending upon the responsibility involved under the revised forms and taking into consideration the work involved in tax audit assignment which has increased considerably consequent to the revision of the forms. It is necessary that members of the profession should also maintain reasonable standards of professional fees.

9.29 As mentioned in Paragraph 9.26 above, the audit of the head office and branch offices of an assessee shall be regarded as one tax audit assignment.

10. Accounting Standards

10.1. Recognizing the need to harmonize the diverse accounting policies and practices in use in India and keeping in view the International developments in the field of accounting, the Council of the Institute has issued Accounting Standards.

10.2. The legal recognition to the Accounting Standards formulated by the ICAI was granted in October 1998 with insertion of Section 211(3A), (3B), and (3C) in the Companies Act, 1956. As per Section 211(3C) of the Act, Accounting Standards issued by the ICAI may be prescribed by the Central Government in consultation with the National Advisory Committee on Accounting Standards (NACAS). As per the proviso to the section, till the notification of the Accounting Standards by the Government, the Accounting Standards issued by the ICAI are required to be followed by companies. In the year 2006, Accounting Standards 1 to 7 and 9 to 29 were notified by the Ministry of Corporate Affairs, Government of India, under the Companies (Accounting Standards) Rules, 2006 vide its notification dated December 7, 2006 in the Gazette of India. These were made effective in respect of accounting periods commencing on or after the publication of these Accounting Standards (i.e., December 7, 2006). As per the Companies (Accounting Standards) Rules, 2006, Companies are classified into two categories, i.e., Small and Medium Companies (SMCs) and Non-SMCs. The Companies Act, 2013 has replaced Companies Act, 1956. Section 133 of the Companies Act, 2013 provides for compliance to Accounting Standards. The existing Accounting Standards notified under Companies (Accounting Standards) Rules, 2006 would continue to be followed.

10.3 ICAI, keeping in view the fact that the Accounting Standards notified under Companies (Accounting Standards) Rules, 2006, will be applicable to the companies, announced the scheme for applicability of accounting standards issued by ICAI to non-companies. The criteria for classification non-corporate entities as decided by ICAI and companies under the Companies (Accounting Standards) Rules, 2006 is given in **Appendix-VIII (Page no. 254)**.

10.4 The Accounting Standards, issued by ICAI/notified under Companies (Accounting Standards) Rules, 2006 are for use in the presentation of general purpose financial statements which are issued to the public by such commercial, industrial or business enterprises as may be specified by the Institute from time to time and subject to the attest function of its members. The term 'General Purpose Financial Statements' includes balance sheet, statement of profit and loss, a cash flow statement (wherever applicable) and other statements and explanatory notes which form part thereof, issued for the use of various stakeholders, Governments and their agencies and the public at large.

10.5. The Institute has so far issued thirty two definitive standards as follows:

- AS 1 Disclosure of Accounting Policies
- AS 2 Valuation of Inventories
- AS 3 Cash Flow Statements
- AS 4 Contingencies and Events Occurring After the Balance Sheet Date.
- AS 5 Net Profit or Loss for the period, Prior Period items and changes in Accounting policies
- AS-6 Depreciation Accounting

- AS 7 Construction Contracts
- AS 8 (Withdrawn pursuant to AS 26 becoming mandatory) Accounting for Research and Development
- AS 9 Revenue Recognition
- AS10 Accounting for Fixed Assets
- AS11 The Effects of Changes in Foreign Exchange Rates
- AS12 Accounting for Government Grants
- AS13 Accounting for Investments
- AS14 Accounting for Amalgamations
- AS15 Employee Benefits
- AS16 Borrowing Costs
- AS 17 Segment Reporting
- AS 18 Related Party Disclosures
- AS 19 Leases
- AS 20 Earnings Per Share
- AS 21 Consolidated Financial Statements
- AS 22 Accounting for Taxes on Income
- AS 23 Accounting for Investments in Associates in Consolidated Financial Statements
- AS 24 Discontinuing Operations
- AS 25 Interim Financial Reporting
- AS 26 Intangible Assets
- AS 27 Financial Reporting of Interests in Joint Ventures
- AS 28 Impairment of Assets
- AS 29 Provisions, Contingent Liabilities and Contingent Assets
- AS 30 Financial Instruments: Recognition and Measurement
- AS 31 Financial Instruments: Presentation
- AS 32 Financial Instruments: Disclosures

10.6 AS 30, AS 31 and AS 32 issued by the Institute of Chartered Accountants of India (ICAI) in 2007 have not yet been notified by the Government under Section 211(3C)/133 of the Companies Act, 1956/2013 respectively. In respect of the financial statements or other financial information the status of AS 30 as announced by the Council of the ICAI is as

III.198 Auditing Pronouncements

follows:

- (i) To the extent of accounting treatments covered by any of the existing notified accounting standards (for eg. AS 11, AS 13 etc) the existing accounting standards would continue to prevail over AS 30.
- (ii) In cases where a relevant regulatory authority has prescribed specific regulatory requirements (eg. Loan impairment, investment classification or accounting for securitizations by the RBI, etc), the prescribed regulatory requirements would continue to prevail over AS 30.
- (iii) The preparers of the financial statements are encouraged to follow the principles enunciated in the accounting treatments contained in AS 30. The aforesaid is, however, subject to (i) and (ii) above.

10.7 The abovementioned clarifications would also be relevant to the existing AS 31, *Financial Instruments: Presentation* and AS 32, *Financial Instruments: Disclosures*

10.8 **Applicability of Accounting Standards and exemptions/ relaxations for Small and Medium Sized Enterprises**

It may be noted that certain exemptions/relaxations from the applicability of accounting standards have been given to Small and Medium Size Enterprise (SMEs). Accordingly, the Council has decided upon the following scheme which has come into effect in respect of accounting periods commencing on or after 1.4.2004.

- (1) For the purpose of applicability of Accounting Standards, enterprises are classified into three categories, viz., Level I, Level II and Level III. Level II and Level III enterprises are considered as SMEs.
- (2) Level I enterprises are required to comply fully with all the accounting standards.
- (3) It has been decided that no relaxation should be given to Level II and Level III enterprises in respect of recognition and measurement principles. Relaxations are provided with regard to disclosure requirements. Accordingly, Level II and Level III enterprises are fully exempted from certain accounting standards which primarily lay down disclosure requirements. In respect of certain other accounting standards, which lay down recognition, measurement and disclosure requirements, relaxations from certain disclosure requirements are given. The exemptions/relaxations are decided to be provided by modifying the applicability portion of the relevant accounting standards. The applicability of AS and exemptions/relaxations thereof for SMEs are given in **Appendix VIII (Page no. 254)**.

10.9 AS also apply in respect of financial statements audited under section 44AB of the Income-tax Act, 1961. Accordingly, members should examine compliance with the mandatory accounting standards when conducting such audit.

10.10 AS apply in respect of commercial, industrial or business activities of an enterprise. In

the case of charitable or religious organisations, AS will not apply if all activities of such organisations are not of commercial, industrial or business nature (e.g. an activity of collecting donations and giving them to flood affected people). In other words, exclusion of an entity from the applicability of the AS would be permissible only if no part of the activity of such entity is commercial, industrial or business in nature. Even if a very small portion of the activities of an entity is considered to be commercial, industrial or business in nature, then it cannot claim exemption from the application of AS. The AS would apply to all its activities including those which are not commercial, industrial or business in nature.

10.11 The Companies Act, 2013, as well as many other statutes require that the financial statements of an enterprise should give a true and fair view of its financial position and working results. This requirement is implicit even in the absence of a specific statutory provision to this effect. However, what constitutes 'true and fair' view has not been defined either in the Companies Act, 2013, or in any other statute. The Accounting Standards (as well as other pronouncements of the Institute on accounting matters) seek to describe the accounting principles and the methods of applying these principles in preparation and presentation of financial statements so that they give a true and fair view.

10.12 In this connection, it may be noted that sub-section (1) of section 129 of the Companies Act, 2013, provides that the financial statements shall give a true and fair view of the state of affairs of the company or companies, comply with the accounting standards notified under section 133 and shall be in the form or forms as may be provided for different class or classes of companies in Schedule III thereof. It also provides that items contained in such financial statements shall be in accordance with the accounting standards. Sub-section (5) of section 129 provides that without prejudice to sub-section (1), where the financial statements of a company do not comply with the accounting standards referred to in sub-section (1), the company shall disclose in its financial statements, the deviation from the accounting standards, the reasons for such deviation and the financial effects, if any, arising out of such deviation.

10.13 Section 2(2) of Companies Act, 2013 provides that accounting standards" means the standards of accounting or any addendum thereto for companies or class of companies referred to in section 133.

10.14 The 'Preface to the Statements of Accounting Standards', issued by the Institute, *inter alia*, states:

The Accounting Standards will be mandatory from the respective date(s) mentioned in the Accounting Standard(s). The mandatory status of an Accounting Standard implies that while discharging their attest functions, it will be the duty of the members of the Institute to examine whether the Accounting Standard is complied with in the presentation of financial statements covered by their audit. In the event of any deviation from the Accounting Standard, it will be their duty to make adequate disclosures in their audit reports so that the users of financial statements may be aware of such deviation.

III.200 Auditing Pronouncements

Ensuring compliance with the Accounting Standards while preparing the financial statements is the responsibility of the management of the enterprise. Statutes governing certain enterprises require of the enterprises that the financial statements should be prepared in compliance with the Accounting Standards, e.g., the Companies Act, 2013 (section 129), and the Insurance Regulatory and Development Authority (Preparation of Financial Statements and Auditor's Report of Insurance Companies) Regulations, 2000.'

10.15 While discharging their attest function, the members of the Institute may keep the following in mind with regard to the mandatory AS.

AS 1 Disclosure of Accounting Policies¹

In the case of a company, members should qualify their audit reports in case:

- (a) accounting policies required to be disclosed under Schedule VI or any other provisions of the Companies Act, 1956, have not been disclosed, or
- (b) accounts have not been prepared on accrual basis, or
- (c) the fundamental accounting assumptions of going concern and consistency have not been followed and this fact has not been disclosed in the financial statements, or
- (d) proper disclosures regarding changes in the accounting policies have not been made.
- (e) Accounting Standards referred to in section 211(3C) of the Companies Act, 1956 have not been followed.

10.16 Where a company has been given a specific exemption regarding any of the matters stated above, but the fact of such exemption has not been adequately disclosed in the accounts, the member should mention the fact of exemption in his audit report without necessarily making it a subject matter of audit qualification.

10.17 In the case of an enterprise other than a company, members should qualify their audit reports in case AS issued, prescribed and made mandatory by the ICAI have not been followed.

10.18 Financial statements prepared on a basis other than accrual

With regard to the fundamental accounting assumption of accrual, the Council has made a specific announcement that in respect of (a) Sole proprietary concerns/individuals, (b) Partnership firms, (c) Societies registered under the Societies Registration Act, (d) Trusts, (e) Hindu undivided families and (f) Association of persons, the auditor should examine whether the financial statements have been prepared on accrual basis. In case where the statute

¹ As per the announcement of the Council 'accounting Standards 1,7,8,9 and 10 made mandatory' published in July 1990 issue of 'The Chartered Accountants'

governing the enterprise requires the preparation and presentation of financial statements on accrual basis but the financial statements have not been so prepared, the auditor should qualify his report. On the other hand where there is no statutory requirement for preparation and presentation of financial statements on accrual basis, and the financial statements have been prepared on a basis other than 'accrual', the auditor should describe in his audit report, the basis of accounting followed, without necessarily making it a subject matter of a qualification. In such a case the auditor should also examine whether those provisions of the AS which are applicable in the context of the basis of accounting followed by the enterprise have been complied with or not and consider making suitable qualifications in his audit report accordingly.

10.19 Accounting Standards under taxation law

The Finance Act, 1995 substituted a new section 145 w.e.f. A.Y. 1997-98. The section deals with method of accounting and is reproduced below :-

"145. (1) Income chargeable under the head "Profits and gains of business or profession" or "Income from other sources" shall, subject to the provisions of sub-section (2), be computed in accordance with either cash or mercantile system of accounting regularly employed by the assessee.

(2) The Central Government may notify in the Official Gazette from time to time accounting standards to be followed by any class of assesseees or in respect of any class of income.

(3) Where the Assessing Officer is not satisfied about the correctness or completeness of the accounts of the assessee, or where the method of accounting provided in sub-section (1) or accounting standards as notified under sub-section (2), have not been regularly followed by the assessee, the Assessing Officer may make an assessment in the manner provided in section 144."

10.20 Standards notified by Government - AS (IT)

In exercise of the powers conferred by section 145(2), the Central Government has by Notification No. S.O.69 (E), dated 25th January, 1996 notified two AS (IT). This notification came into force with effect from 1st day of April, 1996, and is accordingly applicable from assessment year 1997-98 and subsequent assessment years.

10.21 These AS (IT) are given below:

Accounting Standards to be followed by all assesseees following mercantile system of accounting:

A. Accounting Standard I relating to disclosure of accounting policies

1. All significant accounting policies adopted in the preparation and presentation of financial statements shall be disclosed.
2. The disclosure of the significant accounting policies shall form part of the

III.202 Auditing Pronouncements

financial statements and the significant accounting policies shall normally be disclosed in one place.

3. *Any change in an accounting policy which has a material effect in the previous year or in the years subsequent to the previous years shall be disclosed. The impact of, and the adjustments resulting from such change, if material, shall be shown in the financial statements of the period in which such change is made to reflect the effect of such change. Where the effect of such change is not ascertainable, wholly or in part, the fact shall be indicated. If a change is made in the accounting policies which has no material effect on the financial statements for the previous year but which is reasonably expected to have a material effect in any year subsequent to the previous year, the fact of such change shall be appropriately disclosed in the previous year in which the change is adopted.*

4. *Accounting policies adopted by an assessee should be such so as to represent a true and fair view of the state of affairs of the business, profession or vocation in the financial statements prepared and presented on the basis of such accounting policies. For this purpose, the major considerations governing the selection and application of accounting policies are the following, namely:*

- (i) Prudence - Provisions should be made for all known liabilities and losses even though the amount cannot be determined with certainty and represents only a best estimate in the light of available information;*
- (ii) Substance over form - The accounting treatment and presentation in financial statements of transactions and events should be governed by their substance and not merely by the legal form;*
- (iii) Materiality - Financial statements should disclose all material items, the knowledge of which might influence the decisions of the user of the financial statements.*

5. *If the fundamental accounting assumptions relating to going concern, Consistency and Accrual are followed in financial statements, specific disclosure in respect of such assumptions is not required. If a fundamental accounting assumption is not followed, such fact shall be disclosed.*

6. *For the purposes of paragraphs (1) to (5), the expressions, -*

- (a) "Accounting policies" means the specific accounting principles and the methods of applying those principles adopted by the assessee in the preparation and presentation of financial statements;*
- (b) "Accrual" refers to the assumption that revenues and costs are accrued, that is, recognised as they are earned or incurred (and not as money is received or paid) and recorded in the financial statements of the periods to which they*

relate;

- (c) "Consistency" refers to the assumption that accounting policies are consistent from one period to another;
- (d) "Financial statements" means any statement to provide information about the financial position, performance and changes in the financial position of an assessee and includes balance sheet, profit and loss account and other statements and explanatory notes forming part thereof;
- (e) "Going concern" refers to the assumption that the assessee has neither the intention nor the necessity of liquidation or of curtailing materially the scale of the business, profession or vocation and intends to continue his business, profession or vocation for the foreseeable future.

B. Accounting Standard II relating to disclosure of prior period and extraordinary items and changes in accounting policies:

1. Prior period items shall be separately disclosed in the profit and loss account in the previous year together with their nature and amount in a manner so that their impact on profit or loss in the previous year can be perceived.
2. Extraordinary items of the enterprise during the previous year shall be disclosed in the profit and loss account as part of taxable income. The nature and amount of each such item shall be separately disclosed in a manner so that their relative significance and effect on the operating results of the previous year can be perceived.
3. A change in an accounting policy shall be made only if the adoption of a different accounting policy is required by statute or if it is considered that the change would result in a more appropriate preparation or presentation of the financial statements by an assessee.
4. Any change in an accounting policy which has a material effect shall be disclosed. The impact of, and the adjustments resulting from such change, if material, shall be shown in the financial statements of the period in which such change is made to reflect the effect of such change. Where the effect of such change is not ascertainable, wholly or in part, the fact shall be indicated. If a change is made in the accounting policies which has no material effect on the financial statements for the previous year but which is reasonably expected to have a material effect in years subsequent to the previous years, the fact of such change shall be appropriately disclosed in the previous year in which the change is adopted.
5. A change in an accounting estimate that has a material effect in the previous year shall be disclosed and quantified. Any change in an accounting estimate which is reasonably expected to have a material effect in years subsequent to the previous year shall also be disclosed.

III.204 Auditing Pronouncements

6. *If a question arises as to whether a change is a change in accounting policy or a change in an accounting estimate, such a question shall be referred to the Board for decision.*

7. *For the purposes of paragraphs (1) to (6), the expressions:*

- (a) *“Accounting estimate” means an estimate made for the purpose of preparation of financial statements which is based on the circumstances existing at the time when the financial statements are prepared;*
- (b) *“Accounting policies” means the specific accounting principles and the method of applying those principles adopted by the assessee in the preparation and presentation of financial statements;*
- (c) *“Extraordinary items” means gains or losses which arise from events or transactions which are distinct from the ordinary activities of the business and which are both material and expected not to recur frequently or regularly. Extraordinary items include material adjustments necessitated by circumstances which though related to the years preceding the previous years are determined in the previous year;*
Provided that income or expenses arising from the ordinary activities of the business or profession or vocation of an assessee, though abnormal in amount or infrequent in occurrence, shall not qualify as extraordinary items;
- (d) *“Financial statements” means any statement to provide information about the financial position, performance and changes in the financial position of an assessee and includes balance sheet, profit and loss account and other statements and explanatory notes forming part thereof;*
- (e) *“Prior period items” means material charges or credits which arise in the previous year as a result of errors or omissions in the preparation of the financial statements of one or more previous years.*

Provided that the charge or credit arising on the outcome of a contingency, which at the time of occurrence could not be estimated accurately shall not constitute the correction of an error but a change in estimate and such an item shall not be treated as a prior period item.

10.22 The above Accounting Standards are to be followed by all assessees following mercantile system of accounting. Therefore, it is clear that those assessees who are following cash system of accounting need not follow the Accounting Standards notified above.

10.23 Implications of non-compliance with the AS and AS (IT)

As mentioned earlier, AS are applicable to tax audit also when the tax auditor performs the attest function, i.e., report on whether the accounts are true and fair. Therefore, in case of

non-compliance with the AS, the chartered accountant should make appropriate qualifications/disclosures in the audit report. However, such qualifications/disclosures may or may not have any impact on the computation of total income for the purpose of the Act. Similarly, section 145 provides that the AS (IT) notified under that section should be followed by the assessee to whom they are made applicable. It should be noted that the tax auditor auditing accounts under section 44AB is not computing the income but is - (a) reporting on accounts, and (b) reporting on the relevant information furnished in Form No. 3CD. Form No. 3CD vide clause 11(d) requires reporting of the details of deviation, if any, in the method of accounting employed in the previous year from accounting standards prescribed under section 145 and the effect thereof on the profit or loss. Further, it may be noted that there is no material difference between AS (IT)-1 and AS (IT)-2 notified by the Government and the corresponding AS-1 and AS-5 of the ICAI respectively.

11. Audit Procedures

11.1 In the case of an audit, the tax auditor is required to express his opinion as to whether the financial statements give a true and fair view of the state of affairs of the assessee in the case of the balance sheet and in the case of the profit and loss account/ income and expenditure account, of the profit/loss or income/expenditure. As regards the statement of particulars to be annexed to the audit report, he is required to give his opinion as to whether the particulars are true and correct. In giving his report the tax auditor will have to use his professional skill and expertise and apply such audit tests as the circumstances of the case may require, considering the contents of the audit report. He will have to conduct the audit by applying the generally accepted auditing procedures which are applicable for any other audit. He should use his professional judgment to apply the technique of audit sampling in accordance with the principles enunciated in SA 530 (Revised) "*Audit Sampling*" depending on the nature and volume of transactions, the materiality involved and the internal control procedures followed by the assessee. He would also be well advised to refer to the other Standards on Auditing (SAs) as may be relevant, issued by ICAI, as well as the "Guidance Note on Audit Reports and Certificates for Special Purposes". If the statutory auditor of a person is also appointed to undertake tax audit, it is advisable to carry out both the audits concurrently.

11.2 Section 227/143 of the Companies Act 1956/2013 gives certain powers to the auditors to call for the books of account, information, documents, explanations, etc. and to have access to all books and records. No such powers are given to the tax auditor appointed under section 44AB. Attention is invited to SA 210, *Agreeing the Terms of Audit Engagements*. The Standard requires an auditor to establish whether the pre-conditions for an audit are present so as to accept or continue an audit engagement. As per para 6(b) (iii) the auditor is required to obtain agreement of management that it acknowledges and understands its responsibilities to provide the auditor with (a) access to all information of which the management is aware that is relevant to the preparation of the financial statements such as records, documentation and other matters, (b) additional information that the auditor may request the management for the

III.206 Auditing Pronouncements

purpose of the audit and (c) unrestricted access to persons within the entity from whom the auditor determines it necessary to obtain audit evidence. Moreover, since the appointment of the tax auditor is made by assessee, it will be in the interest of the assessee to furnish all the information and explanations and produce books of account and records required by the tax auditor. If, however, after agreeing to the terms of the engagement, the assessee subsequently refuses to produce any particular record or to give any specific information or explanation in relation to the reporting requirement under section 44AB, the tax auditor should see the impact thereof from the perspective of "management integrity" vis-a-vis overall assessment of risk of misstatements in accordance with under SA 315, *Identifying and Assessing the risks of material misstatement through understanding the entity and its environment* and consequently on his/her opinion for reporting in clause (3) of Form No.3CA or Clause (5) of Form No. 3CB as the case may be.

11.3 The audit report given under section 44AB is to assist the income-tax department to assess the correct income of the assessee. In order that the tax auditor may be in a position to explain any question which may arise later on, it is necessary that he should keep necessary working papers about the evidence on which he has relied upon while conducting the audit and also maintain all his necessary working papers. Such working papers should include his notes on the following, amongst other matters:

- (a) work done while conducting the audit and by whom;
- (b) explanations and information given to him during the course of the audit and by whom;
- (c) decision on the various points taken;
- (d) the judicial pronouncements relied upon by him while making the audit report; and
- (e) certificates issued by the client/management letters.

11.4 The requirements of documentation are applicable in respect of tax audit conducted by chartered accountants. For this purpose attention is also invited to SA 230, *Audit Documentation*, which provides that the tax auditor should prepare documentation that provides a sufficient and appropriate record of the basis for the auditor's report and evidence that the audit was planned and performed in accordance with SA's and applicable legal and regulatory requirements..

11.5 If the accounts of the business or profession of a person have been audited under any other law by the statutory auditor(s), it is not necessary for the tax auditor appointed under section 44AB to conduct the audit once again in the matter of expression of "true and fair view" of the state of affairs of the entity and of its profit/loss for the period covered by the audit. However, the said section envisages the certification of the particulars in the prescribed form on which the tax auditor has to express his opinion as to whether these are 'true and correct'. In other words, where an audit has already been conducted and the opinion of the auditor has been expressed on the accounts, it would not be necessary to repeat the entire exercise to express similar opinion all over again. The tax auditor has only to annex a copy of the audited accounts and the auditor's report and other documents forming part of these

accounts to his report and verify the particulars in the prescribed form for expressing his opinion as to whether these are true and correct.

11.6 Just in case of the conduct of a statutory audit for the purpose of expression of the auditor's opinion as to whether the financial statements depict a 'true and fair' view, the statutory auditor applies audit sampling, in case of tax audits also the tax auditor may apply audit sampling techniques as prescribed in SA 530, *Audit Sampling* on the information provided by the assessee to obtain sufficient appropriate audit evidence to be able to draw reasonable conclusions on which to base the audit opinion.. The extent of check undertaken would have to be indicated by the tax auditor in his working papers and audit notes. The tax auditor would be well advised to so design his tax audit programme as would reveal the extent of checking and to ensure adequate documentation in support of the information being certified.

11.7 Where the assessee has been subjected to an internal audit and the tax auditor decides to use the work of the internal auditor for the purpose of the tax audit under section 44AB, the latter's procedures would be guided by the principles laid down in Standard on Auditing (SA) 610, *Using the Work of Internal Auditors*.

11.8 Audit procedures applicable to a person whose accounts of the business or profession have been audited under any other law will apply as well to a person who carries on business or profession but who is not required by or under any other law to get his accounts audited. In order to express his opinion on the accounts of a person belonging to the latter category the tax auditor should apply the same tests and checks as he would have applied in the conduct of audit of the former category. In case the relevant vouchers for the expenditure and payments made by a non-corporate entity are not available, it will be necessary for the tax auditor to call for any other evidence in support of such expenditure and payments. The entity should be advised to maintain vouchers/records in evidence of transactions to avoid a qualification/observation* in the matter by the tax auditors. The qualification in respect of this matter would, in the normal course, be necessary in case the vouchers or other evidence required to be maintained are not produced in evidence of the income/expenditure or assets/liabilities. The entity should be encouraged to maintain office vouchers with the recipient's signatures for the amounts reimbursed on account of expenditure like local conveyance etc., for which other supporting evidence is not possible to obtain. It would also be advisable to give appropriate notes on accounts in the case of a person who carries on business or profession but who is not required by or under any other law to get his accounts audited. These may include disclosure regarding method of accounting and practices consistently and regularly followed, and whether a change in such matters or practice has been made during the year, notwithstanding the fact that such disclosures are required to be made in Form No.3CD.

* Attention of the members is invited to the principles laid out in SA 705, *Modifications to the Opinion in the Independent Auditor's Report*.

11.9 The ICAI had pursuant to the issuance of the Revised SA 700, *Forming an Opinion and*

III.208 Auditing Pronouncements

Reporting on Financial Statements, prescribed a revised format of the auditor's report on financial statements, which has been made effective in respect of audits of financial statements for periods beginning on or after 1st April 2012. Since Form No. 3CA and Form No. 3CB are required to be filed online in a preset form and the same are not in line with the requirements of SA 700, there is no specifically allocated field for providing information relating to the respective responsibilities of the assessee and the tax auditor as required in terms of the principles laid out in SA 700. However, having regard to the importance of these respective responsibility paragraphs from the perspective of the readers of the tax audit report, it is suggested that these respective responsibility paragraphs relating can be provided in the space provided for giving observations, etc., under clause (3) of Form No.3CA or Clause (5) of Form No.3CB as the case may be.

11.10 The illustrative Assessee's responsibility paragraph and Tax Auditor's responsibility paragraphs in respect of Form No.3CB are given hereunder. The same may be suitably reworded to meet the situation envisaged in Form No.3CA.

“Assessee's Responsibility for the Financial Statements and the Statement of Particulars in Form 3CD

1. *The assessee is responsible for the preparation of the aforesaid financial statements that give a true and fair view of the financial position and financial performance (if applicable) in accordance with the applicable Accounting Standards issued by the Institute of Chartered Accountants of India². This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.*
2. *The assessee is also responsible for the preparation of the statement of particulars required to be furnished under section 44AB of the Income-tax Act, 1961 annexed herewith in Form No. 3CD read with Rule 6G(1)(b) of Income Tax Rules, 1962 that give true and correct particulars as per the provisions of the Income-tax Act, 1961 read with Rules, Notifications, circulars etc that are to be included in the Statement.*

Tax Auditor's Responsibility

3. *My/ Our responsibility is to express an opinion on these financial statements based on my/our audit. I/We have conducted this audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.*

² (in case of the assessee being a Company, the reference would be to the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956/ section 133 of the Companies Act, 2013)

4. *An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purposes of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.*
5. *I/We believe that the audit evidence I/we have obtained is sufficient and appropriate to provide a basis for my/our audit opinion.*
6. *I/We are also responsible for verifying the statement of particulars required to be furnished under section 44AB of the Income-tax Act, 1961 annexed herewith in Form No. 3CD read with Rule 6G (1) (b) of Income-tax Rules, 1962. I/ We have conducted my/our verification of the statement in accordance with Guidance Note on Tax Audit under section 44AB of the Income-tax Act, 1961, issued by the Institute of Chartered Accountants of India."*

11.11 In this regard, attention of the members is also invited to the Announcement regarding "Applicability of SA 700, forming an opinion and reporting on financial statements, to formats of auditor's reports prescribed under various laws and/ or regulations" (22.08.2013), issued by ICAI, given in **Appendix IX (Page No. 266)**.

12. Professional misconduct

12.1 It may be noted that when any question relating to professional misconduct in connection with tax audit arises, the tax auditor would be liable under the Chartered Accountants Act and the ICAI's disciplinary jurisdiction will prevail in this regard.

13. Audit Report

13.1 Section 44AB requires the tax auditor to submit the audit report in the prescribed form and setting forth the prescribed particulars. Sub-rule (1) of Rule 6G provides that the report of audit of accounts of a person required to be furnished under section 44AB shall -

- (a) in the case of a person who carries on business or profession and who is required by or under any other law to get his accounts audited, be in Form No. 3CA;
- (b) in the case of a person who carries on business or profession, but not being a person referred to in clause (a), in Form No. 3CB.

13.2 Sub-rule (2) of Rule 6G further provides that the particulars which are required to be

III.210 Auditing Pronouncements

furnished under section 44AB shall be in Form No. 3CD.

13.3 It may be noted that the audit report in Form No.3CB is in two parts. The first part requires the tax auditor to give his opinion as to whether or not the accounts audited by him give a true and fair view:

- (i) in the case of the balance sheet, of the state of affairs as at the last date of the accounting year.
- (ii) in the case of the profit and loss account, of the profit or loss of the assessee for the relevant accounting year.

13.4 The second part of the report states that the statement of particulars required to be furnished under section 44AB is annexed to the audit report in Form No. 3CD. The tax auditor is required to give his opinion whether the prescribed particulars furnished by the assessee are true and correct, subject to observations and qualifications, if any.

13.5 In paragraph 3 of Form No. 3CB the auditor has to report that the financial statements audited by him give a 'true and fair' view. With regard to the term "true and fair view" the auditor is advised to consider in the Framework for Preparation and Presentation of Financial Statements as also paragraph 12, 13, 14 and 27 of SA 700 (Revised), *Forming an opinion and reporting on Financial Statements*. Attention of the members is drawn to Para 5 of SA 200, *Overall Objectives of the Independent Auditor* reproduced below:

"5. As the basis for the auditor's opinion, SAs require the auditor to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error. Reasonable assurance is a high level of assurance. It is obtained when the auditor has obtained sufficient appropriate audit evidence to reduce audit risk (i.e., the risk that the auditor expresses an inappropriate opinion when the financial statements are materially misstated) to an acceptably low level. However, reasonable assurance is not an absolute level of assurance, because there are inherent limitations of an audit which result in most of the audit evidence on which the auditor draws conclusions and bases the auditor's opinion being persuasive rather than conclusive."

13.6 The requirement in paragraph 3 of Form No.3CA and paragraph 5 of Form No.3CB relating to particulars in Form No.3CD is that the auditor should report that these particulars in Form No.3CD are "true and correct". The terminology "true and fair" is widely understood though not defined even under the Companies Act, 1956/2013. On the other hand, the words "true and correct" lay emphasis on factual accuracy of the information. In this context reference is invited to AS-1 and AS(IT)-I relating to disclosure of accounting policies. These standards recognise that the major considerations governing the selection and application of accounting policies are (i) prudence, (ii) substance over form and (iii) materiality. Therefore, while giving particulars in Form No.3CD these aspects should be kept in view. In particular, considering the nature of particulars to be given in Form No.3CD, the aspect of materiality

should be considered. In other words, particulars should be given in the respect of material items and the auditors should assess factual correctness relating to these particulars. Attention of the members, in this context is, however, also drawn to Para 51 of "Framework for Assurance Engagements" reproduced below:

"51. "Reasonable assurance" is less than absolute assurance. Reducing assurance engagement risk to zero is very rarely attainable or cost beneficial as a result of factors such as the following:

- *The use of selective testing.*
- *The inherent limitations of internal control.*
- *The fact that much of the evidence available to the practitioner is persuasive rather than conclusive.*
- *The use of judgment in gathering and evaluating evidence and forming conclusions based on that evidence.*
- *In some cases, the characteristics of the subject matter when evaluated or measured against the identified criteria."*

13.7 In the case of a person whose accounts of the business or profession have been audited under any other law, it is not required for the tax auditor appointed under section 44AB to give his opinion, as to whether or not the accounts give a true and fair view as indicated herein above. It would only be necessary for him to annex a copy of the audited accounts as well as a copy of the audit report given by the statutory auditor with his report in Form No. 3CA along with Form No.3CD.

