|                              | <u>69,000</u> |  | <u>32,42,000</u> |

Average due date = Base date + Days equal to  $\frac{\text{Total of products}}{\text{Total amount}}$ 

=  $15^{\text{th}}$  March, 2019 +  $\frac{32,42,000}{69,000}$ 

= 15<sup>th</sup> March, 2019 + 47 days =1<sup>st</sup> May, 2019

Interest amount: Interest can be calculated on ₹ 69,000 after 1st May, 2019 to 30th June, 2019 at 10% p.a. i.e. interest on ₹ 69,000 for 60 days at 10% p.a. =₹ 69,000 x 10/100 x 60/365 = ₹ 1,134 (approx.)

# Partners' Capital Accounts

# Working Notes:

1. Calculation of gaining ratio

| Partners | New ratio     | Old ratio      | Gain  | Sacrifice      |
|----------|---------------|----------------|---|----------------|
| E        |               | <u>5</u><br>10 |   | <u>5</u><br>10 |
| F        | $\frac{1}{2}$ | <u>3</u><br>10 | $\frac{1}{2} - \frac{3}{10} = \frac{2}{10}$ |                |
| G        | $\frac{1}{2}$ | 2<br>10        | $\frac{1}{2} - \frac{2}{10} = \frac{3}{10}$ |                |

Hence, ratio of gain between F and G = 2:3

# 2. Value of total goodwill of the firm = ₹ 25,000 × 2 = ₹ 50,000

- E's share = ₹ 50,000 ×  $\frac{5}{10}$  = Rs.25,000 F will bear = ₹ 25,000 ×  $\frac{2}{5}$  = Rs.10,000 G will bear = ₹ 25,000 ×  $\frac{3}{5}$  = Rs.15,000
- 3. H's share of goodwill = ₹ 50,000 ×  $\frac{1}{4}$  = ₹ 12,500

F and G share equal profits. Therefore, their sacrificing ratio will also be equal Hence, each of them will be credited with ₹ 6,250

- 16. A customised accounting software is one where the software is developed on the basis of requirement specifications provided by the organisation. The choice of customised accounting software could be because of the typical nature of the business or else the functionality desired to be computerised is not available in any of the pre-packaged accounting software. An organisation desiring to have an integrated software package covering most of the functional area may have the financial module as part of the entire customised system.
- 17 (a) (i) The decision of making provision for non-moving inventories on the basis of technical evaluation does not amount to change in accounting policy. Accounting policy of a company may require that provision for non-moving inventories should be made. The method of estimating the amount of provision may be changed in case a more prudent estimate can be made. In the given case, considering the total value of inventory, the change in the amount of required provision of non-moving inventory from ₹ 3.5 lakhs to ₹ 2.5 lakhs is also not material. The disclosure can be made for such change in the following lines by way of notes to the accounts in the annual accounts of ABC Ltd. for the year 2019-20:

"The company has provided for non-moving inventories on the basis of technical evaluation unlike preceding years. Had the same method been followed as in the previous year, the profit for the year and the corresponding effect on the year end net assets would have been lower by ₹ 1 lakh."

(ii) 1. False; As per AS 1 "Disclosure of Accounting Policies", certain fundamental accounting assumptions underlie the preparation and presentation of financial statements. They are usually not specifically stated because their acceptance and use are assumed. Disclosure is necessary if they are not followed.

- 2. False; As per AS 1, if the fundamental accounting assumptions, viz. Going Concern, Consistency and Accrual are followed in financial statements, specific disclosure is not required. If a fundamental accounting assumption is not followed, the fact should be disclosed.
- 3. True; To ensure proper understanding of financial statements, it is necessary that all significant accounting policies adopted in the preparation and presentation of financial statements should be disclosed. The disclosure of the significant accounting policies as such should form part of the financial statements and they should be disclosed in one place.
- 4. False; Any change in the accounting policies which has a material effect in the current period or which is reasonably expected to have a material effect in later periods should be disclosed. Where such amount is not ascertainable, wholly or in part, the fact should be indicated.

#### (b) Calculation of cost for closing inventory

| Particulars  | ₹               |
|--|-----------------|
| Cost of Purchase (10,200 x 10)                       | 1,02,000        |
| Direct Labour  | 76,500          |
| Fixed Overhead 75,000 x 10,200<br>15,000             |                 |
| Cost of Production                                   | <u>2,29,500</u> |
| Cost of closing inventory per unit (2,29,500/10,200) | ₹ 22.50         |
| Net Realisable Value per unit                        | ₹ 20.00         |

Since net realisable value is less than cost, closing inventory will be valued at ₹ 20.

As NRV of the finished goods is less than its cost, relevant raw materials will be valued at replacement cost i.e.  $\gtrless$  9.50.

| Therefore, value of closing inventory: Finished Goods (1,200 x 20) | ₹ 24,000       |
|--|----------------|
| Raw Materials (900 x 9.50)   | <u>₹ 8,550</u> |

Investing Activities: e, g, h, i.

Financing Activities: a, d, f, j.

(b) (i) The depreciable amount of a tangible fixed asset should be allocated on a systematic basis over its useful life. The depreciation method should reflect the

₹ 32,550

pattern in which the asset's future economic benefits are expected to be consumed by the entity. Useful life means the period over which the asset is expected to be available for use by the entity. Depreciation should commence as soon as the asset is acquired and is available for use. Thus, the policy of Entity A is not acceptable.

(ii) The entity has charged depreciation using the straight-line method at ₹ 10,000 per annum i.e (1,00,000/10 years). On 1<sup>st</sup> January 2020, the asset's net book value is [1,00,000 – (10,000 x 4)] = ₹ 60,000.

The remaining useful life is 4 years. The company should amend the annual provision for depreciation to charge the unamortised cost over the revised remaining life of four years. Consequently, it should charge depreciation for the next 4 years at ₹ 15,000 per annum i.e. (60,000 / 4 years). Depreciation is recognised even if the Fair value of the Asset exceeds its Carrying Amount. Repair and maintenance of an asset do not negate the need to depreciate it.

**19.** (a) The amounts of revenue, expenses and profit recognized in the statement of profit and loss in three years are computed below:

- (b) As per AS 9 "Revenue Recognition", in a transaction involving the sale of goods, performance should be regarded as being achieved when the following conditions are fulfilled:
  - the seller of goods has transferred to the buyer the property in the goods for a price or all significant risks and rewards of ownership have been transferred to the buyer and the seller retains no effective control of the goods transferred to a degree usually associated with ownership; and
  - (ii) no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods.

**Case (i)** The sale is complete but delivery has been postponed at buyer's request. Meghna Ltd. should recognize the entire sale of  $\gtrless$  60,000 for the year ended 31<sup>st</sup> March, 2019.

**Case (ii)** 20% goods lying unsold with consignee should be treated as closing inventory and sales should be recognized for  $\gtrless$  1,20,000 (80% of  $\gtrless$  1,50,000). In case of consignment sale revenue should not be recognized until the goods are sold to a third party.

**Case (iii)** In case of goods sold on approval basis, revenue should not be recognized until the goods have been formally accepted by the buyer or the buyer has done an act adopting the transaction or the time period for rejection has elapsed or where no time has been fixed, a reasonable time has elapsed. Therefore, revenue should be recognized for the total sales amounting  $\gtrless$  1,20,000 as the time period for rejecting the goods had expired.

