THEORY**MODEL 1: AMALGAMATION OF FIRMS****I. Amalgamation of Partnership firms:**

- 1. Meaning of Amalgamation:** Under amalgamation, two or more firms transfer their businesses to a new firm which is formed to take over such businesses.
- 2. Revaluation on Amalgamation:** Usually all the assets and liabilities are revalued in order to ascertain the true position as on the date of amalgamation.

3. How to close the books of amalgamating firms:

Practical Steps to close the books of amalgamating firms:

Step 1: Prepare Revaluation Account to ascertain the Profit/Loss on Revaluation of all Assets and Liabilities, and transfer such Profit/Loss to the Partners' Capital Accounts in the profit sharing ratio.

Step 2: On raising Goodwill of the firm, Goodwill should be debited and partners' capital accounts should be credited in their profit sharing ratio.

Step 3: Realise those assets which have not been taken over by the new firm and transfer such unsold assets (if any) to the Capital accounts of all the partners in the ratio of their Capitals.

Step 4: Discharge those liabilities which have not been taken over by the new firm and transfer such undischarged liabilities (if any) to the Capital Accounts of all the Partners in the ratio of their Capitals.

Step 5: Transfer all Accumulated Reserves/ Profits/ Losses to the Capital Accounts of all the Partners in the ratio of their Capitals.

Step 6: Close the accounts of liabilities taken over and the Accounts of Assets taken over by passing the following journal entry:

New Firm's Account	Dr. [With excess of Agreed Values of Assets taken over the Agreed Amount of Liabilities taken over]
--------------------	---

Liabilities taken over	Dr. [With Agreed Amount of Liabilities taken over]
------------------------	--

(Individually)

To Assets taken over (Individually)	[With Agreed Values of Assets taken over]
-------------------------------------	---

Step 7: Close the partner's Capital Accounts and the New Firm's Account by passing the following Journal entry:

Partner's Capital Accounts (Individually)	Dr. (With Individual Capital of Partners)
To New Firm's Account	(With Total)

4. How to open the books of the New Firm:

Assets taken over (Individually)	Dr. [With Agreed Values of Assets taken over]
----------------------------------	---

To Liabilities taken over (Individually)	[With Agreed Amount of Liabilities taken over]
--	--

To Partner's Capital Accounts (Individually)	[With individual Capital of Partners]
--	---------------------------------------

MODEL 2: CONVERSION OF PARTNERSHIP FIRM IN TO A COMPANY

When a partnership firm is converted into a company, it is nothing but dissolution of a firm resulting on account of conversion into a company. Thus, the same accounting procedure is followed for closing the books of the firm as followed for simple dissolution of a firm.

At times partnerships also are reconstructed like joint stock companies, with the help of creditors if they are satisfied that if by taking of further risk or forgoing a part of the debt, the chances of recovery of their loan and capital would improve.

It usually entails preparation of Reconstruction Account for determining the past losses which belong to old partners and writing them off to the debit of their capital accounts. If a creditor agrees to join as a partner the whole or only a part of the account standing to the credit of his loan account is transferred to his capital account.

MODEL 3: SALE OF PARTNERSHIP FIRM TO A COMPANY

When a partnership firm is sold to a company, it is nothing but dissolution of a firm resulting on account of sale to a company. Thus, the same accounting procedure is followed for closing the books of the firm as followed for simple dissolution of a firm.