13.8 In the case of a person who carries on business and also renders professional services but who is not required by or under any other law to get his accounts audited, report should be given in Form No. 3CB. The statement of particulars should be given in Form No. 3CD.

13.9 In the case of a person who carries on business or profession but who is not required by or under any other law to get his accounts audited, the expression "proper books of account" should mean, the books of original entry and other books of account required to be maintained to record all the transactions of the assessee in the same manner, as in the case of a person whose accounts of the business or profession have been audited under any other law. Although, books of account have not yet been prescribed for a person who carries on business or profession (except under Section 44AA for certain categories of profession), the tax auditor should examine whether such books are maintained by the assessee to provide the information and the basis required to prepare the balance sheet and the profit and loss account correctly in the formats recommended in **Appendices XV (Page no. 278) and XVI (Page no. 286)** of this Guidance Note.

13.10 In case the accounts of a person who carries on business or profession are being audited for the first time, the tax auditor should ensure compliance with SA 510 (Revised), *Initial Audit Engagements- Opening Balance*.

III.212 Auditing Pronouncements

13.11 In certain cases, members are called upon to report on the accounts reopened and revised by the board of directors. The accounts of a company once adopted at its annual general meeting should not normally be re-opened and revised. The Institute and the Ministry of Corporate Affairs have affirmed this position. In case of revision, the audit report should be given in the manner as required by the Institute in SA-560 (Revised), *Subsequent Events*. The Ministry of Corporate Affairs had also clarified that accounts can be revised to comply with technical requirements. It may be pointed out that report under section 44AB should not normally be revised. However, sometimes a member may be required to revise his tax audit report on grounds such as:

- (i) revision of accounts of a company after its adoption in annual general meeting.
- (ii) change of law e.g., retrospective amendment.
- (iii) change in interpretation, e.g. CBDT Circular, judgements, etc.

13.12 In case where a member is called upon to report on the revised accounts, then he must mention in the revised report that the said report is a revised report and a reference should be made to the earlier report also. In the revised report, reasons for revising the report should also be mentioned.

13.13 In the case of companies having their accounting year which is different from the financial year, accounts of the financial year are required to be prepared and audited. The audit report shall be in Form 3CB. The above position has also been clarified by the CBDT in its Circular No, 561 dated 22.5.1990. The Circular is reproduced in **Appendix X (Page no 268)**.

14. Form No. 3CA

14.1 This form is to be used in a case where the accounts of the business or profession of a person have been audited under any other law. The first part of the report refers to the fact that the statutory audit of the assessee was conducted by a chartered accountant or any other auditor in pursuance of the provisions of the relevant Act, and the copy of the audit report along with the audited profit and loss account and balance sheet and the documents declared by the relevant Act to be part of or annexed to the profit and loss account and balance sheet, are annexed to the report in Form No. 3CA. In a case where the tax auditor carrying out the audit under section 44AB is different from the statutory auditor, a reference should be made to the name of such statutory auditor. In case the statutory auditor is carrying out the audit under section 44AB, the fact that he has carried out the statutory audit under the relevant Act should be stated. Attention of the members in this context is invited to SA 600 *Using the work of Another Auditor*.

14.2 The next paragraph states that the statement of particulars required to be furnished under section 44AB is annexed with the particulars in Form No. 3CD. The tax auditor has to further state that, in his opinion and to the best of his information and according to

examination of books of account including other relevant documents and explanations given to him, the particulars given in the said Form No.3CD and the annexure thereto are true and correct subject to the observations/qualifications, if any.

14.3 The auditor is required to examine not only the books of accounts but also other relevant documents directly related to transactions reflected in the books of accounts like original purchase invoice, copy of bank statements, bills, vouchers, various agreements/contracts or any other document on the basis of which preliminary entries are passed in the books of accounts.

14.4 Attention is also drawn to the definition of 'document' as per section 2(22AA) of the Act which is as under:

"document" includes an electronic record as defined in clause (t) of sub-section (1) of section 2 of the Information Technology Act, 2000 (21 of 2000).

Section 2(1)(t) of the Information Technology Act, 2000 as referred above is reproduced below:

"electronic record" means data, record or data generated, image or sound stored, received or sent in an electronic form or micro film or computer generated micro fiche.

The definition of term "document" is an inclusive definition and includes within its ambit documents other than those considered as electronic record as per section 2(1)(t) of the Information Technology Act, 2000. The above definition can also be relied when reporting under clause 11(c) of Form No. 3CD discussed later in this Guidance Note.

14.5 Where any of the requirements in this form is answered in negative or with qualification, the report shall state the reasons thereof. The tax auditor should state this qualification in the audit report so that the same becomes a comprehensive report and the user of the audited statement of particulars can realize the impact of such qualifications.

14.6 It is possible that in the case of a person whose accounts of the business or profession have been audited under any other law, which has branches at various places, the branch accounts might have been audited by branch auditors under the statute. If the audit under section 44AB is also carried out by the same branch auditors or other chartered accountants, they should submit the report in Form No. 3CA to the management or the principal tax auditor appointed for the head office under Section 44AB. Attention in this regard is drawn to SA 600, *Using the Work of Another Auditor* which discusses the procedures in this regard as well as the principal tax auditor's responsibility in relation to his use of the work of the branch auditor. The principal tax auditor should submit his consolidated report on the registered office/head office and branch accounts and report in his tax audit report as his observation in paragraph 3 of Form No. 3CA as under:

"I/We have taken into consideration the audit report and the audited statements of accounts, and particulars received from the auditors, duly appointed under the relevant law, of the branches not audited by me/us".

III.214 Auditing Pronouncements

14.7 Item No. 4 of the notes to Form No. 3CA requires that the person, who signs this audit report, shall indicate reference of his membership No./certificate of practice number/authority under which he is entitled to sign this report. No separate certificate of practice number is allotted by ICAI. As such, where a chartered accountant acts as a tax auditor he should give his membership number with ICAI while registering himself in the e-filing portal. In case, the e-filing utility of Form No. 3CA requires the mention of the Firm Registration number and the name of the firm on whose behalf the member has conducted audit, the same should invariably be provided by the tax auditor.

14.8 An assessee may have one or more branches outside India. The accounts of such branches are normally audited by the professional accountants overseas. The results of such branches are also incorporated in the consolidated accounts prepared in this country. In the case of foreign branches, the relevant information in respect of such branches as is required by Form No. 3CD, may be obtained by the tax auditor in India from the assessee who should obtain the same from the overseas auditor who had audited the accounts of such foreign branches. The tax auditor in India while certifying the information in Form No. 3CD may rely upon the information obtained by him from the overseas auditor and while submitting his consolidated report in Form No. 3CD, he should specifically point out the following in his audit report in paragraph 3 of Form No. 3CA as his observation:-

“I/We have taken into consideration the audit report and the audited statements of accounts, and particulars received from the auditors, appointed under the relevant law, of the overseas branches not audited by me/us”.

If the assessee is unable to obtain relevant information in respect of the overseas branches duly certified by the overseas auditor, the relevant facts should be suitably disclosed and reported upon.

14.9 Where the tax auditor is unable to obtain the required information in respect of branches situated in India or outside India then the fact should be suitably disclosed along with its impact on the Auditor's opinion on the particulars furnished in Form No. 3CD, as an observation in clause (3) of Form No. 3CA. Reference is drawn to SA 705, *Modifications to the opinion in the Independent Auditor's report*.

15. Form No. 3CB

15.1 In the case of a person who carries on business or profession but who is not required by or under any other law to get his accounts audited, the audit report has to be given in Form No. 3CB. Form No. 3CB consists of five paragraphs.

15.2 The tax auditor has to state whether he has examined the balance sheet as on a particular relevant date and the profit and loss account/income and expenditure account for that period. Further, such a balance sheet and the profit and loss account must be attached with the audit report.

15.3 The tax auditor has to certify that the balance sheet and the profit and loss account/income and expenditure account are in agreement with the books of account maintained at the head office and branches. Also, he has to mention the total number of branches.

15.4 He has to report his observations, comments, discrepancies or inconsistencies, if any. Subject to the above observations, comments, discrepancies, inconsistencies he has to state whether:

- (a) he has obtained all the information and explanations which, to the best of his knowledge and belief, were necessary for the purposes of the audit;
- (b) in his opinion proper books of account have been kept by the head office and branches of the assessee so far as appears from his examination of the books;
- (c) in his opinion and to the best of his information and according to the explanations given to him the said accounts, read with notes thereon, if any, give a true and fair view;
 - (i) in the case of the balance sheet of the state of the affairs of the assessee as at 31st March, _____ and
 - (ii) in the case of the profit and loss account/income and expenditure account of the profit/loss or surplus/deficit of the assessee for the year ended on that date.

15.5 Under clause (a) of paragraph 3 of Form No.3CB, the tax auditor has to report his “observations/comments/ discrepancies/inconsistencies,” if any. The expression “Subject to above” appearing in clause (b) makes it clear that such observations/comments/ discrepancies/ inconsistencies which are of qualificatory nature relate to necessary information and explanations for the purposes of the audit or the keeping of proper books of accounts or the true and fair view of the financial statements, respectively to be reported on in paragraphs (A), (B) and (C) under clause (b) of paragraph 3. While reporting on clause (a) of paragraph 3 of Form No. 3CB the tax auditor should report only such of those observations/comments/ discrepancies/ inconsistencies which are of qualificatory nature which affect his reporting about obtaining all the information and explanations which were necessary for the purposes of the audit, about the keeping of proper books of account by the head office and branches of the assessee and about the true and fair view of the financial statements. Further, only such observations/comments/ discrepancies/inconsistencies which are of a qualificatory nature should be mentioned under clause (a). Any other observations/comments/ discrepancies/inconsistencies, which do not affect the reporting on the matters specified above may form part of the notes to accounts forming part of the accounts. In case the tax auditor has no observations/comments/ discrepancies/inconsistencies to report which are of qualificatory nature, “NIL” should be reported in this part of paragraph 3. The tax auditor may then give his report as required by sub-paragraphs (A), (B), and (C) of paragraph 3 and paragraph 4.

III.216 Auditing Pronouncements

15.6 Paragraph 4 of Form No.3CB provides that the prescribed particulars are furnished in Form No.3CD annexed to the report. Paragraph 5 of Form No.3CB requires the auditor to report whether in his opinion and to the best of his information and according to the explanations given to him, the particulars given in Form No.3CD are true and correct subject to observations/qualifications, if any. The auditor may have a difference of opinion with regard to the particulars furnished by the assessee and he has to bring these differences under various clauses in Form No.3CD. The auditor should make a specific reference to those clauses in Form No.3CD in which he has expressed his reservations, difference of opinion, disclaimer etc. in this paragraph.

15.7 If a person who carries on business or profession but who is not required by or under any other law to get his accounts audited, has branches and separate accounts are maintained at the branches, the assessee can request the tax auditor appointed under section 44AB to audit the head office and branch accounts. In the alternative, the assessee can appoint separate tax auditors for branches. The branch tax auditor in such a case will have to give an audit report in Form No. 3CB to the management or the tax auditor appointed for the audit of head office accounts. The tax auditor appointed for the audit of head office can rely on the report of branch tax auditors subject to such checks and verifications as he may choose to make and shall submit his consolidated report on the head office and branch accounts. He should make suitable reference to the audit conducted by separate branch tax auditors in the same manner as stated in para 14.6 above.

15.8 If the tax auditor is called upon to give his report only in respect of one or more businesses carried on by the assessee and the books of accounts of the other businesses are not produced as the same are not required to be audited under the Act, the tax auditor should mention the fact that audit has not been conducted of those businesses whose books of account had not been produced. However, if the financial statements include, *inter alia*, the results of such business for which books of account have not been produced, the auditor should qualify his report in Form No. 3CB.

16. Form No. 3CD

16.1 The statement of particulars given in Form No. 3CD as annexure to the audit report contains forty one clauses. The tax auditor has to report whether the particulars are true and correct. This Form is a statement of particulars required to be furnished under section 44AB. The same is to be annexed to the reports in Forms No. 3CA and 3CB in respect of a person who carries on business or profession and whose accounts have been audited under any other law and in respect of person who carries on business or profession but who is not required by or under any other law to get his accounts audited respectively.

16.2 As stated earlier, the tax auditor should obtain from the assessee, the statement of particulars in Form No. 3CD duly authenticated by him. It would be advisable for the assessee to take into consideration the following general principles while preparing the statement of particulars:

- (a) He can rely upon the judicial pronouncements while taking any particular view about inclusion or exclusion of any items in the particulars to be furnished under any of the clauses specified in Form No.3CD.
- (b) If there is a conflict of judicial opinion on any particular issue, he may refer to the view which has been followed while giving the particulars under any specified clause.
- (c) The AS, Guidance Notes, SA issued by the Institute from time to time should be followed.

16.3 While furnishing the particulars in Form No.3CD it would be advisable for the tax auditor to consider the following:

- (a) If a particular item of income/expenditure is covered in more than one of the specified clauses in the statement of particulars, care should be taken to make a suitable cross reference to such items at the appropriate places.
- (b) If there is any difference in the opinion of the tax auditor and that of the assessee in respect of any information furnished in Form No. 3CD, the tax auditor should state both the view points and also the relevant information in order to enable the tax authority to take a decision in the matter.
- (c) If any particular clause in Form No.3CD is not applicable, he should state that the same is not applicable.
- (d) In computing the allowance or disallowance, he should keep in view the law applicable in the relevant year, even though the form of audit report may not have been amended to bring it in conformity with the amended law.
- (e) In case the prescribed particulars are given in part or piecemeal to the tax auditor or relevant form is incomplete and the assessee does not give the information against all or any of the clauses, the auditor should not withhold the entire audit report. In such a case, he can qualify his report on matters in respect of which information is not furnished to him. In the absence of relevant information, the tax auditor would have no option but to state in his report that the relevant information has not been furnished by the assessee.
- (f) The information in Form No.3CD should be based on the books of accounts, records, documents, information and explanations made available to the tax auditor for his examination.
- (g) In case the auditor relies on a judicial pronouncement, he may mention the fact as his observations in clause (3) of Form No.3CA or clause (5) provided in Form No.3CB, as the case may be

17. Particulars to be furnished in Form No.3CD.

PART – A

1. Name of the assessee : _____
2. Address : _____
3. Permanent Account Number : _____
4. Whether the assessee is liable to pay indirect tax like excise duty, service tax, sales tax, customs duty, etc. If yes, please furnish the registration number or any other identification number allotted for the same : _____
5. Status : _____
6. Previous year : from _____ to _____
7. Assessment year : _____
8. Indicate the relevant clause of section 44AB under which the audit has been Conducted : _____

[Clauses 1 to 8]

The requirements of clauses 1 to 8 of Part-A are discussed as follows:

17.1 Under clause (1) the name of the assessee whose accounts are being audited under section 44AB should be given. However, if the tax audit is in respect of a branch, name of such branch should be mentioned along with the name of the assessee.

17.2 The address to be mentioned under clause (2) should be the same as has been communicated by the assessee to the Income-tax Department for assessment purposes as on the date of signing of the audit report. If the tax audit is in respect of a branch or a unit, the address of the branch or the unit should be given. In the case of a company, the address of the registered office should also be stated. In the case of a new assessee, the address should be that of the principal place of business.

17.3 Under clause (3) the permanent account number (PAN) allotted to the assessee should be indicated. It may be noted that in the e-filing format PAN is a mandatory field.

17.4 Under clause (4), the auditor is required to mention the registration number or any other identification number, if any, allotted, in case the the assessee is liable to pay indirect taxes like excise duty, service tax, sales tax, customs duty, etc.

17.5 Part A of Form No. 3CD generally requires the auditor to give the factual details of the

assessee. Thus, the auditor is primarily required to furnish the details of registration numbers as provided to him by the assessee. The reporting is however, to be done in the manner or format specified by the e-filing utility in this context.

17.6 The term "Indirect taxes" is neither defined in the Income-tax Act, 1961 nor under any other law. The levy of different types of indirect taxes on various transactions may differ from State to State. Thus, it is recommended that the auditor should obtain from the assessee the list of indirect taxes applicable to him. Once the auditor obtains this management representation, he is required to obtain a copy of the registration certificate clearly mentioning the registration number under that relevant law. For example, Service tax registration number, Excise registration number, VAT registration number/ Central Sales tax Registration number etc. The assessee may have multiple registrations for various manufacturing units, service units, godowns etc under the same law. In such circumstances also, a copy of all registration certificates is to be obtained from the assessee for appropriate disclosure under this clause. Where the indirect tax law does not require any registration, appropriate identification number may be reported in this clause. For example, in Customs Act, 1962, since there is no registration number, a copy of Export Import Code (IEC) may be obtained and information be accordingly furnished.

17.7 The information may be obtained and maintained in the following format:-

Sr. No	Relevant Indirect tax Law which requires registration	Place of Business/ profession/service unit for which registration is in place/ or has been applied for:-	Registration/ Identification number
1	2	3	4

17.8 The auditor has to keep in mind the provisions of Standard on Auditing 580 "Written Representation". In case the auditor prima facie is of the opinion that any indirect taxes laws is applicable on the business or profession of the assessee but the assessee is not registered under the said law, he should report the same appropriately.

17.9 Under clause (5) the status of the assessee is to be mentioned. Obviously this refers to the different classes of assessee included in the definition of "person" in section 2 (31) of the Act, namely, individual, Hindu undivided family, company, firm, an association of persons or a body of individuals whether incorporated or not, a local authority or artificial juridical person.

17.10 Under clause (6) the period of the previous year has to be stated. Since the previous year under the Act now uniformly begins on 1st April and ends on 31st March, the relevant previous year should be mentioned. In case of amalgamations, demergers, reconstitution, new business, closure of existing business etc the date of beginning/ ending of the previous year may be different, the auditor may accordingly, mention the relevant date of beginning and ending of the previous year in this clause. Hence, the tax auditor has to apply his professional judgement depending on the facts and circumstances of the same.

III.220 Auditing Pronouncements

17.11 Under clause (7) the assessment year relevant to the previous year for which the accounts are being audited should be mentioned.

17.12 Under clause (8) the auditor is required to mention the relevant clause of section 44AB under which the audit has been conducted. In case the assessee is carrying on business and his total sales, turnover or gross receipts as the case may be, exceeds one crore in the relevant previous year, the auditor is required to mention clause (a) under this head. If the assessee is carrying on profession and his gross receipts exceed twenty five lakh rupees in the relevant previous year, the auditor is required to mention clause (b) under this head. Likewise, if the audit under section 44AB is being conducted by virtue of provisions of section 44AE, 44BB and 44BBB, the auditor is required to mention clause (c). For audit being conducted by virtue of provisions of section 44AD, clause (d) is to be mentioned under this head.

18. (a) **If firm or Association of Persons, indicate names of partners/members and their profit sharing ratios.**
- (b) **If there is any change in the partners or members or in their profit sharing ratio since the last date of the preceding year, the particulars of such change**

[Clause 9(a) and (b)]

18.1 Where the assessee is a firm or association of persons (AOP) or body of individuals, the names of partners of the firm or members of the association of persons or body of individuals and their profit sharing ratios (%) have to be stated. In case where the partner of a firm or the member of AOP/ BOI acts in a representative capacity, the name of the beneficial partner/member should be stated. Thus, the details of partners or members during the entire previous year will have to be furnished. The term "profit sharing ratios" would include loss-sharing ratio also since loss is nothing but negative profits. This would not cover any specific ratio or understanding in relation to payment of remuneration or interest to partners or members. In this connection, reference may be made to Circular No.739 dated 25.3.1996 issued by the Board reproduced in **Appendix XI (Page no. 269)**.

18.2 If there is any change in the partners of the firm or members of the association of persons/ body of individuals or their profit or loss sharing ratio since the last date of the preceding year, the particulars of such change must be stated. All the changes occurring during the entire previous year must be stated.

18.3 The particulars in this clause should be verified from the instrument or agreement or any other document evidencing partnership or association of persons including any supplementary documents or other documents effecting such changes. For this purpose, the tax auditor may also verify:

- (i) in case of registered firms (including Indian LLPs), whether the relevant documents have been filed with the concerned authorities,

- (ii) whether notice of changes, if required, has been given to the registrar of firms, and
- (iii) any minutes or any other understanding recording any changes in the partners/members or their profit sharing ratios.

18.4 The tax auditor should obtain certified copies of the deeds, documents, understanding, notice of changes etc. including certified copies of the acknowledgment, if any, evidencing filing of documents with the concerned authorities, if registered.

18.5 In certain cases of association of persons or body of individuals, it may be possible that the shares of the members are not precisely ascertainable during the previous year resulting in a situation whereby the shares of the members are indeterminate or unknown. In such circumstances, the relevant fact should be stated.

18.6 As per section 2(23) of the Income-tax Act, 1961 the term "Firm" shall have the meaning assigned to it in the Indian Partnership Act, 1932, and shall include a Limited Liability partnership firm as defined in Limited Liability Partnership Act, 2008.

19. (a) **Nature of business or profession (if more than one business or profession is carried on during the previous year, nature of every business or profession)**
- (b) **If there is any change in the nature of business or profession, the particulars of such change.**

[Clause 10 (a) and (b)]

19.1 In regard to the nature of business, the principal line of each business is to be determined and stated in this clause, i.e. the sector in which the business or profession falls such as manufacturing, trading, commission agent, builder, contractor, professionals, service sector, financial service sector or entertainment industry. In case of a person belongs to service sector the nature of each type of service should be broadly stated. Thereafter, the auditor is required to mention the sub-sector pertaining to the sector selected.

19.2 . Information has to be furnished in respect of each business. The code to be mentioned against the nature of business pertains to the main area of business activity.

19.3 Any material change in the nature of business should be precisely set out. The change will include change from manufacturer to trader as well as change in the principal line of business. For example, an assessee switching over from wholesale business to retail business or an assessee switching over from manufacturing his own commodities to manufacturing goods on job basis for others. Likewise, any addition to or permanent discontinuance of, a particular line of business may also amount to change requiring reporting. However, temporary suspension of the business may not amount to change and therefore need not be reported.

19.4 A review of business report or the minutes of meetings would enable the tax auditor to

III.222 Auditing Pronouncements

note the changes, if any. Based thereon, he may make necessary enquiries and seek information and determine whether any change has occurred or not. If need be, the tax auditor should get a declaration from the assessee regarding change in the nature of business, if any.

19.5 In the case of business reorganization/ reconstruction if there is a similar line of activity, no reference needs to be made. However, if a new line of activity emerges because of business reorganization/ reconstruction, the same may be stated. In the case of restructuring, if any line of activity is being hived off, the same may also be reported.

19.6 The auditor should keep in mind the above guidance while furnishing information under this clause in the format provided for in the e-filing utility

20. (a) Whether books of account are prescribed under section 44AA, if yes, list of books so prescribed.

(b) List of books of account maintained and the address at which the books of account are kept .

(In case books of account are maintained in a computer system, mention the books of account generated by such computer system. If the books of accounts are not kept at one location, please furnish the addresses of locations along with the details of books of accounts maintained at each location.)

(c) List of books of account and nature of relevant documents examined.

[Clause 11 (a) to (c)]

20.1 The list of books of accounts prescribed, maintained and examined has to be stated under this clause. There may be difference between the three lists. For example, books of accounts may have been prescribed but all the prescribed books might not have been maintained or the entire books of accounts maintained might not have been produced for examination. The tax auditor should exercise his professional judgment in order to arrive at the conclusion whether such a situation warrants any disclosure or qualifications while forming his opinion on the matters covered by reporting requirements in Form No.3CB.

20.2 The CBDT under Rule 6F has prescribed the books of account and other documents to be kept and maintained by a person carrying on certain professions specified in sub-section (1) of section 44AA. As such, every person carrying on legal, medical, engineering or architectural profession or the profession of accountancy or technical consultancy or interior decoration or authorised representative or film artist and whose total gross receipts exceed one lakh fifty thousand rupees in all the three years immediately preceding the previous year, or where the profession has been newly set up in the previous year, his total gross receipts in the profession for that year are likely to exceed the said amount, is required to maintain the following books of account:

1. Cash book.
2. Journal, if the accounts are maintained according to the mercantile system of

accounting.

3. Ledger.

Apart from the aforesaid books of account, a person carrying on medical profession is required to keep the following:

- (a) daily case register in Form No.3C showing data, patient's name, nature of professional services rendered, fees received and date of receipt; and
- (b) an inventory under broad heads, as on the first and the last days of the previous year, of the stock of drugs, medicines and other consumable accessories used for the purpose of his profession.

20.3 In the case of a person for whom the books of account have been prescribed under rule 6F, the list of books so prescribed have to be stated under clause 11(a). It may be noted that the daily case register and the inventory under broad heads do not constitute books of account and hence the same need not be mentioned under clause 11(a). Sometimes an assessee may carry on multiple activities. Books of account might have been prescribed for one of the activities. In that case, mention may be made of the activity for which books have been prescribed.

20.4 The tax auditor should obtain from the assessee a complete list of books of account and other documents maintained by him (both financial and non-financial records) and make appropriate marks of identification to ensure the identification of the books and records produced before him for audit. The list of books of account maintained by the assessee should be given under clause 11(b).

20.5 Section 44AA(2) provides that persons carrying on business or profession, other than those specified in sub-section (1), shall keep and maintain such books of account and other documents as may enable the Assessing Officer to compute his total income in accordance with the provisions of the Income-tax Act, if his income from business or profession exceeds the monetary limits prescribed under section 44AA(2) or his total sales, turnover or gross receipts in business or profession exceed the monetary limits prescribed under section 44AA(2) in any one of the three years immediately preceding the previous year. The tax auditor will, therefore, have to verify that the assessee has maintained such books of accounts and documents as may enable the Assessing Officer to compute the total income of the assessee in accordance with the provisions of the Act. It may be noted that though the Central Board of Direct Taxes has been empowered under sub-section (3) of section 44AA to prescribe books of account to be maintained under sub-section (2), so far no books of accounts have been prescribed.

20.6 For a person whose accounts of the business or profession have been audited under any other law, the requirement for maintenance of books of account is contained in the relevant statutes. In the case of other assessees, normal books of account to be maintained will be cash book/bank book, sales/purchase journal or register and ledger. Assesseees

III.224 Auditing Pronouncements

engaged in trading/manufacturing activities should also maintain quantitative details of principal items of stores, raw materials and finished goods. While giving his report in Form No. 3CB about maintenance of proper books of account, the tax auditor should ensure that they are maintained in accordance with the above requirements. In case where stock records are not properly maintained by the assessee due to the nature, level, volume and variety of items/ transactions, the tax auditor will have to consider the concept of materiality and practicality while giving particulars in Form No. 3CD.

20.7 (a) As per section 2(12A) of the Income-tax Act, 1961, "books or books of account" includes ledgers, day-books, cash books, account-books and other books, whether kept in the written form or as print-outs of data stored in a floppy, disc, tape or any other form of electro-magnetic data storage device. As to the requirement regarding the mentioning of the books of accounts generated by the computer system, the tax auditor should obtain a list of books of account which are generated by the computer system. The list given by the assessee can be verified from the printout of such books obtained from the assessee. Only such books of account and other records which properly come within the scope of the expression "proper books of account" should be mentioned.

(b) It may be noted that section 4 of the Information Technology Act, 2000 states that "Where any law provides that information or any other matter shall be in writing or in the typewritten or printed form, then, notwithstanding anything contained in such law, such requirement shall be deemed to have been satisfied if such information or matter is-

- (i) rendered or made available in an electronic form; and
- (ii) accessible so as to be usable for a subsequent reference."

20.8 From AY 2014-15, the address at which the books so maintained are kept is also required to be mentioned under clause (b). In case the books of accounts are kept at more than one location then the auditor is required to mention the details of address of each such location along with the detail of books of account maintained thereof. The auditor is advised to obtain from the assessee a list in the following format and accordingly report the same in clause 11(b). In case of a company assessee auditor should also verify as to whether any forms are filed under the Companies Act for maintenance of books of accounts at a place other than the registered office:

Sr No.	Principal place of maintenance of books of accounts	Details of books maintained
1	2	3

20.9 In case, where books of accounts are maintained and generated through computer system, the auditor should obtain from the assessee the details of address of the place where the server is located or the principal place of business/Head office or registered office by whatever name called and mention the same accordingly in clause 11(b).

20.10 Books of account examined would constitute the books of original entry and the other books of account. In addition to the list of books of accounts examined, the auditor is required to mention the nature of relevant documents examined also. Since the assessee is required to maintain evidence such as bills, vouchers, receipts, debit note, credit note, inventory register, agreements, orders etc., the auditor generally examines these documents while conducting audit. The underlying documents would differ from assessee to assessee depending on the nature of activity carried on by the assessee. Reference to such supporting evidence/ relevant documents is also required to be made under this clause. Attention is drawn to Para 14.3 and 14.4 for guidance with regard to the term “relevant documents”.

21. Whether the profit and loss account includes any profits and gains assessable on presumptive basis, if yes, indicate the amount and the relevant sections (44AD, 44AE, 44AF, 44B, 44BB, 44BBA, 44BBB Chapter XII-G, First Schedule or any other relevant section).

[Clause 12]

21.1 Where the profits and gains of the business are assessable to tax under presumptive basis under any of the sections mentioned below, the amount of such profits and gains credited/debited to the profit and loss account should be indicated under this clause:

S. No.	Section	Business covered
1	44AD	Eligible business
2	44AE	Transport business
3	44B	Shipping business of a non-resident
4	44BB	Providing service or facilities in connection with, or supplying plant and machinery on hire used, or to be used, in the prospecting for, or extraction or production of, mineral oils
5	44BBA	Operation of aircraft by non-resident
6	44BBB	Civil construction etc. in certain turnkey power project by non-residents
7	Chapter XII-G	Special provisions relating to Shipping Companies (Section 115V to 115VT)
8	First Schedule	Insurance Business
9	Any other relevant section	This refers to the sections not listed above under which income may be assessable on presumptive basis like section 44D and section 115A(1)(b) and will include any other section that may be enacted in future for presumptive taxation

If the profit and loss account does not include profit assessable on presumptive basis, then, there is no requirement to furnish the particulars under this clause.

21.2 The amount to be mentioned under this clause means the amount included in the profit and loss account. The tax auditor is not required to indicate as to whether such amount corresponds to the amount assessable under the relevant section relating to presumptive

III.226 Auditing Pronouncements

taxation. As such, the reporting requirement gets satisfied if the amount as per profit and loss account is reported.

21.3 The tax auditor may come across three different situations as follows:

- (a) Where the assessee, maintaining regular books of account has more than one business which include business of the nature assessable on presumptive basis under any of the said sections and the profit and loss account prepared from such books of account, *inter alia*, includes the income of the business assessable under the scheme of presumptive taxation.
- (b) Where the assessee has more than one business including some business(es) falling under any of the aforesaid sections, but maintains separate sets of accounts for each such business and opts for getting the accounts of all such businesses audited under section 44AB.
- (c) Where the assessee, having regular books of account for his main business, has some additional business of the nature described in any of the aforesaid sections and no books of account whatsoever is maintained for such additional business but the net income is credited to the main profit & loss account of the assessee.

21.4 Under each of the aforesaid three situations, the tax auditor may proceed as follows:

- (a) This situation may give rise to the problem of apportionment of common expenditure in order to arrive at the correct amount of profit credited to profit and loss account and assessable on a presumptive basis. In such a situation, the endeavour of the tax auditor should be to arrive at a fair and reasonable estimate of such expenditure on the basis of evidence in possession of the assessee or by asking the assessee to prepare such estimate which should be checked by him. It is also necessary to mention the basis of apportionment of common expenditure. However, if the tax auditor is not satisfied with the reasonableness of such apportionment, he should indicate such fact under this clause by a suitable note.
- (b) In this case, since a separate set of accounts are maintained for respective businesses, it poses no problem for the tax auditor in ascertaining the amount of profit to be disclosed.
- (c) Here, the tax auditor is unable to satisfy himself about the correctness of the net income from the presumptive business credited to the profit and loss account. He should, therefore, state the amount of income as appearing in the profit and loss account, with a suitable note expressing his inability to verify the said figure. In the absence of books of account, the tax auditor would be unable to form an opinion about the true and fair view of the profit and loss account or balance sheet of the assessee and therefore, it would become necessary for him to qualify his report in Form No. 3CB.