**Case (iv)** Trade discounts given should be deducted in determining revenue. Thus  $\mathfrak{F}$  39,000 should be deducted from the amount of turnover of  $\mathfrak{F}$  7,80,000 for the purpose of recognition of revenue. Thus, revenue should be  $\mathfrak{F}$  7,41,000.

- 20. (a) (1) Costs of testing whether the asset is functioning properly, after deducting the net proceeds from selling any items produced while bringing the asset to that location and condition (such as samples produced when testing equipment) will be classified as "Directly attributable cost of PPE".
  - (2) Costs of conducting business in a new location or with a new class of customer (including costs of staff training) will be classified under head (iii)as it will not be included in determining the carrying amount of an item of PPE.
  - (3) Any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by

management will be included in determination of Purchase Price of PPE

- (4) Costs of opening a new facility or business, such as, inauguration costs will be classified under head (iii) as it will not be included in determining the carrying amount of an item of PPE.
- (5) Purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates will be included in determination of Purchase Price of PPE.
- (b) As per AS 13 'Accounting for Investments', where long-term investments are reclassified as current investments, transfers are made at the lower of cost and carrying amount at the date of transfer. And where investments are reclassified from current to long term, transfers are made at lower of cost and fair value on the date of transfer. Accordingly, the re-classification will be done on the following basis:
  - (i) In this case, carrying amount of investment on the date of transfer is less than the cost; hence this re-classified current investment should be carried at ₹ 6.5 lakhs in the books.
  - (ii) In this case, reclassification of current investment into long-term investments will be made at ₹ 10 lakhs as cost is less than its market value of ₹ 12 lakhs.
  - (iii) In this case, the book value of the investment is ₹ 12 lakhs, which is lower than its cost i.e. ₹ 18 lakhs. Here, the transfer should be at carrying amount and hence this re-classified current investment should be carried at ₹ 12 lakhs.

The minutes of the second meeting of Board of Directors of GHWX Private Limited held on 7 September, 2018 were prepared and they were entered in Minutes Book of meeting of Board of Directors of GHWX Private Limited. One of the directors, Mr. N. opined that minute books of meetings of Board of Directors of GHWX private limited for the years starting with 2009 to 2015 should be shredded to ruins as these papers were taking a lot of space. 1. Pankaj appoints Shruti as his agent to sell his estate. Shruti, on looking over the estate before selling it, finds the existence of a good quality Granite-Mine on the estate, which is unknown to Pankaj. Shruti buys the estate herself after informing Pankaj that she (Shruti) wishes to buy the estate for herself but conceals the existence of Granite-Mine. One month later ' Ashley ' revokes the surety, when 'Chand' had already lent to 'Bommy' ₹ 10,000 (ten thousand). Referring to the provisions of the Indian Contract Act, 1872. Decide:
  - (i) Whether 'Ashley ' is discharged from all the liabilities to 'Chand' for any subsequent loan given to ' Bommy'?

### SUGGESTED ANSWERS/HINTS

### **DIVISION A - ANSWER TO CASE SCENARIO / MULTIPULE CHOICE QUESTIONS**

- 1. (A) (d)
  - (B) (b)
  - (C) (a)
- 2. (c)
- 3. (b)
- 4. (b)
- 5. (a)

### **DIVISION B - ANSWER TO DETAILES QUESTIONS**

1. Agent's duty to disclose all material circumstances & his duty not to deal on his own account without principal's consent. The problem is based on Sections 215 & 216 of the Indian Contract Act, 1872. According to Section 215, if an agent deals on his own account in the business of the agency, without obtaining the consent of his principal and without acquainting him with all material circumstances, then the principal may repudiate the transaction. On the other hand, section 216 provides that, if an agent, without the knowledge of his principal, acts on his own account in the business of the agency, then the principal section 216 provides that agency.

principal may claim any benefit which may have accrued to the agent from such a transaction. Hence in the first instance, though Pankaj had given his consent to Shruti permitting the latter to act on his own account in the business of agency, Pankaj may still repudiate the sale as the existence of the mine, a material circumstance, had not been disclosed to him.

In the second instance, Pankaj had knowledge that Shruti was acting on her own account and also that the mine was in existence; hence, Pankaj cannot repudiate the transaction under section 215. Also, under Section 216, he cannot claim any benefit from Shruti as he had knowledge that Shruti was acting on her own account in the business of the agency.

- 2. Revocation of continuing guarantee: The problem as asked in the question is based on the provisions of the Indian Contract Act 1872, as contained in Section 130 relating to the revocation of a continuing guarantee as to future transactions which can be done mainly in the following two ways:
  - 1. By Notice: A continuing guarantee may at any time be revoked by the surety as to future transactions, by notice to the creditor.
  - 2. By death of surety: The death of the surety operates, in the absence of any contract to the contrary, as a revocation of a continuing guarantee, so far as regards future transactions. (Section 131).

So far as the transactions before revocation are concerned, the liability of the surety for previous transactions (i.e. before revocation) remains.

- (i) Thus, applying the above provisions in the given case, Ashley is discharged from all the liabilities to Chand for any subsequent loan.
- (ii) Answer in the second case would differ i.e. Ashley is liable to Chand for ₹ 10,000 on default of Bommy since the loan was taken before the notice of revocation was given to Chand.
- 3. Person to be called as a holder: As per section 8 of the Negotiable Instruments Act, 1881 'holder' of a Negotiable Instrument means any person entitled in his own name to the possession of it and to receive or recover the amount due thereon from the parties thereto.

On applying the above provision in the given cases—

- (i) Yes, X can be termed as a holder because he has a right to possession and to receive the amount due in his own name.
- (ii) No, he is not a 'holder' because to be called as a 'holder' he must be entitled not only to the possession of the instrument but also to receive the amount mentioned therein.
- (iii) No, M is not a holder of the Instrument though he is in possession of the cheque, so is not entitled to the possession of it in his own name.

© The Institute of Chartered Accountants of India

- (iv) No, B is not a holder. While the agent may receive payment of the amount mentioned in the cheque, yet he cannot be called the holder thereof because he has no right to sue on the instrument in his own name.
- (v) No, B is not a holder because he is in wrongful possession of the instrument.
- 4. Sub Section (1) of Section 20 of the Payment of Bonus Act, 1965 provides that, if in any accounting year, an establishment in public sector sells any goods produced or manufactured by it or if it renders any services in competition with an establishment in private sector and if the income from such sale or service or both is not less than 20% of the gross income of such establishment, then, the provisions of this Act shall apply in relation to such establishment in public sector as they apply in relation to a like establishment in private sector.

Sub Section (2) of Section 20 of the Payment of Bonus Act, 1965 provides that, save as otherwise provided in sub-section (1), nothing in this Act shall apply to the employees employed by an establishment in public sector.

In the instant case, P Electronics Corporation, an establishment in public sector starts selling mobile sets manufactured by it, in addition to Air conditioners, so as to compete with private sector establishments of mobile sets in the market.

In the first case, the income from sale of mobile sets is 28% of the gross income of P Electronics Corporation. The employees of the Corporation went on strike for demand of bonus. The demand of the employees is tenable in this case due to the fact that income from sale of mobile sets is not less than 20% of the gross income of the establishment.

In the second case, the income from sale of mobile sets is only 18% of the gross income of the corporation; hence, demand of the employees is not tenable since income from sale of mobile sets is less than 20% of the gross income of the establishment.

5. According to Section 7Q of the Employees' Provident Funds and Miscellaneous Provisions Act, 1952 the employer shall be liable to pay simple interest @ of 12% per annum or at such higher rate as may be specified in the Scheme on any amount due from him under this Act from the date on which the amount has become so due till the date of its actual payment.