21.5 In the case of an assessee opting against presumptive taxation, the provisions of section 44AB (c) requires such an assessee to get his accounts audited irrespective of the fact that his turnover has not exceeded the prescribed limit (presently Rs. 1 crore w.e.f A.Y.

2013-14) . There may be another circumstance where an assessee has mixed nature of business amenable to taxation on presumptive basis and under normal provisions of law – turnover of which does not exceed the prescribed limit (presently Rs. 1 crore w.e.f. A.Y. 2013-14). In such a case, the tax auditor auditing the books of account etc. relating to business covered by the provisions relating to presumptive taxation should sufficiently indicate in his report that his audit report in Form No. 3CB and particulars in Form No.3 CD only relate to the business covered by the provisions relating to presumptive taxation and his audit report does not relate to business assessable under the normal provisions of the Act.

21.6 Even where the assessee opts for presumptive taxation, the tax auditor should impress upon the assessee that it would be advisable to maintain some basic records to support the turnover/gross receipts declared for presumptive taxation.

21.7 Where the profit and loss account includes any profits and gains assessable by virtue of provisions of section 44AE, the auditor should obtain and verify the following information from the assessee:

Sr No.	Nature of vehicle	No. of Vehicles	Month of acquisition in case of vehicle purchased during the relevant previous year	Presumptive income per month	Number of months Owned during the previous year (Part of the month to be rounded off)	Presumptive income for the previous year
1	2	3	4	5	6	7

21.8 In respect of provisions relating to Chapter XII-G, the auditor should obtain and verify the following information from the assessee being a qualifying shipping company:

Sr No.	Name of the Ship	Net tonnage capacity as per DGS certificate	Net tonnage capacity rounded off to nearest 100	Tonnage income per day	No of days operated during the previous year as per DGS Certificate	Tonnage income per year
1	2	3	4	5	6	7

21.9 The auditor should keep in mind the above guidance while furnishing information under this clause in the format provided in the e-filing utility.

22. (a) **Method of accounting employed in the previous year.**
 (b) **Whether there had been any change in the method of accounting employed**

vis-a-vis the method employed in the immediately preceding previous year.

- (c) If answer to (b) above is in the affirmative, give details of such change, and the effect thereof on the profit or loss.

Serial number	Particulars	Increase in profit (Rs.)	Decrease in profit (Rs.)

- (d) Details of deviation, if any, in the method of accounting employed in the previous year from accounting standards prescribed under section 145 and the effect thereof on the profit or loss.

[Clause 13 (a) to (d)]

22.1 The Finance Act, 1995 amended section 145 with effect from assessment year 1997-98 to provide that the income chargeable under the head “Profits and gains of business or profession” or “Income from other sources” must be computed in accordance with either cash or mercantile system of accounting regularly employed by the assessee. It has also been provided that the Central Government may notify in the Official Gazette from time to time the accounting standards to be followed by any class of assessee or in respect of any class of income. The hybrid system of accounting viz. mixture of cash and mercantile hitherto allowed to be followed by the assessee was not permitted from assessment year 1997-98 & onwards. However, the assessee may adopt cash system of accounting for one business and mercantile system of accounting for other business. Once the choice of method of accounting is decided, the assessee must follow consistently the method of accounting employed. If he employs different methods for different businesses regularly and consistently, the profits would have to be computed in accordance with the respective methods, provided the result is a proper determination of profits. As regards the accrual system of accounting, the Institute has published a “Guidance Note on Accrual Basis of Accounting” which may be referred to.

22.2 It may be noted that in view of amendment made by the Companies (Amendment) Act, 1988 in section 209 of the Companies Act, 1956 every company is required to keep books of account on accrual basis. In other words, a company governed by the Companies Act, 1956 cannot follow cash system of accounting unless exempted under the Companies Act, 1956/2013. The provisions of section 209 (3) of the Companies Act, 1956 are, however, not applicable to entities other than companies. Section 209 has been replaced with the section 128/129 in the Companies Act, 2013 w.e.f. 1.4.2014.

22.3 Under sub-clause (b), whether there has been any change in the method of accounting employed vis-à-vis the method employed in the immediately preceding previous year is to be stated. As already noted, an assessee can follow either cash or mercantile system of accounting.

22.4 If there is any change, the effect thereof i.e. increase or decrease in profits has to be stated under this clause. So far as the question of effect of such change on the profit or loss is

concerned, the concept of materiality is the basic governing factor. If it is not possible to quantify the effect of the change in the method of accounting, appropriate disclosure should be made under this clause.

22.5 An assessee can follow a number of accounting policies for the purpose of maintaining his books of account. As per AS-1 all significant accounting policies adopted in the preparation and presentation of financial statements shall be disclosed. The disclosure of the significant accounting policies shall form part of the financial statements and the significant accounting policies shall normally be disclosed in one place. Any change in an accounting policy which has a material effect in the previous year or in the years subsequent to the previous year shall be disclosed. The impact of, and the adjustments resulting from such change, if material, shall be shown in the financial statement of the period in which such change is made to reflect the effect of such change.

22.6 As per paragraph 9 under AS(IT) relating to disclosure of prior period and extraordinary items and changes in accounting policies, a change in an accounting policy can be made only if:

- (a) adoption of different policy is required by the statute; or
- (b) the change would result in a more appropriate presentation of the financial statements.

22.7 A change in an accounting policy will not amount to a change in the method of accounting and hence such change in the accounting policy need not be mentioned under sub-clause (b). This is due to the fact that as per the requirements of AS-1 and AS (IT)-1 such changes and the impact of such changes will be disclosed in the financial statements. It may be noted that a change in the method of valuation of stock will amount only to a change in an accounting policy and hence such a change need not be mentioned under sub-clause 13(b) but should be mentioned in the financial statements.

22.8 The tax auditor should apply reasonable checks to the earlier year's accounts to ascertain whether there is any change in the method of accounting as compared to that of the year under audit, after obtaining a written confirmation from the assessee as to the method of accounting followed.

22.9 It must also be ascertained as to whether the AS (IT) as may be applicable to the assessee or to the class of income, have been followed. Presently, only two AS (IT) have been prescribed. – AS (IT)-I relating to disclosure of accounting policies and AS (IT)-II relating to disclosure of prior period and extraordinary items and changes in profit and loss account. The tax auditor has to report the details of the deviations in the method of accounting in the previous year from the AS(IT) and the effect thereon on the profit or loss. The tax auditor, while reporting on prior period and extraordinary items should report only such items which fall within the meaning of prior period items and extraordinary items in the relevant AS (IT). Attention is invited to AS (IT)-II, paragraph 10, according to which any change in an accounting policy which has a material effect is required to be disclosed. As stated above, a

III.230 Auditing Pronouncements

change in the method of valuation of closing stock would amount to a change in an accounting policy and has to be stated in the financial statements. The tax auditor should ensure that in case the same is not stated in the financial statements, the fact should suitably be stated under clause 13(d). He may rely on the various pronouncements and clarifications made by the ICAI.

22.10 The Finance (No. 2) Act, 2014 has amended section 145 w.e.f AY 2015-16 to the effect that the words 'accounting standards' be replaced with the words 'income computation and disclosure standards'. As per the memorandum explaining the Finance (No. 2) Bill 2014, such an amendment has been made in order to clarify that the standards notified under section 145(2) are only meant for computation of income and disclosure of information and the assessee need not maintain books of account on the basis of AS notified under the Income-tax Act, 1961. The Accounting Standards issued by ICAI/ Companies Accounting Standard Rule, 2006 would still be required to be followed by the assessee, for preparation of financial statements.

- 23. (a) Method of valuation of closing stock employed in the previous year.**
(b) Details of deviation, if any, from the method of valuation prescribed under section 145A, and the effect thereof on the profit or loss, please furnish:

Serial number	Particulars	Increase in profit (Rs.)	Decrease in profit (Rs.)

[Clause 14 (a) and (b)]

23.1 The method of valuation of closing stock is to be stated under this clause. AS-2 "Valuation of Inventories" issued by ICAI requires disclosure of significant accounting policies. Accordingly, a reference may be invited to the same or the method of valuation may be again described in Form No.3CD.

23.2 The method of valuation followed by the assessee having regard to the articles or goods dealt in or manufactured by the assessee, should be clearly indicated. Some examples are given below:

- (i) raw material at cost or net realisable value whichever is lower,
- (ii) finished goods at cost or net realizable value whichever is lower.

23.3 In sub-clause (a) of clause 14 of Form No.3CD, the reference is made to "closing stock". The expression "stock-in-trade" means finished goods and raw materials. Since sub-clause (b) refers to section 145A where the term "inventories" is used, the term "closing stock" will include all items of inventories. AS-2 defines the term "inventories" to include finished goods, raw materials, work-in-progress, materials, maintenance supplies, consumables and loose tools. Therefore, method of valuation of items of inventories will have to be given under sub-clause (a).

23.4 The tax auditor should study the procedure followed by the assessee in taking the

inventory of closing stock at the end of the year and the valuation thereof. He should obtain the inventory of closing stock, indicating the basis of valuation thereof, for reporting on the method of valuation of closing stock under this clause.

23.5 The method of stock valuation must be consistently followed from year to year and the method followed must be brought out clearly. The tax auditor should examine the basis adopted for ascertaining the cost and this basis should be consistently followed. It is necessary to ensure that the method followed for valuation of stock results in disclosure of correct profit and gains. The Supreme Court in case of *CIT v. British Paints Ltd.* [1991] 188 ITR 44 (SC) has held that the method of valuation of stock at actual cost of raw materials and not taking into account overhead charges was not the correct method of valuation even though the said method has been consistently followed. As per AS-2 - Valuation of inventories (Revised) (from accounting year starting from 1.4.1999), historical cost of manufactured inventories can be arrived at on the basis of absorption costing alone and the allocation of fixed costs of inventories should be based on the normal level of production only. It is further provided that overheads should be included as part of the inventory cost only to the extent that they clearly relate to putting the inventories in their present location and condition.

23.6 It is not necessary to indicate any change in the method of valuation of closing stock under this clause. However, as stated earlier in paragraph 22.6, any such change in the method of valuation of closing stock would amount to change in an accounting policy and needs to be disclosed in the financial statements as required by AS-1 and AS(IT).

23.7 The details of deviation, if any, from the method of valuation prescribed under section 145A, and the effect thereof on the profit or loss have to be stated under clause 14(b).

23.8 Section 145A was enacted by the Finance (No.2) Act, 1998 and came into force from A.Y. 1999-2000. This section provides that the valuation of purchase and sale of goods and inventory for the purpose of computation of income from business or profession shall be made on the basis of the method of accounting regularly employed by the assessee but this shall be subject to certain adjustments. Therefore, it is not necessary to change the method of valuation of purchase, sale and inventory regularly employed in the books of account. The adjustments provided in this section can be made while computing the income for the purpose of preparing the return of income. These adjustments are as follows:

- (a) Any tax, duty, cess or fee actually paid or incurred on inputs should be added to the cost of inputs (raw materials, stores etc.) if not already added in the books of account.
- (b) Any tax, duty, cess or fee actually paid or incurred on sale of goods should be added to the sales, if not already added in the books of account.
- (c) Any tax, duty, cess or fee actually paid or incurred on the inventory (finished goods, work-in-progress, raw materials etc.) should be added to the inventories, if not already added while valuing the inventory in the accounts.

23.9 The statutory adjustments required under section 145A can be explained by the following example.

III.232 Auditing Pronouncements

Particulars	Qty	Rate excluding excise duty	Rate of excise duty
Opening stock	10	10	2
Raw material purchased	90	10	2
Other manufacturing cost	80	10	-
Finished goods manufactured	80	-	-
Sales of finished goods	60	25	3
Closing stock of raw material	20	10	2
Closing stock of finished goods	20	20	3

The input output ratio of raw material to finished goods is 1: 1

23.10 It may be stated that the CENVAT is a procedure whereby manufacturer can utilise credit for input duty against duty payable on final products. Duty credit taken on input is of the nature of set off available against the excise duty payable on the final products. For the accounting periods ending on or before 31st March, 1999, the following two alternative methods of treatment of CENVAT credit in the accounts are permissible.

- I. Duty paid on inputs may be debited to a separate account, e.g. CENVAT credit receivable account. As and when the CENVAT credit is actually utilised against payment of excise duty on final products appropriate accounting entries will be required to adjust the excise duty paid out of "CENVAT credit receivable account" to the account maintained for payment/provision for excise duty on final product. In this case, the purchase cost of the inputs would be net of input duty. Therefore, the inputs consumed and the inventory of inputs would be valued on the basis of purchase cost net of input duty. This method is hereinafter referred to as "exclusive method".
- II. In the second alternative, the cost of inputs may be recorded at the total amount paid to the supplier inclusive of input duty. To the extent the CENVAT credit is utilised for payment of excise duty on final products, the amount could be credited to a separate account, i.e. CENVAT credit availed account. Out of the CENVAT credit availed account, the amount of CENVAT credit availed in respect of consumption of inputs would be reduced from the total cost of inputs consumed. This method is hereinafter referred to as "inclusive method".

The effect of section 145A is to reflect the figures on "inclusive method".

Following two illustrations explain the above propositions.

The profit & loss account on "exclusive method" would be as under:

Item	Particulars	Unit	Rate	Amount	Amount	Item	Particulars	Unit	Rate	Amount
(a)	Opening Stock	10	10	100		(h)	By sales	60	25	1,500
(b)	Purchase of raw material	90	10	900		(i)	By closing stock of finished goods	20	20	400
	Total	100	10	1000						
(c)	Less closing stock of raw Material	20	10	200						
(d)	Raw material consumed	80	10		800					
(e)	To manufacturing Cost	80	10		800					
(f)	To excise duty on finished goods sold				0					
(g)	To gross Profit				300					
	TOTAL				1900		TOTAL			1900

The profit & loss account on “inclusive method” which is also in accordance with the provisions of section 145A would be as under:

Item	Particulars	Unit	Rate	Amount	Amount	Item	Particulars	Unit	Rate	Amount
(j)	Opening stock	10	12	120		(s)	By sales	60	28	1680
(k)	Purchase of raw material	90	12	1080		(t)	By closing stock of finished goods	20	23	460
	Total	100	12	1200						
(l)	Less closing stock	20	12	240						
(m)	Less CENVAT credit	80	2	160						
(n)	Raw material Consumed	80	10		800					
(o)	To manufacturing cost	80	10		800					
(p)	To excise duty on finished goods	60	3		180					

III.234 Auditing Pronouncements

(q)	To excise duty on closing stock of finished goods	20	3		60				
(r)	To gross profit				300				
	TOTAL				2140		TOTAL		2140

23.11 It may be pointed out that the "inclusive method" is not permitted by AS-2 which is made mandatory from accounting year beginning on or after 01.04.1999. Further, in the Guidance Note on Accounting for CENVAT the second method (inclusive method) has been withdrawn with effect from accounting year commencing from 1.4.1999. In view of the above, the adjustments under section 145A will have to be made in all cases where 'exclusive method' is followed.

23.12 In this connection, it is worthwhile to note that the Memorandum explaining the provisions of section 145A inserted by the Finance (No.2) Bill, 1998 states as follows:

“Computation of value of inventory.

The issue relating to whether the value of closing stock of the inputs, work-in-progress and finished goods must necessarily include the element for which MODVAT credit is available has been the matter of considerable litigation.*

In order to ensure that the value of opening and closing stock (bold for emphasis) reflect the correct value, it is proposed to insert a new section to clarify that while computing the value of the inventory as per the method of accounting regularly employed by the assessee, the same shall include the amount of any tax, duty, cess or fees paid or liability incurred for the same under any law in force.

The proposed amendment which is clarificatory in nature shall take effect retrospectively from the 1st day of April, 1986 and will accordingly apply in relation to assessment year 1986-87 and subsequent years.

[Clause 45]”

*Now CENVAT.

(Section 145A was initially proposed to be applicable in relation to assessment year 1986-87 and subsequent years. However, later on, when the Finance (No.2) Bill, 1998 was enacted into law the provision was made applicable from 1.4.1999 i.e. assessment year 1999-2000)

23.13 It may be noted that when the adjustments are made in the valuation of inventories, this will affect both the opening as well as closing stock. Whatever adjustment is made in the valuation of closing stock, the same will be reflected in the opening stock also. Question for consideration is whether the opening stock as on 1.4.1998 should be adjusted as required under section 145A. It is now well settled that if any adjustment is required to be made by a statute, effect to the same should be given irrespective of any consequences on the

computation of income for tax purposes. Section 145A starts with the *non obstante* clause "Notwithstanding anything to the contrary contained in section 145". Therefore, to give effect to section 145A, the opening stock as on 1.4.98 will have to be increased by any tax, duty, cess or fee actually paid or incurred with reference to such stock if the same has not been added for the purpose of valuation in the accounts.

23.14 It may be noted that while making the adjustments stated in Para 23.8 and 23.13 above, the tax auditor should ensure that if any deduction is claimed for any tax, duty, cess or fee on the items covered by these two paragraphs by way of debit in the profit and loss account, either in the earlier year or in the year under report, adjustment for the same should be made in such a manner that no double deduction is claimed for the same expenditure. Similarly, adjustment should be made for any item of income to ensure that the same item is not treated as income twice.

23.15 When the exclusive method is followed in the accounts, the adjustments to be made under section 145A can be explained by the following illustrations which are required to be reported under clause 14(b).

Sl. No.	Particulars	(Rupees) Increase in Profit	(Rupees) Decrease in Profit
1.	Increase in cost of opening stock on inclusion of excise duty on which CENVAT credit is available/availed (j - a)		20
2.	Increase in purchase cost of raw material on inclusion of excise duty on which CENVAT credit is available/availed (k - b)		180
3.	Increase in sales of finished goods on inclusion of excise duty (s - h)	180	
4.	Excise duty paid on sale of finished goods as a result of its inclusion in sales (p-f)	-	180
5.	Increase in closing stock of raw material on inclusion of excise duty (l - c)	40	-
6.	Increase in closing stock of finished goods on inclusion of excise duty (t - i)	60	-
7.	Increase in excise duty on closing stock of finished goods as a result of its inclusion in closing stock of finished goods (q)	-	60
8.	Accounting of CENVAT credit availed and utilised on raw materials consumed in payment of excise duty on finished goods accounted on the basis of raw material consumed (m)	160	-
	TOTAL	440	440

It may be noted that the net impact on the profit or loss will be nil.

III.236 Auditing Pronouncements

Note 1: The reference in brackets is to items in the illustration given in paragraphs 23.10 above.

Note 2: The CENVAT credit in the "inclusive method" has been worked out on the basis of quantity of raw material consumed multiplied by excise duty paid on purchase of such raw material (Rs.160) (item m), though the CENVAT credit set off availed and utilized by the assessee against payment of excise duty on finished goods is Rs.180. This is so because the raw material consumed during the year under both the methods is Rs.800. The CENVAT credit in the inclusive method would have to be deducted from purchase of raw material on the basis of consumption of raw material and not on the basis of set off availed in excise law to arrive at correct cost of consumption. In the illustration if CENVAT credit of Rs.180 is accounted, then the raw material consumed would be Rs.780. This figure would not be the correct figure of consumption, since 80 units have been consumed and the net cost of each raw material is Rs.10 (12-2). In other words, the consumption of raw material to be debited during the year should be Rs.800 i.e. 80 units multiplied by 10. So also the figure of excise duty on finished goods sold of Rs.180 is correctly debited because the same represents excise duty on finished goods sold and the same cannot be changed on account of CENVAT credit set off availed.

In the inclusive method the cost of the finished goods have been taken at Rs.20 plus Rs.3 excise duty. The raw material component included in the finished goods has been taken at Rs.10 since CENVAT credit have been accounted at the rate of Rs.2 in arriving at consumption of raw material.

Note 3: Similar treatment should be given for other tax, duty, cess, or fee paid by the assessee i.e. sales tax etc.

Note 4: It may be noted that liability for sales tax arises on sale as against liability for excise duty which arises on manufacture. As such the liability for sales tax need not be adjusted in the closing stock of finished goods before the same are sold.

23.16 It may be noted that after making the above addition to the closing stock under section 145A, it will be possible to claim a separate deduction for excise duty actually paid after the year end but before the due date for filing the return of income on production of evidence as provided under section 43B. Therefore, in the above illustration if the assessee has paid Rs.60 added in the valuation of closing stock of finished goods before the due date for filing the return, deduction for the same can be separately claimed in the computation of income under section 43B, if other conditions of those sections are satisfied.

23.17 The computation of total income would appear as under :

	Rs.	Rs.	Rs.
Profit as per Profit and Loss account on the basis of exclusive method (see paragraph 23.10)			300
<i>Add:</i> Adjustments required under section 145A:			

1)	Excise duty on sales (Rs.3/ per unit for 60 units)	180		
2)	Excise duty on closing stock of raw materials (Rs. 2/- per unit for 20 units)	40		
3)	Excise duty on closing stock of finished goods (Rs.3/ per unit for 20 units)	60		
4)	CENVAT credit utilized on consumption of raw materials (Rs.2/- per unit for 80 units)	160	440	

<i>Less:</i>				
1)	Excise duty on opening stock of raw material (Rs.2/- per unit for 10 units)	20		
2)	Excise duty on purchase of raw materials (Rs.2/- per unit on 90 units)	180		
3)	Excise duty on sales (paid or incurred as per section 145A)	180	380	60
		-----	-----	-----
				360
<i>*Less:</i> Deduction under section 43B on the assumption that the amount is paid on or before due date of filing return of income in respect of excise duty payable on finished goods				60

	Profit			300

23.18 The input State-Level Value Added Tax (VAT) paid on purchases cannot be included in the cost of purchases where the tax paid on inputs is available for set-off against the tax payable on sales or is refundable, it is in the nature of taxes recoverable from taxing authorities. The Accounting Standard (AS) 2 "Valuation of Inventories" deals with "cost of inventories" and "cost of purchases". As per para 6 and 7 of the said AS-2, the cost of purchases cannot include duties and the taxes which are subsequently recoverable from the taxing authorities. Hence the input tax which is refundable, should not be included in the cost

III.238 Auditing Pronouncements

of purchases.

23.19 The Input State-Level VAT, to the extent it is refundable, will not form part of the cost of the inventory. The inventory of inputs is to be valued at net of the input tax which is refundable. If the inputs are obtained from the dealers who are exempt from the VAT, the actual cost of purchase should be considered as a part of cost of inventory.

23.20 A dealer may purchase certain common inputs which can be used for manufacturing goods which are declared tax free as well as taxable goods. In such case, the dealer should estimate inputs expected to be used for making tax free goods and for making taxable goods. The dealer should recognize VAT credit only in respect of those inputs which are used for making taxable goods and no VAT credit should be recognized in respect of inputs used for making tax free goods. Similar accounting treatment should be given in the case of stock transfer/ consignment sale of goods out of the State where VAT credit is available only to the extent of a certain portion of input tax paid.

23.21 VAT is collected from the customers on behalf of the VAT authorities and, therefore, its collection from the customers is not an economic benefit for the enterprise. It does not result in any increase in the equity of the enterprise. Accordingly, it should not be recognized as an income of the enterprise. Similarly, the payment of VAT should not be treated as an expense in the financial statements of the enterprise. Therefore, it should be credited to an appropriate account, say, 'VAT Payable Account'. In case the VAT has not been charged separately but has made a composite charge, it should segregate the portion of sales which is attributable to tax and should credit the same to 'VAT Payable Account' at periodic intervals. The amount of VAT payable adjusted against the VAT Credit Receivable (Capital Goods) Account and amounts paid in cash will be debited to this account. The credit balance in VAT Payable Account at the year-end should be shown on the 'Liabilities' side of the balance sheet under the head 'Current Liabilities'. It is important to note that where the assessee is enjoying tax holiday under the relevant state law as a result of which the liability to pay is deferred for a period of more than one year then it should be reflected as a long term liability.

23.22 Section 145A of the Income-tax Act provides that the valuation of purchase and sales of goods and inventory for the purpose of computation of income from business or profession shall be made on the basis of method of accounting regularly employed by the assessee but this shall be subject to certain adjustments. Therefore, it is not necessary to change the method of valuation of purchase, sale and inventory regularly employed in the books of account. The adjustment provided for in this section should be made while computing the income for the purpose of preparing the return of income. Therefore, the recommended method for accounting of VAT will not result in non-compliance of section 145A of the Income-tax Act.

23.23 The adjustments envisaged by section 145A will not have any impact on the trading account of the assessee. In other words both under exclusive method of accounting and

inclusive method of accounting, the gross profit in the trading account will remain the same. The same is illustrated for a trading concern and a manufacturing concern as follows:

(I) Trading Concern

Assuming that the assessee has opening stock of Rs.3,30,000/- on which input tax rebate of Rs.30,000/- is available. During the year three items purchased @ Rs.3,00,000/- per item. VAT on purchase @ 10%. There is no opening stock. Two items are sold @ Rs.4,50,000/- per item. VAT on sales @ 10%

The Trading Account on “EXCLUSIVE METHOD”

Particulars	Qty.	Rate	Amount	Particulars	Qty.	Rate	Amount
To Opening Stock	1	3,30,000	3,30,000	By Sales	2	4,50,000	9,00,000
Less Input tax rebate			30,000				
			3,00,000				
To Purchases	3	3,00,000	9,00,000	By Closing Stock	2	3,00,000	6,00,000
To Gross Profit			<u>3,00,000</u>				
Total			<u>15,00,000</u>				15,00,000

The Trading Account on “INCLUSIVE METHOD”

Particulars	Qty.	Rate	Amount	Particulars	Qty.	Rate	Amount
To Opening Stock	1	3,30,000	3,30,000	By Sales	2	4,95,000	9,90,000
To Purchases	3	3,30,000	9,90,000	By Closing Stock	2	3,30,000	6,60,000
			<u>13,20,000</u>				
Less: VAT credit availed on cost of goods sold			60,000				
			12,60,000				
VAT paid on sales			90,000				
Gross Profit			3,00,000				
			<u>16,50,000</u>				16,50,000

The statutory adjustments required under section 145A can be explained by the following

III.240 Auditing Pronouncements

example:

Sl. No.	Particulars	Increase in profit (Rs.)	Decrease in profit (Rs.)
1.	Increase in Opening Stock on inclusion of VAT		30,000
2.	Increase in Purchases on inclusion of VAT		90,000
3.	Increase in Sales on inclusion of VAT	90,000	
4.	Increase in Closing Stock on inclusion of VAT	60,000	
5.	VAT paid on sales		90,000
6.	VAT credit availed on cost of goods sold	60,000	
		2,10,000	2,10,000

The net impact on Profit & Loss Account is NIL.

The computation of total income would appear as under:-

Profit as per Profit & Loss account on the basis of exclusive method Rs.3,00,000

Add: Adjustments required under section 145A

1.	Increase in Sales on inclusion of VAT	Rs. 90,000
2.	Increase in Closing Stock on inclusion of VAT	Rs. 60,000
	Total	Rs. 4,50,000

Less:

1.	Increase in Opening Stock on inclusion of VAT	Rs. 30,000
2.	VAT Credit Receivables (Input) A/c	Rs. 90,000
3.	VAT Paid on sales 90,000	
	Less: VAT Credit availed on Cost of Goods Sold 60,000	
	Net VAT Paid	<u>Rs.30,000</u>
	Profit	Rs. <u>3,00,000</u>

(II) Manufacturing concern

The following information is considered in the case of a manufacturing concern:-

Opening Stock of Raw Material 50 units	@ Rs.100 per unit
--	-------------------

Purchases of Raw Material 300 units	@ Rs.100 per unit
Sales 250 units	@ Rs.150 per unit
Manufacturing Expenses	Rs.3,000
Closing Stock of Raw Material	50 units
Closing Stock of Finished Goods	50 units
Rate of VAT on purchases and sales	4%

Manufacturing Account on "EXCLUSIVE METHOD"

Particulars	Qty	Rate	Amount	Amount	Particulars	Qty	Rate	Amount
Opening Stock	50	100	5,000		By Sales	250	150	37,500
Purchase of raw materials	300	100	30,000		By closing stock of finished goods	50	110	5,500
Total	350	100	35,000					
Less: Closing Stock of raw material	50	100	5,000					
Raw material Consumed (C) = (A) – (B)	300			30,000				
To manufacturing Expenses	300	10		3,000				
To VAT on finished goods sold				0				
To gross profit				10,000				
Total				43,000	Total			43,000

Manufacturing Account on "INCLUSIVE METHOD"

Particulars	Qty	Rate	Amount	Amount	Particulars	Qty	Rate	Amount
Opening Stock	50	104	5,200		By Sales	250	156	39,000
Purchase of raw materials	300	104	31,200		By closing stock of finished goods	50	114	5,700
Total	350	104	36,400					
Less: Closing Stock of raw material	50	104	5,200					
Less: VAT on Raw	300	4	1,200					

III.242 Auditing Pronouncements

Particulars	Qty	Rate	Amount	Amount	Particulars	Qty	Rate	Amount
Material Consumed								
Raw material Consumed (C) = (A) – (B)	300		100	30,000				
To manufacturing expenses	300		100	3,000				
To VAT on finished goods sold	250	6		1,500				
To VAT included in finished goods on account of inclusion of VAT in the raw material value	50	4		200				
To gross profit				10,000				
Total				44,700	Total			44,700

The valuation of finished goods includes the raw material cost and the manufacturing expenses. The raw material costs is taken at Rs.100 per unit in the exclusive method and Rs.104 in the inclusive method. The overhead cost is Rs.10 per unit.

23.24 It will be seen from the above that the gross profit is the same both under the inclusive and the exclusive method. Further, the closing stock of raw materials includes the appropriate VAT. But the VAT is not includible in the closing stock of finished goods since the incidence of VAT arises only on sale. However, VAT on raw material included in the finished goods has also been included in the value of closing stock of finished goods.

The statutory adjustments required under section 145A can be explained by the following example:

Sl. No.	Particulars	Increase in Profit (Rupees)	Decrease in Profit (Rupees)
1.	Increase in cost of opening stock of raw material on inclusion of VAT		200
2.	Increase in purchase on account of inclusion of VAT.		1,200
3.	Increase in sales of finished goods on inclusion of VAT.	1,500	
4.	VAT paid on sale of finished goods as a result of its inclusion in sales		1,500
5.	Increase in closing stock of raw material on inclusion of VAT	200	
6.	Accounting of VAT credit availed and utilized on raw material consumed in payment of VAT on finished goods, accounted on the basis of raw	1,200	

Sl. No.	Particulars	Increase in Profit (Rupees)	Decrease in Profit (Rupees)
	material consumed.		
7.	Increase on account of VAT included in finished goods on account of inclusion of VAT in the raw material value	200	
8.	Increase in VAT on closing stock of finished goods on account of inclusion of VAT in the raw material value		200
Total		3,100	3,100

The net impact on the Profit & Loss Account is NIL.

The computation of total income total income would appear as under:-

Profit as per Profit & Loss account on the basis of exclusive method	Rs.10,000
Add: Adjustments required under section 145A	
1. Increase in Sales on inclusion of VAT	Rs. 1,500
2. Increase in Closing Stock of Raw Material on inclusion of VAT	Rs. 200
3. Increase in Stock of finished goods on account of inclusion of VAT in the raw material value	<u>Rs. 200</u>
	Rs.1,900
Total	Rs.11,900
Less:	
1. VAT on Opening Stock of Raw Material	Rs.200
2. VAT included in Purchases	Rs.1200
3. VAT Paid on Sales	Rs.1500
Less: Input Tax Credit on Raw Material Consumed	Rs.1200
Add: VAT included in Closing Stock Of Finished Goods	Rs.200
	Rs.500
Profit	Rs 10,000

24. Give the following particulars of the capital asset converted into stock-in-trade:-

(a) Description of capital asset;

III.244 Auditing Pronouncements

- (b) **Date of acquisition;**
- (c) **Cost of acquisition;**
- (d) **Amount at which the asset is converted into stock-in-trade.**

[Clause 15]

24.1 For furnishing the particulars required by clause 15, the provisions of section 2(47), 45(2), 47(iv), (v) and 47A have to be kept in mind.