However higher rate of interest specified in the Scheme shall not exceed the lending rate of interest charged by any scheduled bank.

As per above provision, Annie can claim for the payment of interest on due amount @ 12 percent per annum or at the rate specified in the Scheme, whichever is higher, for two years. Here, in the absence of specified rate Annie can claim only 12 percent per annum interest on the due amount.

Hence, claim of Annie for interest rate of 15% is not tenable.

- **6.** As per the provisions of section 4(1) of the Payment of Gratuity Act, 1972, gratuity is payable to an employee on termination of his employment after he has rendered continuous service for not less than five years, -
  - (a) on his superannuation, or
  - (b) on his retirement or resignation, or
  - (c) on his death or disablement due to accident or disease:

Provided that the completion of continuous service of five years shall not be necessary where the termination of the employment of any employee is due to death or disablement.

**Forfeiture of Gratuity:** In accordance with the provisions of Section 4(6) of the Payment of Gratuity Act, 1972, if the services of any employee have been terminated for any act, willful omission, or negligence causing any damage or loss to or destruction of property belonging to the employer, the gratuity shall be forfeited to the extent of the damage or loss so caused.

Further, if the services of such an employee have been terminated for any act which constitutes an offence involving moral turpitude, provided that such offence is committed by him in the course of his employment, the gratuity payable to the employee may be wholly or partially forfeited.

The correctness of the decision taken by Azee Steel Ltd. in the given case, regarding forfeiture of gratuity to its employees Artha and Sun may be tested in the light of Section 4(6) of the Payment of Gratuity Act, 1972 as referred above.

- (i) Artha, as per the given facts, refused to surrender the occupied land belonging to the company. This reflects unauthorized occupation or holding of land and deliberate appropriation of the company's property by him. This may be termed as disorderly conduct on the part of Artha. Hence, his gratuity may be forfeited by the company as per the provisions of section 4(6) the Payment of Gratuity Act, 1972.
- (ii) Sun had wrongfully continued to occupy the company's quarter for six months after superannuation. Sun may have caused a deliberate loss to the company by his wrongful occupation for 6 months as the quarter could not be provided to another employee and the company may have incurred the cost of rent in such case. Hence, the company is entitled to charge rent from him and after adjusting other dues the remaining amount of gratuity if any, should be paid.

In a similar case to the situation given in the question, *[Wazir Chand vs. Union of India, 2001, LLR172 (SC)]*, the court has taken view that there is no illegality in those rental dues being adjusted against the death-cum-retirement dues of the appellant.

7. According to section 103 of the Companies Act, 2013, unless the articles of the company provide for a larger number in case of a public company, five members personally present if the number of members as on the date of meeting is not more than one thousand, shall be the quorum.

In this case the quorum for holding a general meeting is 7 members to be personally present (higher of 5 or 7). For the purpose of quorum, only those members are counted who are entitled to vote on resolution proposed to be passed in the meeting.

Again, only members present in person and not by proxy are to be counted. Hence, proxies whether they are members or not will have to be excluded for the purposes of quorum.

If a company is a member of another company, it may authorize a person by resolution to act as its representative at a meeting of the latter company, then such a person shall be deemed to be a member present in person and counted for the purpose of quorum Where two or more companies which are members of another company, appoint a single person as their representative then each such company will be counted as quorum at a meeting of the latter company.

Further the President of India or Governor of a State, if he is a member of a company, may appoint such a person as he thinks fit, to act as his representative at any meeting of the company. A person so appointed shall be deemed to be a member of such a company and thus considered as member personally present.

In view of the above there are only three members personally present.

'A' will be included for the purpose of quorum. B & C have to be excluded for the purpose of quorum because they represent the preference shares and since the agenda being the appointment of Managing Director, their rights cannot be said to be directly affected and therefore, they shall not have voting rights. D will have two votes for the purpose of quorum as he represents two companies 'Y Ltd.' and 'Z Ltd.' E, F, G and H are not to be included as they are not members but representing as proxies for the members.

Thus, it can be said that the requirements of quorum has not been met and it shall not constitute a valid quorum for the meeting.

- 8. Restrictions on purchase by company or giving of loans by it for purchase of its share: As per section 67 (3) of the Companies Act, 2013 a company is allowed to give a loan to its employees subject to the following limitations:
  - (a) The employee must not be a Key Managerial Personnel;
  - (b) The amount of such loan shall not exceed an amount equal to six months' salary of the employee.
  - (c) The shares to be subscribed must be fully paid shares

In the given instance, Human Resource Manager is not a Key Managerial Personnel of the K Ltd. He is drawing salary of ₹ 30,000 per month and loan taken to buy 500 partly paid up equity shares of ₹ 1000 each in K Ltd.

Keeping the above provisions of law in mind, the company's (K Ltd.) decision is invalid due to two reasons:

- i. The amount of loan being more than 6 months' salary of the HR Manager, which should have restricted the loan to ₹ 1.8 Lakh.
- ii. The shares subscribed are partly paid shares whereas the benefit is available only for subscribing fully paid shares.
- **9.** As per section 5 of the Companies Act, 2013 the article may contain provisions for entrenchment to the effect that specified provisions of the articles may be altered only if more restrictive conditions than a special resolution, are met.

The provisions for entrenchment shall only be made either on formation of a company, or by an amendment in the articles agreed to by all the members of the company in the case of a private company and by a special resolution in the case of a public company.

Where the articles contain provisions for entrenchment, whether made on formation or by amendment, the company shall give notice to the Registrar of such provisions in prescribed manner.

In the present case, Yadav Dairy Products Private Limited is a private company and wants to protect provisions of articles regarding forfeiture of shares. It means it wants to make entrenchment of articles, which is allowed. But the company will have to pass a resolution taking permission of all the members and it should also give notice to Register of Companies regarding entrenchment of articles.

### 10. Meaning and Measures of Corporate Governance:

**Meaning:** "Corporate governance is about promoting corporate fairness, transparency and accountability. It is concerned with the structures and processes for decision-making, accountability, control and behavior at the top level of organizations. It influences how the objectives of an organization are set and achieved, how risk is monitored and assessed and how performance is optimized.

**Measures:** In general, corporate governance measures include appointing non-executive directors, placing constraints on management power and ownership concentration, as well as ensuring proper disclosure of financial information and executive compensation. Many companies have established ethical and/or social responsibility committees on their Boards to review strategic plans, assess progress and offer guidance on social responsibilities of their business. In addition to having committees and Boards, some companies have adopted guidelines governing their own policies around such issues like board diversity, independence, and compensation. Indian companies are also required to comply with Clause 49 of the listing agreement.

**11.** The reasons which lead to unethical behaviour are as follows:

### (i) Emphasis on short term results.

This is one of the primary reasons which has led to the downfall of many companies like Enron and Worldcom.

#### (ii) Ignoring small unethical issues.

It is a known fact that most of the compromises we make are small but however they lead us into committing large infractions. And ignoring minor lapses, lead to bigger and more huge mistakes.

#### (iii) Economic cycles.

In good times, companies are relaxed in their accounting procedures or disclosures, as there is a pervasive feel-good effect. But when times of hardship follow, then the hit taken by them is almost fatal, as was proved in the Enron case. So, companies need to watch out for economic cycles and be vigilant in good times as well as bad.

#### (iv) Accounting rules.

In the era of globalization and massive cross border flow of capital, accounting rules are changing faster than ever before. The rules have become more complex and it is difficult to identify deviations from these complex set of requirements. The complexity of these principles and rules and the difficulty associated with identifying abuse are reasons which may promote unethical behaviour.

12. Discriminatory Practices in Employment: Discrimination in employment is wrong because it violates the basic principle of justice by differentiating between people on the basis of characteristics (race or sex) that are not relevant to the tasks they must perform.

It is consequently understandable that the law has gradually been changed to conform to these moral requirements, and that there has been a growing recognition of the various ways in which discrimination in employment occurs. Among the practices now widely recognized as discriminatory are the following:

- 1. **Recruitment Practices:** Firms that rely solely on the word-of-mouth referrals of present employees to recruit new workers tend to recruit only from those racial and sexual groups that are already represented in their labor force. In such a case, recruitment would tend to be discriminatory.
- 2. Screening Practices: Job qualifications are discriminatory when they are not relevant to the job to be performed (e.g., requiring a high school diploma or a credential for an essentially manual task.). Job interviews are discriminatory if the interviewer routinely disqualifies certain class of people for example assumptions about occupations "suitable for women" or the propriety of putting women in "male "environments.
- 3. **Promotion Practices:** Promotion, job progression, and transfer practices are discriminatory when employers place males on job tracks separate from those open to women and minorities. When promotions rely on the subjective recommendations of immediate supervisors.
- 4. Conditions of Employment: Many times, wages and salaries are discriminatory to the extent that equal wages and salaries are not given to people who are doing

38

essentially the same work. Another issue is related to fair wages and treatment to workers. Companies subcontracting manufacturing operations abroad are now aware of the ethical issues associated with supporting facilities like child labour that abuse and/or underpay their work forces. Such facilities have been termed "sweatshops."

- 5. **Dismissal:** Firing an employee on the basis of his or her race or sex is a clear form of discrimination. Less blatant but still discriminatory are layoff policies that rely on a seniority system, in which women and minorities have the lowest seniority because of past discrimination.
- **13.** The importance of communication in the industrial organization has increased immensely in these days. The following factors are responsible for the growing importance of communication:
  - (a) Growth in the size and multiple locations of organizations: Most of the organizations are growing larger and larger in size. The people are working in the country and abroad, of these organizations. Keeping in touch, sending directions across and getting feedback is possible only when communication lines are kept working effectively.
  - (b) Growth of trade unions: Over the last so many decades, trade unions have been growing strong. No management can be successful without taking the trade unions into confidence. Effective communication will create relationship between the management and the workers.
  - (c) Growing importance of human relations: Workers in an organization are not like machines. They have their own hopes and aspirations. Management has to recognize them and should work with the spirit of integration so that human relations may be maintained. This may only be achieved though effective communication.
  - (d) Public relations: Every organization has a social responsibility towards customers, government, suppliers and the public at large. Communication is the only way an organization can project a positive image of itself.
  - (e) Advances in behavioral sciences: Modern management is deeply influenced by exciting discoveries made in behavioral sciences like psychology, sociology, transactional analysis etc. All of them throw light on suitable aspects of human nature and help in developing a positive attitude towards life and building up meaningful relationship. This is possible only through communication.
  - (f) **Technological advancement:** The world is changing very fast, owing to scientific and technological advancements. These advancements deeply affect not only the methods of work but also the compositions of groups. In such a situation, proper communication between superiors and subordinates becomes very necessary.
- **14.** (i) The given statement "Rumour and gossip are synonymous" is INCORRECT.

Rumours and gossip seem to be an inevitable part of everyday corporate life. Even though rumours and gossip often travel through the same network, there is a distinction between the terms. Rumours tend to focus on events and information, whereas gossip focuses on people. Even though managers usually treat the information as "yet to be confirmed", it may cloud judgments about the employee. The information has a way of creeping into performance evaluations and promotion decisions, even if unintended.

(ii) The given statement "Lying breaks down the trust between individuals" is CORRECT.

A lie is a false statement intended to deceive. Of all the ethical dilemmas, lying would appear to be the least morally perplexing. Most would agree that "one ought not to lie". Yet lies in business are more common that many would care to admit. Lying break down the trust between individuals, shaking the foundation of ethical communication.

**15.** Mr. Swamy S/o ..... resident ..... do hereby agree to indemnify the Tirupati Ltd. for any loss that may occur for seeking release of dividend for 150 shares of ₹ 1500.

I further declare that personally I have not received the dividend warrant in question.

Determine what should be the price for the job if factory intends to earn the same rate of profit on sales assuming that the selling and distribution overheads have gone up by 15%. The factory overheads is recovered as percentage of wages paid, whereas, other overheads as a percentage of cost of production, based on cost rates prevailing in the previous year.

### **Process Costing**

6. Star Ltd. manufactures chemical solutions for the food processing industry. The manufacturing takes place in a number of processes and the company uses FIFO method to value work-in-process and finished goods. At the end of the last month, a fire occurred in the factory and destroyed some of papers containing records of the process operations for the month.

Star Ltd. needs your help to prepare the process accounts for the month during which the fire occurred. You have been able to gather some information about the month's operating activities but some of the information could not be retrieved due to the damage. The following information was salvaged:

- Opening work-in-process at the beginning of the month was 1,600 litres, 70% complete for labour and 60% complete for overheads. Opening work-in-process was valued at ₹ 1,06,560.
- Closing work-in-process at the end of the month was 320 litres, 30% complete for labour and 20% complete for overheads.
- Normal loss is 10% of input and total losses during the month were 1,200 litres partly due to the fire damage.

- Output sent to finished goods warehouse was 8,400 litres.
- Losses have a scrap value of ₹15 per litre.
- All raw materials are added at the commencement of the process.
- The cost per equivalent unit (litre) is ₹78 for the month made up as follows:

- (iii) Calculate the values of raw material, labour and overheads added to the process during the month.
- (iv) Prepare the process account for the month.

### **Operating Costing**

7. SMC is a public school having five buses each plying in different directions for the transport of its school students. In view of a larger number of students availing of the bus service the buses work two shifts daily both in the morning and in the afternoon. The buses are garaged in the school. The work-load of the students has been so arranged that in the morning the first trip picks up senior students and the second trip plying an hour later picks up the junior students. Similarly in the afternoon the first trip takes the junior students and an hour later the second trip takes the senior students home.

The distance travelled by each bus one way is 10 km. The school works 25 days in a month and remains closed for vacation in May, June and December. Bus fee, however, is payable by the students for all 12 months in a year.

The details of expenses for a year are as under:

| Driver's salary                               | ₹ 9,000 per month per driver |
|---|------------------------------|
| Cleaner's salary                              | ₹ 6,000 per month            |

Each bus gives an average mileage of 4 km. per litre of diesel.

Seating capacity of each bus is 50 students.

The seating capacity is fully occupied during the whole year.

Students picked up and dropped within a range upto 5 km. of distance from the school are charged half fare and fifty per cent of the students travelling in each trip are in this category. Ignore interest. Since the charges are to be based on average cost you are required to :

- (i) Prepare a statement showing the expenses of operating a single bus and the fleet of five buses for a year.
- (ii) Work out the average cost per student per month in respect of -
  - (A) students coming from a distance of upto 5 km. from the school and
  - (B) students coming from a distance beyond 5 km. from the school.