24.2 From the A.Y. 1985-86 onwards the conversion by the owner of an asset into or treatment of such asset as stock-in-trade of a business carried on by him is treated as a 'transfer' within the meaning of section 2(47). Under section 45(2) such a conversion or treatment of capital asset into stock-in-trade will be deemed to be a transfer of the previous year in which the asset is so converted or treated as stock-in-trade. However, the capital gains arising from such a transfer will become chargeable in the previous year in which such converted asset is sold or otherwise transferred. In the case of long-term capital asset, indexation of cost of acquisition and cost of improvement, if any, will be with respect to the previous year in which such conversion took place. The fair market value of the asset, as on the date of such conversion or treatment as stock-in trade, shall be deemed to be the full value of the consideration of the asset. The excess of the sale price over the fair market value as on the date of conversion would be treated as business income and taxed under the head 'profits and gains of business or profession'. The capital gains being the difference between the cost of acquisition and the fair market value on the date of the conversion or treatment as stock-in-trade will be chargeable to tax in the year in which the asset is sold.

24.3 Section 47 of the Act enumerates the transactions which will not be regarded as transfer. Under clause (iv) any transfer of a capital asset by a company to its subsidiary company if the parent company or its nominees hold the whole of the share capital of the subsidiary company and the subsidiary company is an Indian company will not be treated as a transfer. Under clause (v) any transfer of a capital asset by a subsidiary company to the holding company if the whole of the share capital of the subsidiary company is held by the holding company and the holding company is an Indian company will not be considered as a transfer.

24.4 The capital gains exempted by virtue of clause (iv) or clause (v) of section 47 may become chargeable under certain circumstances. The provisions of section 47A are relevant here. Accordingly, where at any time before the expiry of a period of 8 years from the date of transfer of a capital asset referred to in clause (iv) or clause (v) of section 47, such capital asset is converted by the transferee company into, or is treated by it as, stock-in-trade of its business or the parent company or its nominees or, as the case may be, the holding company ceases to hold the whole of the share capital of the subsidiary company, the amount of profits or gains arising from the transfer of such capital assets not charged under section 45 by virtue of the provisions contained in clause (iv) or clause (v) of section 47 shall be deemed to be

income chargeable under the head “capital gains” of the previous year in which such transfer took place.

24.5 The particulars to be stated under new clause 15 should be furnished with respect to the previous year in which the asset has been converted into stock-in-trade. The clause does not require details regarding the taxability of capital gains or business income arising from such deemed transfer.

24.6 Under clause (a) description of the capital asset is required to be mentioned for example shares, security, land, building, plant, machinery etc.

24.7 Under Clause (b) the date of acquisition is to be reported. For ascertaining the correct date the tax auditor will have to refer the accounts of the financial year in which such capital asset is acquired. The date assumes importance for the purpose of determining whether the asset is long-term or short-term in nature.

24.8 Under clause (c) the cost of acquisition is required to be reported. Here the cost of acquisition as per the books of account is to be mentioned. In case of depreciable assets, the carrying cost appearing in the books will be the written down value. But the value to be reported will be the original cost of acquisition. Even in case of an asset acquired prior to the 1st day of April, 1981 the value to be reported will be the original cost of acquisition. The assessee may exercise the option of considering the fair market value of the asset as on 1st April, 1981 for assets acquired prior to that date for the purpose of computation of capital gains as provided under section 55(2)(b)(i). Further, in case of block of assets a particular asset loses its identity and therefore to report the original cost of acquisition may not be possible in all cases. In case of corporate entities where the requirements of CARO are applicable the cost may be available from the fixed asset register. However, in case of companies where CARO is not applicable and other partnership concerns, the reporting requirements as to the original cost of acquisition may not be practically possible.

24.9 Under clause (d) the amount recorded in the books of account at which the asset is converted into stock-in-trade should be stated. Such an amount may not be the fair market value as on the date of conversion or treatment as stock-in-trade. If a value other than carrying cost is recorded then the auditor has to examine the basis of arriving at such a value. The valuation of stock-in-trade is to be examined with reference to AS-2 – Valuation of Inventories. Non-compliance with AS-2 is to be suitably qualified in the main audit report.

24.10 It is desirable that necessary accounting entry is passed in the books of account at the time of conversion of the asset into or treatment of the same as stock-in-trade.

24.11 In the case of assessee like a proprietorship concern, prior to the conversion of the asset into stock-in-trade, the details regarding the date of acquisition and cost of acquisition may not be recorded in the books of account. It is also possible that the year in which the capital asset is acquired, the accounts of the assessee may not have been subjected to audit. Also an assessee can acquire a capital asset through various modes such as discussed under

III.246 Auditing Pronouncements

section 49 of the Act. Under such circumstances the auditor may have to verify the cost and the date of acquisition. The following broad principles need to be kept in mind.

24.12 While verifying the cost of acquisition of the fixed asset, the auditor should bear in mind the principles enunciated in Accounting Standard (AS) 10, Accounting for Fixed Assets. As per paragraph 20 of the said Accounting Standard, the cost of a fixed asset comprises of its purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Thus, in case of capital assets purchased by the assessee, it would relatively be easy for the auditor to verify the cost of acquisition, the evidence being provided by the supporting purchase invoices from the supplier, entries appearing in the bank statements in respect of payment to the supplier, entries appearing in the cash book/ bank statement for payment of cartage installment etc. In case of self-constructed capital assets, the cost would comprise those costs that relate directly to the specific capital asset and those that are attributable to the construction activity in general and can be allocated to the specific asset. In case of Capital assets acquired in exchange or in part exchange for another asset, the cost of the asset acquired is either the fair market value or the net book value of the asset given up, whichever is more clearly evident, adjusted for any balancing payment or receipt of cash or other consideration. In case the capital asset is recorded at the net book value of the asset, the fixed asset register would provide the prime evidence of the value. If, however the capital asset so acquired is recorded at the market value the auditor would need to examine the basis for arriving at the fair market value, for example, the valuer's report, market quotes (in case of listed securities). Where the valuer is the tax auditor's internal/ external, the tax auditor should have regard to the principles laid down in SA 620, *Using the Work of An Auditor's Expert*. In any case the auditor would also need to look into how the assessee has decided the value at which the asset is recorded in the books of account is more clearly evident than the other value. In case of a capital asset acquired by way of inheritance, the auditor may find it difficult to verify the cost of acquisition to the original owner. In case there does not exist any documentary evidence as to the cost of acquisition of the asset to the original owner, say the sale/purchase agreement the auditor may need to rely upon the reports of the experts such as valuers. In addition to the above, the auditor should also refer to the guidance contained in the Guidance Note on Audit of Property, Plant and Equipment issued by the Institute.

25. Amounts not credited to the profit and loss account, being,-

- (a) the items falling within the scope of section 28;
- (b) the proforma credits, drawbacks, refund of duty of customs or excise or service tax, or refund of sales tax or value added tax, where such credits, drawbacks or refunds are admitted as due by the authorities concerned;
- (c) escalation claims accepted during the previous year;
- (d) any other item of income;
- (e) capital receipt, if any.

[Clause 16 (a) to (e)]

25.1 Under this clause various amounts falling within the scope of section 28 which are not credited to the profit and loss account are to be stated. The information under sub-clauses (a), (d) and (e) of clause (16) is to be given with reference to the entries in the books of account and records made available to the tax auditor for the purpose of tax audit under section 44AB. Sub-clauses 16 (b), (c) & (d) require information in respect of items which may also be covered under section 28 and as such will also fall in clause 16 (a). However, those items which are reported in clauses 16(b), (c) and (d) need not be reported in clause 16 (a). The tax auditor may obtain a management representation in writing from the assessee in respect of all items falling under this clause.

25.2 Section 28 refers to

- (i) the profits and gains of any business or profession,
- (ii) any compensation received on termination of employment, agency etc.
- (iii) income derived by a trade, professional or similar association from specific services performed for its members,
- (iiia) profits on sale of a licence granted under the Imports Control Order, 1955,
- (iiib) cash assistance against exports
- (iiic) customs duty or excise repaid or repayable as drawback against exports,
- (iiid) profit on the transfer of DEPB Scheme being the Duty Remission Scheme,
- (iiie) profit on the transfer of DFRC being the Duty Remission Scheme
- (iv) the value of any benefit or perquisite arising from business or the exercise of a profession
- (v) any interest, salary, bonus, commission or remuneration, by whatever name called, received by a partner of the firm from such firm,
- (va) any sum, whether received for (a) not carrying out any activity in relation to any business (b) not sharing any know how, patent, copyright, trade mark, licence, franchise or any other business or commercial right of similar nature or information or technique likely to assist in the manufacture or processing of goods or provision for services
- (vi) any sum received under a Keyman insurance policy including the sum allocated by way of bonus on such policy
- (vii) any sum received on account of any capital assets (other than land or goodwill or financial instrument) being demolished, destroyed, discarded or transferred if the whole of the expenditure on such capital assets has been allowed under Section 35AD.

III.248 Auditing Pronouncements

25.3 As per Explanation 2, where speculative transactions constitute a business, such speculation business is deemed to be distinct and separate business from any other business.

25.4 The details of the following claims, if admitted as due by the concerned authorities but not credited to the profit and loss account, are to be stated under sub-clause (b).

- (i) Pro forma credits
- (ii) Drawback
- (iii) Refund of duty of customs
- (iv) Refund of excise duty
- (v) Refund of service tax
- (vi) Refund of sales tax or value added tax

In respect of items falling under sub-clause (b) the tax auditor should examine all relevant correspondence, records and evidence in order to determine whether any particular refund/claim has been admitted as due and accepted during the relevant financial year.

25.5 There may be practical difficulties in verifying the information in regard to such refunds and credits. It may, therefore, be necessary for the tax auditor to scrutinise the relevant files or subsequent records relating to such refunds while verifying the particulars and also obtain an appropriate management representation.

25.6 The words 'admitted by the concerned authorities' would mean 'admitted by the authorities within the relevant previous year'.

25.7 The system of accounting followed in respect of these particular items may also be brought out in appropriate cases. If the assessee is following cash basis of accounting, it should be clearly brought out, since the admittance of claims during the relevant previous year without actual receipt has no significance in cases where cash method of accounting is followed. Credits/claims which have been admitted as due after the relevant previous year need not be reported here.

Where such amounts have not been credited in the profit and loss account but netted against the relevant expenditure/income heads, such fact should be clearly brought out.

25.8 Under sub-clause (c), the escalation claims accepted during the previous year but not credited to the profit and loss account are to be stated. The escalation claims accepted during the year would normally mean "accepted during the relevant previous year". If such amount has not been credited to the profit and loss account the fact should be brought out. The system of accounting followed in respect of this particular item may also be brought out in appropriate cases. If the assessee is following cash basis of accounting with reference to this item, it should be clearly brought out since acceptance of claims during the relevant previous year without actual receipt has no significance in cases where cash method of accounting is followed.

25.9 Escalation claims would normally arise pursuant to a contract (including contracts entered into in earlier years), if so permitted by the contract. Only those claims to which the other party has signified unconditional acceptance could constitute accepted claims. Mere making of claims by the assessee or claims under negotiations or claims which are sub-judice [*CIT v. Hindustan Housing & Land Development Trust Ltd. [1986] 161 ITR 524 (SC)*] cannot constitute claims accepted. The Auditor should take a professional judgment about acceptance of claim based on facts and circumstances of each case.

25.10 Sub-clause (d) covers any other items which the tax auditor considers as an income of the assessee based on his verification of records and other documents and information gathered, but which has not been credited to the profit and loss account. In giving the details under sub-clauses (c) and (d), due regard should be given to AS-9 - Revenue Recognition.

25.11 The tax auditor should scrutinise all the items including casual and nonrecurring items appearing in the books of account, particularly the credit items, and ensure himself whether any such credit which is in the nature of income has been credited to the profit and loss account or not.

25.12 Under sub-clause (e), capital receipt, if any, which has not been credited to the profit and loss account has to be stated. The tax auditor should use his professional expertise and judgement in determining whether the receipt is capital or revenue. The tax auditor may record various judicial pronouncements on which he has relied in his working papers.

25.13 The following is an illustrative list of capital receipts which, if not credited to the profit and loss account, are to be stated under this sub-clause.

- (a) Capital subsidy received in the form of Government grants which are in the nature of promoters' contribution i.e., they are given with reference to the total investment of the undertaking or by way of contribution to its total capital outlay. For e.g. Capital Investment Subsidy Scheme.
- (b) Government grant in relation to a specific fixed asset where such grant is shown as a deduction from the gross value of the asset by the concern in arriving at its book value.
- (c) Compensation for surrendering certain rights.
- (d) Profit on sale of fixed assets/investments to the extent not credited to the profit and loss account.

25.14 Loans and borrowings are not required to be stated under this sub-clause.

25.15 If during the course of audit auditor finds that certain income (e.g. income referred to in section 41(1)) are not credited to profit and loss account, the particulars of the same along with the amount is required to be reported under this clause.

III.250 Auditing Pronouncements

26. Where any land or building or both is transferred during the previous year for a consideration less than value adopted or assessed or assessable by any authority of a State Government referred to in section 43CA or 50C, please furnish:

Details of property	Consideration received or accrued	Value adopted or assessed or assessable

(Clause 17)

26.1 Section 43CA is applicable where the assessee has transferred an asset (other than a capital asset) being land or building or both and the value of such an asset is less than the value adopted or assessed or assessable by any State Government authority for the purpose of payment of stamp duty. In such a case for purpose of computing profit & gains from such transfer, the value so adopted or assessed or assessable shall be deemed to be the full value of consideration.

26.2 Section 50C is applicable where the assessee has transferred a capital asset being land or building or both and the value of such an asset is less than the value adopted or assessed or assessable by any State Government authority for the purpose of payment of stamp duty. In such a case, for purpose of section 48, the value so adopted or assessed or assessable by stamp duty authority shall be deemed to be the full value of consideration.

26.3 Where any land or building or both is transferred during the previous year for a consideration less than value adopted or assessed or assessable by any authority of a State Government referred to in section 43CA or 50C, the auditor is required to furnish the following details:

- (a) Details of property
- (b) Consideration received or accrued
- (c) Value adopted or assessed or assessable

26.4 In the column requiring the details of property, the auditor has to furnish the details about the nature of property i.e. whether the property transferred by him is land or a building along with the address of such property. If the assessee has transferred more than one property, the detail of all such properties is required to be mentioned. The auditor should obtain a list of all properties transferred by the assessee during the previous year. He may also verify the same from the statement of profit and loss or balance sheet, as the case may be. Attention is invited to the meaning of the term "transfer" as defined in section 2(47) of the Act.

26.5 Under the heading "consideration received or accrued", the auditor has to furnish the amount of consideration received or accrued, during the relevant previous year of audit, in respect of land/building transferred during the year as disclosed in the books of account of the assessee.

26.6 For reporting the value adopted or assessed or assessable, the auditor should obtain from the assessee a copy of the registered sale deed in case, the property is registered. In case the property is not registered, the auditor may verify relevant documents from relevant authorities or obtain third party expert like lawyer, solicitor representation to satisfy the compliance of section 43CA/ section 50C of the Act. In exceptional cases where the auditor is not able to obtain relevant documents, he may state the same through an observation in his report 3CA/CB.

26.7 Auditor would have to apply professional judgment as to what constitutes land or building for e.g. whether leasehold right / development rights / TDR / FSI etc would fall under this provisions or not, would require to be evaluated based on facts & circumstances of transactions.

27. Particulars of depreciation allowable as per the Income-tax Act, 1961 in respect of each asset or block of assets, as the case may be, in the following form:-

- (a) Description of asset/block of assets.**
- (b) Rate of depreciation.**
- (c) Actual cost or written down value, as the case may be.**
- (d) Additions/deductions during the year with dates; in the case of any addition of an asset, date put to use; including adjustments on account of –**
 - (i) Central Value Added Tax credits claimed and allowed under the Central Excise Rules, 1944, in respect of assets acquired on or after 1st March, 1994,**
 - (ii) change in rate of exchange of currency, and**
 - (iii) subsidy or grant or reimbursement, by whatever name called.**
- (e) Depreciation allowable.**
- (f) Written down value at the end of the year.**

[Clause 18 (a) to (f)]

27.1 Having regard to the nature of requirements prescribed, it may be necessary for the tax auditor to examine:

- (a) Classification of the asset
- (b) Classification thereof to a block
- (c) The working of actual cost or written down value
- (d) The date of acquisition and the date on which it is put to use
- (e) The applicable rate of depreciation

III.252 Auditing Pronouncements

- (f) The additions / deductions and dates thereof
- (g) Adjustments required – specified as well as on account of sale, etc.

27.2 The word “allowable” implies that depreciation should be permissible as a deduction, as per the provisions of the Act and the Rules. This would require exercise of judgement having regard to the facts and circumstances of the case, developments in law from time to time, etc.

27.3 For the purpose of determining the rate of depreciation, the tax auditor has to examine the classification of the assets into various blocks. For example, a particular asset may be classified as plant or machinery from the viewpoint of one class of assessees, yet it may not be plant or machinery from the viewpoint of another class of assessees. The purpose for which the asset is used is also very material in this regard. Hence, the tax auditor should ensure that the classification as made by the assessee is in consonance with legal principles. In this connection, he should traverse through judicial pronouncements as well as through the past assessment history of the assessee, and upon an analysis thereof, if he comes to the conclusion that the matter is not free from doubt or controversy, he has to indicate the fact in his report by way of suitable qualification. It may also be necessary to rely upon technical data for determining the proper classification of the block. Since the tax auditor is not a technical expert, he has to obtain suitable certificate from concerned experts.

27.4 Once the classification has been ascertained and checked properly, the rates applicable as per the Income-tax Rules, 1962 follow as a natural corollary. The tax auditor must have due regard to the Income-tax Rules, 1962, relevant clarifications from the Department and judicial decisions.

27.5 Under sub-clauses (a) to (b), information in respect of description of assets, block of assets under which the concerned asset is classifiable and the rate of depreciation are to be stated. This will include information about the existing assets. In respect of the existing assets, the computation of depreciation would involve stating the opening written down value of the block of assets which should be taken from the relevant income-tax records. The tax auditor will be conducting the audit in the current year only. As such the tax auditor can rely upon the classification of assets and written down value stated in the income tax records available with the assessee. The tax auditor should mention the fact that he has relied upon the income tax records of the assessee in respect of the information regarding the classification of assets and written down value of the existing assets.

27.6 If there is any dispute with regard to the classification of an asset in a particular block or the rate of depreciation applied, the tax auditor must give his working with suitable reasons. Further, there may be disputes in the earlier years between the assessee and the Department regarding classification, rate of depreciation etc. in respect of which the tax auditor should give suitable disclosure depending upon the facts and circumstances of the case. Alternatively, where the tax auditor adopts a system of classification different from the one adopted by the assessee, suitable disclosure should be made regarding the effect thereof.

27.7 It will, therefore, be advisable to put a suitable note with regard to those items in respect of which disputes for the earlier years are not resolved up to the date of giving the audit report and it should be clarified that the amount of depreciation allowable may change as a result of any decision which may be received after the audit report is given. This note can be in the following manner:

“NOTE: Certain disputes about

- (a) the rate of depreciation on _____
- (b) determination of WDV of block of assets relating to _____ and
- (c) ownership of _____ have arisen in the assessment years _____ for which assessments are pending/appeals are pending. The figures of WDV and/or rate of depreciation mentioned in the above statement may require modification when these disputes are resolved. Therefore, the amount of depreciation allowable as stated in the above statement will have to be accordingly modified.”

27.8 For the purpose of determination of actual cost, the tax auditor has to be guided by the relevant legal provisions. Since determination of actual cost has got accounting implications, he can rely on the relevant Accounting Standards and Guidance Notes. Due to the amendments made by the Finance (No.2) Act, 1998, depreciation is allowable on intangible assets like know-how, patents, copyrights, trademarks, licenses, franchises or any other business or commercial rights of similar nature. There may be intangible assets like patents invented by the company, brand names, etc. for which the assessee might have incurred costs. The tax auditor should examine the basis on which the cost of such intangible assets has been arrived at.

27.9 The additions/deductions during the year have to be reported, with dates. The tax auditor is advised to get the details of each asset or block of asset added during the year or disposed of during the year with the dates of acquisition/disposal. Where any addition was made, the date on which the asset was put to use is to be reported. In respect of deductions, the sale value of the assets disposed of along with dates should be mentioned. The provisions of Section 36(1)(iii) and Explanation 8 to section 43(1) of the Act, should be kept in mind for capitalization of interest to the cost of assets. The tax auditor should check the working regarding the calculation of depreciation allowable under the Act. To ascertain when the asset has been put to use, the tax auditor could call for basic records like production records/installation details/excise records/service tax records/records relating to power connection for operating the machine and any other relevant evidence. In the absence of any specific documentation with regard to the effective date from which the asset is put to use, he could get a representation letter from the management, in respect of the assets acquired. He should examine whether the apportionment of depreciation in cases like succession, amalgamation, demerger etc. has been properly made.

III.254 Auditing Pronouncements

27.10 Section 43(1) of the Act defines actual cost as under :

“Actual Cost” means the actual cost of the assets to the assessee, reduced by that portion of the cost thereof, if any, as has been met directly or indirectly by any other person or authority.

Further section 43(1) has explanation from 1 to 13 which provides for different situations for the purpose of calculating the actual cost.

Section 43(2) defines the word “Paid” and Section 43(3) defines the word “Plant”.

Section 2(11) defines “Block of assets” and section 43(6) read with explanations 1 to 7 defines “Written Down Value”.

27.11 The Guidance Note on Accounting for State-level Value Added Tax issued by ICAI has suggested the following treatment in respect of VAT Credit on Capital Goods.

“24. The accounting treatment recommended in the following paragraphs applies only to those capital goods which are eligible for the credit.

25. Paragraph 9.1 of Accounting Standard (AS) 10, Accounting for Fixed Assets, issued by the Institute of Chartered Accountants of India, inter-alia, provides as below:

*“9.1 The cost of an item of fixed asset comprises its purchase price, including import duties and other nonrefundable taxes or levies and any directly attributable cost of bringing the asset to its working condition for its intended use; any trade discounts and rebates are deducted in arriving at the purchase price.
...”*

VAT credit is considered to be of the nature of a refundable tax. Therefore, the tax paid on purchase of capital goods should not be included in the cost of such capital goods.”

In view of above, the VAT Credit eligible on capital goods should be reduced from the cost of the assets for the purpose of claim of depreciation.

27.12 Details have to be given in respect of adjustments on account of three factors. The first adjustment relates to CENVAT claimed and allowed under the Central Excise Rules, 1944 in respect of assets acquired on or after 1st March, 1994. Explanation 9 to section 43(1) of the Act provides that where an asset is or has been acquired on or after the 1st day of March, 1994 by an assessee, the actual cost of asset shall be reduced by the amount of duty of excise or the additional duty leviable under section 3 of the Customs Tariff Act, 1974 (51 of 1975) or Service Tax in respect of which a claim of credit has been made and allowed under the Central Excise Rules, 1944 and Finance Act 1994 (relating to Service Tax) read with CENVAT Credit Rules 2004. It is necessary, therefore, for the tax auditor to examine the details of assets acquired on or after 1st March, 1994 and the details of CENVAT credit claimed and allowed in respect of those assets

27.13 In Clause 18(d)(i) the amount of CENVAT credit claimed and allowed on capital goods

and deducted from the cost of the asset has to be mentioned. Under the CENVAT Credit Rules, 2004, the assessee is entitled to avail credit of duty paid on capital goods and utilise the same, in payment of excise duty leviable on final products, or in payment of service tax on taxable output services. However the CENVAT credit of duty paid on capital goods is not allowed if the assessee claims depreciation under the Act on an amount including the amount of CENVAT credit [Rule 4 (4) of the CENVAT credit rules, 2004].

27.14 As such the assessee should not include duty paid on capital goods eligible for CENVAT credit as part of the cost of fixed assets, otherwise he will not be eligible to claim the CENVAT credit. Whenever, CENVAT credit is rejected in the subsequent year, the auditor should make separate disclosure for the amount of CENVAT credit adjusted during the year which pertains to earlier years. Similarly, if the CENVAT credit is claimed and allowed but which has not been deducted from the cost of the asset, such credit should be deducted from the cost and the appropriate disclosure should be made separately for such adjustment.

27.15 The tax auditor should also verify that the amount of CENVAT credit deducted from cost of capital goods tallies with the credit availed on this account.

27.16 The second adjustment relates to the change in the rate of exchange of currency. Section 43A deals with the adjustment on account of change in the rate of exchange of currency. The Finance Act, 2002 has substituted a new section 43A w.e.f. A.Y. 2002-03. As per this amendment,

- (i) where an assessee has acquired any asset in any previous year from a country outside India for the purposes of his business or profession and,
- (ii) in consequence of a change in the rate of the exchange during any previous year after the acquisition of such asset,
- (iii) there is an increase or reduction in the liability of the assessee as expressed in Indian currency (as compared to the liability existing at the time of acquisition of the asset) at the time of making the payment towards the whole or part of the cost of the asset or towards repayment of the whole or a part of the monies borrowed by him from any person,
- (iv) directly, or indirectly in any foreign currency specifically for the purpose of acquiring the asset along with the interest, if any,
- (v) the increase or reduction in the liability during the previous year which is taken into account at the time of making the payment,
- (vi) irrespective of the method of accounting followed by the assessee, is to be added to, or as the case may be, deducted from the cost of the asset as defined in clause (1) of section 43.

27.17 In other words the extent of addition or reduction will be limited to the exchange difference actually paid during the previous year. The tax auditor is required to verify that the

III.256 Auditing Pronouncements

adjustments in the cost of fixed assets on account of changes in the rate of exchange of currency in the schedule of fixed assets prepared for computation of depreciation as per Income-tax Rules are in accordance with the provisions of section 43A and information about such adjustment is provided under sub-clause (ii) of clause 18(d). The Tax Auditor may also prepare a reconciliation statement for his own records for any different treatment followed for the purpose of books of accounts as per applicable accounting treatment under Accounting Standards. The auditor should also refer the explanations to section 43A.

27.18 The third adjustment relates to the subsidy or grant or reimbursement, by whatever name called. Explanation 10 to section 43(1) provides that where a portion of the cost of an asset acquired by the assessee has been met directly or indirectly by the Central Government or a State Government or any authority established under any law or by any other person, in the form of a subsidy or grant or reimbursement (by whatever name called), then, so much of the cost as is relatable to such subsidy or grant or reimbursement shall not be included in the actual cost of the asset to the assessee. As per the proviso to the above Explanation, where such subsidy or grant or reimbursement is of such nature that it cannot be directly relatable to the asset acquired, such of the amount which bears to the total subsidy or reimbursement or grant the same proportion as such asset bears to all the assets in respect of or with reference to which the subsidy or grant or reimbursement is so received, shall not be included in the actual cost of the asset to the assessee. Subsidy coming within the scope of Explanation 10 to section 43(1) in respect of asset acquired in any earlier year(s) and received during the year has to be deducted from the written down value of such assets in the year of receipt.

27.19 Finally, the amount of depreciation allowable and the WDV at the year end have to be stated. Wherever a claim for depreciation involves any reliance on any judgement or opinion or other contentions (as to its classification, rate applicable, cost, date on which put to use etc.), it may be advisable for tax auditor to disclose full particulars thereof and the basis on which the depreciation allowable has been determined and vouched by him.

27.20 The Finance Act, 2001 had inserted Explanation 5 below sub-section (1) of section 32, to the effect that the provisions of section 32(1) regarding allowing of depreciation shall apply whether or not the assessee has claimed the deduction in respect of depreciation in computing his total income. Thus, the claim for depreciation is now mandatory and the written down value of each asset every year has to be reduced by the amount of depreciation allowable under the Income-tax Rules and the details required under the relevant sub-clauses need to be stated.

27.21 Section 32(1)(ia) effective from Financial year 2002-03 provide for additional depreciation to a concern engaged in the business of manufacturing or production of an article or thing or installation of a new machinery on fulfillment of the prescribed conditions like specified percentage of increase in installed capacity. Additional depreciation shall be allowable in respect of new machinery or plant installed on or after 31st day of March, 2005, which is

- (i) engaged in the business of manufacture or production of any article or thing or
(ii) In the business of generation or generation or distribution of power

except those machinery or plant which before installation by the assessee was used by any other person, machinery or plant installed in office premises or residential accommodation, office appliances, road transport vehicles and that machinery or plant the actual cost of which is allowed in computing the income. The tax auditor will need to verify the claim of additional depreciation under this clause as well.

27.22 Wherever, the full deduction of the cost of capital goods is allowed (e.g. expenditure on Scientific Research u/s. 35) the auditor should verify that the cost of such asset is not included in the block of assets for the purpose of depreciation.

27.23 The tax auditor has to keep in mind the above guidance while furnishing details in respect of this clause in the format provided in the e-filing utility.

28. (a) Amounts admissible under sections:

Section	Amount debited to profit and loss account	Amounts admissible as per the provisions of the Income-tax Act, 1961 and also fulfills the conditions. If any specified under the relevant provisions of Income-tax Act, 1961 or Income-tax Rules, 1962 or any other guidelines, circular, etc., issued in this behalf.

[Clause 19]

28.1 The assessee can claim deduction under the sections 32AC, 33AB, 33ABA, 35, 35ABB, 35AC, 35AD, 35CCA, 35CCB, 35CCC, 35CCD, 35D, 35DD, 35DDA and 35E subject to the terms and conditions mentioned in these Sections.

28.2 In case the assessee has obtained a separate Audit Report for claiming deductions under any of these sections, he must make a reference to that report while giving the details under this clause.

28.3 The Tax Auditor should indicate the amount debited to the Profit & Loss Account and the amount actually admissible in accordance with the applicable provisions of law.

28.4 The amount not debited to the Profit & Loss Account but admissible under any of the Sections mentioned in the clause have to be stated. For example sections 33AB and 33ABA allow deduction in respect of amount deposited in designated account for specified purposes which, as per accounting principles, are not to be debited to the Profit & Loss Account. In this connection, the Tax Auditor has to work out, on the basis of the conditions prescribed in the concerned Section, the amount admissible there under and report the same.

28.5 An assessee may be eligible for deduction under one or more sub-sections of section 35. In such case, the Tax Auditor should state the deduction allowable under each sub-section separately under applicable part, i.e. the amount deductible in respect of the amount debited in Profit & Loss Account and the amount not debited to the Profit & Loss Account.

28.6 The Tax Auditor should also ensure the eligibility of the expenditure/payment for deduction and compliance of the conditions prescribed in the sub-section including approval from the relevant/prescribed authority, notification issued by the Central Government, any other guideline circular etc issued in this behalf. Tax auditor should also refer Rule 6 of Income-tax Rules, 1962.

28.7 In case the auditor relies on a judicial pronouncement, he may mention the fact in his observations para provided in Form No.3CA or Form No.3CB, as the case may be.

28.8 The following Table summarizes Sub-section-wise eligibility, requirement of compliance of the conditions and the amount of deductions required to be mentioned under this clause

(The summary is only illustrative and Tax Auditor is advised to refer actual provision of the Act):

Table showing deductions applicable from A.Y. 2014-15 onwards (as per law prevailing on 1-4-2014)

Section & Sub-section	Eligible expenditure/payment	Amount/Quantum of Deduction
32AC	Investment in New Plant & Machinery	15% of the actual cost of such new assets.
33AB	Amount deposited in Tea/Coffee/Rubber Development Account	Deduction is allowed for the least of the following: (a) Sum equal to the amount or the aggregate of the amounts so deposited.(b) Sum equal to 40% of the profits of such business.
33ABA	Where an amount is being deposited by an assessee in a scheme approved by the Government of India in the Ministry of Petroleum and Natural Gas for the purpose of prospecting or extraction etc. of petroleum or natural gas.	Deduction is allowed for the least of the following: (a) Sum equal to the amount or the aggregate of the amounts so deposited. (b) Sum equal to 20% of the profits of such business
35(1)(i)	Any Expenditure other than Capital Expenditure incurred by the assessee for scientific research related to its own business.	100% of the expenditure
35(1)(ii)	Amount paid to Research association which has as its object the undertaking of scientific research Or amount paid to a University, college or other institutions to be used for scientific research. Provided that, such association, university, college or other institution is approved and is specified as such, by notification in the	175% of amount paid/contributed from A.Y. 2011-12 and onwards 125% of amount paid/contributed till A.Y 2010-11.