### SUGGESTED HINTS/ANSWERS

1. Workings:

#### Consumption is calculated on the basis of material requisitions:

Maximum component usage = 4,500 units (Material requisition on 10-01-20) Minimum component usage = 1,500 units (Material requisition on 24-01-20) Lead time is calculated from purchase order date to material received date Maximum lead time = 21 days (15-12-2019 to 05-01-2020)

### **Calculations:**

## (i) Re-order level

- = Maximum usage × Maximum lead time
- = 4,500 units × 21 days = 94,500 units

#### (ii) Maximum stock level

- = Re-order level + Re-order Quantity (Min. Usage × Min. lead time)
- = 94,500 units + 10,000 units (1,500 units × 14 days)
- = 1,04,500 units 21,000 units = 83,500 units

#### (iii) Minimum stock level

- = Re-order level (Avg. consumption × Avg. lead time)
- = 94,500 units (3,000 units × 17.5 days)
- = 94,500 units 52,500 units
- = 42,000 units

#### (iv) Value of components used during the month of January 2020:

Sum of material requisitions 011 to 016 ('000)

= ₹ 29,694 + ₹ 44,541 + ₹ 21,611 + ₹ 14,734 + ₹ 39,156 + ₹ 31,325 = ₹ 1,81,061

### (v) Inventory Turnover Ratio

 $= \frac{\text{Value of materials used}}{\text{Average stock value}}$ 

$$= \frac{₹ 1,81,061}{₹(1,39,001+34,335)/2} = \frac{₹ 1,81,061}{₹ 86,668} = 2.09$$

### (i) Separation Method:

= No. of workers left + No. of workers discharged × 100 Average number of workers

$$=\frac{(40+120)}{(3,600+3,790)/2} \times 100 = \frac{160}{3,695} \times 100 = 4.33\%$$

#### (ii) Replacement Method:

$$= \frac{\text{No. of workers replaced}}{\text{Average number of workers}} \times 100 = \frac{150}{3,695} \times 100 = 4.06\%$$

## (iii) New Recruitment Method:

 $\frac{\text{No. of workers newly recruited}}{\text{Average number of workers}} \times 100$ =

$$= \frac{\text{No. Recruitments - No. of Replacements}}{\text{Average number of workers}} \times 100$$

$$=\frac{350-150}{3,695} \times 100 = \frac{200}{3,695} \times 100 = 5.41\%$$

### (iv) Flux Method:

$$= \frac{\text{No. of separations + No. of accessions}}{\text{Average number of workers}} \times 100$$

$$=\frac{(160+350)}{(3,600+3,790) / 2} \times 100 = \frac{510}{3,695} \times 100 = 13.80\%$$

Overheads of service cost centres:

Let  $S_1$  be the overhead of service cost centre  $S_1$  and  $S_2$  be the overhead of service cost centre  $S_2$ .

$$\begin{split} S_1 &= 6,46,292 \, + \, 0.10 \, \, S_2 \\ S_2 &= 1,79,625 \, + \, 0.10 \, \, S_1 \\ \text{Substituting the value of } S_2 \, \text{in } S_1 \, \text{we get} \\ S_1 &= 6,46,292 \, + \, 0.10 \, \, (1,79,625 \, + \, 0.10 \, \, S_1) \\ S_1 &= 6,46,292 \, + \, 17,962.5 \, + \, 0.01 \, \, S_1 \end{split}$$

0.99 S<sub>1</sub> = 6,64,254.5

∴S<sub>1</sub> = ₹6,70,964

 $\therefore S_2 = 1,79,625 + 0.10 \times 6,70,964$ 

= ₹2,46,721.4

- 2. Percentage of administration overheads to Cost of production

Selling and distribution overheads = ₹10,50,000 × 115% = ₹12,07,500
 Selling and distribution overhead % to Cost of production

4. Percentage of profit to sales = 
$$\frac{₹12,18,000}{₹73,08,000} \times 100 = 16.67\%$$

#### 11. (a) Difference between Cost Accounting and Management Accounting

#### (b) The impact of IT in cost accounting system may include the following:

- (i) After the introduction of ERPs, different functional activities get integrated and as a consequence a single entry into the accounting system provides custom made reports for every purpose and saves an organisation from preparing different sets of documents. Reconciliation process of results of both cost and financial accounting systems become simpler and less sophisticated.
- (ii) A move towards paperless environment can be seen where documents like Bill of Material, Material Requisition Note, Goods Received Note, labour utilisation report etc. are no longer required to be prepared in multiple copies, the related department can get e-copy from the system.
- (iii) Information Technology with the help of internet (including intranet and extranet) helps in resource procurement and mobilisation. For example, production department can get materials from the stores without issuing material requisition note physically. Similarly, purchase orders can be initiated to the suppliers with the help of extranet. This enables an entity to shift towards Just-in-Time (JIT) approach of inventory management and production.

- (iv) Cost information for a cost centre or cost object is ascertained with accuracy in timely manner. Each cost centre and cost object is codified and all related costs are assigned to the cost object or cost centre. This process automates the cost accumulation and ascertainment process. The cost information can be customised as per the requirement. For example, when an entity manufacture or provide services, it can know information job-wise, batch-wise, process-wise, cost centre wise etc.
- (v) Uniformity in preparation of report, budgets and standards can be achieved with the help of IT. ERP software plays an important role in bringing uniformity irrespective of location, currency, language and regulations.
- (vi) Cost and revenue variance reports are generated in real time basis which enables the management to take control measures immediately.
- (vii) IT enables an entity to monitor and analyse each process of manufacturing or service activity closely to eliminate non value added activities.

The above are examples of few areas where Cost Accounting is done with the help of IT.

- (c) Escalation clause in a contract empowers a contractor to revise the price of the contract in case of increase in the prices of inputs due to some macro-economic or other agreed reasons. A contract takes longer period to complete and the factors based on which price negotiation is done at the time of entering into the contract may change till the contract completes. This protect the contractor from adverse financial impacts and empowers the contractor to recover the increased prices. As per this clause, the contractor increases the contract price if the cost of materials, employees and other expenses increase beyond a certain limit. Inclusion of such a clause in a contract deed is called an "Escalation Clause".
- (d) By-product cost can be dealt in cost accounting in the following ways:
  - (i) When they are of small total value: When the by-products are of small total value, the amount realised from their sale may be dealt in any one the following two ways:
    - 1. The sales value of the by-products may be credited to the Costing Profit and Loss Account and no credit be given in the Cost Accounts. The credit to the Costing Profit and Loss Account here is treated either as miscellaneous income or as additional sales revenue.
    - 2. The sale proceeds of the by-product may be treated as deductions from the total costs. The sale proceeds in fact should be deducted either from the production cost or from the cost of sales.
  - (ii) When the by-products are of considerable total value: Where by-products are of considerable total value, they may be regarded as joint products rather

#### PAPER – 3: COST ACCOUNTING AND FINANCIAL MANAGEMENT 25

than as by-products. To determine exact cost of by-products the costs incurred upto the point of separation, should be apportioned over by-products and joint products by using a logical basis. In this case, the joint costs may be divided over joint products and by-products by using relative market values; physical output method (at the point of split off) or ultimate selling prices (if sold).

(iii) Where they require further processing: In this case, the net realisable value of the by-product at the split-off point may be arrived at by subtracting the further processing cost from the realisable value of by-products.

If total sales value of by-products at split-off point is small, it may be treated as per the provisions discussed above under (*i*).

In the contrary case, the amount realised from the sale of by-products will be considerable and thus it may be treated as discussed under (*ii*).

#### SUGGESTED HINTS/ANSWERS

#### 1. Computation of Rate of Interest and Revised Maturity Value

Principal = ₹ 10,000 Amount = ₹ 12,625 ₹ 10,000 =  $\frac{₹12,625}{(1+i)^4}$ P<sub>n</sub> = A × (PVF<sub>n, i</sub>)

 $0.7921 = (PVF_{4, i})$ 

According to the Table on Present Value Factor ( $PVF_{4,i}$ ) of a lump sum of ₹1, a PVF of 0.7921 for half year at interest (i) = 6 percent. Therefore, the annual interest rate is 2 × 0.06 = 12 percent.

I = 6% for half year I = 12% for full year.

Therefore, Rate of Interest = 12% per annum

Revised Maturity Value =₹10,000 
$$\left(1+\frac{12}{100}\times\frac{1}{4}\right)^{2\times4}$$
 = 10,000  $\left(1+\frac{3}{100}\right)^{8}$  =10,000 (1.03)<sup>8</sup>  
= ₹ 10,000 × 1.267 [Considering (CVF<sub>8,3</sub>) = 1.267]

Revised Maturity Value = ₹ 12,670

#### 2. Ratios for the year 2019-2020

(a) Inventory turnover ratio

$$= \frac{\text{COGS}}{\text{Average Inventory}} = \frac{\text{₹21,100}}{\frac{\text{₹}(2,500+2,000)}{2}} = 9.4$$

(b) Financial leverage

= 
$$\frac{\text{EBIT}}{\text{EBT}}$$
 =  $\frac{₹950}{₹650}$  = 1.46

(c) ROCE

$$= \frac{\text{EBIT (1-t)}}{\text{Average Capital Employed}} = \frac{₹ 950 (1-0.3)}{₹ \left(\frac{6,000+5,500}{2}\right)} = \frac{₹ 665}{₹ 5,750} \times 100 = 11.56 \%$$

[Here, Return on Capital Employed (ROCE) is calculated after Tax]

(d) ROE

$$=\frac{\text{Profits after tax}}{\text{Average shareholders' funds}} = \frac{₹ 455}{₹ 2,500} \times 100 = 18.2\%$$

(e) Average Collection Period

Average Sales per day =  $\frac{₹ 23,800}{365}$  = ₹ 65.20 lakhs

Average collection period =  $\frac{\text{Average Receivables}}{\text{Average sales per day}}$ 

$$= \frac{\frac{₹(1,400+1,100)}{2}}{\frac{₹ 65.2}{₹ 65.2}} = \frac{₹ 1,250}{₹ 65.2} = 19.17 \text{ days}$$

### Working Notes (W.N.):

1. Cost of equity capital:

$$K_e = \frac{\text{Expected Dividend}(D_1)}{\text{Current Market Price per share}(P_0)} + \text{Growth}(g) = \frac{₹10}{₹200} + 0.05 = 10\%$$

2. Cost of 10% Debentures:

 $= \frac{I(1-t)}{NP} = \frac{₹10,00,000(1-0.35)}{₹1,00,00,000} = 0.065 \text{ or } 6.5\%$ 

(ii) Computation of Weighted Average Cost of Capital based on new capital structure

|                         | 4,10,00,000 | 1.00  |      | 10.32 |

Working Notes (W.N.):

3. Cost of equity capital:

 $K_e = \frac{\text{Expected Dividend}(D_1)}{\text{Current Market Price per share}(P_0)} + \text{Growth}(g)$  $= \frac{₹12.4}{₹160} + 0.05 = 0.1275 \text{ or } 12.75\%$ 

4. Cost of 12% Debentures

$$= \frac{₹6,00,000(1-0.35)}{₹50,00,000} = 0.078 \text{ or } 7.8\%$$
  
K<sub>d</sub> =  $\frac{₹2,40,000(1-0.35)}{₹20,00,000} = 0.078 \text{ or } 7.8\%$ 

#### 4. Computation of level of earnings before interest and tax (EBIT)

In case, alternative (i) is accepted, then the EPS of the firm would be:

EPS Alternative (i) = 
$$\frac{(\text{EBIT} - \text{Interest}) (1 - \text{tax rate})}{\text{No.of equity shares}}$$
  
=  $\frac{(\text{EBIT} - 0.12 \times \text{₹40,00,000}) (1 - 0.35)}{\text{EBIT} - 0.12 \times \text{₹40,00,000}}$ 

In case, alternative (ii) is accepted, then the EPS of the firm would be:

$$\mathsf{EPS}_{\mathsf{Alternative}\,(ii)} = \frac{(\mathsf{EBIT} - 0.12 \times \texttt{₹40}, 00, 000) \, (1 - 0.35) - (0.14 \times \texttt{₹20}, 00, 000)}{40,000 \, \mathsf{shares}}$$

In order to determine the indifference level of EBIT, the EPS under the two alternative plans should be equated as follows:

| (EB | IT - 0.12×₹40,00,000) (1-0.35)              | = (EE | $BIT - 0.12 \times \texttt{P}40,00,000) (1 - 0.35) - (0.14 \times \texttt{P}20,00,000)$ |
|-----|---|-------|---|
|     | 60,000 shares                               |       | 40,000 shares   |
| Or  | $\frac{0.65 \text{ EBIT} - ₹3,12,000}{3} =$ | 0.6   | <u>35 EBIT - ₹5,92,000</u><br>2   |
| Or  | 1.30 EBIT – ₹6,24,000                       | =     | 1.95 EBIT – ₹17,76,000  |
| Or  | (1.95 – 1.30) EBIT                          | =     | ₹17,76,000 – ₹6,24,000 = ₹11,52,000   |

| Or | FBIT | _ | ₹11,52,000 |
|----|------|---|------------|
| O  | CDII | - | 0.65       |
| Or | EBIT | = | ₹17,72,308 |

<sup>5.</sup> 

| Particulars                                | Amount (₹)  |
|--|-------------|
| Sales                                      | 85,00,000   |
| Less: Variable cost (56% of ₹85,00,000)    | (47,60,000) |
| Contribution                               | 37,40,000   |
| Less: Fixed costs                          | (20,00,000) |
| Earnings before interest and tax (EBIT)    | 17,40,000   |
| Less: Interest on debt (@ 12% on ₹45 lakh) | (5,40,000)  |
| Earnings before tax (EBT)                  | 12,00,000   |

(i) ROI = 
$$\frac{\text{EBIT}}{\text{Capital employed}} \times 100 = \frac{\text{EBIT}}{\text{Equity + Debt}} \times 100$$
  
=  $\frac{17,40,000}{55,00,000 + 45,00,000} \times 100 = 17.4\%$   
(ROI is calculated on Capital Employed)

(ii) ROI = 17.4% and Interest on debt is 12%, hence, it has a favourable financial leverage.

(iii) Capital Turnover = 
$$\frac{\text{Net Sales}}{\text{Capital}}$$

Or, = 
$$\frac{\text{Net Sales}}{\text{Capital}}$$
 =  $\frac{85,00,000}{1,00,000}$  = 0.85

Which is very low as compared to industry average of 3.