III.264 Auditing Pronouncements

Section & Sub-section	Eligible expenditure/payment	Amount/Quantum of Deduction
35CCD	Expenditure incurred by a company on any skill development project notified by the Board	150% of expenditure
35D	Expenditure incurred by an Indian Company or a person who is resident in India on amortization of certain preliminary expenses.	One tenth of such expenditure for each of the ten successive previous years beginning with the previous year in which business commences or as the case may be.
35DD	Amortisation of Expenditure incurred by an Indian Company for the purpose of amalgamation or demerger	One fifth of such expenditure for each of the five successive previous years beginning with the previous year in which amalgamation or demerger takes place.
35DDA	Expenditure incurred by way of payment of any sum to an employee in connection with his voluntary retirement, in accordance with any scheme or scheme of voluntary retirement.	One-fifth of the amount so paid shall be deducted in computing the profits and gains of the business for that previous year, and the balance shall be deducted in equal installments for each of the four immediately succeeding previous years.
35E	Deduction for expenditure on prospecting or extraction or production of certain minerals.	One tenth of amount of such expenditure for each of ten successive previous years.

Members are advised to refer the Income-tax Act, 1961 for any change in the provisions of Act at the time of signing the audit report.

28.8 Where under any section an assessee is eligible for deduction under one or more of the sub-sections of the said section, the Tax Auditor should certify the amount of deduction

available under each sub-section separately in the applicable part, i.e. the amount deductible in respect of the amount debited to Profit & Loss Account and the amount not debited to the Profit & Loss Account.

29. (a) Any sum paid to an employee as bonus or commission for services rendered, where such sum was otherwise payable to him as profits or dividend. [Section 36(1)(ii)].

(b) Details of contributions received from employees for various funds as referred to in section 36(1)(va):

Serial number	Nature of fund	Sum received from employees	Due date for payment	The actual amount paid	The actual date of payment to the concerned authorities

[Clause 20 (a) and (b)]

29.1 Section 36(1)(ii) provides for deduction of any sum paid to an employee as bonus or commission for services rendered where such sum would not have been payable to him as profit or dividend, if it had not been paid as bonus or commission. In other words, if bonus or commission is in the nature of profit or dividend, it may not be normally allowable as a deduction unless such payment is wholly and exclusively made to the employee. [*Shahzada Nand & Sons v. CIT [1977] 108 ITR 358 (SC)*].

29.2 Under Clause 20(b), the requirement is only in respect of the disclosure of the amount and the tax auditor is not expected to express his opinion about its allowability or otherwise. The tax auditor should verify the employment/ contract details of the employees so as to ascertain the nature of payments.

29.3 Section 36(i)(va) of the Act permits deduction of any sum received by the assessee from any of his employees to which the provisions of section 2(24)(x) are applicable, if it is credited by the assessee to the account of the employees in the relevant statutory fund on or before the due date.

29.4 Section 2(24)(x) includes within the scope of income any sum received by the assessee from his employees as contributions to any provident fund or superannuation fund or ESI Fund or any other Fund for employees' welfare (hereafter referred to as "Welfare Fund").

29.5 As per the explanation provided in section 36(1)(va), "due date" means the date by which the assessee is required as an employer to credit an employee's contribution to the employee's account in the relevant fund under any Act., rule, order or notification issued there under or under any standing order, award, contract of service or otherwise, i.e., the date by

III.266 Auditing Pronouncements

which it is required to be credited as per the provisions of the applicable law etc. It may be noted that Employees' P.F. manual provides for 5 days of grace period for payment of contribution. This can be taken into consideration for determining the due date of payment.

29.6 The tax auditor should get a list of various contributions recovered from the employees which come within the scope of this clause and the date on which it is deposited. He should also verify the documents relating to provident funds and other welfare funds. He should verify the agreement under which employees have to make contributions to provident fund and other welfare funds. The ledger account of contributions from employees should be reviewed; the due dates of payments and the actual dates of payment should be verified with the evidence available. In view of the voluminous nature of the information, the tax auditor can apply test checks and compliance tests to satisfy himself that the system of recovery and remittance is proper. Under this clause, details regarding the nature of fund, details of the amount deducted, due date for payment, actual amount paid and actual date of payment to the concerned authorities in respect of provident fund, ESI fund or other staff welfare fund have to be stated.

29.7 The tax auditor should maintain the following information in his working papers for the purpose of reporting in the format provided in the e-filing utility:

(a)

Description	Amount
1	2

(b)

Serial number	Nature of fund	Sum received from employees	Due date for payment	The actual amount paid	The actual date of payment to the concerned authorities
1	2	3	4	5	6

30. (a) Please furnish the details of amounts debited to the profit and loss account, being in the nature of Capital, personal, advertisement expenditure etc:

[Clause 21(a)]

Nature	Serial number	Particulars	Amount in Rs.
Capital Expenditure			
Personal Expenditure			
Advertisement expenditure in any souvenir, brochure, tract, pamphlet or the like published by a political party			
Expenditure incurred at clubs being entrance fees and subscriptions			
Expenditure incurred at clubs being cost for club services and facilities used.			
Expenditure by way of penalty or fine for violation of any law for the time being force			
Expenditure by way of any other penalty or fine not covered above			
Expenditure incurred for any

34. (e) provision for payment of gratuity not allowable under section 40A(7);
[Clause 21(e)]

35. (f) any sum paid by the assessee as an employer not allowable under section 40A(9);
[Clause 21(f)]

36. (g) particulars of any liability of a contingent nature;
[Clause 21(g)]

37. (h) amount of deduction inadmissible in terms of section 14A in respect of the expenditure incurred in relation to income which does not form part of the total income
[Clause 21(h)]

38. (i) amount inadmissible under the proviso to section 36(1)(iii)
[Clause 21(i)]

30. Clause 21

This clause requires the tax auditor to state the amount of expenditure incurred by the assessee in respect of various items listed above. These expenses may be allowable or may not be allowable or may be allowable subject to certain limits. It is important to note that the amount of expenditure in respect of each of the items is required to be stated. Accordingly, tax auditor will have to obtain the information and make necessary enquiries in that behalf. It will necessitate verification of books of account and other relevant documents, basis of classification, groups under which such expenses have been debited, and so on.

30.1 Clause 21(a) - Expenditure in the nature of capital, personal, advertisement expenditure etc.

Expenditure of Capital nature:

Capital expenditure is not allowable in computing business income unless specifically provided in any sections of the Act. The word "capital expenditure" is not defined in the Act and no conclusive test or rules can be laid down to determine whether a particular expenditure is capital or revenue in the nature. Different tests have been applied by the courts in different

cases depending upon the facts and circumstances of each case and the case law on the subject, as evolved over a period of years, gives guidance for determining the nature of expenditure.

30.2 Some tests which, however, are generally applied to determine whether a particular item of expenditure is of capital nature, are set out hereunder:

- (i) Whether it brings into existence an asset or advantage of enduring benefit. The question whether a particular benefit is of an enduring or permanent nature will depend upon the facts and circumstances of each case, the concept of permanency being relative.
- (ii) Whether it is referable to fixed capital or fixed assets in contrast to circulating capital or current assets.
- (iii) Whether it relates to the basic framework of the assessee's business.
- (iv) Whether it is an expenditure to acquire an intangible asset.

30.3 The above factors are not exhaustive and the tax auditor is required to verify the expenditure based on facts of the case after considering the applicable provisions of the Act.

30.4 The nature of receipt in the hands of the recipient is not a determining factor to decide the nature of payment in the hands of payer. If the amount is in the nature of capital receipt in the hands of the payee, it does not necessarily imply that it is a capital expenditure for the payer and vice versa. The case of the payer has to be considered independently based on the facts concerning him.

30.5 Under the Act, capital expenditure of certain types e.g., on scientific research referred to in section 35, is deductible in computing the income. Similarly depreciation at 100% is allowed in respect of certain assets as prescribed in New Appendix I of the Income-tax Rules, 1962. Ordinarily the capital expenditure should not be debited to profit and loss account. The tax auditor needs to keep in mind that the accounting standards also apply in respect of financial statements audited under section 44AB of the Act. Therefore, besides disclosing the amount of such capital expenditure debited to profit and loss account under this clause, the tax auditor should give suitable disclosure/ qualifications in para 3(a) of Form No. 3CB, depending on the facts of the case.

30.6 The details of capital expenditure, if any, debited to the profit and loss account should be maintained in a classified manner stating the amount under various heads separately. Since part of this capital expenditure may be allowable as deduction in the computation of total income, it is advisable to maintain particulars regarding the nature of expenditure, the amount of expenditure incurred, and the relevant provision under which the expenditure is admissible. However, the total amount of capital expenditure debited to the profit and loss account is to be reported under this clause in the e-filing portal.

III.272 Auditing Pronouncements

Expenditure of personal nature:

30.7 Personal expenses debited to the profit and loss account are to be specified under this sub-clause as they are not deductible in the computation of total income under section 37. It may be noted that the word “personal” is confined to and attached with the “assessee” and not necessarily to and with persons other than the assessee.

30.8 Section 143(1)(e) of the Companies Act 2013 specifically requires the auditor to inquire whether personal expenses have been charged to revenue account. In the case of a person whose accounts of the business or profession have been audited under any other law, the tax auditor will have to report in respect of personal expenses debited in the profit and loss account. In the case of a person who carries on business or profession but who is not required by or under any other law to get his accounts audited, the tax auditor will have to verify the personal expenses if debited in the expenses account while conducting the audit and verify the amount of expenses mentioned under this clause.

30.9 The tax auditor is advised to maintain the following details as part of his working papers for the purpose of reporting in the format provided in the e-filing utility:

Sl. No.	Nature and particulars of expenditure	Account head under which debited	Amount of expenditure	Remarks
1	2	3	4	5

Expenditure on advertisement in any souvenir, brochure, tract, pamphlet or the like, published by a political party:

30.10 Section 37(2B) provides that no allowance shall be made in respect of expenditure incurred by an assessee on advertisement in any souvenir, brochure, tract, pamphlet or the like published by a political party. Therefore, the expenditure of this nature should be segregated and reported under this clause.

30.11 The tax auditor may come across advertising expenditure incurred on advertising in a souvenir, brochure, tract, pamphlet or journal published by a trade union or a labour union formed by a political party. The trade union or labour union though promoted or formed by a political party may have a distinct legal entity. In that event, expenditure incurred by the assessee by way of advertisement given in the souvenir, brochure, tract, pamphlet or journal published by the trade union or the labour union is not required to be indicated against clause 21(a) in Form No. 3CD. If the trade union or labour union formed by the political party does not have a separate and distinct legal entity, then the expenditure incurred on such an advertisement will have to be indicated against this clause.

30.12 The auditor may also keep in mind the provisions of section 80GGB and 80GGC which allow deduction in respect of contribution made by corporate and non-corporate assesseees

respectively to political parties and electoral trust, as required to be reported by him in clause 33 of Form no. 3CD.

Expenditure incurred at clubs being cost for club services and facilities used, entrance fees and subscriptions:

30.13 The amount of payments made to clubs by the assessee during the year being cost for club services and facilities used should be indicated under this clause. The payments may be for entrance fees as well as membership subscription and for catering and other services by the club, both in respect of directors and other employees in case of companies and for partners or proprietors in other cases. The fact whether such expenses are incurred in the course of business or whether they are of personal nature should be ascertained. If they are personal in nature, they are to be shown separately under Clause 21(a) referred to earlier.

30.14 Details of payments made to clubs are also required by tax authorities for the purpose of determining whether any portion of club expenses could be treated as perquisite in the hands of the person concerned. All payments made to credit card agencies should be carefully scrutinised. Credit card agency is nothing but credit/collecting agency. In order to determine whether the payments have been made to a club, one has to look into the substantive activity of the institution concerned.

30.15 This clause requires reporting of particulars and the amount of such expenses incurred in the respective fields. However, the following particulars may be maintained as working papers by the auditor for the purpose of reporting in the format provided in the e-filing utility:

Sr. No.	Name of the Club	Nature of Amount paid			Remarks
		Entrance/admission Fees	Subscription expenses	Cost of Club Services and facilities used	
(1)	(2)	(3)	(4)	(5)	(6)

Expenditure by way of penalty or fine for violation of any law for the time being in force; Expenditure by way of penalty or fine not covered above; Expenditure incurred for any other purpose which is an offence or is prohibited by law:

30.16 This clause requires separate reporting of penalty or fine for violation of any law for the time being in force, and any other penalty or fine. The tax auditor should obtain in writing from the assessee the details of all payments by way of penalty or fine for violation of any laws have been made and paid or incurred during the relevant previous year and how such amounts have been dealt with in the books of accounts produced for audit.

30.17 The tax auditor may not be an expert to decide the nature of payment (as to whether it is prohibited by law or not) and may not be aware of the intricacies of all the laws of the land. He can rely on the expert opinion. It must be borne in mind that the tax auditor while reporting

III.274 Auditing Pronouncements

under this clause is not required to express any opinion as to the allowability or otherwise of the amount of penalty or fine for violation of law. He is only required to give the details of such items as have been charged in the books of accounts. This clause covers only penalty or fine for violation of law and not the payment for contractual breach or liquidator damages. The tax auditor should keep in mind the difference between the amount prohibited by law and the amount paid which is compulsory in nature under the relevant statute. While stating the particulars under this clause, the tax auditor should also take into consideration the concept of materiality.

30.18 In order to ascertain the facts whether the sum debited in the profit and loss account is by way of penalty or fine for any violation of law, the tax auditor will have to refer to the relevant law under which the amount has been paid or incurred and ascertain whether such amount is in the nature of penalty or fine. He should also ascertain all the facts by having recourse to the order of the jurisdictional authority which has levied the penalty or fine. Even if the assessee is contesting against such order before higher authorities, the same will not be relevant and the mere point for ascertaining is whether such sum is debited to the profit and loss account and if yes, the same has to be disclosed.

30.19 The courts have laid down that any penalty or fine for violation of law is not admissible as expenditure. It is in this context the requirement stipulated by clause 21(a) is to be answered.

30.20 The following Explanation to section 37(1) of the Act has been inserted by Finance Act (No.2) Act, 1998 with effect from assessment year 1962-63.

"For the removal of doubts, it is hereby declared that any expenditure incurred by an assessee for any purpose which is offence or which is prohibited by law shall not be deemed to have been incurred for the purpose of business or profession and no deduction or allowance shall be made in respect of such expenditure".

30.21 Under this sub-clause, any expenditure incurred by an assessee for any purpose which is an offence or which is prohibited by law is to be stated.

30.22 Any expenditure in consequence of violation of law like penalty or fine levied for evading provisions of the Act, FEMA, Excise and Customs law etc., cannot be claimed as deduction under the Act. A penalty imposed for violation of any law during the course of trade cannot be described as a commercial loss. Even if the need for making payments has arisen out of trading operations, the payments are not wholly and exclusively for the purpose of the trade. Violation of law is not a normal incidence of business. This principle was laid down by Hon'ble Supreme Court in case of *CIT v. Maddi Venkataratnam & Co. (P) Ltd [1998] 96 Taxman 643* and in the case of *Hazi Aziz Shekoo Bros v. CIT [1961] 41 ITR 350*. In both the cases it was held that one can carry business or his trade without violating the law.

30.23 In *Prakash Cotton Mills (P) Ltd. v CIT [1993] 201 ITR 684 (SC)* it has been held that whenever any statutory impost paid by an assessee by way of damages or penalty or interest

is claimed as an allowable expenditure under section 37(1) of the Act, the assessing authority is required to examine the scheme of the provisions of the relevant statute providing for payment of such impost notwithstanding the nomenclature of the impost as given by the statute, to find whether it is compensatory or penal in nature.

30.24 The authority has to allow deduction under section 37(1) wherever such examination reveals the concerned impost to be purely compensatory in nature. Wherever such impost is found to be of a composite nature, that is, partly of compensatory nature and partly of penal nature, the authority would have to bifurcate the two components of the impost and give deduction of that component which is compensatory in nature and refuse to give deduction of that component which is penal in nature. The above principle was reiterated in the case of *Swadeshi Cotton Mills (1998) 233 ITR 199*.

30.25 Further, in *CIT v Ahmedabad Cotton Mfg. Co. Ltd. [1993] 205 ITR 163(SC)*, the Supreme Court held that what needs to be done by an Assessing Authority under the Act, in examining the claim of an assessee that the payment made by such assessee was a deductible expenditure under section 37 although called a penalty, is to see whether the law or scheme under which the amount was paid, required such payment to be made, as penalty or as something akin to penalty, that is, imposed by way of punishment for breach for infraction of the law or the statutory scheme. If the amount so paid is found to be not a penalty or something akin to penalty due to the fact that the amount paid by the assessee was in exercise of the option conferred upon him under the levy, law or scheme concerned, then one has to regard such payment as business expenditure of the assessee, allowable under section 37 as incidental to business laid out and expended wholly and exclusively for the purposes of the business.

30.26 In case of *Malwa Vanaspati & Chemical Co. v. CIT [1997] 225 ITR 383(SC)*, it was held that where the assessee is required to pay an amount comprising both the elements of compensation and penalty, the compensation is allowable as business expenditure, but not the penalty.

30.27 Where the penalty or fine is in the nature of penalty or fine only, the entire amount thereof will have to be stated. As discussed above, with reference to certain penalty/penal interest courts have held that it is partially compensatory payment and partially in the nature of penalty. In such a case, on the basis of appropriate criteria, the amount charged will have to be bifurcated and only the amount relating to penalty may be stated.

31. Clause 21(b) - amounts inadmissible under section 40(a)

31.1 This clause is substantially expanded to furnish detailed information for deduction and deposit of TDS. Section 40(a) specifies certain amounts which shall not be deducted in computing the income chargeable under the head "Profits and gains of business or profession". The relevant provisions for A.Y. 2014-15 are as under:

- (i) **Non-Resident Payments:** Any interest, royalty, fees for technical services or other sum

III.276 Auditing Pronouncements

chargeable under the Income-tax Act which is payable outside India or in India to a non-resident or a foreign company on which tax is deductible at source under Chapter XVII-B and such tax has not been deducted or after deduction has not been paid during the previous year or in the subsequent year before the expiry of the time prescribed under sub section (1) of section 200.

Provided that where in respect of any such sum, tax has been deducted in any subsequent year or, has been deducted in the previous year but paid in any subsequent year after the expiry of the time prescribed under sub-section (1) of section 200, such sum shall be allowed as a deduction in computing the income of the previous year in which such tax has been paid.

Finance Act, 2014 has amended section 40(a)(i) to provide that if the tax deducted is paid during the previous year or in the subsequent year before the expiry of time prescribed for filling the tax return u/s. 139(1), the same shall be allowed as deduction in the previous year in which the tax is deducted.

- (ii) **Resident Payments:** Any interest, commission or brokerage, rent, royalty, fees for professional services or fees for technical services payable to a resident or amounts payable to a contractor or sub-contractor, being resident, for carrying out any work (including supply or labour for carrying out any work) on which tax is deductible at source under chapter XVII-B and such tax has not been deducted or after deduction has not been paid on or before the due date specified in section 139(1).

As per first proviso to Section 40(a)(ia), where tax is deducted in any subsequent year, or has been deducted during the previous year but paid after the due date specified in section 139(1), the expenditure is allowable as a deduction in the year in which such tax has been paid. The Finance Act 2012, inserted second proviso in section 40(a)(ia) with effect from 01-04-2013 (A.Y.2013-14) as a consequence to amendment in Section 201. The second proviso provides that where an assessee fails to deduct the whole or any part of the tax in accordance with the provisions of Chapter XVII-B on any such sum but is not deemed to be an assessee in default under the first proviso to sub-section (1) of section 201, then, for the purpose of clause (ia) of section 40(a), it shall be deemed that the assessee has deducted and paid the tax on such sum on the date of furnishing of return of income by the resident payee referred to in the said proviso.

- (iii) Any sum paid on account of wealth tax.
- (iv) The Finance Act, 2013 inserted a sub-clause (iib) in section 40(a) with effect from A.Y. 2014-15. Accordingly, any amount paid by way of a Royalty, License Fees, Service Fees, Privilege Fees, Service Charges or any other fees or charge by whatever name called, which is levied exclusively on or which is appropriated directly or indirectly from a State Government undertaking by the State Government shall not be allowed as a deduction from the income under the head "profit and gains from business or profession".

- (v) Any payment which is chargeable under the head “salaries”, if it is payable outside India or to a non-resident and if the tax has not been paid thereon nor deducted therefrom under Chapter XVII-B.
- (vi) Any payment to a provident or other fund established for the benefit of employees of the assessee, unless the assessee has made effective arrangement to secure that tax shall be deducted at source from any payment made from the fund which are chargeable to tax under the had “Salaries”.
- (vii) Any tax actually paid by an employer referred to in clause (10CC) of section 10.

31.2 The Finance (No.2) Act, 2014 has amended the provisions of section 40(a)(ia) w.e.f. AY 2015-16 to disallow only 30% of any sum payable to a resident on which tax is deductible at source under Chapter XVII-B and such tax has not been deducted or after deduction has not been paid on or before the due date specified under section 139(1). The first proviso to section 40(a)(ia) has also been amended to provide that where any sum on which tax has been deducted in any subsequent year, or has been deducted during the previous year but paid after the due date specified in sub-section (1) of section 139, thirty percent of such sum shall be allowed as a deduction in computing the income of the previous year in which such tax has been paid.

31.3 In respect of item (i) and (vi) above, the tax auditor should obtain in writing from the assessee the details of all payments debited to the profit and loss account. Where an actual remittance overseas has been made by the assessee during the relevant previous year without deducting any tax at source, the tax auditor may rely upon the legal opinion and/or certificates from chartered accountants based upon which remittances have been made without deduction of tax at source.. The tax auditor may refer SA 620, *Using the work of an auditor's expert* issued by ICAI for reliance on certificates / legal opinion. In this connection the tax auditor is advised to refer the applicable Double Taxation Avoidance Agreement (DTAA). Where no remittances have been made during the relevant year, the tax auditor may examine the relevant provisions vis-à-vis the agreement or correspondence in pursuant to which the liability is provided by the assessee in his books of account in order to determine whether any amount so provided is at all chargeable to tax under the Act. The tax auditor may use his professional judgement in these matters based upon decided cases and he may rely upon a legal opinion obtained by the assessee where no tax is required to be deducted in respect of the amount so provided. In case he disagrees with the stand taken by the assessee, he should give both the views in his report.

31.4 Under clause 21(b)(i)(A), the auditor is required to report payments to non residents on which tax is required to be deducted but not deducted in respect of interest, royalty, fees for technical services and other such chargeable amount under the Income tax Act. The Auditor is advised to give details under this clause for each individual payee.

31.5 Similarly under clause 21(b)(i)(B), the auditor is required to report payments on which tax is deducted but is not deposited within the time prescribed during the previous year or in

III.278 Auditing Pronouncements

subsequent year. Such details are also required to be given for each individual payee prescribed under Section 40(a)(i).

31.6 Under this sub-clause the tax auditor is required to report the details of payment on which tax is not deducted at source and also the details of payment on which tax has been deducted but not paid during the previous year or in the subsequent year before the expiry of time prescribed under section 200(1)/139(1). The tax auditor should maintain the following data in his working papers for the purpose of reporting under this sub-clause:

(a) Details of payment on which tax was not deducted:

Sr. No	Date of payment	Amount of payment	Nature of payment	Name and address of the payee	PAN of the payee, if available
1	2	3	4	5	6

(b) Details of payment on which tax has been deducted but has not been paid during the previous year or in the subsequent year before the expiry of time prescribed under section 200(1)/139(1):

Sr. No.	Date of payment	Amount of payment	Nature of payment	Name and address of the payee	PAN of the payee, if available	Amount of tax deducted
1	2	3	4	5	6	7

31.7 With the introduction of clause (ia) in section 40(a), the scope of disallowance of the expenditure has been widened to include interest, commission, brokerage, rent, royalty, fees for professional services or fees for technical services payable to a resident or amounts payable to a contractor or subcontractor, being resident for carrying out any work including supply of labour for carrying out any work. Under this sub-clause any payment of the expenses, specified therein on which tax is deductible under Chapter XVIIIB and such tax has not been deducted or after deduction has not been paid on or before the date of filing of return specified under section 139(1), is not eligible for deduction while computing income chargeable under the head "profits and gains of business or profession". Accordingly, such amount will be inadmissible and will be required to be disclosed under this clause. For this purpose the tax auditor will be required to examine whether the provisions relating to tax deduction at source have been complied with in respect of payments specified under the clause. For this purpose the tax auditor may examine the books of accounts and tax deduction returns pertaining to these payments.

31.8 Where the auditee claims deduction under the second proviso to sub-section (ia) it is deemed that he has deducted and paid the tax and hence such sum on which tax is so deemed to be deducted and paid is not inadmissible, the tax auditor should verify compliance with the requirements of section 201. He should also obtain and keep in his record a copy of certificate in Form 26A as required by section 201 read with section 40(a)(ia).

31.9 Under clause 21(b)(ii)(A), auditor is required to report payments to residents on which tax is required to be deducted but not deducted in respect of interest, royalty, fees for technical services and other such chargeable under Chapter XVII-B of the Income Tax Act. The auditor is advised to give details under this clause for each individual payee.

31.10 Similarly under clause 21(b)(ii)(B), auditor is required to report payments on which tax is deducted but is not deposited within the time prescribed during the previous year or in subsequent year. Such details are also required to be given for each individual payee prescribed under section 40(a)(ia).

31.11 Tax auditor should also verify that the particulars given under this clause do not differ from the particulars given under clause 34 of Form no. 3CD to the extent applicable. Under this sub-clause, the tax auditor is required to report the details of payment on which tax is not deducted at source and also the details of payment on which tax has been deducted but not paid on or before the due date specified in section 139(1). The tax auditor should maintain the following data in his working papers for the purpose of reporting under this sub-clause:

(a) Details of payment on which tax was not deducted:

Sr. No	Date of payment	Amount of payment	Nature of payment	Name and address of the payee	PAN of the payee, if available
1	2	3	4	5	6

(b) Details of payment on which tax has been deducted but has not been paid on or before the due date specified under section 139(1):

Sr. No.	Date of payment	Amount of payment	Nature of payment	Name and address of the payee	PAN of the payee, if available	Amount of tax deducted	Amount out of (5) deposited, if any
1	2	3	4	5	6	7	8

31.12 The Item no. (iii) of clause 21(b) requires reporting of any sum paid on account of fringe benefit tax under Chapter XIIH, wherever applicable. Since Fringe benefit tax was abolished by the Finance (No.2) Act, 2009 with effect from 1-04-2009, the tax auditor will be required to furnish information under this item only if the audit report relates to an assessment year to which the provisions of chapter XII H were applicable. For all other cases, the tax auditor may report "NIL" or "Not Applicable" as per the requirement of the format of e-filing utility. The provision relating to Fringe Benefit Tax (FBT) has been omitted from A.Y. 2010-11. If any such tax is paid during the year, the same is not allowed as deduction u/s. 40(a)(i)(c). The auditor is required to report such amount of tax paid under clause 21(b)(iii), if any liability has been incurred due to any order of any authority up to AY 2010-11 .

III.280 Auditing Pronouncements

31.13 The amount of Wealth Tax paid is not allowed as a deduction u/s. 40(a)(iia) and thus is required to be reported under clause 21(b)(iv).

31.14 Finance Act, 2013 inserted new sub clause 40(a)(iib) w.e.f. A.Y. 2014-15 to provide that (a) any amount paid by way of a royalty, license fees, service fees, privilege fees, service charge or any other fees or charge by whatever name called, which is levied exclusively on; or (b) which is appropriated, directly or indirectly from, a State Government undertaking by the State Government is inadmissible expenditure. The explanation to this sub clause (iib) also defines a State Government undertaking. The Tax auditor should verify any such payment made by State Government undertaking to the State Government and should report under clause 21(b)(v).

31.15 The amount of salary which is paid outside India or to a non-resident in respect of which tax has not been deducted but which is required to be deducted under the applicable provisions of the Income Tax Act or tax has not been paid after deduction, the same is not allowed as a deduction u/s. 40(a)(iii) and the same is required to be reported under clause 21(b)(vi). This information is required to be given for each individual payee. The tax auditor should also furnish the date of payment along with the name and address of the payee. The tax auditor should maintain the following information in his working papers for the purpose of reporting in the format provided in the e-filing utility:

Sr No.	Date of payment	Amount of payment	Name of payee	PAN of the payee, if available	Address
1	2	3	4	5	6

31.16 Section 40(a)(iv) provides that any payment to a provident or other fund established for the benefit of employees of the assessee shall be disallowed, unless the assessee has made effective arrangements to secure that tax shall be deducted at source from any payments made from the fund which are chargeable to tax under the head "Salaries". The auditor is also required to report the same under item (vii) of this sub-clause.

31.17 Any tax paid by an employer on non-monetary perquisites is exempt in the hands of the employee as per section 10(10CC). Further, as per section 40(a)(v) the tax paid by the employer on non-monetary perquisites provided to employees shall not be deductible in computing profits and gains from business or profession. The tax auditor is required to report the amount of such tax paid by the employer, in case it is debited to the profit and loss account under clause 21(b)(viii).

31.18 In case where the assessee submits that any sum debited to profit and loss account is not inadmissible under the provisions of sub-section (a) of section 40, the tax auditor may exercise his judgement in the light of the applicable laws and report accordingly about the compliance of this provision. The tax auditor may rely upon the judicial pronouncements while taking any particular view. In case of difference of opinion between the tax auditor and the

assessee, the tax auditor should state both the view points. In case of voluminous nature of the information, the tax auditor can apply materiality principles, tests checks and compliance tests for verifying the information required to be provided under this clause.

32. Clause 21(c)- Amount debited to profit and loss account being, interest, salary, bonus, commission or remuneration inadmissible under section 40(b)/40(ba) and computation thereof;

32.1 The tax auditor is required to state the inadmissible amount under section 40(b)/40(ba) and such information is also required to be given in respect of interest/ remuneration paid to a member of an Association of persons (AOP)/Body of individuals (BOI). By Finance Act (No.2) 2009, w.e.f. 1.4.2010, the term firm includes LLP (as registered under the provisions of LLP Act, 2008) The word "inadmissible" implies that the tax auditor will have to examine the facts, apply the conditions for allowance or disallowance and accordingly determine the prima facie inadmissibility of the deduction and also quantify the same.

32.2 Salary, bonus, commission or remuneration or interest are not admissible, unless the following conditions are satisfied:

- (a) Remuneration is paid to working partner(s).
- (b) Remuneration or interest is authorised by the partnership deed and is in accordance with the partnership deed.
- (c) Remuneration or interest does not pertain to a period prior to the date of partnership deed.

32.3 The inadmissible remuneration, salary, bonus or commission under section 40(b) has to be determined on the basis of the provisions of sub-clause (v) thereof read with the limits laid down therein. Such limits are laid down as a percentage of book profits. Explanation 3 to section 40(b) provides that "book profits" means the net profit, as shown in the profit and loss account for the relevant previous year, computed in the manner laid down in Chapter IV-D as increased by the aggregate amount of the remuneration paid or payable to all the partners of the firm if such amount has been deducted while computing the net profit. The inadmissible amount of salary, bonus, commission or remuneration is to be worked out after deducting interest allowable to partners as per the provisions of section 40(b). According to Explanation 4, "working partner" means an individual who is actively engaged in conducting the affairs of the business or profession of the firm of which he is a partner. It is advisable for the auditor to obtain from the assessee a detailed working of the inadmissible remuneration, salary, bonus or commission under section 40(b). He has to verify the computation from the instrument or agreement or any other document evidencing partnership including any supplementary documents or other documents effecting changes which would affect the computation of the inadmissible amounts under section 40(b).

32.4 Under section 40(b)(iv), any payment of interest to any partner which is authorised by, and is in accordance with, the terms of the partnership deed and relates to any period falling

III.282 Auditing Pronouncements

after the date of such partnership deed in so far as such amount exceeds the amount calculated at the rate specified under the Income-tax Act from time to time will not be admissible as a deduction.

32.5 Section 40(ba) lays down that any interest or remuneration paid by an AOP to its member shall not be allowed as a deduction to the AOP. It may also be noted that in computing such disallowance:

- (a) where interest is paid by AOP / BOI to a member who has also paid interest to AOP/ BOI, only net amount of interest, if any, shall be disallowed;
- (b) where a member is in a representative capacity, the disallowance of net interest paid by AOP/BOI shall be the amount of net interest received by the member in a representative capacity or by the person who is so represented by the member;
- (c) where a person who is a member in his individual capacity receives the interest for the benefit of or on behalf of any other person, then, interest so paid by AOP/ BOI shall not be disallowed;

32.6 In order to determine the amounts inadmissible under section 40(b), the tax auditor should obtain the computation of total income from the assessee.

32.7 In working out the inadmissible amount the tax auditor must have due regard to the Circular No.739 dated 25.3.1996 issued by the Board reproduced in **Appendix XI (Page no. 269)**.

32.8 The tax auditor should maintain the information in the following format as a part of his working papers and report appropriately in the format provided in the e-filing utility:

Sr. No.	Nature of payments made to partner/member	Section 40(b)/40 (ba)	Amount debited to profit and loss account	Amount admissible u/s 40(b)/ 40(ba)	Amount inadmissible u/s 40(b)/ 40(ba) [difference between (c) and (d)]	Remarks, if any
(a)	(b)	(c)	(d)	(e)	(f)	(g)

32.9 The tax auditor may note that the information required to be reported is the amount of inadmissible expenditure as per section 40(b) or 40(ba) and not the total amount debited to profit and loss account.

33. Clause 21(d) – Disallowance/deemed income under section 40A(3):

(A) On the basis of the examination of books of account and other relevant documents/evidence, whether the expenditure covered under section 40A(3) read with rule 6DD were made by account payee cheque drawn on a bank or account payee bank draft. If not, please furnish the details:

Serial Number	Date of Payment	Nature of Payment	Amount	Name and Permanent Account Number of the payee, if available

(B) On the basis of the examination of books of account and other relevant documents/evidence, whether the payment referred to in section 40A(3A) read with rule 6DD were made by account payee cheque drawn on a bank or account payee bank draft. If not, please furnish the details of amount deemed to be the profits and gains of business or profession under section 40A(3A);

Serial Number	Date of Payment	Nature of Payment	Amount	Name and Permanent Account Number of the payee, if available

[Clause 21(d)]

33.1 (a) As per the provisions of the sub-section (3) of section 40A where the assessee incurs any expenditure in respect of a payment or aggregate of payments made to a person in a day, otherwise than by an account payee cheque drawn on a bank or account payee bank draft, exceeding rupees twenty thousand, no deduction would be allowed in respect of such expenditure. In case of payment made for plying, hiring or leasing of goods carriage, limit is Rs.35,000/- instead of Rs.20,000/-.

(b) Further, as per the provisions of section 40A(3A) where any allowance has been made in the assessment for any year in respect of any liability incurred by the assessee for any expenditure and subsequently during the previous year the assessee makes payment in respect thereof, otherwise than an account payee cheque drawn on a bank or account payee bank draft exceeding Rs.20,000, the payment so made shall be deemed to be the profits and gains of business or profession and accordingly chargeable to income tax with respect to that previous year. In case of payment made for plying, hiring or leasing of goods carriage, limit is Rs.35,000/- instead of Rs.20,000/-.

(c) Further, no disallowance would be made if the payment or aggregate of payments, exceeding Rs. 20,000 (Rs. 35000 in case of plying, hiring or leasing of goods carriage) is made to a person in a day otherwise than by an account payee cheque drawn on a bank or account payee bank draft in respect of cases and circumstances prescribed under Rule 6DD having regard to the nature and extent of banking facilities available, considerations of business expediency and other relevant factors. Notification No.97/2008 dated 10.10.2008 has amended Rule 6DD w.e.f. A.Y. 2008-09

III.284 Auditing Pronouncements

33.2 For the purpose of furnishing the above particulars, the tax auditor should obtain a list of all cash payments in respect of expenditure exceeding Rs.20,000 (Rs.35000/- in case of plying, hiring or leasing goods carriages w.e.f. 1.10.2009) made by the assessee during the relevant year which should include the list of payments exempted in terms of Rule 6DD with reasons. This list should be verified by the tax auditor with the books of account in order to ascertain whether the conditions for specific exemption granted under clauses (a) to (l) of Rule 6DD are satisfied. Details of payments which do not satisfy the above conditions should be stated under this clause.

33.3 The tax auditor has to take into account the technological advancements in the field of banking and information technology where payments have been taken other than through an account payee cheque or bank draft. Rule 6DD of the Rule specifically exempts the cases where the payment is made by any letter of credit arrangements through a bank; a mail or telegraphic transfer through a bank; a book adjustment from any account in a bank to any other account in that or any other bank; a bill of exchange made payable only to a bank; the use of electronic clearing system through a bank account; a credit card; a debit card. 33.4 Practically, it may not be possible to verify each payment, reflected in the bank statement, as to whether the payment has been made through account payee cheque, demand draft, pay order or not, it is thus desirable that the tax auditor should obtain suitable certificate from the assessee to the effect that the payments for expenditure referred to in section 40A(3) and section 40A(3A) were made by account payee cheque drawn on a bank or account payee bank draft, as the case may be. Where the reporting has been done on the basis of the certificate of the assessee, the fact shall be reported as an observation in clause (3) of Form No. 3CA and clause (5) of Form No.3CB, as the case may be.

33.4 The tax auditor should maintain the following particulars in his audit working papers file for the purpose of reporting in the format provided in the e-filing utility:

Sl. No.	Nature and particulars of expenditure	Date of payment	Payment or aggregate payments made to a person in a day, otherwise than by an account payee cheque drawn on a bank or account payee bank draft	Total amount of expenditure	Name and Permanent Account number of the payee, if available	Remarks
1	2	3	4	5	6	7

33.5 Wherever possible individual items of inadmissible expenses may be given. However, where, in view of the large volume of transactions it is not possible to give individual items of inadmissible amounts, the tax auditor may furnish such details under broad heads of accounts.

33.6 Items of expenditure in respect of which specific exemption has been given under Clauses (a) to (l) of Rule 6DD are not required to be stated under this clause.

34. Clause 21(e) - provision for payment of gratuity not allowable under section 40A(7);

34.1 As per section 40A(7), the deduction shall be allowed in relation to any provision made by the assessee for the purpose of payment of a sum by way of any contribution towards an approved gratuity fund, or for the purpose of payment of any gratuity, that has become payable during the previous year.

34.2 The tax auditor should call for the order of the Commissioner of Income-tax granting approval to the gratuity fund, verify the date from which it is effective and also verify whether the provision has been made as provided in the trust deed.

34.3 In case the provision made for payment of gratuity is not allowable under section 40A(7), the same is to be stated under this sub-clause.

35. Clause 21(f) - any sum paid by the assessee as an employer not allowable under section 40A(9);

35.1 Under section 40A(9) any payment made by an employer towards the setting up or formation of or as contribution to any fund, trust, company, association of persons, body of individuals, society registered under the Societies Registration Act, 1860, or other institutions (other than contributions to recognised provident fund or approved superannuation fund or notified pension scheme or approved gratuity fund) is not allowable. The tax auditor should furnish the details of payments which are not allowable under this section.

35.2 It may be noted that section 40A(9) allows deduction of any contributions made as an employer towards recognized provident fund or approved superannuation fund or notified pension scheme or approved gratuity fund or as required by or under any other law for the time being in force. Thus, any contribution made to Employees' Welfare Co-op Society will not be allowed as a deduction in the case of the employer company under section 40A(9), unless such contribution is required by or under any other law for the time being in force. *Instruction: No. 1799, dated 3-10-1988.*

36. Clause 21(g) - particulars of any liability of a contingent nature:

36.1 The assessee is required to furnish particulars of any liability of a contingent nature debited to the profit and loss account. The tax auditor may not be able to immediately ascertain the details of contingent liabilities debited to the profit and loss account without a detailed scrutiny of various account heads e.g. outstanding liabilities, provision etc.

III.286 Auditing Pronouncements

Accounting policy followed and disclosed would be helpful in ascertaining and verifying details. The expenses relating to disputed claims will be revealed only on the basis of the scrutiny of records relating to contingent liabilities. The tax auditor may look into particular items of contingent liabilities of the earlier year in order to determine whether or not any items has been charged to the profit and loss account of the current year and if so, whether the liability continues to be contingent in nature. Wherever necessary, a suitable note should be given by the tax auditor as to the non-availability of such particulars relating to the contingent liabilities.

36.2 Reference may be made to AS-29, 'Provisions, Contingent Liabilities and Contingent Assets' to determine what should normally be treated as a contingent liability.

36.3 The tax auditor should maintain the following information in his working papers for the purpose of reporting in the format provided in the e-filing utility

Nature of liability	Amount
1	2

37. Clause 21(h) - Amount of deduction inadmissible in terms of section 14A in respect of the expenditure incurred in relation to income which does not form part of the total income;

37.1 Section 14A was inserted in Chapter IV – Computation of total income by the Finance Act, 2001 with retrospective effect from 1.4.1962 i.e. A.Y. 1962-63. Accordingly, for the purposes of computing the total income under Chapter IV of the Act, no deduction shall be allowed in respect of expenditure incurred by the assessee in relation to income which does not form part of the total income under the Act. The Finance Act, 2002 added a proviso to section 14A to the effect that nothing contained in the section shall empower the Assessing Officer either to reassess under section 147 or pass an order enhancing the assessment or reducing a refund already made or otherwise increasing the liability of the assessee under section 154, for any assessment year beginning on or before the first day of April, 2001.

37.2 As per sub-section (2), the Assessing Officer shall determine the amount of expenditure incurred in relation to such income, which does not form part of the total income under the Act. Such determination should be in accordance with the method as may be prescribed. Such power of the Assessing Officer can be exercised only when he, having regard to the accounts of the assessee, is not satisfied with the correctness of the claim of the assessee.

37.3 Sub-section (3) provides that the provisions of subsection (2) shall also apply in relation to a case where an assessee claims that no expenditure has been incurred by him in relation to income which does not form part of the total income under this Act.

37.4 The expenditure which is relatable to the income which does not form part of the total income is not allowed as a deduction in terms of section 14A of the Act. Such income are dealt with in Part III- Incomes Which Do Not Form Part Of Total Income. Section 10 deals with

Incomes not included in total income. Sections 10A to 10C deals with the special provisions in respect of the specified undertakings. In general, an assessee may have besides his business income, income from agriculture which is exempt under sub-section (1), share of profit in a partnership firm which is exempt under sub-section (2A), income from dividends referred to in section 115-O which is exempt under sub-section (34), long term capital gains on the transfer of equity shares which is exempt under sub-section (38) etc. In all such cases, the expenditure relating to the income which is not included in total income is inadmissible under section 14A. In case of an investment in a partnership firm, while the interest and the salary received by the partner are taxable, the share of profit is exempt. The amount of inadmissible expenditure depends on the facts and circumstances of each case.

37.5 The Central Board of Direct Taxes, had through Income-tax (Fifth Amendment) Rules, 2008 inserted a new Rule 8D which lays down the method for determining the amount of expenditure in relation to income not includible in total income. Sub-rule (1) of Rule 8D provides that having regard to the accounts of the assessee of a previous year, if the Assessing Officer is not satisfied with the correctness of the claim of expenditure made by the assessee or with the claim made by the assessee that no expenditure has been incurred, in relation to income which does not form part of the total income under the Act for such previous year, he shall determine the amount of such inadmissible expenditure in accordance with the method of computation laid down in sub-rule (2) of Rule 8D.

37.6 Sub-rule (2) of Rule 8D provides for the method of computation of the expenditure in relation to income not forming part of the total income. The disallowance shall be the aggregate of the following:

- (i) the amount of expenditure directly relating to income which does not form part of total income;
- (ii) in a case where the assessee has incurred expenditure by way of interest during the previous year which is not directly attributable to any particular income or receipt, an amount computed in accordance with the following formula, namely :

$$A \times \frac{B}{C}$$

Where A = amount of expenditure by way of interest other than the amount of interest included in clause (i) incurred during the previous year;

B = the average of value of investment, income from which does not or shall not form part of the total income, as appearing in the balance sheet of the assessee, on the first day and the last day of the previous year;

C = the average of total assets as appearing in the balance sheet of the assessee, on the first day and the last day of the previous year.

III.288 Auditing Pronouncements

- (iii) an amount equal to one-half per cent of the average of the value of investment, income from which does not or shall not form part of the total income, as appearing in the balance sheet of the assessee, on the first day and the last day of the previous year.

“Total Assets” for the purpose of Rule 8D shall mean, total assets as appearing in the balance sheet excluding the increase on account of revaluation of assets but including the decrease on account of revaluation of assets.

37.7 The method prescribed under sub-rule (2) of Rule 8D is applicable when the Assessing Officer is not satisfied with the correctness of the claim of expenditure made by the assessee or with the claim made by the assessee that no expenditure has been incurred. Normally this situation would arise at the time of assessment i.e. after the tax audit has been completed and the return has been filed. Therefore, at the time of tax audit the tax auditor will have to verify the amount of inadmissible expenditure as determined by the assessee. The method under sub-rule (2) of Rule 8D is to be adopted by the Assessing Officer when he is not satisfied with the amount as determined by the assessee. Rule 8D does not mandate that the assessee should necessarily compute the disallowance as per the method prescribed under sub rule (2). Therefore, the assessee may or may not adopt the same.

37.8 It is primarily the responsibility of the assessee to furnish the details of amount of deduction inadmissible in terms of section 14A i.e. in respect of the expenditure incurred in relation to income, which does not form part of the total income. The tax auditor shall examine the details of amount of inadmissible expenditure as furnished by the assessee. While carrying out such examination the tax auditor is entitled to rely on the management representation. However, Standard on Auditing (SA) 580, *Written representations* may be referred to.

37.9 The tax auditor will verify the amount of inadmissible expenditure as estimated by the assessee with reference to established principles of allocation of expenditure based on logical parameters like proportion of exempt and taxable income recorded, turnover, man hours spent to earn the relevant income etc. For allocation of interest between taxable and non-taxable income, the quantum of investment, the period and the rate of interest are generally the relevant factors to be considered. This requires proper estimates to be made by the assessee. The tax auditor is required to audit such estimates. Attention is invited to Standard on Auditing - 540 “Audit of Accounting Estimates”.

37.10 An assessee may claim that no expenditure has been incurred by him in relation to income which does not form part of the total income under the Act. Even in such a case the provisions of section 14A will apply. Accordingly, the tax auditor is required to verify such contention of the assessee.

37.11 As stated before the method prescribed under sub-rule (2) of Rule 8D is to be adopted by the Assessing Officer when he is not satisfied with the correctness of claim made by the assessee. As per clause (i) of sub-rule (2) the expenditure which is directly relatable to income which does not form part of total income is inadmissible expenditure. Besides such

expenditure there may be expenditure such as interest, which is relatable to both taxable and non-taxable income which needs to be properly allocated while calculating the inadmissible amount. Interest which, can be directly attributable to any particular income or receipt chargeable to tax needs to be excluded while determining the inadmissible amount. Clause (ii) of sub-rule (2) of rule 8D deals with allocation of interest which, is not directly attributable to any particular income or receipt. However the variable A used in the formula in clause (ii) of sub- rule (2) is said to be equal to the amount of expenditure by way of interest other than the amount of interest included in clause (i) incurred during the previous year. It may be seen that what is proposed to be allocated as per clause (ii) is interest which is not directly attributable to any particular income or receipt. Therefore, variable A is the amount of expenditure by way of interest other than the amount of interest directly attributable to any non taxable income as per clause (i) and also interest which may be directly attributable to any taxable income. Interest on term loan may be an example of such interest which is generally related to taxable income and is therefore excluded.

37.12 The broad principles enunciated in para 16.3 may be kept in mind while verifying the amount of inadmissible expenditure. After verifying the amount of inadmissible expenditure, if the tax auditor:

- (a) is in agreement with the assessee, he should report the amount with suitable disclosures of material assumptions, if any.
- (b) is not in agreement with the assessee with regard to the amount of expenditure determined, he may give:

- A qualified opinion:

A qualified opinion can be given when the auditor is of the opinion that the effect of any disagreement with the assessee is not so material and pervasive as to require an adverse opinion or limitation on scope is not so material and pervasive as to require a disclaimer of opinion.

- An adverse opinion:

The auditor in rare circumstances may come across a situation where the impact of his disagreement about the computation of such inadmissible expenditure is so material and pervasive that it affects the overall opinion. In such a case the tax auditor may give an adverse opinion.

-The disclaimer of opinion:

When the assessee has neither provided the basis nor the supporting documents, for the claim of such inadmissible expenditure, then due to limitation on the scope of auditors work, the auditor can give disclaimer of opinion.

38. Clause 21(i)- amount inadmissible under the proviso to section 36(1)(iii).

III.290 Auditing Pronouncements

38.1 The provisions of section 36(1)(iii) provide that the amount of the interest paid in respect of capital borrowed for the purposes of the business or profession would be allowed as a deduction in computing the income referred to in section 28 of the Act.

38.2 The proviso thereunder (inserted by the Finance Act, 2003 w.e.f. A.Y. 2004-05) provides that any amount of the interest paid, in respect of capital borrowed for acquisition of an asset for extension of existing business or profession (whether capitalized in the books or account or not) for any period beginning from the date on which the capital was borrowed for acquisition of the asset till the date on which such asset was put to use, shall not be allowed as a deduction.

38.3 The extension of an existing business or profession is a fact based exercise and the tax auditor should apply the professional judgment in determining the applicability of the proviso. The tax auditor is also advised to verify the treatment given for such asset under other provision of the Act like Chapter VI A deductions or under other statutes.

38.4 The requirements of sub-clause (i) are applicable in respect of capital borrowed for acquisition of an asset for extension of the existing business or profession. The assessee has to furnish the details of amount inadmissible under the proviso to section 36(1)(iii). The tax auditor has to verify the correctness of the particulars furnished by the assessee with the documentary evidence.

38.5 The Tax Auditor while determining the admissible/inadmissible amount under section 36(1)(iii) should also keep in mind the requirements of Accounting Standards 16 of Indian GAAP – “Borrowing Cost”.

38.6 The Explanation provides that recurring subscription paid periodically by shareholders or subscribers in Mutual Benefit Society which fulfill such conditions as may be prescribed, shall be deemed to be capital borrowed within the meaning of section 36(1)(iii).

38.7 The Explanation becomes applicable only where the computation of the income of such mutual benefit society is to be made under section 28 read with section 44A.

39. Clause 22- Amount inadmissible under section 23 of the Micro, Small and Medium Enterprises Development Act, 2006

[Clause (22)]

39.1 This clause was inserted by the Central Board of Direct Taxes through its Notification No. 36/2009 dated 13-4-2009, in the Form No.3CD in Appendix II of the Income-tax Rules, 1962.

39.2 The tax auditor is required to state the amount of interest inadmissible under section 23 of the Micro, Small and Medium Enterprises Development Act, 2006. The Micro, Small and Medium Enterprises Development Act, 2006 (MSME Act) is an Act to provide for facilitating the promotion and development and enhancing the competitiveness of micro, small and medium enterprises and for matters connected therewith or incidental thereto.

39.3 Section 23 of the MSME Act lays down that an interest payable or paid by the buyer, under or in accordance with the provisions of this Act, shall not for the purposes of the computation of income under the Income-tax Act, 1961 be allowed as a deduction.

39.4 The inadmissible interest has to be determined on the basis of the provisions of the MSME Act. Section 16 of the MSME Act provides for the date from which and the rate at which the interest is payable. Accordingly, where a buyer fails to make payment of the amount to the supplier, as required under section 15, the buyer shall, notwithstanding anything contained in any agreement between the buyer and the supplier or any law for the time being in force, be liable to pay compound interest with monthly rests to the supplier on that amount from the appointed date or, as the case may be, from the date immediately following the date agreed upon, at three times of the bank rate notified by the Reserve Bank.

39.5 Section 15 of the MSME Act, requires the buyer to make payment on or before the date agreed upon in writing, or where there is no agreement in this behalf, before the appointed day. It also provides that the period agreed upon in writing shall not exceed forty five days from the day of acceptance or the day of deemed acceptance.

39.6 Section 22 of the MSME Act provides that where any buyer is required to get his annual accounts audited under any law for the time being in force, such buyer shall furnish the following additional information in his annual statement of accounts, namely:-

- (i) The principal amount and interest due thereon (to be shown separately) remaining unpaid to any supplier as at the end of each accounting year;
- (ii) The amount of interest paid by the buyer in terms of Section 16, along with the amount of payment made to supplier beyond the appointed date during each accounting year;
- (iii) The amount of interest due and payable for the delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under this Act;
- (iv) The amount of interest accrued and remaining unpaid at the end of each accounting year; and
- (v) The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise, for the purpose of disallowance as a deductible expenditure under section 23.

39.7 Where the tax auditor is issuing his report in Form No.3CB, he should verify that the financial statements audited by him contain the information as prescribed under section 22 of the MSME Act. If no disclosure is made by the auditee in the financial statements he should give an appropriate qualification in Form No.3CB, in addition to the reporting requirement in clause 22 of Form No. 3CD.

39.8 The tax auditor while reporting in respect of clause 22 should take the following steps:

III.292 Auditing Pronouncements

- (a) The auditor should seek information regarding status of the enterprise i.e. whether the same is covered under the Micro, Small and Medium Enterprises Development Act, 2006. Where the information is available and has been disclosed the same should be reported as such in Form No. 3CD. Where the information is not available the auditor should also mention the same in the Form No.3CD.
- (b) Since Section 22 of the Micro, Small and Medium Enterprises Development Act, 2006 requires disclosure of information, the tax auditor should cross check the disclosure made in the financial statements.
- (c) Obtain a full list of suppliers of the assessee which fall within the purview of the definition of "Supplier" under section 2(n) of the Micro, Small and Medium Enterprises Development Act, 2006. It is the responsibility of the auditee to classify and identify those suppliers who are covered by this Act.
- (d) Review the list so obtained.
- (e) Verify from the books of account whether any interest payable or paid to the buyer in terms of section 16 of the MSME Act has been debited or provided for in the books of account.
- (f) Verify the interest payable or paid as mentioned above on test check basis.
- (g) Verify the additional information provided by the auditee relating to interest under section 16 in his financial statement.
- (h) If on test check basis, the auditor is satisfied, then the amount so debited to the profit and loss account should be reported under clause 22.

39.9 Where the tax auditor, upon due verification, finds that the auditee has neither provided for nor paid any interest payable under the MSME Act, the no amount is inadmissible under section 23 of MSME Act. In such a case, appropriate reporting should be made against this clause in the format provided in the e-filing utility.

39.10 A question may come up, as to what would be disallowance, in case the auditee is liable to pay any interest under MSME Act, but he has not provided the interest in his accounts. In such a case, there can be no disallowance, as he has not claimed the same in his accounts. But whenever he pays and claim such interest, the same will be disallowable in year of payment. In case the auditee has adopted mercantile system of accounting, the non-provision may affect true and fair view and the auditor should give suitable qualification.

39.11 The relevant extracts of the MSME Act are given in **Appendix XII (Page no 271)**.

40. Particulars of payments made to persons specified under section 40A(2)(b). [Clause 23]

40.1 Section 40(A)(2) provides that expenditure for which payment has been or is to be made to certain specified persons listed in the section- Refer **Appendix XIII (Page no. 273)** may be disallowed if, in the opinion of the Assessing Officer, such expenditure is excessive or

unreasonable having regard to:

- (i) the fair market value of the goods, services or facilities for which the payment is made; or
- (ii) for the legitimate needs of business or profession of the assessee; or
- (iii) the benefit derived by or accruing to the assessee from such expenditure.

Further, proviso to section 40A(2)(a) provides that no disallowance on account of any expenditure being excessive or unreasonable having regard to the fair market value, shall be made in respect of a specified domestic transaction referred to in section 92BA, if such transaction is at arm's length price as defined in clause (ii) of section 92F.

40.2 The section enjoins on the Assessing Officer the power to fix the quantum of disallowance. Under this clause, the particulars of payments coming under this sub-section are to be stated. The following steps may be taken by the tax auditor in this connection:

- (a) Obtain full list of specified persons as contemplated in this section.
- (b) Obtain details of expenditure/payments made to the specified persons.
- (c) Scrutinise all items of expenditure/payments to the above persons.
- (d) It may be difficult to locate all such payments and it may also involve a time consuming effort. It is, however, possible to localise the area of enquiry by ascertaining the following:
 - (i) Call for all contracts or agreements entered into by the assessee and list out the contracts or agreements entered into with the specified persons and segregate the items of payments made to them under these agreements.
 - (ii) In case of payments for purchases and expenses on credit basis, the appropriate ledger accounts can be scrutinised to identify the dealings with the specified persons.
 - (iii) In case of cash purchases and expenses, the purchase or expense account should be scrutinised. It may be difficult to identify such payments in each and every case where the volume of transactions is rather huge and voluminous. Therefore, it may be necessary to restrict the scrutiny only to such payments in excess of certain monetary limits depending upon the size of the concern and the volume of business of the assessee.
 - (iv) In case of a large company, it may not be possible to verify the list of all persons covered by this section and, therefore, the information supplied by the assessee can be relied upon. In this context, a reference may be made to Circular No.143 dated 20.8.1974, issued by the Board, in which it is clarified that a tax auditor can rely upon the list of persons covered under Section 13(3) as given by the managing trustee of a Public Trust. (Refer Appendix 'B' of "A Guide to Audit of Public Trusts under the Income-tax Act" published by the Institute). Where the

III.294 Auditing Pronouncements

tax auditor relies upon the information in this regard furnished to him by the assessee it would be advisable to make an appropriate disclosure.

40.3 The tax auditor should maintain the following information in his working papers for the purpose of reporting in the format provided in the e-filing utility: :

Name of the related party	PAN of related person	Relation	Date	Payment made (Amount)
1	2	3	4	5

40.4 The Finance Act, 2012 had amended Section 40A(2)(a) to provide that the transactions referred to in Section 92BA (called Specified Domestic Transactions) with persons referred to in 40A(2)(b) shall be at Arm's Length Price. The tax auditor is advised to refer the "Guidance Note on Report under section 92E of the Income tax Act, 1961" issued by ICAI for compliance of these provisions.

41. Amounts deemed to be profits and gains under section 32AC, 33AB or 33ABA or 33AC.

[Clause 24]

41.1 Section 32AC allows deduction @ 15% in respect of Investment in new Plant & Machinery to a company who is engaged in the business of manufacture or production of any article or thing and who acquires and installs new asset after the 31st day of March,2013 but before the 1st day of April,2015 and the aggregate actual cost of such new assets exceeds one hundred crore rupees. The Finance Act, 2014 has amended section 32AC w.e.f. financial year 2014-15. The investment limit in the plant and machinery has been reduced to Rs. 25 crores from Rs. 100 crores. The auditor is required to report the deemed income chargeable as profits and gains of business under the circumstances specified in sub sections (2) of section 32AC. Only because section 32AC(2) provides for chargeability of deemed income under the head "profit and gains from business or profession" in addition to taxability of capital gains, the auditor is not required to report any capital gains/losses arising on transfer on the said asset. The tax auditor will be required to verify the compliance to the conditions of the provisions of section 32AC and report the claim of deduction accordingly.

41.2 Section 33AB allows deduction in respect of Tea Development Account, Coffee Development Account and Rubber Development Account. The auditor is required to report the deemed income chargeable as profits and gains of business under the circumstances specified in sub sections [4], [5], [7] and [8] of section 33AB.

41.3 Section 33ABA allows deduction in respect of Site Restoration Fund. The auditor is required to report the deemed income chargeable as profits and gains of business under the circumstances specified in sub sections [5], [7] and [8] of section 33ABA. Where deduction has been claimed with respect to interest credited in Special Account or the Site Restoration

Account, utilization of withdrawal thereof for purposes other than those specified shall be deemed to be income from business.

41.4 Likewise, section 33AC allows deduction in respect of reserve created out of the profit of the assessee engaged in shipping business to be utilized in accordance with the provision of sub section (2) of section 33AC. The tax auditor is required to report the deemed income chargeable as profits and gains of business under the circumstances specified in sub-sections (3) and (4) of section 33AC for the amount of reserves created on or before 31st March, 2004. However, consequent to the amendment made by the Finance (No.2) Act, 2004, no deduction shall be allowed under section 33AC for any assessment year commencing on or after 1st day of April, 2005.

41.5 The tax auditor should maintain the following information in his working papers for the purpose of reporting in the format provided in the e-filing utility:

Section	Description	Amount
1	2	3

42. Any amount of profit chargeable to tax under section 41 and computation thereof.
[Clause 25]

42.1 (i) Section 41(1) provides that where any allowance or deduction has been made in the assessment for any year in respect of loss, expenditure or trading liability incurred by the assessee and subsequently during any previous year the assessee obtains any amount, whether in cash or in any other manner whatsoever, in respect of such loss or expenditure or some benefits in respect of trading liability by way of remission or cessation thereof, the amount obtained by him or the value of benefit accruing to him is chargeable to tax as business income.

(ii) Where the assessee who has suffered loss or has incurred expenditure for which deduction has been allowed or by whom the trading liability has been incurred is succeeded in his business either because of amalgamation of companies or demerger or on account of the constitution of new firm or the business if continued by some other person when the assessee ceases to carry on the business, then the successor in the business will be chargeable to tax on any amount received in respect of such loss, expenditure or trading liability.

(iii) *Explanation* (1) to section 41(1) provides that the expression "loss or expenditure or some benefit in respect of any such trading liability by way of remission or cession thereof" shall include the remission or cession of any liability by a unilateral act of the assessee or successor in the business by way of writing off such liability in his accounts.

(iv) Liability of assessee does not cease merely because liability has become barred by limitation. Liability ceases when it has become barred by limitation and the assessee has unequivocally expressed its intention not to honour the liability, when demanded. This is a question of fact whether or not assessee has expressed unequivocally his intentions {CIT Vs

III.296 Auditing Pronouncements

Chase Bright Steel Ltd 177 ITR 128 (BOM)}. When a liability is shown outstanding for more than 4 years, in case of an assessee company, this amounted to acknowledging the debt in favour of creditors for the purposes of section 18 of the Limitation Act, 1963. The assessee's liability to the creditors thus subsisted and did not cease nor was it remitted by the creditors. The liability was enforceable in the court of Law. The amount was not assessable under section 41(1). This was so held by Delhi High Court in the case of *CIT V/s Shri Vardhman Overseas Ltd(2012) 343 ITR 408(Del)*. [SLP has been dismissed by the Supreme Court against this decision.]

42.2 Section 41(2) provides for chargeability to income-tax as income of the business of the previous year in which the moneys payable for the building, machinery, plant or furniture of an undertaking engaged in generation or generation and distribution of power is sold, discarded, demolished or destroyed. Such undertakings are allowed depreciation on such percentage on the actual cost as are prescribed. The depreciation rate are prescribed vide Rule 5(IA) in Appendix IA. Depreciation is to be calculated on Straight Line Method (SLM) on individual asset and not on block of assets, under clause (i) of sub-section (1) of section 32. Where the moneys payable in respect of such building, machinery, plant or furniture, as the case may be, together with the amount of scrap value, if any, exceeds the written down value, so much of the excess as does not exceed the difference between the actual cost and the written down value shall be chargeable to income-tax as income of the business of the previous year in which the moneys payable for the building, machinery, plant or furniture become due. Where the moneys payable in respect of the building, machinery, plant or furniture become due in a previous year in which the business, for the purpose of which the building, machinery, plant or furniture was being used, is no longer in existence, the above provision shall apply as if the business is in existence in that previous year. To ascertain capital gain, if any, provisions of section 50A are relevant.

42.3 Section 41(3) provides that where any capital asset used in scientific research is sold without having been used for other purposes and the sale proceeds together with the amount of deduction allowed under section 35 exceeds the amount of capital expenditure, such surplus or the amount of deduction allowed, whichever is less, is chargeable to tax as business income in the year in which the sale took place. This is irrespective of whether the business of the assessee is in existence or not during the previous year in which the capital asset is sold.

42.4 It may be noted that section 41(3) is applicable only if an asset is sold without having been used for other purposes. In other words, if an asset which is initially purchased for the purpose of scientific research is utilised for business purposes on completion of scientific research and later on is sold or transferred, then section 41(3) is not applicable but in such case section 50 would apply.

42.5 Section 41(4) provides where any bad debt has been allowed as deduction under section 36(1) (vii) and the amount subsequently recovered on such debt is greater than the

difference between the debt and the deduction so allowed, the excess realisation is chargeable to tax as business income of the year in which debt is recovered. For this purpose, it is immaterial whether the business of the assessee is in existence or not during the previous year in which recovery is made.

42.6 Section 41(4A) provides that if any amount is withdrawn from the special reserve created under section 36(1)(viii), then it will be chargeable to tax in the year in which the amount is withdrawn, regardless of the fact whether the business is in existence in that year or not.

42.7 Section 41(5) provides that where the business or profession referred to in section 41 is no longer in existence and there is income chargeable to tax under sub-section (1), sub-section (3), sub-section (4) or sub-section (4A) in respect of that business or profession, any loss, not being a loss sustained in speculation business which arose in that business or profession during the previous year in which it ceased to exist and which could not be set off against any other income of that previous year shall, so far as may be, be set off against the income chargeable to tax under the sub-sections aforesaid. This is irrespective of the number of years that may have elapsed from the year in which the loss has been suffered.