(iv) Calculation of Operating, Financial and Combined leverages

| (a) | Operating Leverage | $= \frac{\text{Contribution}}{\text{EBIT}}$ | $= \frac{37,40,000}{17,40,000} = 2.15$ |
|-----|--------------------|---|--|
| (b) | Financial Leverage | = $\frac{\text{EBIT}}{\text{EBT}}$          | $= \frac{17,40,000}{12,00,000} = 1.45$ |
| (c) | Combined Leverage  | $= \frac{\text{Contribution}}{\text{EBT}}$  | $= \frac{37,40,000}{12,00,000} = 3.12$ |

Or, = Operating Leverage × Financial Leverage = 2.15 × 1.45 = 3.12

- (v) Operating leverage is 2.15. So if sales is increased by 10%. EBIT will be increased by 2.15 × 10 i.e. 21.50% (approx.)
- (vi) Since the combined Leverage is 3.12, sales have to drop by 100/3.12 i.e. 32.05% to bring EBT to Zero

Accordingly, New Sales = ₹85,00,000 × (1-0.3205)

Hence at ₹57,75,750 sales level, EBT of the firm will be equal to Zero.

(vii) Financial leverage is 1.45. So, if EBIT increases by 20% then EBT will increase by 1.45  $\times$  20  $\,=$  29%

| 4            | 360                        | (512 - 102.4)× 20% = 81.92 | 278.08 | 166.85 | 248.77           |
| 5            | 300                        | (409.6 - 81.92) = 327.68*  | -27.68 | -16.61 | 311.07           |

\*this is treated as a short term capital loss.

- (iii) Advise: Since Net Present Value of the project at 12% = 141.36 lakhs, therefore the project should be implemented.
- (iv) Calculation of Internal Rate of Return (IRR)

$$IRR = 16\% + \frac{50.71 \times 4}{50.71 - (-26.84)}$$
$$= 16\% + \frac{2.03}{77.55} = 16\% + 2.62\% = 18.62\%.$$

7. In case of customer A, there is no increase in sales even if the credit is given. Hence comparative statement for B & C is given below:

The excess of contribution over cost of carrying Debtors is highest in case of credit period of 90 days in respect of both the customers B and C. Hence, credit period of 90 days should be allowed to B and C.

| Direct wages {(31,200 ×₹ 15) +(12,000 X ₹ 15 x 0.5)}                               | 5,58,000    |

| Gross Factory Cost   | 34,02,000   |
| Less: Closing W.I.P [12,000 (₹ 40 + ₹ 7.5 + ₹15)]                                  | (7,50,000)  |
| Cost of Goods Produced   | 26,52,000   |

| Total Cash Cost of Sales*  | 6,12,000    |

[\*Note: Alternatively, Total Cash Cost of Sales = (31,200 units – 24,000 units) x (₹ 40 + ₹ 15 + ₹ 30) = ₹ 6,12,000]

# (ii) Work in progress stock

|  | (₹)      |
|--|----------|
| Raw material requirements (12,000 units × ₹40) | 4,80,000 |
| Direct wages (50% × 12,000 units × ₹ 15)       | 90,000   |
| Overheads (50% × 12,000 units × ₹ 30)          | 1,80,000 |
|  | 7,50,000 |

#### (iii) Raw material stock

It is given that raw material in stock is average 30 days consumption. Since, the company is newly formed; the raw material requirement for production and work in progress will be issued and consumed during the year. Hence, the raw material consumption for the year (360 days) is as follows:

|                                      | (₹)       |
|--------------------------------------|-----------|
| For Finished goods (31,200 × ₹ 40)   | 12,48,000 |
| For Work in progress (12,000 × ₹ 40) | 4,80,000  |
|                                      | 17,28,000 |

Raw material stock =  $\frac{₹17,28,000}{360 \text{ days}} \times 30 \text{ days} = ₹1,44,000$ 

#### (iv) Finished goods stock:

24,000 units @ ₹ (40+15+30) per unit = ₹20,40,000

(v) Debtors for sale: ₹ 6,12,000 ×  $\frac{60 \text{ days}}{360 \text{ days}}$  = ₹ 1,02,000

#### (vi) Creditors for raw material Purchases [Working Note (iii)]:

| Annual Material Consumed (₹12,48,000 + ₹4,80,000)                      | ₹17,28,000        |
|--|-------------------|
| Add: Closing stock of raw material [(₹17,28,000 x 30 days) / 360 days] | <u>₹ 1,44,000</u> |
|  | ₹18,72,000        |

Credit allowed by suppliers =  $\frac{₹18,72,000}{360 \text{ days}} \times 30 \text{ days} = ₹1,56,000$ 

## (vii) Creditors for wages:

9.

Outstanding wage payment = [(31,200 units x ₹ 15) + (12,000 units x ₹ 15 x .50)] x 15 days / 360 days

= ₹5,58,000 360 days × 15 days = ₹ 23,250

10. (i) The profit maximisation is not an operationally feasible criterion." This statement is true because profit maximisation can be a short-term objective for any organisation and cannot be its sole objective. Profit maximization fails to serve as an operational criterion for maximizing the owner's economic welfare. It fails to provide an operationally feasible measure for ranking alternative courses of action in terms of their economic efficiency. It suffers from the following limitations:

- (a) Vague term: The definition of the term profit is ambiguous. Does it mean short term or long term profit? Does it refer to profit before or after tax? Total profit or profit per share?
- (b) Timing of Return: The profit maximization objective does not make distinction between returns received in different time periods. It gives no consideration to the time value of money, and values benefits received today and benefits received after a period as the same.
- (c) It ignores the risk factor.
- (d) The term maximization is also vague.

#### (ii) Process of Debt Securitisation:

(a) The origination function – A borrower seeks a loan from a finance company or a bank. The credit worthiness of borrower is evaluated and contract is entered into with repayment schedule structured over the life of the loan.

#### PAPER – 3: COST ACCOUNTING AND FINANCIAL MANAGEMENT

- (b) The pooling function Similar loans on receivables are clubbed together to create an underlying pool of assets. The pool is transferred in favour of Special purpose Vehicle (SPV), which acts as a trustee for investors.
- (c) The securitisation function SPV will structure and issue securities on the basis of asset pool. The securities carry a coupon and expected maturity which can be assetbased/mortgage based. These are generally sold to investors through merchant bankers. Investors are – pension funds, mutual funds, insurance funds.

The process of securitization is generally without recourse i.e. investors bear the credit risk and issuer is under an obligation to pay to investors only if the cash flows are received by him from the collateral. The benefits to the originator are that assets are shifted off the balance sheet, thus giving the originator recourse to off-balance sheet funding.

# Computation of depreciation allowance

| Particulars  | ₹ |
|--|---|
| Since the car was put to use for more than 180 days in the P.Y.2019-20, full depreciation@30% (higher rate of depreciation is allowable on the actual cost, since car is purchased during the period 23.8.2019 to 31.3.2020] of ₹ 19,20,000, which is the total price (inclusive of GST) would be allowable. |   |

| However, the depreciation actually allowed would be restricted to 75%, since 25% of usage is estimated for personal use, on which depreciation is not allowable. |          |
|--|----------|
| Depreciation for P.Y.2019-20 = 30% x ₹ 19,20,000 x 75% =   | 4,32,000 |
| Written Down Value as on 1.4.2020 = ₹ 19,20,000 – ₹4,32,000 =<br>₹14,88,000  |          |
| Depreciation for P.Y.2020-21 = 30% x ₹14,88,000 x 75% =  | 3,34,800 |

**Note** - As per section 17(5) of the CGST Act, 2017, input tax credit would not be available in respect of motor vehicles for transportation of persons having approved seating capacity of not more than thirteen persons (including the driver), except when they are used for making the taxable supplies, namely, further supply of such motor vehicles; or transportation of passengers; or imparting training on driving such motor vehicles. Since Dr. Arjun used the car for his professional purpose and not for any purpose stated in exception cases, input tax credit would not be available and hence, both CGST & SGST would form part of actual cost of car.