42.8 The tax auditor should obtain a list containing all the amounts chargeable under section 41 with the accompanying evidence, correspondence, etc. He should in all relevant cases examine the past records to satisfy himself about the correctness of the information provided by the assessee. The tax auditor has to state the profit chargeable to tax under this section. This information has to be given irrespective of the fact whether the relevant amount has been credited to the profit and loss account or not. The computation of the profit chargeable under this clause is also to be stated.

42.9 The tax auditor should maintain the following in his working papers for the purpose of furnishing details required in the format provided in the e-filing utility:

Sr. No.	Name of person	Amount of income	Section	Description of transaction	Computation if any
1	2	3	4	5	6

43. In respect of any sum referred to in clause (a), (b), (c), (d), (e) or (f) of section 43B, the liability for which:-

- (A) pre-existed on the first day of the previous year but was not allowed in the assessment of any preceding previous year and was
 - (a) paid during the previous year;
 - (b) not paid during the previous year;
- (B) was incurred in the previous year and was
 - (a) paid on or before the due date for furnishing the return of income of the previous year under section 139(1);

(b) not paid on or before the aforesaid date.

(State whether sales tax, customs duty, excise duty or any other indirect tax, levy, cess, impost etc. is passed through the profit and loss account.)

[Clause 26]

43.1 In the case of an assessee maintaining its accounts on the mercantile system, the tax auditor should verify the aforesaid particulars of section 43B from the books of account for the year under audit as well as from the books of account, vouchers and documents of the immediately succeeding assessment year as well as return of income for the earlier assessment years so that the information about the aforesaid payments made in the subsequent year can be furnished.

43.2 Section 43B provides that notwithstanding anything contained in any other provisions of the Act, the following amounts shall be allowed as deduction in computing the business income of an assessee in the previous year in which such amounts are actually paid:

- (a) any tax, duty (sales tax, value added tax, service tax, excise duty, municipal/property tax, etc.), cess or fee, by whatever name called, payable by the assessee under any law for the time being in force.
- (b) any sum payable as an employer by way of contribution to any provident fund or superannuation fund or gratuity fund or any other fund for the welfare of employees.
- (c) any bonus or commission payable by the assessee to its employees for services rendered, where such sum would not have been payable to him as profits or dividend, if it had not been paid as bonus or commission.
- (d) interest on any loan or borrowing from any public financial institution, a state financial corporation or a state industrial investment corporation payable in accordance with the terms and conditions of the agreement governing such loan or borrowing.
- (e) any sum payable by the assessee as interest on any loan or advances from a scheduled bank in accordance with the terms and conditions of the agreement governing such loan or advances.
- (f) any sum payable by the assessee as an employer in lieu of any leave at the credit of his employee.

43.3 All the payments referred in clause (a) to (f) above whether pre-existed on the first day of previous year but not allowed in assessment of any preceding previous years or incurred in the previous year are to be reckoned. In respect of the liability which pre-existed on the first day of the previous year is allowable as deduction if paid during the previous year. This is required to be reported in clause 26(A)(a). In respect of the liability which is incurred in the previous year is allowable to the extent it is paid on or before the due date for furnishing the return of the income under section 139(1). Such items are to be disclosed in clause 26(B)(a).

43.4 The tax auditor, in his tax audit report, should, therefore, clearly distinguish the liability incurred during the previous year in respect of all the specified sums referred to in clauses (a) to (f) from the liability that pre-existed on the first day of the relevant previous year.

43.5 If the assessee is following the cash basis of accounting, sums referred to in clause (a), (b), (c), (d), (e) and (f) of section 43B which are debited to the profit and loss account will be allowable as they would have been actually paid during the year.

43.6 Under the first proviso to section 43B, deduction is available in respect of any sum which is actually paid by the assessee on or before the due date applicable in his case for furnishing the return of income under sub-section (1) of section 139. Since the due date of filing of the return would usually be subsequent to the signing of the tax audit report the tax auditor would be able to give information in respect of matters only upto the date of signing of the tax audit report. The payment made subsequent to that date but before the date of filing of the return, will still be eligible for deduction under section 43B. Where due date for filing of return of income is extended, payments made upto the extended due date also qualify for deduction.

43.7 The provision made in the accounts for excise duty payable on finished goods in the bonded warehouse will also have to be disclosed under this clause. For enabling the assessee to claim this amount as a deduction the tax auditor may have to verify that the said goods have been cleared and that excise duty thereon has been paid or adjusted against CENVAT credits before the due date applicable in his case for furnishing the return of income under section 139 (1).

43.8 Under section 43B(a), sales-tax when paid is allowed as a deduction. Although under clause (a) of section 43B items that have been debited to the profit and loss account but not paid during the previous year, are to be specified, where it is the practice of the company to maintain a separate sales-tax/service tax/excise duty account and treat the sales tax/excise duty collected as a liability, it would be necessary to show by way of note under this clause, the amount of sales tax/excise duty collected but not paid. In case, any sum has been paid before the due date of filing the return, the date and the amount of payment along with the amount paid should also be disclosed.

43.9 There are different legal decisions with respect to allowability of employees contribution towards PF, EPF, etc not paid within due date. Bombay High Court in the case *CIT vs Pamwi Tissues Ltd (2008)215 CTR (Bom)150* and Gujarat High Court in the case of *CIT vs. Gujarat State Road Transport Corp. (2014) 223 taxmann 398 (Guj.)* held that employees contribution not paid within the due dates prescribed in Explanation to section 36(1)(va) was disallowable under section 43B. On the other hand Delhi High Court in the following cases has held in the favour of assesseees.

CIT vs Dharmendra Sharma 297 ITR 320

CIT vs P.M. Electronics Ltd 313 ITR 161

III.300 Auditing Pronouncements

CIT vs AIMIL Ltd and others 321 ITR 508

43.10 It may be noted that emoluments in the nature of good work reward, incentives or ex-gratia are not bonus or commission as contemplated under section 36(1)(ii) but are deductible under section 37 of the Act as held by *Delhi High Court in Shri Ram Pistons and Rings Ltd. 307 ITR 363 and Autopins (India) Ltd. 192ITR161.*

43.11 The Explanations 3C and 3D to section 43B clarify that a deduction of any sum being interest payable under clause (d) and clause (e) of section 43B shall be allowed, if such interest has been actually paid and any interest referred to in that clause which has been converted into a loan or advance shall not be deemed to have been actually paid. Circular No.7/2006 dated 17th July, 2006 observes that the clarificatory Explanations only reiterate the rationale that conversion of interest into a loan or borrowing or advance does not amount to "actual payment". The circular clarifies that the unpaid interest whenever actually paid to the bank or financial institution will be in the nature of revenue expenditure deserving deduction in the computation of income. Therefore, the converted interest, by whatever name called, in the wake of its conversion into a loan or borrowing or advance, will be eligible for deduction in the computation of income of the previous year in which the converted interest is 'actually paid'. In other words, nomenclature of the sum of converted interest will make no difference as the sum of converted interest whenever is actually paid will not represent repayment of the principal. The circular clarifies that the fundamental principle remains that once an amount has been determined as interest payable to the banks or financial institutions, any subsequent change of nomenclature of interest will not affect its allowability and deduction in terms of section 43B will have to be allowed on its actual payment. The Assessing Officer would therefore be justified in seeking a certificate from the assessee to be obtained by the assessee from the lender bank or financial institution etc. as evidence of "actual payment" of interest to banks or financial institutions.

43.12 As per clause (f) sum payable by the assessee as an employer in lieu of any leave at the credit of his employees will be disallowed if not paid before the due date of filling of the return under section 139 (1).

43.13 The above particulars are required to be given irrespective of the fact whether they have been debited to profit and loss account or not and such a fact should be stated under this clause. For example, where excise, sales tax, etc. collected is accounted for as a Balance Sheet item.

43.14 In some cases the tax auditor may find amounts of the nature referred to in section 43B being credited to the profit and loss account although the relevant provisions for such liability had not been allowed as a deduction in any previous year in view of the specific provisions of section 43B requiring actual payment as a condition precedent to allowance. The amounts so credited to the profit and loss account are not chargeable to tax since the conditions referred to in section 41(1) have not been satisfied. The tax auditor should identify such items and maintain the same in his working papers.

43.15 The tax auditor should maintain the following information in his working papers for the purpose of reporting in the format provided in the e-filing utility;

S.No.	Section	Nature of liability	Amount
1	2	3	4

44. (a) **Amount of Central Value Added Tax credits availed of or utilized during the previous year and its treatment in the profit and loss account and treatment of outstanding Central Value Added Tax credits in the accounts.**
45. (b) **Particulars of income or expenditure of prior period credited or debited to the profit and loss account.**

[Clause 27 (a) and (b)]

44.1 Sub-clause (a) requires the factual reporting about the amount of CENVAT credits availed of or utilised during the year as well as its treatment in profit and loss account and treatment of outstanding CENVAT credits in the accounts. CENVAT credit Rules, 2002 were first introduced in place of MODVAT credit and thereafter, effective 10 September 2004, CENVAT Credit Rules, 2004 have now become applicable. CENVAT credit is available on eligible inputs, input services and capital goods. Such credits are utilized for the payment of the excise duty and service tax liability. Accordingly the tax auditor should check relevant statutory records maintained under the Central Excise Rules, 2002 and the records maintained under CENVAT Credit Rules, 2004 and ascertain therefrom the amount of credit on eligible inputs, input services and the capital goods and the amount utilised during the previous year. Records maintained in RG-23, wherever available should also be verified.

44.2. The tax auditor should verify that there is a proper reconciliation between balance of CENVAT credit in the accounts and relevant excise and service tax records. The tax auditor should report the amount of CENVAT availed and utilised under this sub-clause. In a given case CENVAT availed may be lesser than the CENVAT credit utilised during the year on account of opening balance in CENVAT account or vice-versa and as such it would be advisable, in order to avoid any misleading conclusion and inferences, to report the opening and closing balances of CENVAT. Further the sub-clause requires reporting of the credits availed of or utilized during the previous year, it is desirable to report both the credits availed and the credits utilized.

44.3 In so far as the reporting of accounting treatment of CENVAT credit is concerned the clause requires that its treatment in profit and loss account and the treatment of outstanding CENVAT credit in the account have to be reported upon.

44.4 Where the assessee follows exclusive method of accounting, the excise duty paid on purchase of raw material, capital goods and service tax paid on input services is debited to the CENVAT/ Service Tax Credit Receivable Account and not as part of the purchase cost of

III.302 Auditing Pronouncements

raw material, capital goods or cost of input services. The credit utilized is debited to the Excise Duty/ Service Tax Payable A/c and credited to CENVAT/ Service Tax Credit Receivable Account. Thus, the credit availed and utilized will not have any impact on the profit and loss account.

44.5 The reporting requirement under clause 14(b) of Form No.3CD is a requirement distinct and separate from the reporting requirement under this clause. The tax auditor should verify that information furnished under this sub-clause is compatible with the information furnished under clause 14(b).

44.6 The tax auditor should consider the above guidance while reporting in the format provided in the e-filing utility with respect of this clause.

44.7 With regard to reporting of the amount of CENVAT credits availed or utilized during the previous year and its treatment in the profit and loss account wherever possible, it is advisable to give the details of the credit availed and utilized as separate line items.

44.8 With regard to reporting of the treatment of outstanding CENVAT Credits in the account, it is desirable to mention the opening and the closing outstanding balances in the CENVAT Credits accounts as separate line items. The account in which the outstanding amount is appearing should also be mentioned appropriately..

44.9 The tax auditor should maintain the following information in his working papers for the purpose of reporting in the format provided in the e-filing utility:

CENVAT	Amount	Treatment in Profit & Loss /Accounts
Opening balance		
CENVAT Availed		
CENVAT utilized		
Closing/outstanding Balance		

45. Clause 27(b)

45.1 It may be noted that information under this clause would be relevant only in those cases where the assessee follows mercantile system of accounting. Under cash system of accounting, expenses debited/ income credited to the profit and loss account would be current year's expenses/income even though they may relate to earlier years. The tax auditor should obtain the particulars of expenditure or income of any earlier year debited or credited to the profit and loss account of the relevant previous year when mercantile system of accounting is followed. In the case of a person whose accounts of the business or profession have been audited under any other law, the information may be available from annual accounts. In the case of a person who carries on business or profession but who is not required by or under

any other law to get his accounts audited, however, a close scrutiny of the ledger in regard to the period for which expenditure or income is entered in the account books may be necessary.

45.2 It may be noted that there is a difference between expenditure of any earlier year debited to the profit and loss account and the expenditure relating to any earlier year, which has crystallised during the relevant year. Material adjustments necessitated by circumstances which though related to previous periods but determined in the current period, will not be considered as prior period items.

45.3 In such cases, though the expenditure may relate to the earlier year, it can be considered as arising during the year on the basis that the liability materialised or crystallised during the year and such cases will not be reported under this clause. Similar consideration will apply in relation to income also.

45.4 In AS - 5 as also in AS II notified by the Government under section 145, it has been explained that material charges (expenses) or credits (income) which arise in the current year as a result of errors or omissions in the accounts of the earlier years will be considered as prior period items. In view of this, the statutory auditor would normally take into consideration all items of prior period income and expenditure while giving his report on the financial statements. It would, therefore, be advisable for the tax auditor to ascertain the circumstances under which a particular expenditure has not been considered as a prior period expenditure. If, on making the enquiries he comes to the conclusion that a particular item has to be treated as prior period expenditure, he should disclose the same against this sub-clause.

45.5 The tax auditor should maintain the following information in his working papers file for the purpose of reporting in the format provided in the e-filing utility:

Sr. No.	Type	Particulars	Amount	Prior Period to which it relates (Year in yyyy-yy format)
1	2	3	4	5

46. Whether during the previous year the assessee has received any property, being share of a company not being a company in which the public are substantially interested, without consideration or for inadequate consideration as referred to in section 56(2)(viiia), if yes, please furnish the details of the same.

[Clause 28]

46.1 Section 56(2)(viiia) provides that where a firm or a company not being a company in which the public are substantially interested, receives, in any previous year any property being shares of a company (not being a company in which the public is substantially interested,

- (i) without consideration, the aggregate fair value of which exceeds rupees fifty thousand, the whole of the aggregate fair market value of such property

III.304 Auditing Pronouncements

- (ii) for a consideration which is less than the aggregate fair market value of the property by an amount exceeding fifty thousand rupees, the aggregate fair market value of such property as exceeds such consideration

shall be chargeable to income-tax under the head "Income from other sources"

46.2 Section 56(2)(viiia) does not apply to the property received by way of a transaction not regarded as transfer under section 47(via), 47(vic), 47(vicb), 47(vid) and 47(vii). The fair market value of shares means the value determined in accordance with the method prescribed in rule 11UA of the Income-tax Rules, 1962.

46.3 Since section 56(2)(viiia) is applicable to firms and companies in which public is not substantially interested, reporting under this clause is required only for them and not for other assessees. The auditor should obtain from the auditee, a list containing the details of shares received, if any, by him from any other company and verify the same from the books of accounts and other relevant documents. Such shares, if received will be reflected in the books of accounts either as investments or as stock in trade. In case such shares are received without consideration, the same may not be reflected in the books of accounts. Such shares may be verified from the relevant documents such as share certificates issued, if any, demat account statement etc. In either case, the same have to be reported under this clause. Attention is invited to the provisions of section 2(18) which defines the company in which public are substantially interested.

46.4 For reporting under this clause, the auditor has to consider the provisions of Rule 11UA(1)(c) which provides for manner of determining:

- (a) fair market value of quoted shares and securities received by way of transaction carried out through any recognized stock exchange
- (b) fair market value of quoted shares and securities received by way of transaction carried out OTHER THAN through any recognized stock exchange
- (c) fair market value of unquoted equity shares
- (d) fair market value of unquoted shares and securities other than equity shares in a company which are not listed in any recognized stock exchange

46.5 Where for determining the fair market value of unquoted shares and securities other than equity shares in a company which are not listed in any recognized stock exchange, a valuation report has been obtained by the assessee from a merchant banker or an accountant, the auditor should obtain a copy of the same. Here, attention is invited to the Standard on Auditing-620 "Using the work of an Auditor's expert".

46.6 The auditor should maintain the following information in his working paper file for the purpose of reporting in the format provided in the e-filing utility:-

Sr. No.	Name of the person from whom shares have been received	PAN of the person, if available	Nature of shares (Quoted in RSE/ Quoted in URSE/ unquoted shares etc)	Name of the Company whose shares received	CIN of the company	No. of Shares Received	Fair Market value as per Rule 11UA(1)(c)	Consideration paid	Amount taxable under section 56(2)(viia) (if the difference (e)-(f) exceeds Rs.50,000)	Remarks, if any
(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	(i)	(j)	(k)

47. Whether during the previous year the assessee received any consideration for issue of shares which exceeds the fair market value of the shares as referred to in section 56(2)(viib), if yes, please furnish the details of the same.

[Clause 29]

47.1 Section 56(2)(viib) provides that where a company, not being a company in which the public are substantially interested, receives, in any previous year, from any person being a resident, any consideration for issue of shares that exceeds the face value of such shares, the aggregate consideration received for such shares as exceeds the fair market value of the shares shall be chargeable to income-tax under the head "Income from other sources".

47.2 The provisions of this clause are not applicable where the consideration is received

- (a) by a venture capital undertaking from a venture capital company or a venture capital fund
- (b) by a company from a class or classes of persons as may be notified by the Central Government in this behalf.

47.3 As per the explanation to section 56(2)(viib), the fair market value shall be the value as may be determined in accordance with such method as prescribed under Rule 11UA or as may be substantiated by the company to the satisfaction of the Assessing Officer, based on the value, on the date of issue of shares, of its assets, including intangible assets being goodwill, know-how, patents, copyrights, trademarks, licences, franchises or any other business or commercial rights of similar nature, whichever is higher.

47.4 Since section 56(2)(viib) is applicable to companies in which public is not substantially interested, reporting under this clause is to be done only for corporate assesseees. The auditor should obtain from the auditee, a list containing the details of shares issued, if any, by him to any person being a resident and verify the same from the books of accounts and other relevant documents. Attention is invited to the provisions of section 2(18) which defines the company in which public are substantially interested.

III.306 Auditing Pronouncements

47.5 For reporting under this clause with respect to quoted shares, the auditor has to consider the provisions of Rule 11UA(1)(c)(a) which provides for manner of determining:

- (a) fair market value of quoted shares and securities received by way of transaction carried out through any recognized stock exchange
- (b) fair market value of quoted shares and securities received by way of transaction carried out OTHER THAN through any recognized stock exchange

47.6 For reporting under this clause with respect to unquoted equity shares, the auditor has to consider the provisions of Rule 11UA(2) which provides for manner of determining the fair market value of unquoted equity shares.

47.7 Where for determining the fair market value of unquoted equity shares, a valuation report has been obtained by the assessee from a merchant banker or an accountant, the auditor should obtain a copy of the same. Here, attention is invited to the Standard on Auditing-620 "Using the work of an Auditor's expert".

47.8 The auditor should maintain the following information in his working paper file for the purpose of reporting in the format provided in the e-filing utility:-

Sr No	Name and status of the person to whom shares have been issued	PAN of person, if available	Nature of shares (Quoted in RSE/Quoted in URSE/ unquoted equity shares etc.)	No. of Shares issued	Consideration received	Fair Market value as per Rule 11UA(1) (c)/11UA (2)	Face value of shares issued	Amount taxable under section 56(2)(viib) (Report the difference (e)-(f), ONLY if (e) is greater than (g), else report "Not Applicable")
(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	(i)

48. Details of any amount borrowed on hundi or any amount due thereon (including interest on the amount borrowed) repaid, otherwise than through an account payee cheque. [Section 69D].

[Clause 30]

48.1 Details of the amount borrowed on hundi (including interest on such amount borrowed) and details of repayment otherwise than by an account payee cheque, are required to be indicated under this clause. In this context, a reference may also be made to Circular No.208 dated 15th November, 1976 and Circular No. 221 dated 6th June,1977 issued by Board explaining the provisions of section 69D - vide **Appendix XIV (Page no. 275)**.

48.2 For this purpose, the tax auditor should obtain a complete list of borrowings and repayments of hundi loans otherwise than by account payee cheques and verify the same with the books of account.

48.3 There will be practical difficulties in verifying the loan taken or repaid on hundi by account payee cheque. In such cases, the tax auditor should verify the borrowing/repayments with reference to such evidence which may be available and in the absence of conclusive or satisfactory evidence or the auditor may obtain suitable certificate/ management representation in this regard.

48.4 The tax auditor should maintain the following information in his working papers for the purpose of reporting against the said clause in the format provided in the e-filing utility:

Sr. No.	Name of the concerned person	PAN of (b) if available	Address of (b)	Amount borrowed	Date of borrowing	Amount due including interest	Amount repaid	Date of repayment
(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	(i)

49. (a)* Particulars of each loan or deposit in an amount exceeding the limit specified in section 269SS taken or accepted during the previous year :-

- (i) name, address and permanent account number (if available with the assessee) of the lender or depositor;
- (ii) amount of loan or deposit taken or accepted;
- (iii) whether the loan or deposit was squared up during the previous year;
- (iv) maximum amount outstanding in the account at any time during the previous year;
- (v) whether the loan or deposit was taken or accepted otherwise than by an account payee cheque or an account payee bank draft.

*(These particulars need not be given in the case of a Government company, a banking company or a corporation established by a Central, State or Provincial Act.)

50. (b) Particulars of each repayment of loan or deposit in an amount exceeding the limit specified in section 269T made during the previous year:-

- (i) name, address and permanent account number (if available with the assessee) of the payee;
- (ii) amount of the repayment;

- (iii) **maximum amount outstanding in the account at any time during the previous year;**
 - (iv) **whether the repayment was made otherwise than by account payee cheque or account payee bank draft.**
- 51. (c) Whether the taking or accepting loan or deposit, or repayment of the same were made by account payee cheque drawn on a bank or account payee bank draft based on the examination of books of account and other relevant documents**

(The particulars (i) to (iv) at (b) and comment at (c) above need not be given in the case of a repayment of any loan or deposit taken or accepted from Government, Government company, banking company or a corporation established by a Central, State or Provincial Act.)

[Clause 31 (a), (b) and (c)]

49. Clause 31(a)

49.1 Section 269SS prescribes the mode of taking or accepting certain loans and deposits. As per this section, no person shall take or accept from any other person any loan or deposit otherwise than by an account payee cheque or account payee bank draft if,-

- (a) the amount of such loan or deposit or the aggregate amount of such loan and deposit; or
- (b) on the date of taking or accepting such loan or deposit, any loan or deposit taken or accepted earlier by such person from the depositor is remaining unpaid (whether repayment has fallen due or not), the amount or the aggregate amount remaining unpaid; or
- (c) the amount or the aggregate amount referred to in clause (a) together with the amount or the aggregate amount referred to in clause (b),
is twenty thousand rupees or more.

49.2 For the purposes of section 269SS "loan or deposit" means loan or deposit of money.

49.3 Particulars of each loan or deposit falling within the scope of this section as mentioned above taken or accepted during the previous year have to be stated under this sub-clause. This sub-clause requires five specific particulars in respect of each loan or deposit including the permanent account number of the lender, if available.

49.4 The tax auditor should obtain the above details from the assessee in respect of each loan or deposit and verify the same from the records maintained by him.

49.5 If the total of all loans/deposits from a person exceed Rs.20,000/- but each individual item is less than Rs.20,000/-, the information will still be required to be given in respect of all

such entries starting from the entry when the balance reaches Rs.20,000/- or more and until the balance goes down below Rs.20,000/-. As such the tax auditor should verify all loans/deposits taken or accepted where balance has reached Rs.20,000 or more during the year for the purpose of reporting under this clause.

49.6 There will be practical difficulties in verifying the loan or deposit taken or accepted by account payee cheque or an account payee bank draft. In such cases, the tax auditor should verify the transactions with reference to such evidence which may be available. In the absence of satisfactory evidence, the guidance given by the Council of the Institute of Chartered Accountants of India to the tax auditors has been to make a suitable comment in his report as suggested below.

“It is not possible for me/us to verify whether loans or deposits have been taken or accepted otherwise than by an account payee cheque or account payee bank draft, as the necessary evidence is not in the possession of the assessee”.

49.7 The tax auditor has to take into account the technological advancements in the field of banking and information technology where loans have been taken other than through an account payee cheque or bank draft which are capable of being tracked such as bank transactions made electronically through the internet or through mail transfer or telegraphic transfer. These types of payments, though not made by account payee cheques in the conventional manner are capable of being tracked. In order to judicially apply the provisions of section 269SS, the tax auditor need not report such cases under this clause. The Finance (No.2) Act, 2014 has acknowledged the fact and allowed the “use of electronic clearing system through a bank account” as a permissible mode for the purposes of section 269SS .

49.8 For the purposes of this clause, the tax auditor may keep in mind the following typical situations:

- (i) Sale proceeds collected by the selling agent will not be considered as loan or deposit.
- (ii) A current account is not excluded from the definition of the term “deposit”. Therefore, if the transactions in a current account exceed the amount of Rs.20,000/-, it will be necessary to give the information against this sub-clause. This is the position even if no interest is paid on current account.
- (iii) When there is a mixed account, the transactions relating to loans and deposits (temporary advances) should be segregated from other accounts and the transactions relating to loans and deposits (including temporary advances) should be stated under this clause.
- (iv) Advance received against agreement of sale of goods is not a loan or deposit.
- (v) Opening credit balance of loan taken in earlier years is not specifically required to be disclosed. However, while giving figures of maximum amount outstanding at any time during the year or while giving information about acceptance and repayment of

III.310 Auditing Pronouncements

loan/deposit, the opening balances in the loan accounts will have to be taken into consideration.

- (vi) Even if the loans are taken free of interest the information will still have to be given.
- (vii) Security deposits against contracts, etc. will be covered by the definition of 'deposit' and therefore, such information will have to be given. However, the amount retained by the contractee against performance of contract will not be covered as loans/deposits for reporting as amount is not received.
- (viii) Loans and deposits taken or accepted by means of transfer entries in the books of account constitute acceptance of deposits or loans otherwise than by account payee cheques. Hence, such entries have to be reported under this clause. The entries that relate to transactions with a supplier and customer on account of purchase or sale of goods/services will not be treated as loans or deposits accepted.
- (ix) Share application money advance supported by appropriate documentation is neither deposit nor loan and subsequent allotment of shares or repayment of application money as a part of allotment process does not alter the character of application money and provision of Section 269SS/T are not attracted in such a case. *Rugmini Ram Ragav Spinners P. Ltd. 304 ITR 417 Madras High Court and IP India P. Ltd. 343 ITR 353 and Numero Uno Financial Services P. Ltd. 345 ITR 84 Delhi High Court* However, contrary view has been taken in *Bhalotia Engineering Works (P) Ltd. 275 ITR 399*

49.9 As per the proviso to section 269SS, the provisions of section 269SS shall not apply to any loan or deposit taken or accepted from, or any loan or deposit taken or accepted by,-

- (a) Government;
- (b) any banking company, post office savings bank or co-operative bank;
- (c) any corporation established by a Central, State or Provincial Act;
- (d) any Government company as defined in section 2(45) of the Companies Act, 2013; Section 617 of the Companies Act, 1956 has been replaced with section 2(45) in the Companies Act, 2013 with effect from 1.4.2014.
- (e) such other institution, association or body or class of institutions, associations or bodies which the Central Government may, for reasons to be recorded in writing, notify in this behalf in the Official Gazette.

49.10 The footnote in clause 31(a) states that the particulars required under this sub-clause need not be given in the case of a Government company, a banking company or a corporation established by a Central, State or Provincial Act. This is in accordance with the proviso to section 269SS mentioned above. As such, information about loans or deposits taken or accepted from or any loan or deposit taken or accepted by Government, banking company, etc. need not be reported under this sub-clause.

49.11 The auditor should maintain the following information in his working papers for the purpose of reporting against this clause in the format provided in the e-filing utility:

Sr. No.	Name of the lender or depositor	Address of the lender or depositor	PAN of the lender or depositor, if available	Amount of loan or deposit taken or accepted	Whether the loan/deposit was squared up during the previous year	Maximum amount outstanding in the account at any time during the Previous year	Whether the loan/ deposit was taken or accepted otherwise than by an account payee bank cheque or account bank draft
1	2	3	4	5	6	7	8

These particulars need not be given in case of a Government Company, a banking company or a corporation established by a Central, State or Provincial Act.

50. Clause 31(b)

50.1 This sub-clause requires particulars of each repayment of loan or deposit in an amount exceeding the limits specified in section 269T made during the previous year. Section 269T after amendment by the Finance Act, 2002 w.e.f. 1.6.2002 is now applicable to repayment of both loans and deposits. Section 269T is attracted where repayment of the loan or deposit is made to a person, where the aggregate amount of loans or deposits held by such person either in his own name or jointly with any other person on the date of such repayment together with interest, if any, payable on such deposit is Rs.20,000 or more. Explanation (iii) contains a definition of the term "loan or deposit" for the purposes of section 269T. Accordingly, "loan or deposit" means any deposit of money which is repayable after notice or repayable after a period and, in the case of a person other than a company, includes loan or deposit of any nature. As such, all repayments made to any person where the loan or deposit along with interest is Rs.20,000 or more are to be reported under this sub-clause, even though the amount of repayment may be less than Rs.20,000. The tax auditor should verify such repayments and report accordingly.

50.2 The second proviso to section 269T inserted by the Finance Act, 2003 w.e.f. 1.6.2002 excludes repayments of loans taken from Government, Government company, Banking company, Corporation established by a Central, State or Provincial Act etc from the scope of the above section and therefore the tax auditor need not report such repayments in his report. However, section 269T does not exclude Government companies, banking companies from

III.312 Auditing Pronouncements

the scope of its applicability. As such, details of repayment are to be shown in the case of these entities also.

50.3 In the case of company assessee loan or deposit is defined to mean deposit repayable after notice or loan or deposit repayable after a period. Therefore, in case of a company loan or deposit repayable on demand will not be considered for the purpose of this section as loan or deposit.

50.4 However, in the case of non-company assessee loan or deposit is defined to mean loan or deposit of any nature. This distinction will have to be kept in mind while giving information under this sub-clause.

50.5 Loan or deposits discharged by means of transfer entries in the books of account constitute repayment of loan or deposits otherwise than by account payee cheques or account payee bank drafts. Hence, such entries have to be reported under this clause.

50.6 The tax auditor has to take into account the technological advancements in the field of banking and information technology where loans have been repaid other than through an account payee cheque or bank draft which are capable of being tracked such as bank transactions made electronically through the internet or through mail transfer or telegraphic transfer. These types of payments, though not made by account payee cheques in the conventional manner, are capable of being tracked. In order to judicially apply the provisions of section 269T, the tax auditor need not report such cases under this clause. The Finance (No.2) Act, 2014 has acknowledged the fact and allowed the "use of electronic clearing system through a bank account" as a permissible mode for the purposes of section 269T. The entries that relate to transactions with a supplier and customer on account of purchase or sale of goods /services will not be treated as loans or deposits repaid.

50.7 The monetary limit of Rs. 20,000 or more is applicable in respect of a banking company or a cooperative bank with reference to each branch and in all other cases assessee as a whole.

50.8 The auditor should maintain the following information in his working papers for the purpose of reporting against this clause in the format provided in the e-filing utility:

Sr. No.	Name of the payee	Address of the payee	PAN of the payee, if available	Amount of loan or deposit taken or accepted	Amount of the repayment	Maximum amount outstanding in the account at any time during the Previous year	Whether the repayment was made otherwise than by an account payee bank cheque or account bank draft
1	2	3	4	5	6	7	8

51 Clause 31(c)

51.1 Under this sub clause the tax auditor has to comment as to whether the taking or accepting loan or deposit, or repayment of the same through an account payee cheque or an account payee bank draft based on the examination of books of accounts & other relevant documents. .

51.2 In the case of a repayment of any loan or deposit taken or accepted from Government, Government company, banking company or a corporation established by a Central, State or Provincial Act, the particulars (i) to (iv) mentioned in sub-clause (b) of clause 31 and also the comment mentioned above need not be given.

51.3 However, section 269T does not exclude loans repaid by Government companies, banking companies, corporation established by a Central, State or Provincial Act from the scope of its applicability. As such, details of repayment made by such entities are to be shown.

51.4 It may be noted that the new requirement should be made applicable for the loans and the advances which are in excess of Rs 20,000/-. This is evident from a harmonious reading of the clause (c) with the clauses (a) and (b).

51.5 Practically, it may not possible to verify each payment, reflected in the bank statement, as to whether the payment/ acceptance of deposits or loans has been made through account payee cheque, demand draft, pay order or not, it is thus desirable that the tax auditor should obtain suitable certificate from the assessee to the effect that the payments/ receipts referred to in section 269SS and 269T were made by account payee cheque drawn on a bank or account payee bank draft as the case may be. Where the reporting has been done on the basis of the certificate of the assessee, the same shall be reported as an observation in clause (3) of Form No. 3CA and clause (5) of Form No.3CB, as the case may be.

51.6 The tax auditor has to consider the above guidance while reporting against this clause in the format provided in the e-filing utility.

52. (a) Details of brought forward loss or depreciation allowance, in the following manner, to the extent available:

Sl No.	Assessment year	Nature of loss / allowance (in rupees)	Amount as returned (in rupees)	Amount as assessed (give reference to relevant order)	Remarks

53. (b) whether a change in shareholding of the company has taken place in the previous year due to which the losses incurred prior to the previous year cannot be allowed to be carried forward in terms of section 79.

III.314 Auditing Pronouncements

54. (c) whether the assessee has incurred any speculation loss referred to in section 73 during the previous year, If yes, please furnish the details of the same.

55.(d) whether the assessee has incurred any loss referred to in section 73A in respect of any specified business during the previous year, if yes, please furnish details of the same.

56.(e) In case of a company, please state that whether the company is deemed to be carrying on a speculation business as referred in explanation to section 73, if yes, please furnish the details of speculation loss if any incurred during the previous year.

[Clause 32(a) to (e)]

52. Clause 32(a)- Details of brought forward loss or depreciation allowance

52.1 The amount of brought forward loss or depreciation allowance is required to be quantified as per return and assessment orders.

52.2 A reporting format is prescribed for the sake of standardization.

52.3 At times while the particular claim for loss/allowance pertains to a particular assessment year as per the return of income, the same may relate to another assessment year as per the assessment order, e.g, Depreciation claim in respect of assets capitalized at the end of the financial year. In those cases, once the assessment order is received, the particulars have to be re-stated with reference to the assessment year to which they relate as per the assessment order. This should be accompanied by suitable explanation in the remarks column.

52.4 Brought forward losses may relate to different heads of income such as property income, profits and gains of business or profession, speculation business or capital gains. Different provisions are contained in sections 32 and 70 to 79 of the Income-tax Act with regard to loss/depreciation under different heads. In the remarks column information about the pending assessment or appellate proceedings or about delay in filing loss returns should be given. For giving the above information, the auditors should study the assessment records i.e. income-tax returns filed, assessment orders, appellate orders and rectification/ revisional orders for the earlier years and ascertain if the figures given in the above clause are correct. Attention of the members is invited to provisions of section 80 read with section 139(3) of the Income-tax Act, 1961. Section 80 provides that notwithstanding anything contained in Chapter VI of the Act, no loss which has not been determined in pursuance of a return filed in accordance with the provisions of sub-section (3) of section 139 shall be carried forward and set off under sub-section (1) of section 72 or sub-section (2) of section 73 or sub-sections (1) or (3) of section 74 or sub-section (3) of section 74A. Besides these, the tax auditor should keep in mind the provisions of section 71B regarding Carry Forward and Set Off of Loss From House Property, section 73A regarding Carry Forward and Set Off of Losses by Specified Business and also section 78 regarding Carry Forward and Set Off of Losses in case of Change in Constitution of Firm or on Succession.

52.5 Any assessment, rectification, revision or appeal proceedings pending at the time of tax audit have to be disclosed in the remarks column by way of information. If consequential orders for any revision/appellate order is yet to be passed, the same can be disclosed along with the impact thereof if material.

52.6 The e filing utility may require additional information regarding the relevant order. The information is required to be disclosed to the extent available. The tax auditor should consider the above guidance for the purpose of reporting under this clause in the format provided in the e-filing utility.

53. Clause 32(b)- Details of change in shareholding, if any

53.1 Section 79 of the Act provides that, notwithstanding anything contained in Chapter VI of the Act, in the case of a company, not being a company in which the public are substantially interested, where a change in shareholding has taken place in a previous year, then no loss incurred in any year prior to the previous year shall be carried forward and set off against the income of the previous year unless on the last day of that previous year and on the last day of the previous year in which the loss was incurred, the shares of the company carrying not less than 51% of the voting power were beneficially held by the same persons.

53.2 This provision shall not apply to a change in the voting power consequent upon:

- (a) the death of a shareholder, or
- (b) on account of transfer of shares by way of gifts to any relative of the shareholder making such gift.
- (c) any change in the shareholding of an Indian company which is subsidiary of a foreign company arising as a result of amalgamation or demerger of a foreign company subject to the condition that 51 per cent of the shareholders of the amalgamating or demerged foreign company continue to remain the shareholders of the amalgamated or the resulting foreign company.

53.3 However, the overriding provisions of section 79 do not affect the set off of unabsorbed depreciation which is governed by section 32(2). [*CIT v Concord Industries Ltd. (1979) 119 ITR 458 (Mad)*], *CIT v. Shri Subbulaxmi Mills Ltd. 249 ITR 795 (SC)*.

53.4 Sub-clause 32(b) requires a statement whether a change in shareholding of the company has taken place in the previous year due to which the losses incurred prior to the previous year cannot be allowed to be carried forward in terms of section 79.

53.5 The comparison of the composition of the shareholding is to be done with reference to the last day of the current previous year and the last day of every previous year in which the loss was incurred. The carry forward of the loss incurred in respect of different previous years is to be determined with respect to the individual previous years. Such comparison of the shareholding can be done by referring to the Register of Members.

54. Clause 32(c) – Speculation Loss under section 73 of the Income Tax Act:

54.1 Section 73 of the Act provides for the treatment of losses in speculation business. Section 73(1) provides that any loss, computed in respect of a speculation business carried on by the assessee, shall not be set off except against profits and gains, if any, of another speculation business.

54.2 Section 73(2) further provides that where for any assessment year any loss computed in respect of a speculation business has not been wholly set off under section 73(1), so much of the loss as is not so set off or the whole loss where the assessee had no income from any other speculation business, shall, subject to the other provisions of Chapter VI, be carried forward to the following assessment year, and-

- (i) it shall be set off against the profits and gains, if any, of any speculation business carried on by him assessable for that assessment year; and
- (ii) if the loss cannot be wholly so set off, the amount of loss not so set off shall be carried forward to the following assessment year and so on.

54.3 Section 73(3) provides that in respect of allowance on account of depreciation or capital expenditure on scientific research, the provisions of sub-section (2) of section 72 shall apply in relation to speculation business as they apply in relation to any other business.

54.4 Furthermore, section 73(4) provides that no loss shall be carried forward under this section for more than four assessment years immediately succeeding the assessment year for which the loss was first computed.

54.5 *As per Explanation 2 to section 28.*—Where speculative transactions carried on by an assessee are of such a nature as to constitute a business, the business (hereinafter referred to as "speculation business") shall be deemed to be distinct and separate from any other business.

54.6 As per section 43(5) "speculative transaction" means a transaction in which a contract for the purchase or sale of any commodity, including stocks and shares, is periodically or ultimately settled otherwise than by the actual delivery or transfer of the commodity or scrips :

Provided that for the purposes of this clause—

- (a) a contract in respect of raw materials or merchandise entered into by a person in the course of his manufacturing or merchanting business to guard against loss through future price fluctuations in respect of his contracts for actual delivery of goods manufactured by him or merchandise sold by him; or
- (b) a contract in respect of stocks and shares entered into by a dealer or investor therein to guard against loss in his holdings of stocks and shares through price fluctuations; or

- (c) a contract entered into by a member of a forward market or a stock exchange in the course of any transaction in the nature of jobbing or arbitrage to guard against loss which may arise in the ordinary course of his business as such member; or
- (d) an eligible transaction in respect of trading in derivatives referred to in clause (ac) of section 2 of the Securities Contracts (Regulation) Act, 1956 (42 of 1956) carried out in a recognised stock exchange; or
- (e) an eligible transaction in respect of trading in commodity derivatives carried out in a recognised association, which is chargeable to commodities transaction tax under Chapter VII of the Finance Act, 2013 ,

shall not be deemed to be a speculative transaction.

54.7 Having regard to the definition of “speculative Business”, the tax auditor has to verify from the books of account and other relevant documents as to whether the assessee is carrying on any speculation business. On verification if the auditor is of the opinion that the auditee is carrying on speculation business, under this clause, the tax auditor has to furnish the details regarding speculation loss referred to in section 73, if any incurred by the assessee during the previous year. Attention is invited to Para 16.3(b) of this Guidance Note.

54.8 The tax auditor should maintain the following information in his working papers for the purpose of reporting against this clause in the format provided in the e-filing utility:

S. No.	Nature of loss	Amount of loss for the current year	Brought forward loss of the earlier year(s)	Total loss to be carried forward to the subsequent year	Break- up of the speculation loss in terms of the number of years for which it has been carried forward	Whether the speculation loss has been set off against any other income other than profit & loss, if any, of speculation business
1	2	3	4	5	6	7

55. Clause 32(d) – Details of Losses incurred in respect of a Specified business as referred to under section 73A

55.1 Section 73A provides for provisions relating to carry forward and set off of losses by specified business. It provides that any loss, computed in respect of any specified business referred to in section 35AD shall not be set off except against profits and gains, if any, of any other specified business.

55.2 Section 73A(2) provides that where for any assessment year any loss computed in respect of the specified business referred to in sub-section (1) has not been wholly set off

III.318 Auditing Pronouncements

under sub-section (1), so much of the loss as is not so set off or the whole loss where the assessee has no income from any other specified business, shall, subject to the other provisions of this Chapter, be carried forward to the following assessment year, and—

- (i) it shall be set off against the profits and gains, if any, of any specified business carried on by him assessable for that assessment year; and
- (ii) if the loss cannot be wholly so set off, the amount of loss not so set off shall be carried forward to the following assessment year and so on.]

55.3 Under clause 32(d), the tax auditor has to verify from the books of accounts and other relevant documents as to whether the assessee is carrying on specified business as referred to under section 35AD. In case the auditor is of the opinion that the assessee is carrying on such specified business, he has to furnish the details of the loss incurred, if any, in respect of any specified business during the previous year. In case the assessee carries on more than one specified businesses and loss has been incurred in both the business, the details of the loss incurred with respect of each business is to be specified separately.

55.4 The tax auditor should maintain the following information in his working papers for the purpose of reporting against this clause in the format provided in the e-filing utility:

Sr. No.	Nature of specified business	Amount of loss incurred, if any, during the previous year, with regard to the specified business mentioned in (b)	Loss from specified business brought forward from the earlier year	Amount of loss being set off against other specified business	Year of loss	Amount of loss being carried forward to the next assessment year ((c) – (d))	Whether loss set off against any other income other than from specified business as per sec. 35AD of the Act.
(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)

56. Clause 32(e) – Details of speculation loss, if any, incurred from deemed Speculation business as referred to in Explanation to section 73:

56.1 The Explanation to section 73 provides that where any part of the business of a company (other than a company whose gross total income consists mainly of income which is chargeable under the heads " Interest on securities", " Income from house property", " Capital gains" and " Income from other sources" or a company the principal business of which is the business of trading in shares or banking or the granting of loans and advances) consists in the purchase and sale of shares of other companies, such company shall, for the purposes of this section, be deemed to be carrying on a speculation business to the extent to which the business consists of the purchase and sale of such shares. The Finance Act, 2014 has

amended the explanation to section 73 by deleting the words “the principal business of which is the business of trading in shares” from financial year 2014-2015.

56.2 Under this clause, the tax auditor has to furnish the details regarding the speculation losses incurred, if any, as referred in explanation to section 73. The auditor may obtain information in the following format from the assessee and verify the same from the books of account, income tax returns of earlier years and other relevant documents:

Sr No	Applicable section	Nature of loss	AY of incurring loss	Amount of Loss	Amount set off during current AY	Amount to be carried forward
1	2	3	4	5	6	7

56.3 The above information so maintained may be used by the tax auditor for the purpose of reporting against this clause in the format provided in the e-filing utility.

57. Section-wise details of deductions, if any, admissible under Chapter VIA or Chapter III (Section 10A, Section 10AA).

Section under which deduction is claimed	Amounts admissible as per the provision of the Income Tax Act, 1961 and fulfils the conditions, if any, specified under the relevant provisions of Income Tax Act, 1961 or Income Tax Rules, 1962 or any other guidelines, circular, etc, issued in this behalf.

[Clause 33]

57.1 Chapter VIA of the Act deals with various deductions which have to be given effect to by way of allowance from gross total Income of the assessee and they have been categorised under the Act as follows:

- A. Deduction in respect of certain payments.
- B. Deduction in respect of certain incomes.
- C. Other Deductions.

While Chapter III relates to Income which do not form part of total income, the reporting under this clause is required only with respect to exemptions claimed under section 10A (Special provisions in respect of newly established undertakings in free trade Zone etc) and section 10AA (Special provisions in respect of newly established units in Special Economic Zones)

III.320 Auditing Pronouncements

57.2 As stated earlier, the tax audit report in Form No.3CA/3CB relates to business or professional activity of the assessee covered by section 44AB. Form No.3CD is an annexure to this Form giving particulars relating to the business/profession covered by the tax audit report. Therefore, the requirement under clause 33 relating to the deductions admissible under Chapter VIA, section 10A and section 10AA will have to be with reference to the items appearing in the books of accounts audited by the tax auditor. If the tax auditor is issuing tax audit report in respect of the accounts of a specific branch or a specific unit he will have to examine the particulars relating to deduction admissible under Chapter VIA and exemption relating to section 10A/10AA, as the case may be, with reference to the books of account of that branch or that unit which is audited by him. Similarly when the tax auditor is issuing report regarding tax audit of the head office he will have to take into consideration the tax audit reports of the branches as well as other units of the assessee which may have been audited by the other tax auditors. He will have to consider the particulars of deductions admissible under Chapter VIA and exemption relating to section 10A/10AA, as the case may be with reference to the particulars given by the tax auditor of other branches/units and also particulars of such deductions from books of the head office.

57.3 In the case of a sole proprietor being an individual or HUF it may so happen that the tax auditor is auditing the accounts of the business/profession and the sole proprietor is having other activities and other sources of income in respect of which tax audit is not mandatory. In such cases the particulars of deductions admissible under Chapter VIA will have to be given with reference to the items appearing in the books of accounts of the business/profession which is subject to audit under section 44AB.

57.4 The admissibility of the aforesaid deductions/exemptions is dependent upon various conditions laid down in the section under which deduction/exemption is admissible. It is, therefore, advised that while working out the amount of admissible deduction the tax auditor has to ascertain that those condition stand fulfilled or not. For ascertaining this, the tax auditor has to obtain all necessary evidence which would enable him to express the opinion regarding the admissibility of deductions. For example, under section 80IA one of the conditions is that the new Industrial undertaking which qualifies for deduction thereunder should not have been formed by splitting up or by the reconstitution of a business already in existence or by transfer to a new business of machinery or plant previously used for any purpose. In order to ascertain the fulfillment of this condition the tax auditor may have to check all documentary evidence in respect of plant and machinery installed in the industrial undertaking to arrive at the conclusion that plant and machinery is new and has not been used previously for any other purpose. Likewise if there is any condition which qualifies the admissibility of the amount of deduction, the tax auditor has to see and ascertain that those qualifying conditions are fulfilled on the basis of documentary evidence available with the assessee. There may be cases where there is difference between the amount claimed by the assessee and the amount computed out by the tax auditor. In such cases it is quite possible that the client's claim is based on some judicial pronouncement on the subject. In such case it may be advisable for the tax auditor to report the amount admissible. The amount claimed and the background

behind and the basis of the claim of the assessee may form part of the working papers. If the claim of the assessee is well-founded and settled by judicial pronouncement the tax auditor may accept the claim but he has to record in his working papers that admissible amount has been reported on the basis of such judicial pronouncement.

57.5 It may be noted that there are certain sections under Chapter VIA like section 80-IA, 80-IB, 80-JJA etc. where separate audit report or certificate is required to be issued. Under the said sections, a non-corporate assessee who has income from industrial undertaking covered under the above sections has also to obtain audit report with reference to the accounts of these undertakings. While giving information with regard to the deduction allowable under these sections the tax auditor should refer to separate audit reports/ certificates obtained by the assessee. These audit reports/ certificates may have been given by the tax auditor or by any other auditor. The figures given in this separate audit reports/certificates should be taken into consideration while giving information with regard to income covered by these sections.

57.6 Since the details of exemptions admissible under sections 10A and 10AA are also to be reported in the desired format, the said information can be verified from the certificate issued by the chartered accountant in this regard. In case, a report under section 10A and 10AA has been issued by any other chartered accountant, then the same may be taken into consideration while reporting under this clause. Here attention is invited to SA-600, *Using the work of another auditor*.

57.7 Some sections in Chapter VIA such as section 80-G (donations), Section 80-GGB/80-GGC (contributions to political parties), section 80-JJAA (wages of new workmen) etc. relate to the expenditure incurred by an assessee. There are other sections such as section 80-P (income of co-operative societies), 80-JJA (certain specified business relating treatment of biodegradable waste) etc. which relate to income of the assessee. In respect of all these sections the tax auditor should ascertain whether there is any expenditure or income covered by the above sections recorded in the books of accounts audited by him. Information with regard to such expenditure/income in respect of deduction allowable under Chapter VIA should be given on the basis of the examination of the books of account and other records under clause 33.

58. (a) Whether the assessee is required to deduct or collect tax as per the provisions of Chapter XVII-B or Chapter XVII-BB, if yes please furnish:

Tax deduction and collection Account Number (TAN)	Section	Nature of payment	Total amount of payment or receipt of the nature specified in column (3)	Total amount on which tax was required to be deducted or collected out of (4)	Total amount on which tax was deducted or collected at specified rate out of (5)	Amount of tax deducted or collected out of (6)	Total amount on which tax was deducted or collected at less than specified rate out of (7)*	Amount of tax deducted or collected on (8)	Amount of tax deducted or collected not deposited to the credit of the Central Government out of ** (6) and *** (8)
(1)	(2)	(3)	(4)	(5)	(6)	(7)	(8)	(9)	(10)

[Clause 34(a)]

*Should be read as (5) for proper reporting

III.322 Auditing Pronouncements

** Should be read as (7) for proper reporting

*** Should be read as (9) for proper reporting

59. (b) Whether the assessee has furnished the statement of tax deducted or tax collected within the prescribed time. If not, please furnish the details:

Tax deduction and collection Account Number (TAN)	Type of Form	Due date for furnishing	Date of furnishing, if furnished	Whether the statement of tax deducted or collected contains information about all transactions which are required to be reported

60. (c) whether the assessee is liable to pay interest under section 201(1A) or section 206C(7). If yes, please furnish:

Tax deduction and collection Account Number (TAN)	Amount of interest under section 201(1A)/206C(7) is payable	Amount paid out of column (2) along with date of payment.

[Clause 34(a), (b) and (c)]

58. Clause 34(a)

58.1 While reporting under this clause the tax auditor may exercise his judgement in the light of the applicable laws and report accordingly about the applicability of the provisions of Chapter XVII-B or XVII-BB with regard to the auditee. The tax auditor may rely upon the judicial pronouncements while taking any particular view. While answering the issue of applicability of the provisions of Chapter XVII-B and/or XVII-BB, a number of debatable issues may arise before the assessee as well as the tax auditor. Where it is not possible to say yes/no, the answer to the question may have to be qualified depending upon the facts and circumstances of each case. Having verified the applicability of the provisions of Chapter XVII-B and Chapter XVII-BB, the tax auditor should answer the question as "Yes" and thereafter provide further details. Where the tax auditor is of the opinion that provisions of Chapter XVII-B and Chapter XVII-BB are not applicable he should answer the question as "No".

58.2 Once the tax auditor gives his affirmation with regard to applicability of the provisions of Chapter XVII-B and/ or Chapter XVII-BB, he is required to furnish further details in Clause 34(a). The auditor should obtain a copy of the TDS/TCS returns filed by the assessee which shall form the basis of reporting under this clause, to the extent possible. Further, in view of the voluminous nature of the transactions, the tax auditor can apply test checks and compliance tests on the transactions reported in the TDS return by the assessee for verifying the information required to be provided under this clause.

58.3 Column (1) of Clause 34(a) requires reporting of each Tax deduction and collection Account number with regard to which tax has been deducted or collected at source.

58.4 In column (2), the tax auditor is required to furnish the details of the applicable section in respect to which tax has been deducted or collected at source

58.5 In column (3), the tax auditor is required to furnish the details regarding the nature of payment.

58.6 In column (4), the auditor is required to furnish the details of the total amount of payment or receipt of the nature specified in column (3). The details in the said column may be drawn from the TDS/TCS statements furnished by the assessee to the Department along with the books of accounts and other relevant documents which include aggregate of payments on which tax is liable to be deducted as well as not liable to be deducted. Auditor may maintain working paper giving reconciliation of amount as per books of accounts and amount on which is TDS/TCS is required to be deducted/collected.

58.7 Column (5) casts an onerous responsibility on the auditor, wherein he is required to furnish the details of total amount on which the tax was required to be deducted or collected out of the amount mentioned in column (4) having regard to the nature of payments/ receipts under the relevant sections of Chapter XVII-B / XVII-BB. Since the reporting under column (4) is required to be made with regard to the nature of payments made or amount received, there may be a difference in the amounts reported under column (4) and column (5). The reasons for difference may be applicability of certificates issued under section 195/197 or threshold limits provided in specific sections or difference of opinion with regard to applicability of a particular section and the like.

58.8 While answering the issue of applicability of the provisions of Chapter XVII-B and/or XVII-BB, a number of debatable issues may arise before the assessee as well as the tax auditor. The auditor may have a difference of opinion with regard to the applicability of the provisions of TDS/TCS on a particular payment. In such a case, the tax auditor has to bring the difference of opinion appropriately as an observation in the clause (3) of Form No. 3CA or clause (5) of Form No.3CB as the case may be.

58.9 It is essential to note that it is the primary responsibility of the assessee to prepare the information in such a manner that the tax auditor can verify the compliance as required in the new clause. The tax auditor is required to verify that no items have been omitted in the

III.324 Auditing Pronouncements

information furnished to him and reasonable test checks would reveal whether or not the information furnished is correct. The extent of check undertaken would have to be indicated by the tax auditor in his working papers and audit notes. The tax auditor would be well advised to so design his tax audit programme as would reveal the extent of checking and to ensure adequate documentation in support of the information being certified.

58.10 In column (6) the tax auditor is required to furnish the total amount out of the amount deductible or collectible as mentioned in column (5) at which the tax was deducted or collected at the specified rate. The auditor has to consider the rates of deduction as per the law relevant to the previous year. Further, as per the provisions of sections 195/ 197 certificate can be issued for no deduction or lower deduction of tax at source. The tax auditor should refer to the relevant provisions, rules, circulars, notifications and such certificates obtained from the auditee to verify the cases where tax has been short deducted at source. In case the payer deducts/recipient collects tax at source at a rate lower than the specified rate on the basis of certificate issued under section 195 or 197, the lower rate or nil rate, as the case may be will be considered as the specified rate for the purpose of reporting under this clause. In the case of payment to non-residents the applicable rate of tax deduction at source is to be read along with the Double Taxation Avoidance Agreement. Column (7) requires furnishing of total amount of tax deducted/collected out of the amount furnished in column (6).

58.11 Similarly, column (8) requires the tax auditor to furnish the total amount out of the amount deductible or collectible as mentioned in column (5) at which the tax was deducted or collected at the rate less than the specified rate. The lesser deduction is required to be reported in this clause. This will include deduction at a lower rate than what is prescribed, application of wrong section for deduction of tax at source, etc. For example section 194C requires deduction @2% in case payment is made to a person other than individual or HUF, but the deductor deducts only 1%, the same has to be reported under this clause. In case there is difference of opinion with regard to rate of deduction or applicability of a particular section, the auditor may appropriately report the difference of opinion in the clause (3) of Form No. 3CA or clause (5) of Form No.3CB as the case may be giving both the views. Further, column (9) requires furnishing of total amount of tax deducted/collected out of the amount furnished in column (8).

58.12 Column (10) requires the auditor to furnish the details of the amount of tax deducted or collected but not deposited to the credit of the Central Government. As such the tax auditor should verify the cases where the tax has been deducted at source but not paid to the credit of the Central Government till the date of the audit. It may be seen that tax deducted but deposited late will not be required to be reported in this clause.

58.13 The details in the column (6), (7), (8), (9) and (10) may be drawn from the TDS/TCS returns furnished by the assessee to the Department and be verified from the books of accounts and other relevant documents.

59. Clause 34(b)

59.1 Under clause 34(b), the tax auditor has to ascertain and report as to whether the assessee has furnished the statement of tax deducted or tax collected at source within the prescribed time. If all the TDS/TCS statement(s) relating to the previous year have been filed within the prescribed time, the auditor has to mention "yes". In case the assessee has not filed any of the quarterly TDS/TCS statement(s) within the prescribed time, the auditor has to mention "No" in this clause. In such a case, the auditor shall provide further details in Clause 34(b) only with regard to the statement not filed within the prescribed time. Clause 34(b) requires the auditor to report the transactions with regard to each TAN for which tax has been deducted but the return has either not been filed or has been filed after the expiry of the prescribed time. With regard to each TAN, the auditor is required to mention the "Type of form" that was applicable like Form 24, 24G, 24Q, 26, 26A, 26B, 26Q etc, due date of furnishing such statement and the actual date of furnishing, if the statement(s) has been furnished. Lastly, the auditor is required to state as to whether the statement of tax deducted or collected, which has been furnished beyond prescribed time contains information about all the transactions which are required to be reported. As stated earlier, it is extremely difficult for the tax auditor to verify each and every transaction in this regard. Therefore, while verifying such transactions, the tax auditor can apply the concepts of materiality and audit sampling. The reporting requirement in clause (b) arises only where the assessee has either not furnished or furnished the statement of tax deducted or tax collected after the expiry of prescribed time.

59.2 In regard to clause 34(b), the tax auditor has to verify the particulars regarding tax deductible and tax collectible from the information furnished by the assessee. The various provisions of Chapter XVII-B and XVII-BB require different classes of assesseees to deduct/collect tax at source on various nature of payments. The tax auditor should consider the applicability of the different provisions relating to tax deduction at source taking into consideration the status of the assessee and the applicability of the relevant provision. As regards the applicability of the provisions the tax auditor should take into consideration the relevant sections, rules, notifications, circulars and various judicial pronouncements in relation to transactions of relevant payments or collections. There may be occasions when the tax auditor may not agree with the interpretation/view taken by the auditee. In such cases the tax auditor may report both the views as an observation in clause (3) of Form No. 3CA or clause (5) of Form No. 3CB, as the case may be

59.3 The information given in clause 34 should tally with the disallowances reported u/s 40(a) in clause 21(b) to the extent applicable.

60. Clause 34(c)

60.1 Under this clause, the auditor is required to furnish detailed information in case the assessee is liable to pay interest under section 201(1A) or section 206C(7) of the Act. Section 201(1A) provides for payment of interest at a specified rate in case the tax has not been deducted wholly or partly or after deducting has not been paid to the credit of Central

III.326 Auditing Pronouncements

Government as required by the Act. Similarly, section 206C(7) provides for payment of interest at a specified rate in case the tax is not collected wholly or partly or if collected not paid to the credit of the Central Government as required by the Act. The reporting as to whether the assessee is liable to pay such interest, should be in consonance with the reporting under clause 34(a) where the details of non-deduction are required to be reported by him.

60.2 Where the assessee is liable to pay interest u/s 201(1A) or 206C(7), the auditor should verify such amount from the books of account as on 31st March of the relevant previous year and also from PART G of the statement generated by the Department in Form No.26AS. In case the the assessee had disputed the levy or calculation of interest under TRACES, in Form No.26AS, the auditor may re-calculate the amount of interest under section 201(1A) or section 206C(7) up to the date of audit report for reporting under this clause and also mention the fact in his observations paragraph provided in Form No.3CA or Form No.3CB, as the case may be.

- 61. (a) In the case of a trading concern, give quantitative details of the principal items of goods traded:**
- (i) Opening stock;
 - (ii) Purchases during the previous year;
 - (iii) Sales during the previous year;
 - (iv) Closing stock;
 - (v) shortage / excess, if any.
- 62. (b) In the case of a manufacturing concern, give quantitative details of the principal items of raw materials, finished products and by-products :**
- A. Raw materials:**
 - (i) opening stock;
 - (ii) purchases during the previous year;
 - (iii) consumption during the previous year;
 - (iv) sales during the previous year;
 - (v) closing stock;
 - (vi) yield of finished products;
 - (vii) percentage of yield;
 - (viii) shortage/excess, if any.
 - B. Finished products/By-products:**
 - (i) opening stock;
 - (ii) purchases during the previous year;

- (iii) quantity manufactured during the previous year;
- (iv) sales during the previous year;
- (v) closing stock;
- (vi) shortage/excess, if any.

[Clause 35 (a) and (b)]

61. Clause 35(a)

61.1 The tax auditor should obtain certificates from the assessee in respect of the principal items of goods traded, the balance of the opening stock, purchases, sales and closing stock and the extent of shortage/ excess/damage and the reasons thereof.

62. Clause 35(b)

62.1 This information should be given only in respect of those items where it is practicable to do so, having regard to the records maintained by the assessee.

62.2 In a large concern it may be difficult for tax auditor to verify each and every item of purchase, consumption and production. In such cases, he may verify the figures on a sampling method and satisfy himself as to the correctness of the figures furnished. This clause requires that quantitative details of "principal items" of raw materials and finished goods should be given. Therefore, information about petty items need not be given. What would constitute principal items will depend on the facts of each case. Normally, items which constitute more than 10% of the aggregate value of purchases, consumption or turnover may be classified as principal items.

62.3 The information about 'yield', 'percentage of yield', and 'shortages/ excess' is also required to be given.

62.4 In respect of assesseees other than companies and those whose accounts have not been audited under any other law, the tax auditor should obtain the following certified documents for the principal items of raw materials, finished goods and by-products:

- (a) Certificate from the assessee certifying the balance of the opening stock, purchases, sales and closing stock.
- (b) Certificate to the extent of shortage/excess/damage and the reasons thereof.

62.5 By-products represent products whose manufacture results incidentally from the manufacture of the main product or where the waste arising in the manufacture of main product is further processed to create a by-product. Where the by product so produced or is continuously generated it should be treated for the purpose of sale and disposal at par with at any other product produced by the company and similar records should be maintained. The quantitative details on the above lines are to be given in respect of by-product also.

63. In the case of a domestic company, details of tax on distributed profits under section 115-O in the following form:-

- (a) total amount of distributed profits;**
- (b) amount of reduction as referred to in section 115-O(1A)(i);**
- (c) amount of reduction as referred to in section 115-O(1A)(ii);**
- (d) total tax paid thereon;**
- (e) dates of payment with amounts.**

[Clause 36]

63.1 Section 115-O provides for a special levy at the prescribed rate, on the amount of dividend declared, distributed or paid by such company whether such dividend is out of current profit or accumulated profits. Vide this clause the tax auditor has to report on profit distributed during the financial year and therefore, the amount of tax worked and paid out on such distributed profit at the prescribed rate plus surcharge at the applicable rate on the tax along with the education cess thereon has to be reported against this clause. The amount of the dividend referred to in sub-section (1) is to be reduced by the amount referred to in sub-section (1A). Since the tax is payable on such reduced amount, the gross amount may be reported in the sub-clause (a) and the amount of reduction as referred to in section 115-O(1A)(i) and 115-O(1A)(ii) shall be reported in sub-clause (b) and (c) separately. The tax auditor should keep the working papers to reveal how the net amount has been arrived at.

63.2 It may be noted that for the purposes of chapter XII-D containing special provisions relating to tax on distributed profits of domestic companies the expression “dividends” shall have the same meaning as is given to “dividend” in clause (22) of section 2 but shall not include sub-clause (e) thereof. However, the tax auditor need not go into the question of how the total amount of distributed profits has been arrived at.

63.3 The next requirement is to report the tax paid thereon and the date of payment. The date of payment of tax can be ascertained by the tax auditor from the duly received challan and books of account etc.

63.4 In this clause, the total amount of profits distributed in the previous year, tax paid thereon and the date of payment of tax is required to be given. Information about the date of declaration/distribution of dividend or payment of dividend is not required to be given.