11. In computing the total income of any individual, there shall be included all such income as arises directly or indirectly, to the spouse of such individual from assets transferred directly or indirectly, to the spouse by such individual otherwise than for adequate consideration or in connection with an agreement to live apart.

**Interest on Ioan:** Accordingly, ₹ 80,000, being the amount of interest on Ioan received by Mrs. Sargam, wife of Mr. Rayaan, would be includible in the total income of Mr. Rayaan, since such Ioan was given out of the sum of money received by her as gift from her husband.

**Loss from business:** As per *Explanation 2* to section 64, income includes loss. Thus, clubbing provisions would be attracted even if there is loss and not income.

Thus, the entire loss of ₹ 52,000 from the business carried on by Mrs. Sargam would also be includible in the total income of Mr. Rayaan, since as on  $1^{st}$  April 2019, the capital invested was entirely out of the funds gifted by her husband.

**Short-term capital gain:** Income from the accretion of the transferred asset is not liable to be included in the hands of the transferor and, therefore, short-term capital gain of  $\overline{\mathbf{x}}$  16,000 ( $\overline{\mathbf{x}}$  96,000, being the sale consideration *less*  $\overline{\mathbf{x}}$  80,000, being the cost of acquisition) arising in the hands of Mrs. Sargam from sale of shares acquired by investing the interest income of  $\overline{\mathbf{x}}$  80,000 earned by her (from the loan given out of the sum gifted by her husband), would not be included in the hands of Mr. Rayaan. Thus, such income is taxable in the hands of Mrs. Sargam.

- 8. Yes, the view of Mr. Vicky Frankyn is correct. GST is payable under reverse charge in case of supply of services by an author by way of transfer/permitting the use or enjoyment of a copyright covered under section 13(1)(a) of the Copyright Act, 1957 relating to original literary work to a publisher located in the taxable territory in terms of reverse charge *Notification No.* 13/2017 CT(R) dated 28.06.2017. Therefore, in the given case, person liable to pay tax is the publisher SBP.

However, since SBP has completely refused to deposit the tax on the given transaction, Mr. Vicky Frankyn has an option to pay tax under forward charge on the same. For the purpose, he needs to fulfill the following conditions:

- (i) since he is unregistered, he has to first take registration under the CGST Act, 2017
- (ii) he needs to file a declaration, in the prescribed form, that he exercises the option to pay CGST on the said service under forward charge in accordance with section 9(1) of the CGST Act and to comply with all the provisions as they apply to a person liable for paying the tax in relation to the supply of any goods and/or services and that he shall not withdraw the said option within a period of 1 year from the date of exercising such option;
- (iii) he has to make a declaration on the invoice, which he would issue to SBP, in prescribed form.
- 9. (a) Notification No. 2/2019 CT (R) dated 07.03.2019 provides an option to a registered person to pay CGST @ 3% [Effective rate 6% (CGST+ SGST/ UTGST)] on first supplies of goods and/or services upto an aggregate turnover of ₹ 50 lakh made on/after 1<sup>st</sup> April in any financial year, subject to specified conditions.

It is clarified in the notification that first supplies of goods or services or both shall, for the purposes of determining eligibility of a person to pay tax under this notification, include the supplies from 1st April of a FY to the date from which he becomes liable for registration under the said Act, but for the purpose of determination of tax payable under this notification, shall not include the supplies from the first day of April of a financial year to the date from which he becomes liable for registration under the Act.

Thus, Care & Care Beauty Centre is eligible to pay tax under this notification upto the turnover of ₹ 50 lakh. The total tax payable by it is as under:-

| Period    | Tax Rate   | Turnover (₹) | Tax liability (₹) |
|-----------|--|--------------|-------------------|

- (b) No, Care & Care Beauty Centre cannot opt for composition scheme from the next financial year. Fundamentally, the composition scheme can be availed in respect of goods and only one service namely, restaurant service. As regards services other than restaurant services are concerned, only marginal supply of the such services for a specified value along with the supply of goods and/or restaurant service, as the case may be, is permitted under section 10(1) of CGST Act, 2017. Therefore, a person engaged exclusively in supply of services other than restaurant services is not eligible to opt for composition scheme.
- 10. It has been clarified vide *Circular No.* 116/35/2019 GST dated 11.10.2019 that when the name of the donor is displayed in the religious institution premises, by placing a name plate or similar such acknowledgement, which can be said to be an expression of gratitude and public recognition of donor's act of philanthropy and is not aimed at giving publicity to the donor in such manner that it would be an advertising or promotion of his business, then it can be said that there is no supply of service for a consideration (in the form of donation). There is no obligation (*quid pro quo*) on part of recipient of the donation or gift to do anything (supply a service). Therefore, there is no GST liability on such consideration.

In the given case, there is no reference or mention of any business activity of the donor which otherwise would have got advertised. Thus, since the gift or donation is made to a charitable organization, the payment has the character of gift or donation and the purpose is philanthropic (i.e., it leads to no commercial gain) and not advertisement, hence GST is not leviable.

11. (a) Services by a hotel, inn, guest house, club or campsite, by whatever name called, for residential or lodging purposes, having value of supply of a unit of accommodation below or equal to ₹ 1,000 per day or equivalent have been exempted from GST vide an exemption notification.

Thus, in view of the above-mentioned provisions, GST is not payable by Holiday Guest House on the booking done by Mr. X as the charges for a unit of accommodation per day is less than  $\gtrless$  1,000.

The answer will remain the same even if the charges of a single deluxe room per day is  $\gtrless$  1,000 as the exemption is also available in the case where value of supply of a unit of accomodation per day is  $\gtrless$  1,000/ i.e., such services are taxable only where value of supply of a unit of accommodation per day exceeds  $\gtrless$  1,000/-. Thus, no GST is payable by Holiday Guest House on the booking done by Mr. X even if the charges of a single deluxe room per day is  $\gtrless$  1,000.

(b) Services by way of storage/ warehousing of cereals, pulses, fruits, nuts and vegetables, spices, copra, sugarcane, jaggery, raw vegetable fibres such as cotton, flax, jute etc., indigo, unmanufactured tobacco, betel leaves, tendu leaves, coffee and tea have been exempted from GST under an exemption notification under GST.

Thus, no GST is payable on the services provided by M/s Damodar Ltd. by way of storage of seasonal fruits and vegetables in Bhatinda, Punjab.

- **15.** As per section 49(8) of the CGST Act, 2017, the liability of a taxable person has to be discharged in a chronological order as under:-
  - (a) self -assessed tax and other dues for the previous tax periods have to be discharged first;
  - (b) the self -assessed tax and other dues for the current period have to be discharged next;
  - (c) Once these two steps are exhausted, thereafter any other amount payable including demand determined under section 73 or section 74 of the CGST Act, 2017 to be discharged. In other words, the liability if any, arising out of demand notice and adjudication proceedings comes last.

This sequence has to be mandatorily followed.

Thus, in view of the above-mentioned provisions, Mr. Ram Narayan cannot discharge his self-assessed tax liability for the current period before settling the dues for the previous tax period.

Although many clarifications are continually being issued by way of FAQs or otherwise, many issues continue to arise on account of varying interpretations on several of its provisions. Therefore, alternate answers may be possible for the above questions depending upon the view taken.
